Dear Mr. Chen:

We have reviewed your filing and have the following comments. Where indicated, we think you should revise your document in response to these comments. If you disagree, we will consider your explanation as to why our comment is inapplicable or a revision is unnecessary. Please be as detailed as necessary in your explanation. In some of our comments, we may ask you to provide us with supplemental information so we may better understand your disclosure. After reviewing this information, we may or may not raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filing. We look forward to working with you in these respects. We welcome any questions you may have about our comments or on any other aspect of our review. Feel free to call us at the telephone numbers listed at the end of this letter.

General

1. We note that the company has indicated in its disclosure for the first time the possibility that it would repurchase up to \$30,000,000 worth of its outstanding common stock. With a view to disclosure:
 - a. Disclose any and all contacts between you, your officers, directors, or any party to the securities purchase agreement and any potential seller under this arrangement regarding the repurchase. If no contacts have been made, state so explicitly;
 - b. Disclose how the company determined the size of the share repurchase, the impact that it has on the approval of your deal and the Form S-1 structure – including the degree to which it permits the approval of a deal that would not have been approved under the Form S-1;
 - c. Provide enhanced disclosure of the repurchase mechanics and features, including, but not limited to, when repurchase offers will commence and end, whether the sellers must be record holders, whether the sellers must vote in favor of the transaction, when payment will be made to the seller, whether any other form of consideration in excess of the trust conversion price may be offered by any party listed in a. above, and when ownership of the shares will transfer;
 - d. Clarify the procedures that the company will follow, and factors it will consider, in entering into these arrangements;
 - e. Clarify whether the trust will serve as collateral for the loan;
 - f. Clarify the various impacts that these repurchases will have on your existing disclosures, such as pro-forma and dilution-related disclosures; and,
 - g. Clarify, if true, that rule 10b-18 will not be available for these repurchases.
2. With a view to disclosure, please provide us with your analysis as to the applicability of Regulation M and the tender offer rules, including, if applicable, an analysis of the Wellman factors as they relate to the repurchase.
3. Given the potential size of your repurchase, and the impact that it may have on your existing disclosures, including your capital structure, leverage, dilution and ownership, please clarify what information, if any, you will provide to investors concerning these repurchases following the effectiveness of your registration statement, but prior to the shareholder vote.

Selected Historical Financial Information of Shine Media

Shine Media Historical Financial Information, page 25

4. Please revise to disclose diluted income per share for the year ended December 31, 2007.

Summary Pro Forma Financial Information, page 26

5. Your disclosure that the pro forma combined financial information does not take into account the potential repurchase of up to 5.1 million shares of your common stock does not appear to be consistent with the presentation of the pro forma balance sheet data per page 27. Please clarify or advise.

Comparative Per Share Data, page 29

6. It appears from your disclosure in footnote six that the pro forma combined earnings per share data was prepared assuming a full year of operations for JSZF. This appears to be inconsistent with the actual transaction in which the purchase of JSZF was not completed until June 27, 2007. Please revise.

Consideration of the Securities Purchase Transaction, page 50

7. We do not understand your response to our prior comment seven and request additional clarification. Your existing disclosure addresses the target's enterprise value as implied by the prior Series C Preferred financing. The manner in which you calculated the enterprise value appears to assume that the Series C had the same rights as the target's common shares. Please revise your disclosure to indicate that your presentation of the implied enterprise value did not make any adjustment for the superior rights associated with the Series C.

Board Consideration and Approval of Transaction, page 60

8. We note your revised text on page 60 responsive to prior comment one from our letter dated November 6, 2008. Please revise this disclosure to clarify whether the board determined that the consideration being paid is fair and in the best interest of the company. (emphasis added) In this respect your use of "was" is unclear. Also, please clarify, in this section, the dates on which the board initially approved, and reapproved, the transaction.

Shine Media's Reasons for the Stock Purchase and Recommendation of the Shine Media Board, page 60

9. We note your revised disclosure responsive to our prior comment ten. Please elaborate on your discussion, here and in a risk factor, to address the fact that your opinion assumes certain benefits associated with the transaction and that this is not as common as other methods of valuating firms. Further, clarify why this method is less common in the fairness opinion context. Finally, we note your reference to the fact that you have excluded any operating benefits associated with the trust on a going forward basis. Please revise to explicitly state whether the growth rates used in your projections, and/or the company's cost of capital were impacted by the inclusion of these funds.
10. We note your discussion on page 69 that the parties have agreed to pay a one-time cash dividend payable after the transaction but only to public shareholders who retain their shares post transaction. Please revise to discuss this dividend in the front of your document. This discussion should include, but is not limited to, the dividend record date, whether the dividend may be suspended by the board, whether the dividend will require the approval of the transaction, whether the dividend will require financing – and if so, the source, and how the dividend will impact the company's financial position and plans. If the dividend has not been declared, please state so explicitly and include risk factor and other appropriate disclosure indicating the potential for a future board to decide not to declare the dividend.
11. On page 69 you indicate that the board reconsidered certain financial data on October 7, 2008. Please revise to indicate the date(s) of this data including the date(s) of the most recent operational data reviewed by the board.
12. We note your response to our prior comment 14, but believe that it is still applicable. Please provide the basis for your belief that there has not been any significant impairment to the fundamentals of the business of China Greenscape. In this respect please indicate what actual business data the board has reviewed and the date of that data.
13. Please file the dividend waiver agreements referred to on page 70.

Unaudited Pro Forma Condensed Consolidated Financial Statements

Unaudited Pro Forma Condensed Consolidated Balance Sheet

Assuming Minimum Approval, page 168

14. We note your response to our prior comment 19 and the related revision to your filing. Please tell us how the reduction in the amount due to your underwriters upon the consummation of a business combination will affect the pro forma disbursement to dissenting stockholders and revise your pro forma financial statements accordingly.
15. We note that pro forma entry eight relates to the dividend that will be paid to the holders of initial public offering shares of your common stock upon consummation of the merger with China Greenscape. Please tell us whether this pro forma adjustment is supported by an executed agreement (i.e. factually supportable). If the dividend is based on actions that management intends to take once the merger is complete, it would appear that this pro forma adjustment would not meet the criteria per Article 11 of Regulation S-X. The Staff will not object to a footnote to your pro forma financial statements discussing this adjustment with related disclosure indicating that it is not included in your pro forma financial statements.
