### **NOTE 1—BUSINESS**

Transocean Ltd. (together with its subsidiaries and predecessors, unless the context requires otherwise, "Transocean," "we," "us" or "our") is a leading international provider of offshore contract drilling services for oil and gas wells. We specialize in technically demanding sectors of the offshore drilling business with a particular focus on ultra-deepwater and harsh environment drilling services. Our mobile offshore drilling fleet is considered one of the most versatile fleets in the world. We contract our drilling rigs, related equipment and work crews predominantly on a dayrate basis to drill oil and gas wells. As of September 30, 2021, we owned or had partial ownership interests in and operated a fleet of 37 mobile offshore drilling units, including 27 ultra-deepwater floaters and 10 harsh environment floaters. As of September 30, 2021, we were constructing two ultra-deepwater drillships.

### NOTE 2—SIGNIFICANT ACCOUNTING POLICIES

**Presentation**—We prepared our accompanying unaudited condensed consolidated financial statements in accordance with accounting principles generally accepted in the United States ("U.S.") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the U.S. Securities and Exchange Commission. Pursuant to such rules and regulations, these financial statements do not include all disclosures required by accounting principles generally accepted in the U.S. for complete financial statements. The condensed consolidated financial statements reflect all adjustments, which are, in the opinion of management, necessary for a fair presentation of financial position, results of operations and cash flows for the interim periods. Such adjustments are considered to be of a normal recurring nature unless otherwise noted. Operating results for the three and nine months ended September 30, 2021, are not necessarily indicative of the results that may be expected for the year ending December 31, 2021, or for any future period. The accompanying condensed consolidated financial statements and notes thereto should be read in conjunction with the audited consolidated financial statements and notes thereto as of December 31, 2020 and 2019, and for each of the three years in the period ended December 31, 2020, included in our annual report on Form 10-K filed on March 1, 2021.

Accounting estimates—To prepare financial statements in accordance with accounting principles generally accepted in the U.S., we must make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates and assumptions, including those related to our income taxes, property and equipment, equity investments, contingencies, allowance for excess materials and supplies, intangibles, allowance for credit losses, leases, share-based compensation and postemployment benefit plans. We base our estimates and assumptions on historical experience and other factors that we believe are reasonable. Actual results could differ from such estimates.

Fair value measurements—We estimate fair value at a price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market for the asset or liability. Our valuation techniques require inputs that we categorize using a three-level hierarchy, from highest to lowest level of observable inputs, as follows: (1) significant observable inputs, including unadjusted quoted prices for identical assets or liabilities in active markets ("Level 1"), (2) significant other observable inputs, including direct or indirect market data for similar assets or liabilities in active markets or identical assets or liabilities in less active markets ("Level 2") and (3) significant unobservable inputs, including those that require considerable judgment for which there is little or no market data ("Level 3"). When a valuation requires multiple input levels, we categorize the entire fair value measurement according to the lowest level of input that is significant to the measurement even though we may have also utilized significant inputs that are more readily observable.

### NOTE 3—ACCOUNTING STANDARDS UPDATE

### Recently adopted accounting standards

**Debt with conversion and other options**—Effective January 1, 2021, we early adopted the accounting standards update that simplifies the accounting for convertible instruments, such as our exchangeable debt, by limiting the accounting models that result in separately recognizing embedded conversion features from the host contract. The accounting standards update also enhances information transparency by making targeted improvements to the disclosures for convertible instruments and earnings-per-share guidance. Our adoption did not result in any accounting changes for the 0.50% exchangeable senior bonds due January 2023 (the "0.50% Exchangeable Senior Bonds") or the 2.50% senior guaranteed exchangeable bonds due January 2027 (the "2.50% Senior Guaranteed Exchangeable Bonds"). Under previous accounting guidance, for the 4.00% senior guaranteed exchangeable bonds due December 2025 (the "4.00% Senior Guaranteed Exchangeable Bonds"), we would have recorded the debt and exchange features separately and, consequently, we would have recognized in current and future periods greater amortization, as a component of interest expense. See Note 7—Debt.

### NOTE 4—UNCONSOLIDATED AFFILIATES

**Equity investments**—We hold noncontrolling equity investments in various unconsolidated companies, including (a) our 33.0 percent ownership interest in Orion Holdings (Cayman) Limited (together with its subsidiary, "Orion"), a Cayman Islands company that, through its wholly owned subsidiary, owns the harsh environment floater *Transocean Norge*, and (b) our interests in certain companies that are involved in researching and developing technology to improve efficiency and reliability and to increase automation, sustainability and safety for drilling and other activities. In the nine months ended September 30, 2020, we recognized a loss of \$59 million, which had no tax

(Unaudited)

effect, recorded in other, net, associated with the impairment of our investment in Orion upon determination that the carrying amount of our equity method investment exceeded the estimated fair value and that the impairment was other than temporary. We estimated the fair value of our investment using the income method, which required us to use significant unobservable inputs, representative of a Level 3 fair value measurement, including applying an assumed discount rate of 12 percent and making assumptions about the future performance of the investment, including future demand and supply for harsh environment floaters, rig utilization, revenue efficiency and dayrates. At September 30, 2021 and December 31, 2020, the aggregate carrying amount of our equity investments was \$135 million and \$138 million, respectively, recorded in other assets, of which the aggregate carrying amount of our equity investment in Orion was \$100 million and \$104 million, respectively.

**Related party transactions**—We engage in certain related party transactions with our unconsolidated affiliates, the most significant of which are under agreements with Orion. We have a management services agreement for the operation, stacking and maintenance of the harsh environment floater *Transocean Norge* and a marketing services agreement for the marketing of the rig. We also leased the rig under a short-term bareboat charter agreement, which expired in June 2021. Prior to the rig's placement into service, we engaged in certain related party transactions with Orion under a shipyard care agreement for the construction of the rig and other matters related to its completion and delivery. In the three and nine months ended September 30, 2020, we received an aggregate cash payment of \$3 million and \$35 million, respectively, primarily related to the shipyard care agreement.

Additionally, in June 2021, Orion refinanced its shipyard loans under a financing arrangement for \$100 million, in which we participated at a rate equivalent to our ownership interest in Orion. Borrowings under the financing arrangement are secured by *Transocean Norge*. The financing arrangement, which expires in June 2024, requires interest to be paid on outstanding borrowings at the London Interbank Offered Rate plus a margin of 6.50 percent per annum. In the nine months ended September 30, 2021, we made a cash investment in loans of \$33 million, and at September 30, 2021, the outstanding borrowings due to us under the financing arrangement were \$33 million, recorded in other assets.

### **NOTE 5—REVENUES**

**Overview**—The duration of our performance obligation varies by contract. As of September 30, 2021, the drilling contract with the longest expected remaining duration, excluding unexercised options, extends through February 2028. In the three and nine months ended September 30, 2021, we recognized pre-operating costs of \$13 million and \$43 million, respectively. In the three and nine months ended September 30, 2020, we recognized pre-operating costs of \$16 million and \$48 million, respectively. At September 30, 2021 and December 31, 2020, the carrying amount of our unrecognized pre-operating costs to obtain contracts was \$6 million and \$20 million, respectively, recorded in other assets.

In June 2020, we entered into a settlement and mutual release agreement with a customer, which provided for the final settlement of disputes related to performance obligations satisfied in prior periods. In connection with the settlement, among other things, our customer agreed to pay us \$185 million in four equal installments through January 15, 2023. In the nine months ended September 30, 2020, we recognized revenues of \$177 million, representing the discounted value of the future payments, and recorded corresponding accounts receivable, net of imputed interest. At September 30, 2021 and December 31, 2020, the aggregate carrying amount of the related receivable was \$89 million and \$133 million, respectively, net of imputed interest, including \$46 million and \$45 million, respectively, recorded in accounts receivable, and \$43 million and \$88 million, respectively, recorded in other assets.

**Disaggregation**—Our contract drilling revenues, disaggregated by asset group and by country in which they were earned, were as follows (in millions):

(	Three m	onths ende	d Septemb	er 30, 202	1	Three mo	onths e	ended	Sept	tember	30, 2020
	U.S.	Norway	Other	Total		U.S.	Nor	way	Ö	ther	Total

·	U.S.	Norway	Other	Total		U.S.		way		ther	Total
Ultra-deepwater floaters	U.S. \$ 819	Norway \$ —	Other \$ 469	* 1,288		U.S.		way —		ther 632	* 1,654

**Contract liabilities**—The contract liabilities for our contracts with customers were as follows (in millions):

	Septem 20	mber 31, 2020	
Deferred contract revenues, recorded in other current liabilities	\$	89	\$ 133
Deferred contract revenues, recorded in other long-term liabilities		280	323
Total contract liabilities	\$	369	\$ 456

(Unaudited)

The changes in contract liabilities were as follows (in millions):

		Nine months ended September 30,				
	- :	2021		2020		
Total contract liabilities, beginning of period	\$	456	\$	529		
Decrease due to recognition of revenues for goods and services		(117)		(153)		
Increase due to goods and services transferred over time		30		108		
Total contract liabilities, end of period	\$	369	\$	484		

### **NOTE 6—DRILLING FLEET**

Construction work in progress—The changes in our construction work in progress were as follows (in millions):

		nths ended lber 30,
	2021	2020
Construction work in progress, beginning of period	\$ 828	\$ 753
Capital expenditures		
Newbuild construction program	106	114
Other equipment and construction projects	31	104
Total capital expenditures	137	218
Changes in accrued capital additions	19	(27)
Property and equipment placed into service	(28)	(130)
Construction work in progress, end of period	\$ 956	\$ 814

Impairments of assets held and used—During the nine months ended September 30, 2020, we identified indicators that the carrying amounts of our asset groups may not be recoverable. Such indicators included significant declines in commodity prices and the market value of our stock, a reduction of expected demand for our drilling services as our customers announced reductions of capital investments in response to commodity prices and a reduction of projected dayrates. As a result of our testing, we determined that the carrying amount of our midwater floater asset group was impaired. In the nine months ended September 30, 2020, we recognized a loss of \$31 million (\$0.05 per diluted share), which had no tax effect, associated with the impairment of our midwater floater asset group. We measured the fair value of the drilling unit and related assets in this asset group by applying the market approach, using estimates of the exchange price that would be received for the assets in the principal or most advantageous markets for the assets in an orderly transaction between participants as of the measurement date. Our estimate of fair value required us to use significant other observable inputs, representative of a Level 2 fair value measurement, including the marketability of the rig and prices of comparable rigs that may be sold for scrap value.

Impairments of assets held for sale—During the nine months ended September 30, 2020, we announced our intent to sell or retire, in an environmentally responsible way, the ultra-deepwater floater *GSF Development Driller II*, the harsh environment floaters *Polar Pioneer* and *Songa Dee* and the midwater floaters *Sedco 711*, *Sedco 714* and *Transocean 712*, along with related assets. In the nine months ended September 30, 2020, we recognized an aggregate loss of \$556 million (\$0.90 per diluted share), which had no tax effect, associated with the impairment of these assets, which we determined were impaired at the time we classified the assets as held for sale. We measured the impairment of the drilling units and related assets as the amount by which the carrying amount exceeded the estimated fair value less costs to sell. We estimated the fair value of the assets using significant other observable inputs, representative of a Level 2 fair value measurement, including indicative market values for the drilling units and related assets to be sold for scrap value or other purposes.

**Dispositions**—During the nine months ended September 30, 2021, in connection with our efforts to dispose of non-strategic assets, we completed the sale of the harsh environment floater *Leiv Eiriksson* and related assets. In the nine months ended September 30, 2021, we received aggregate net cash proceeds of \$4 million and recognized an aggregate net loss of \$60 million (\$0.10 per diluted share), which had no tax effect, associated with the disposal of these assets. In the nine months ended September 30, 2020, we completed the sale of the harsh environment floaters *Polar Pioneer*, *Songa Dee* and *Transocean Arctic* and the midwater floaters *Sedco 711*, *Sedco 714* and *Transocean 712*, along with related assets. In the nine months ended September 30, 2020, we received aggregate net cash proceeds of \$11 million and recognized an aggregate net loss of \$61 million, which had no tax effect, associated with the disposal of these assets.

(Unaudited)

### NOTE 7—DEBT

### Overview

**Outstanding debt**—The aggregate principal amounts and aggregate carrying amounts, including debt-related balances, such as the contractual interest payments of certain previously restructured debt and unamortized discounts, premiums, issue costs and fair value adjustments, were as follows (in millions):

adjustments, were as follows (in millions).		Principal	amount	Carrying amount

Total debt-related balances, net	,			(78)
Total carrying amount of debt			\$	7,348

(Unaudited)

Interest rate adjustments—The interest rates for certain of our notes are subject to adjustment from time to time upon a change to the credit rating of our non-credit enhanced senior unsecured long-term debt. As of September 30, 2021, the interest rate in effect for the 6.375% senior notes due December 2021, 3.80% senior notes due October 2022 and the 7.35% senior notes due December 2041 was 8.375 percent, 5.80 percent and 9.35 percent, respectively.

#### Credit agreements

Secured Credit Facility—As of September 30, 2021, we have a \$1.3 billion secured revolving credit facility established under a bank credit agreement (as amended from time to time, the "Secured Credit Facility"), which is scheduled to expire on June 22, 2023. The Secured Credit Facility is guaranteed by Transocean Ltd. and certain wholly owned subsidiaries. We may borrow under the Secured Credit Facility at either (1) the reserve adjusted London Interbank Offered Rate plus a margin (the "Secured Credit Facility Margin"), which ranges from 2.625 percent to 3.375 percent based on the credit rating of the Secured Credit Facility, or (2) the base rate specified in the credit agreement plus the Secured Credit Facility Margin, minus one percent per annum. Throughout the term of the Secured Credit Facility, we pay a facility fee on the amount of the underlying commitment which ranges from 0.375 percent to 1.00 percent based on the credit rating of the Secured Credit Facility. At September 30, 2021, based on the credit rating of the Secured Credit Facility on that date, the Secured Credit Facility Margin was 3.375 percent and the facility fee was 0.875 percent. At September 30, 2021, we had no borrowings outstanding, \$20 million of letters of credit issued, and we had \$1.3 billion of available borrowing capacity under the Secured Credit Facility. See Note 10—Contingencies.

Shipyard financing arrangement—In June 2021, Transocean Offshore Deepwater Holdings Limited, a Cayman Islands company and our wholly owned indirect subsidiary, entered into credit agreements with Jurong Shipyard Pte Ltd. establishing facilities (the "Shipyard Loans") to finance all or a portion of the final payments expected to be owed to the shipyard upon delivery of the ultra-deepwater floaters Deepwater Atlas and Deepwater Titan. The Shipyard Loans are guaranteed by Transocean Inc. Borrowings under the Shipyard Loan for Deepwater Atlas will be secured by, among other security, a lien on the rig. In certain circumstances, borrowings under the Shipyard Loan for Deepwater Titan may also be secured by, among other security, a lien on the rig. We will repay the borrowings, together with interest of 4.5 percent per annum, according to the selected installment schedule over a maximum of a six-year period following delivery of the drilling rigs. We have the right to prepay any outstanding borrowings, in full or in part, without penalty. The Shipyard Loans contain covenants that, among other things, limit the ability of the subsidiary owners of the drilling rigs to incur certain types of additional indebtedness or make certain additional commitments or investments. At September 30, 2021, we had no borrowings outstanding under the Shipyard Loans.

### Exchangeable bonds

**Exchange terms**—At September 30, 2021, the (a) current exchange rates, expressed as the number of Transocean Ltd. shares per \$1,000 note, (b) implied exchange prices per Transocean Ltd. share and (c) aggregate shares, expressed in millions, issuable upon exchange of our exchangeable bonds were as follows:

		ım	piiea	
	Exchange rate		hange rice	Shares issuable
0.50% Exchangeable Senior Bonds due January 2023	97.29756	\$	10.28	13.6
4.00% Senior Guaranteed Exchangeable Bonds due December 2025	190.47620		5.25	56.0
2.50% Senior Guaranteed Exchangeable Bonds due January 2027	162.16260		6.17	38.6

The exchange rates of our exchangeable bonds, identified above, are subject to adjustment upon the occurrence of certain events. The 0.50% Exchangeable Senior Bonds may be exchanged by holders into Transocean Ltd. shares at any time prior to the close of business on the business day immediately preceding the maturity date. The 2.50% Senior Guaranteed Exchangeable Bonds may be exchanged by holders into Transocean Ltd. shares at any time prior to the close of business on the second business day immediately preceding the maturity date or redemption date. The 4.00% Senior Guaranteed Exchangeable Bonds may be exchanged by holders at any time prior to the close of business on the second business day immediately preceding the maturity date and, at our election, such exchange may be settled by delivering cash, Transocean Ltd. shares or a combination of cash and shares.

**Effective interest rates and fair values**—At September 30, 2021, the effective interest rates and estimated fair values of our exchangeable bonds were as follows (in millions, except effective interest rates):

	Effective interest rate	Fair /alue
0.50% Exchangeable Senior Bonds due January 2023	0.5%	\$ 119
4.00% Senior Guaranteed Exchangeable Bonds due December 2025	6.9%	317
2.50% Senior Guaranteed Exchangeable Bonds due January 2027	0.0%	233

We estimated the fair values of the exchangeable debt instruments, including the exchange features, by employing a binomial lattice model and by using significant other observable inputs, representative of a Level 2 fair value measurement, including the terms and credit spreads of our debt and the expected volatility of the market price for our shares.

(Unaudited)

**Related balances**—At September 30, 2021 and December 31, 2020, the premium associated with the original issuance of the 0.50% Exchangeable Senior Bonds had a carrying amount of \$172 million, recorded in equity as a component of additional paid-in capital.

#### Debt issuance

Senior guaranteed exchangeable bonds—On February 26, 2021, we issued \$294 million aggregate principal amount of the 4.00% Senior Guaranteed Exchangeable Bonds and made an aggregate cash payment of \$11 million in private exchanges (collectively, the "2021 Private Exchange") for \$323 million aggregate principal amount of the 0.50% Exchangeable Senior Bonds. The 4.00% Senior Guaranteed Exchangeable Bonds are guaranteed by Transocean Ltd. and the same subsidiaries of Transocean Inc. that guarantee the 2.50% Senior Guaranteed Exchangeable Bonds and 11.50% senior guaranteed notes due January 2027 (the "11.50% Senior Guaranteed Notes"). The initial carrying amount of the 4.00% Senior Guaranteed Exchangeable Bonds, measured at the estimated fair value on the date of issuance, was \$260 million. We estimated the fair value of the exchangeable debt instrument, including the exchange feature, by employing a binomial lattice model and by using significant other observable inputs, representative of a Level 2 fair value measurement, including the terms and credit spreads of our debt and expected volatility of the market price for our shares. In the nine months ended September 30, 2021, as a result of the 2021 Private Exchange, we recognized a gain of \$51 million (\$0.08 per diluted share), with no tax effect, associated with the retirement of debt (see "—Debt restructuring and retirement").

On August 14, 2020, we issued \$238 million aggregate principal amount of the 2.50% Senior Guaranteed Exchangeable Bonds in non-cash private exchanges (collectively, the "2020 Private Exchange") for \$397 million aggregate principal amount of the 0.50% Exchangeable Senior Bonds. We may redeem all or a portion of the 2.50% Senior Guaranteed Exchangeable Bonds (i) on or after August 14, 2022, if certain conditions related to the price of our shares have been satisfied, at a price equal to 100 percent of the aggregate principal amount and (ii) on or after August 14, 2023, at specified redemption prices. Perestroika AS, an entity affiliated with one of our directors that beneficially owns approximately 10 percent of our shares, exchanged \$356 million aggregate principal amount of the 0.50% Exchangeable Senior Bonds for \$213 million aggregate principal amount of the 2.50% Senior Guaranteed Exchangeable Bonds. We recorded the conversion feature of the 2.50% Senior Guaranteed Exchangeable Bonds, measured at its estimated fair value of \$46 million, to additional paid in capital. We estimated the fair value by employing a binomial lattice model and by using significant other observable inputs, representative of a Level 2 fair value measurement, including the expected volatility of the market price for our shares. In the three and nine months ended September 30, 2020, as a result of the 2020 Private Exchange, we recognized a gain of \$72 million (\$0.12 per diluted share), with no tax effect, associated with the restructuring of debt (see "—Debt restructuring and retirement").

**Guaranteed senior unsecured notes**—On January 17, 2020, we issued \$750 million aggregate principal amount of 8.00% senior unsecured notes due February 2027 (the "8.00% Senior Notes"), and we received aggregate cash proceeds of \$743 million, net of issue costs. We may redeem all or a portion of the 8.00% Senior Notes on or prior to February 1, 2023 at a price equal to 100 percent of the aggregate principal amount plus a make-whole premium, and subsequently, at specified redemption prices.

**Priority guaranteed senior unsecured notes**—On September 11, 2020, we issued \$687 million aggregate principal amount of the 11.50% Senior Guaranteed Notes in non-cash exchange offers, pursuant to an exchange offer memorandum, dated August 10, 2020, as supplemented, for an aggregate principal amount of \$1.51 billion of several series of our existing debt securities that were validly tendered and accepted for purchase (the "2020 Exchange Offers"). We may redeem all or a portion of the 11.50% Senior Guaranteed Notes prior to July 30, 2023 at a price equal to 100 percent of the aggregate principal amount plus a make-whole premium, and subsequently, at specified redemption prices. We may also use the net cash proceeds of certain equity offerings by Transocean Ltd. to redeem, on one or more occasions prior to July 30, 2023, up to a maximum of 40 percent of the original aggregate principal amount of the 11.50% Senior Guaranteed Notes, subject to certain adjustments, at a redemption price equal to 111.50 percent of the aggregate principal amount. In the three and nine months ended September 30, 2020, as a result of the 2020 Exchange Offers, we recognized a gain of \$356 million (\$0.58 per diluted share), with no tax effect, associated with the restructuring of debt (see "—Debt restructuring and retirement").

### Debt restructuring and retirement

During the nine months ended September 30, 2021 and 2020, we restructured or retired certain notes as a result of redemption, exchange offers, private exchanges and open market repurchases. We recorded the 2020 Private Exchange and the 2020 Exchange Offers

(Unaudited)

under ASC 470-60, Troubled Debt Restructuring by Debtors. The aggregate principal amounts, cash payments and recognized gain or loss for such transactions were as follows (in millions):

#### **NOTE 8—INCOME TAXES**

Tax provision and rate—In the nine months ended September 30, 2021 and 2020, our effective tax rate was (3.2) percent and (0.8) percent, respectively, based on loss before income tax expense. In the nine months ended September 30, 2021 and 2020, the effect of various discrete period tax items was a net tax benefit of \$25 million and \$54 million, respectively. In the nine months ended September 30, 2021, such discrete items included loss on disposal of assets, gain on retirement of debt, expiration and settlements of various uncertain tax positions, remeasurement of deferred tax liabilities related to the jurisdictional ownership changes of certain assets and changes in valuation allowances. In the nine months ended September 30, 2020, such discrete items included losses on impairment and disposal of assets, gain on restructuring and retirement of debt, revenues recognized for the settlement of disputes, the loss on impairment of an investment in an unconsolidated affiliate, the carryback of net operating losses in the U.S. as a result of the Coronavirus Aid, Relief, and Economic Security Act, which included the release of valuation allowances previously recorded, and settlements and expirations of various uncertain tax positions. In the nine months ended September 30, 2021 and 2020, our effective tax rate, excluding discrete items, was (11.2) percent and (16.4) percent, respectively, based on loss before income tax expense.

Tax positions and returns—We conduct operations through our various subsidiaries in countries throughout the world. Each country has its own tax regimes with varying nominal rates, deductions and tax attributes that are subject to changes resulting from new legislation, interpretation or guidance. From time to time, as a result of these changes, we may revise previously evaluated tax positions, which could cause us to adjust our recorded tax assets and liabilities. Tax authorities in certain jurisdictions are examining our tax returns and, in some cases, have issued assessments. We intend to defend our tax positions vigorously. Although we can provide no assurance as to the outcome of the aforementioned changes, examinations or assessments, we do not expect the ultimate liability to have a material adverse effect on our condensed consolidated statement of financial position or results of operations; however, it could have a material adverse effect on our condensed consolidated statement of cash flows.

Brazil tax investigations—In December 2005, the Brazilian tax authorities began issuing tax assessments with respect to our tax returns for the years 2000 through 2004. In May 2014, the Brazilian tax authorities issued an additional tax assessment for the years 2009 and 2010. We filed protests with the Brazilian tax authorities for the assessments and are currently engaged in the appeals process. During the years ended December 31, 2018 and 2019, a portion of the two cases was favorably closed. As of September 30, 2021, the remaining aggregate tax assessment, including interest and penalties, was for corporate income tax of BRL 634 million, equivalent to approximately \$116 million, and indirect tax of BRL 109 million, equivalent to \$20 million. We believe our returns are materially correct as filed, and we are vigorously contesting these assessments. An unfavorable outcome on these proposed assessments could have a material adverse effect on our condensed consolidated statement of financial position, results of operations or cash flows.

(Unaudited)

### NOTE 9—EARNINGS (LOSS) PER SHARE

The computations of basic and diluted earnings (loss) per share were as follows (in millions, except per share data):

		Т	hree mon Septemi								e mon				
		202	<u>!</u> 1		20	20			20	21			20	20	
	Basic		Diluted	В	asic	Dilu	ted	В	asic	Di	luted	$\equiv$	Basic	Di	iluted
Numerator for earnings (loss) per share															
Net income (loss) attributable to controlling interest	\$ (13)	) :	\$ (130)	\$	359	\$ 3	359	\$	(332)	\$	(332)	\$	(530)	\$	(530)
Effect of interest expense on convertible debt instruments		_	` <u></u>		_		1				<u> </u>		` —		
Earnings (loss) for per share calculation	\$ (13)	))	\$ (130)	\$	359	\$ 3	360	\$	(332)	\$	(332)	\$	(530)	\$	(530)
Denominator for earnings (loss) per share															
Weighted-average shares outstanding	65	1	651		615	6	315		629		629		614		614
Effect of share-based awards		2	2		1		3		1		1		1		1
Effect of convertible debt instruments	_	-	_		_		84		_		_		_		_
Weighted-average shares for per share calculation	65	3	653		616		702	_	630	_	630	_	615	_	615
Earnings (loss) per share	\$ (0.20	) (C	\$ (0.20)	\$	0.58	\$ 0	.51	\$ (	(0.53)	\$ (	0.53)	\$	(0.86)	\$ (	(0.86)

In the three and nine months ended September 30, 2021, we excluded from the calculation 13.0 million and 12.3 million shares, respectively, issuable pursuant to share-based awards since the effect would have been antidilutive. In the three and nine months ended September 30, 2020, we excluded from the calculation 7.9 million and 10.8 million shares, respectively, issuable pursuant to share-based awards since the effect would have been antidilutive. In the three and nine months ended September 30, 2021, we excluded from the calculation 108.1 million and 103.1 million shares, respectively, issuable upon exchange of the 0.50% Exchangeable Senior Bonds, the 2.50% Senior Guaranteed Exchangeable Bonds since the effect would have been antidilutive. In the nine months ended September 30, 2020, we excluded from the calculation 84.0 million shares issuable upon exchange of the 0.50% Exchangeable Senior Bonds and the 2.50% Senior Guaranteed Exchangeable Bonds since the effect would have been antidilutive.

### **NOTE 10—CONTINGENCIES**

### Legal proceedings

**Debt exchange litigation and purported notice of default**—Prior to the consummation of the exchange transactions that we completed in August and September 2020, we completed certain internal reorganization transactions (the "Internal Reorganization"). In September 2020, funds managed by, or affiliated with, Whitebox Advisors LLC ("Whitebox") as holders of certain series of our notes subject to the exchange offer transactions completed in September 2020 (the "Exchange Offers"), filed a claim (the "Claim") in the U.S. District Court for the Southern District of New York (the "Court") related to such certain internal reorganization transactions and the Exchange Offers. Additionally, in September and October 2020, Whitebox and funds managed by, or affiliated with, Pacific Investment Management Company LLC, as debtholders, together with certain other advisors and debtholders, provided purported notices of alleged default with respect to the indentures governing, respectively, the 8.00% Senior Notes and the 7.25% senior notes due November 2025 (the "7.25% Senior Notes").

On September 23, 2020, we filed an answer to the Claim with the Court and asserted counterclaims seeking a declaratory judgment that, among other matters, the Internal Reorganization did not cause a default under the indenture governing the 8.00% Senior Notes. Concurrently, with our answer and counterclaims, we also submitted a motion for summary judgment seeking an expedited judgment on our request for declaratory judgment. Whitebox subsequently submitted a cross motion for summary judgment seeking dismissal of our counterclaims. On November 30, 2020, while awaiting the Court's ruling on our motion for summary judgment, we amended certain of our financing documents and implemented certain internal reorganization transactions, which resolved the allegations contained in the purported notices of default. On December 17, 2020, the Court issued its ruling granting our motion for summary judgment and denying the plaintiff's cross motion for summary judgment, holding, among other matters, that the allegations contained in the purported notice of default did not constitute a default under the indenture governing the 8.00% Senior Notes. Whitebox has appealed the Court's ruling.

The facts alleged in the purported notice of default under the 8.00% Senior Notes were the same as the facts underlying the Claim and the purported notice of default under the 7.25% Senior Notes. Accordingly, following the amendment and internal reorganization transactions on November 30, 2020, and the subsequent ruling from the Court granting our motion for summary judgment, we do not expect the liability, if any, resulting from these matters to have a material adverse effect on our condensed consolidated statement of financial position, results of operations or cash flows.

Asbestos litigation—In 2004, several of our subsidiaries were named, along with numerous other unaffiliated defendants, in complaints filed in the Circuit Courts of the State of Mississippi, and in 2014, a group of similar complaints were filed in Louisiana. The plaintiffs, former employees of some of the defendants, generally allege that the defendants used or manufactured asbestos-containing

(Unaudited)

drilling mud additives for use in connection with drilling operations, claiming negligence, products liability, strict liability and claims allowed under the Jones Act and general maritime law. The plaintiffs generally seek awards of unspecified compensatory and punitive damages, but the court-appointed special master has ruled that a Jones Act employer defendant, such as us, cannot be sued for punitive damages. One of our subsidiaries was named in additional complaints filed in Illinois and Missouri, where the plaintiffs similarly allege that the defendants manufactured asbestos-containing products or used asbestos-containing drilling mud additives in connection with land-based drilling operations. As of September 30, 2021, 10 plaintiffs have claims pending in Louisiana and 13 plaintiffs have claims pending in Illinois and Missouri, in which we have or may have an interest. We intend to defend these lawsuits vigorously, although we can provide no assurance as to the outcome. We historically have maintained broad liability insurance, although we are not certain whether insurance will cover the liabilities, if any, arising out of these claims. Based on our evaluation of the exposure to date, we do not expect the liability, if any, resulting from these claims to have a material adverse effect on our condensed consolidated statement of financial position, results of operations or cash flows.

One of our subsidiaries has been named as a defendant, along with numerous other companies, in lawsuits arising out of the subsidiary's manufacture and sale of heat exchangers, and involvement in the construction and refurbishment of major industrial complexes alleging bodily injury or personal injury as a result of exposure to asbestos. As of September 30, 2021, the subsidiary was a defendant in approximately 254 lawsuits with a corresponding number of plaintiffs. For many of these lawsuits, we have not been provided sufficient information from the plaintiffs to determine whether all or some of the plaintiffs have claims against the subsidiary, the basis of any such claims, or the nature of their alleged injuries. The operating assets of the subsidiary were sold in 1989. In September 2018, the subsidiary and certain insurers agreed to a settlement of outstanding disputes that provided the subsidiary with cash and an annuity. Together with a coverage-in-place agreement with certain insurers and additional coverage issued by other insurers, we believe the subsidiary has sufficient resources to respond to both the current lawsuits as well as future lawsuits of a similar nature. While we cannot predict or provide assurance as to the outcome of these matters, we do not expect the ultimate liability, if any, resulting from these claims to have a material adverse effect on our condensed consolidated statement of financial position, results of operations or cash flows.

Other matters—We are involved in various tax matters, various regulatory matters, and a number of claims and lawsuits, asserted and unasserted, all of which have arisen in the ordinary course of our business. We do not expect the liability, if any, resulting from these other matters to have a material adverse effect on our condensed consolidated statement of financial position, results of operations or cash flows. We cannot predict with certainty the outcome or effect of any of the litigation matters specifically described above or of any such other pending, threatened, or possible litigation or liability. We can provide no assurance that our beliefs or expectations as to the outcome or effect of any tax, regulatory, lawsuit or other litigation matter will prove correct and the eventual outcome of these matters could materially differ from management's current estimates.

### **Environmental matters**

We have certain potential liabilities under the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA") and similar state acts regulating cleanup of hazardous substances at various waste disposal sites, including those described below. CERCLA is intended to expedite the remediation of hazardous substances without regard to fault. Potentially responsible parties ("PRPs") for each site include present and former owners and operators of, transporters to and generators of the substances at the site. It is difficult to quantify the potential cost of environmental matters and remediation obligations. Liability is strict and can be joint and several.

One of our subsidiaries was named as a PRP in connection with a site located in Santa Fe Springs, California, known as the Waste Disposal, Inc. site. We and other PRPs agreed, under a participation agreement with the U.S. Environmental Protection Agency (the "EPA") and the U.S. Department of Justice, to settle our potential liabilities by remediating the site. The remedial action for the site was completed in 2006. Our share of the ongoing operating and maintenance costs has been insignificant, and we do not expect any additional potential liabilities to be material. Resolutions of other claims by the EPA, the involved state agency or PRPs are at various stages of investigation. Nevertheless, based on available information, we do not expect the ultimate liability, if any, resulting from all environmental matters and known potential legal claims that are likely to be asserted, to have a material adverse effect on our condensed consolidated statement of financial position, results of operations or cash flows.

### **NOTE 11—EQUITY**

**Share issuance**—In June 2021, we commenced an at-the-market equity offering (the "ATM Program"). On June 14, 2021, we entered into an equity distribution agreement with a sales agent for the offer and sale of our shares, with up to a maximum aggregate net offering price of \$400 million, under the ATM Program. We intend to use the net proceeds from the ATM Program for general corporate purposes, which may include, among other things the repayment or refinancing of indebtedness and the funding of working capital, capital expenditures, investments and additional balance sheet liquidity. In the three and nine months ended September 30, 2021, we received aggregate cash proceeds of \$75 million and \$141 million, respectively, net of issue costs, for the aggregate sale of 16.5 million and 31.7 million shares, respectively, under the ATM Program. See Note 13—Subsequent Events.

(Unaudited)

### **NOTE 12—FINANCIAL INSTRUMENTS**

Overview—The carrying amounts and fair values of our financial instruments were as follows (in millions):

	Se	eptembe	r 30	2021	Decembe	r 31	2020
		irrying nount		Fair value	arrying amount		Fair value
Cash and cash equivalents	\$	900	\$	900	\$ 1,154	\$	1,154
Restricted cash and cash equivalents		576		576	406		406
Long-term loans receivable from unconsolidated affiliates		35		32	2		2
Total debt		7,348		6,183	7,807		4,820

**Cash and cash equivalents**—Our cash and cash equivalents are primarily invested in demand deposits, short-term time deposits and money market funds. The carrying amount of our cash and cash equivalents represents the historical cost, plus accrued interest, which approximates fair value because of the short maturities of the instruments.

**Restricted cash and cash equivalents**—Our restricted cash and cash equivalents, which are subject to restrictions due to collateral requirements, legislation, regulation or court order, are primarily invested in demand deposits and money market funds. The carrying amount of our restricted cash and cash equivalents represents the historical cost, plus accrued interest, which approximates fair value because of the short maturities of the instruments.

Long-term loans receivable from unconsolidated affiliates—The carrying amount of our long-term loans receivable from unconsolidated affiliates, recorded in other assets, represents the principal amount of the cash investment. We measured the estimated fair value of our long-term loans receivable from unconsolidated affiliates using significant unobservable inputs, representative of a Level 3 fair value measurement, including the terms and credit spreads for the instruments.

**Total debt**—The carrying amount of our total debt represents the principal amount, net of unamortized discounts, premiums, issue costs and fair value adjustments along with contractual interest payments of previously restructured debt. The carrying amount and fair value of our total debt includes amounts related to certain exchangeable debt instruments (see Note 7—Debt). We measured the estimated fair value of our total debt using significant other observable inputs, representative of a Level 2 fair value measurement, including the terms and credit spreads for the instruments and, with respect to the exchangeable debt instruments, the expected volatility of the market price for our shares.

### **NOTE 13—SUBSEQUENT EVENTS**

**Debt retirement**—Subsequent to September 30, 2021, we repurchased in the open market \$28 million aggregate principal amount of the 5.875% senior secured notes due January 2024 and the 5.375% senior secured notes due May 2023 and made an aggregate cash payment of \$28 million.

**Share issuance**—Subsequent to September 30, 2021, we received aggregate cash proceeds of \$17 million, net of issue costs, for the aggregate sale of 4.3 million shares under the ATM Program.

# ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS FORWARD-LOOKING INFORMATION

The statements included in this quarterly report regarding future financial performance and results of operations and other statements that are not historical facts are forward-looking statements within the meaning of Section 27A of the United States ("U.S.") Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. Forward-looking statements in this quarterly report include, but are not limited to, statements about the following subjects:

- the effect, impact, potential duration, the rate of any economic recovery or other implications of the outbreak of a novel strain of coronavirus ("COVID-19"),
  including virus variants, and disputes and actions with respect to production levels by, among or between major oil and gas producing countries and any
  expectations we may have with respect thereto;
- our results of operations, our revenue efficiency and other performance indicators; optimization of rig-based spending and our cash flow from operations;
- the offshore drilling market, including the effects of variations in commodity prices, supply and demand, utilization rates, dayrates, customer drilling programs, stacking and reactivation of rigs, effects of new rigs on the market, the impact of changes to regulations in jurisdictions in which we operate and changes in the global economy or market outlook for the various geographies in which we operate or for our classes of rigs;
- customer drilling contracts, including contract backlog, force majeure provisions, contract awards, commencements, extensions, terminations, renegotiations, contract option exercises, contract revenues, early termination payments, indemnity provisions and rig mobilizations;
- liquidity, including availability under our bank credit agreement, and adequacy of cash flows for our obligations;
- debt levels, including impacts of the current financial and economic downturn, interest rates, credit ratings and our evaluation or decisions with respect to
  any potential liability management transactions or other strategic alternatives intended to prudently manage our liquidity, debt maturities and other aspects
  of our capital structure and any litigation, alleged defaults and discussions with creditors related thereto;
- newbuild, upgrade, shipyard and other capital projects, including completion, relinquishment or abandonment, delivery and commencement of operation
  dates, expected downtime and lost revenues, the level of expected capital expenditures and the timing and cost of completing capital projects;
- the cost and timing of acquisitions and the proceeds and timing of dispositions;
- tax matters, including our effective tax rate, changes in tax laws, treaties and regulations, tax assessments and liabilities for tax issues in the tax
  jurisdictions in which we operate or have a taxable presence;
- legal and regulatory matters, including results and effects of current or potential legal proceedings and governmental audits and assessments, outcomes
  and effects of internal and governmental investigations, customs and environmental matters;
- insurance matters, including adequacy of insurance, renewal of insurance proceeds and cash investments of our wholly owned captive insurance company;
- effects of accounting changes and adoption of accounting policies; and
- investment in recruitment, retention and personnel development initiatives, the timing of, and other matters concerning, severance payments and benefit
  payments.

Forward-looking statements in this quarterly report are identifiable by use of the following words and other similar expressions:

anticipates
 budgets
 estimates
 forecasts
 may
 plans
 projects
 should
 believes
 could
 expects
 intends
 might
 predicts
 scheduled

Such statements are subject to numerous risks, uncertainties and assumptions, including, but not limited to:

- those described under "Item 1A. Risk Factors" included in Part I of our annual report on Form 10-K for the year ended December 31, 2020;
- the effects of public health threats, pandemics and epidemics, such as the outbreak of COVID-19, and the adverse impact thereof on our business, financial condition and results of operations, including, but not limited to, our growth, operating costs, supply chain, labor availability, logistical capabilities, customer demand for our services and industry demand generally, our liquidity, the price of our securities and trading markets with respect thereto, our ability to access capital markets, and the global economy and financial markets generally:
- the effects of actions by, or disputes among or between, members of the Organization of Petroleum Exporting Countries and other oil and natural gas
  producing countries with respect to production levels or other matters related to the prices of oil and natural gas;
- the adequacy of and access to our sources of liquidity;
- our inability to renew drilling contracts at comparable, or improved, dayrates and to obtain drilling contracts for our rigs that do not have contracts;
- operational performance;
- the cancellation of drilling contracts currently included in our reported contract backlog;
- losses on impairment of long-lived assets;
- shipyard, construction and other delays;
- the results of meetings of our shareholders;
- changes in political, social and economic conditions;
- the effect and results of litigation, regulatory matters, settlements, audits, assessments and contingencies; and
- other factors discussed in this quarterly report and in our other filings with the U.S. Securities and Exchange Commission ("SEC"), which are available
  free of charge on the SEC website at www.sec.gov.

The foregoing risks and uncertainties are beyond our ability to control, and in many cases, we cannot predict the risks and uncertainties that could cause our actual results to differ materially from those indicated by the forward-looking statements. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated. All subsequent written and oral forward-looking statements attributable to us or to persons acting on our behalf are expressly qualified in their entirety by reference to these risks and uncertainties. You should not place undue reliance on forward-looking statements. Each forward-looking statement speaks only as of the date of the particular statement. We expressly disclaim any obligations or undertaking to release publicly any updates or revisions to any forward-looking statement to reflect any change in our expectations or beliefs with regard to the statement or any change in events, conditions or circumstances on which any forward-looking statement is based, except as required by law.

### **BUSINESS**

Transocean Ltd. (together with its subsidiaries and predecessors, unless the context requires otherwise, "Transocean," "we," "us" or "our") is a leading international provider of offshore contract drilling services for oil and gas wells. As of October 25, 2021, we owned or had partial ownership interests in and operated 37 mobile offshore drilling units, including 27 ultra-deepwater floaters and 10 harsh environment floaters. As of October 25, 2021, we were constructing two ultra-deepwater drillships.

We provide contract drilling services in a single, global operating segment, which involves contracting our mobile offshore drilling fleet, related equipment and work crews primarily on a dayrate basis to drill oil and gas wells. We specialize in technically demanding regions of the offshore drilling business with a particular focus on ultra-deepwater and harsh environment drilling services. Our drilling fleet is one of the most versatile fleets in the world, consisting of drillships and semisubmersible floaters used in support of offshore drilling activities and offshore support services on a worldwide basis.

Our contract drilling services operations are geographically dispersed in oil and gas exploration and development areas throughout the world. Although rigs can be moved from one region to another, the cost of moving rigs and the availability of rig-moving vessels may cause the supply and demand balance to fluctuate somewhat between regions. Still, significant variations between regions do not tend to persist long term because of rig mobility. Our fleet operates in a single, global market for the provision of contract drilling services. The location of our rigs and the allocation of resources to operate, build or upgrade our rigs are determined by the activities and needs of our customers.

### SIGNIFICANT EVENTS

**Share issuance**—In June 2021, we commenced an at-the-market equity offering (the "ATM Program"). In the nine months ended September 30, 2021, we received aggregate cash proceeds of \$141 million, net of issue costs, for the aggregate sale of 31.7 million shares under the ATM Program. In October 2021, we received aggregate cash proceeds of \$17 million, net of issue costs, for the aggregate sale of 4.3 million shares under the ATM Program. See "—Liquidity and Capital Resources—Sources and uses of liquidity."

**Shipyard financing arrangement**—In June 2021, Transocean Offshore Deepwater Holdings Limited, a Cayman Islands company and our wholly owned indirect subsidiary, entered into credit agreements with Jurong Shipyard Pte Ltd. establishing facilities (the "Shipyard Loans") to finance the final payments expected to be owed to the shipyard upon delivery of the ultra-deepwater floaters *Deepwater Atlas* and *Deepwater Titan*. See "—Liquidity and Capital Resources."

**Debt exchanges**—On February 26, 2021, we completed private exchanges of \$323 million aggregate principal amount of outstanding 0.50% exchangeable senior bonds due January 2023 (the "0.50% Exchangeable Senior Bonds") for \$294 million aggregate principal amount of the 4.00% senior guaranteed exchangeable bonds due December 2025 (the "4.00% Senior Guaranteed Exchangeable Bonds"), together with an aggregate cash payment of \$11 million. In the nine months ended September 30, 2021, we recognized a gain of \$51 million associated with the retirement of exchanged debt. See "—Operating Results" and "—Liquidity and Capital Resources—Sources and uses of liquidity."

**Early debt retirement**—In the nine months ended September 30, 2021, we repurchased in the open market \$51 million aggregate principal amount of our debt securities for an aggregate cash payment of \$51 million. In October 2021, we repurchased in the open market \$28 million aggregate principal amount of our debt securities for an aggregate cash payment of \$28 million. See "—Operating Results" and "—Liquidity and Capital Resources—Sources and uses of liquidity."

**Dispositions**—During the nine months ended September 30, 2021, we completed the sale of one harsh environment floater, along with related assets, for which we received \$4 million aggregate net cash proceeds and recognized an aggregate net loss of \$60 million associated with the disposal of these assets. See "—Operating Results."

### **OUTLOOK**

**Drilling market**—We continue to observe a steady improvement in the outlook for the global economic recovery and for oil and natural gas fundamentals and pricing. This improved outlook is supported by the delivery of effective vaccines, the deployment of economic stimulus packages, and the improving economic activities associated with a more confident stance on defeating the pandemic. We remain cautiously optimistic about the recovery of the global economy, even in the context of emerging COVID variants, and can see the path to pre-pandemic levels of drilling activity. We expect that demand for hydrocarbons may return to or exceed pre-pandemic levels within the next year or two.

As a result, many of our customers are now shifting their focus to increase exploration and production activities, and many previously delayed projects are again active. Offshore drilling activity is increasing in almost every ultra-deepwater market, and due to attrition of the global offshore fleet over the last several years, there are significantly fewer available drilling units and, particularly, an increasing scarcity of the highest specification drilling units as customers look to secure the best equipment for their projects. In the North Sea harsh environment market, an accelerated level of recovery is anticipated in 2022 through 2023 as the effect of Norway tax incentive programs is realized by our customers.

Global energy demand is expected to increase in member and non-member countries of the Organization for Economic Co-Operation and Development. Non-member countries, in particular, are expected to experience the largest population growth and most significant increases in living standards, creating a compounding effect on energy consumption. We believe that this forecasted increase in global energy demand will support an increase in demand for oil and gas. In the context of the sharp decline in production activities that resulted from the pandemic and the lack of investment in exploration and production activities over the past several years, we believe an increase in demand will precipitate substantial supply constraints that are not easily reversed without significant new investment in drilling.

With deepwater and harsh environment fields offering increasingly competitive returns, combined with their comparably low carbon intensity of production, we expect a significant portion of required spending in fossil fuel development will be allocated to deepwater and harsh environment projects. The restructuring and subsequent consolidation of many of our competitors plus the accelerated retirement of units seen over the past several months and projected through the remainder of this year, should facilitate higher utilization of active assets and more efficient allocation of capital amongst restructured drilling contractors. In summary, our improving market dynamics combined with increasing demand for deepwater and harsh environment drilling have the potential to provide a materially better business environment for offshore drillers that weathered the effects of the pandemic and now move towards a more favorable outlook for 2022 and beyond.

Fleet status—We refer to the availability of our rigs in terms of the uncommitted fleet rate. The uncommitted fleet rate is defined as the number of uncommitted days divided by the total number of rig calendar days in the measurement period, expressed as a percentage. An uncommitted day is defined as a calendar day during which a rig is idle or stacked, is not contracted to a customer and is not committed to a shipyard. The uncommitted fleet rates exclude the effect of priced options. As of October 25, 2021, the uncommitted fleet rates for the remainder of 2021 and each of the four years in the period ending December 31, 2025 were as follows:

	2021	2022	2023	2024	2025
Uncommitted fleet rate					
Ultra-deepwater floaters	48 %	60 %	73 %	82 %	83 %
Harsh environment floaters	40 %	42 %	76 %	98 %	100 %

### PERFORMANCE AND OTHER KEY INDICATORS

**Contract backlog**—Contract backlog is defined as the maximum contractual operating dayrate multiplied by the number of days remaining in the firm contract period, excluding revenues for mobilization, demobilization, contract preparation, other incentive provisions or reimbursement revenues, which are not expected to be significant to our contract drilling revenues. The contract backlog represents the maximum contract drilling revenues that can be earned considering the contractual operating dayrate in effect during the firm contract period. The contract backlog for our fleet was as follows:

	ber 25, 021	J	luly 21, 2021	Feb	oruary 12, 2021
Contract backlog		(In	millions)		
Ultra-deepwater floaters	\$ 5,626	\$	5,706	\$	5,911
Harsh environment floaters	1,443		1,639		1,931
Total contract backlog	\$ 7,069	\$	7,345	\$	7,842

We believe our industry-leading contract backlog sets us apart from the competition. Our contract backlog includes only firm commitments, which are represented by signed drilling contracts or, in some cases, by other definitive agreements awaiting contract execution. Our contract backlog includes amounts associated with our contracted newbuild units that are currently under construction. The contractual operating dayrate may be higher than the actual dayrate we ultimately receive, or an alternative contractual dayrate, such as a waiting on weather rate, repair rate, standby rate or force majeure rate, may apply under certain circumstances. The contractual operating dayrate may also be higher than the actual dayrate we ultimately receive because of a number of factors, including rig downtime or suspension of operations. In certain contracts, the dayrate may be reduced to zero if, for example, repairs extend beyond a stated period of time.

The COVID-19 pandemic and volatility in oil prices could have significant adverse consequences for the financial condition of our customers. This could result in contract cancellations, early terminations, customers seeking price reductions or more favorable economic terms, a reduced ability to ultimately collect receivables, or entry into lower dayrate contracts or having to idle, stack or retire more of our rigs.

Average daily revenue—Average daily revenue is defined as contract drilling revenues, excluding revenues for contract terminations, reimbursements and contract intangible amortization, earned per operating day. An operating day is defined as a calendar day during which a rig is contracted to earn a dayrate during the firm contract period after commencement of operations. The average daily revenue for our fleet was as follows:

		T	hree	months end	ed	
	Sep	tember 30, 2021		June 30, 2021	Sep	tember 30, 2020
Average daily revenue						
Ultra-deepwater floaters	\$	351,900	\$	363,500	\$	329,300
Harsh environment floaters	\$	401,600	\$	379,900	\$	372,500
Total fleet average daily revenue	\$	367,100	\$	369,400	\$	343,500

Our average daily revenue fluctuates relative to market conditions and our revenue efficiency. The average daily revenue may be affected by revenues for lump sum bonuses or demobilization fees received from our customers. We include newbuilds in the calculation when the rigs commence operations upon acceptance by the customer. We remove rigs from the calculation upon disposal or classification as held for sale, unless we continue to operate rigs subsequent to sale, in which case we remove the rigs at the time of completion or novation of the contract.

Revenue efficiency—Revenue efficiency is defined as actual contract drilling revenues, excluding revenues for contract terminations and reimbursements, for the measurement period divided by the maximum revenue calculated for the measurement period, expressed as a percentage. Maximum revenue is defined as the greatest amount of contract drilling revenues the drilling unit could earn for the measurement period, excluding revenues for incentive provisions, reimbursements and contract terminations. The revenue efficiency rates for our fleet were as follows:

	Th	ree months end	ed
	September 30, 2021	June 30, 2021	September 30, 2020
Revenue efficiency			
Ultra-deepwater floaters	96 %	98 %	97 %
Harsh environment floaters	103 %	98 %	96 %
Total fleet average revenue efficiency	98 %	98 %	97 %

Revenue efficiency measures our ability to ultimately convert our contractual opportunities into revenues. Our revenue efficiency rate varies due to revenues earned under alternative contractual dayrates, such as a waiting on weather rate, repair rate, standby rate, force majeure rate or zero rate, that may apply under certain circumstances. Our revenue efficiency rate is also affected by incentive performance bonuses or penalties. We include newbuilds in the calculation when the rigs commence operations upon acceptance by the customer. We exclude rigs that are not operating under contract, such as those that are stacked.

**Rig utilization**—Rig utilization is defined as the total number of operating days divided by the total number of rig calendar days in the measurement period, expressed as a percentage. The rig utilization rates for our fleet were as follows:

Three months anded

	IN	ree months end	ea
	September 30, 2021	June 30, 2021	September 30, 2020
Rig utilization			
Ultra-deepwater floaters	50 %	48 %	60 %
Harsh environment floaters	60 %	73 %	75 %
Total fleet average rig utilization	53 %	55 %	65 %

Our rig utilization rate declines as a result of idle and stacked rigs and during shipyard and mobilization periods to the extent these rigs are not earning revenues. We include newbuilds in the calculation when the rigs commence operations upon acceptance by the customer. We remove rigs from the calculation upon disposal or classification as held for sale. Accordingly, our rig utilization can increase when idle or stacked units are removed from our drilling fleet.

### **OPERATING RESULTS**

### Three months ended September 30, 2021 compared to the three months ended September 30, 2020

The following is an analysis of our operating results. See "—Performance and Other Key Indicators" for definitions of operating days, average daily revenue, revenue efficiency and rig utilization.

	Th	ree months er					
		2021		2020		Change	% Change
		(In million	ıs, ex	cept day amour	nts ar	nd percentage	es)
Operating days		1,797		2,307		(510)	(22)%

Net income (loss)	\$	(130)	\$	359	\$	(489)	nm

<sup>&</sup>quot;nm" means not meaningful.

Contract drilling revenues—Contract drilling revenues decreased for the three months ended September 30, 2021, compared to the three months ended September 30, 2020, primarily due to the following: (a) approximately \$80 million resulting from higher idle time for the marketed fleet, (b) approximately \$35 million resulting from rigs that were cold stacked, (c) approximately \$30 million resulting from rigs that were sold, (d) approximately \$15 million resulting from higher shipyard days and (e) approximately \$5 million due to lower customer reimbursables related to COVID-19. These decreases were partially offset by approximately \$15 million resulting from an increased average daily revenue.

Costs and expenses—Operating and maintenance costs and expenses decreased for the three months ended September 30, 2021, compared to the three months ended September 30, 2020, primarily due to the following: (a) approximately \$25 million resulting from rigs that were cold stacked, (b) approximately \$25 million resulting from rigs that were sold, (c) approximately \$25 million resulting from *Transocean Norge* being idle and (d) approximately \$10 million resulting from reduced onshore personnel costs. These decreases were partially offset by the following increases: (a) approximately \$10 million resulting from shipyard and maintenance costs and (b) approximately \$5 million of personnel costs due to unfavorable exchange rates.

**Loss on disposal of assets**—In the three months ended September 30, 2020, we recognized an aggregate loss of \$61 million associated with the sale of three harsh environment floaters and two midwater floaters, along with related assets.

Other income and expense—Interest expense, net of amounts capitalized, decreased in the three months ended September 30, 2021, compared to the three months ended September 30, 2020, primarily due to the following: (a) \$20 million resulting from our debt restructuring in the three months ended September 30, 2020 and (b) approximately \$17 million resulting from debt repaid as scheduled or retired early in our open market repurchases, redemption and cash tender offers subsequent to July 1, 2020, partially offset by a net increase of (c) \$4 million resulting from private debt exchanges completed in February 2021.

In the three months ended September 30, 2020, we recognized an aggregate net gain of \$428 million associated with restructuring debt in the exchange transactions in August and September 2020 and an aggregate net gain of \$21 million associated with the retirement of \$49 million aggregate principal amount of our debt securities repurchased in the open market.

Other income, net, decreased in the three months ended September 30, 2021, compared to the three months ended September 30, 2020, primarily due to decreased earnings of \$9 million related to our investment in Orion Holdings (Cayman) Ltd. ("Orion").

Income tax expense—In the three months ended September 30, 2021 and 2020, our effective tax rate was (26.1) percent and (7.0) percent, respectively, based on income (loss) before income tax expense or benefit. In the three months ended September 30, 2021 and 2020, the effect of various discrete period tax items was a net tax expense of \$8 million and a net tax benefit of \$45 million, respectively.

In the three months ended September 30, 2021, such discrete items included expiration and settlements of various uncertain tax positions, remeasurement of deferred tax liabilities related to jurisdictional ownership changes of certain assets and changes in valuation allowances. In the three months ended September 30, 2020, such discrete items included the gain on the restructuring and retirement of debt, loss on disposal of assets, additional carryback of net operating losses in the U.S. as a result of the Coronavirus Aid, Relief, and Economic Security Act, which included the release of valuation allowances previously recorded, and settlements and expirations of various uncertain tax positions. In the three months ended September 30, 2021 and 2020, our effective tax rate, excluding discrete items, was (18.1) percent and (45.6) percent, respectively, based on income (loss) before income tax expense or benefit.

Due to our operating activities and organizational structure, our income tax expense does not change proportionally with our income before income taxes. Significant decreases in our income before income taxes typically lead to higher effective tax rates, while significant increases in income before income taxes can lead to lower effective tax rates, subject to the other factors impacting income tax expense noted above. With respect to the effective tax rate calculation for the three months ended September 30, 2021, a significant portion of our income tax expense was generated in countries in which income taxes are imposed on deemed profits, which may differ significantly from actual earnings, with the most significant of these countries being Angola and India. Conversely, the countries in which we incurred the most significant income taxes during this period that were based on income before income tax include the U.S., Switzerland, Norway, Hungary and Brazil. Our rig operating structures further complicate our tax calculations, especially in instances where we have more than one operating structure for the taxing jurisdiction and, thus, more than one method of calculating taxes depending on the operating structure utilized by the rig under the contract.

### Nine months ended September 30, 2021 compared to the nine months ended September 30, 2020

The following is an analysis of our operating results. See "—Performance and Other Key Indicators" for definitions of operating days, average daily revenue, revenue efficiency and rig utilization.

	Nine months ended September 30,							
		2021		2020		Change	% Change	
		(In millio	ıs, ex	cept day amou	nts a	nd percentag	es)

<sup>&</sup>quot;nm" means not meaningful.

Contract drilling revenues—Contract drilling revenues decreased for the nine months ended September 30, 2021, compared to the nine months ended September 30, 2020, primarily due to the following: (a) approximately \$200 million resulting from the settlement of disputes and payments for early termination of a contract in the nine months ended September 30, 2020 with no comparable activity in the current-year period, (b) approximately \$175 million resulting from rigs that were idle or in shipyard in the nine months ended September 31, 2021, (c) approximately \$145 million resulting from rigs that were cold stacked and (d) approximately \$85 million resulting from rigs that were sold. These decreases were partially offset by the following increases: (a) approximately \$55 million resulting from an increased average daily revenue and (b) approximately \$25 million resulting from higher revenue efficiency.

Costs and expenses—Operating and maintenance costs and expenses decreased for the nine months ended September 30, 2021, compared to the nine months ended September 30, 2020, primarily due to the following: (a) approximately \$130 million resulting from rigs that were cold stacked, (b) approximately \$75 million resulting from rigs that were sold, (c) approximately \$25 million resulting from *Transocean Norge* being idle, (d) approximately \$25 million of litigation and settlement costs in the prior-year period, (e) approximately \$20 million resulting from onshore personnel costs, and (f) approximately \$5 million resulting from reimbursable expenses unrelated to

COVID-19. These decreases were partially offset by the following increases: (a) approximately \$25 million resulting from shipyard and maintenance costs primarily driven by out-of-service activities and (b) approximately \$25 million of personnel costs due to unfavorable exchange rates.

Depreciation and amortization expense decreased for the nine months ended September 30, 2021, compared to the nine months ended September 30, 2020, primarily due to \$21 million resulting from rigs sold or classified as held for sale and \$12 million resulting from assets that had reached the end of their useful lives or had been retired.

General and administrative costs and expenses decreased for the nine months ended September 30, 2021, compared to the nine months ended September 30, 2020, primarily due to (a) \$9 million of reduced personnel costs, including severance, (b) \$5 million of reduced costs for information systems and technology and (c) \$3 million of reduced office rent expense, partially offset by (d) \$4 million of increased legal and professional fees and (e) \$3 million of increased insurance costs.

Loss on impairment and disposal of assets—In the nine months ended September 30, 2020, we recognized a loss on the impairment of assets, including an aggregate net loss of \$556 million associated with assets that we determined were impaired at the time we classified them as held for sale, a loss of \$31 million associated with the impairment of our midwater floater asset group and a loss of \$10 million associated with the impairment of other assets.

In the nine months ended September 30, 2021, we recognized a loss of \$60 million associated with the sale of a harsh environment floater and related assets. In the nine months ended September 30, 2020, we recognized an aggregate loss of \$61 million associated with the sale of three harsh environment floaters and three midwater floaters, along with related assets. In the nine months ended September 30, 2021 and 2020, we recognized an aggregate loss of \$1 million and \$3 million, respectively, associated with the disposal of assets unrelated to rig sales.

Other income and expense—Interest expense, net of amounts capitalized, decreased in the nine months ended September 30, 2021, compared to the nine months ended September 30, 2020, primarily due to the following: (a) \$71 million resulting from our debt restructuring in the nine months ended September 30, 2020 and (b) approximately \$60 million resulting from debt repaid as scheduled or retired early in our open market repurchases, redemption and cash tender offers subsequent to January 1, 2020, partially offset by a net increase of (c) \$10 million resulting from private debt exchanges completed in February 2021.

In the nine months ended September 30, 2021, we recognized an aggregate net gain of \$51 million associated with the retirement of \$323 million aggregate principal amount of the 0.50% Exchangeable Senior Bonds as a result of private exchanges. In the nine months ended September 30, 2020, we recognized a gain on restructuring and retirement of debt, primarily due to the following: (a) an aggregate gain of \$428 million associated with the restructuring of debt in the exchange transactions in August and September 2020 and (b) an aggregate gain of \$33 million associated with the retirement of \$124 million aggregate principal amount of our debt securities repurchased in the open market, partially offset by (c) a loss of \$65 million associated with the full redemption of the 9.00% senior notes due July 2023 (the "9.00% Senior Notes").

Other income, net, increased in the nine months ended September 30, 2021, compared to the nine months ended September 30, 2020, primarily due to (a) a loss of \$59 million recognized in the prior-year period associated with the impairment of our equity investment in Orion, (b) increased income of \$9 million related to our dual-activity patent resulting from settlements and (c) increased income of \$9 million related to our investment in Orion.

**Income tax expense**—In the nine months ended September 30, 2021 and 2020, our effective tax rate was (3.2) percent and (0.8) percent, respectively, based on loss before income tax expense. In the nine months ended September 30, 2021 and 2020, the effect of various discrete period tax items was a net tax benefit of \$25 million and \$54 million, respectively. In the nine months ended September 30, 2021, such discrete items included loss on disposal of assets, gain on retirement of debt, expiration and settlements of various uncertain tax positions, remeasurement of deferred tax liabilities related to jurisdictional ownership changes of certain assets and changes in valuation allowances. In the nine months ended September 30, 2020, such discrete items included losses on impairment and disposal of assets, gain on restructuring and retirement of debt, revenues recognized for the settlement of disputes, the loss on impairment of an investment in an unconsolidated affiliate, the carryback of net operating losses in the U.S. as a result of the Coronavirus Aid, Relief, and Economic Security Act, which included the release of valuation allowances previously recorded, and settlements and expirations of various uncertain tax positions. In the nine months ended September 30, 2021 and 2020, our effective tax rate, excluding discrete items, was (11.2) percent and (16.4) percent, respectively, based on loss before income tax expense. In the nine months ended September 30, 2021 compared to the nine months ended September 30, 2020, our effective tax rate increased primarily due to changes in the relative blend of income from operations in certain jurisdictions.

Due to our operating activities and organizational structure, our income tax expense does not change proportionally with our income before income taxes. Significant decreases in our income before income taxes typically lead to higher effective tax rates, while significant increases in income before income taxes can lead to lower effective tax rates, subject to the other factors impacting income tax expense noted above. With respect to the effective tax rate calculation for the nine months ended September 30, 2021, a significant portion of our income tax expense was generated in countries in which income taxes are imposed on deemed profits, which may differ significantly from actual earnings, with the most significant of these countries being Angola and India. Conversely, the countries in which we incurred the most

significant income taxes during this period that were based on income before income tax include the U.S., Switzerland, Norway, Hungary and Brazil. Our rig operating structures further complicate our tax calculations, especially in instances where we have more than one operating structure for the taxing jurisdiction and, thus, more than one method of calculating taxes depending on the operating structure utilized by the rig under the contract.

### LIQUIDITY AND CAPITAL RESOURCES

#### Sources and uses of cash

At September 30, 2021, we had \$900 million in unrestricted cash and cash equivalents and \$576 million in restricted cash and cash equivalents. In the nine months ended September 30, 2021, our primary sources of cash were net cash provided by our operating activities and net cash proceeds from the issuance of shares under the ATM Program. Our primary uses of cash were repayments of debt and capital expenditures.

	September 30,					
	2021 2020			Cl	nange	
Cash flows from operating activities		(IN	millions)			
Net loss	\$ (331)	\$	(529)	\$	198	
Non-cash items, net	831		1,168		(337)	
Changes in operating assets and liabilities, net	(110)		(519)		409	
	\$ 390	\$	120	\$	270	

Net cash provided by operating activities increased primarily due to (a) reduced cash interest payments, (b) the cash payment of \$125 million released from restricted cash to satisfy our remaining obligations under the Plaintiff Steering Committee settlement agreement in June 2020 with no comparable activity in the current-year period and (c) reduced net cash paid for income taxes.

	 Nine months ended September 30,					
	 2021 2020 (In millions)			Change		
Cash flows from investing activities		(III IIIIIIIOIIS)				
Capital expenditures	\$ (137)	\$ (218)	\$	81		
Proceeds from disposal of assets, net	8	15		(7)		
Investment in loans to unconsolidated affiliate	(33)	_		(33)		
Investments in unconsolidated affiliates	_	(17)		17		
	\$ (162)	\$ (220)	\$	58		

Net cash used in investing activities decreased primarily due to (a) reduced capital expenditures unrelated to our two newbuilds under construction and (b) investments in equity of unconsolidated affiliates in the prior-year period, partially offset by (c) investments in loans to Orion in the current-year period.

	 Nine mont Septemb			
	 2021 2020 (In millions)			 hange
Cash flows from financing activities		(111	minons)	
Repayments of debt	\$ (423)	\$	(1,135)	\$ 712
Proceeds from issuance of shares, net of issue costs	141		_	141
Proceeds from issuance of debt, net of issue costs	_		743	(743)
Other, net	(30)		(27)	(3)
	\$ (312)	\$	(419)	\$ 107

Net cash used in financing activities decreased primarily due to (a) reduced cash used to repay debt, primarily as a result of the redemption of \$714 million aggregate principal amount of the 9.00% Senior Notes in the prior-year period and (b) aggregate net cash proceeds from the issuance of 31.7 million shares under the ATM Program in the current-year period, partially offset by (c) net cash proceeds from the issuance of the 8.00% senior unsecured notes due February 2027 ("8.00% Senior Notes") in the prior-year period.

### Sources and uses of liquidity

**Overview**—We expect to use existing unrestricted cash balances, internally generated cash flows, borrowings under the Shipyard Loans or the Secured Credit Facility, as defined below, or proceeds from the disposal of assets, the issuance of additional debt or the issuance of additional shares under the ATM Program to fulfill anticipated obligations, which may include capital expenditures, working capital and other operational requirements, scheduled debt maturities or other payments. We may consider establishing additional financing arrangements with banks or other capital providers, and subject to market conditions and other factors, we may be required to provide collateral for any such future financing arrangements. We continue to evaluate additional potential liability management transactions in connection with our ongoing efforts to prudently manage our capital structure and improve our liquidity. In each case subject to then existing

market conditions and our expected liquidity needs, among other factors, we may continue to use existing unrestricted cash balances, internally generated cash flows and proceeds from asset sales to pursue liability management transactions, including among others, purchasing or exchanging one or more existing series of our debt securities in the open market, in privately negotiated transactions, through tender offers or through exchange offers. Any future purchases, exchanges or other transactions may be on the same terms or on terms that are more or less favorable to holders than the terms of any prior transaction, including the exchange transactions completed in February 2021 and in the year ended December 31, 2020. We can provide no assurance as to which, if any, of these alternatives, or combinations thereof, we may choose to pursue in the future, if at all, or as to the timing with respect to any future transactions.

The ongoing effect of the COVID-19 pandemic, including the impact of virus variants, and the volatility in oil prices could have significant adverse consequences for general economic, financial and business conditions, as well as for our business and financial position and the business and financial position of our customers and suppliers and may, among other things, impact our ability to generate cash flows from operations, access the capital markets on acceptable terms or at all, and affect our future need or ability to borrow under our Secured Credit Facility. In addition to our potential sources of funding, the effects of such global events may impact our liquidity or need to alter our allocation or sources of capital, implement further cost reduction measures and change our financial strategy. Although the COVID-19 pandemic and the volatility in oil prices could have a broad range of effects on our sources and uses of liquidity, the ultimate effect thereon, if any, will depend on future developments, which cannot be predicted at this time.

Our internally generated cash flows are directly related to our business and the market sectors in which we operate. We have generated positive cash flows from operating activities over recent years and, although we cannot provide assurances, we currently expect that such cash flows will continue to be positive over the next year. However, among other factors, if the drilling market deteriorates, or if we experience poor operating results, or if we incur expenses to, for example, reactivate, stack or otherwise assure the marketability of our fleet, cash flows from operations may be reduced or negative.

Our ability and willingness to access the debt and equity markets is a function of a variety of factors, including, among others, general economic conditions, industry conditions, market conditions and market perceptions of us and our industry and credit rating agencies' views of our debt. The rating of the majority of our long-term debt ("Debt Rating") is below investment grade. The Debt Rating is causing us to experience increased fees and interest rates under our Secured Credit Facility and agreements governing certain of our senior notes. Future downgrades may further restrict our ability to access the debt market for sources of capital and may negatively impact the cost of such capital at a time when we would like, or need, to access such markets, which could have an impact on our flexibility to react to changing economic and business conditions. An economic downturn like the one we are currently experiencing could have an impact on the lenders participating in our credit facilities or on our customers, causing them to fail to meet their obligations to us.

Secured Credit Facility—We have a \$1.3 billion secured revolving credit facility established under a bank credit agreement (as amended from time to time, the "Secured Credit Facility"), which is scheduled to expire on June 22, 2023. The Secured Credit Facility is guaranteed by Transocean Ltd. and certain subsidiaries. The Secured Credit Facility is secured by, among other things, a lien on the ultra-deepwater floaters Deepwater Asgard, Deepwater Corcovado, Deepwater Invictus, Deepwater Mykonos, Deepwater Orion, Deepwater Skyros, Development Driller III, Dhirubhai Deepwater KG2 and Discoverer Inspiration and the harsh environment floaters Transocean Barents and Transocean Spitsbergen. The maximum borrowing capacity will be reduced to \$1.0 billion if, and so long as, our leverage ratio, measured as the aggregate principal amount of debt outstanding to earnings before interest, taxes, depreciation and amortization, exceeds 10.00 to 1.00. The Secured Credit Facility contains covenants that, among other things, include maintenance of certain quarantee and collateral coverage ratios, a maximum debt to capitalization ratio of 0.60 to 1.00 and minimum liquidity of \$500 million. The Secured Credit Facility also restricts the ability of Transocean Ltd. and certain of our subsidiaries to, among other things, merge, consolidate or otherwise make changes to the corporate structure, incur liens, incur additional indebtedness, enter into transactions with affiliates and pay dividends and other distributions. In order to borrow under the Secured Credit Facility, we must, at the time of the borrowing request, not be in default under the Secured Credit Facility and make certain representations and warranties, including with respect to compliance with laws and solvency, to the lenders. Repayment of borrowings under the Secured Credit Facility are subject to acceleration upon the occurrence of an event of default. Under the agreements governing certain of our debt and finance lease, we are also subject to various covenants, including restrictions on creating liens, engaging in sale/leaseback transactions and engaging in certain merger, consolidation or reorganization transactions. A default under our public debt indentures, the agreements governing our senior secured notes, our finance lease contract or any other debt owed to unaffiliated entities that exceeds \$125 million could trigger a default under the Secured Credit Facility and, if not waived by the lenders, could cause us to lose access to the Secured Credit Facility. At October 25, 2021, we had no borrowings outstanding, \$19 million of letters of credit issued, and we had \$1.3 billion of available borrowing capacity under the Secured Credit Facility.

Shipyard financing arrangement—In June 2021, we and Jurong Shipyard Pte Ltd. entered into the Shipyard Loans to finance all or a portion of the final payments expected to be owed to the shipyard upon delivery of the ultra-deepwater floaters *Deepwater Atlas* and *Deepwater Titan*. We expect to borrow approximately \$370 million upon delivery of *Deepwater Atlas* in the six months ending June 30, 2022, and we expect to borrow approximately \$90 million upon delivery of *Deepwater Titan* in the three months ending September 30, 2022. The Shipyard Loans are guaranteed by Transocean Inc. Borrowings under the Shipyard Loan for *Deepwater Atlas* will be secured by, among other security, a lien on the rig. In certain circumstances, the maximum aggregate borrowing capacity under the Shipyard Loan for *Deepwater Titan* may be increased to approximately \$440 million, and such Shipyard Loan may also be secured by, among other security, a lien on the rig. We will repay the borrowings, together with interest of 4.5 percent per annum, according to the selected installment schedule

over a maximum of a six-year period following delivery of the drilling rigs. We have the right to prepay any outstanding borrowings, in full or in part, without penalty. The Shipyard Loans contain covenants that, among other things, limits the ability of the subsidiary owners of the drilling rigs to incur certain types of additional indebtedness or make certain additional commitments or investments. At October 25, 2021, we had no borrowings outstanding under the Shipyard Loans.

**Share issuance**—On June 14, 2021, we entered into an equity distribution agreement with a sales agent for the offer and sale of our shares, with up to an aggregate net offering price of \$400 million, pursuant to the ATM Program. We intend to use the net proceeds from the sale of our shares under the ATM Program for general corporate purposes, which may include, among other things the repayment or refinancing of indebtedness and the funding of working capital, capital expenditures, investments and additional balance sheet liquidity. In the nine months ended September 30, 2021, we received aggregate cash proceeds of \$141 million, net of issue costs, for the aggregate sale of 31.7 million shares under the ATM Program. In October 2021, we received aggregate cash proceeds of \$17 million, net of issue costs, for the aggregate sale of 4.3 million shares under the ATM Program.

Debt exchanges—On February 26, 2021, we issued \$294 million aggregate principal amount of the 4.00% Senior Guaranteed Exchangeable Bonds and made an aggregate cash payment of \$11 million in private exchanges for \$323 million aggregate principal amount of the 0.50% Exchangeable Senior Bonds. The 4.00% Senior Guaranteed Exchangeable Bonds are guaranteed by Transocean Ltd. and the same subsidiaries of Transocean Inc. that guarantee the 2.50% senior guaranteed exchangeable bonds due January 2027 (the "2.50% Senior Guaranteed Exchangeable Bonds") and the 11.50% senior guaranteed notes due January 2027 (the "11.50% Senior Guaranteed Notes"). The indenture that governs the 4.00% Senior Guaranteed Exchangeable Bonds also requires such bonds to be repurchased upon the occurrence of certain fundamental changes and events, at specified prices depending on the particular fundamental change or event, which include changes and events related to certain (i) change of control events applicable to Transocean Ltd. or Transocean Inc., (ii) the failure of our shares to be listed or quoted on a national securities exchange and (iii) specified tax matters. The 4.00% Senior Guaranteed Exchangeable Bonds may be exchanged at any time prior to the close of business on the second business day immediately preceding the maturity date at a current exchange rate of 190.4762 Transocean Ltd. shares per \$1,000 note, which implies an exchange price of \$5.25 per share, subject to adjustment upon the occurrence of certain events, and any such exchange may be settled in cash, Transocean Ltd. shares or a combination of cash and Transocean Ltd. shares, at our election.

On August 14, 2020, we issued \$238 million aggregate principal amount of the 2.50% Senior Guaranteed Exchangeable Bonds in private exchanges for \$397 million aggregate principal amount of the 0.50% Exchangeable Senior Bonds. The 2.50% Senior Guaranteed Exchangeable Bonds are fully and unconditionally guaranteed by Transocean Ltd. and certain wholly owned indirect subsidiaries of Transocean Inc. We may redeem all or a portion of the 2.50% Senior Guaranteed Exchangeable Bonds (i) on or after August 14, 2022, if certain conditions related to the price of our shares have been satisfied, at a price equal to 100 percent of the aggregate principal amount and (ii) on or after August 14, 2023, at specified redemption prices. The indenture that governs the 2.50% Senior Guaranteed Exchangeable Bonds contains covenants that, among other things, limit our ability to incur certain liens on our drilling units without equally and ratably securing the notes, engage in certain sale and lease back transactions covering any of our drilling units, allow our subsidiaries to incur certain additional debt, and consolidate, merge or enter into a scheme of arrangement qualifying as an amalgamation. The indenture that governs the 2.50% Senior Guaranteed Exchangeable Bonds also requires such bonds to be repurchased upon the occurrence of certain fundamental changes and events, at specified prices depending on the particular fundamental change or event, which include changes and events related to certain (i) change of control events applicable to Transocean Ltd. or Transocean Inc., (ii) the failure of our shares to be listed or quoted on a national securities exchange and (iii) specified tax matters. The 2.50% Senior Guaranteed Exchangeable Bonds may be exchanged at any time prior to the close of business on the second business day immediately preceding the maturity date or the redemption date at a current exchange rate of 162.1626 Transocean Ltd. shares per \$1,000 note, which implies an exchange price of \$6.17 per share, subject to adjustment upon the occurrence of certain events.

On September 11, 2020, we issued \$687 million aggregate principal amount of the 11.50% Senior Guaranteed Notes in exchange offer transactions, pursuant to an exchange offer memorandum, dated August 10, 2020, as supplemented, for an aggregate principal amount of \$1.5 billion of several series of our existing debt securities that were validly tendered and accepted for purchase. The 11.50% Senior Guaranteed Notes are fully and unconditionally guaranteed by Transocean Ltd. and certain wholly owned indirect subsidiaries of Transocean Inc. We may redeem all or a portion of the 11.50% Senior Guaranteed Notes prior to July 30, 2023 at a price equal to 100 percent of the aggregate principal amount plus a make-whole premium, and subsequently, at specified redemption prices. We may also use the net cash proceeds of certain equity offerings by Transocean Ltd. to redeem, on one or more occasions prior to July 30, 2023, up to a maximum of 40 percent of the original aggregate principal amount of the 11.50% Senior Guaranteed Notes, subject to certain adjustments, at a redemption price equal to 111.50 percent of the aggregate principal amount. The indenture that governs the 11.50% Senior Guaranteed Notes contains covenants that, among other things, limit our ability to incur certain liens on our drilling units without equally and ratably securing the notes, engage in certain sale and lease back transactions covering any of our drilling units, allow our subsidiaries to incur certain additional debt, make certain internal transfers of our drilling units and consolidate, merge or enter into a scheme of arrangement qualifying as an amalgamation.

**Early debt retirement**—In the nine months ended September 30, 2021, we repurchased in the open market \$51 million aggregate principal amount of our debt securities for an aggregate cash payment of \$51 million. In October 2021, we repurchased in the open market \$28 million aggregate principal amount of our debt securities for an aggregate cash payment of \$28 million.

On February 18, 2020, we made an aggregate cash payment of \$767 million, including the make-whole premium, to redeem in full the then-outstanding 9.00% Senior Notes. On November 9, 2020, we completed the cash tender offers to purchase certain debt securities, and as a result, we made an aggregate cash payment of \$222 million to settle the validly tendered notes. In the year ended December 31, 2020, we also made an aggregate cash payment of \$110 million to repurchase in the open market \$147 million aggregate principal amount of our debt securities.

**Debt issuances**—On January 17, 2020, we issued \$750 million aggregate principal amount of our 8.00% Senior Notes, and we received aggregate cash proceeds of \$743 million, net of issue costs. We may redeem all or a portion of the 8.00% Senior Notes on or prior to February 1, 2023 at a price equal to 100 percent of the aggregate principal amount plus a make-whole premium, and subsequently, at specified redemption prices.

**Litigation settlements**—On May 29, 2015, together with the Plaintiff Steering Committee, we filed a settlement agreement in which we agreed to deposit \$212 million into an escrow account established to be allocated to two classes of plaintiffs in exchange for a release from all claims against us for damages related to the Macondo well incident. On February 15, 2017, the U.S. District Court for the Eastern District of Louisiana (the "MDL Court") entered a final order and judgment approving our settlement agreement, pursuant to which we made the required cash deposits into escrow accounts established for settlement. In the year ended December 31, 2020, the MDL Court released \$125 million from the escrow account to satisfy our remaining obligations under the settlement agreement.

**Equity and debt investments**—In the year ended December 31, 2020, we made an aggregate cash investment of \$19 million in noncontrolling ownership interests in certain unconsolidated affiliates. Our most significant equity investment is a 33.0 percent ownership interest in Orion, the company that, through its wholly owned subsidiary, owns the harsh environment floater *Transocean Norge*. In June 2021, we agreed to participate in a financing arrangement for Orion at a rate equivalent to our ownership interest in Orion and made a cash investment of \$33 million in the loan facility. We also hold equity investments in certain companies that are involved in researching and developing technology to improve efficiency and reliability and to increase automation, sustainability and safety in drilling and other activities.

Share repurchase program—In May 2009, at our annual general meeting, our shareholders approved and authorized our board of directors, at its discretion, to repurchase an amount of our shares for cancellation with an aggregate purchase price of up to CHF 3.5 billion. On February 12, 2010, our board of directors authorized our management to implement the share repurchase program. At September 30, 2021, the authorization remaining under the share repurchase program was for the repurchase of up to CHF 3.2 billion, equivalent to approximately \$3.5 billion, of our outstanding shares. We intend to fund any repurchases using available cash balances and cash from operating activities. The share repurchase program could be suspended or discontinued by our board of directors or company management, as applicable, at any time. We may decide, based on our ongoing capital requirements, the price of our shares, regulatory and tax considerations, cash flow generation, the amount and duration of our contract backlog, general market conditions, debt rating considerations and other factors, that we should retain cash, reduce debt, make capital investments or acquisitions or otherwise use cash for general corporate purposes. Decisions regarding the amount, if any, and timing of any share repurchases will be made from time to time based on these factors. Any repurchased shares under the share repurchase program would be held by us for cancellation by the shareholders at a future general meeting of shareholders.

**Contractual obligations**—As of September 30, 2021, with exception to the following, there have been no material changes to the contractual obligations as previously disclosed in "Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our annual report on Form 10-K for the year ended December 31, 2020:

	Twelve months ending September 30,								
	 Total		2022	23 - 2024	24 2025 - 2026			ereafter	
	 <u> </u>			(in	millions)				
Debt	\$ 7,426	\$	586	\$	1,475	\$	2,105	\$	3,260
Interest on debt	2,485		397		686		484		918
Total	\$ 9,911	\$	983	\$	2,161	\$	2,589	\$	4,178

Other commercial commitments—As of September 30, 2021, there have been no material changes to the commercial commitments as previously disclosed in "Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our annual report on Form 10-K for the year ended December 31, 2020.

### **Drilling fleet**

**Expansion**—From time to time, we review possible acquisitions of businesses and drilling rigs and may make significant future capital commitments for such purposes. We may also consider investments related to major rig upgrades, new rig construction, or the acquisition of a rig under construction. Any such investment could involve the payment by us of a substantial amount of cash or the issuance of a substantial number of additional shares or other securities. We may commit to such investment without first obtaining customer contracts, and our failure to subsequently secure drilling contracts in these instances could have an adverse effect on our results of operations or cash flows.

The historical and projected capital expenditures, capitalized interest and other cash or non-cash capital additions for our ongoing major construction projects were as follows:

	th Dece	Total costs through December 31,		Total costs for the nine months ended September 30, 2021				the years en	esti	otal imated sts at	
		2020		2021		2021 (In mi	illions	2022	 2023	com	pletion
Deepwater Atlas (a)	\$	369	\$	37	\$	55	\$	614	\$ 35	\$	1,110
Deepwater Titan (b)		412		69		49		632	23		1,185
Total	\$	781	\$	106	\$	104	\$	1,246	\$ 58	\$	2,295

- (a) Deepwater Atlas is an ultra-deepwater drillship under construction at the Jurong Shipyard Pte Ltd. in Singapore. We currently expect that the shipyard will be ready to deliver Deepwater Atlas in the first half of 2022, and upon delivery, we expect to borrow approximately \$370 million under the Shipyard Loan, which may be discounted for imputed interest, to finance the final installment to the shipyard (see "—Sources and uses of liquidity"). The rig is expected to commence operations under its drilling contract, in the first of two phases, in the second half of 2022, using a 15,000 pounds per square inch blowout preventer. Before the start of the second phase, the rig will undergo installation of a 20,000 pounds per square inch blowout preventer and related equipment, which is expected to be commissioned in the year ending December 31, 2023.
- (b) Deepwater Titan is an ultra-deepwater drillship under construction at the Jurong Shipyard Pte Ltd. in Singapore. We currently expect that the shipyard will be ready to deliver Deepwater Titan in the third quarter of 2022, and upon delivery, we expect to borrow approximately \$90 million under the Shipyard Loan, which may be discounted for imputed interest, to finance a portion of the final installment to the shipyard (see "—Sources and uses of liquidity"). The rig is expected to commence operations under its drilling contract in the first half of 2023. The projected capital additions include estimates for an upgrade for two 20,000 pounds per square inch blowout preventers and other equipment required by our customer.

The ultimate amount of our capital expenditures is partly dependent upon financial market conditions, the actual level of operational and contracting activity, the costs associated with the current regulatory environment and customer requested capital improvements and equipment for which the customer agrees to reimburse us. As with any major shipyard project that takes place over an extended period of time, the actual costs, the timing of expenditures and the project completion date may vary from estimates based on numerous factors, including actual contract terms, weather, exchange rates, shipyard labor conditions, availability of suppliers to recertify equipment and the market demand for components and resources required for drilling unit construction. We intend to fund the cash requirements relating to our capital expenditures not financed under the Shipyard Loans by using available cash balances, cash generated from operations and asset sales, borrowings under our Secured Credit Facility and financing arrangements with banks or other capital providers. Economic conditions and other factors could impact the availability of these sources of funding. See "—Sources and uses of liquidity."

**Dispositions**—From time to time, we may also review the possible disposition of certain drilling assets. Considering market conditions, we have committed to plans to sell certain lower-specification drilling units for scrap value. During the nine months ended September 30, 2021, we completed the sale of one harsh environment floater and related assets, and we received net cash proceeds of \$4 million. During the year ended December 31, 2020, we completed the sale of one ultra-deepwater floater, three harsh environment floaters and three midwater floaters, along with related assets, and we received aggregate net cash proceeds of \$20 million. We continue to evaluate the drilling units in our fleet and may identify additional lower-specification drilling units to be sold for scrap value.

### **CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

Our discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements. This discussion should be read in conjunction with disclosures included in the notes to our condensed consolidated financial statements related to estimates, contingencies and other accounting policies. We disclose our significant accounting policies in Note 2 to our condensed consolidated financial statements in this quarterly report on Form 10-Q and in Note 2 to our consolidated financial statements in our annual report on Form 10-K for the year ended December 31, 2020. For a discussion of the new accounting standards updates that have had or are expected to have an effect on our condensed consolidated financial statements, see Notes to Condensed Consolidated Financial Statements—Note 3—Accounting Standards Update in this quarterly report on Form 10-Q. For a discussion of the critical accounting policies and estimates that we use in the preparation of our condensed consolidated financial statements, see "Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates" in our annual report on Form 10-K for the year ended December 31, 2020. As of September 30, 2021, there have been no material changes to the critical accounting policies and estimates on which our judgments, assumptions and estimates are based.

### **OTHER MATTERS**

#### Regulatory matters

We occasionally receive inquiries from governmental regulatory agencies regarding our operations around the world, including inquiries with respect to various tax, environmental, regulatory and compliance matters. To the extent appropriate under the circumstances, we investigate such matters, respond to such inquiries and cooperate with the regulatory agencies. See Notes to Condensed Consolidated Financial Statements—Note 10—Contingencies.

#### Tax matters

We conduct operations through our various subsidiaries in countries throughout the world. Each country has its own tax regimes with varying nominal rates, deductions and tax attributes that are subject to changes resulting from new legislation, interpretation or guidance. From time to time, as a result of these changes, we may revise previously evaluated tax positions, which could cause us to adjust our recorded tax assets and liabilities. Tax authorities in certain jurisdictions are examining our tax returns and, in some cases, have issued assessments. We intend to defend our tax positions vigorously. Although we can provide no assurance as to the outcome of the aforementioned changes, examinations or assessments, we do not expect the ultimate liability to have a material adverse effect on our condensed consolidated statement of financial position or results of operations; however, it could have a material adverse effect on our condensed consolidated statement of cash flows. See Notes to Condensed Consolidated Financial Statements—Note 8—Income Taxes.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

**Overview**—We are exposed to interest rate risk, primarily associated with our long-term debt, including current maturities. Additionally, we are exposed to currency exchange rate risk related to our international operations. For a complete discussion of our interest rate risk and currency exchange rate risk, see "Part II. Item 7A. Quantitative and Qualitative Disclosures About Market Risk" in our annual report on Form 10-K for the year ended December 31, 2020.

Interest rate risk—The following table presents the scheduled installment amounts and related weighted-average interest rates of our long-term debt instruments by contractual maturity date. The expected maturity amounts, presented below, include both principal and other installments, representing the contractual interest payments resulting from previously restructured debt. The following table presents information as of September 30, 2021 for the 12-month periods ending September 30 (in millions, except interest rate percentages):

	Scheduled Maturity Date														
	 2022		2023		2024		2025		2026	T	hereafter		Total	F	air value
Debt	 				<u></u>		<u></u>		<u> </u>						
Fixed rate (USD)	\$ 586	\$	858	\$	617	\$	670	\$	1,435	\$	3,260	\$	7,426	\$	6,183
Average interest rate	5.68 %	)	4.65 %	ı	5.63 %	0	6.00 %	)	6.31 %	0	5.47 %	)			

At September 30, 2021 and December 31, 2020, the fair value of our outstanding debt was \$6.2 billion and \$4.8 billion, respectively. During the nine months ended September 30, 2021, the fair value of our debt increased by \$1.4 billion due to the following: (a) a net increase of \$1.6 billion resulting from changes in the market prices of our outstanding debt, (b) a net increase of \$156 million due to the issuance of the 4.00% senior guaranteed exchangeable bonds due December 2025 in private exchanges for the 0.50% exchangeable senior bonds due January 2023, partially offset by (c) a decrease of \$306 million due to repayments of debt at scheduled maturities and (d) a decrease of \$43 million due to debt repurchased in the open market.

### ITEM 4. CONTROLS AND PROCEDURES

Disclosure controls and procedures—Our disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the United States (the "U.S.") Securities Exchange Act of 1934 is (1) accumulated and communicated to our management, including our Chief Executive Officer, who is our principal executive officer, and our Chief Financial Officer, who is our principal financial officer, to allow timely decisions regarding required disclosure and (2) recorded, processed, summarized and reported within the time periods specified in the U.S. Securities and Exchange Commission's rules and forms. Under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, we performed an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of September 30, 2021.

**Internal control over financial reporting**—There were no changes to our internal control over financial reporting during the quarter ended September 30, 2021 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

### PART II. OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

Transocean Ltd. (together with its subsidiaries and predecessors, unless the context requires otherwise, "Transocean," "we," "us," or "our") has certain actions, claims and other matters pending as discussed and reported in "Part II. Item 8. Financial Statements and Supplementary Data—Notes to Consolidated Financial Statements—Note 13—Commitments and Contingencies" and "Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations—Other Matters—Regulatory matters" in our annual report on Form 10-K for the year ended December 31, 2020. We are also involved in various tax matters as described in "Part II. Item 8. Financial Statements and Supplementary Data—Notes to Consolidated Financial Statements—Note 10—Income Taxes" and in "Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations—Other Matters—Tax matters" in our annual report on Form 10-K for the year ended December 31, 2020. All such actions, claims, tax and other matters are incorporated herein by reference.

As of September 30, 2021, we were involved in a number of other lawsuits, regulatory matters, disputes and claims, asserted and unasserted, all of which have arisen in the ordinary course of our business and for which we do not expect the liability, if any, to have a material adverse effect on our consolidated financial position, results of operations or cash flows. We cannot predict with certainty the outcome or effect of any of the matters referred to above or of any such other pending, threatened or possible litigation or legal proceedings. We can provide no assurance that our beliefs or expectations as to the outcome or effect of any lawsuit or claim or dispute will prove correct and the eventual outcome of these matters could materially differ from management's current estimates.

In addition to the legal proceedings described above, we may from time to time identify other matters that we monitor through our compliance program or in response to events arising generally within our industry and in the markets where we do business. We evaluate matters on a case by case basis, investigate allegations in accordance with our policies and cooperate with applicable governmental authorities. Through the process of monitoring and proactive investigation, we strive to ensure no violation of our policies, Code of Integrity or law has occurred or will occur; however, we can provide no assurance as to the outcome of these matters.

### ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors as previously disclosed in "Part I. Item 1A. Risk Factors" in our annual report on Form 10-K for the year ended December 31, 2020.

### ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

### **ISSUER PURCHASES OF EQUITY SECURITIES**

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs (a)	Approximate dollar value of shares that may yet be purchased under the plans or programs (in millions) (a)
July 2021		\$ 		\$ 3,481
August 2021	_	_	_	3,481
September 2021	_	_	_	3,481
Total		\$ 		\$ 3,481

<sup>(</sup>a) In May 2009, at our annual general meeting, our shareholders approved and authorized our board of directors, at its discretion, to repurchase for cancellation any amount of our shares for an aggregate purchase price of up to CHF 3.5 billion. At September 30, 2021, the authorization remaining under the share repurchase program was for the repurchase of our outstanding shares for an aggregate cost of up to CHF 3.2 billion, equivalent to \$3.5 billion. The share repurchase program could be suspended or discontinued by our board of directors or company management, as applicable, at any time. See "Part I. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Sources and uses of liquidity."

### ITEM 5. OTHER INFORMATION

On October 27, 2021, we amended our Articles of Association (as amended, the "Articles of Association") to reflect changes in our total issued share capital resulting from the issuance of 42.5 million Transocean Ltd. shares to one of our wholly owned subsidiaries at par value for a total consideration of CHF 4,250,000. The issuance of these shares is exempt pursuant to Section 4(a)(2) of the Securities Act of 1933, as amended, which exempts transactions by an issuer not involving a public offering. Our Articles of Association now reflect a share capital of CHF 72,817,616.50 divided into 728,176,165 fully paid registered shares.

The foregoing description of the Articles of Association is qualified in its entirety by reference to the full text of the Articles of Association, a copy of which is filed herewith as Exhibit 3.1 and is incorporated herein by reference.

### ITEM 6. EXHIBITS

(a) Exhibits

The following exhibits are filed in connection with this quarterly report on Form 10-Q:

Number	DESCRIPTION	LOCATION
3.1	Articles of Association of Transocean Ltd.	Filed herewith
3.2	Organizational Regulations of Transocean Ltd., adopted April 7, 2021	Exhibit 3.1 to Transocean Ltd.'s Current Report on Form 8-K (Commission File No. 001-38373) filed on April 7, 2021
31.1	Certification of Chief Executive Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934 and Section 302 of the Sarbanes-Oxley Act of 2002	Filed herewith
31.2	Certification of Chief Financial Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934 and Section 302 of the Sarbanes-Oxley Act of 2002	Filed herewith

Number	DESCRIPTION	Location
