Engineering Comments

General

2. We have reviewed your response to prior comment six of our letter dated February 18, 2009. It does not appear that you have included the information previously requested regarding average sales price per unit of oil and gas produced or the average production cost (lifting cost) per unit of production. Therefore, we re-issue our prior comment number six.
3. We have reviewed your response to prior comment seven of our letter. It does not appear that you revised your document in response to our comment regarding disclosing gas production in cubic feet as you stated. Therefore, we re-issue our prior comment seven.

4. We have reviewed your response to prior comment nine of our letter. It does not appear that you revised your document in response to our comment regarding not disclosing reserve classifications other than proved as you stated. We note that you continue to disclose recoverable reserves for these properties. Rule 4-10(a) of Regulation only allows the disclosure of proved reserves. Therefore, we re-issue our prior comment nine.

Closing Comments

As appropriate, please amend your filing and respond to these comments within 10 business days or tell us when you will provide us with a response. You may wish to provide us with marked copies of the amendment to expedite our review. Please furnish a cover letter with your amendment that keys your responses to our comments and provides any requested information. Detailed cover letters greatly facilitate our review. Please understand that we may have additional comments after reviewing your amendment and responses to our comments.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes all information required under
