ABOUT CORPORATE FINANCE CORPORATION

(A Wholly Owned Subsidiary of About USA Holding Corporation)

Notes to Financial Statements

December 31, 2017

1. ORGANIZATION AND NATURE OF BUSINESS

About Corporate Finance Corporation (the "Company"), previously known as Foundation Markets Corporation, is a broker-dealer and as such is registered with Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company is a wholly owned subsidiary of About USA Holdings Corporation (the "Parent").

The Company acts primarily as a private placement broker-dealer.

2. SUMMARY SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

These financial statements were prepared in conformity with accounting principles generally accepted in the United States of America which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

The Company recognizes revenue from private placement fees upon completion of the private placement offering and M & A transactions over the life of the underlying agreement. The Company closes deals whereby there is potential to earn a deferred fee in the future. The revenue is contingent upon the client meeting specific future financial performance thresholds. Therefore, any contingent revenue related to this transaction will not be recognized until the performance is met and payment is reasonably assured.

Cash and Cash Equivalents

For the purposes of balance sheet classification and statement of cash flows presentation, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months that are not held for sale in the ordinary course of business. The Company currently maintains a cash balance at a bank that is insured by the Federal Deposit Insurance Corporation. At times the cash balance may be in excess of the Federal Deposit Insurance Corporation (FDIC) insurance limit. The Company has not incurred such a loss in the past.

2. SUMMARY SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**CONCENTRATION RISK**

One contract accounted for 98% of the total revenue in 2017.

INCOME TAX

The Company accounts for income taxes under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements. Under this method, deferred tax assets and liabilities are determined on the basis of the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred assets and liabilities is recognized in income in the period that includes the enactment date.

The Company recognizes deferred tax assets to the extent that we believe these assets are more likely than not to be realized. In making such a determination, we consider all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax-planning strategies, and results of recent operations. If we determine that we would be able to realize out deferred tax assets in the future in excess of their net recorded amount, we would make an adjustment to the deferred tax asset valuation allowance, which would reduce the provision for income taxes.

We record uncertain tax positions in accordance with ASC 740 on the basis of a two-step process whereby (1) we determine whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2) for those tax positions that meet the more-likely-than-not recognition threshold, we recognize the largest amount of tax benefit that is more than 50 percent likely to be realized upon ultimate settlement with the related tax authority.

3. FURNITURE and EQUIPMENT

Furniture and equipment are stated at cost less accumulated depreciation. Depreciation is computed on a straight-line basis over the estimated useful life of the assets which is three years.

4. NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 and equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2017, the Company had net capital of \$327,819 which was \$322,819 in excess of its required net capital of \$5,000. 6. INCOME TAXES

Our company is included in the consolidated tax return of About USA Holdings Corporation ("the Parent"). We calculate the provision for income taxes by using a "separate return" method. Under this method, we are assumed to file a separate return with the tax authority, thereby reporting our taxable income or loss and paying the applicable tax to or receiving the appropriate refund from the Parent. Our current provision is the amount of tax payable or refundable on the basis of a hypothetical, current-year separate return.

We provide deferred taxes on temporary differences and on any carryforwards that we could claim on our hypothetical return and assess the need for a valuation allowance on the basis of our projected separate return results.

Any differences between the tax provision (or benefit) allocated to us under the separate return method and payments to be made to (or received from) the Parent for tax expense are treated as either loans or capital contributions. Accordingly, the amount by which our tax liability under the separate return method exceeds the.

amount of tax liability ultimately settled as a result of using incremental expenses of the Parent is periodically settled as a loan from the Parent to the Company.

The federal and state income tax provision (or benefit) is summarized as follows:

	Year ended December 31, 2017
<u>Current</u>	
Federal income provision/(benefit)	\$ (346,105)
State income provision/(benefit)	<u>-</u>
Total	<u>\$ (346,105)</u>

For the year December 31, 2017, we recorded a net valuation allowance release of \$141,549 on the basis that the losses generated in the current year and NOL carry forward from the prior years are fully utilized for current tax benefits on the consolidated return bases by the taxable income of the affiliated companies.

The amount of tax-related balances due from affiliates as of December 31, 2017 is \$346,105.

At December 31, 2017, management has determined that the Company had no uncertain tax positions that would require the financial statement recognition. This determination will always be subject to ongoing reevaluation as facts and circumstances may require. The Company remains subject to US federal and state income tax audits for all years subsequent to 2013.

At December 31, 2017, the Company had a deferred tax asset of \$9,531. Based on the Company's financial projections, management believes it is more likely than not that there will not be profits against which the deferred tax asset can be offset. Accordingly, the Company recognizes a valuation allowance in the amount of \$9,531 that fully offsets the deferred tax assets.
