CALCULATION OF REGISTRATION FEE

Title of Securities to be Registered	Amount to be Registered	Proposed Maximum Offering Price Per Share (2)	Proposed Maximum Aggregate Offering Price (3)	Amount of Registration Fee (1)
Common Stock	3,000,000	\$.02	\$60,000	\$2.36

(1) Registration Fee has been paid via Fedwire.

(2) This is the initial offering and no current trading market exists for our common stock. The price paid for the currently issued and outstanding common stock was valued at \$0.005 per share.

(3) Estimated solely for the purpose of calculating the registration fee pursuant to Rule 457.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the registration statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

PROSPECTUS

Ares Ventures Corp. 3,000,000 shares of Common Stock at \$.02 per share

This is the initial offering of common stock of Ares Ventures Corp. and no public market currently exists for the securities being offered. We are offering for sale a total of 3,000,000 shares of common stock at a price of \$.02 per share. The offering is being conducted on a self-underwritten, all-or-none basis, which means our officer and director will attempt to sell the shares and we will not be able to spend any of the proceeds unless all the shares are sold and all proceeds are received. We intend to open a standard, non-interest bearing, bank account to be used only for the deposit of funds received from the sale of the shares in this offering. At that time, the funds will be transferred to our business account for use in the implementation of our business plan. If all the shares are not sold and the total offering amount is not deposited by the expiration date of the offering, the funds will be promptly returned to the investors (within 3 business days), without interest or deduction. The shares will be offered at a price of \$.02 per share for a period of one hundred and eighty (180) days from the effective date of this prospectus, unless extended by our board of directors for an additional 90 days. Subscriptions, once received by the company, are irrevocable. The offering will end on _____ (date to be added upon effectiveness).

Ares Ventures Corp. is an exploration stage company and currently has no operations. Any investment in the shares offered herein involves a high degree of risk. You should only purchase shares if you can afford a loss of your investment. Our independent auditor has issued an audit opinion for Ares Ventures which includes a statement expressing substantial doubt as to our ability to continue as a going concern.

BEFORE INVESTING, YOU SHOULD CAREFULLY READ THIS PROSPECTUS, PARTICULARLY, THE RISK FACTORS SECTION BEGINNING ON PAGE 4.

Neither the U.S. Securities and Exchange Commission nor any state securities division has approved or disapproved these securities, or determined if this prospectus is truthful, accurate, current or complete. Any representation to the contrary is a criminal offense.

	<u>Offering Price Per Share</u>	<u>Total Amount of Offering</u>	<u>Underwriting Commissions</u>	<u>Proceeds To Us</u>
Common Stock	\$.02	\$60,000	\$0	\$60,000

As of the date of this prospectus, there is no public trading market for our common stock and no assurance that a trading market for our securities will ever develop.

Subject to Completion, Dated _____

Summary

General Information

You should read the following summary together with the more detailed business information and the financial statements and related notes that appear elsewhere in this prospectus. In this prospectus, unless the context otherwise denotes, references to “we”, “us”, “our”, “Ares” and “Ares Ventures” are to Ares Ventures Corp.

Ares Ventures was incorporated in the State of Nevada on September 25, 2008 to engage in the acquisition, exploration and development of natural resource properties. We intend to use the net proceeds from this offering to develop our business operations. (See "Business of the Company" and "Use of Proceeds".) We are an exploration stage company with no revenues or operating history. The principal executive offices are located at 4600 Lamont Street #4-327, San Diego, CA 92109-3535. The telephone number is (858)408-2457

We received our initial funding of \$15,000 through the sale of common stock to our officer, Shane Ellis, who purchased 3,000,000 shares of our common stock at \$0.005 per share on September 25, 2008. From inception until the date of this filing we have had limited operating activities. Our financial statements from inception (September 25, 2008) through the year ended September 30, 2008 report no revenues and a net loss of \$515. Our independent auditor has issued an audit opinion for Ares Ventures Corp. which includes a statement expressing substantial doubt as to our ability to continue as a going concern.

Our mineral claim has been staked and we hired a professional mining engineer to prepare a geological report. We have not yet commenced any exploration activities on the claim. Our property (the Ray 1-4 Mineral Claims) may not contain any reserves and funds that we spend on exploration will be lost. Even if we complete our current exploration program and are successful in identifying a mineral deposit we will be required to expend substantial funds to bring our claim to production.

There is no current public market for our securities. As our stock is not publicly traded, investors should be aware they probably will be unable to sell their shares and their investment in our securities is not liquid.

Offering

Securities Being Offered	3,000,000 shares of common stock.
Price per Share	\$0.02
Offering Period	The shares are offered for a period not to exceed 180 days, unless extended by our board of directors for an additional 90 days.
Net Proceeds	\$60,000
Securities Issued and Outstanding	3,000,000 shares of common stock were issued and outstanding as of the date of this prospectus.
Registration costs	We estimate our total offering registration costs to be \$7,500.

Risk Factors

An investment in these securities involves an exceptionally high degree of risk and is extremely speculative in nature. Following are what we believe to be all the material risks involved if you decide to purchase shares in this offering.

Risks Associated With Our Company:

Our auditors have issued a going concern opinion, therefore there is substantial uncertainty we will continue activities in which case you could lose your investment.

Our auditors have issued a going concern opinion. This means that there is substantial doubt that we can continue as an ongoing business for the next twelve months. As such we may have to cease activities and you could lose your investment.

Because the probability of an individual prospect ever having reserves is extremely remote, any funds spent on exploration will probably be lost.

The probability of an individual prospect ever having reserves is extremely remote. In all probability the property does not contain any reserves. As such, any funds spent on exploration will probably be lost which will result in a loss of your investment.

We lack an operating history and have losses which we expect to continue into the future. As a result, we may have to suspend or cease activities.

We were incorporated in September 2008 and we have not started our proposed business activities or realized any revenues. We have no operating history upon which an evaluation of our future success or failure can be made. Our net loss was \$515 from inception to September 30, 2008. Our ability to achieve and maintain profitability and positive cash flow is dependent upon:

- our ability to locate a profitable mineral property
- our ability to generate revenues
- our ability to reduce exploration costs.

Based upon current plans, we expect to incur operating losses in future periods. This will happen because there are expenses associated with the research and exploration of our mineral properties. As a result, we may not generate revenues in the future. Failure to generate revenues will cause us to suspend or cease activities.

Because we will have to spend additional funds to determine if we have a reserve, if we can't raise the money we will have to cease operations and you could lose your investment.

Even if we complete our current exploration program and it is successful in identifying a mineral deposit, we will have to spend substantial funds on further drilling and engineering studies before we will know if we have a commercially viable mineral deposit, a reserve.

Because of the inherent dangers involved in mineral exploration, there is a risk that we may incur liability or damages, which could hurt our financial position and possibly result in the failure of our business.

The search for valuable minerals involves numerous hazards. As a result, we may become subject to liability for such hazards, including pollution, cave-ins and other hazards against which we cannot insure or against which we may elect not to insure. The payment of such liabilities may have a material adverse effect on our financial position.

Because we are small and do not have much capital, we may have to limit our exploration activity which may result in a loss of your investment.

Because we are small and do not have much capital, we must limit our exploration activity. As such we may not be able to complete an exploration program that is as thorough as we would like. In that event, an existing reserve may go undiscovered. Without a reserve, we cannot generate revenues and you will lose your investment.

We may not have access to all of the supplies and materials we need to begin exploration which could cause us to delay or suspend activities.

Competition and unforeseen limited sources of supplies in the industry could result in occasional spot shortages of supplies, such as dynamite, and certain equipment such as bulldozers and excavators that we might need to conduct exploration. We have not attempted to locate or negotiate with any suppliers of products, equipment or materials. We will attempt to locate products, equipment and materials after this offering is complete. If we cannot find the products and equipment we need, we will have to suspend our exploration plans until we do find the products and equipment we need.

Because our officer and director has other outside business activities and will only be devoting 10% of his time or four to five hours per week to our operations, our operations may be sporadic which may result in periodic interruptions or suspensions of exploration.

Because our officer and director has other outside business activities and will only be devoting 10% of his time or four to five hours per week to our operations, our operations may be sporadic and occur at times which are convenient to our officer and director. As a result, exploration of the property may be periodically interrupted or suspended.

Risks Associated With This Offering:

If a market for our common stock does not develop, shareholders may be unable to sell their shares and will incur losses as a result.

There is currently no market for our common stock and no certainty that a market will develop. We currently plan to apply for listing of our common stock on the over the counter bulletin board upon the effectiveness of the registration statement, of which this prospectus forms a part. Our shares may never trade on the bulletin board. If no market is ever developed for our shares, it will be difficult for shareholders to sell their stock. In such a case, shareholders may find that they are unable to achieve benefits from their investment.

A purchaser is purchasing penny stock which limits his or her ability to sell the stock.

The shares offered by this prospectus constitute penny stock under the Exchange Act. The shares will remain penny stock for the foreseeable future. The classification of penny stock makes it more difficult for a broker-dealer to sell the stock into a secondary market, thus limiting investment liquidity. Any broker-dealer engaged by the purchaser for the purpose of selling his or her shares in our company will be subject to rules 15c-1 through 15c-10 of the Exchange Act. Rather than creating a need to comply with those rules, some broker-dealers will refuse to attempt to sell penny stock.

We are selling this offering without an underwriter and may be unable to sell any shares.

This offering is self-underwritten, that is, we are not going to engage the services of an underwriter to sell the shares; we intend to sell them through our officer and director, who will receive no commissions. He will offer the shares to friends, relatives, acquaintances and business associates, however; there is no guarantee that he will be able to sell any of the shares. Unless he is successful in selling all of the shares and we receive the proceeds from this offering, we may have to seek alternative financing to implement our business plans.

You will incur immediate and substantial dilution of the price you pay for your shares.

Our existing stockholder acquired his shares at a cost of \$.005 per share, a cost per share substantially less than that which you will pay for the shares you purchase in this offering. Upon completion of this offering the net tangible book value of the shares held by our existing stockholder (3,000,000 shares) will be increased by \$.008 per share without any additional investment on his part. The purchasers of shares in this offering will incur immediate dilution (a reduction in the net tangible book value per share from the offering price of \$.02 per share) of \$.008 per share. As a result, after completion of the offering, the net tangible book value of the shares held by purchasers in this offering would be \$.012 per share, reflecting an immediate reduction in the \$.02 price per share they paid for their shares.

We will be holding all the proceeds from the offering in a standard bank checking account until all shares are sold. Because the shares are not held in an escrow or trust account there is a risk your money will not be returned if all the shares are not sold.

All funds received from the sale of shares in this offering will be deposited into a standard bank checking account until all shares are sold and the offering is closed, at which time, the proceeds will be transferred to our business operating account. In the event all shares are not sold we have committed to

promptly return all funds to the original purchasers. However since the funds will not be placed into an escrow, trust or other similar account, there can be no guarantee that any third party creditor who may obtain a judgment or lien against us would not satisfy the judgment or lien by executing on the bank account where the offering proceeds are being held, resulting in a loss of any investment you make in our securities.

We will incur ongoing costs and expenses for SEC reporting and compliance. Without revenue we may not be able to remain in compliance, making it difficult for investors to sell their shares, if at all.

Our business plan allows for the payment of the estimated costs of this registration statement (\$7,500) to be paid from existing cash on hand. We plan to contact a market maker immediately following the close of the offering and apply to have the shares quoted on FINRA's Over the Counter Bulletin Board (OTCBB). To be eligible for quotation, issuers must remain current in their filings with the Securities and Exchange Commission. In order for us to remain in compliance we will require future revenues to cover the cost of these filings, which could comprise a substantial portion of our available cash resources. If we are unable to generate sufficient revenues to remain in compliance it may be difficult for you to resell any shares you may purchase, if at all.

Our sole officer and director, beneficially owns 100% of the outstanding shares of our common stock. After the completion of this offering he will own 50% of the outstanding shares. If he chooses to sell his shares in the future, it might have an adverse effect on the price of our stock.

Due to the amount of Mr. Ellis' share ownership in our company, if he chooses to sell his shares in the public market, the market price of our stock could decrease and all shareholders suffer a dilution of the value of their stock.

Use of Proceeds

Assuming sale of all of the shares offered herein, of which there is no assurance, the net proceeds from this Offering will be \$60,000. The proceeds are expected to be disbursed, in the priority set forth below, during the first twelve (12) months after the successful completion of the Offering:

Total Proceeds to the Company	\$ 60,000
Phase One Exploration Program	8,500
Phase Two Exploration Program	9,500
Phase Three Exploration Program	25,000
Administration and Office Expense	4,000
Legal and Accounting	8,000
Working Capital	<u>5,000</u>
Total Use of Net Proceeds	<u>\$ 60,000</u>

We will establish a separate bank account and all proceeds will be deposited into that account until the total amount of the offering is received and all shares are sold, at which time the funds will be released to us for use in our operations. In the event we do not sell all of the shares before the expiration date of the offering, all funds will be returned promptly to the subscribers, without interest or deduction. If it becomes necessary our director has verbally agreed to loan the company funds to complete the registration process, but we will require full funding to implement our complete business plan.

Determination of Offering Price

The offering price of the shares has been determined arbitrarily by us. The price does not bear any relationship to our assets, book value, earnings, or other established criteria for valuing a privately held company. In determining the number of shares to be offered and the offering price, we took into consideration our cash on hand and the amount of money we would need to implement our business plans. Accordingly, the offering price should not be considered an indication of the actual value of the securities.

Dilution

Dilution represents the difference between the offering price and the net tangible book value per share immediately after completion of this offering. Net tangible book value is the amount that results from subtracting total liabilities and intangible assets from total assets. Dilution arises mainly as a result of our arbitrary determination of the offering price of the shares being offered. Dilution of the value of the shares you purchase is also a result of the lower book value of the shares held by our existing stockholder.

As of September 30, 2008, the net tangible book value of our shares was \$14,485 or \$0.005 per share, based upon 3,000,000 shares outstanding.

Upon completion of this offering, but without taking into account any change in the net tangible book value after completion of this offering other than that resulting from the sale of the shares and receipt of the total proceeds of \$60,000, the net tangible book value of the 6,000,000 shares to be outstanding will be \$74,485, or approximately \$.012 per share. Accordingly, the net tangible book value of the shares held by our existing stockholder (3,000,000 shares) will be increased by \$.008 per share without any additional investment on his part. The purchasers of shares in this offering will incur immediate dilution (a reduction in the net tangible book value per share from the offering price of \$.02 per share) of \$.008 per share. As a result, after completion of the offering, the net tangible book value of the shares held by purchasers in this offering would be \$.012 per share, reflecting an immediate reduction in the \$.02 price per share they paid for their shares.

After completion of the offering, the existing shareholder will own 50% of the total number of shares then outstanding, for which he will have made an investment of \$15,000, or \$.005 per share. Upon completion of the offering, the purchasers of the shares offered hereby will own 50% of the total number of shares then outstanding, for which they will have made a cash investment of \$60,000, or \$.02 per Share.

The following table illustrates the per share dilution to the new investors:

Public Offering Price per Share	\$.02
Net Tangible Book Value Prior to this Offering	\$.005
Net Tangible Book Value After Offering	\$.012
Immediate Dilution per Share to New Investors	\$.008

The following table summarizes the number and percentage of shares purchased, the amount and percentage of consideration paid and the average price per share paid by our existing stockholder and by new investors in this offering:

	<u>Price Per Share</u>	<u>Total Number of Shares Held</u>	<u>Percent of Ownership</u>	<u>Consideration Paid</u>
Existing Stockholder	\$.005	3,000,000	50%	\$ 15,000
Investors in This Offering	\$.02	3,000,000	50%	\$ 60,000

Plan of Distribution

Offering will be Sold by Our Officer and Director

This is a self-underwritten offering. This Prospectus is part of a prospectus that permits our officer and director to sell the shares directly to the public, with no commission or other remuneration payable to him for any shares he may sell. There are no plans or arrangements to enter into any contracts or agreements to sell the shares with a broker or dealer. Shane Ellis, our officer and director, will sell the shares and intends to offer them to friends, family members and business acquaintances. In offering the securities on our behalf, he will rely on the safe harbor from broker dealer registration set out in Rule 3a4-1 under the Securities Exchange Act of 1934.

Our officer and director will not register as a broker-dealer pursuant to Section 15 of the Securities Exchange Act of 1934, in reliance upon Rule 3a4-1, which sets forth those conditions under which a person associated with an Issuer may participate in the offering of the Issuer's securities and not be deemed to be a broker-dealer.

- a. Our officer and director is not subject to a statutory disqualification, as that term is defined in Section 3(a)(39) of the Act, at the time of his participation; and,

- b. Our officer and director will not be compensated in connection with his participation by the payment of commissions or other remuneration based either directly or indirectly on transactions in securities; and
- c. Our officer and director is not, nor will he be at the time of his participation in the offering, an associated person of a broker-dealer; and
- d. Our officer and director meets the conditions of paragraph (a)(4)(ii) of Rule 3a4-1 of the Exchange Act, in that he (A) primarily performs, or is intended primarily to perform at the end of the offering, substantial duties for or on behalf of our company, other than in connection with transactions in securities; and (B) is not a broker or dealer, or been an associated person of a broker or dealer, within the preceding twelve months; and (C) has not participated in selling and offering securities for any Issuer more than once every twelve months other than in reliance on Paragraphs (a)(4)(i) or (a)(4)(iii).

Our officer, director, control person and affiliates do not intend to purchase any shares in this offering.

Terms of the Offering

The shares will be sold at the fixed price of \$.02 per share until the completion of this offering. There is no minimum amount of subscription required per investor, and subscriptions, once received, are irrevocable.

This offering will commence on the date of this prospectus and continue for a period of 180 days (the "Expiration Date"), unless extended by our Board of Directors for an additional 90 days.

Deposit of Offering Proceeds

This is an "all or none" offering and, as such, we will not be able to spend any of the proceeds unless all the shares are sold and all proceeds are received. We intend to hold all funds collected from subscriptions in a separate bank account until the total amount of \$60,000 has been received. At that time, the funds will be transferred to our business account for use in the implementation of our business plan. In the event the offering is not sold out prior to the Expiration Date, all money will be promptly returned to the investors, without interest or deduction. We determined the use of the standard bank account was the most efficient use of our current limited funds. Please see the risk factor section to read the related risk to you as a purchaser of any shares.

Procedures and Requirements for Subscription

If you decide to subscribe for any shares in this offering, you will be required to execute a Subscription Agreement and tender it, together with a check, bank draft or cashier's check payable to the company. Subscriptions, once received by the company, are irrevocable. All checks for subscriptions should be made payable to Ares Ventures Corp.

Description of Securities

Common Stock

The authorized capital stock of the Company consists of 75,000,000 shares of Common Stock, par value \$.001. The holders of common stock currently (i) have equal ratable rights to dividends from funds legally available therefore, when, as and if declared by the Board of Directors of the Company; (ii) are entitled to share ratably in all of the assets of the Company available for distribution to holders of common stock upon liquidation, dissolution or winding up of the affairs of the Company; (iii) do not have preemptive, subscription or conversion rights and there are no redemption or sinking fund provisions or rights applicable thereto; and (iv) are entitled to one non-cumulative vote per share on all matters on which stockholders may vote. All shares of common stock now outstanding are fully paid for and non-assessable and all shares of common stock which are the subject of this Offering, when issued, will be fully paid for and non-assessable. Please refer to the Company's Articles of Incorporation, Bylaws and the applicable statutes of the State of Nevada for a more complete description of the rights and liabilities of holders of the Company's securities.

Non-cumulative Voting

The holders of shares of common stock of the Company do not have cumulative voting rights, which means that the holders of more than 50% of such outstanding shares, voting for the election of directors, can elect all of the directors to be elected, if they so choose, and, in such event, the holders of the remaining shares will not be able to elect any of the Company's directors. After this Offering is completed, the present stockholder will own 50% of the outstanding shares. (See "Principal Stockholders".)

Cash Dividends

As of the date of this prospectus, the Company has not declared or paid any cash dividends to stockholders. The declaration or payment of any future cash dividend will be at the discretion of the Board of Directors and will depend upon the earnings, if any, capital requirements and financial position of the Company, general economic conditions, and other pertinent factors. It is the present intention of the Company not to declare or pay any cash dividends in the foreseeable future, but rather to reinvest earnings, if any, in the Company's business operations.

Interest of Named Experts and Counsel

None of the below described experts or counsel have been hired on a contingent basis and none of them will receive a direct or indirect interest in the Company.

Our financial statements for the period from inception to the year ended September 30, 2008, included in this prospectus, have been audited by Moore & Associates, Chartered. We include the financial statements in reliance on their reports, given upon their authority as experts in accounting and auditing.

Andrew Coldicutt, Attorney at Law, has passed upon the validity of the shares being offered and certain other legal matters and is representing us in connection with this offering.

Western Minerals Inc., a Professional Geology company, has provided us with the geology report on which the exploration program contained herein is based.

Description of Business

We are an exploration stage company with no revenues and a limited operating history. Our independent auditor has issued an audit opinion which includes a statement expressing substantial doubt as to our ability to continue as a going concern. The source of information contained in this discussion is our geology report.

The Ray 1-4 Mineral Claims, comprising a total of 82.64 acres, is the only claim currently owned by the company. If our claim does not contain any reserves all funds that we spend on exploration will be lost. If we complete our current exploration program and are successful in identifying a mineral deposit we will need to expend substantial funds on further drilling and engineering studies before we will know if we have a commercially viable mineral deposit or reserve.

Glossary

Aeromagnetic survey - a magnetic survey conducted from the air normally using a helicopter or fixed-wing aircraft to carry the detection instrument and the recorder.

Alluvium - unconsolidated sediments that are carried and hence deposited by a stream or river. In the southwest USA many in filled valleys, often between mountain ranges were deposited with alluvium.

Andesitic to basaltic composition - a range of rock descriptions using the chemical make-up or mineral norms of the same.

Aphanitic - fine grained crystalline texture.

Blind-basin - a basin practically closed off by enveloping rock exposures making the central portion of unconsolidated alluvial basin isolated.

Colluvium - loose, unconsolidated material usually derived by gravitational means, such as falling from a cliff or scarp-face and often due to a sort of benign erosion such as heating and cooling in a desert environment.

Desert wash - out-wash in dry (desert) or arid areas of colluvium or alluvial material accumulated on the sides of valleys or basin channels by often irregular and violent water flow, i.e. flash floods.

Elongate basin - a longer than wide depression that could be favorable to in-filling by material from adjacent eroding mountains.

Formation - the fundamental unit of similar rock assemblages used in stratigraphy.

Intermontane belt - between mountains (ranges), a usually longer than wide depression occurring between enclosing mountain ranges that supply the erosional material to infill the basin.

Lode mineral claim (Nevada) - with a maximum area contained within 1500' long by 600' wide = 20.66 acres.

Nuees Ardante or Ladu - an extremely hot, gaseous, somewhat horizontally ejected lava, often from near the summit that accentuates the downward flow or "glowing avalanche" because of its mobility.

Overburden or Drift Cover - any loose material which overlies bedrock.

Plagioclase feldspar - a specific range of chemical composition of common or abundant rock forming silicate minerals.

Playa - the lowest part of an intermontane basin which is frequently flooded by run-off from the adjacent highlands or by local rainfall.

Plutonic, igneous or intrusive rock - usually a medium to coarser grain sized crystalline rock that generally is derived from a sub-surface magma and then consolidated, such as in dykes, plugs, stocks or batholiths, from smallest to largest.

Porphyritic in augite pyroxene - Large porphyroblasts or crystals of a specific rock-forming mineral, i.e. augite occurring within a matrix of finer grained rock-forming minerals.

Quaternary - the youngest period of the Cenozoic era.

Snow equivalent - Approximately 1" of precipitation (rain) = 1' snow.

Syenite - Coarse grained, alkalic, low in quartz intrusive rock.

Trachyte - fine grained or glassy equivalent of a syenite.

Volcaniclastic - Angular to rounded particles of a wide range of size within (a welded) finer grain-sized matrix of volcanic origin.

General Information

The Ray 1-4 mineral claims comprise a total of 82.64 acres. The mineral claim area may be located on the Esmeralda County, Rock Hill Quadrangle Area. The claims are motor vehicle accessible from the Town of Tonopah, Nevada by traveling 51 miles northwest along Highway 95 past the Coaldale junction to a dirt road traveling east-northeast from the highway. This road is then taken for 2.5 miles to the Ray mineral claims. The beneficial owner of the mineral claims is Ares Ventures Corp.

The object of our initial exploration undertaking is to assess areas that may require more detailed investigations to assist in determining their economic significance.

We have not carried out any exploration work on the claim and have incurred no exploration costs. The future cost of exploration work on the property is disclosed in detail in the Plan of Operation section of this prospectus.

There is not a plant or any equipment currently located on the property. It is expected that the initial exploration phase will be supported by generators. The Ray property lies in the west central area of the State of Nevada, 51 miles northwest of the Town of Tonopah on Highway 95 and is accessible from Highway 95 by traveling 2.5 miles to the east-northeast to the property. The Town of Tonopah offers much of the necessary infrastructure required to base and carry-out an exploration program (accommodations, communications, equipment and supplies). Larger or specialized equipment can likely be acquired in the City of Las Vegas lying 209 miles south of Tonopah by paved road (Highway 95).

A three-phase exploration program to evaluate the area is considered appropriate and is recommended by the consulting geologist in his report. Detailed prospecting, mapping and reconnaissance MMI soil geochemical surveys of the claim area is recommended.

The cost of the proposed program is \$8,500 for the initial phase of exploration work, \$9,500 for the contingent second phase and \$25,000 for the third phase. We plan to commence Phase 1 of the exploration program in spring 2009 if we are able to raise the necessary funds from this offering.

The discussions contained herein are management's estimates based on information provided by the consulting geologist who prepared the geology report. Because we have not commenced our exploration program we cannot provide a more detailed discussion of our plans if we find a viable store of minerals on our property, as there is no guarantee that exploitable mineralization will be found, the quantity or type of minerals if they are found and the extraction process that will be required. We are also unable to assure you we will be able to raise the additional funding to proceed with any subsequent work on the claim if mineralization is found.

Acquisition of the Mineral Claim

The claim is currently held in trust in the name of our president, Shane Ellis. We paid \$3,500 to Western Minerals Inc. for the staking of the claim.

Requirements or Conditions for Retention of Title

The title for the claims is in good standing until September 2009. During the first week in August 2009 a filing is to be made by the Company to the County and Bureau of Land Management that we intend to retain the claims and to continue performing exploration work on them. Such work will be reported and filed at the appropriate time.

Location, Access, Climate, Local Resources & Infrastructure

The Ray property lies in the west central area of the State of Nevada, 51 miles northwest of the Town of Tonopah on Highway 95 and is accessible from Highway 95 by traveling 2.5 miles to the east-northeast to the property.

The area experiences about 4" - 8" of precipitation annually of which about 20% may occur as a snow equivalent. This amount of precipitation suggests a climatic classification of arid to semi-arid. The summers can experience hot weather, middle 60's to 70's F° average with high spells of 100+F° while the winters are generally more severe than the dry belt to the west and can last from December through February. Temperatures experienced during mid-winter average, for the month of January, from the high 20's to the low 40's F° with low spells down to -20 F°.

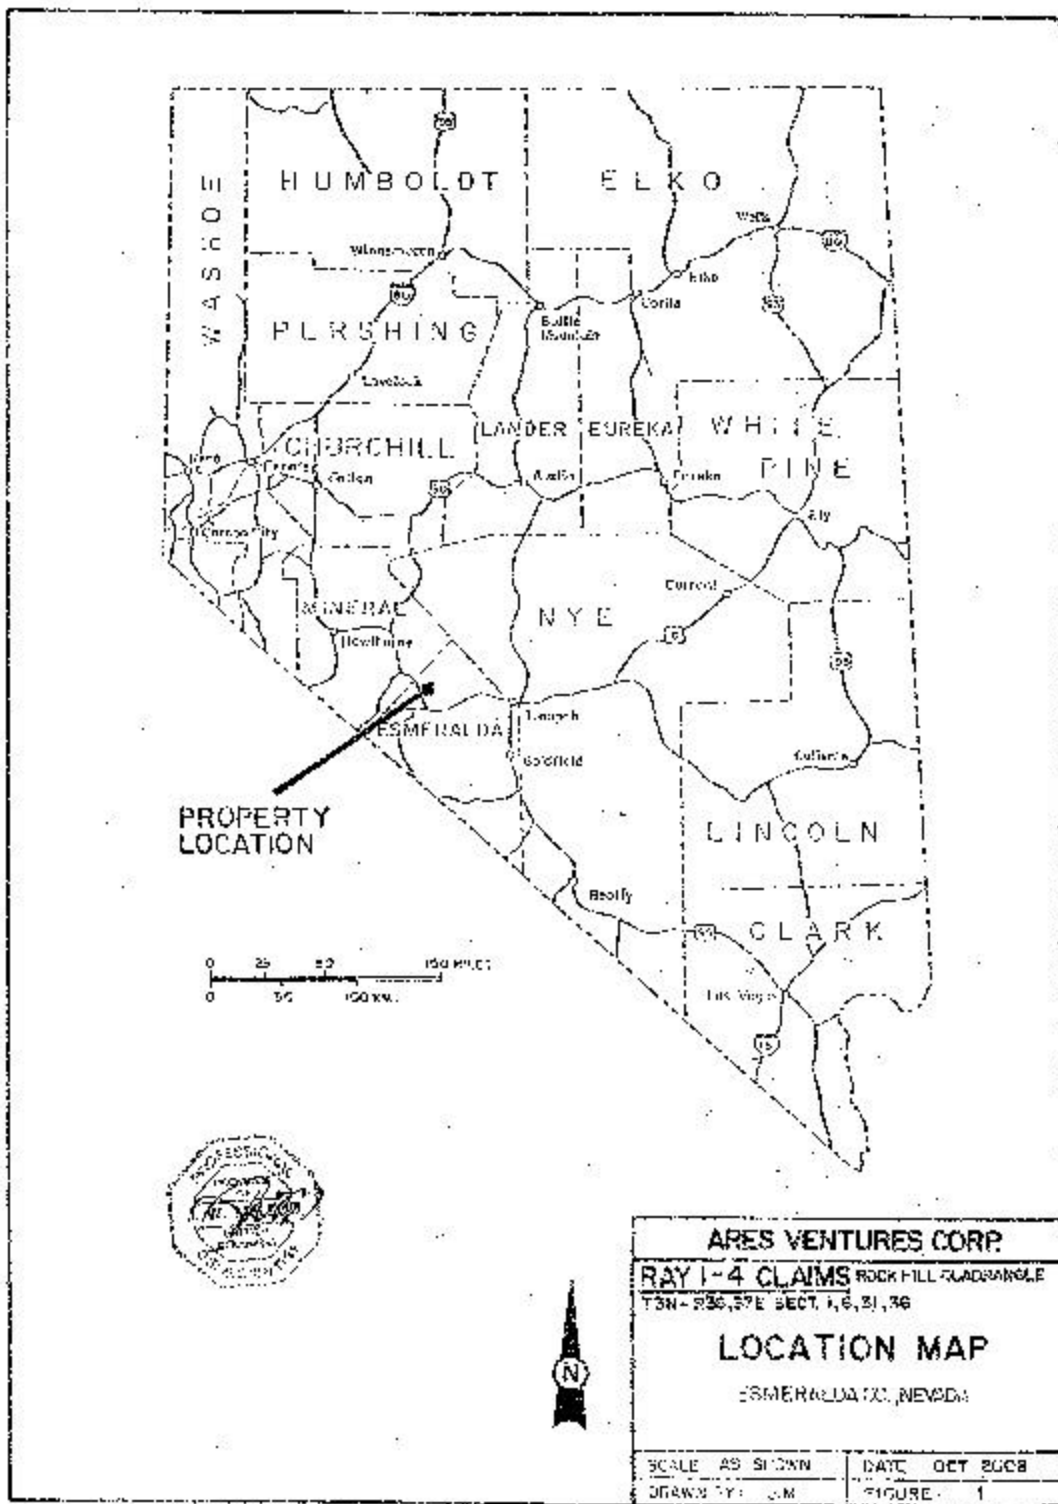

The Town of Tonopah offers much of the necessary infrastructure required to base and carry-out an exploration program (accommodations, communications, equipment and supplies). Larger or specialized equipment can likely be acquired in the City of Las Vegas lying 209 miles south of Tonopah by paved road (Highway 95).

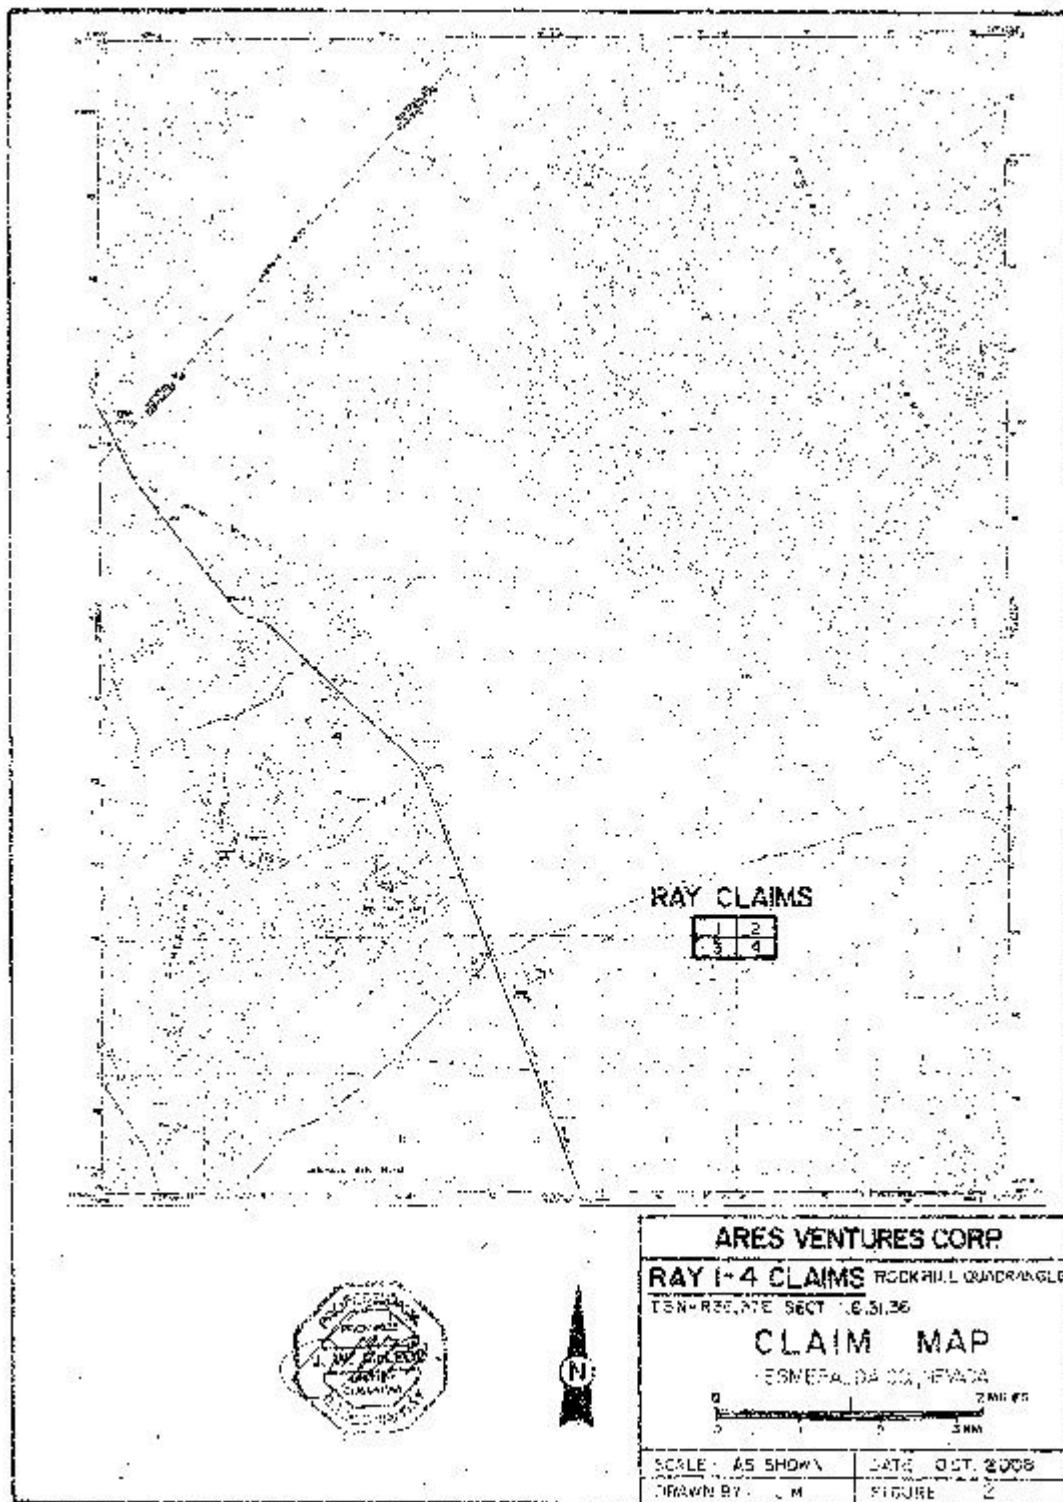

Infrastructure such as highways and secondary roads, communications, accommodations and supplies that are essential to carrying-out an exploration and development program are at hand, between Tonopah, Goldfield and Las Vegas.

The physiography of the Ray property is very low west sloping terrain toward Highway 95. Much of this general area with many broad open valleys and moderately high mountain ridges hosts sagebrush and other desert plants on the low hill slopes.

Mining holds an historical and contemporary place in the development and economic well being of the area.

The claim area ranges in elevation from 4,600' - 4,650' mean sea level. The physiographic setting of the property can be described as open desert in the broad valley within a mosaic of moderately rugged mountains on the west and east well beyond the claim boundaries. The area has been surficially altered both by fluvial and wind erosion and the depositional (drift cover) effects of in-filling. Thickness of drift cover in the valleys may vary considerably, but quite deep because of its close proximity to the Columbus Salt Marsh.

History

The recorded mining history of the general area dates from the 1860's when prospectors passed through heading north and west. The many significant lode gold, silver and other mineral product deposits developed in the area was that of the Goldfield Camp, 1905; Coaldale, coal field, 1913; Divide Silver Mining District, 1921 and the Candalaria silver-gold mine which operated as an underground lode gold deposit in 1922 and again in the 1990's as an open cut, cyanide heap leach operation. The Tonopah District while mainly in Nye County is on the edge of nearly all of the gold-silver camps of Esmeralda County, if not strictly in location then certainly as a headquarters and supply depot for the general area. The Tonopah Camp produced mainly silver with some gold from quartz veins in Tertiary volcanic rocks. The period 1900-1921 saw the Camp produce from 6.4 million tons of ore, 138 million ounces of silver and 1.5 million ounces of gold or an average of 22 oz/ton silver and slightly less than 1/4 oz/ton gold, very rich ore by current standards.

Geological Setting

Regional Geology

The regional geology of Nevada is depicted as being underlain by all types of rock units. These appear to range from oldest to youngest in an east to west direction, respectively. The oldest units are found to occur in the southeast corner of the State along the Colorado River. The bedrock units exhibit a north-south fabric of alternating east-west ranges and valleys. This feature may suggest E-W compression that may have expression as low angle thrust faults on walls of some canyons. Faulting plays a large part in many areas of Nevada and an even larger part in the emplacement of mineral occurrences and ore bodies.

Local Geology

The local geology about the Candalaria Hills to the west of the Ray 1-4 mineral claims is an observed, large thrust fault. Older Ordovician aged rock units are faulted at a relatively low angle toward the east or southeast bringing these older rock units over top of the younger Triassic units. The same Ordovician age rock units are in places thrust over by older Permian age rock units. This significant structural event was named the Monte Cristo thrust and appears to have a possible causative effect on the mineralization in the area.

The outcrops partially surrounding or flanking the alluvial covered valley underlying the mineral claim area suggests mineral occurrences or structurally prepared bedrock could be sought after in those areas.

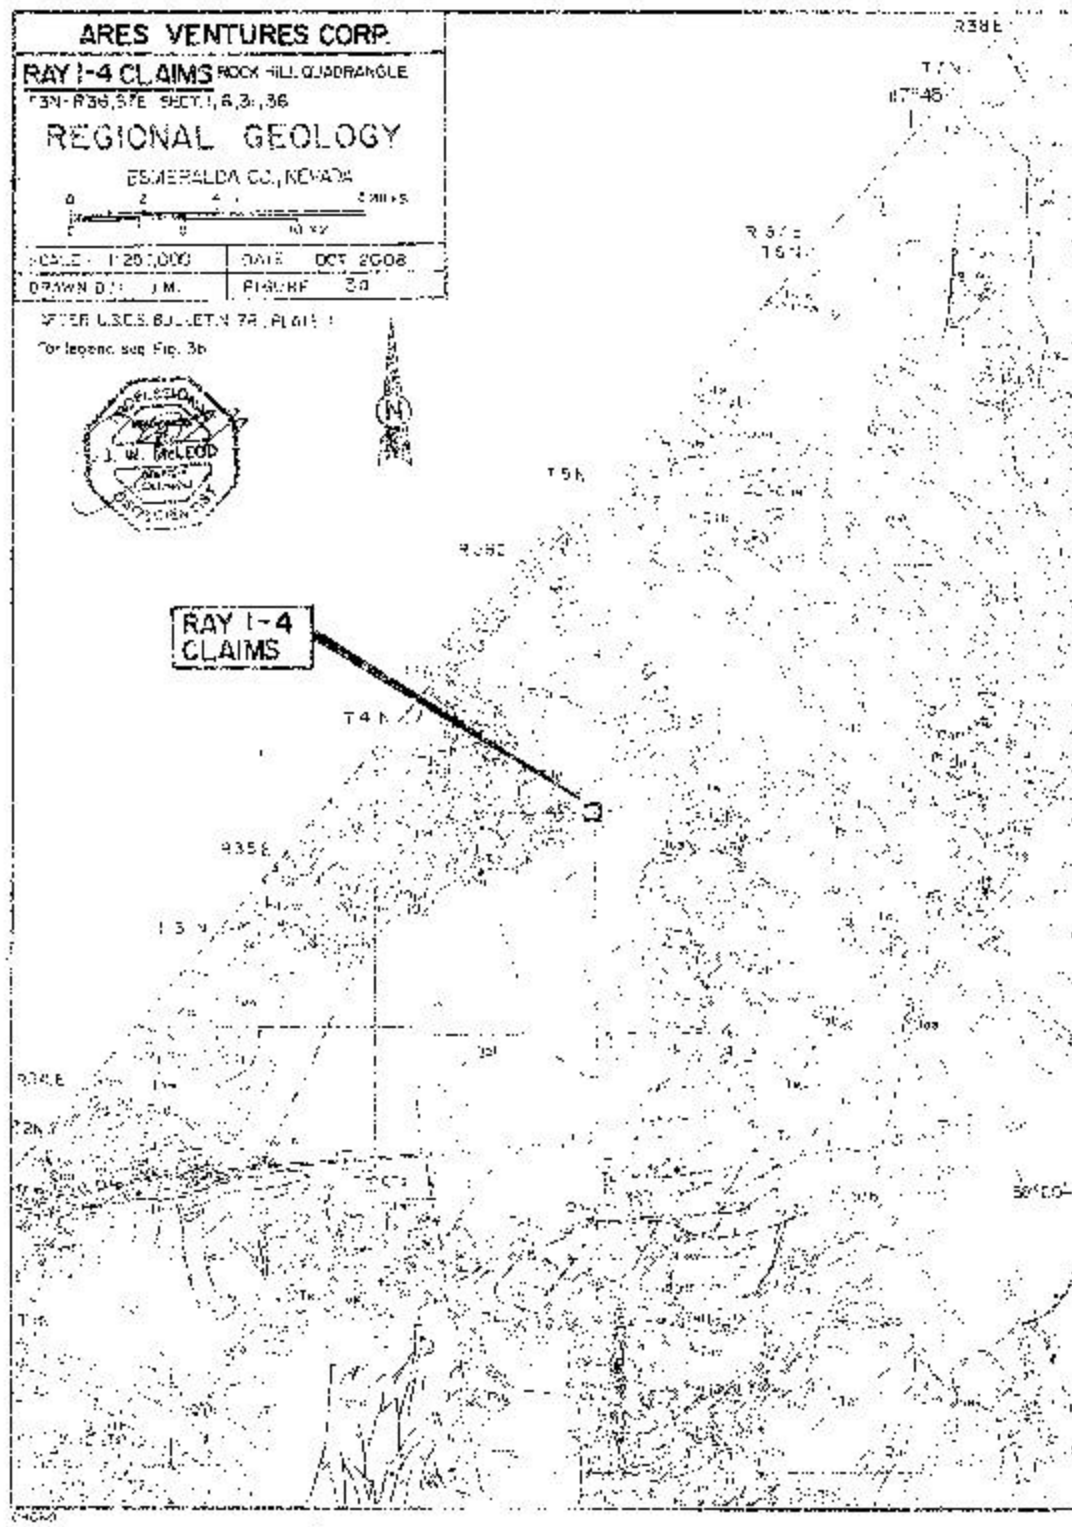

Property Geology

The geology of the Ray property area may be described as being underlain by Quaternary age sediments comprised of desert wash, colluvium, alluvium and playa deposits. This younger covered basin within a

larger surrounding area of rock exposure and some known mineral occurrences exhibit a good geological setting and a good target area in which to conduct mineral exploration.

Property Mineralization

By far the largest production in the County comes from the vein-type of gold and silver occurrences in quartz fissure vein replacement in either pre-Tertiary volcanic or Tertiary volcanic host rocks.

Competition

We do not compete directly with anyone for the exploration or removal of minerals from our property as we hold all interest and rights to the claim. Readily available commodities markets exist in the U.S. and around the world for the sale of gold, silver and other minerals. Therefore, we will likely be able to sell any minerals that we are able to recover.

We will be subject to competition and unforeseen limited sources of supplies in the industry in the event spot shortages arise for supplies such as dynamite, and certain equipment such as bulldozers and excavators that we will need to conduct exploration. We have not yet attempted to locate or negotiate with any suppliers of products, equipment or services and will not do so until funds are received from this offering. If we are unsuccessful in securing the products, equipment and services we need we may have to suspend our exploration plans until we are able to do so.

Bankruptcy or Similar Proceedings

There has been no bankruptcy, receivership or similar proceeding.

Reorganizations, Purchase or Sale of Assets

There have been no material reclassifications, mergers, consolidations, or purchase or sale of a significant amount of assets not in the ordinary course of business.

Compliance with Government Regulation

Our exploration programs in Nevada are subject to state and federal regulations regarding environmental considerations. All operations involving the exploration for the production of minerals are subject to existing laws and regulations relating to exploration procedures, safety precautions, employee health and safety, air quality standards, pollution of streams and fresh water sources, odor, noise, dust and other environmental protection controls adopted by federal, state and local governmental authorities as well as the rights of adjoining property owners. We may be required to prepare and present to federal, state or local authorities data pertaining to the effect or impact that any proposed exploration for or production of minerals may have upon the environment. All requirements imposed by any such authorities may be costly, time consuming and may delay commencement or continuation of exploration or production operations. Future legislation may significantly emphasize the protection of the environment, and, as a consequence, our activities may be more closely regulated to further the cause of environmental protection. Such legislation, as well as further interpretation of existing laws in the United States, may require substantial increases in equipment and operating costs and delays, interruptions, or a termination of operations, the extent of which cannot be predicted. Environmental problems known to exist at this time in the United States may not be in compliance with regulations that may come into existence in the future. This may have a substantial impact upon the capital expenditures required of us in order to deal with such problem and could substantially reduce earnings.

The regulatory bodies that directly regulate our activities are the Bureau of Land Management (Federal) and the Nevada Department of Environmental Protection (State).

Patents, Trademarks, Franchises, Royalty Agreements or Labor Contracts

We have no current plans for any registrations such as patents, trademarks, copyrights, franchises, concessions, royalty agreements or labor contracts. We will assess the need for any copyright, trademark or patent applications on an ongoing basis.

Need for Government Approval of Products or Services

We are not required to apply for or have any government approval for our products or services.

Research and Development Costs during the Last Two Years

We have not expended funds for research and development costs since inception. We paid \$7,000 for the geology report and staking of the claim.

Employees and Employment Agreements

Our only employee is our sole officer, Shane Ellis. Mr. Ellis currently devotes four to five hours per week to company matters and after receiving funding he plans to devote as much time as the board of directors determines is necessary to manage the affairs of the company. There are no formal employment agreements between the company and our current employee.

Description of Property

We do not currently own any property. Our offices are located at 4600 Lamont Street #4-327, San Diego, CA 92109, which is the home office of our president and are provided to us free of charge. The telephone number is (858) 408-2457. Management believes the current premises are sufficient for its needs at this time.

We currently have no investment policies as they pertain to real estate, real estate interests or real estate mortgages.

Legal Proceedings

We are not currently involved in any legal proceedings and we are not aware of any pending or potential legal actions.

Market for Common Equity and Related Stockholder Matters

We plan to contact a market maker immediately following the completion of the offering and apply to have the shares quoted on the OTC Electronic Bulletin Board (OTCBB). The OTCBB is a regulated

quotation service that displays real-time quotes, last sale prices and volume information in over-the-counter (OTC) securities. The OTCBB is not an issuer listing service, market or exchange. Although the OTCBB does not have any listing requirements per se, to be eligible for quotation on the OTCBB, issuers must remain current in their filings with the SEC or applicable regulatory authority. Market Makers are not permitted to begin quotation of a security whose issuer does not meet this filing requirement. Securities already quoted on the OTCBB that become delinquent in their required filings will be removed following a 30 or 60 day grace period if they do not make their required filing during that time. We cannot guarantee that our application will be accepted or approved and our stock listed and quoted for sale. As of the date of this filing, there have been no discussions or understandings between Ares Ventures with any market maker regarding participation in a future trading market for our securities.

As of the date of this filing, there is no public market for our securities. There has been no public trading of our securities, and, therefore, no high and low bid pricing. As of the date of this prospectus Ares Ventures had one shareholder of record. We have paid no cash dividends and have no outstanding options.

Penny Stock Rules

The Securities and Exchange Commission has also adopted rules that regulate broker-dealer practices in connection with transactions in penny stocks. Penny stocks are generally equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the Nasdaq system, provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system).

A purchaser is purchasing penny stock which limits the ability to sell the stock. The shares offered by this prospectus constitute penny stock under the Securities and Exchange Act. The shares will remain penny stocks for the foreseeable future. The classification of penny stock makes it more difficult for a broker-dealer to sell the stock into a secondary market, which makes it more difficult for a purchaser to liquidate his/her investment. Any broker-dealer engaged by the purchaser for the purpose of selling his or her shares in us will be subject to Rules 15c-1 through 15c-10 of the Securities and Exchange Act. Rather than creating a need to comply with those rules, some broker-dealers will refuse to attempt to sell penny stock.

The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from those rules, to deliver a standardized risk disclosure document, which:

- contains a description of the nature and level of risk in the market for penny stock in both public offerings and secondary trading;
- contains a description of the broker's or dealer's duties to the customer and of the rights and remedies available to the customer with respect to a violation of such duties or other requirements of the Securities Act of 1934, as amended;

- contains a brief, clear, narrative description of a dealer market, including "bid" and "ask" price for the penny stock and the significance of the spread between the bid and ask price;
- contains a toll-free telephone number for inquiries on disciplinary actions;
- defines significant terms in the disclosure document or in the conduct of trading penny stocks; and
- contains such other information and is in such form (including language, type, size and format) as the Securities and Exchange Commission shall require by rule or regulation;

The broker-dealer also must provide, prior to effecting any transaction in a penny stock, to the customer:

- the bid and offer quotations for the penny stock;
- the compensation of the broker-dealer and its salesperson in the transaction;
- the number of shares to which such bid and ask prices apply, or other comparable information relating to the depth and liquidity of the market for such stock; and
- monthly account statements showing the market value of each penny stock held in the customer's account.

In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from those rules; the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written acknowledgment of the receipt of a risk disclosure statement, a written agreement to transactions involving penny stocks, and a signed and dated copy of a written suitability statement. These disclosure requirements will have the effect of reducing the trading activity in the secondary market for our stock because it will be subject to these penny stock rules. Therefore, stockholders may have difficulty selling their securities.

Regulation M

Our officer and director, who will offer and sell the shares, is aware that he is required to comply with the provisions of Regulation M, promulgated under the Securities Exchange Act of 1934, as amended. With certain exceptions, Regulation M precludes the officer and director, sales agent, any broker-dealer or other person who participate in the distribution of shares in this offering from bidding for or purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of the distribution until the entire distribution is complete.

Where You Can Find More Information

To date, we have not registered securities pursuant to Section 12 of the Act which means we are considered a “voluntary filer” under SEC regulations. We are, therefore, not currently obligated to file any periodic reports under the Exchange Act, to follow the SEC’s proxy rules or to distribute an annual report to our securities holders. However, we intend to file annual, quarterly and special reports, and other information with the SEC, even though we are not required to do so. You may read or obtain a copy of the registration statement to be filed or any other information we file with the SEC at the SEC’s Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information regarding the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Our SEC filings are also available to the public from the SEC web site at www.sec.gov, which contains our reports, and other information we file electronically with the SEC.

Financial Statements

The financial statements of Ares Ventures Corp. for the year ended September 30, 2008, and related notes, included in this prospectus have been audited by Moore & Associates, Chartered, and have been so included in reliance upon the opinion of such accountants given upon their authority as an expert in auditing and accounting.

Plan of Operation

Our current cash balance is \$15,000. We believe our cash balance is sufficient to cover the expenses we will incur during the next twelve months in a limited operations scenario or until we raise the funding from this offering. If we experience a shortage of funds prior to funding we may utilize funds from our director, who has informally agreed to advance funds to allow us to pay for offering costs, filing fees, and professional fees, however he has no formal commitment, arrangement or legal obligation to advance or loan funds to the company. In order to achieve our business plan goals, we will need the funding from this offering. We are an exploration stage company and have generated no revenue to date. We have sold \$15,000 in equity securities to pay for our minimum level of operations.

Our auditor has issued a going concern opinion. This means that there is substantial doubt that we can continue as an on-going business for the next twelve months unless we obtain additional capital to pay our bills. This is because we have not generated revenues and no revenues are anticipated until we begin removing and selling minerals. There is no assurance we will ever reach that point.

Our exploration target is to find exploitable minerals on our property. Our success depends on achieving that target. There is the likelihood of our mineral claim containing little or no economic mineralization or reserves of silver and other minerals. There is the possibility that our claim does not contain any reserves and funds that we spend on exploration will be lost. Even if we complete our current exploration program and are successful in identifying a mineral deposit we will be required to expend substantial funds to bring our claim to production. We are unable to assure you we will be able

to raise the additional funds necessary to implement any future exploration or extraction program even if mineralization is found.

Our plan of operation for the twelve months following the date of this prospectus is to complete the three phases of the exploration program. In addition to the \$43,000 we anticipate spending for the exploration program as outlined below, we anticipate spending an additional \$20,000 on professional fees, including fees payable in connection with the filing of this registration statement and complying with reporting obligations, and general administrative costs. Total expenditures over the next 12 months are therefore expected to be approximately \$63,000. We will require the funds from this offering to proceed.

The following work program has been recommended by the consulting geologist who prepared the geology report.

Phase 1

Detailed prospecting, mapping and soil geochemistry.

The estimated cost for this program is all inclusive. The timeline for accomplishing this phase of fieldwork including the turn-around time on analyses is approximately two months

\$ 8,500

Phase 2

Magnetometer and VLF electromagnetic, grid controlled surveys over the areas of interest determined by the Phase 1 survey. Included in this estimated cost is transportation, accommodation, board, grid installation, two geophysical surveys, maps and report

9,500

Phase 3

Induced polarization survey over grid controlled anomalous area of interest outlined by Phase 1&2 fieldwork. Hoe or bulldozer trenching, mapping and sampling of bedrock anomalies. Includes assays, maps and reports

25,000

Total

\$ 43,000

Each phase following phase 1 is contingent upon favorable results from the previous phase.

If we are successful in raising the funds from this offering we plan to commence Phase 1 of the exploration program on the claim in late spring 2009. We expect this phase to take 15 days to complete and an additional two to three months for the consulting geologist to receive the results from the assay lab and prepare his report.

The above program costs are management's estimates based upon the recommendations of the professional consulting geologist's report and the actual project costs may exceed our estimates. To date, we have not commenced exploration.

Following phase one of the exploration program, if it proves successful in identifying mineral deposits, we intend to proceed with phase two of our exploration program. The estimated cost of this program is \$9,500 and will take approximately 3 weeks to complete and an additional two to three months for the consulting geologist to receive the results from the assay lab and prepare his report.

Following phase two of the exploration program, if it proves successful, we intend to proceed with phase three of our exploration program. The estimated cost of this program is \$25,000 and will take approximately one month to complete and an additional two to three months for the consulting geologist to receive the results from the assay lab and prepare his report.

We anticipate commencing the second phase of our exploration program in summer 2009 and phase 3 in fall 2009. We have a verbal agreement with Western Minerals Inc., the consulting geology company who prepared the geology report on our claim, to retain their services for our planned exploration program. We cannot provide investors with any assurance that we will be able to raise sufficient funds to proceed with any work after the exploration program if we find mineralization.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Limited Operating History; Need for Additional Capital

There is no historical financial information about us on which to base an evaluation of our performance. We are an exploration stage company and have not generated revenues from operations. We cannot guarantee we will be successful in our business operations. Our business is subject to risks inherent in the establishment of a new business enterprise, including limited capital resources, possible delays in the exploration of our property, and possible cost overruns due to increases in the cost of services.

To become profitable and competitive, we must conduct the exploration of our properties before we start into production of any minerals we may find. We are seeking funding from this offering to provide the capital required for our exploration program. We believe that the funds from this offering will allow us to operate for one year.

Liquidity and Capital Resources

To meet our need for cash we are attempting to raise money from this offering. We cannot guarantee that we will be able to sell all the shares required. If we are successful any money raised will be applied to the items set forth in the Use of Proceeds section of this prospectus. If the first phase of our exploration program is successful in identifying mineral deposits we will proceed with phases two and three and any subsequent drilling and extraction. The sources of funding we may consider to fund this work include a second public offering, a private placement of our securities or loans from our directors or others.

Our director has agreed to advance funds as needed until the offering is completed or failed and has agreed to pay the cost of reclamation of the property should exploitable minerals not be found and we abandon the second phase of our exploration program and there are no remaining funds in the company. While he has agreed to advance the funds, the agreement is verbal and is unenforceable as a matter of law.

The one property in the Company's portfolio, on which the net proceeds of the offering will be spent, is the Ray Mineral Claims. We have not carried out any exploration work on the claim and have incurred no exploration costs.

We received our initial funding of \$15,000 through the sale of common stock to Shane Ellis, our officer and director, who purchased 3,000,000 shares of our common stock at \$0.005 per share in September, 2008. Our financial statements from inception (September 25, 2008) through the year ended September 30, 2008 report no revenues and a net loss of \$515.

Critical Accounting Policies

Basis of Accounting

The Company's financial statements are prepared using the accrual method of accounting. The Company has elected a September 30, year-end.

Basic Earnings per Share

In February 1997, the FASB issued SFAS No. 128, "Earnings Per Share", which specifies the computation, presentation and disclosure requirements for earnings (loss) per share for entities with publicly held common stock. SFAS No. 128 supersedes the provisions of APB No. 15, and requires the presentation of basic earnings (loss) per share and diluted earnings (loss) per share. The Company has adopted the provisions of SFAS No. 128 effective September 25, 2008 (inception).

Basic net loss per share amounts is computed by dividing the net loss by the weighted average number of common shares outstanding. Diluted earnings per share are the same as basic earnings per share due to the lack of dilutive items in the Company.

Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In accordance with FASB 16 all adjustments are normal and recurring.

Income Taxes

Income taxes are provided in accordance with Statement of Financial Accounting Standards No. 109 (SFAS 109), Accounting for Income Taxes. A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carryforwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion of all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Changes in and Disagreements with Accountants on Financial Disclosure

None.

Director, Executive Officer, Promoter and Control Person

The officer and director of Ares Ventures, whose one year terms will expire 9/30/09, or at such a time as their successor(s) shall be elected and qualified are as follows:

<u>Name & Address</u>	<u>Age</u>	<u>Position</u>	<u>Date First Elected</u>	<u>Term Expires</u>
Shane Ellis 4600 Lamont St. #4-327 San Diego, CA 92109	38	President, Secretary, Treasurer, CFO, CEO & Director	9/25/08	9/30/09

The foregoing person is a promoter of Ares Ventures Corp., as that term is defined in the rules and regulations promulgated under the Securities and Exchange Act of 1933. Directors are elected to serve until the next annual meeting of stockholders and until their successors have been elected and qualified.

Officers are appointed to serve until the meeting of the board of directors following the next annual meeting of stockholders and until their successors have been elected and qualified.

Shane Ellis currently devotes four to five hours per week to company matters, in the future he intends to devote as much time as the board of directors deems necessary to manage the affairs of the company.

No executive officer or director of the corporation has been the subject of any order, judgment, or decree of any court of competent jurisdiction, or any regulatory agency permanently or temporarily enjoining, barring, suspending or otherwise limiting him or her from acting as an investment advisor, underwriter, broker or dealer in the securities industry, or as an affiliated person, director or employee of an investment company, bank, savings and loan association, or insurance company or from engaging in or continuing any conduct or practice in connection with any such activity or in connection with the purchase or sale of any securities.

No executive officer or director of the corporation has been convicted in any criminal proceeding (excluding traffic violations) or is the subject of a criminal proceeding which is currently pending.

Background Information

Shane Ellis has been the President, Secretary, Treasurer and a Director of Ares Ventures since September 25, 2008 (inception).

Mr. Ellis, 38, worked for Arthur Andersen LLP from 1994 to 1997 as an auditor for a diverse client base. He assisted with preparation, review and filing of Forms S-1 and SB-2 with the SEC in conjunction with clients' Initial Public Offerings. He then joined Reality Check Studios from 1997 to 1999 as CFO. From November, 1999 to October, 2002 he was CFO of Presto Studios, Inc. From June, 2000 to February, 2005 he worked for the County of San Diego as an Internal Finance Auditor where he performed a variety of professional auditing duties and advisory services. In February, 2005 he joined the San Diego County Regional Airport Authority as a Senior Internal Auditor leading highly complex auditing projects.

Mr. Ellis holds a Certified Governmental Auditing Professional certificate and is also a member of the Institute of Internal Auditors. He graduated from the University of Southern California in 1993 with a B.S. Degree in Business Administration.

Executive Compensation

Our current officer receives no compensation. The current Board of Directors is comprised of Shane Ellis.

There are no current employment agreements between the company and its executive officer.

In September 2008 Shane Ellis purchased 3,000,000 shares of our common stock at \$0.005 per share. The terms of the stock issuance was as fair to the company, in the opinion of the board of directors, as could have been made with an unaffiliated third party.

Mr. Ellis currently devotes approximately four to five hours per week to manage the affairs of the company. He has agreed to work with no remuneration until such time as the company receives sufficient revenues necessary to provide management salaries. At this time, we cannot accurately estimate when sufficient revenues will occur to implement this compensation, or what the amount of the compensation will be.

There are no annuity, pension or retirement benefits proposed to be paid to officers, directors or employees in the event of retirement at normal retirement date pursuant to any presently existing plan provided or contributed to by the company or any of its subsidiaries, if any.

Security Ownership of Certain Beneficial Owners and Management

The following table sets forth information on the ownership of Ares Ventures Corp. voting securities by officers, directors and major shareholders as well as those who own beneficially more than five percent of our common stock as of the date of this prospectus:

<u>Name of Beneficial Owner (1)</u>	<u>No. of Shares Before Offering</u>	<u>No. of Shares After Offering</u>	<u>Percentage of Ownership:</u>	
			<u>Before Offering</u>	<u>After Offering</u>
Shane Ellis 4600 Lamont St. #4-327 San Diego, CA 92019	3,000,000	3,000,000	100%	50%
All Officers and Directors as a Group	3,000,000	3,000,000	100%	50%

-
- (1) The person named may be deemed to be a "parent" and "promoter" of the Company, within the meaning of such terms under the Securities Act of 1933, as amended.

Certain Relationships and Related Transactions

Mr. Ellis will not be paid for any underwriting services that he performs on our behalf with respect to this offering. He will also not receive any interest on any funds that he may advance to us for expenses incurred prior to the offering being closed. Any funds loaned will be repaid from the proceeds of the offering.

In September 2008 Shane Ellis purchased 3,000,000 shares of our common stock at \$0.005 per share. All of such shares are "restricted" securities, as that term is defined by the Securities Act of 1933, as amended, and are held by the officer and director of the Company. (See "Principal Stockholders".)

Indemnification

Pursuant to the Articles of Incorporation and By-Laws of the corporation, we may indemnify an officer or director who is made a party to any proceeding, including a law suit, because of his position, if he acted in good faith and in a manner he reasonably believed to be in our best interest. In certain cases, we may advance expenses incurred in defending any such proceeding. To the extent that the officer or director is successful on the merits in any such proceeding as to which such person is to be indemnified, we must indemnify him against all expenses incurred, including attorney's fees. With respect to a derivative action, indemnity may be made only for expenses actually and reasonably incurred in defending the proceeding, and if the officer or director is judged liable, only by a court order. The indemnification is intended to be to the fullest extent permitted by the laws of the State of Nevada.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to the provisions above, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act, and is, therefore, unenforceable.

In the event that a claim for indemnification against such liabilities, other than the payment by us of expenses incurred or paid by one of our directors, officers, or controlling persons in the successful defense of any action, suit or proceeding, is asserted by one of our directors, officers, or controlling person sin connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification is against public policy as expressed in the Securities Act, and we will be governed by the final adjudication of such issue.

MOORE & ASSOCIATES, CHARTERED

ACCOUNTANTS AND ADVISORS

PCAOB REGISTERED

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors

Ares Ventures Corp.

(An Exploration Stage Company)

We have audited the accompanying balance sheet of Ares Ventures Corp. (An Exploration Stage Company) as of September 30, 2008, and the related statements of operations, stockholders' equity and cash flows from inception September 25, 2008 through September 30, 2008. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conduct our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Ares Ventures Corp. (An Exploration Stage Company) as of September 30, 2008, and the related statements of operations, stockholders' equity and cash flows from inception September 25, 2008 through September 30, 2008, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 3 to the financial statements, the Company has generated a net loss of \$515 since inception, which raises substantial doubt about its ability to continue as a going concern. Management's plans concerning these matters are also described in Note 3. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

ARES VENTURES CORP.
(An Exploration Stage Company)
Notes to Financial Statements
September 30, 2008

NOTE 1. ORGANIZATION AND DESCRIPTION OF BUSINESS

Ares Ventures Corp. (the Company) was incorporated under the laws of the State of Nevada on September 25, 2008. The Company was formed to engage in the acquisition, exploration and development of natural resource properties.

The Company is in the exploration stage. Its activities to date have been limited to capital formation, organization and development of its business plan.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Basis of Accounting

The Company's financial statements are prepared using the accrual method of accounting. The Company has elected a September 30, year-end.

b. Basic Earnings per Share

In February 1997, the FASB issued SFAS No. 128, "Earnings Per Share", which specifies the computation, presentation and disclosure requirements for earnings (loss) per share for entities with publicly held common stock. SFAS No. 128 supersedes the provisions of APB No. 15, and requires the presentation of basic earnings (loss) per share and diluted earnings (loss) per share. The Company has adopted the provisions of SFAS No. 128 effective September 25, 2008 (inception).

Basic net loss per share amounts is computed by dividing the net loss by the weighted average number of common shares outstanding. Diluted earnings per share are the same as basic earnings per share due to the lack of dilutive items in the Company.

c. Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

d. Use of Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In accordance with FASB 16 all adjustments are normal and recurring.

ARES VENTURES CORP.
(An Exploration Stage Company)
Notes to Financial Statements
September 30, 2008

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e. Income Taxes

Income taxes are provided in accordance with Statement of Financial Accounting Standards No. 109 (SFAS 109), Accounting for Income Taxes. A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carryforwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities.

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion of all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

NEW ACCOUNTING PRONOUNCEMENTS:

Recent Accounting Pronouncements

In May 2008, the Financial Accounting Standards Board (“FASB”) issued SFAS No. 163, “Accounting for Financial Guarantee Insurance Contracts-and interpretation of FASB Statement No. 60”. SFAS No. 163 clarifies how Statement 60 applies to financial guarantee insurance contracts, including the recognition and measurement of premium revenue and claims liabilities. This statement also requires expanded disclosures about financial guarantee insurance contracts. SFAS No. 163 is effective for fiscal years beginning on or after December 15, 2008, and interim periods within those years. SFAS No. 163 has no effect on the Company’s financial position, statements of operations, or cash flows at this time.

In May 2008, the Financial Accounting Standards Board (“FASB”) issued SFAS No. 162, “The Hierarchy of Generally Accepted Accounting Principles”. SFAS No. 162 sets forth the level of authority to a given accounting pronouncement or document by category. Where there might be conflicting guidance between two categories, the more authoritative category will prevail. SFAS No. 162 will become effective 60 days after the SEC approves the PCAOB’s amendments to AU Section 411 of the AICPA Professional Standards. SFAS No. 162 has no effect on the Company’s financial position, statements of operations, or cash flows at this time.

In March 2008, the Financial Accounting Standards Board, or FASB, issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133. This standard requires companies to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under Statement 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity’s financial position, financial performance, and cash flows. This Statement is effective for financial statements issued for fiscal years and interim periods

ARES VENTURES CORP.
(An Exploration Stage Company)
Notes to Financial Statements
September 30, 2008

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

beginning after November 15, 2008, with early application encouraged. The Company has not yet adopted the provisions of SFAS No. 161, but does not expect it to have a material impact on its consolidated financial position, results of operations or cash flows.

In December 2007, the SEC issued Staff Accounting Bulletin (SAB) No. 110 regarding the use of a "simplified" method, as discussed in SAB No. 107 (SAB 107), in developing an estimate of expected term of "plain vanilla" share options in accordance with SFAS No. 123 (R), Share-Based Payment. In particular, the staff indicated in SAB 107 that it will accept a company's election to use the simplified method, regardless of whether the company has sufficient information to make more refined estimates of expected term. At the time SAB 107 was issued, the staff believed that more detailed external information about employee exercise behavior (e.g., employee exercise patterns by industry and/or other categories of companies) would, over time, become readily available to companies. Therefore, the staff stated in SAB 107 that it would not expect a company to use the simplified method for share option grants after December 31, 2007. The staff understands that such detailed information about employee exercise behavior may not be widely available by December 31, 2007. Accordingly, the staff will continue to accept, under certain circumstances, the use of the simplified method beyond December 31, 2007. The Company currently uses the simplified method for "plain vanilla" share options and warrants, and will assess the impact of SAB 110 for fiscal year 2009. It is not believed that this will have an impact on the Company's consolidated financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51. This statement amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. Before this statement was issued, limited guidance existed for reporting noncontrolling interests. As a result, considerable diversity in practice existed. So-called minority interests were reported in the consolidated statement of financial position as liabilities or in the mezzanine section between liabilities and equity. This statement improves comparability by eliminating that diversity. This statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008 (that is, January 1, 2009, for entities with calendar year-ends). Earlier adoption is prohibited. The effective date of this statement is the same as that of the related Statement 141 (revised 2007). The Company will adopt this Statement beginning March 1, 2009. It is not believed that this will have an impact on the Company's consolidated financial position, results of operations or cash flows.

ARES VENTURES CORP.
(An Exploration Stage Company)
Notes to Financial Statements
September 30, 2008

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In December 2007, the FASB, issued FAS No. 141 (revised 2007), Business Combinations.' This Statement replaces FASB Statement No. 141, Business Combinations, but retains the fundamental requirements in Statement 141. This Statement establishes principles and requirements for how the acquirer: (a) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree; (b) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase; and (c) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. This statement applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. An entity may not apply it before that date. The effective date of this statement is the same as that of the related FASB Statement No. 160, Noncontrolling Interests in Consolidated Financial Statements. The Company will adopt this statement beginning March 1, 2009. It is not believed that this will have an impact on the Company's consolidated financial position, results of operations or cash flows.

In February 2007, the FASB, issued SFAS No. 159, The Fair Value Option for Financial Assets and Liabilities—Including an Amendment of FASB Statement No. 115. This standard permits an entity to choose to measure many financial instruments and certain other items at fair value. This option is available to all entities. Most of the provisions in FAS 159 are elective; however, an amendment to FAS 115 Accounting for Certain Investments in Debt and Equity Securities applies to all entities with available for sale or trading securities. Some requirements apply differently to entities that do not report net income. SFAS No. 159 is effective as of the beginning of an entities first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of the previous fiscal year provided that the entity makes that choice in the first 120 days of that fiscal year and also elects to apply the provisions of SFAS No. 157 Fair Value Measurements. The Company will adopt SFAS No. 159 beginning March 1, 2008 and is currently evaluating the potential impact the adoption of this pronouncement will have on its consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements This statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This statement applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this statement does not require any new fair value measurements. However, for some entities, the application of this statement will change current practice. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Earlier application is encouraged, provided that the reporting entity has not yet issued financial

ARES VENTURES CORP.
(An Exploration Stage Company)
Notes to Financial Statements
September 30, 2008

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

statements for that fiscal year, including financial statements for an interim period within that fiscal year. The Company will adopt this statement March 1, 2008, and it is not believed that this will have an impact on the Company's consolidated financial position, results of operations or cash flows.

NOTE 3. GOING CONCERN

The accompanying financial statements are presented on a going concern basis. The Company had no operations during the period from September 25, 2008 (inception) to September 30, 2008 and generated a net loss of \$515. This condition raises substantial doubt about the Company's ability to continue as a going concern. Because the Company is currently in the exploration stage and has minimal expenses, management believes that the company's current cash of \$15,000 is sufficient to cover the expenses they will incur during the next twelve months in a limited operations scenario or until they raise additional funding.

NOTE 4. WARRANTS AND OPTIONS

There are no warrants or options outstanding to acquire any additional shares of common.

NOTE 5. RELATED PARTY TRANSACTIONS

The Company neither owns nor leases any real or personal property. The officers and directors of the Company are involved in other business activities and may, in the future, become involved in other business opportunities as they become available.

Thus they may face a conflict in selecting between the Company and their other business interests. The Company has not formulated a policy for the resolution of such conflicts.

NOTE 6. INCOME TAXES

	<u>As of September 3-, 2008</u>
Deferred tax assets:	
Net operating tax carryforwards	\$ 515
Other	0
Gross deferred tax assets	<u>175</u>
Valuation allowance	<u>(175)</u>
Net deferred tax assets	<u><u>\$ 0</u></u>

ARES VENTURES CORP.
(An Exploration Stage Company)
Notes to Financial Statements
September 30, 2008

NOTE 6. INCOME TAXES (Continued)

Realization of deferred tax assets is dependent upon sufficient future taxable income during the period that deductible temporary differences and carryforwards are expected to be available to reduce taxable income. As the achievement of required future taxable income is uncertain, the Company recorded a valuation allowance.

NOTE 8. NET OPERATING LOSSES

As of September 30, 2008, the Company has a net operating loss carryforward of approximately \$515. Net operating loss carryforward expires twenty years from the date the loss was incurred.

NOTE 9. STOCK TRANSACTIONS

Transactions, other than employees' stock issuance, are in accordance with paragraph 8 of SFAS 123. Thus issuances shall be accounted for based on the fair value of the consideration received. Transactions with employees' stock issuance are in accordance with paragraphs (16-44) of SFAS 123. These issuances shall be accounted for based on the fair value of the consideration received or the fair value of the equity instruments issued, or whichever is more readily determinable.

On September 25, 2008 the Company issued a total of 3,000,000 shares of common stock to one director for cash at \$0.005 per share for a total of \$15,000.

As of September 30, 2008 the Company had 3,000,000 shares of common stock issued and outstanding.

NOTE 10. STOCKHOLDERS' EQUITY

The stockholders' equity section of the Company contains the following classes of capital stock as of September 30, 2008:

- Common stock, \$ 0.001 par value: 75,000,000 shares authorized; 3,000,000 shares issued and outstanding.

Dealer Prospectus Delivery Obligation

“Until _____, all dealers that effect transactions in these securities, whether or not participating in this offering, may be required to deliver a prospectus. This is in addition to the dealers’ obligation to deliver a prospectus when acting as underwriters and with respect to their unsold allotments or subscriptions.”

PART II
Information Not Required in the Prospectus

Other Expenses of Issuance and Distribution

The estimated costs of the offering are denoted below. Please note all amounts are estimates other than the Commission's registration fee.

Securities and Exchange Commission registration fee	\$ 3
Accounting fees and expenses	\$ 3,000
Legal fees	\$ 1,500
Preparation and EDGAR conversion fees	\$ 1,500
Transfer Agent fees	\$ 1,000
Printing	\$ 497
Total	<u>\$ 7,500</u>

Indemnification of Directors and Officers

The By-Laws of Ares Ventures allow for the indemnification of the officers and directors in regard to their carrying out the duties of their offices. The board of directors will make determination regarding the indemnification of the director, officer or employee as is proper under the circumstances if he/she has met the applicable standard of conduct set forth in the Nevada General Corporation Law.

Section 78.751 of the Nevada Business Corporation Act provides that each corporation shall have the following powers:

"1. A corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, except an action by or in the right of the corporation, by reason of any fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with the action, suit or proceeding if he acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a pleas of nolo contendere or its equivalent, does not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and that, with respect to any criminal action or proceeding, he had a reasonable cause to believe that his conduct was unlawful.

2. A corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses, including amounts paid in settlement and attorneys fees actually and reasonably incurred by him in connection with the defense or settlement of the action or suit if he acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation.

Indemnification may not be made for any claim, issue or matter as to which such a person has been adjudged by a court of competent jurisdiction, after exhaustion of all appeals there from, to be liable to the corporation or for amounts paid in settlement to the corporation, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction, determines upon application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

3. To the extent that a director, officer, employee or agent of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in sections 1 and 2, or in defense of any claim, issue or matter therein, he must be indemnified by the corporation against expenses, including attorneys fees, actually and reasonably incurred by him in connection with the defense.

4. Any indemnification under sections 1 and 2, unless ordered by a court or advanced pursuant to section 5, must be made by the corporation only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances. The determination must be made:

- a. By the stockholders;
- b. By the board of directors by majority vote of a quorum consisting of directors who were not parties to the act, suit or proceeding;
- c. If a majority vote of a quorum consisting of directors who were not parties to the act, suit or proceeding so orders, by independent legal counsel, in a written opinion; or
- d. If a quorum consisting of directors who were not parties to the act, suit or proceeding cannot be obtained, by independent legal counsel in a written opinion.

5. The certificate of articles of incorporation, the bylaws or an agreement made by the corporation may provide that the expenses of officers and directors incurred in defending a civil or criminal action, suit or proceeding must be paid by the corporation as they are incurred and in advance of the final disposition of the action, suit or proceeding, upon receipt of an undertaking by or on behalf of the director or officer to repay the amount if it is ultimately determined by a court of competent jurisdiction that he is not

entitled to be indemnified by the corporation. The provisions of this section do not affect any rights to advancement of expenses to which corporate personnel other than director or officers may be entitled under any contract or otherwise by law.

6. The indemnification and advancement of expenses authorized in or ordered by a court pursuant to this section:

- a. Does not include any other rights to which a person seeking indemnification or advancement of expenses may be entitled under the certificate or articles of incorporation or any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, for either an action in his official capacity or an action in another capacity while holding his office, except that indemnification, unless ordered by a court pursuant to section 2 or for the advancement of expenses made pursuant to section 5, may not be made to or on behalf of any director or officer if a final adjudication establishes that his acts or omission involved intentional misconduct, fraud or a knowing violation of the law and was material to the cause of action.
- b. Continues for a person who has ceased to be a director, officer, employee or agent and inures to the benefit of the heirs, executors and administrators of such a person.
- c. The Articles of Incorporation provides that “the Corporation shall indemnify its officers, directors, employees and agents to the fullest extent permitted by the General Corporation Law of Nevada, as amended from time to time.”

As to indemnification for liabilities arising under the Securities Act of 1933 for directors, officers or persons controlling Ares Ventures Corp., we have been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy and unenforceable.

Recent Sales of Unregistered Securities

Set forth below is information regarding the issuance and sales of securities without registration since inception. No such sales involved the use of an underwriter; no advertising or public solicitation was involved; the securities bear a restrictive legend; and no commissions were paid in connection with the sale of any securities.

In September, 2008, a total of 3,000,000 shares of common stock were issued in exchange for \$15,000 US, or \$.005 per share. These securities were issued to Shane Ellis, the officer and director of the company.

Undertakings

- a. The undersigned registrant hereby undertakes:
1. To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - i. To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;
 - ii. To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.
 - iii. To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;
 2. That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
 3. To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
 4. That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

- i. If the registrant is relying on Rule 430B (230.430B of this chapter):
 - A. Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and
 - B. Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or
 - ii. If the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
5. That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities: The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant

pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- i. Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
- ii. Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
- iii. The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
- iv. Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

Insofar as indemnification for liabilities arising under the 1933 Act may be permitted to our director, officer and controlling persons of the small business issuer pursuant to the foregoing provisions, or otherwise, the small business issuer has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the 1933 Act, and is, therefore, unenforceable.

In the event that a claim for indemnification against such liabilities (other than the payment by the small business issuer of expenses incurred or paid by a director, officer or controlling person of the small business issuer in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the small business issuer will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the 1933 Act, and will be governed by the final adjudication of such issue.

Signatures

In accordance with the requirements of the Securities Act of 1933, the registrant certifies that it has reasonable grounds to believe it meets all of the requirements for filing Form S-1 and authorized this registration statement to be signed on its behalf by the undersigned, in the city of San Diego, CA on October 17, 2008.
