NOTICE OF 2024 ANNUAL GENERAL MEETING AND PROXY STATEMENT

COMPENSATION REPORT

2023 ANNUAL REPORT TO SHAREHOLDERS

ABOUT TRANSOCEAN LTD.

Transocean is a leading international provider of offshore contract drilling services for oil and gas wells. The company specializes in technically demanding sectors of the global offshore drilling business with a particular focus on ultra-deepwater and harsh environment drilling services and operates one of the most versatile offshore drilling fleets in the world. Transocean owns or has partial ownership interests in, and operates a fleet of 36 mobile offshore drilling units consisting of 28 ultra-deepwater floaters and eight harsh environment floaters. In addition, Transocean is constructing one ultra-deepwater drillship. The company's shares are traded on the New York Stock Exchange under the symbol RIG.

The symbols in the map above represent the global market presence of our operating fleet as of the February 14, 2024 Fleet Status Report. Excludes the Paul B. Loyd, Jr., which was sold on February 15, 2024, and the Deepwater Aquila, which is under construction.

ABOUT THE COVER

The cover shows *Deepwater Atlas* during operations in the Gulf of Mexico in 2023. The *Deepwater Atlas* is the industry's first eighth-generation drillship – now outfitted with two 20,000 psi blowout preventers and associated well-control equipment, including marine riser and piping systems for high-pressure and high temperature drilling and completion operations. The ultra-deepwater drillship is on contract in the Gulf of Mexico through April 2025.

FORWARD-LOOKING STATEMENTS

Any statements included in this Proxy Statement and 2023 Annual Report that are not historical facts, including, without limitation, statements regarding future market trends and results of operations are forward-looking statements within the meaning of applicable securities law. Such statements are subject to numerous risks and uncertainties beyond our control and our actual results may differ materially from our forward-looking statements.

TRANSOCEAN LTD.

COMPENSATION REPORT

For the years ended December 31, 2023 and 2022

THIS PAGE INTENTIONALLY LEFT BLANK

To the General Meeting of
Transocean Ltd., Steinhausen

Zurich, March 15, 2024

Report of the statutory auditor on the audit of the compensation report

Opinion

We have audited the compensation report of Transocean Ltd. (the Company) for the year ended December 31, 2023. The audit was limited to the information pursuant to Art. 734a-734f of the Swiss Code of Obligations (CO) on pages CR-3 to CR-7 of the compensation report.

In our opinion, the information pursuant to Art. 734a-734f CO in the accompanying compensation report complies with Swiss law and the Company's articles of incorporation.

Basis for opinion

We conducted our audit in accordance with Swiss law and Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the "Auditor's responsibilities for the audit of the compensation report" section of our report. We are independent of the Company in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the pages CR-3 to CR-7 in the compensation report, the consolidated financial statements, the stand-alone financial statements and our auditor's reports thereon.

Our opinion on the compensation report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the compensation report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the audited financial information in the compensation report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Board of Directors' responsibilities for the compensation report

The Board of Directors is responsible for the preparation of a compensation report in accordance with the provisions of Swiss law and the Company's articles of incorporation, and for such internal control as the Board of Directors determines is necessary to enable the preparation of a compensation report that is free from material misstatement, whether due to fraud or error. It is also responsible for designing the remuneration system and defining individual remuneration packages.

Auditor's responsibilities for the audit of the compensation report

Our objectives are to obtain reasonable assurance about whether the information pursuant to Art. 734a-734f CO is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law and SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this compensation report.

As part of an audit in accordance with Swiss law and SA-CH, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement in the compensation report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.

We communicate with the Board of Directors or its relevant committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors or its relevant committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

TRANSOCEAN LTD. COMPENSATION REPORT

GENERAL

Transocean Ltd. (“we”, “us”, or “our”) is the parent company of Transocean Financing GmbH, Transocean Inc., Transocean Management Services GmbH, Transocean Quantum Holdings Limited, and Triton Quantum I GmbH, our direct wholly owned subsidiaries. Transocean Ltd. is registered with the commercial register in the canton of Zug, and its shares are listed on the New York Stock Exchange. We are thus bound by the legal and regulatory requirements of both the United States of America (“U.S.”) and Switzerland.

This Compensation Report reflects the requirements of Articles 734a to 734f CO (“Swiss Code of Obligations”), and discloses any compensation paid to our members of the Board of Directors and the Executive Management Team for the years ended December 31, 2023 and 2022. For a description of our governance framework relating to executive and director compensation, please refer to our 2024 Proxy Statement under the caption “Executive and Director Compensation Process.” For a description of our directors’ compensation principles, please refer to our 2024 Proxy Statement under the captions “Director Compensation Strategy” and “2023 Director Compensation.” For a description of our Executive Management Team compensation principles, please refer to our 2024 Proxy Statement under the caption “Compensation Discussion and Analysis.”

For the years ended December 31, 2023 and 2022, we have presented all compensation amounts in U.S. dollars and Swiss francs using the average annual currency exchange rate of USD 1.00 to CHF 0.90 and CHF 0.95, respectively.

BOARD OF DIRECTORS’ COMPENSATION

Our Board of Directors is paid in U.S. dollars and our non-employee directors were eligible to receive compensation as follows:

	Year ended December 31, 2023		Year ended December 31, 2022	
	Payment currency	Swiss franc equivalent	Payment currency	Swiss franc equivalent
Annual retainer - non-employee chair	USD 215,000	CHF 194,382	USD 215,000	CHF 205,089
Annual retainer - non-employee directors	100,000	90,410	100,000	95,390
Grant of restricted share units - non-employee chair	215,000	194,382	215,000	205,089
Grant of restricted share units - non-employee directors	210,000	189,861	210,000	200,319

Additional annual retainer for committee chairs:

Audit Committee	35,000	31,644	35,000	33,387
Compensation Committee	20,000	18,082	20,000	19,078
Corporate Governance Committee, Finance Committee, and Health, Safety, Environment and Sustainability Committee	10,000	9,041	10,000	9,539

Our directors who are our employees do not receive compensation for board service. With the exception of Jeremy D. Thigpen, all of the directors on our Board of Directors receive compensation as non-employees. In addition to the directors’ compensation, we pay or reimburse our directors for travel and incidental expenses incurred for attending board, committee, and shareholder meetings and for other company-related business purposes.

We grant restricted share units to the non-employee chair and each non-employee director annually with an aggregate value presented above based upon the average of the high and low market prices of our shares for each of the 10 trading days preceding the date of grant. The restricted share units vest on the date first to occur of (i) the first anniversary of the date of grant or (ii) the annual general meeting next following the date of grant, subject to continued service through the vesting date. Vesting of the restricted share units is not subject to any performance measures. Each director may elect to receive the shares upon vesting or to defer shares until the director no longer serves on the board.

In the year ended December 31, 2022, the Board of Directors approved, as presented in the above table, a reduction to the value of both the annual retainer and the restricted share unit award for the non-employee Chair of the Board of Directors to \$215,000, equivalent to CHF 205,089, from \$275,000, equivalent to CHF 262,323.

- (a) Fees earned include cash retainer fees.
- (b) For the years ended December 31, 2023 and 2022, we estimated the fair value of restricted share units to be USD 5.84 and USD 3.76, respectively, equivalent to CHF 5.28 and CHF 3.59, respectively, based on the market price of our shares as reported on the NYSE on the grant date.
- (c) Total compensation is not subject to employer-paid social taxes.
- (d) In addition to the total compensation presented above, Mr. Barker received compensation representing employer-paid U.K. social taxes. In the years ended December 31, 2023 and 2022, such employer-paid social taxes were USD 10,447 and USD 4,140, respectively, equivalent to CHF 10,225 and CHF 3,812, respectively. In the year ended December 31, 2022, Mr. Barker also received a cash payment of USD 15,614, equivalent to CHF 14,752, as an adjustment for social taxes that had historically been collected in excess of that due.
- (e) In addition to the total compensation presented above, Mr. Curado received compensation representing employer-paid Swiss social taxes. In the years ended December 31, 2023 and 2022, such employer-paid social taxes were USD 9,955 in each year, equivalent to CHF 9,349 and CHF 9,392, respectively.
- (f) In addition to the total compensation presented above, Mr. Mohn received compensation representing employer-paid Swiss social taxes. In the years ended December 31, 2023 and 2022, such employer-paid social taxes were USD 9,050 in each year, equivalent to CHF 8,500 and CHF 8,538, respectively.
- (g) In addition to the total compensation presented above, Ms. Øvrum received compensation representing employer-paid Swiss social taxes. In the years ended December 31, 2023 and 2022, such employer-paid social taxes were USD 15,350 and USD 3,442, respectively, equivalent to CHF 14,347 and CHF 3,174, respectively. In the year ended December 31, 2022, Ms. Øvrum also received a cash payment of USD 2,167, equivalent to CHF 1,999, as an adjustment for social taxes that had historically been collected in excess of the amount due.
- (h) In addition to the total compensation presented above, Ms. de Saint Victor received compensation representing employer-paid Swiss social taxes. In the years ended December 31, 2023 and 2022, such employer-paid social taxes were USD 95,684 and USD 7,006, respectively, equivalent to CHF 85,359 and CHF 6,610, respectively. Ms. de Saint Victor departed the board following the completion of her service.

Pension Equalization Plan and USD 397,429, equivalent to CHF 379,108, under the Transocean U.S. Retirement Plan.

TRANSOCEAN LTD.
COMPENSATION REPORT—continued

Share-based compensation—We granted to the members of our Executive Management Team share-based compensation awards under our long-term incentive plans. As presented below, total share-based compensation represents the fair value of grants made to the members of our Executive Management Team and does not represent actual income earned. Any income earned from subsequent vesting of the awards is subject to employer-paid social taxes at the statutory rate prevailing at the time income is earned.

To measure the fair values of granted or modified service-based restricted share units, we use the market price of our shares on the grant date or modification date. To measure the fair values of granted or modified performance share units that are subject to market factors, such as total shareholder return, we use a Monte Carlo simulation model, and we apply assumptions for the expected life, risk-free interest rate, dividend yield, expected volatility using a risk neutral approach and the average price at the performance start date.

In the years ended December 31, 2023 and 2022, we granted performance share units to members of our Executive Management Team. Performance share units granted are generally subject to a three-year performance period during which the actual number of units remains uncertain. The number of performance share units presented below represents the targeted number of shares awarded. The actual number of share units earned is determined in the first 60 days following the performance period based on performance thresholds and may range between zero and two shares per performance share unit.

Share-based compensation awards were granted as follows:

Name	Year ended December 31, 2023					
	Restricted share units		Performance share units		Total share-based compensation	
	Units (a)	Fair value	Units (a)(b)	Fair value

(a) We granted restricted share units and performance share units to the members of our Executive Management Team on February 10, 2022.

(b) The three-year performance period is January 1, 2022 to December 31, 2024 and is based on our total shareholder return relative to our performance peer group.

COMPENSATION TO FORMER MEMBERS OF OUR BOARD OF DIRECTORS OR EXECUTIVE MANAGEMENT TEAM OR TO RELATED PERSONS

During the years ended December 31, 2023 and 2022, we did not pay or grant any compensation to former members of our Board of Directors or our Executive Management Team or to related persons of active or former members of our Board of Directors or our Executive Management Team.

CREDITS AND LOANS GRANTED TO GOVERNING BODIES

In accordance with Article 29f paragraph 1 of our Articles of Association, which our shareholders adopted at the May 2014 annual general meeting, we did not grant credits or loans to active or former members of our Board of Directors, members of our Executive Management Team or to any other related persons during the two-year period ended December 31, 2023. At December 31, 2023 and 2022, we had no outstanding credits or loans to active or former members of our Board of Directors, members of our Executive Management Team or to any other related persons.

TRANSOCEAN LTD.
COMPENSATION REPORT—continued

EXTERNAL MANDATES OF MEMBERS OF OUR BOARD OF DIRECTORS OR EXECUTIVE MANAGEMENT TEAM

As of December 31, 2023, in accordance with Article 734e CO, the external mandates held by members of our Board of Directors and members of our Executive Management Team in comparable functions at other companies with an economic purpose within the meaning of Article 626, paragraph 2, cipher 1 CO were as follows:

Member of Board of Directors	Company name	Function
Chadwick C. Deaton	Ariel Corporation	Member of the board of directors
	Marathon Oil Corporation	Member of the board of directors
	Piri Technologies	Member of the board of directors
Glyn A. Barker	Irwin Mitchell Holdings Ltd.	Chairman of the board of directors
	Song Capital Partners	Partner in the company
	Various Eateries PLC	Member of the board of directors
Vanessa C.L. Chang	Capital Group American Funds (a)	Member of the board of directors
	Edison International	Member of the board of directors
	Global Infrastructure Solutions	Member of the board of directors
	Southern California Edison Company	Member of the board of directors
Frederico F. Curado	ABB Ltd.	Member of the board of directors
	LATAM Airlines Group S.A.	Member of the board of directors
Domenic J. Dell'Osso, Jr.	AXPC-American Exploration and Production Council	Member of the executive committee
	Chesapeake Energy Corporation	Director, President and Chief Executive Officer
Vincent J. Intrieri	Hertz Global Holdings, Inc.	Member of the board of directors
	VDA Capital Management LLC	Chief Executive Officer
Samuel Merksamer	Autostore Holdings Ltd.	Member of the board of directors
	EQRX	Member of the board of directors
Frederik W. Mohn	EMGS ASA	Chairman of the board of directors
	Fornebu Sentrum Holding AS (b)	Chairman of the board of directors
	Fornebu Sentrum Utvikling AS	Chairman of the board of directors
	Perestroika AS (c)	Chairman of the board of directors
	Viken Crude AS	Member of the board of directors
Edward R. Muller	AeroVironment, Inc.	Member of the board of directors
	CarbonBuilt, Inc.	Chairman of the board of directors
	Concrete AI, Inc.	Chairman of the board of directors
	Equatic Inc.	Chairman of the board of directors
	Nextli Technologies, Inc.	Chairman of the board of directors
	Sigma7	Member of the advisory board
	Specifx, Inc.	Chairman of the board of directors
	x/44 Inc.	Chairman of the board of directors
Margareth Øvrum	FMC Corporation	Member of the board of directors
	Fox Innovation & Technologies, Inc.	Member of the board of directors
	Harbour Energy	Member of the board of directors
	Technip FMC	Member of the board of directors

(a) Ms. Chang serves on the boards of multiple open-end investment funds advised by a wholly owned subsidiary of The Capital Group.

(b) Mr. Mohn serves on the boards of Fornebu Sentrum Holding AS and multiple subsidiaries, including Fornebu Sentrum AS and Fornebu Strandsone AS.

(c) Mr. Mohn serves on the boards of Perestroika AS and multiple subsidiaries.

FORWARD-LOOKING INFORMATION

The statements included in this annual report regarding future financial performance and results of operations and other statements that are not historical facts are forward-looking statements within the meaning of Section 27A of the United States (“U.S.”) Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. Forward-looking statements in this annual report include, but are not limited to, statements about the following subjects:

- the effect of any disputes and actions with respect to production levels by, among or between major oil and gas producing countries and any expectations we may have with respect thereto;
- our results of operations, our cash flow from operations, our revenue efficiency and other performance indicators and optimization of rig-based spending;
- the offshore drilling market, including the effects of variations in commodity prices, supply and demand, utilization rates, dayrates, customer drilling programs, stacking and reactivation of rigs, effects of new rigs on the market, the impact of changes to regulations in jurisdictions in which we operate and changes in the global economy or market outlook for our industry, our rig classes or the various geographies in which we operate;
- customer drilling contracts, including contract backlog, force majeure provisions, contract awards, commencements, extensions, cancellations, terminations, renegotiations, contract option exercises, contract revenues, early termination fees, indemnity provisions and rig mobilizations;
- the addition of renewable or other energy alternatives to meet local, regional or global demand for energy, the commitment, by us or our customers, to reduce greenhouse gas emissions or operating intensity thereof;
- liquidity, including availability under our bank credit agreement, and adequacy of cash flows for our obligations;
- debt levels, including interest rates, credit ratings and our evaluation or decisions with respect to any potential liability management transactions or strategic alternatives intended to prudently manage our liquidity, debt maturities and other aspects of our capital structure and any litigation, alleged defaults and discussions with creditors related thereto;
- newbuild, upgrade, shipyard, reactivations and other capital projects, including the level of expected capital expenditures and the timing and cost of completing capital projects, delivery and operating commencement dates, relinquishment or abandonment, expected downtime and lost revenues;
- the cost and timing of acquisitions, reactivations and the proceeds and timing of dispositions;
- tax matters, including our effective tax rate, uncertain tax positions, changes in tax laws, treaties and regulations, tax assessments, tax incentive programs and liabilities for tax issues in the tax jurisdictions in which we operate or have a taxable presence;
- legal and regulatory matters, including results and effects of current or potential legal proceedings and governmental audits and assessments, outcomes and effects of internal and governmental investigations, customs and environmental matters;
- insurance matters, risk tolerance and risk response, including adequacy of insurance, renewal of insurance, insurance proceeds and cash investments of our wholly owned captive insurance company;
- effects of accounting changes and adoption of accounting policies; and
- investment in recruitment, retention and personnel development initiatives, the timing of, and other matters concerning, severance payments, benefit payments and maintaining agreements with labor unions.

Forward-looking statements in this annual report are identifiable by use of the following words and other similar expressions:

- | | | | | | | | |
|---------------|-----------|-------------|-------------|---------|------------|-------------|----------|
| ▪ anticipates | ▪ budgets | ▪ estimates | ▪ forecasts | ▪ may | ▪ plans | ▪ projects | ▪ should |
| ▪ believes | ▪ could | ▪ expects | ▪ intends | ▪ might | ▪ predicts | ▪ scheduled | |

Such statements are subject to numerous risks, uncertainties and assumptions, including, but not limited to:

- those described under “Item 1A. Risk Factors” in this annual report;
- the effects of actions by, or disputes among or between, members of the Organization of Petroleum Exporting Countries and other oil and natural gas producing countries with respect to production levels or other matters related to the prices of oil and natural gas;
- the adequacy of and access to our sources of liquidity;
- our inability to renew drilling contracts at comparable, or improved, dayrates and to obtain drilling contracts for our rigs that do not have contracts;
- operational performance;
- the cancellation of drilling contracts currently included in our reported contract backlog;
- losses on impairment of long-lived assets;
- shipyard, construction and other delays;
- the results of meetings of our shareholders;
- changes in political, social and economic conditions;
- the effect and results of litigation, regulatory matters, settlements, audits, assessments and contingencies
- the effects of public health threats, pandemics and epidemics and the potential adverse impacts thereof; and
- other factors discussed in this annual report and in our filings with the U.S. Securities and Exchange Commission (“SEC”), which are available free of charge on the SEC website at www.sec.gov.

The foregoing risks and uncertainties are beyond our ability to control, and in many cases, we cannot predict the risks and uncertainties that could cause our actual results to differ materially from those indicated by the forward-looking statements. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated. All subsequent written and oral forward-looking statements attributable to us or to persons acting on our behalf are expressly qualified in their entirety by reference to these risks and uncertainties. You should not place undue reliance on forward-looking statements. Each forward-looking statement speaks only as of the date of the particular statement. We expressly disclaim any obligations or undertaking to release publicly any updates or revisions to any forward-looking statement to reflect any change in our expectations or beliefs with regard to the statement or any change in events, conditions or circumstances on which any forward-looking statement is based, except as required by law.

PART I

ITEM 1. BUSINESS

OVERVIEW

Transocean Ltd. (together with its subsidiaries and predecessors, unless the context requires otherwise, “Transocean,” the “Company,” “we,” “us” or “our”) is a leading international provider of offshore contract drilling services for oil and gas wells. As of February 14, 2024, we owned or had partial ownership interests in and operated 37 mobile offshore drilling units, consisting of 28 ultra-deepwater floaters and nine harsh environment floaters. Additionally, as of February 14, 2024, we were constructing one ultra-deepwater drillship.

We provide, as our primary business, contract drilling services in a single operating segment, which involves contracting our mobile offshore drilling rigs, related equipment and work crews to drill oil and gas wells. We specialize in technically demanding regions of the global offshore drilling business with a particular focus on ultra-deepwater and harsh environment drilling services. Our drilling fleet is one of the most versatile fleets in the world, consisting of drillships and semisubmersible floaters used in support of offshore drilling activities and offshore support services on a worldwide basis.

Transocean Ltd. is a Swiss corporation with its registered office in Steinhausen, Canton of Zug and with principal executive offices located at Turmstrasse 30, 6312 Steinhausen, Switzerland. Our telephone number at that address is +41 41 749-0500. Our shares are listed on the New York Stock Exchange under the ticker symbol “RIG.” For information about the revenues, operating income, assets and other information related to our business and the geographic areas in which we operate, see “Part II. Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Part II. Item 8. Financial Statements and Supplementary Data—Notes to Consolidated Financial Statements—Note 1—Business, Note 5—Revenues and Note 7—Long-Lived Assets.”

DRILLING FLEET

Overview—We provide contract drilling services using our fleet of mobile offshore drilling units, including both drillships and semisubmersibles, broadly referred to as floaters. Floaters are designed to operate in locations away from port for extended periods of time and have living quarters for the crews, a helicopter landing deck and storage space for drill pipe, riser and drilling supplies. Our drilling units and related equipment are suitable for both exploration and development, and we engage in both types of activities.

Drillships are floating vessels that are shaped like conventional ships, generally self-propelled and considered to be the most mobile of the major rig types. Drillships typically have greater deck load and storage capacity than semisubmersible rigs, which provides logistical and resupply efficiency benefits for customers. Drillships are generally better suited to operations in calmer sea conditions and typically do not operate in areas considered to be harsh environments. All of our high-specification drillships are equipped with dynamic positioning thruster systems, which allows them to maintain position without anchors through the use of onboard propulsion and station-keeping systems. We have two ultra-deepwater drillships that are equipped with an industry-leading, 1,700 short ton hoisting capacity. We have 23 ultra-deepwater drillships that are, and one ultra-deepwater drillship under construction that will be, equipped with our patented dual-activity technology. Dual-activity technology employs structures, equipment and techniques using two drilling stations within a dual derrick to allow these drillships to perform simultaneous drilling tasks in a parallel, rather than a sequential manner, which reduces critical path activity and improves efficiency in both exploration and development drilling.

Semisubmersibles are floating vessels that can be partially submerged by means of a water ballast system such that the lower column sections and pontoons are below the water surface during drilling operations. Semisubmersibles are known for stability, making them well suited for operating in rough sea conditions. Semisubmersible floaters are capable of maintaining their position over a well either through dynamic positioning or the use of mooring systems. Although most semisubmersible rigs are relocated with the assistance of tugs, some units are self-propelled and move between locations under their own power when afloat on pontoons. Four of our 12 semisubmersibles are equipped with dual-activity technology and also have mooring capability. Two of these four dual-activity units are custom-designed, high-capacity semisubmersible drilling rigs, equipped for year-round operations in harsh environments, such as those of the Norwegian continental shelf and sub-Arctic waters.

Our fleet consists of ultra-deepwater drillships and semisubmersibles and harsh environment semisubmersibles that are designed with high-specification capabilities to operate in the technically demanding regions of the global offshore drilling business. Ultra-deepwater floaters are equipped with high-pressure mud pumps and are capable of drilling in water depths of 4,500 feet or greater. Harsh environment floaters are capable of drilling in harsh environments in water depths between 1,500 and 10,000 feet and typically have greater displacement than other semisubmersibles, which offers larger variable load capacity, more useable deck space and better motion characteristics.

Fleet status—Depending on market conditions, we may idle or stack our non-contracted rigs. An *idle* rig is between drilling contracts, readily available for operations, and operating costs are typically at or near normal operating levels. A *stacked* rig typically has reduced operating and maintenance costs, is staffed by a reduced crew or has no crew and is (a) preparing for an extended period of inactivity, (b) expected to continue to be inactive for an extended period, or (c) completing a period of extended inactivity. Stacked rigs will continue to incur operating costs at or above normal operating levels for approximately 30 days following initiation of stacking. Some idle rigs and all stacked rigs require additional costs to return to service. The actual cost to return to service, which in many instances could be significant and could fluctuate over time, depends upon various factors, including the availability and cost of shipyard facilities, the cost of

equipment and materials, the extent of repairs, maintenance and commercial upgrades that may ultimately be required, the length of time a rig has spent in stacking mode and the time and cost of assembling and training crew. We consider these factors, together with market conditions, length of contract, dayrate and other contract terms, when deciding whether to return a stacked rig to service. We may not return some stacked rigs to work for drilling services.

Drilling units—The following tables, presented as of February 14, 2024, provide certain specifications for our rigs. Unless otherwise noted, the stated location of each rig indicates either the current drilling location, if the rig is operating, or the next operating location, if the rig is in shipyard with a follow-on contract. The dates provided represent the expected time of completion, the year placed into service, and, if applicable, the year of the most recent upgrade. As of February 14, 2024, we owned all of the drilling rigs in our fleet noted in the tables below, except for the following: (1) the ultra-deepwater floater *Petrobras 10000*, which is subject to a finance lease through August 2029 and (2) the harsh environment floater *Transocean Norge*, which is owned through our noncontrolling equity ownership interest in Orion Holdings (Cayman) Limited (together with its subsidiary, “Orion”).

Rig category and name	Type	Year entered service / upgraded	Hook load capacity (short tons)	Water depth capacity (in feet)	Drilling depth capacity (in feet)	Specifications	Contracted location or standby status
Ultra-deepwater floaters (28)							
Deepwater Titan	Drillship	2023	1,700	12,000	40,000	(a) (b) (c)	U.S. Gulf

Henry Goodrich	Semisubmersible	1985/2007	750	5,000	30,000	(g)	Stacked
Paul B. Loyd, Jr.	Semisubmersible	1990	750	2,000	25,000	(g) (j)	U.K. N. Sea

- (a) Dynamically positioned.
- (b) Patented dual activity.
- (c) Two 20,000 psi blowout preventers.
- (d) One 15,000 psi blowout preventer and one 20,000 psi blowout preventer.
- (e) Two 15,000 psi blowout preventers.
- (f) Designed to accommodate a future upgrade to 20,000 psi blowout preventer(s).
- (g) Moored.
- (h) Automated drilling control.
- (i) Dual activity.
- (j) On February 15, 2024, we completed the sale of *Paul B. Loyd, Jr.* and related assets.

Rig category and name	Type	Expected completion	Hook load capacity (short tons)	Water depth capacity (feet)	Drilling depth capacity (feet)	Specifications	Contracted location
Rigs under construction (1)							
Ultra-deepwater floaters							
Deepwater Aquila	Drillship	2Q24	1,400	12,000	40,000	(a) (b) (c) (d)	Brazil

- (a) To be dynamically positioned.
(b) To be equipped with our patented dual activity.
(c) To be equipped with main hoisting capacity of 1,400 short tons.
(d) To be equipped with one 15,000 psi blowout preventer and designed to accommodate a future 20,000 psi blowout preventer.

DRILLING CONTRACTS

Our offshore drilling services contracts are individually negotiated and vary in their terms and conditions. We obtain most of our drilling contracts through bidding processes in competition against other drilling services contractors and through direct negotiations with operators. Drilling contracts generally provide for payment on a dayrate basis, typically with higher rates for periods when drilling operations are optimized and, conversely, lower or zero rates for periods during which the drilling unit is not mobilized or when drilling operations are interrupted or restricted, whether due to equipment breakdowns, adverse environmental conditions, regulatory approvals or otherwise. A dayrate drilling contract generally extends over a period of time either covering the drilling of a single well or group of wells or covering a stated term. At December 31, 2023, our contract backlog was approximately \$9.25 billion, representing an increase of 11 percent and 40 percent, respectively, compared to the contract backlog at December 31, 2022 and 2021, which was \$8.34 billion and \$6.60 billion, respectively. See “Part II. Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations—Performance and Other Key Indicators.”

Certain of our drilling contracts may be cancelable for the convenience of the customer, typically with payment of an early termination fee. Such payments, however, may not fully compensate us for the loss of the contract. Drilling contracts also customarily provide for either automatic termination or termination at the option of the customer, typically without payment of any termination fee, under various circumstances such as non-performance, in the event of extended downtime or impaired performance due to equipment or operational issues or extended downtime due to force majeure events. Many of these events are beyond our control. The contract term in some instances may be extended by the customer exercising options for the drilling of additional wells or for additional periods of time. Our contracts also typically include a provision that allows the customer to extend the contract to finish drilling a well-in-progress. During periods of depressed market conditions, our customers may seek to renegotiate drilling contracts or options to reduce the term of their obligations or the average dayrate through term extensions or may seek to early terminate or repudiate their contracts. Suspension of drilling contracts will result in the reduction in or loss of dayrate for the period of the suspension. If customers cancel some of our contracts and we are unable to secure new contracts on a timely basis and on substantially similar or more favorable terms, if some of our contracts are suspended for an extended period of time or if a number of our contracts are renegotiated on less favorable terms, our consolidated financial position, results of operations or cash flows may be adversely affected. See “Item 1A. Risk Factors—Risks related to our business—Our drilling contracts may be terminated due to a number of events, and, during depressed market conditions, our customers may seek to repudiate or renegotiate their contracts.”

Under dayrate drilling contracts, consistent with standard industry practice, our customers, as the operators, generally assume, and grant indemnity for, subsurface and well control risks, and their consequential damages. Under all of our current drilling contracts, our customers indemnify us for pollution damages in connection with reservoir fluids stemming from operations under the contract, and we indemnify our customers for pollution that originates above the surface of the water from the rig for substances in our control, such as diesel used or other fluids stored onboard the rig. Also, our customers indemnify us for consequential damages they incur, damage to the well or reservoir, loss of subsurface oil and gas and costs to bring the well under control. However, because our drilling contracts are individually negotiated, the degree of indemnification we receive from our customers for such risks and related costs may vary from contract to contract based on market conditions, customer requirements existing when the contract was negotiated or other factors. In some instances, we have contractually agreed upon certain limits to our indemnification rights and can be responsible for certain damages up to a specified maximum dollar amount. The nature of our liability and the prevailing market conditions, among other factors, can influence such contractual terms. Notwithstanding a contractual indemnity from a customer, there can be no assurance that our customers will be financially able to indemnify us or will otherwise honor their contractual indemnity obligations.

The interpretation and enforceability of a contractual indemnity depends upon the specific facts and circumstances involved, as governed by applicable laws, and may ultimately need to be decided by a court or other proceeding, which would need to consider the specific contract language, the facts and applicable laws. Applicable laws often consider contractual indemnity for criminal fines and penalties to be against public policy. Many courts also restrict indemnification for criminal fines and penalties. The inability or other failure of our customers to fulfill their indemnification obligations, or the unenforceability of all of our contractual protections could have a material adverse effect on our consolidated financial position, results of operations or cash flows. See “Item 1A. Risk Factors—Risks related to our business—Our business involves numerous operating hazards, and our insurance and indemnities from our customers may not be adequate to cover potential losses from our operations.”

MARKETS

Our operations are geographically dispersed in oil and gas exploration and development areas throughout the world. We operate in a single, global offshore drilling market, as our drilling rigs are mobile assets and can be moved according to prevailing market conditions. We may mobilize our drilling rigs between regions for a variety of reasons, including to respond to customer contracting requirements or to capture observed market demand. Consequently, we cannot predict the future percentage of our revenues that will be derived from particular geographic areas. As of February 14, 2024, the drilling units in our fleet, including stacked and idle rigs, but excluding rigs under construction, were located in the U.S. Gulf of Mexico (ten units), Greece (seven units), Brazil (five units), the Norwegian North Sea (four units), Malaysia (three units), Australia (two units), Angola (one unit), Aruba (one unit), Canada (one unit), Cyprus (one unit), India (one unit) and the United Kingdom (the “U.K.”) North Sea (one unit).

We categorize the sectors of the floater market in which we operate as follows: (1) ultra-deepwater and deepwater, (2) harsh environment and (3) midwater. We typically employ our ultra-deepwater floaters to service the ultra-deepwater and deepwater sector, and we employ our harsh environment floaters to service all three sectors. We generally view the ultra-deepwater and deepwater market sector as water depths beginning at 4,500 feet and extending to the maximum water depths in which rigs are capable of drilling, which is currently up to 12,000 feet. The midwater market sector includes water depths from approximately 300 feet to approximately 4,500 feet. The harsh environment market sector includes regions that are more challenged by lower temperatures, harsher weather conditions and water currents.

The market for offshore drilling rigs and related services reflects our customers’ demand for equipment for drilling exploration, appraisal and development wells and for performing maintenance on existing production wells. Activity levels of energy companies, including integrated energy companies, independent energy companies and, to a lesser extent, national energy companies are largely driven by the worldwide demand for energy, including crude oil and natural gas. Worldwide energy supply and demand drives oil and natural gas prices, which, in turn, impact energy companies’ ability to fund investments in exploration, development and production activities.

See “Part II. Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations—Outlook.”

CUSTOMERS

We provide our offshore drilling services to most of the leading integrated energy companies or their affiliates, as well as for many government-owned or government-controlled energy companies and other independent energy companies. For the year ended December 31, 2023, our most significant customers were Shell plc (together with its affiliates, “Shell”), Equinor ASA (together with its affiliates, “Equinor”), TotalEnergies SE (together with its affiliates, “TotalEnergies”) and Petróleo Brasileiro S.A. (together with its affiliates, “Petrobras”), representing approximately 27 percent, 16 percent, 12 percent and 11 percent, respectively, of our consolidated operating revenues. No other customers accounted for 10 percent or more of our consolidated operating revenues in the year ended December 31, 2023. Additionally, as of February 14, 2024, the customers with the most significant aggregate amount of contract backlog associated with our drilling contracts were Petrobras, Shell and Chevron Corporation (together with its affiliates, “Chevron”), representing approximately 31 percent, 25 percent and 10 percent, respectively, of our total contract backlog. See “Item 1A. Risk Factors—Risks related to our business—We rely heavily on a relatively small number of customers and the loss of a significant customer or a dispute that leads to the loss of a customer could have an adverse effect on our business.”

HUMAN CAPITAL RESOURCES

Worldwide workforce—As of December 31, 2023, we had a global workforce of approximately 5,800 individuals, including approximately 370 contractors, representing 53 nationalities. At December 31, 2023, our global workforce was geographically distributed in 22 countries across six continents as follows: 38 percent in North America, 25 percent in Europe, 23 percent in South America, six percent in Asia, five percent in Africa and three percent in Australia.

FIRST Shared Values and corporate culture—Our FIRST Shared Values serve as the foundation for our corporate culture and guide us to act ethically and responsibly as we strive to deliver value for our stakeholders and to maintain a safe and respectful work environment for our people.

Code of Integrity and Human Rights—We maintain a Code of Integrity and Human Rights Policy that applies to all our board members, executives, employees and business partners, including contractors, suppliers, vendors, investees and joint venture partners. We demonstrate our respect of human rights by maintaining a healthy and safe work environment, observing fair employment practices and providing competitive employment terms. Practices such as modern slavery, child labor, forced or indentured servitude, and other human rights abuses are strictly prohibited.

Labor rights—We respect the labor rights of all individuals in our workforce, including the right to collective bargaining. As of December 31, 2023, approximately 42 percent of our total workforce, working primarily in Norway and Brazil, are represented by, and some of our contracted labor work is subject to, collective bargaining agreements, substantially all of which are subject to annual salary negotiation. Negotiations over annual salary or other labor matters could result in higher personnel or other costs or increased operational restrictions or disruptions. The outcome of any such negotiation generally affects the market for all offshore employees, not only union members. A failure to reach an agreement on certain key issues could result in strikes, lockouts or other work stoppages.

Attraction, development and retention—We aim to strategically cultivate a best-in-class workforce to offer the innovation, local knowledge and experience required of the world's premier offshore drilling contractor. We seek to maintain our competitive advantage while benefitting our local communities by offering regionally competitive compensation and benefits packages, a technically challenging work environment, global opportunities, and rotational development programs. We continually assess and adapt our offerings and our policies, based on evolving social and technological practices, to provide a modern work environment, which is essential to attract and retain top talent, and a respectful and inclusive work environment in which our global workforce can thrive. Our focus on the quality of our workforce is designed to maximize the quality of our work performance and ultimately, the value we deliver to our stakeholders.

Training—We invest in our workers by providing them with the transferrable skill sets essential to advancing their professional development. To optimize the competitive position of our business, we maintain a rigorous competency-based training program. Our internal training board maintains and regularly updates our training matrix to meet or exceed industry standards, and it oversees our competency assurance management system, which is accredited by the Offshore Petroleum Industry Training Organization. We provide various offshore training formats designed to encompass all learning styles through on-the-job, e-learning, customer-specific training, certifications, and leadership and licensing programs. Setting us apart from our competitors, we also offer unique simulation-based education, augmented by digital twin modeling, enabling our workforce to more accurately visualize equipment performance and target efficiencies. We clearly articulate to our workforce the certifications, skills and competencies needed for each role, and workers are required to successfully complete the relevant training and attain necessary certifications prior to taking on new roles.

Wellness and benefits—We offer our workforce regionally competitive medical and financial benefits, tailored to our workforce demographics. We design our wellness and benefits strategy under four pillars consisting of physical well-being, financial well-being, emotional well-being and social well-being, including our globally available employee assistance program.

Safety—Our safety vision is to conduct our operations in an incident-free workplace, all the time, everywhere. As a socially responsible company, we prioritize the protection of everyone aboard our rigs and in our facilities, the environment and our property at all work locations and during all operations. We require compliance with all local regulations and a comprehensive set of internal requirements that govern our operations. With regular competency and effectiveness assessments, our highly trained crews are equipped to protect our operational integrity with the process-driven management of hazards to prevent and mitigate major accidents. We measure our safety performance in terms of widely accepted ratios with the use of industry standards, including (a) the total recordable incident rate ("TRIR"), which represents the number of recordable work-related injuries or illnesses for every 200,000 hours worked, and (b) the lost time incident rate ("LTIR"), which measures the number of incidents that result in lost time due to work-related injuries or illnesses for every 200,000 hours worked. In the year ended December 31, 2023, our TRIR was 0.23 and our LTIR was 0.02, both calculations of which were based on 11.3 million labor hours.

ENVIRONMENTAL RESPONSIBILITY

We strive to deliver services in a manner that both minimizes the impact our business has on the environment and supports the interests of our stakeholders. We continuously seek new ways to advance our commitment to safely performing operations while simultaneously safeguarding the environment. We maintain a global Environmental Management System ("EMS") standard that is applied to our rigs, offices and facilities. The EMS is aligned to ISO 14001 and provides a framework to ensure that our worldwide operations are managed consistently and continuously in an environmentally responsible manner. We regularly assess the environmental impact of operations, focusing on the reduction of greenhouse gas emissions, operational discharges, water use and waste. Accordingly, we intend to reduce our greenhouse gas operating emissions intensity by 40 percent from 2019 levels by 2030. Achieving these targets will require investments over time that result in the development and implementation of new technologies, reduced fuel consumption and other initiatives that enable us to optimize power management capabilities.

TECHNOLOGICAL INNOVATION

We have a long history of technological innovation, including the first dynamically positioned drillship, the first rig to drill year-round in the North Sea, the first semisubmersible rig for year-round sub-Arctic operations, the first 10,000-ft. water depth rated ultra-deepwater drillship and numerous water depth world records over the past several decades. Twenty-three drillships and two semisubmersibles in our existing fleet are, and our drillship under construction will be, equipped with our patented dual-activity technology, which allows our rigs to perform simultaneous drilling tasks in a parallel rather than sequential manner, reducing well construction critical path activities and, thereby, improving efficiency in both exploration and development drilling.

We develop and deploy industry-leading technology in the pursuit of delivering safer, more efficient and environmentally responsible drilling services. Two of our drillships are equipped with 1,700 short ton hoisting capacity and 20,000 psi blowout preventers. Seven of our drillships and our drillship under construction include hybrid energy storage systems for enhanced drill floor equipment reliability, fuel and emissions savings as well as advanced generator protection for power plant reliability. Twelve drillships in our existing fleet are outfitted with dual blowout preventers and triple liquid mud systems. Five drillships in our existing fleet are designed to accept 20,000 psi blowout preventers in the future. We also continue to develop and invest in technologies designed to optimize our performance, deliver ever improving operational integrity and reduce our greenhouse gas emissions.

Seven of our harsh environment semisubmersibles are designed and constructed specifically to provide highly efficient performance in harsh environments. We have installed automated drilling control systems on six harsh environment floaters, which materially improves our ability to safely and efficiently deliver wells to our customers.

We utilize technology and employ a data-driven approach, augmented by the size of our fleet, to expand our knowledge framework for sustainable process optimization. In 2020, we deployed our smart equipment analytics tool, which delivers real-time data feeds from equipment to monitor equipment health, inferred emissions and energy consumption while identifying performance trends that allow us to systematically optimize equipment maintenance and achieve higher levels of reliability, operational efficiency and sustainability.

Driven by our continued focus on safety, we developed and, on eight of our drilling units, deployed our patented HaloGuardSM system, which alarms, notifies and, if required, halts equipment to avoid injury to personnel who move into danger zones. In 2022, we deployed the first unit of Enhanced Drilling's EC-Monitor system to an offshore installation, enabling highly accurate understanding of well fluid dynamics and improving the efficiency and accuracy of flow-checking and detecting flow anomalies. Additionally, since 2021, we deployed on two of our ultra-deepwater drillships the first kinetic blowout stopper, a step-changing technology that promotes operations integrity and enterprise risk reduction through unrivaled shearing capability. Since 2022, we deployed an offshore robotic riser bolting tool on three of our ultra-deepwater drillships, improving our ability to deliver safe and efficient operations to our customers.

We believe our efforts to continuously improve, and effectively use, innovative technologies to meet or exceed our customers' requirements is critical to maintaining our competitive position within the contract drilling services industry by ensuring the safety of our crews, drilling more efficient wells, building greater resilience into our critical operating systems and reducing fuel consumption and emissions.

JOINT VENTURE, AGENCY AND SPONSORSHIP RELATIONSHIPS AND OTHER INVESTMENTS

In some areas of the world, local customs and practice or governmental requirements necessitate the formation of joint ventures with local participation since local laws or customs in those areas effectively mandate the establishment of a relationship with a local agent or sponsor. When appropriate in these areas, we may enter into agency or sponsorship agreements. We also invest in certain companies for operational and strategic purposes. Some of these companies or joint ventures in which we are an investor are involved in researching and developing technology to improve efficiency, reliability, sustainability and safety for our drilling and other activities or are involved in businesses developed to support renewable or other energy alternatives. We may or may not control these partially owned companies. At December 31, 2023, we held partial ownership interests in companies organized in Belgium, the Cayman Islands, the U.S., Norway, Canada and other countries. At December 31, 2023, among other equity investments, we held noncontrolling equity ownership interests in (1) Global Sea Mineral Resources NV, an unconsolidated Belgian company and leading developer of nodule collection technology, which is engaged in the development and exploration of deep-sea polymetallic nodules that contain metals critical to the growing renewable energy market, and (2) Orion, an unconsolidated Cayman Islands exempted company that owns the harsh environment semisubmersible *Transocean Norge*.

GOVERNMENTAL REGULATIONS

Our operations are subject to a variety of international, national, regional, state and local government regulations, including environmental regulations. We monitor our compliance with such government regulations in each country of operation and, notwithstanding increases in governmental regulations, particularly general environmental regulations, we have made and will continue to make the required expenditures to comply with current and future government requirements. To date, we have not incurred material costs to comply with such governmental regulations, and we do not expect to make any material capital expenditures to support our continued compliance in the year ending December 31, 2024, or any other period contemplated at this time. We do not believe that our compliance with such requirements will have a material adverse effect on our competitive position, consolidated results of operations or cash flows. We incorporate by reference herein the disclosures on government regulations, including environmental regulations, contained in the following sections of this annual report:

- "Item 1A. Risk Factors—Risks related to our laws, regulations and governmental compliance;"
- "Item 3. Legal Proceedings;"
- "Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations—Other Matters;"
- "Part II. Item 8. Financial Statements and Supplementary Data—Notes to Consolidated Financial Statements—Note 11—Income Taxes;" and
- "Part II. Item 8. Financial Statements and Supplementary Data—Notes to Consolidated Financial Statements—Note 13—Commitments and Contingencies."

AVAILABLE INFORMATION

Our website address is www.deepwater.com. Information contained on or accessible from our website is not incorporated by reference into this annual report and should not be considered a part of this report or any filing that we make with the SEC. Furthermore, references to our website URLs are intended to be inactive textual references only. We make available on this website free of charge, our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports as soon as reasonably practicable after we electronically file those materials with, or furnish those materials to, the SEC. You may also find on our website information related to our corporate governance, board committees and company code of business conduct and ethics. The SEC also maintains a website, www.sec.gov, which contains reports, proxy statements and other information regarding SEC registrants, including

us. We intend to satisfy the requirement under Item 5.05 of Form 8-K to disclose any amendments to our Code of Integrity and any waiver from any provision of our Code of Integrity by posting such information in the Governance page on our website at www.deepwater.com.

ITEM 1A. RISK FACTORS

RISKS RELATED TO OUR BUSINESS

OUR BUSINESS DEPENDS ON THE LEVEL OF ACTIVITY IN THE OFFSHORE OIL AND GAS INDUSTRY, WHICH IS SIGNIFICANTLY AFFECTED BY VOLATILE OIL AND GAS PRICES AND OTHER FACTORS.

Our business depends on oil and gas exploration, development and production in offshore areas where we are capable of operating. Demand for our services depends on these activities and related expenditure levels that are directly affected by trends in oil and, to a lesser extent, natural gas prices. Oil and gas prices are extremely volatile and are affected by numerous factors, including the following:

- worldwide demand for oil and gas, including economic activity in the U.S., other large energy-consuming markets and in developing and emerging markets;
- the ability of the Organization of the Petroleum Exporting Countries ("OPEC") to set and maintain production levels, productive spare capacity and pricing among its members;
- the level of production in non-OPEC countries;
- inventory levels, and the cost and availability of storage and transportation of oil, gas and their related products;
- the policies, laws and regulations of various governments regarding exploration and development of their oil and gas reserves and environmental matters, including those addressing alternative energy sources and the risks of global climate change;
- international sanctions on oil-producing countries, or the lifting of such sanctions;
- advances in exploration, development and production technology;
- the development, exploitation and market acceptance of alternative energy sources;
- the further development of shale technology to exploit oil and gas reserves;
- the discovery rate of new oil and gas reserves and the rate of decline of existing oil and gas reserves;
- accidents, adverse weather conditions, natural disasters and other similar incidents relating to the oil and gas industry; and
- the worldwide security and political environment, including uncertainty or instability resulting from an escalation or outbreak of armed hostilities, civil unrest, acts of terrorism, public health threats or other crises.

Demand for our services is particularly sensitive to the level of exploration, development and production activity of, and the corresponding capital spending by, energy companies, including national energy companies. Prolonged reductions in oil and natural gas prices could depress the immediate levels of exploration, development and production activity. Perceptions of longer-term lower oil and natural gas prices by energy companies, or a perception that the demand for hydrocarbons will significantly decrease in the medium to long term, could similarly reduce or defer major expenditures given the long-term nature of many large-scale development projects and capital reinvestment policies. Lower levels of activity result in a corresponding decline in the demand for our services, which could have a material adverse effect on our revenue and profitability. Oil and gas prices and market expectations of potential changes in these prices significantly affect this level of activity. However, increases in near-term commodity prices do not necessarily translate into increased offshore drilling activity since customers' expectations of longer-term future commodity prices and expectations regarding future demand for hydrocarbons typically have a greater impact on demand for our rigs. Consistent with this dynamic, customers may delay or cancel many exploration and development programs, resulting in reduced demand for our services. Also, increased competition for customers' drilling budgets could come from, among other areas, land-based energy markets and renewable energy projects worldwide. The availability of quality drilling prospects, exploration success, relative production costs, the stage of reservoir development and political and regulatory environments also affect customers' drilling campaigns. Worldwide military, political and economic events have often contributed to oil and gas price volatility and are likely to do so in the future.

THE OFFSHORE DRILLING INDUSTRY IS HIGHLY COMPETITIVE AND CYCLICAL, WITH INTENSE PRICE COMPETITION.

The offshore contract drilling industry is highly competitive with numerous industry participants, none of which has a dominant market share. Drilling contracts are traditionally awarded on a competitive bid basis. Although rig availability, service quality and technical capability are drivers of customer contract awards, bid pricing and intense price competition are often key determinants for which a qualified contractor is awarded a job.

The offshore drilling industry is highly cyclical and is impacted by oil and natural gas price levels and volatility. Periods of high customer demand, limited rig supply and high dayrates have been followed by periods of low customer demand, excess rig supply and low dayrates. Changes in commodity prices can have a dramatic effect on rig demand, and periods of excess rig supply may intensify competition in the industry and result in the idling of older and less technologically advanced equipment. We have idled and stacked rigs, and may in the future idle or stack additional rigs or enter into lower dayrate drilling contracts in response to market conditions. Idled or stacked rigs may remain out of service for extended periods of time. During prior periods of high dayrates and rig utilization rates, we and other industry participants responded to increased customer demand by increasing the supply of rigs through ordering the construction of new units. The introduction of new units delivered without contracts, combined with an increased number of rigs in the global market completing contracts and becoming idle, may intensify price competition. During periods of low oil and natural gas price levels, new construction has resulted in an oversupply of rigs and has caused a subsequent decline in dayrates and rig utilization rates, sometimes for extended periods of time. In an oversupplied market, we may have limited bargaining power to negotiate on more favorable terms. Additionally, lower market dayrates

and intense price competition may drive customers to seek to renegotiate existing contracts to reduce dayrates in exchange for longer contract terms. Lower dayrates and rig utilization rates could adversely affect our revenues and profitability.

As of February 14, 2024, we have 13 uncontracted rigs, of which six have been out of service for greater than five years, and these rigs may remain out of service for extended periods of time. If we are unable to obtain drilling contracts for our uncontracted rigs, whether due to a prolonged offshore drilling market downturn, a delayed or muted recovery of such market or otherwise, it may have an adverse effect on our results of operations and cash flows.

WE MAY NOT BE ABLE TO RENEW OR OBTAIN NEW DRILLING CONTRACTS FOR RIGS WHOSE CONTRACTS ARE EXPIRING OR OBTAIN DRILLING CONTRACTS FOR OUR STACKED AND IDLE RIGS.

The offshore drilling markets in which we compete experience fluctuations in the demand for drilling services. Our ability to renew expiring drilling contracts or obtain new drilling contracts depends on the prevailing or expected market conditions. As of February 14, 2024, we have 13 stacked or idle rigs. We also have three existing drilling contracts for our rigs that are currently operating, which are scheduled to expire before December 31, 2024. We may be unable to obtain drilling contracts for our rigs that are currently operating upon the expiration or termination of such contracts, and there may be a gap in the operation of the rigs between the current contracts and subsequent contracts. When oil and natural gas prices are low or it is expected that such prices will decrease in the future, we may be unable to obtain drilling contracts at attractive dayrates or at all. We may not be able to obtain new drilling contracts with the terms or dayrates sufficient to support a reactivation of a cold-stacked rig. Likewise, we may not be able to obtain new drilling contracts in direct continuation with existing contracts, or depending on prevailing market conditions, we may enter into drilling contracts at dayrates substantially below the existing dayrates or on terms otherwise less favorable compared to existing contract terms, which may have an adverse effect on our financial position, results of operations or cash flows.

OUR CURRENT BACKLOG OF CONTRACT DRILLING REVENUES MAY NOT BE FULLY REALIZED.

At February 14, 2024, our contract backlog was approximately \$9.01 billion. This amount represents the maximum contractual operating dayrate multiplied by the number of days remaining in the firm contract period, excluding revenues for mobilization, demobilization, contract preparation, other incentive provisions or reimbursement revenues, which are not expected to be significant to our contract drilling revenues. Our contract backlog includes amounts associated with our one contracted newbuild unit that is currently under construction. The contractual operating dayrate may be higher than the actual dayrate we ultimately receive or an alternative contractual dayrate, such as waiting on weather rate, repair rate, standby rate or force majeure rate, may apply under certain circumstances. The contractual operating dayrate may also be higher than the actual dayrate we ultimately receive due to a number of factors, including rig downtime or suspension of operations. Several factors could cause rig downtime or a suspension of operations, including: equipment breakdowns and other unforeseen engineering problems, labor strikes and other work stoppages, shortages of material and skilled labor, surveys by government and maritime authorities, periodic classification surveys, severe weather or harsh operating conditions, and force majeure events.

In certain drilling contracts, the dayrate may be reduced to zero if, for example, repairs extend beyond a stated period of time. Our contract backlog includes only firm commitments, which are represented by signed drilling contracts or, in some cases, other definitive agreements awaiting contract execution. We may not be able to realize the full amount of our contract backlog due to events beyond our control. In addition, some of our customers have experienced liquidity issues in the past, including some recently, and these liquidity issues could be experienced again if commodity prices decline for an extended period of time. Liquidity issues and other market pressures could lead our customers to seek bankruptcy protection or to seek to repudiate, cancel or renegotiate these agreements for various reasons (see “—Our drilling contracts may be terminated due to a number of events, and, during depressed market conditions, our customers may seek to repudiate or renegotiate their contracts”). Our inability to realize the full amount of our contract backlog may have an adverse effect on our financial position, results of operations or cash flows.

WE MUST MAKE SUBSTANTIAL CAPITAL AND OPERATING EXPENDITURES TO REACTIVATE OUR STACKED OR IDLE FLEET AND TO MAINTAIN OUR ACTIVE FLEET, AND WE MAY BE REQUIRED TO MAKE SIGNIFICANT CAPITAL EXPENDITURES TO MAINTAIN OUR COMPETITIVENESS AND TO COMPLY WITH LAWS AND APPLICABLE REGULATIONS AND STANDARDS OF GOVERNMENTAL AUTHORITIES AND ORGANIZATIONS.

We must make substantial capital and operating expenditures to maintain our active fleet or to reactivate our stacked or idle fleet. These expenditures could increase as a result of changes in the cost of labor and materials, requirements of customers, the size of our fleet, the cost of replacement parts for existing rigs, the geographic location of the rigs and the length of drilling contracts. Changes in offshore drilling technology, customer requirements for new or upgraded equipment and competition within our industry may require us to make significant capital expenditures in order to maintain our competitiveness and to achieve our intention to reduce our greenhouse gas emission intensity. Changes in governmental regulations, including environmental requirements, and changes in safety or other equipment standards, as well as compliance with standards imposed by maritime self-regulatory organizations, may cause our capital expenditures to increase or require us to make additional unforeseen capital expenditures. As a result of these factors, we may be required to take our rigs out of service for extended periods of time, with corresponding losses of revenues, in order to make such alterations or to add such equipment. In the future, market conditions may not justify these expenditures or enable us to operate our older rigs profitably during the remainder of their economic lives.

If we are unable to fund capital expenditures with our cash flows from operations or proceeds from sales of non-strategic assets, we may be required to either incur additional borrowings or raise capital through the sale of debt or equity securities, or additional financing arrangements with banks or other capital providers. Our ability to access the capital markets may be limited by our financial condition at the time, perceptions of us or our industry, by changes in laws and regulations or interpretation thereof and by adverse market conditions resulting from, among other things, general economic conditions and contingencies and uncertainties that are beyond our control. If we raise funds by issuing equity securities or other securities that are convertible into equity securities, existing shareholders may experience dilution. Our failure to obtain the funds for necessary future capital expenditures could have a material adverse effect on our business and on our financial position, results of operations and cash flows.

OUR OPERATING AND MAINTENANCE COSTS WILL NOT NECESSARILY FLUCTUATE IN PROPORTION TO CHANGES IN OUR OPERATING REVENUES.

Our operating and maintenance costs will not necessarily fluctuate in proportion to changes in our operating revenues and are affected by many factors, including inflation. Costs for operating a rig are generally fixed or only semi-variable regardless of the dayrate being earned. To the extent a drilling contract provides for escalations attributable to inflation in our costs, those adjustments will lag the impact of inflationary pressures and may not reflect the full impact to us of any cost inflation. As drilling contracts with such provisions expire or are terminated, there can be no assurance that future drilling contracts will contain similar provisions, which may reduce our margins in inflationary environments. In addition, should our rigs incur unplanned downtime while on contract or idle time between drilling contracts, we will not always reduce the staff on those rigs because we could use the crew to prepare the rig for its next contract. During times of reduced activity, reductions in costs may not be immediate because portions of the crew may be required to prepare rigs for stacking, after which time the crew members may be reassigned to active rigs or released. As our rigs are mobilized from one geographic location to another, the labor and other operating and maintenance costs can vary significantly. In general, labor costs increase primarily due to higher salary levels and inflation. Equipment maintenance costs fluctuate depending upon the type of activity the unit is performing and the age and condition of the equipment, and these costs could increase for short or extended periods as a result of regulatory or customer requirements that raise maintenance standards above historical levels. The amount of contract preparation and reactivation costs vary based on the scope and length of the contract preparation or reactivation project, and the recognition of such costs varies depending on the duration of the firm contractual period and other contract terms.

Certain of our drilling contracts are partially payable in local currency. The amounts, if any, of local currency received under these drilling contracts may exceed our local currency needs to pay local operating and maintenance costs, leading to an accumulation of excess local currency balances, which, in certain instances, may be subject to either restrictions or other difficulties in converting to U.S. dollars, our functional currency, or to other currencies of the locations where we operate. Excess amounts of local currency may also be exposed to the risk of currency exchange losses.

CHANGING SENTIMENT TOWARDS CLIMATE CHANGE, FOSSIL FUELS AND OTHER ESG MATTERS COULD ADVERSELY AFFECT OUR BUSINESS, COST OF CAPITAL AND THE PRICE OF OUR STOCK AND OTHER SECURITIES.

Changing sentiment among the public, regulators and non-governmental organizations concerning fossil fuels has prompted efforts aimed in part at the investment community, including investment advisors, sovereign wealth funds, public pension funds, universities and other groups, to discourage initial investments in and promote the divestment of shares of energy companies, as well as to pressure lenders and other financial services companies to limit or curtail activities with certain energy companies. If such efforts are successful, the market price of our shares and our ability to access capital markets may be negatively impacted.

Members of the investment community are also increasing their focus on environmental, social and governance ("ESG") practices and disclosures, including those related to greenhouse gas emissions and climate change, in the energy industry in particular, and diversity and inclusion among public companies more generally. We may be subject in the future to additional reporting requirements that are developing in response to such increased focus and, as a result, we may face increasing pressure regarding our ESG disclosures and practices.

Additionally, members of the investment community may screen companies such as ours for ESG sustainability performance before investing in our stock. As a result, there has been a proliferation of ESG focused investment funds seeking ESG oriented investment products. If we or our securities are unable to meet the sustainability ESG standards or investment criteria set by these investors and funds, we may lose investors or investors may allocate a portion of their capital away from us. As a result, our cost of capital may increase, the market price of our shares or of our publicly traded debt securities may be negatively impacted and our reputation may also be negatively affected.

PUBLIC HEALTH THREATS HAVE HAD, AND MAY CONTINUE TO HAVE, SIGNIFICANT ADVERSE CONSEQUENCES FOR GENERAL ECONOMIC, FINANCIAL AND BUSINESS CONDITIONS, AS WELL AS FOR OUR BUSINESS AND OPERATIONS.

Public health threats, including pandemics and epidemics, severe influenza, coronaviruses and other highly communicable viruses or diseases, have impacted and may continue to impact our operations directly or indirectly, including by disrupting the operations of our business partners, suppliers and customers in ways that adversely impact our operations. Such impacts may include, among others:

- causing a temporary shut-down of operations in case of an outbreak on one or more of our rigs;

- disrupting or restricting the ability of our suppliers, manufacturers and service providers to supply parts, equipment labor or services in the jurisdictions in which we operate or conduct shipyard activities including newbuild construction;
- causing us to incur increased costs, inefficiencies, and labor shortages as a result of precautionary measures taken to counteract a potential or actual outbreak, including testing and quarantining of offshore personnel; and
- being negatively affected by various actions by governmental authorities around the world designed to prevent or reduce the spread of an outbreak, such as imposing mandatory closures of all business facilities deemed to be non-essential, seeking voluntary closures of such facilities and imposing restrictions on, or issuing advisories with respect to, travel, business operations and public gatherings or interactions.

As a result, we may experience significant adverse consequences in our ability to meet our commitments to customers, including due to increased operating costs and increased risk of rig downtime or contract termination, which may result in substantial adverse consequences for our business and results of operations. In addition, public health threats may result in significantly reduced global or regional economic activity, which could result in a sharp reduction in the demand for oil and an associated decline in oil prices, as occurred during 2020. Such conditions may result in, reductions to our customers' drilling and production expenditures and delays or cancellations of projects, which may cause a decrease in demand for our services and an increase in the risk that our customers may seek to terminate or renegotiate pricing or other terms for our existing contracts or that more of our rigs may become idle, stacked or retired from our fleet.

The magnitude and duration of potential social, economic and labor instability resulting from such public health threats, including the speed at which national economies can recover, or whether any recovery will ultimately experience a reversal or other setbacks, are uncertain and cannot be estimated as such effects depend on future events that would be largely out of our control.

WE RELY HEAVILY ON A RELATIVELY SMALL NUMBER OF CUSTOMERS AND THE LOSS OF A SIGNIFICANT CUSTOMER OR A DISPUTE THAT LEADS TO THE LOSS OF A CUSTOMER COULD HAVE AN ADVERSE EFFECT ON OUR BUSINESS.

We engage in offshore drilling services for most of the leading integrated energy companies or their affiliates, as well as for many government-owned or government-controlled energy companies and other independent energy companies. For the year ended December 31, 2023, our most significant customers were Shell, Equinor, TotalEnergies and Petrobras, representing approximately 27 percent, 16 percent, 12 percent and 11 percent, respectively, of our consolidated operating revenues. As of February 14, 2024, the customers with the most significant aggregate amount of contract backlog associated with our drilling contracts were Petrobras, Shell and Chevron, representing approximately 31 percent, 25 percent and 10 percent, respectively, of our total contract backlog. The loss of any of these customers or another significant customer, or a decline in payments under any of our drilling contracts, could, at least in the short term, have an adverse effect on our business.

OUR BUSINESS INVOLVES NUMEROUS OPERATING HAZARDS, AND OUR INSURANCE AND INDEMNITIES FROM OUR CUSTOMERS MAY NOT BE ADEQUATE TO COVER POTENTIAL LOSSES FROM OUR OPERATIONS.

Our operations are subject to the usual hazards inherent in the drilling of oil and gas wells, such as, blowouts, reservoir damage, loss of production, loss of well control, lost or stuck drill strings, equipment defects, craterings, fires, explosions and pollution. Contract drilling requires the use of heavy equipment and exposure to hazardous conditions, which may subject us to liability claims by employees, customers and other parties. These hazards can cause personal injury or loss of life, severe damage to or destruction of property and equipment, pollution or environmental or natural resource damage, claims by third parties or customers and suspension of operations. Our offshore fleet is also subject to hazards inherent in marine operations, either while on site or during mobilization, such as capsizing, sinking, grounding, collision, piracy, damage from severe weather and marine life infestations.

The U.S. Gulf of Mexico, the South China Sea and the Northwest Coast of Australia are areas subject to typhoons, hurricanes or other extreme weather conditions on a relatively frequent basis, and our drilling rigs in these regions may be exposed to damage or total loss by these storms, some of which may not be covered by insurance. The occurrence of these events could result in the suspension of drilling operations, damage to or destruction of the equipment involved and injury to or death of rig personnel. Some experts believe global climate change could increase the frequency and severity of these extreme weather conditions. Operations may also be suspended because of machinery breakdowns, abnormal drilling conditions, failure of subcontractors to perform or supply goods or services, or personnel shortages. We customarily provide contract indemnity to our customers for certain claims that could be asserted by us relating to damage to or loss of our equipment, including rigs, and claims that could be asserted by us or our employees relating to personal injury or loss of life.

Damage to the environment or natural resources could also result from our operations, particularly through spillage of hydrocarbons, fuel, lubricants or other chemicals and substances used in drilling operations, or extensive uncontrolled fires. We may also be subject to property damage, environmental indemnity and other claims by energy companies or other third parties. Drilling involves certain risks associated with the loss of control of a well, such as blowout, cratering, the cost to regain control of or redrill the well and remediation of associated pollution. Our customers may be unable or unwilling to indemnify us against such risks. In addition, a court may decide that certain indemnities in our current or future drilling contracts are not enforceable. The law generally considers contractual indemnity for criminal fines and penalties to be against public policy, and the enforceability of an indemnity as to other matters may be limited.

Our insurance policies and drilling contracts contain rights to indemnity that may not adequately cover our losses, and we do not have insurance coverage or rights to indemnity for all risks. We have two main types of insurance coverage: (1) hull and machinery coverage for physical damage to our property and equipment and (2) excess liability coverage, which generally covers offshore risks, such as personal injury, third-party property claims, and third-party non-crew claims, including wreck removal and pollution. We generally have no hull and machinery insurance coverage for damages caused by named storms in the U.S. Gulf of Mexico. We maintain per occurrence deductibles

that generally range up to \$10 million for various third-party liabilities, and we self-insure \$50 million of the \$750 million excess liability coverage through our wholly owned captive insurance company. We also retain the risk for any liability that exceeds our excess liability coverage. However, pollution and environmental risks generally are not completely insurable.

If a significant accident or other event occurs that is not fully covered by our insurance or by an enforceable or recoverable indemnity, the occurrence could adversely affect our financial position, results of operations or cash flows. The amount of our insurance may also be less than the related impact on enterprise value after a loss. Our insurance coverage will not in all situations provide sufficient funds to protect us from all liabilities that could result from our drilling operations. Our coverage includes annual aggregate policy limits. As a result, we generally retain the risk for any losses in excess of these limits. We generally do not carry insurance for loss of revenue, and certain other claims may also not be reimbursed by insurance carriers. Any such lack of reimbursement may cause us to incur substantial costs. In addition, we could decide to retain more risk in the future, resulting in higher risk of losses, which could be material. Moreover, we may not be able to maintain adequate insurance in the future at rates that we consider reasonable or be able to obtain insurance against certain risks.

OUR DRILLING CONTRACTS MAY BE TERMINATED DUE TO A NUMBER OF EVENTS, AND, DURING DEPRESSED MARKET CONDITIONS, OUR CUSTOMERS MAY SEEK TO REPUDIATE OR RENEGOTIATE THEIR CONTRACTS.

Certain of our drilling contracts with customers may be cancelable at the option of the customer upon payment of an early termination payment. Such payments may not, however, fully compensate us for the loss of the contract. In the third quarter of 2023, as the most recent example, *Development Driller III* concluded the activities contemplated in its drilling contract prior to the end of the contract's term that was previously expected early in the fourth quarter of 2023. The termination payment associated with the drilling contract would not fully compensate us for the early termination of the contract. Drilling contracts also customarily provide for either automatic termination or termination at the option of the customer, typically without the payment of any termination fee, under various circumstances such as non-performance, as a result of significant downtime or impaired performance caused by equipment or operational issues, or sustained periods of downtime due to force majeure events, many of which are beyond our control. Certain customers who seek to terminate our drilling contracts may attempt to defeat or circumvent our protections against certain liabilities. Our customers' ability to perform their obligations under their drilling contracts, including their ability to fulfill their indemnity obligations to us, may also be negatively impacted by an economic downturn. Our customers, which include national energy companies, often have significant bargaining leverage over us. If our customers cancel some of our contracts, and we are unable to secure new contracts on a timely basis and on substantially similar terms, or if contracts are suspended for an extended period of time or if a number of our contracts are renegotiated on terms that are not as favorable as current terms, it could adversely affect our financial position, results of operations or cash flows.

During periods of depressed market conditions, such as we have recently experienced, we are subject to an increased counterparty risk, as our customers may seek to repudiate their contracts, including through claims of non-performance in order to reduce their capital expenditures. Our customers may no longer need a drilling rig that is currently under contract or may be able to obtain a comparable drilling rig at a lower dayrate. We have experienced, and are at continued risk of experiencing, early contract terminations when there is a weak commodity price environment. The ability of each of our counterparties to perform its obligations under a contract with us, including indemnity obligations, will depend on a number of factors that are beyond our control and may include, among other things, general economic conditions, the condition of the offshore drilling industry, prevailing prices for oil and natural gas, the overall financial condition of the counterparty, the dayrates received and the level of expenditures necessary to maintain drilling activities. Should a counterparty fail to honor its obligations under an agreement with us, we could sustain losses, which could have an adverse effect on our business and on our financial position, results of operations or cash flows.

FAILURE TO RECRUIT AND RETAIN PERSONNEL COULD HURT OUR OPERATIONS.

We depend on the continuing efforts of key members of our management, as well as other highly skilled personnel, to operate and provide technical services and support for our business worldwide. Historically, competition for the personnel required for drilling operations has intensified as the number of rigs activated, added to worldwide fleets or under construction increased, leading to shortages of qualified personnel in the industry and creating upward pressure on wages and higher turnover. We may experience a reduction in the experience level of our personnel as a result of any increased turnover, which could lead to higher downtime and more operating incidents, which in turn could decrease revenues and increase costs. If increased competition for qualified personnel were to intensify in the future we may experience increases in costs or limits on operations.

OUR LABOR COSTS AND THE OPERATING RESTRICTIONS UNDER WHICH WE OPERATE COULD INCREASE AS A RESULT OF COLLECTIVE BARGAINING NEGOTIATIONS AND ADDITIONAL UNIONIZATION EFFORTS.

As of December 31, 2023, approximately 42 percent of our total workforce, working primarily in Norway and Brazil, are represented by, and some of our contracted labor work is subject to, collective bargaining agreements, substantially all of which are subject to annual salary negotiation. Negotiations over annual salary or other labor matters could result in higher personnel or other costs or increased operational restrictions or disruptions. The outcome of any such negotiation generally affects the market for all offshore employees, not only the union members. A failure to reach an agreement on certain key issues could result in strikes, lockouts, or other work stoppages. Legislation has been introduced in the U.S. Congress that could encourage additional unionization efforts in the U.S., as well as increase the chances that such efforts succeed. Additional unionization efforts, if successful, new collective bargaining agreements or work stoppages could materially increase our labor costs and operating restrictions.

OUR SHIPYARD PROJECTS AND OPERATIONS ARE SUBJECT TO DELAYS AND COST OVERRUNS.

We have a variety of shipyard projects underway, at any given time, for our existing rigs at any given time, and as of February 14, 2024, we were constructing one ultra-deepwater drillship. These shipyard projects are subject to the risks of delays or cost overruns inherent in any such complex projects resulting from numerous factors, including the following:

- shipyard availability, failures and difficulties;
- shortages of equipment, materials or skilled labor;
- failure or delayed deliveries of significant materials or equipment for various reasons, including due to supplier shortages, constraints, disruption or quality issues;
- design and engineering problems, including those relating to the commissioning of newly designed equipment;
- latent damages or deterioration to hull, equipment and machinery in excess of engineering estimates and assumptions;
- unanticipated actual or purported change orders;
- disputes with shipyards and suppliers;
- availability of suppliers to recertify equipment for enhanced regulations;
- strikes, labor disputes and work stoppages;
- customer acceptance delays or delays in providing customer-supplied engineering, approvals or equipment;
- adverse weather conditions, including damage caused by such conditions;
- terrorist acts, war, piracy and civil unrest;
- complications arising from pandemics and epidemics, such as severe influenza, coronaviruses and other highly communicable viruses or diseases, and associated government orders in the country where the rigs are being constructed or serviced and elsewhere;
- unanticipated cost increases; and
- difficulties in obtaining necessary permits or approvals or in completing necessary importation procedures.

These factors may contribute to cost variations and delays in the delivery of rigs undergoing shipyard projects or any future newbuild units. Cost variations may result in, among other things, disputes with the shipyards that construct or service our drilling units. In addition, delayed delivery of our newbuild units or other rigs undergoing shipyard projects would impact contract commencement, resulting in a loss of revenues we could earn, and may also cause customers to terminate or shorten the term of the drilling contract for the rig pursuant to applicable late delivery clauses. In the event of termination of any of these drilling contracts, we may not be able to secure a replacement contract on as favorable terms, if at all.

Our operations rely on a significant supply of capital and consumable spare parts and equipment to maintain and repair our fleet. We also rely on the supply of ancillary services, including supply boats and helicopters. Our reliance on our suppliers, manufacturers and service providers to secure equipment, parts, components and sub-systems used in our operations exposes us to volatility in the quality, prices and availability of such items. Certain parts and equipment that we use in our operations may be available only from a small number of suppliers, manufacturers or service providers, or in some cases must be sourced through a single supplier, manufacturer or service provider. Some parts and equipment require long lead times to obtain, and an unplanned failure or other need to replace any such parts and equipment may result in a longer than usual time to obtain them or require us to pay higher costs to obtain them on an expedited basis. A disruption in the deliveries from our suppliers, manufacturers or service providers, capacity constraints, production disruptions, price increases, quality control issues, recalls or other decreased availability of parts and equipment or ancillary services could adversely affect our ability to meet our commitments to customers, adversely impact our operations, increase our operating costs and result in increases in rig downtime and delays in the repair and maintenance of our fleet.

AS PART OF OUR BUSINESS STRATEGIES, WE MAY PURSUE OPPORTUNITIES TO STRENGTHEN AND BROADEN OUR BUSINESS THAT INCLUDE ACQUISITIONS OF BUSINESSES OR DRILLING RIGS, MERGERS OR JOINT VENTURES OR OTHER INVESTMENTS, AND SUCH TRANSACTIONS WOULD PRESENT VARIOUS RISKS AND UNCERTAINTIES.

We may pursue transactions that involve the acquisition of businesses or assets, mergers or joint ventures or other investments that we believe will enable us to further strengthen or broaden our business. Any such transaction would be evaluated on a case-by-case basis, and the consummation thereof would be dependent upon several factors, including identifying suitable companies, businesses or assets that align with our business strategies, reaching agreement with the potential counterparties on acceptable terms, the receipt of any applicable regulatory and other approvals, and other conditions. These transactions involve various risks, including among others, (i) difficulties related to integrating or managing applicable parts of an acquired business or joint venture and unanticipated changes in customer and other third-party relationships subsequent to closing, (ii) diversion of management's attention from day-to-day operations, (iii) failure to realize anticipated benefits, such as cost savings, revenue enhancements or strengthening or broadening our business, (iv) potentially substantial transaction costs associated with acquisitions, joint ventures or investments if we or a transaction counterparty seeks to exit or terminate an interest in the joint venture or investment, and (v) potential accounting impairment or actual diminution or loss of value of our investment if future market, business or other conditions ultimately differ from our assumptions at the time of such transaction is consummated.

FAILURE TO EFFECTIVELY AND TIMELY ADDRESS THE TRANSITION TO RENEWABLE OR OTHER ALTERNATIVE ENERGY SOURCES, OR TO RESPOND TO OTHER CLIMATE RELATED BUSINESS TRENDS, COULD ADVERSELY AFFECT OUR BUSINESS, RESULTS OF OPERATIONS AND CASH FLOWS.

Our long-term success will be impacted by our ability to effectively address the transition to renewable and other alternative energy sources, and our ability to respond to other climate-related business trends that could adversely impact the long-term demand for oil and

natural gas and, ultimately, the demand for our services and products from our services. Addressing increased focus on the development of additional alternative energy sources and other climate-related business trends has required and will further require adapting certain parts of our operations to changing government requirements and customer preferences.

We continue to engage with existing and potential customers and suppliers to develop or implement solutions designed to reduce or decarbonize oil and gas operations, or to advance renewable and other alternative energy sources. Nonetheless, as it is not possible at this time to predict the timing, scope and effect of the development of and transition to renewable or other alternative energy sources, any such developments, such as the declining cost of renewable energy generation technologies, could adversely impact the long-term global demand for oil and natural gas and, ultimately, the demand for our services and products from our services. If the transition to alternative energy sources or other climate-related trends change faster than anticipated or develop in a manner that we do not anticipate, our business, results of operations and cash flows could be adversely affected. If we do not or are perceived to not effectively implement a strategy that incorporates alternative energy sources, or if investors or financial institutions shift funding away from companies in fossil fuel-related industries, our access to capital or the market for our securities could be negatively impacted.

OUR ASPIRATIONS, GOALS, COMMITMENT TARGETS AND INITIATIVES RELATED TO SUSTAINABILITY, INCLUDING EMISSIONS REDUCTION, AND OUR PUBLIC STATEMENTS AND DISCLOSURES REGARDING THEM, EXPOSE US TO NUMEROUS RISKS.

We have developed, and will continue to develop and set, goals, targets, and other objectives related to sustainability matters, including our commitment target to reduce greenhouse gas emissions operating intensity. Statements related to these goals, commitment targets and objectives reflect our current intentions and do not constitute a guarantee that they will be achieved. Our efforts to research, establish, accomplish, and accurately report on these goals, commitment targets, and other objectives expose us to numerous operational, reputational, financial, legal, and other risks. Our ability to achieve any stated goal, commitment target, or objective, including with respect to emissions intensity reduction, is subject to numerous factors and conditions, many of which are outside of our control.

Our business may face increased scrutiny from investors and other stakeholders related to our sustainability activities, including the goals, commitment targets, and other objectives that we announce, and our methodologies and timelines for pursuing them. If our sustainability assumptions or practices do not meet investor or other stakeholder expectations and standards, which continue to evolve, our reputation, our ability to attract or retain employees, and our attractiveness as an investment or business partner could be negatively affected. Similarly, our failure or perceived failure to pursue or fulfill our sustainability-focused goals, targets, and objectives, to comply with ethical, environmental, or other standards, regulations, or expectations, or to satisfy various reporting standards with respect to these matters, within the timelines we announce, or at all, could adversely affect our business or reputation, as well as expose us to government enforcement actions and private litigation.

RISKS RELATED TO OUR INDEBTEDNESS

WE HAVE A SUBSTANTIAL AMOUNT OF DEBT, INCLUDING SECURED DEBT, AND WE MAY LOSE THE ABILITY TO OBTAIN FUTURE FINANCING AND SUFFER COMPETITIVE DISADVANTAGES.

At December 31, 2023, our total debt was \$7.41 billion, of which \$2.34 billion was secured. We have a bank credit agreement (as amended, the "Secured Credit Facility"), which is currently undrawn, the borrowings under which would be secured and guaranteed by certain of our subsidiaries. This substantial level of debt and other obligations could have significant adverse consequences on our business and future prospects, including the following:

- we may be unable to obtain financing in the future to refinance our existing debt or for working capital, capital expenditures, acquisitions, debt service requirements, distributions, share repurchases, or other purposes;
- we may be unable to use operating cash flows in other areas of our business because we must dedicate a substantial portion of these funds to service the debt;
- we could become more vulnerable to general adverse economic and industry conditions, including increases in interest rates, particularly given our substantial indebtedness, some of which bears interest at variable rates;
- we may be unable to meet financial ratios in the agreements governing certain of our debt facilities and finance lease or satisfy certain other covenants and conditions included in our debt agreements, which could result in our inability to meet requirements for borrowings under the Secured Credit Facility or a default under such agreements, impose restrictions with respect to our access to certain of our capital, and trigger cross default provisions in our other debt instruments;
- if we default under the terms of our secured financing arrangements, the secured debtholders may, among other things, foreclose on the collateral securing the debt, including the applicable drilling units;
- we may be unable to obtain new investment or financing given recent ESG-influenced trends among many financial intermediaries, investors and other capital markets participants in reducing, or ceasing, lending to, or investing in, companies that operate in industries with higher perceived environmental exposure; and
- we may be less able to take advantage of significant business opportunities and to react to changes in market or industry conditions than our less levered competitors.

See "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Sources and uses of liquidity."

CREDIT RATING AGENCIES HAVE RATED OUR DEBT BELOW INVESTMENT GRADE, WHICH COULD LIMIT OUR ACCESS TO CAPITAL AND HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND FINANCIAL CONDITION.

The ratings assigned to our debt securities by certain credit rating agencies (our “Debt Ratings”) are below investment grade. Our Debt Ratings could have adverse consequences for our business and future prospects and could cause the following:

- limitations on our ability to access debt markets, including for the purpose of refinancing our existing debt and replacing or extending our Secured Credit Facility;
- less favorable terms and conditions on any refinancing arrangements, debt issuances or bank credit agreements, some of which could require collateral and restrict, among other things, our ability to pay distributions or repurchase shares;
- increases to certain fees under our Secured Credit Facility and interest rates under the indentures governing certain of our senior notes;
- reduced willingness of current and prospective customers, suppliers and creditors to transact business with us;
- requirements from creditors, suppliers or customers for additional insurance, guarantees and collateral;
- limitations on our access to bank and third-party guarantees, surety bonds and letters of credit; and
- reductions to or eliminations of the level of credit suppliers and financial institutions may provide through payment terms or intraday funding when dealing with us thereby increasing the need for higher levels of cash on hand, which would decrease our ability to repay debt balances.

Our Debt Ratings have caused some of the effects listed above, and any further downgrades may cause or exacerbate, any of the effects listed above and could have an adverse effect on our business and financial condition.

WORLDWIDE FINANCIAL, ECONOMIC AND POLITICAL CONDITIONS COULD RESTRICT OUR ABILITY TO ACCESS THE CAPITAL MARKETS, REDUCE OUR FLEXIBILITY TO REACT TO CHANGING ECONOMIC AND BUSINESS CONDITIONS AND REDUCE DEMAND FOR OUR SERVICES.

Worldwide financial and economic conditions could restrict our ability to access the capital markets at a time when we would like, or need, to access such markets, which could have an impact on our flexibility to react to changing economic and business conditions. Worldwide economic conditions have in the past impacted, and could in the future impact, the lenders participating in our credit facilities and our customers, causing them to fail to meet their obligations to us. If economic conditions preclude or limit financing from banking institutions participating in our credit facilities, we may not be able to obtain similar financing from other institutions. A slowdown in economic activity could reduce worldwide demand for energy and reverse or worsen the recovery from low oil and natural gas prices. These potential developments, or market perceptions concerning these and related issues, could adversely affect our financial position, results of operations or cash flows. In addition, turmoil and hostilities in the Middle East, Eastern Europe, North Africa and other geographic areas and countries present incremental risk. An extended period of negative outlook for the world economy could further reduce the overall demand for oil and natural gas and for our services. A further decline in oil and natural gas prices or an extension of the current low oil and natural gas prices could reduce demand for our drilling services and have an adverse effect on our financial position, results of operations or cash flows.

RISKS RELATED TO LAWS, REGULATIONS AND GOVERNMENTAL COMPLIANCE

IMPACT OF INCREASINGLY STRINGENT ENVIRONMENTAL AND SAFETY LAWS AND OUR COMPLIANCE WITH OR BREACH OF SUCH LAWS CAN BE COSTLY, EXPOSE US TO LIABILITY AND COULD LIMIT OUR OPERATIONS.

Our business is affected by laws and regulations relating to the energy industry and the environment and safety, including international conventions and treaties, and regional, national, state, and local laws and regulations. Our business also depends on demand for services from the oil and gas exploration and production industry, and, accordingly, we are directly affected by the adoption of laws and regulations that, for economic, environmental or other policy reasons, curtail, delay or impose additional compliance costs and obligations related to the exploration and development drilling for oil and gas. Offshore drilling in certain areas has been curtailed and, in certain cases, prohibited because of environmental or safety concerns. In addition, compliance with environmental and safety laws, regulations and standards, where applicable, may require us to make significant capital expenditures, such as the installation of costly equipment or implementation of operational changes, and may affect the resale values or useful lives of our rigs. We may also incur additional costs in order to comply with other existing and future regulatory obligations or industry standards, including, but not limited to, costs relating to air emissions, including greenhouse gases, the management of ballast waters, maintenance and inspection, development and implementation of emergency procedures and maintenance of insurance coverage or other financial assurance of our ability to address pollution incidents. In the last decade, enhanced governmental safety and environmental requirements applicable to our operations were adopted by U.S. federal agencies for drilling in the U.S. Gulf of Mexico. These requirements have caused increased compliance costs and may in the future increase the risk of environmental or safety enforcement cases and litigation and cause operators to have difficulties obtaining drilling permits in the U.S. Gulf of Mexico. The Bureau of Ocean Energy Management (the “BOEM”) has also proposed changes regarding when oil, gas and sulfur lessees and certain other parties operating in the offshore Outer Continental Shelf must post additional bonds or other supplemental financial assurance, which could, if finalized, increase bonding requirements for some of our customers.

The oil and gas industry has adopted equipment and operating standards, such as the American Petroleum Institute Standard 53, related to the installation and testing of well control equipment. A failure to comply with applicable laws and regulations may result in administrative and civil penalties, criminal sanctions or the suspension or termination of our operations. Additionally, our customers may elect to voluntarily comply with any non-mandatory laws, regulations or other standards. Any such safety, environmental and other regulatory restrictions or standards, including voluntary customer compliance with respect thereto, could decrease, disrupt or delay operations, decrease demand for offshore drilling services, increase operating costs and compliance costs or penalties, increase out-of-service time,

decrease dayrates, or reduce the area of operations for drilling rigs in the U.S. and non-U.S. offshore areas. Any such effects could have an adverse effect on our financial position, results of operations or cash flows.

To the extent new laws are enacted, existing laws are changed or other governmental actions are taken that prohibit or restrict offshore drilling or impose additional environmental protection and safety requirements that result in increased costs to the oil and gas industry, in general, or the offshore drilling industry, in particular, our business or prospects could be materially and adversely affected. The operation of our drilling rigs will require certain governmental approvals, some of which may involve public hearings and costly undertakings on our part. We may not obtain such approvals or such approvals may not be obtained in a timely manner. If we fail to timely secure the necessary governmental approvals or permits, our customers may have the right to terminate or seek to renegotiate their drilling contracts to our detriment. The amendment or modification of existing laws and regulations or the adoption of new laws and regulations curtailing or further regulating exploratory or development drilling or production of oil and gas and compliance with any such new or amended legislation or regulations could have an adverse effect on our business or on our financial position, results of operations or cash flows.

As a contract driller with operations in certain offshore areas, we may be liable for damages and costs incurred in connection with oil spills or disposal of wastes related to those operations, and we may also be subject to significant fines and other liabilities in connection with spills. For example, an oil spill could result in significant liability, including fines, penalties and criminal liability and remediation, restoration or compensation costs for environmental or natural resource damages, as well as third-party damages, to the extent that the contractual indemnification provisions in our drilling contracts are not enforceable or otherwise sufficient, or if our customers are unwilling or unable to contractually indemnify us against these risks. Additionally, we may not be able to obtain such indemnities in our future drilling contracts, and our customers may not have the financial capability to fulfill their contractual obligations to us. Also, these indemnities may be held to be unenforceable in certain jurisdictions, as a result of public policy or for other reasons. See “—Our business involves numerous operating hazards, and our insurance and indemnities from our customers may not be adequate to cover potential losses from our operations.”

Environmental and safety laws and regulations protecting the environment have become increasingly stringent and may in some cases impose strict liability on facility or vessel owners or operators, rendering a person liable for environmental damage without regard to negligence. These laws and regulations may expose us to liability for the conduct of, or conditions caused by, others or for acts that were in compliance with all applicable laws at the time they were performed. The application of these requirements or the adoption of new requirements or measures could have an adverse effect on our financial position, results of operations or cash flows.

REGULATORY AND VARIOUS OTHER RISKS, INCLUDING LITIGATION, ASSOCIATED WITH GREENHOUSE GAS EMISSIONS, OTHER EMISSIONS AND CLIMATE CHANGE COULD HAVE AN ADVERSE IMPACT ON OUR BUSINESS AND DEMAND FOR OUR SERVICES.

Scientific studies have suggested that emissions of certain gases, including greenhouse gases, such as carbon dioxide and methane, contribute to warming of the earth's atmosphere and other climatic changes. In response to such studies, the issue of climate change and the effect of greenhouse gas emissions, in particular emissions from the fossil fuel industry, has attracted and continues to attract considerable political and social attention worldwide. The attention to climate change has led, and we expect it to continue to lead, to additional regulations designed to reduce greenhouse gas emissions domestically and internationally. In August 2022, for example, the U.S. enacted the Inflation Reduction Act of 2022, which contains hundreds of billions of dollars in incentives for the development of renewable energy, clean hydrogen, clean fuels, electric vehicles and supporting infrastructure and carbon capture and sequestration, amongst other provisions. Additionally, at the United Nations Climate Change Conference in the United Arab Emirates in December 2023, more than 190 governments reached a non-binding agreement to transition away from fossil fuels and encourage the growth and expansion of renewable energy. Such attention could also result in other adverse impacts for the oil and gas industry, including further restrictions or bans imposed by lawmakers, lawsuits by governments or third-parties seeking recoveries for damages resulting from the combustion of fuels that may contribute to climate change effects, decreased demand for goods and services that produce significant greenhouse gas emissions, or reduced interest from investors if they elect in the future to shift some or all of their investments to non-fossil fuel related sectors. To the extent financial markets view climate change and greenhouse emissions as a financial risk, this could negatively impact our cost of or access to capital. Because our business depends on the level of activity in the oil and gas industry, existing or future laws, regulations, treaties or international agreements related to greenhouse gases and climate change, or related political, litigation or financial risks, including incentives to conserve energy or use alternative energy sources, could have a negative impact on our business if such laws, regulations, treaties or international agreements reduce the worldwide demand for oil and gas or limit drilling opportunities. In addition, such laws, regulations, treaties or international agreements or related risks could result in increased compliance costs or additional operating restrictions, which may have an adverse effect on our business. Further, some experts believe global climate change could increase the frequency and severity of extreme weather conditions, the impacts of which could interfere with our operations, cause damage to our equipment as well as cause other financial and operational impacts, including those that could result from any impact of such conditions on our customers.

We could also face increased climate-related litigation with respect to our operations both in the U.S. and around the world. Governmental and other entities in various U.S. states, such as California and New York, have filed lawsuits against coal, gas oil and petroleum companies. These suits allege damages as a result of climate change, and the plaintiffs are seeking unspecified damages and abatement under various tort theories. Similar lawsuits may be filed in other jurisdictions both in the U.S. and globally. Though we are not currently a party to any such lawsuit, these suits present a high degree of uncertainty regarding the extent to which energy companies,

including offshore drillers, face an increased risk of liability stemming from climate change, which risk would also adversely impact the oil and gas industry and impact demand for our services.

ANY RESTRICTIONS ON OIL AND NATURAL GAS OPERATIONS ON THE U.S. OUTER CONTINENTAL SHELF (“OCS”) COULD HAVE AN ADVERSE IMPACT ON OUR BUSINESS AND DEMAND FOR OUR SERVICES.

The U.S. Department of the Interior (“DOI”) administers the submerged lands, subsoil, and seabed, lying between the seaward extent of the states’ jurisdiction and the seaward extent of federal jurisdiction, and the U.S. government has the power to limit oil and gas activities on this area, known as the OCS. Under the Outer Continental Shelf Lands Act, as amended, the BOEM within the DOI must prepare and maintain forward-looking five-year plans—referred to as national programs or five-year programs—to schedule proposed oil and gas lease sales on the OCS. On July 1, 2022, BOEM announced the availability of the Proposed Program for the 2023-2028 timeframe for public comments. The Proposed Program includes no more than ten potential lease sales in the U.S. Gulf of Mexico. Inclusion of an area in the Proposed Program is not a final indication that it will be included in the approved 2023-2028 National OCS Program or offered in a lease sale. In addition, the U.S. previously placed a moratorium on new oil and natural gas leases on federal lands and waters, including the federal OCS. Future actions taken by the U.S. to limit the availability of new oil and gas leases on the OSC would adversely impact the offshore oil and gas industry and impact demand for our services.

THE GLOBAL NATURE OF OUR OPERATIONS INVOLVES ADDITIONAL RISKS.

We operate in various regions throughout the world, which may expose us to political and other uncertainties, including risks of:

- terrorist acts, war, piracy and civil unrest;
- seizure, expropriation or nationalization of our equipment or of our customers’ property;
- customs delays or disputes;
- repudiation or nationalization of contracts;
- imposition of trade or immigration barriers;
- import-export quotas;
- wage and price controls;
- changes in law and regulatory requirements, including changes in interpretation and enforcement;
- involvement in judicial proceedings in unfavorable jurisdictions;
- damage to our equipment or violence directed at our employees, including kidnappings;
- complications associated with supplying, repairing and replacing equipment in remote locations;
- public health threats, including pandemics and epidemics, severe influenza, coronaviruses and other highly communicable viruses or diseases;
- the inability to move income or capital; and
- currency exchange fluctuations and currency exchange restrictions, including exchange or similar controls that may limit our ability to convert local currency into U.S. dollars and transfer funds out of a local jurisdiction.

Our non-U.S. contract drilling operations are subject to various laws and regulations related to economic and trade sanctions in certain countries in which we operate, including laws and regulations relating to the import and export, equipment and operation of drilling units, currency conversions and repatriation, oil and gas exploration and development, taxation and social contributions of offshore earnings and earnings of expatriate personnel. We are also subject to the U.S. Treasury Department’s Office of Foreign Assets Control (“OFAC”) and other U.S. and non-U.S. laws and regulations governing our international operations. In addition, various state and municipal governments, universities and other investors have proposed or adopted divestment and other initiatives regarding investments including, with respect to state governments, by state retirement systems in companies that do business with countries that have been designated as state sponsors of terrorism by the U.S. State Department. Failure to comply with applicable laws and regulations, including those relating to sanctions and export restrictions, may subject us to criminal sanctions or civil remedies, including fines, denial of export privileges, injunctions or seizures of assets. Investors could view any potential violations of OFAC regulations negatively, which could adversely affect our reputation and the market for our shares.

Governments in some countries have become increasingly active in regulating and controlling the ownership of concessions and companies holding concessions, the exploration for oil and gas and other aspects of the oil and gas industries in their countries, including local content requirements for participating in tenders for certain drilling contracts. Many governments favor or effectively require the awarding of drilling contracts to local contractors or require nonlocal contractors to employ citizens of, or purchase supplies from, a particular jurisdiction or require use of a local agent. In addition, government action, including initiatives by OPEC, may continue to cause oil or gas price volatility. In some areas of the world, this governmental activity has adversely affected the amount of exploration and development work by major energy companies and may continue to do so.

The shipment of goods, services and technology across international borders subjects us to extensive trade laws and regulations. Our import and export activities are governed by unique customs and export control laws and regulations in each of the countries where we operate. Moreover, many countries, including the U.S., control the import and export of certain goods, services and technology and impose related import and export recordkeeping and reporting obligations. Governments also may impose economic sanctions against certain countries, persons and other entities that may restrict or prohibit transactions involving such countries, persons and entities, and we are also subject to the U.S. anti-boycott laws.

The laws and regulations concerning import and export activity, recordkeeping and reporting, import and export control and economic sanctions are complex and constantly changing. These laws and regulations may be enacted, amended, enforced or interpreted in a manner materially impacting our operations. Ongoing economic challenges may increase some governments' efforts to enact, enforce, amend or interpret laws and regulations as a method to increase revenue. Shipments can be delayed and denied import or export for a variety of reasons, some of which are outside our control and some of which may result from failure to comply with existing legal and regulatory regimes. Shipping delays or denials could cause unscheduled operational downtime.

Our results are directly affected by the applicability of certain customs duties and importation tax relief programs under customs regimes for the exportation and importation of goods and equipment, including rigs, related to the oil and gas sector. Among other incentives, such programs grant full suspension of certain import taxes, resulting in reduced tax burdens from operations. If unprecedented interpretations are applied by the customs and tax authorities governing such programs and regimes, including those that would deny us the use of such incentives granted historically in the ordinary course, and assuming we are unable to successfully challenge such interpretation or otherwise able to recover any amounts pursuant to the contractual provisions of the applicable drilling contract, then the amount of the applicable tariff, which would depend on many factors, could reasonably be expected to increase our operating costs.

Our ability to operate worldwide depends on our ability to obtain the necessary visas and work permits for our personnel to travel in and out of, and to work in, the jurisdictions in which we operate. Governmental actions in some of the jurisdictions in which we operate may make it difficult for us to move our personnel in and out of these jurisdictions by delaying or withholding the approval of these permits. If we are not able to obtain visas and work permits for the employees we need to conduct our operations on a timely basis, we might not be able to perform our obligations under our drilling contracts, which could allow our customers to cancel the contracts. If our customers cancel some of our drilling contracts, and we are unable to secure new drilling contracts on a timely basis and on substantially similar terms, it could have a material adverse effect on our business and on our financial position, results of operations or cash flows.

FAILURE TO COMPLY WITH ANTI-BRIBERY STATUTES, SUCH AS THE U.S. FOREIGN CORRUPT PRACTICES ACT AND THE U.K. BRIBERY ACT 2010, COULD RESULT IN FINES, CRIMINAL PENALTIES, DRILLING CONTRACT TERMINATIONS AND AN ADVERSE EFFECT ON OUR BUSINESS.

The U.S. Foreign Corrupt Practices Act ("FCPA"), the U.K. Bribery Act 2010 ("Bribery Act") and similar anti-bribery laws in other jurisdictions, generally prohibit companies and their intermediaries from making improper payments for the purpose of obtaining or retaining business. We operate in many parts of the world that have experienced corruption to some degree and, in certain circumstances, strict compliance with anti-bribery laws may conflict with local customs and practices. If we are found to be liable for violations under the FCPA, the Bribery Act or other similar laws, either due to our acts or omissions or due to the acts or omissions of others, including our partners in our various joint ventures and of the current or former officers, directors or employees of any companies we have acquired, we could suffer from civil and criminal penalties or other sanctions, which could have a material adverse effect on our business or our financial position, results of operations or cash flows. In addition, investors could negatively view potential violations, inquiries or allegations of misconduct under the FCPA, the Bribery Act or similar laws, which could adversely affect our reputation and the market for our shares.

We could also face fines, sanctions and other penalties from authorities in relevant jurisdictions, including prohibition of our participating in or curtailment of business operations in those jurisdictions and the seizure of rigs or other assets. Additionally, our business and results of operations could be adversely affected as a result of claims by customers, agents, shareholders, debt holders, other interest holders, current or former employees or other constituents of our company who, in connection with alleged or actual noncompliance with antibribery and related laws, may seek to impose penalties, seek remedies, terminate drilling contracts or take other actions adverse to our interests. Our business and results of operations may be adversely affected if we are required to dedicate significant time and resources to investigate and resolve allegations of misconduct, regardless of the merit of such allegations. Further, disclosure of the subject matter of any investigation could adversely affect our reputation and our ability to obtain new business with potential customers, to retain existing business with our current customers, to attract and retain employees and to access the capital markets.

WE ARE SUBJECT TO INVESTIGATIONS AND LITIGATION THAT, IF NOT RESOLVED IN OUR FAVOR AND NOT SUFFICIENTLY INSURED AGAINST, COULD HAVE A MATERIAL ADVERSE EFFECT ON US.

We are subject to a variety of disputes, investigations and litigation. Certain of our subsidiaries are subject to and have been involved in litigation with certain of our customers and other constituents. Certain of our subsidiaries are named as defendants in numerous lawsuits alleging personal grievances or injury, including as a result of exposure to asbestos or toxic fumes or resulting from other occupational diseases, such as silicosis, and various other medical issues that can remain undiscovered for a considerable amount of time. Some of these subsidiaries that have been put on notice of potential liabilities have no assets. Certain subsidiaries are subject to litigation relating to environmental damage. Our patent for dual-activity technology has been successfully challenged in certain jurisdictions. We are also subject to a number of significant tax disputes. We cannot predict the outcome of these investigations and cases or the potential costs to resolve them. Insurance may not be applicable or sufficient in all cases, insurers may not remain solvent and policies may not be located. Suits against non-asset-owning subsidiaries have and may in the future give rise to alter ego or successor-in-interest claims against us and our asset-owning subsidiaries to the extent a subsidiary is unable to pay a claim or insurance is not available or sufficient to cover the claims. To the extent that one or more pending or future investigations or litigation matters is not resolved in our favor and is not covered by insurance, which could have a material adverse effect on our financial position, results of operations or cash flows.

WE ARE SUBJECT TO CYBERSECURITY RISKS AND THREATS AS WELL AS INCREASING REGULATION OF DATA PRIVACY AND SECURITY.

We depend on data and digital technologies to conduct our offshore and onshore operations, to collect payments from customers and to pay vendors and employees. Our data protection measures and measures taken by our customers and vendors may not prevent unauthorized access of information technology systems, and when such unauthorized access occurs, we, our customers or vendors may not detect the incident in time to prevent harm or damage. Threats to our information technology systems, and the systems of our customers and vendors, associated with cybersecurity risks and cyber-incidents or attacks continue to grow. Such threats may derive from human error, fraud or malice, social engineering on the part of employees or third parties, or may result from accidental technological failure. In addition, breaches to our systems and systems of our customers and vendors could go unnoticed for some period of time. Risks associated with these threats include disruptions of certain systems on our rigs; other impairments of our ability to conduct our operations; loss or ransom of intellectual property, proprietary information, personal identifiable information or customer and vendor data; disruption of our customers' and vendors' operations; misappropriation of assets; loss or damage to our customer and vendor data delivery systems; and increased costs to prevent, respond to or mitigate cybersecurity events. A breach could also originate from, or compromise, our customers' and vendors' or other third-party networks outside of our control. A breach may also result in legal claims or proceedings against us by our shareholders, employees, customers, vendors and governmental authorities, both U.S. and non-U.S. If such a cyber-incident were to occur, it could have a material adverse effect on our business or on our financial position, results of operations or cash flows.

In addition, data privacy and the unauthorized disclosure of personal data and confidential information pose increasingly complex compliance challenges and have the potential to elevate our costs under various laws and regulations, including privacy regulations that have been adopted or may in the future be adopted by, or be applicable from time to time to, countries, states, and other jurisdictions or authorities. Any failure by us to comply with these laws and regulations, including as a result of a security or privacy breach, could result in significant penalties, litigation and liabilities for us. Additionally, if we acquire a company that has violated or is not in compliance with applicable data protection laws, we may incur significant liabilities and penalties as a result.

ACTS OF TERRORISM, PIRACY AND POLITICAL AND SOCIAL UNREST COULD AFFECT THE MARKETS FOR DRILLING SERVICES.

Acts of terrorism and social unrest, brought about by world political events or otherwise, have caused instability in the world's financial and insurance markets in the past and may occur in the future. Such acts could be directed against companies such as ours. In addition, acts of terrorism, piracy and social unrest could lead to increased volatility in prices for crude oil and natural gas and could affect the markets for drilling services. Insurance premiums could increase and coverage may be unavailable in the future. Government regulations may effectively preclude us from engaging in business activities in certain countries. These regulations could be amended to cover countries where we currently operate or where we may wish to operate in the future. Our drilling contracts do not generally provide indemnification against loss of capital assets or loss of revenues resulting from acts of terrorism, piracy or political or social unrest. We have limited insurance for our assets providing coverage for physical damage losses resulting from certain risks, such as terrorist acts, piracy, vandalism, sabotage, civil unrest, expropriation and acts of war, and we do not carry insurance for loss of revenues resulting from such risks.

RISKS RELATED TO TAXES

A CHANGE IN TAX LAWS, TREATIES OR REGULATIONS, OR THEIR INTERPRETATION, OF ANY COUNTRY IN WHICH WE HAVE OPERATIONS, ARE INCORPORATED OR ARE RESIDENT COULD RESULT IN A HIGHER EFFECTIVE TAX RATE ON OUR CONSOLIDATED EARNINGS AND INCREASE OUR CASH TAX PAYMENTS.

We are subject to changes in applicable tax laws, treaties or regulations in the jurisdictions in which we operate and earn income, and such changes could include laws or policies directed toward companies organized in jurisdictions with low tax rates with the intent to increase the tax burden. Several jurisdictions have implemented or are expected to implement in the future, the Organization for Economic Co-operation and Development Pillar 2 or other tax related provision that are aimed at preventing base erosion and profit shifting, ensuring income is subject to a minimum level of taxation and preventing treaty misuse. The application of these provisions is not always certain, and jurisdictions are still developing their rules and interpretations with regard to same.

As such, any material change to tax laws, treaties, regulations or policies, their interpretation or application, or the adoption of new interpretations of existing laws and rulings, in any of the jurisdictions in which we operate, are incorporated or resident, could result in a higher effective tax rate on our worldwide earnings and such change could have a significant adverse effect on our financial position, results of operations or cash flows.

A LOSS OF A MAJOR TAX DISPUTE OR A SUCCESSFUL TAX CHALLENGE TO OUR OPERATING STRUCTURE, INTERCOMPANY PRICING POLICIES OR THE TAXABLE PRESENCE OF OUR KEY SUBSIDIARIES IN CERTAIN COUNTRIES COULD RESULT IN A HIGHER EFFECTIVE TAX RATE ON OUR CONSOLIDATED EARNINGS AND INCREASE OUR CASH TAX PAYMENTS.

We are subject to tax laws, treaties and regulations in the countries in which we operate and earn income. Our income taxes are based on the applicable tax laws and tax rates in effect in the countries in which we operate and earn income as well as upon our operating structures in these countries. Our income tax returns are subject to review and examination in these jurisdictions, and we do not recognize the benefit of income tax positions we believe are more likely than not to be disallowed upon challenge by a tax authority. If any tax authority successfully challenges our operational structure, intercompany pricing policies or the taxable presence of our key subsidiaries in certain

countries; or if the terms of certain income tax treaties are interpreted in a manner that is adverse to our structure; or if we lose a material tax dispute in any country, our effective tax rate on our worldwide earnings could increase substantially and our earnings and cash flows from operations could be materially adversely affected. For example, we believe that neither we nor our non-U.S. subsidiaries, other than those that report a U.S. trade or business or a U.S. permanent establishment, were or are engaged in a trade or business in the U.S. or, if applicable, maintained or maintain a permanent establishment in the U.S. The determination of the aforementioned, among other things, involves considerable uncertainty. If the U.S. Internal Revenue Service were to disagree, then we could be subject to additional U.S. corporate income and branch profits taxes on the portion of our earnings effectively connected to such U.S. business or, if applicable, attributable to such U.S. permanent establishment during the period in which this was considered to have occurred. If this occurs, our effective tax rate on worldwide earnings for that period could increase substantially, we could be subject to assessments in previously filed returns that remain open to audit and our earnings and cash flows from operations for that period could be adversely affected.

RISKS RELATED TO OUR JURISDICTION OF ORGANIZATION AND GOVERNING DOCUMENTS

AS A SWISS CORPORATION, OUR FLEXIBILITY MAY BE LIMITED WITH RESPECT TO CERTAIN ASPECTS OF CAPITAL MANAGEMENT AND SWIFT IMPLEMENTATION OF CERTAIN INITIATIVES OR STRATEGIES.

Under Swiss law, our shareholders may approve a general share capital authorization, referred to under Swiss law as a capital band, that allows the board of directors to issue new shares without additional shareholder approval within a period of up to five years and for up to a maximum of 50 percent of a company's issued share capital. The general share capital authorization approved by our shareholders at the May 2023 annual general meeting will expire on May 11, 2024. Our currently available authority under this general share capital authorization is equivalent to approximately 17.5 percent of our issued share capital as of February 14, 2024. Accordingly, shareholders at our annual general meeting in May 2024 may be requested to approve a renewal and increase of our general share capital authorization for an additional term. Subject to certain exceptions, Swiss law also grants preemptive rights to existing shareholders to subscribe for new issuances of shares. Further, Swiss law does not provide as much flexibility in the various terms that can attach to different classes of shares as the laws of some other jurisdictions. Swiss law also reserves for shareholder approval certain corporate actions, such as approval of dividends, over which a board of directors would have authority in some other jurisdictions. These Swiss law requirements relating to our capital management may limit our flexibility to swiftly implement certain initiatives or strategies, and situations may arise where greater flexibility would have provided substantial benefits to our shareholders.

We are required, from time to time, to evaluate the carrying amount of our investments in affiliates, as presented on our Swiss standalone balance sheet. If we determine that the carrying amount of any such investment exceeds its fair value, we may conclude that such investment is impaired. Any recognized loss associated with such a non-cash impairment could result in our net assets no longer covering our statutory share capital and statutory capital reserves. Under Swiss law, if our net assets cover less than 50 percent of our statutory share capital and the non-distributable part of the statutory capital and profit reserves, the board of directors must take appropriate measures or, to the extent such measures fall within the competence of the general meeting of shareholders, convene a general meeting of shareholders, and propose measures to remedy such a capital loss. Appropriate measures depend on the relevant circumstances and the magnitude of the recognized loss and may include seeking shareholder approval for offsetting the aggregate loss, or a portion thereof, with our statutory capital reserves, including qualifying additional paid-in capital otherwise available for distributions to shareholders, or raising new equity. Depending on the circumstances, we may also need to use qualifying additional paid-in capital available for distributions in order to reduce our accumulated net loss and such use might reduce our ability to make distributions without subjecting our shareholders to Swiss withholding tax.

Distributions to shareholders in the form of a par value reduction and dividend distributions out of qualifying additional paid-in capital are currently not subject to the 35 percent Swiss federal withholding tax. However, the Swiss withholding tax rules could be changed in the future, and any such change may adversely affect us or our shareholders. In addition, over the long term, the amount of par value available for us to use for par value reductions or the amount of qualifying additional paid-in capital available for us to pay out as distributions is limited. If we are unable to make a distribution through a reduction in par value, or out of qualifying additional paid-in capital as shown on Transocean Ltd.'s standalone Swiss statutory financial statements, we may not be able to make distributions without subjecting our shareholders to Swiss withholding taxes.

Under Swiss tax law, repurchases of shares for the purposes of capital reduction are treated as a partial liquidation subject to a 35 percent Swiss withholding tax based on the difference between the repurchase price and the related amount of par value and the related amount of qualifying additional paid-in capital, if any. At our 2009 annual general meeting, our shareholders approved the repurchase of up to CHF 3.50 billion of our shares for cancellation under the share repurchase program. If we repurchase shares, we expect to use an alternative procedure pursuant to which we repurchase shares via a "virtual second trading line" from market players, such as banks and institutional investors, who are generally entitled to receive a full refund of the Swiss withholding tax. The use of such "virtual second trading line" with respect to share repurchase programs is subject to the approval of the competent Swiss tax and other authorities. We may not be able to repurchase as many shares as we would like to repurchase for purposes of capital reduction on the "virtual second trading line" without subjecting the selling shareholders to Swiss withholding taxes.

WE ARE SUBJECT TO ANTI-TAKEOVER PROVISIONS.

Our articles of association and Swiss law contain provisions that could prevent or delay an acquisition of the company by means of a tender offer, a proxy contest or otherwise. Actions taken under such provisions may adversely affect prevailing market prices for our shares, and could, among other things:

- provide that the board of directors is authorized to issue a specified number of shares, which under our current general share capital authorization as of February 14, 2024 is approximately 17.5 percent of the share capital registered in the commercial register, and to limit or withdraw the preemptive rights of existing shareholders in various circumstances. Pursuant to the terms of the current general share capital authorization, the board's authority to issue new shares expires on May 11, 2024, subject to shareholders approving a renewal or increase of this authorization in accordance with the current company practice;
- provide for a conditional share capital that authorizes the issuance of additional shares up to a maximum amount of approximately 16.9 percent of the share capital registered in the commercial register as of February 14, 2024 without obtaining additional shareholder approval through: (1) the exercise of conversion, exchange, option, warrant or similar rights for the subscription of shares granted in connection with bonds, options, warrants or other securities newly or already issued in national or international capital markets or new or already existing contractual obligations by or of any of our subsidiaries; or (2) in connection with the issuance of shares, options or other share-based awards;
- provide that any shareholder who wishes to propose any business or to nominate a person or persons for election as director at any annual meeting may only do so if we are given advance notice;
- provide that directors can be removed from office only by the affirmative vote of the holders of at least 66 2/3 percent of the shares entitled to vote;
- provide that a merger or demerger transaction requires the affirmative vote of the holders of at least 66 2/3 percent of the shares represented at the meeting and provide for the possibility of a so-called cash-out or squeeze-out merger if the acquirer controls 90 percent of the outstanding shares entitled to vote at the meeting;
- provide that any action required or permitted to be taken by the holders of shares must be taken at a duly called annual or extraordinary general meeting of shareholders;
- limit the ability of our shareholders to amend or repeal some provisions of our articles of association; and
- limit transactions between us and an "interested shareholder," which is generally defined as a shareholder that, together with its affiliates and associates, beneficially, directly or indirectly, owns 15 percent or more of our shares entitled to vote at a general meeting.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 1C. CYBERSECURITY

RISK MANAGEMENT AND STRATEGY

Our approach to managing cybersecurity risk and safeguarding information across our organization embeds data protection and cybersecurity risk management throughout our enterprise and daily operations. We maintain processes for identifying, assessing and managing material risks, including such risks from cybersecurity threats, and such processes are integrated into our overall risk management system. Our enterprise risk register inventories significant risks to our company, including significant cybersecurity risks, and we maintain a separate functional risk register, specifically focusing on potential cybersecurity risks. Within these risk registers, we record each identified risk, describe its likelihood of occurrence and assess its potential impact, including the materiality thereof. As part of this exercise, mitigating measures are planned and implemented into action as necessary. As an additional feature of our cybersecurity risk management process, we have engaged an external third-party service provider to support our cybersecurity team and perform certain periodic external evaluations in addition to the assessments and network penetration tests we perform internally.

We undertake to align our cybersecurity program, which encompasses both enterprise security and operational security, with the standards of the National Institute of Standards and Technology Cybersecurity Framework. We maintain continuous cyber threat-detection systems and have established an incident response plan, which contains playbooks for addressing and recovering from potential material cyberattacks and breaches of data security. In addition to security measures for third-party vendors, we require onboarding orientation and periodic training covering cybersecurity and information management for all employees and board members and conduct regular cybersecurity awareness campaigns.

As of the date of our filing of this report, we are not aware of any cybersecurity incident that has had or is reasonably likely to have a material impact on our business operations. Given the rapid evolution of cyber-related attack techniques, cybersecurity risks associated with our information technology systems and the systems of our customers and vendors continue to grow. Notwithstanding our cybersecurity management processes, a future cybersecurity incident could have a material adverse effect on our business or on our financial position, results of operations or cash flows. See "Item 1A. Risk Factors—Risks related to laws, regulation, and governmental compliance—We are subject to cybersecurity risks and threats as well as increasing regulation of data privacy and security."

GOVERNANCE

We involve multiple levels of oversight as a part of our approach to cybersecurity risk management. Our board of directors oversees our enterprise risk register and cybersecurity program, including related policies and procedures. As part of this oversight, the audit committee of our board of directors receives regular status reports and updates from our management team and conducts periodic executive sessions with our Chief Information Officer. Such status reports and executive sessions cover cybersecurity matters, such as developments to our program, key risk indicators, emerging risks, and identified incidents.

In addition, our Chief Information Officer, who has more than 40 years of industry experience and over 20 years of experience with the development, training and controls of effective global enterprise cybersecurity programs, oversees the implementation and compliance of our cybersecurity program and mitigation of information security related risks. Such oversight includes (i) reviewing our enterprise risk register, (ii) maintaining adequate processes to manage the identified risks under our cybersecurity program, (iii) regularly analyzing logs of cybersecurity threats and vulnerabilities and (iv) overseeing prevention, detection, mitigation and remediation efforts in general, including the development and maintenance of the above-mentioned incident response plan. Additionally, we maintain an experienced information technology team at the employee level that supports our Chief Information Officer in implementing our cybersecurity program and internal reporting, security and mitigation functions.

ITEM 2. PROPERTIES

The description of our property included under “Item 1. Business” is incorporated by reference herein. We maintain offices, land bases and other facilities worldwide, most of which we lease, including principal executive offices in Steinhausen, Switzerland, and corporate offices in Houston, Texas, and the Cayman Islands. We maintain additional offices and bases in various countries in North America, Europe, South America, Asia, Africa and Australia.

ITEM 3. LEGAL PROCEEDINGS

We have certain actions, claims and other matters pending as discussed and reported in “Part II. Item 8. Financial Statements and Supplementary Data—Notes to Consolidated Financial Statements—Note 13—Commitments and Contingencies” and “Part II. Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations—Other Matters—Regulatory Matters” in our annual report on Form 10-K. We are also involved in various tax matters as described in “Part II. Item 8. Financial Statements and Supplementary Data—Notes to Consolidated Financial Statements—Note 11—Income Taxes” and in “Part II. Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations—Other Matters—Tax matters” in this annual report. All such actions, claims, tax and other matters disclosed therein are incorporated herein by reference.

As of December 31, 2023, we were involved in a number of other lawsuits, regulatory matters, disputes and claims, asserted and unasserted, all of which constitute ordinary routine litigation incidental to our business and for which we do not expect the liability, if any, to have a material adverse effect on our consolidated financial position, results of operations or cash flows. We cannot predict with certainty the outcome or effect of any of the matters referred to above or of any such other pending, threatened or possible litigation or legal proceedings. We can provide no assurance that our beliefs or expectations as to the outcome or effect of any lawsuit or claim or dispute will prove correct, and the eventual outcome of these matters could materially differ from management’s current estimates.

On December 17, 2021, Transocean Offshore Deepwater Drilling Inc. (“TODDI”), our wholly owned subsidiary, received a letter from the U.S. Department of Justice (the “DOJ”) related to alleged violations by our subsidiary of its Clean Water Act (“CWA”) National Pollutant Discharge Elimination System permit for the western Gulf of Mexico (“Permit”). The alleged violations, involving seven of our drillships, were identified by the U.S. Environmental Protection Agency (“EPA”) following an initial inspection in 2018 of our compliance with the Permit and the CWA and relate to deficiencies with respect to administrative monitoring and reporting obligations. In connection with the initial EPA inspection, we initiated modifications to our Permit and CWA compliance processes and maintained a dialogue with the EPA regarding the design and implementation of enhancements to these processes. At the DOJ’s invitation, in an effort to resolve the matter, we initiated settlement discussions with the DOJ, which concluded with the execution of a civil consent decree by and between the DOJ, EPA, and TODDI, effective January 6, 2024 (the “Consent Decree”), that resolved the claims of the DOJ based upon the alleged violations of our Permit and the CWA. Pursuant to the Consent Decree, we agreed to pay an immaterial monetary civil penalty, and we further agreed (i) to take or continue to take certain corrective actions to ensure current and future Permit and CWA compliance, including implementing certain procedures and submitting reports and other information, in each case according to the timelines and as described in the Consent Decree, (ii) to appoint an independent auditor to review, audit and report on our compliance with certain of our obligations thereunder, and (iii) to certain non-exclusive stipulated monetary penalties if we fail to comply with applicable provisions of the Consent Decree. We may request termination of the Consent Decree after we have (x) completed timely the civil penalty payment and any accrued stipulated penalty requirements of the Consent Decree, and (y) maintained continuous satisfactory compliance with the Consent Decree for at least three years. We do not believe that the enforcement of the Consent Decree would have a material adverse effect on our consolidated financial position, results of operations or cash flows.

In addition to the legal proceedings described above, we may from time to time identify other matters that we monitor through our compliance program or in response to events arising generally within our industry and in the markets where we do business. We evaluate

matters on a case-by-case basis, investigate allegations in accordance with our policies and cooperate with applicable governmental authorities. Through the process of monitoring and proactive investigation, we strive to ensure no violation of our policies, Code of Integrity or law has occurred, or will occur; however, we can provide no assurance as to the outcome of these matters.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

INFORMATION ABOUT OUR EXECUTIVE OFFICERS

We have included the following information, presented as of February 14, 2024, on our executive officers for purposes of U.S. securities laws in Part I of this report in reliance on General Instruction G(3) to Form 10-K. The board of directors elects the officers of the Company, generally on an annual basis. There is no family relationship between any of our executive officers.

Officer		Office	Age as of February 14, 2024
Jeremy D. Thigpen	(a)	Chief Executive Officer	49
Keelan Adamson	(a)	President and Chief Operating Officer	54
Howard E. Davis		Executive Vice President, Chief Administrative Officer and Chief Information Officer	65
Brady K. Long		Executive Vice President and General Counsel	51
Mark L. Mey	(a)	Executive Vice President and Chief Financial Officer	60
David Tonnel		Senior Vice President and Chief Accounting Officer	54

(a) Member of our executive management team for purposes of Swiss law.

Jeremy D. Thigpen is Chief Executive Officer and a member of the Company's board of directors. Before joining the Company in this position in April 2015, Mr. Thigpen served as Senior Vice President and Chief Financial Officer at National Oilwell Varco, Inc. from December 2012 to April 2015. At National Oilwell Varco, Inc., Mr. Thigpen also served as President, Downhole and Pumping Solutions from August 2007 to December 2012, as President of the Downhole Tools Group from May 2003 to August 2007 and as manager of the Downhole Tools Group from April 2002 to May 2003. From 2000 to 2002, Mr. Thigpen served as the Director of Business Development and Special Assistant to the Chairman for National Oilwell Varco, Inc. Mr. Thigpen earned a Bachelor of Arts degree in Economics and Managerial Studies from Rice University in 1997, and he completed the Program for Management Development at Harvard Business School in 2001.

Keelan Adamson is President and Chief Operating Officer of the Company. Before being named to his current position in February 2022, Mr. Adamson served as Executive Vice President and Chief Operations Officer from August 2018 to February 2022, as Senior Vice President, Operations from October 2017 to July 2018 and as Senior Vice President, Operations Integrity and HSE, from June 2015 to October 2017. Since 2010, Mr. Adamson served in multiple executive positions with responsibilities spanning Engineering and Technical Services, Major Capital Projects, Human Resources, and more recently, Operations Integrity and HSE. Mr. Adamson started his career as a drilling engineer with BP Exploration in 1991 and joined Transocean in July 1995. In addition to several management assignments in the U.K., Asia, and Africa, he also held leadership roles in Sales and Marketing, Well Construction and Technology, and as Managing Director for operations in North America, Canada and Trinidad. Mr. Adamson earned a bachelor's degree in Aeronautical Engineering from The Queens University of Belfast and completed the Advanced Management program at Harvard Business School in 2016.

Howard E. Davis is Executive Vice President, Chief Administrative Officer and Chief Information Officer of the Company. Before joining the Company in this position in August 2015, Mr. Davis served as Senior Vice President, Chief Administrative Officer and Chief Information Officer of National Oilwell Varco, Inc. from March 2005 to April 2015 and as Vice President, Chief Administrative Officer and Chief Information Officer from August 2002 to March 2005. Mr. Davis earned a bachelor's degree from University of Kentucky in 1980, and he completed the Advanced Management Program at Harvard Business School in 2005.

Brady K. Long is Executive Vice President and General Counsel of the Company. Before being named to his current position in March 2018, Mr. Long served as Senior Vice President and General Counsel from November 2015 to March 2018. From 2011 to November 2015, when Mr. Long joined the Company, he served as Vice President—General Counsel and Secretary of Ensco plc, which acquired Pride International, Inc. where he had served as Vice President, General Counsel and Secretary since August 2009. Mr. Long joined Pride International, Inc. in June 2005 as Assistant General Counsel and served as Chief Compliance Officer from June 2006 to February 2009. He was director of Transocean Partners LLC from May 2016 until December 2016. Mr. Long previously practiced corporate and securities law with the law firm of Bracewell LLP. Mr. Long earned a Bachelor of Arts degree from Brigham Young University in 1996, a Juris Doctorate degree from the University of Texas School of Law in 1999 and an Executive LL.M. in Taxation from New York University in 2019.

Mark L. Mey is Executive Vice President and Chief Financial Officer of the Company. Before joining the Company in this position in May 2015, Mr. Mey served as Executive Vice President and Chief Financial Officer of Atwood Oceanics, Inc. from January 2015 to May 2015, prior to which he served as Senior Vice President and Chief Financial Officer from August 2010. Mr. Mey was director of Transocean Partners LLC from June 2015 until December 2016. He served as Director, Senior Vice President and Chief Financial Officer of Scorpion Offshore Ltd. from August 2005 to July 2010. Prior to 2005, Mr. Mey held various senior financial and other roles in the drilling and financial services industries, including 12 years with Noble Corporation. He earned an Advanced Diploma in Accounting and a Bachelor of Commerce degree from the University of Port Elizabeth in South Africa in 1985, and he is a chartered accountant. Additionally, Mr. Mey completed the Harvard Business School Executive Advanced Management Program in 1998.

David Tonnel is Senior Vice President and Chief Accounting Officer. Before being named to his current position in April 2017, he served as Senior Vice President, Supply Chain and Corporate Controller from October 2015 to April 2017, as Senior Vice President, Finance and Controller from March 2012 to October 2015 and as Senior Vice President of the Europe and Africa Unit from June 2009 to March 2012. Mr. Tonnel served as Vice President of Global Supply Chain from November 2008 to June 2009, as Vice President of Integration and Process Improvement from November 2007 to November 2008, and as Vice President and Controller from February 2005 to November 2007. Prior to February 2005, he served in various financial roles, including Assistant Controller; Finance Manager, Asia Australia Region; and Controller, Nigeria. Mr. Tonnel joined the Company in 1996 after working for Ernst & Young in France as Senior Auditor. Mr. Tonnel earned a Master of Science degree in Management from HEC in Paris, France in 1991.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

MARKET FOR SHARES OF OUR COMMON EQUITY

Our shares are listed on the New York Stock Exchange under the ticker symbol "RIG." On February 14, 2024, we had 809,030,846 shares outstanding and 4,694 holders of record of our shares.

SHAREHOLDER MATTERS

Swiss tax consequences to our shareholders

Overview—The tax consequences discussed below are not a complete analysis or listing of all the possible tax consequences that may be relevant to our shareholders. Shareholders should consult their own tax advisors in respect of the tax consequences related to receipt, ownership, purchase or sale or other disposition of our shares and the procedures for claiming a refund of withholding tax.

Swiss income tax on dividends and similar distributions—A non-Swiss holder is not subject to Swiss income taxes on dividend income and similar distributions in respect of our shares, unless the shares are attributable to a permanent establishment or a fixed place of business maintained in Switzerland by such non-Swiss holder. However, dividends and similar distributions are subject to Swiss withholding tax, subject to certain exceptions. See "—Swiss withholding tax on dividends and similar distributions to shareholders."

Swiss wealth tax—A non-Swiss holder is not subject to Swiss wealth taxes unless the holder's shares are attributable to a permanent establishment or a fixed place of business maintained in Switzerland by such non-Swiss holder.

Swiss capital gains tax upon disposal of shares—A non-Swiss holder is not subject to Swiss income taxes for capital gains unless the holder's shares are attributable to a permanent establishment or a fixed place of business maintained in Switzerland by such non-Swiss holder. In such case, the non-Swiss holder is required to recognize capital gains or losses on the sale of such shares, which are subject to cantonal, communal and federal income tax.

Swiss withholding tax on dividends and similar distributions to shareholders—A Swiss withholding tax of 35 percent is due on dividends and similar distributions to our shareholders from us, regardless of the place of residency of the shareholder, subject to the exceptions discussed under "—Exemption" below. We will be required to withhold at such rate and remit on a net basis any payments made to a holder of our shares and pay such withheld amounts to the Swiss federal tax authorities.

Exemption—Distributions to shareholders in the form of a par value reduction or out of qualifying additional paid-in capital for Swiss statutory purposes are exempt from Swiss withholding tax. On December 31, 2023, the aggregate amount of par value of our outstanding shares was CHF 80.9 million, equivalent to approximately \$96.2 million, and the aggregate amount of qualifying additional paid-in capital of our outstanding shares was CHF 14.4 billion, equivalent to approximately \$17.1 billion. Consequently, we expect that a substantial amount of any potential future distributions may be exempt from Swiss withholding tax.

Refund available to Swiss holders—A Swiss tax resident, corporate or individual, can recover the withholding tax in full if such resident is the beneficial owner of our shares at the time the dividend or other distribution becomes due and provided that such resident reports the gross distribution received on such resident's income tax return, or in the case of an entity, includes the taxable income in such resident's income statement.

Refund available to non-Swiss holders—If the shareholder that receives a distribution from us is not a Swiss tax resident, does not hold our shares in connection with a permanent establishment or a fixed place of business maintained in Switzerland, and resides in a country that has concluded a treaty for the avoidance of double taxation with Switzerland for which the conditions for the application and protection of and by the treaty are met, then the shareholder may be entitled to a full or partial refund of the withholding tax described above. Switzerland has entered into bilateral treaties for the avoidance of double taxation with respect to income taxes with numerous countries, including the United States ("U.S."), whereby under certain circumstances all or part of the withholding tax may be refunded. The procedures for claiming treaty refunds, and the time frame required for obtaining a refund, may differ from country to country.

Refund available to U.S. residents—The Swiss-U.S. tax treaty provides that U.S. residents eligible for benefits under the treaty can seek a refund of the Swiss withholding tax on dividends for the portion exceeding 15 percent, leading to a refund of 20 percent, or a 100 percent refund in the case of qualified pension funds. As a general rule, the refund will be granted under the treaty if the U.S. resident can show evidence of the following: (a) beneficial ownership, (b) U.S. residency and (c) meeting the U.S.-Swiss tax treaty's limitation on benefits requirements. The claim for refund must be filed with the Swiss federal tax authorities (Eigerstrasse 65, 3003 Bern, Switzerland), not later than December 31 of the third year following the year in which the dividend payments became due. The relevant Swiss tax form is Form 82C for companies, 82E for other entities and 82I for individuals. These forms can be obtained from any Swiss Consulate General in the U.S. or from the Swiss federal tax authorities at the above address or can be downloaded from the webpage of the Swiss federal tax administration. Each form must be completed in triplicate, with each copy duly completed and signed before a notary public in the U.S. Evidence that the withholding tax was withheld at the source must also be included.

Stamp duties in relation to the transfer of shares—The purchase or sale of our shares may be subject to Swiss federal stamp taxes on the transfer of securities irrespective of the place of residency of the purchaser or seller if the transaction takes place through or with a Swiss bank or other Swiss securities dealer, as those terms are defined in the Swiss Federal Stamp Tax Act and no exemption applies in the specific case. If a purchase or sale is not entered into through or with a Swiss bank or other Swiss securities dealer, then no stamp tax will be due. The applicable stamp tax rate is 0.075 percent for each of the two parties to a transaction and is calculated based on the purchase price or sale proceeds. If the transaction does not involve cash consideration, the transfer stamp duty is computed on the basis of the market value of the consideration.

Share repurchases

Overview—Shares repurchased for the purpose of capital reduction are treated as a partial liquidation subject to a 35 percent Swiss withholding tax based on the difference between the repurchase price and the related amount of par value and the related amount of qualifying additional paid-in capital, if any. We would be required to remit on a net basis the purchase price with the Swiss withholding tax deducted to a holder of our shares and pay the withholding tax to the Swiss federal tax authorities. However, for such repurchased shares, the portions of the repurchase price that are attributable to the par value and the qualifying additional paid-in capital for Swiss statutory reporting purposes are not subject to the Swiss withholding tax.

If we repurchase shares, we expect to use an alternative procedure pursuant to which we repurchase our shares via a "virtual second trading line" from market players, such as banks and institutional investors, who are generally entitled to receive a full refund of the Swiss withholding tax. The use of such "virtual second trading line" with respect to share repurchase programs is subject to approval of the competent Swiss tax and other authorities. We may not be able to repurchase as many shares as we would like to repurchase for purposes of capital reduction on the "virtual second trading line" without subjecting the selling shareholders to Swiss withholding taxes. The repurchase of shares for purposes other than for cancellation, such as to retain as treasury shares for use in connection with stock incentive plans, convertible debt or other instruments within certain periods, are not generally subject to Swiss withholding tax. In addition, in December 2022, the U.S. Department of the Treasury released proposed regulations under the Inflation Reduction Act, whereby an excise tax of one percent would be imposed on stock repurchases in the event one of our U.S. subsidiaries funds the stock repurchase.

Under Swiss corporate law, the right of a company and its subsidiaries to repurchase and hold its own shares is limited. A company may repurchase its shares to the extent it has freely distributable reserves as shown on its Swiss statutory balance sheet in the amount of the purchase price and if the aggregate par value of all shares held by the company as treasury shares does not exceed 10 percent of the company's share capital recorded in the Swiss Commercial Register, whereby for purposes of determining whether the 10 percent threshold has been reached, shares repurchased under a share repurchase program for cancellation purposes authorized by the company's shareholders are disregarded. As of February 14, 2024, Transocean Inc., our wholly owned subsidiary, held as treasury shares 4.11 percent of our issued shares. Our board of directors could, to the extent freely distributable reserves are available, authorize the repurchase of additional shares for purposes other than cancellation, such as to retain treasury shares for use in satisfying our obligations in connection with incentive plans or other rights to acquire our shares. Based on the number of shares held as treasury shares as of February 14, 2024, 5.89 percent of our issued shares could be repurchased for purposes of retention as additional treasury shares. Although our board of directors has not approved such a share repurchase program for the purpose of retaining repurchased shares as treasury shares, if it did so, any such shares repurchased would be in addition to any shares repurchased under the currently approved program.

Share repurchase program—In May 2009, at our annual general meeting, our shareholders approved and authorized our board of directors, at its discretion, to repurchase for cancellation any amount of our shares for an aggregate purchase price of up to CHF 3.50 billion. On February 12, 2010, our board of directors authorized our management to implement the share repurchase program. At December 31, 2023, the authorization remaining under the share repurchase program was for the repurchase of our outstanding shares for an aggregate purchase price of up to CHF 3.24 billion, equivalent to \$3.85 billion. We intend to fund any repurchases using available cash balances and cash from operating activities. The share repurchase program could be suspended or discontinued by our board of directors or company management, as applicable, at any time. We may decide, based on our ongoing capital requirements, the price of our shares, regulatory and tax considerations, cash flow generation, the amount and duration of our contract backlog, general market conditions, debt rating considerations and other factors, that we should retain cash, reduce debt, make capital investments or acquisitions or otherwise use cash for general corporate purposes. Decisions regarding the amount, if any, and timing of any share repurchases will be made from time to time based on these factors. Any repurchased shares under the share repurchase program would be held by us for cancellation by the shareholders at a future general meeting of shareholders.

ISSUER PURCHASES OF EQUITY SECURITIES

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs (a)	Approximate dollar value of shares that may yet be purchased under the plans or programs (in millions) (a)
October 2023	—	\$ —	—	\$ 3,855
November 2023	—	—	—	3,855
December 2023	—	—	—	3,855
Total	—	\$ —	—	\$ 3,855

ITEM 6. RESERVED

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

INTRODUCTION

Transocean Ltd. (together with its subsidiaries and predecessors, unless the context requires otherwise, "Transocean," "we," "us" or "our") is a leading international provider of offshore contract drilling services for oil and gas wells. As of February 14, 2024, we owned or had partial ownership interests in and operated 37 mobile offshore drilling units, consisting of 28 ultra-deepwater floaters and nine harsh environment floaters. Additionally, as of February 14, 2024, we were constructing one ultra-deepwater drillship.

We provide, as our primary business, contract drilling services in a single operating segment, which involves contracting our mobile offshore drilling rigs, related equipment and work crews to drill oil and gas wells. We specialize in technically demanding regions of the global offshore drilling business with a particular focus on ultra-deepwater and harsh environment drilling services. Our drilling fleet is one of the most versatile fleets in the world, consisting of drillships and semisubmersible floaters used in support of offshore drilling activities and offshore support services on a worldwide basis.

We perform contract drilling services by deploying our high-specification fleet in a single, global market that is geographically dispersed in oil and gas exploration and development areas throughout the world. Although rigs can be moved from one region to another, the cost of moving rigs and the availability of rig-moving vessels may cause the supply and demand balance to fluctuate somewhat between regions. Still, significant variations between regions do not tend to persist long term because of rig mobility. The location of our rigs and the allocation of resources to operate, build or upgrade our rigs are determined by the activities and needs of our customers.

The information contained in this section should be read in conjunction with the information contained in "Part I. Item 1. Business," "Part I. Item 1A. Risk Factors" and the audited consolidated financial statements and the notes thereto included under "Item 8. Financial Statements and Supplementary Data" elsewhere in this annual report. The following discussion of our results of operations and liquidity and capital resources includes comparisons for the years ended December 31, 2023 and 2022. For a discussion, including comparisons, of our results of operations and liquidity and capital resources for the years ended December 31, 2022 and 2021, see "Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" of our annual report on Form 10-K for the year ended December 31, 2022, filed with the United States ("U.S.") Securities and Exchange Commission on February 23, 2023.

SIGNIFICANT EVENTS

Fleet expansion—In May 2023, we completed the construction of and placed into service the ultra-deepwater floater *Deepwater Titan*, the first drillship equipped with two 20,000 psi blowout preventers. Additionally, in September 2023, we issued 11.9 million Transocean Ltd. shares with an aggregate value of \$99 million to acquire the outstanding ownership interests of Liquila Ventures Ltd. (together with its subsidiaries, "Liquila"), a previously unconsolidated variable interest entity that is constructing the ultra-deepwater drillship *Deepwater Aquila*, and as a result, Liquila became our wholly owned subsidiary. See "—Liquidity and Capital Resources—Sources and uses of liquidity."

Secured debt issuance—In January 2023, we issued \$525 million aggregate principal amount of 8.375% senior secured notes due February 2028 (the "8.375% Senior Secured Notes"), and we received \$516 million aggregate cash proceeds, net of issue costs. In January 2023, we issued \$1.175 billion aggregate principal amount of 8.75% senior secured notes due February 2030 (the "8.75% Senior Secured Notes"), and we received \$1.148 billion aggregate cash proceeds, net of issue costs. In October 2023, we issued \$325 million aggregate principal amount of 8.00% senior secured notes due September 2028 (the "8.00% Senior Secured Notes"), and we received \$319 million aggregate cash proceeds, net of issue costs. See "—Liquidity and Capital Resources—Sources and uses of liquidity."

Early debt retirement—In January 2023, in connection with the issuance of the 8.75% Senior Secured Notes, we made an aggregate cash payment of \$1.159 billion, including a make-whole premium, to redeem the remaining outstanding \$311 million, \$240 million, \$250 million, and \$336 million aggregate principal amount of the 5.875% senior secured notes due January 2024, the 7.75% senior secured notes due October 2024, the 6.25% senior secured notes due December 2024 and the 6.125% senior secured notes due August 2025, respectively. In the year ended December 31, 2023, we made a cash payment of \$243 million to redeem an equivalent aggregate principal amount of the outstanding 5.375% senior secured notes due May 2023. See "—Liquidity and Capital Resources—Sources and uses of liquidity."

Exchanged bonds—In the year ended December 31, 2023, holders of the outstanding \$238 million aggregate principal amount of the 2.50% senior guaranteed exchangeable bonds due January 2027 (the "2.50% Senior Guaranteed Exchangeable Bonds") exchanged such bonds under the terms of the governing indenture, and as part of the transactions, we delivered 38.6 million Transocean Ltd. shares. In October 2023, our wholly owned subsidiary, Transocean Inc., entered into individually negotiated agreements with holders of \$60 million and \$41 million aggregate principal amount of the 4.00% senior guaranteed exchangeable bonds due December 2025 (the "4.00% Senior Guaranteed Exchangeable Bonds") and the 4.625% senior guaranteed exchangeable bonds due September 2029 (the "4.625% Senior Guaranteed Exchangeable Bonds"), respectively and, as part of the transactions, we delivered 26.5 million Transocean Ltd. shares to such holders. See "—Liquidity and Capital Resources—Sources and uses of liquidity."

Asset disposal and investment in unconsolidated affiliate—In February 2023, we made a cash contribution of \$10 million and a non-cash contribution of the ultra-deepwater floater *Ocean Rig Olympia*, and related assets, with an estimated fair value of \$85 million, in exchange for an equity ownership interest in Global Sea Mineral Resources NV (together with its subsidiaries, “GSR”). In the year ended December 31, 2023, we recognized a loss of \$169 million, which had no tax effect, associated with the disposal of the rig and related assets. See “—Operating Results,” “—Liquidity and Capital Resources—Sources and uses of liquidity”.

Impairment and disposal of assets held for sale—In the year ended December 31, 2023, we recognized an aggregate loss of \$57 million, which had no tax effect, associated with the impairment of the harsh environment floaters *Paul B. Loyd, Jr.* and *Transocean Leader* and related assets, which we determined were impaired at the time that we classified the assets as held for sale. On February 15, 2024, we completed the sale of *Paul B. Loyd, Jr.* and *Transocean Leader* and related assets. See “—Operating Results” and “—Liquidity and Capital Resources—Sources and uses of liquidity.”

OUTLOOK

Drilling market—Our industry outlook is positive based upon underlying economic factors, including numerous long-term forecasts that indicate hydrocarbons will continue to be a critical source of energy for the foreseeable future, despite significant relative growth in alternative energy technologies, which remain less economical versus hydrocarbons. Economic forecasts indicate that countries that are not members of the Organization for Economic Co-operation and Development will continue to experience population growth and improvement in living standards, which will compound the increase in energy demand for the foreseeable future. We believe that these factors will contribute to robust demand for oil and gas.

The existing supply of oil and gas is depleting and requires replenishment. The replacement of reserves remains critically important given the significant underinvestment during the last several years and the challenges to new exploration and production investments imposed on many industry participants by investors and the governments of oil and gas producing nations. Additionally, energy security will remain an important geopolitical factor across Europe, the U.S. and elsewhere with the growing understanding that hydrocarbons are not easily displaced by alternatives for much of the world’s energy needs.

With deepwater and harsh environment fields generating favorable economic returns and relatively lower carbon intensity than other hydrocarbon sources, we expect a significant portion of the required spending in fossil fuel development will continue to be allocated to deepwater and harsh environment projects. Although the price for oil may continue to exhibit volatility in response to several factors outside of our control, including uncertainty about future output from the major oil and gas producing countries, interest rate changes, geopolitical events and global economic growth, we nevertheless expect prices to remain at levels that are robustly supportive of investment in deepwater and harsh environment exploration and development projects.

Significantly reduced offshore contracting activity during the previous downcycle has also resulted in a much smaller marketable global fleet of floating rigs available to meet the current upcycle in expected customer demands, specifically with respect to the highest specification drilling units preferred by many of our customers for their projects. In recent quarters, marketable supply and demand for deepwater and harsh environment rigs has become more balanced. Customers are now planning further into the future to ensure availability of rigs for their drilling programs and are signing contracts with longer lead times and durations, as well as higher dayrates. Our customers continue to pursue offshore projects in deepwater and harsh environments where rates of return and production volumes are anticipated to be very attractive, which is reflected in the resumption of postponed projects, commencement of new drilling and exploration campaigns and extensions of current drilling campaigns.

Offshore drilling activity remains robust in every major ultra-deepwater geographic sector. Several new exploration and development programs have commenced as our customers return their focus to reserve replacement. Consequently, tendering activity improved meaningfully during 2023 and several multi-year tenders and direct negotiations for work in Brazil, West Africa, North America and Australia were awarded. Many tenders remain active and are expected to be awarded in the first half of 2024.

South America, the Gulf of Mexico and, increasingly, Africa are key ultra-deepwater market sectors. In the last two years, we observed sustained increases in dayrates for projects in the U.S. Gulf of Mexico and Brazil. We continue to see these trends expand to other deepwater sectors.

In Norway, the largest market for harsh environment rigs, we anticipate demand will accelerate and extend through at least 2027, primarily due to previously enacted Norwegian tax incentive programs. Several rigs have departed the region to work in other emerging harsh environment regions that require high-specification, high-efficiency semisubmersibles. Contract durations, including subsequent extensions, on most of these units could make them unavailable to relocate for the foreseeable future. We believe that these and other factors affecting supply and demand for drilling rigs are likely to have a favorable influence on dayrates and contracting terms as competition increases for high-specification, high-efficiency semisubmersibles.

As we project that this increased demand for both our asset groups will be sustained in the coming years, and as there are now fewer high-specification offshore drilling rigs capable of operating in these markets, we believe this demand may prompt the reactivation of cold-stacked rigs and the delivery of remaining stranded newbuild assets.

As of February 14, 2024, our contract backlog was \$9.01 billion compared to \$9.40 billion as of October 18, 2023. The risks of drilling project delays, contract renegotiations and contract terminations and cancellations remain low as oil prices have stayed at levels that are supportive of investment in deepwater and harsh environment projects.

Fleet status—We refer to the availability of our rigs in terms of the uncommitted fleet rate. The uncommitted fleet rate is defined as the number of uncommitted days divided by the total number of rig calendar days in the measurement period, expressed as a percentage. An uncommitted day is defined as a calendar day during which a rig is idle or stacked, is not contracted to a customer and is not committed to a shipyard. The uncommitted fleet rates exclude the effect of priced options. As of February 14, 2024, our uncommitted fleet rates for each of the five years in the period ending December 31, 2028 were as follows:

	2024	2025	2026	2027	2028
Uncommitted fleet rate					
Ultra-deepwater floaters	47 %	58 %	69 %	79 %	92 %
Harsh environment floaters	23 %	37 %	69 %	93 %	100 %

PERFORMANCE AND OTHER KEY INDICATORS

Contract backlog—We believe our industry leading contract backlog sets us apart from the competition and provides indicators of our future revenue-earning opportunities. Contract backlog is defined as the maximum contractual operating dayrate multiplied by the number of days remaining in the firm contract period, excluding revenues for mobilization, demobilization, contract preparation, other incentive provisions or reimbursement revenues, which are not expected to be significant to our contract drilling revenues. The contract backlog represents the maximum contract drilling revenues that can be earned considering the contractual operating dayrate in effect during the firm contract period. The contract backlog for our fleet was as follows:

	February 14, 2024	October 18, 2023 (in millions)	February 9, 2023
Contract backlog			
Ultra-deepwater floaters	\$ 6,951	\$ 7,426	\$ 7,378
Harsh environment floaters	2,057	1,969	1,159
Total contract backlog	\$ 9,008	\$ 9,395	\$ 8,537

Our contract backlog includes only firm commitments, including amounts associated with our contracted newbuild units under construction, which are represented by signed drilling contracts or, in some cases, by other definitive agreements awaiting contract execution. It does not include conditional agreements and options to extend firm commitments.

The average contractual dayrate relative to our contract backlog is defined as the average maximum contractual operating dayrate to be earned per operating day in the measurement period. An operating day is defined as a day for which a rig is contracted to earn a dayrate during the firm contract period after operations commence. At February 14, 2024, the contract backlog and average contractual dayrates for our fleet were as follows:

	Total	For the years ending December 31,					Thereafter
		2024	2025	2026	2027	2028	
			(in millions, except average dayrates)				
Contract backlog							
Ultra-deepwater floaters	\$ 6,951	\$ 1,984	\$ 1,965	\$ 1,486	\$ 1,031	\$ 381	\$ 104
Harsh environment floaters	2,057	762	791	415	89	—	—
Total contract backlog	\$ 9,008	\$ 2,746	\$ 2,756	\$ 1,901	\$ 1,120	\$ 381	\$ 104
Average contractual dayrates							
Ultra-deepwater floaters	\$ 444,000	\$ 428,000	\$ 443,000	\$ 453,000	\$ 459,000	\$ 464,000	\$ 461,000
Harsh environment floaters	\$ 408,000	\$ 366,000	\$ 428,000	\$ 456,000	\$ 429,000	\$ —	\$ —
Total fleet average	\$ 435,000	\$ 409,000	\$ 438,000	\$ 454,000	\$ 457,000	\$ 464,000	\$ 461,000

The actual amount of revenues earned and the actual periods in which revenues are earned will differ from the amounts and periods shown in the tables above due to various factors, including shipyard and maintenance projects, unplanned downtime and other factors that result in lower applicable dayrates than the full contractual operating dayrate. Additional factors that could affect the amount and timing of actual revenues to be recognized include customer liquidity issues and contract terminations that may be available to our customers under certain circumstances.

The contractual operating dayrate may be higher than the actual dayrate we ultimately receive because an alternative contractual dayrate, such as a waiting-on-weather rate, repair rate, standby rate or force majeure rate, may apply under certain circumstances. The contractual operating dayrate may also be higher than the actual dayrate we ultimately receive because of a number of factors, including rig downtime or suspension of operations. In certain contracts, the actual dayrate may be reduced to zero if, for example, repairs extend beyond a stated period of time. See “Part I. Item 1A. Risk Factors—Risks related to our business—Our current backlog of contract drilling revenues may not be fully realized.”

Average daily revenue—We believe average daily revenue provides a comparative measurement unit for our revenue-earning performance. Average daily revenue is defined as operating revenues, excluding revenues for contract terminations, reimbursements and contract intangible amortization, earned per operating day. The average daily revenue for our fleet was as follows:

	Years ended December 31,		
	2023	2022	2021
Average daily revenue			
Ultra-deepwater floaters	\$ 393,700	\$ 329,100	\$ 355,500
Harsh environment floaters	\$ 354,300	\$ 380,000	\$ 386,200
Total fleet average daily revenue	\$ 382,300	\$ 345,500	\$ 365,600

Our average daily revenue fluctuates relative to market conditions and our revenue efficiency. The average daily revenue may be affected by incentive performance bonuses or penalties or demobilization fee revenues. Revenues for a newbuild unit are included in the calculation when the rig commences operations upon acceptance by the customer. We remove a rig from the calculation upon disposal or classification as held for sale, unless we continue to operate the rig, in which case we remove the rig upon completion or novation of the contract.

Revenue efficiency—We believe revenue efficiency measures our ability to ultimately convert our contract backlog into revenues. Revenue efficiency is defined as actual operating revenues, excluding revenues for contract terminations and reimbursements, for the measurement period divided by the maximum revenue calculated for the measurement period, expressed as a percentage. Maximum revenue is defined as the greatest amount of contract drilling revenues the drilling unit could earn for the measurement period, excluding revenues for incentive provisions, reimbursements and contract terminations. The revenue efficiency rates for our fleet were as follows:

	Years ended December 31,		
	2023	2022	2021
Revenue efficiency			
Ultra-deepwater floaters	96.5 %	95.7 %	96.1 %
Harsh environment floaters	97.8 %	97.6 %	98.8 %
Total fleet average revenue efficiency	96.8 %	96.4 %	97.0 %

Our revenue efficiency rate varies due to revenues earned under alternative contractual dayrates, such as a waiting-on-weather rate, repair rate, standby rate, force majeure rate or zero rate, that may apply under certain circumstances. Our revenue efficiency rate is also affected by incentive performance bonuses or penalties. We include newbuilds in the calculation when the rigs commence operations upon acceptance by the customer. We exclude rigs that are not operating under contract, such as those that are stacked.

Rig utilization—We present our rig utilization as an indicator of our ability to secure work for our fleet. Rig utilization is defined as the total number of operating days divided by the total number of rig calendar days in the measurement period, expressed as a percentage. The rig utilization rates for our fleet were as follows:

	Years ended December 31,		
	2023	2022	2021
Rig utilization			
Ultra-deepwater floaters	49.4 %	50.1 %	49.3 %
Harsh environment floaters	59.1 %	64.9 %	64.4 %
Total fleet average rig utilization	51.9 %	54.1 %	53.4 %

Our rig utilization rate declines as a result of idle and stacked rigs and during shipyard, contract preparation and mobilization periods. We include newbuilds in the calculation when the rigs commence operations upon acceptance by the customer. We remove a rig from the calculation upon disposal or classification as held for sale, unless we continue to operate the rig, in which case we remove the rig upon completion or novation of the contract. Accordingly, our rig utilization can increase when we remove idle or stacked units from our fleet.

OPERATING RESULTS

Year ended December 31, 2023 compared to the year ended December 31, 2022

The following is an analysis of our operating results. See “—Performance and Other Key Indicators” for definitions of operating days, average daily revenue, revenue efficiency and rig utilization.

	Years ended December 31,			
	2023	2022	Change	% Change
	(in millions, except day amounts and percentages)			
Operating days	7,045	7,341	(296)	(4)%
Average daily revenue	\$ 382,300	\$ 345,500	\$ 36,800	11 %
Revenue efficiency	96.8 %	96.4 %		
Rig utilization	51.9 %	54.1 %		
Contract drilling revenues	\$ 2,832	\$ 2,575	\$ 257	10 %
Operating and maintenance expense	(1,986)	(1,679)	(307)	(18)%
Depreciation and amortization expense	(744)	(735)	(9)	(1)%
General and administrative expense	(187)	(182)	(5)	(3)%
Loss on impairment of assets	(57)	—	(57)	nm
Loss on disposal of assets, net	(183)	(10)	(173)	nm
Operating loss	(325)	(31)	(294)	nm
Other income (expense), net				
Interest income	52	27	25	93 %
Interest expense, net of amounts capitalized	(646)	(561)	(85)	(15)%
Gain (loss) on retirement of debt	(31)	8	(39)	nm
Other, net	9	(5)	14	nm
Loss before income tax expense	(941)	(562)	(379)	(67)%
Income tax expense	(13)	(59)	46	78 %
Net loss	\$ (954)	\$ (621)	\$ (333)	(54)%

“nm” means not meaningful.

Contract drilling revenues—Contract drilling revenues increased for the year ended December 31, 2023, compared to the year ended December 31, 2022, primarily due to the following: (a) approximately \$210 million resulting from higher average daily revenues, (b) approximately \$190 million resulting from the operations of our newbuild ultra-deepwater floaters *Deepwater Atlas* and *Deepwater Titan* placed into service in the two-year period ended December 31, 2023, (c) approximately \$25 million resulting from slightly improved efficiency for the fleet, (d) approximately \$25 million resulting from higher reimbursement revenues and (e) approximately \$10 million resulting from increased early termination revenues. These increases were partially offset by the following: (a) approximately \$180 million resulting from reduced utilization, primarily for our harsh environment floaters that were under mobilization or contract preparation for their next contract and (b) approximately \$25 million resulting from cold stacking *Deepwater Nautilus*.

Costs and expenses—Operating and maintenance costs and expenses increased for the year ended December 31, 2023, compared to the year ended December 31, 2022, primarily due to the following: (a) approximately \$140 million resulting from reactivation and contract preparation, (b) approximately \$85 million resulting from our two newbuild ultra-deepwater floaters placed into service, (c) approximately \$55 million resulting from the effect of inflation on personnel and maintenance costs, (d) approximately \$40 million resulting from various litigation, customs duties and indirect taxes and (e) approximately \$25 million resulting from higher reimbursable costs. These increases were partially offset by the following: (a) approximately \$35 million resulting from cold stacking *Deepwater Nautilus* and (b) approximately \$15 million resulting from the favorable effect of currency exchange rates on personnel costs.

Depreciation and amortization expense increased for the year ended December 31, 2023, compared to the year ended December 31, 2022, primarily due to (a) \$48 million of increased depreciation associated with our newbuild ultra-deepwater floaters and other property and equipment placed into service since December 2022, partially offset by (b) \$23 million of reduced depreciation resulting from the disposal of one rig and the classification of two rigs as held for sale and (c) approximately \$12 million of reduced depreciation resulting from assets that had reached the end of their useful lives or had been retired.

General and administrative costs and expenses increased for the year ended December 31, 2023, compared to the year ended December 31, 2022, primarily due to the following: (a) approximately \$16 million resulting from increased personnel costs, partially offset by (c) approximately \$8 million resulting from reduced innovation costs and (d) approximately \$4 million resulting from reduced legal and professional fees.

Loss on impairment or disposal of assets—In the year ended December 31, 2023, we recognized a loss associated with the impairment of two harsh environment floaters, which we determined were impaired at the time we classified them as held for sale.

In the year ended December 31, 2023, we recognized a loss of \$169 million associated with our non-cash contribution of *Ocean Rig Olympia* and related assets in exchange for an equity ownership interest in GSR. In the years ended December 31, 2023 and

2022, we recognized an aggregate net loss of \$14 million and \$10 million, respectively, associated with the disposal of assets unrelated to rig sales.

Other income and expense—Interest expense, net of amounts capitalized, increased in the year ended December 31, 2023, compared to the year ended December 31, 2022, primarily due to the following: (a) \$189 million resulting from debt issued in the two-year period ended December 31, 2023 and (b) \$34 million resulting from reduced interest costs capitalized for our newbuild construction program, partially offset by (c) \$113 million resulting from debt repaid as scheduled or early retired and (d) \$30 million resulting from the fair value adjustment of the bifurcated compound exchange feature embedded in the indenture governing the 4.625% Senior Guaranteed Exchangeable Bonds.

In the year ended December 31, 2023, we recognized a net loss on retirement of debt, primarily associated with the early retirement of \$1.38 billion aggregate principal amount of our debt securities. In the year ended December 31, 2022, we recognized a net gain on the retirement of debt, primarily associated with the early retirement of \$116 million aggregate principal amount of our debt securities in connection with exchange and purchase agreements.

Other income net, increased in the year ended December 31, 2023, compared to the year ended December 31, 2022, primarily due to the following: (a) an increased gain of \$18 million resulting from net changes to currency exchange rates, (b) increased income of \$17 million associated with our dual-activity patent and (c) increased income of \$8 million related to the non-service components of net periodic benefit income, partially offset by (e) a loss of \$27 million associated with a payment of cash or the issuance of additional shares to certain holders that elected to exercise their exchanges rights for the 4.00% Senior Guaranteed Exchangeable Bonds and the 4.625% Senior Guaranteed Exchangeable Bonds in the year ended December 31, 2023.

Income tax expense—In the years ended December 31, 2023 and 2022, our effective tax rate was (1.4) percent and (10.4) percent, respectively, based on loss before income tax expense. In the years ended December 31, 2023 and 2022, the aggregate effect of discrete period tax items was a net tax benefit of \$74 million and \$19 million, respectively. In the year ended December 31, 2023, such discrete items included settlements and expirations of various uncertain tax positions, changes to valuation allowances and changes to deferred taxes due to new rig operations. In the year ended December 31, 2022, such discrete items included settlement and expiration of various uncertain tax positions, changes to valuation allowances, operational restructuring and gains due to exchange rate changes. In the years ended December 31, 2023 and 2022, our effective tax rate, excluding discrete items, was (13.3) percent and (13.6) percent, respectively, based on loss before income tax expense. In the year ended December 31, 2023 compared to the year ended December 31, 2022, our effective tax rate increased primarily due to changes in the relative blend of income from operations in certain jurisdictions.

Due to our operating activities and organizational structure, our income tax expense does not change proportionally with our income before income taxes. Significant decreases in our income before income taxes typically lead to higher effective tax rates, while significant increases in income before income taxes can lead to lower effective tax rates, subject to the other factors impacting income tax expense noted above. With respect to the effective tax rate calculation for the year ended December 31, 2023, a significant portion of our income tax expense was generated in countries in which income taxes are imposed or treated to be imposed on gross revenues, with the most significant of these countries being Angola and India. Conversely, the countries in which we incurred the most significant income taxes during this period that were based on income before income tax include the U.S., Hungary, Brazil, Cyprus, Australia, Norway and Switzerland. Our rig operating structures further complicate our tax calculations, especially in instances where we have more than one operating structure for the taxing jurisdiction and, thus, more than one method of calculating taxes depending on the operating structure utilized by the rig under the contract.

LIQUIDITY AND CAPITAL RESOURCES

Sources and uses of cash

In the year ended December 31, 2023, our primary sources of cash were net cash proceeds from issuance of debt and net cash provided by our operating activities. Our primary uses of cash were debt repayments and capital expenditures.

	Years ended December 31,		Change
	2023	2022	
	(in millions)		
Cash flows from operating activities			
Net loss	\$ (954)	\$ (621)	\$ (333)
Non-cash items, net	1,351	1,163	188
Changes in operating assets and liabilities, net	(233)	(94)	(139)
	<u>\$ 164</u>	<u>\$ 448</u>	<u>\$ (284)</u>

Net cash provided by operating activities decreased primarily due to (a) increased disbursements made in connection with contract preparation and mobilization activities for rigs under new or upcoming contracts, (b) increased cash paid for interest and (c) increased cash paid to employees, partially offset by (d) reduced cash paid for income taxes.

	Years ended December 31,		Change
	2023	2022 (in millions)	
Cash flows from investing activities			
Capital expenditures	\$ (427)	\$ (717)	\$ 290
Investments in equity of unconsolidated affiliates	(10)	(42)	32
Investment in loans to unconsolidated affiliates	(3)	(5)	2
Proceeds from disposal of assets, net	10	7	3
Cash acquired in acquisition of unconsolidated affiliate	7	—	7
	<u>\$ (423)</u>	<u>\$ (757)</u>	<u>\$ 334</u>

Net cash used in investing activities decreased primarily due to (a) reduced capital expenditures associated with our newbuild construction program and (b) reduced cash invested in the equity and debt of our unconsolidated affiliates, partially offset by (c) increased capital expenditures associated with maintenance, reactivation and contract preparation activities.

	Years ended December 31,		Change
	2023	2022 (in millions)	
Cash flows from financing activities			
Repayments of debt	\$ (1,717)	\$ (554)	\$ (1,163)
Proceeds from issuance of debt, net of issue costs	1,983	175	1,808
Proceeds from issuance of shares, net of issue costs	—	263	(263)
Proceeds from issuance of warrants, net of issue costs	—	12	(12)
Other, net	(3)	(8)	5
	<u>\$ 263</u>	<u>\$ (112)</u>	<u>\$ 375</u>

Net cash provided by financing activities increased primarily due to (a) net cash proceeds from the issuance of \$1.175 billion aggregate principal amount of 8.75% Senior Secured Notes, \$525 million aggregate principal amount of 8.375% Senior Secured Notes and \$325 million aggregate principal amount of 8.00% Senior Secured Notes in the year ended December 31, 2023, and (b) decreased cash used to repay debt in scheduled installments, partially offset by (c) early repayments of \$1.38 billion aggregate principal amount of certain of our debt securities in the year ended December 31, 2023 compared to early repayments of \$77 million aggregate principal amount in the prior year.

Sources and uses of liquidity

Overview—We expect to use existing unrestricted cash balances, cash flows from operating activities, borrowings under our Secured Credit Facility or proceeds from the disposal of assets or the issuance of debt or shares to fulfill anticipated near-term obligations, which may include capital expenditures, working capital and other operational requirements, scheduled debt maturities or other payments. At December 31, 2023, we had \$762 million in unrestricted cash and cash equivalents and \$233 million in restricted cash and cash equivalents. We have generated positive cash flows from operating activities over recent years and, although we cannot provide assurances, we expect that such cash flows will continue to be positive over the next year. For example, among other factors, if we incur costs for reactivation or contract preparation of multiple rigs or to otherwise assure the marketability of our fleet or general economic, financial, industry or business conditions deteriorate, our cash flows from operations may be reduced or negative.

Additionally, we have a bank credit agreement for a credit facility, secured by, among other things, a lien on nine of our ultra-deepwater floaters and two of our harsh environment floaters (as amended from time to time, the “Secured Credit Facility”). Our Secured Credit Facility provides us with a borrowing capacity of \$600 million through its scheduled maturity on June 22, 2025, and contains restrictive covenants, including a minimum guarantee coverage ratio of 3.0 to 1.0, a minimum collateral coverage ratio of 2.1 to 1.0 and a minimum liquidity requirement of \$500 million, among others. For more information about the restrictions in our Secured Credit Facility and maturity triggers thereof, as well as on our scheduled debt maturities in 2024 and beyond, see Notes to Consolidated Financial Statements—Note 9—Debt.

Although we currently anticipate relying on these sources of liquidity, including cash flows from operating activities and borrowings under our Secured Credit Facility, among others, we may in the future consider establishing additional financing arrangements with banks or other capital providers, including shipyard loans, and subject to market conditions and other factors, we may be required to provide collateral for any such future financing arrangements. Additionally, we have from time to time relied on issuances of equity or equity-linked securities. For more information about our issuances of equity securities, see Notes to Consolidated Financial Statements—Note 9—Debt and Notes to Consolidated Financial Statements—Note 14—Equity.

Debt and equity markets—From time to time, we seek to access the capital markets, including with respect to potential liability management transactions. For example, during the three-year period ended December 31, 2023, we completed multiple debt and equity transactions, including the redemption, exchanges and retirement of existing debt, in connection with our ongoing efforts to prudently manage our capital structure and improve our liquidity position. Subject to then-existing market conditions and our expected liquidity needs, among other factors, we may use existing unrestricted cash balances, our cash flows from operating activities, or proceeds from asset sales to pursue liability management transactions, including among others, purchasing or exchanging any of our debt or equity-linked securities in

the open market, in privately negotiated transactions, or through tender or exchange offers, or by redeeming any of our outstanding debt securities pursuant to the terms of the applicable governing document, if applicable. Any future purchases, exchanges or other transactions may be on the same terms or on terms that are more or less favorable to holders than the terms of any prior transaction. We can provide no assurance as to which, if any, of these alternatives, or combinations thereof, we may choose to pursue in the future, if at all, or as to the timing with respect to any future transactions. For more information about our previous debt repayment, redemption and retirement transactions during the three-year period ended December 31, 2023, see Notes to Consolidated Financial Statements—Note 9—Debt.

Our ability and willingness to access the debt and equity markets is a function of a variety of factors, including, among others, general economic, industry or market conditions, market perceptions of us and our industry and credit rating agencies' views of our debt. General economic or market conditions could have an adverse effect on our business and financial position and on the business and financial position of our customers, suppliers and lenders and could affect our ability to access the capital markets on acceptable terms or at all and our future need or ability to borrow under our Secured Credit Facility. In addition to our potential sources of funding, the effects of such global events could impact our liquidity or need to alter our allocation or sources of capital, implement further cost reduction measures and change our financial strategy. Additionally, the rating of our long-term debt is below investment grade, which is causing us to experience increased fees and interest rates under our Secured Credit Facility and indentures governing certain of our senior notes. Future downgrades may further restrict our ability to access the debt market for sources of capital and may negatively impact the cost of such capital at a time when we would like, or need, to access such markets, which could have an impact on our flexibility to react to changing economic and business conditions.

Drilling fleet—From time to time, we review possible acquisitions of businesses and drilling rigs, as well as noncontrolling ownership interests in other companies, and we may make significant future capital commitments for such purposes. We may also consider investments related to major rig upgrades, new rig construction, or the acquisition of a rig under construction. Any such acquisition or investment could involve the payment by us of a substantial amount of cash or the issuance of a substantial number of additional shares or other securities. Our failure to subsequently secure drilling contracts in these instances, if not already secured, could have an adverse effect on our results of operations or cash flows.

In the years ended December 31, 2023 and 2022, we made capital expenditures of \$427 million and \$717 million, respectively, including \$331 million and \$669 million, respectively, for our newbuild construction projects. The historical and projected capital expenditures and non-cash capital additions for our ongoing newbuild construction projects were as follows:

	Total costs through December 31, 2023	Expected costs for the year ending December 31, 2024	Total
		(in millions)	
Deepwater Aquila (a)	\$ 301	\$ 139	\$ 440
Deepwater Titan (b)	1,165	—	1,165
Deepwater Atlas (c)	1,000	—	1,000
Total	\$ 2,466	\$ 139	\$ 2,605

- (a) In September 2023, we acquired *Deepwater Aquila*, an ultra-deepwater drillship under construction for Liquila, a previously unconsolidated variable interest entity, by acquiring the outstanding ownership interests in Liquila. The seventh generation, high-specification drillship is designed to be equipped with our patented dual activity, a 1,400 short-ton hookload, large deck space, high load capacities and will be dual-stack ready. The rig is expected to commence operations under its drilling contract in mid-2024.
- (b) In May 2023, we completed construction of the ultra-deepwater drillship *Deepwater Titan*, and it commenced operations under its drilling contract. *Deepwater Titan* is equipped with two 20,000 pounds per square inch blowout preventers and other equipment required by our customer.
- (c) In October 2022, we completed construction of the ultra-deepwater drillship *Deepwater Atlas*, and it commenced the first of two phases of operations using a 15,000 pounds per square inch blowout preventer. In October 2023, the rig completed installation of a 20,000 pounds per square inch blowout preventer and related equipment, and is expected to return to service in the first half of 2024.

The ultimate amount of our capital expenditures is partly dependent upon financial market conditions, the actual level of operational and contracting activity, the costs associated with the current regulatory environment and customer requested capital improvements and equipment for which the customer agrees to reimburse us. As with any major shipyard project that takes place over an extended period of time, the actual costs, the timing of expenditures and the project completion date may vary from estimates based on numerous factors, including actual contract terms, weather, exchange rates, shipyard labor conditions, availability of suppliers to recertify equipment and the market demand for components and resources required for drilling unit construction. We intend to fund the cash requirements for our projected capital expenditures by using available cash balances, cash generated from operations and asset sales, borrowings under our Secured Credit Facility and financing arrangements with banks or other capital providers. Economic conditions and other factors could impact the availability of these sources of funding. See “—Sources and uses of liquidity.”

From time to time, we may also review the possible disposition of certain drilling assets. During the year ended December 31, 2023, we made a non-cash contribution of an ultra-deepwater floater, together with related assets and a cash contribution of \$10 million, as consideration for an equity ownership interest in an unconsolidated affiliate. Additionally, on February 15, 2024, we completed the sale of two harsh environment floaters. Considering market conditions, we have previously committed to plans to sell certain lower specification

drilling units for scrap value, and we may identify additional lower-specification drilling units to be sold for scrap, recycling or alternative purposes. See Notes to Consolidated Financial Statements—Note 7—Long-Lived Assets.

Contractual obligations—We provide additional information about our cash requirements for known contractual and other obligations on both a short-term and long-term basis in the notes to our consolidated financial statements as follows:

- For additional information regarding our operating and finance lease obligations, see Notes to Consolidated Financial Statements—Note 8—Leases.
- For additional information regarding our debt obligations and scheduled maturities, see Notes to Consolidated Financial Statements—Note 9—Debt.
- For additional information regarding the obligations to our employees under our various postemployment benefit plans, see Notes to Consolidated Financial Statements—Note 10—Postemployment Benefit Plans.
- For additional information regarding our tax obligations, see Notes to Consolidated Financial Statements—Note 11—Income Taxes.
- For additional information regarding our obligations under long-term purchase agreements and service agreements and our material contingencies, see Notes to Consolidated Financial Statements—Note 13—Commitments and Contingencies.

Other commercial commitments—We have other commercial commitments, such as standby letters of credit and surety bonds that guarantee our performance as it relates to our drilling contracts, insurance, customs, tax and other obligations in various jurisdictions. The cash obligations of these commitments, which are primarily geographically concentrated in Brazil, are not normally called because we typically comply with the underlying performance requirements. Standby letters of credit are issued under various committed and uncommitted credit lines, some of which require cash collateral. For additional information regarding our standby letters of credit and surety bond guarantees, see Notes to Consolidated Financial Statements—Note 13—Commitments and Contingencies.

RELATED PARTY TRANSACTIONS

In April 2023, Perestroika AS (together with its subsidiaries, “Perestroika”), an entity affiliated with one of our directors that beneficially owns approximately 11 percent of our shares, exchanged \$213 million aggregate principal amount of the 2.50% Senior Guaranteed Exchangeable Bonds under the terms of the governing indenture at the applicable exchange rate of 162.1626 Transocean Ltd. shares per \$1,000 note. As part of the transaction governing the exchange, we delivered 34.6 million Transocean Ltd. shares and additional immaterial cash consideration to such exchanging holder. The director’s beneficial ownership of our shares resulting from these transactions did not change. See Notes to Consolidated Financial Statements—Note 9—Debt.

In September 2023, we issued 11.9 million Transocean Ltd. shares with an aggregate value of \$99 million, which included 2.0 million Transocean Ltd. shares with an aggregate value of \$16.4 million issued to Perestroika, to acquire the outstanding ownership interests in Liquila, and as a result, Liquila became our wholly owned subsidiary. See Notes to Consolidated Financial Statements—Note 4—Unconsolidated Affiliates.

We engage in certain related party transactions with our unconsolidated affiliates. Our most significant transactions with our unconsolidated affiliates are under agreements with Orion Holdings (Cayman) Limited as follows: (a) we operate, stack and maintain *Transocean Norge* under a management services agreement, (b) we market *Transocean Norge* under a marketing services agreement and (c) during operations, we lease *Transocean Norge* under a bareboat charter agreement. Additionally, we procure and provide services and equipment from and to other unconsolidated affiliates for technological innovation and subsea minerals exploration. See Notes to Consolidated Financial Statements—Note 4—Unconsolidated Affiliates.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Overview

We prepare our consolidated financial statements in accordance with accounting principles generally accepted in the U.S., which require us to make estimates that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures of contingent assets and liabilities. These estimates require significant judgments and assumptions. We evaluate our estimates on an ongoing basis using historical experience and various other assumptions that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

We consider the following to be our critical accounting policies and estimates since they are very important to the portrayal of our financial condition and results and require our most subjective and complex judgments. We have discussed the development, selection and disclosure of such policies and estimates with the audit committee of our board of directors. For information about our significant accounting policies and accounting standards updates, see Notes to Consolidated Financial Statements—Note 2—Significant Accounting Policies.

Income taxes

Overview—We provide for income taxes based on expected taxable income, statutory rates and tax laws in the jurisdictions in which we operate or have a taxable presence. The relationship between our provision for or benefit from income taxes and our income or loss before income taxes can vary significantly from period to period considering, among other factors, (a) the overall level of income before income taxes, (b) changes in the blend of income that is taxed based on gross revenues rather than income before taxes, (c) rig movements

between taxing jurisdictions and (d) our rig operating structures. Consequently, our income tax expense does not change proportionally with our income or loss before income taxes.

Uncertain tax positions—We apply significant judgment to evaluate our tax positions based on the interpretation of tax laws in various jurisdictions and with the use of estimates and assumptions regarding significant future events, such as the amount, timing and character of income, deductions and tax credits. Our tax liability in any given year could be affected by changes in tax laws, regulations, agreements, and treaties, currency exchange restrictions or our level or profitability of operations in each jurisdiction. The tax laws relating to the offshore drilling industry in certain jurisdictions in which we operate are not well developed, requiring us to apply incremental judgment. Although we employ the best information available at the time we prepare our annual tax provision, a number of years may elapse before the tax liabilities in the various jurisdictions are ultimately determined.

We are undergoing examinations of our tax returns in a number of taxing jurisdictions for various years. We review our liabilities on an ongoing basis and, to the extent audits or other events cause us to adjust the liabilities accrued in prior periods, we recognize those adjustments in the period of the event. Our tax liabilities are dependent on numerous factors that cannot be reasonably projected, including among others, the amount and nature of additional taxes potentially asserted by local tax authorities; the willingness of local tax authorities to negotiate a fair settlement through an administrative process; the impartiality of the local courts; and the potential for changes in the taxes paid to one country that either produce, or fail to produce, offsetting tax changes in other countries. Consequently, we cannot reasonably estimate the future impact of changes to the assumptions and estimates related to our annual tax provision.

Unrecognized tax benefits—We establish liabilities for estimated tax exposures, and the provisions and benefits resulting from changes to those liabilities are included in our annual tax provision along with related interest and penalties. Such tax exposures include potential challenges to intercompany pricing, disposition transactions, and withholding tax rates and their applicability. These exposures may be affected by changes in applicable tax law or other factors, which could cause us to revise our prior estimates, and are generally resolved through the settlement of audits within these tax jurisdictions or by judicial means. At December 31, 2023 and 2022, we had unrecognized tax benefits of \$458 million and \$471 million, respectively, including interest and penalties, against which we recorded net operating loss deferred tax assets of \$411 million and \$383 million, respectively, resulting in net unrecognized tax benefits of \$47 million and \$88 million, respectively, including interest and penalties, that upon reversal would favorably impact our effective tax rate.

Valuation allowance—We apply significant judgment to determine whether our deferred tax assets will be fully or partially realized. Our evaluation requires us to consider all available positive and negative evidence, including projected future taxable income and the existence of cumulative losses in recent years. We continually evaluate opportunities for the future utilization of our deferred tax assets. When it is estimated to be more likely than not that all or some portion of certain deferred tax assets, such as foreign tax credit carryovers or net operating loss carryforwards, will not be realized, we establish a valuation allowance for the amount of the deferred tax assets that is considered to be unrealizable. During the years ended December 31, 2023 and 2022, in connection with our evaluation of the projected realizability of our deferred tax assets, we determined that our consolidated cumulative loss incurred over the recent three-year period has limited our ability to consider other subjective evidence, such as projected contract activity rather than contract backlog. See Notes to Consolidated Financial Statements—Note 11—Income Taxes.

Property and equipment

Overview—We apply significant judgment to account for our property and equipment, consisting primarily of offshore drilling rigs and related equipment, related to estimates and assumptions for cost capitalization, useful lives and salvage values. At December 31, 2023 and 2022, the carrying amount of our property and equipment was \$16.94 billion and \$17.47 billion, respectively, representing 84 percent and 85 percent, respectively, of our total assets.

Capitalized costs—We capitalize costs incurred to enhance, improve and extend the useful lives of our property and equipment and expense costs incurred to repair and maintain the existing condition of our rigs. For newbuild construction projects, we also capitalize the initial preparation, mobilization and commissioning costs incurred until the drilling unit is placed into service. Cost capitalization affects our results of operations by reducing expenses in the period incurred and increasing depreciation expense over the useful life of the asset.

Useful lives and salvage values—We depreciate our assets using the straight-line method over their estimated useful lives after allowing for salvage values. We estimate useful lives and salvage values by applying judgments and assumptions that reflect both historical experience and expectations regarding future operations, rig utilization and asset performance. Useful lives and salvage values of rigs are difficult to estimate due to a variety of factors, including (a) technological advances that impact the methods or cost of oil and gas exploration and development, (b) changes in market or economic conditions and (c) changes in laws or regulations affecting the drilling industry. Applying different judgments and assumptions in establishing the useful lives and salvage values would likely result in materially different net carrying amounts and depreciation expense for our assets. We reevaluate the remaining useful lives and salvage values of our rigs when certain events occur that directly impact the useful lives and salvage values of the rigs, including changes in operating condition, functional capability and market and economic factors. We may also consider major capital upgrades required to perform certain contracts and the long-term impact of those upgrades on future marketability. At December 31, 2023, a hypothetical one-year increase in the useful lives of all of our rigs would cause a decrease in our annual depreciation expense of approximately \$33 million and a hypothetical one-year decrease would cause an increase in our annual depreciation expense of approximately \$13 million.

Long-lived asset impairment—We review our property and equipment for impairment when events or changes in circumstances indicate that the carrying amounts of our assets held and used may not be recoverable. Potential impairment indicators include rapid declines in commodity prices and related market conditions, declines in dayrates or utilization, cancellations of contracts or credit concerns of multiple customers. During periods of oversupply, we may idle or stack rigs for extended periods of time or we may elect to sell certain rigs for scrap, which could be an indication that an asset group may be impaired since supply and demand are the key drivers of rig utilization and our ability to contract our rigs at economical rates. Our rigs are mobile units, equipped to operate in geographic regions throughout the world and, consequently, we may mobilize rigs from an oversupplied region to a more lucrative and undersupplied region when it is economical to do so. Many of our contracts generally allow our customers to relocate our rigs from one geographic region to another, subject to certain conditions, and our customers utilize this capability to meet their worldwide drilling requirements. Accordingly, our rigs are considered to be interchangeable within classes or asset groups, and we evaluate impairment by asset group. We consider our asset groups to be ultra-deepwater floaters and harsh environment floaters.

We assess recoverability of assets held and used by projecting undiscounted cash flows for the asset group being evaluated. When the carrying amount of the asset group is determined to be unrecoverable, we recognize an impairment loss, measured as the amount by which the carrying amount of the asset group exceeds its estimated fair value. To estimate the fair value of each asset group, we apply a variety of valuation methods, incorporating income, market and cost approaches. We may weigh the approaches, under certain circumstances, when relevant data is limited, when results are inconclusive or when results deviate significantly. Our estimate of fair value generally requires us to use significant unobservable inputs, representative of Level 3 fair value measurements, including assumptions related to the long-term future performance of our asset groups, such as projected revenues and costs, dayrates, rig utilization and revenue efficiency. These projections involve uncertainties that rely on assumptions about demand for our services, future market conditions and technological developments. Because our business is cyclical in nature, the results of our impairment testing are expected to vary significantly depending on the timing of the assessment relative to the business cycle. Altering either the timing of or the assumptions used to estimate fair value and significant unanticipated changes to the assumptions could materially alter an outcome that could otherwise result in an impairment loss. Given the nature of these evaluations and their application to specific asset groups and specific time periods, it is not possible to reasonably quantify the impact of changes in these assumptions. See Notes to Consolidated Financial Statements—Note 7—Long-Lived Assets.

OTHER MATTERS

Regulatory matters

We occasionally receive inquiries from governmental regulatory agencies regarding our operations around the world, including inquiries with respect to various tax, environmental, regulatory and compliance matters. To the extent appropriate under the circumstances, we investigate such matters, respond to such inquiries and cooperate with the regulatory agencies. See Notes to Consolidated Financial Statements—Note 13—Commitments and Contingencies.

Tax matters

We conduct operations through our various subsidiaries in countries throughout the world. Each country has its own tax regimes with varying statutory rates, deductions and tax attributes, which are subject to changes resulting from new legislation, interpretation or guidance. From time to time, as a result of these changes, we may revise previously evaluated tax positions, which could cause us to adjust our recorded tax assets and liabilities. Tax authorities in certain jurisdictions are examining our tax returns and, in some cases, have issued assessments. We intend to defend our tax positions vigorously. Although we can provide no assurance as to the outcome of the aforementioned changes, examinations or assessments, we do not expect the ultimate liability to have a material adverse effect on our consolidated statement of financial position or results of operations; however, it could have a material adverse effect on our consolidated statement of cash flows. See Notes to Consolidated Financial Statements—Note 11—Income Taxes.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Overview—We are exposed to interest rate risk, primarily associated with our long-term debt, including current maturities. Additionally, we are exposed to equity price risk related to certain of our exchangeable bonds and currency exchange rate risk related to our international operations.

Interest rate risk—The following table presents the scheduled installment amounts and related weighted-average interest rates of our long-term debt instruments by contractual maturity date. The expected maturity amounts, presented below, include both principal and other installments. The following table presents information as of December 31, 2023, for each of the five years in the period ending December 31, 2028 and thereafter (in millions, except interest rate percentages):

	Years ended December 31,					Thereafter	Total	Fair value
	2024	2025	2026	2027	2028			
Debt								
Fixed rate (USD)	\$ 391	\$ 1,140	\$ 1,182	\$ 1,936	\$ 664	\$ 1,970	\$ 7,283	\$ 7,308
Average interest rate	5.89 %	6.16 %	6.96 %	5.17 %	7.83 %	7.41 %		

At December 31, 2023 and 2022, the fair value of our outstanding debt was \$7.31 billion and \$6.41 billion, respectively. During the year ended December 31, 2023, the fair value of our debt increased by \$896 million due to the following: (a) an increase of \$2.05 billion due to the issuance of the 8.375% senior secured notes due February 2028, 8.00% senior secured notes due September 2028 and the 8.75% senior secured notes due February 2030, (b) a net increase of \$817 million resulting from changes in the market prices of our outstanding debt, partially offset by (c) a decrease of \$1.36 billion due to early retirement of certain notes, (d) a decrease of \$380 million due to the exchange of the 2.50% senior guaranteed exchangeable bonds due January 2027 and partial exchanges of the 4.00% senior guaranteed exchangeable bonds due December 2025 and the 4.625% senior guaranteed exchangeable bonds due September 2029 (the "4.625% Senior Guaranteed Exchangeable Bonds") and (e) a decrease of \$225 million due to scheduled installments. See Notes to Consolidated Financial Statements—Note 9—Debt and Notes to Consolidated Financial Statements—Note 19—Risk Concentration.

The majority of our cash equivalents is subject to variable interest rates or short-term interest rates and such cash equivalents earn commensurately higher rates of return when interest rates increase.

Equity price risk—We are exposed to equity price risk primarily related to the bifurcated compound exchange feature contained within the 4.625% Senior Guaranteed Exchangeable Bonds. The compound exchange feature must be bifurcated from the host debt instrument since it is not considered indexed to our stock. The market price of our shares is the primary driver of the fair value of the exchange feature. At December 31, 2023, the fair value of the bifurcated compound exchange feature was \$350 million. At December 31, 2023, a 10 percent hypothetical increase or decrease to the market price of our shares would result in a \$43 million increase or decrease in the carrying amount of the exchange feature, recorded as a component of our debt, and a corresponding adjustment to interest expense. See Notes to Consolidated Financial Statements—Note 9—Debt and Notes to Consolidated Financial Statements—Note 19—Risk Concentration.

Currency exchange rate risk—We are exposed to currency exchange rate risk primarily related to contract drilling revenues, employee compensation costs and purchasing costs that are denominated in currencies other than our functional currency, the U.S. dollar. We use a variety of techniques to minimize the exposure to currency exchange rate risk, including the structuring of customer contract payment terms and occasional use of forward exchange contracts. Our primary tool to manage currency exchange rate risk involves structuring customer contracts to provide for payment in both U.S. dollars and local currency. The payment portion denominated in local currency is based on anticipated local currency requirements over the contract term. Due to various factors, including customer acceptance, local banking laws, national content requirements, other statutory requirements, local currency convertibility, local inflation and revenue efficiency, actual local currency needs may vary from those realized in the customer contracts, resulting in partial exposure to currency exchange rate risk. The currency exchange effect resulting from our international operations generally has not had a material impact on our operating results. See Notes to Consolidated Financial Statements—Note 19—Risk Concentration.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Management's Report on Internal Control Over Financial Reporting

Management of Transocean Ltd. (the "Company," "we" or "our") is responsible for the integrity and objectivity of the financial information included in this annual report. We have prepared our financial statements in accordance with accounting principles generally accepted in the United States, which require us to apply our best judgement to make estimates and assumptions for certain amounts. We are responsible for establishing and maintaining a system of internal controls and procedures to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the consolidated financial statements. Our internal control system is supported by a program of internal audits and appropriate reviews by management, written policies and guidelines, careful selection of qualified personnel, and a written Code of Integrity. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements and, even when determined to be effective, can only provide reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness in future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934. Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2023. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission, as described in *Internal Control-Integrated Framework*, as published in 2013. Based on this assessment, management believes that the Company maintained effective internal control over financial reporting as of December 31, 2023.

The Company's independent auditors, Ernst & Young LLP, a registered public accounting firm, are appointed by the audit committee of the Company's board of directors, subject to ratification by our shareholders. Ernst & Young LLP has audited and reported on the consolidated financial statements of Transocean Ltd. and subsidiaries, and the Company's internal control over financial reporting. The reports of the independent auditors are contained in this annual report.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of Transocean Ltd.

Opinion on Internal Control Over Financial Reporting

We have audited Transocean Ltd. and subsidiaries' internal control over financial reporting as of December 31, 2023, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, Transocean Ltd. and subsidiaries (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2023, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of December 31, 2023 and 2022, the related consolidated statements of operations, comprehensive loss, equity and cash flows for each of the three years in the period ended December 31, 2023, and the related notes and financial statement schedule listed in the Index at Item 15(a) and our report dated February 20, 2024 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Houston, Texas
February 20, 2024

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of Transocean Ltd.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Transocean Ltd. and subsidiaries (the Company) as of December 31, 2023 and 2022, the related consolidated statements of operations, comprehensive loss, equity and cash flows for each of the three years in the period ended December 31, 2023, and the related notes and financial statement schedule listed in the Index at Item 15(a) (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2023, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2023, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework), and our report dated February 20, 2024, expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current period audit of the financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective or complex judgments. The communication of the critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Income Taxes

Description of the Matter

As discussed in Notes 2 and 11 to the consolidated financial statements, the Company operates in multiple jurisdictions through a complex operating structure and is subject to applicable tax laws, treaties or regulations in each jurisdiction where it operates. The Company's provision for income taxes is based on the tax laws and rates applicable in each jurisdiction. The Company recognizes tax benefits they believe are more likely than not to be sustained upon examination by the taxing authorities based on the technical merits of the position.

Auditing management's provision for income taxes and related deferred taxes was complex because of the Company's multi-national operating structure. In addition, a higher degree of auditor judgment was required to evaluate the Company's deferred tax provision as a result of the Company's interpretation of tax law in certain jurisdictions across its multiple subsidiaries.

*How We Addressed
the Matter in Our Audit*

We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over the Company's income tax provision process, including controls over management's review of the identification and valuation of deferred income taxes and changes in tax laws and regulations that may impact the Company's deferred income tax provision.

Our audit procedures also included, among others, (i) obtaining an understanding of the Company's overall tax structure, evaluating changes in the Company's tax structure that occurred during the year as well as changes in tax law, and assessing the interpretation of those changes under the relevant jurisdiction's tax law; (ii) utilizing tax resources with appropriate knowledge of local jurisdictional laws and regulations; (iii) evaluating the completeness and accuracy of deferred income taxes, and (iv) assessing the reasonableness of the Company's valuation allowance on deferred tax assets, including projections of taxable income from the future reversal of existing taxable temporary differences.

Loss on Disposal of Ocean Rig Olympia

*Description of the
Matter*

As discussed in Notes 4 and 7 to the consolidated financial statements, the Company made a non-cash contribution of the ultra-deepwater floater *Ocean Rig Olympia*, and related assets, with an estimated fair value of \$85 million, in exchange for a noncontrolling ownership interest in Global Sea Mineral Resources NV. As a result, the Company recognized a loss of \$169 million, associated with the disposal of the rig and related assets for the year ended December 31, 2023.

Auditing management's estimate of the fair value of *Ocean Rig Olympia* and related assets was complex and judgmental due to the estimation required in determining the fair value of *Ocean Rig Olympia*. In particular, the fair value estimate of *Ocean Rig Olympia* was sensitive to significant assumptions such as the discount rate, rig utilization, revenue efficiency and dayrates.

*How We Addressed
the Matter in Our Audit*

We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over the Company's process to determine the fair value of the rig and related loss on disposal of assets calculation, including controls over management's review of the significant assumptions described above as well as over the underlying data used in the fair value and related loss determination.

To test the estimated fair value of *Ocean Rig Olympia* we performed audit procedures that included, among others, (i) assessing the valuation methodologies utilized by management; (ii) testing the significant assumptions discussed above; (iii) testing the completeness and accuracy of the underlying data used by the Company in its analysis; and (iv) testing the mathematical accuracy of the fair value and related loss on disposal of assets calculations. We involved a valuation specialist to assist in our evaluation of the Company's model, valuation methodology and significant assumptions. We reviewed for contrary evidence related to the determination of the fair value of the rig and related loss on disposal of assets, including reviewing relevant market data and internal Company forecasts.

/s/ Ernst & Young LLP

We have served as the Company's auditor since 1999.
Houston, Texas
February 20, 2024

To the General Meeting of
Transocean Ltd., Steinhausen

Zurich, February 20, 2024

Report of the statutory auditor

Report on the audit of the consolidated financial statements

Opinion

We have audited the accompanying consolidated financial statements of Transocean Ltd. and its subsidiaries (the Company), which comprise the consolidated balance sheets as of December 31, 2023 and 2022, and the related consolidated statements of operations, comprehensive loss, equity and cash flows for each of the three years in the period ended December 31, 2023, and the related notes, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2023, in conformity with U.S. generally accepted accounting principles (US GAAP) and comply with Swiss law.

Basis for opinion

We conducted our audit in accordance with Swiss law, Swiss Standards on Auditing (SA-CH) and the standards of the Public Company Accounting Oversight Board (United States) (PCAOB standards). Our responsibility is to express an opinion on these consolidated financial statements based on our audit and our responsibilities under those provisions and standards are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements" section of our report. We are a public accounting firm and are independent of the Company in accordance with the provisions of Swiss law, U.S. federal securities law, together with the requirements of the Swiss audit profession, the U.S. Securities and Exchange Commission and the PCAOB and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Critical audit matters

The critical audit matters communicated below are the matters arising from the current period audit of the consolidated financial statements that were communicated or required to be communicated to the Audit committee and that: (1) relate to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of the critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Income Taxes

Description of the Matter

As discussed in Notes 2 and 11 to the consolidated financial statements, the Company operates in multiple jurisdictions through a complex operating structure and is subject to applicable tax laws, treaties or regulations in each jurisdiction where it operates. The Company's provision for income taxes is based on the tax laws and rates applicable in each jurisdiction. The Company recognizes tax benefits they believe are more likely than not to be sustained upon examination by the taxing authorities based on the technical merits of the position.

Auditing management's provision for income taxes and related deferred taxes was complex because of the Company's multi-national operating structure. In addition, a higher degree of auditor judgment was required to evaluate the Company's deferred tax provision as a result of the Company's interpretation of tax law in certain jurisdictions across its multiple subsidiaries.

How We Addressed the Matter in Our Audit

We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over the Company's income tax provision process, including controls over management's review of the identification and

valuation of deferred income taxes and changes in tax laws and regulations that may impact the Company's deferred income tax provision.

Our audit procedures also included, among others, (i) obtaining an understanding of the Company's overall tax structure, evaluating changes in the Company's tax structure that occurred during the year as well as changes in tax law, and assessing the interpretation of those changes under the relevant jurisdiction's tax law; (ii) utilizing tax resources with appropriate knowledge of local jurisdictional laws and regulations; (iii) evaluating the completeness and accuracy of deferred income taxes, and (iv) assessing the reasonableness of the Company's valuation allowance on deferred tax assets, including projections of taxable income from the future reversal of existing taxable temporary differences.

Loss on Disposal of *Ocean Rig Olympia*

Description of the Matter

As discussed in Notes 4 and 7 to the consolidated financial statements, the Company made a non-cash contribution of the ultra-deepwater floater *Ocean Rig Olympia*, and related assets, with an estimated fair value of \$85 million, in exchange for a noncontrolling ownership interest in Global Sea Mineral Resources NV. As a result, the Company recognized a loss of \$169 million, associated with the disposal of the rig and related assets for the year ended December 31, 2023.

Auditing management's estimate of the fair value of *Ocean Rig Olympia* and related assets was complex and judgmental due to the estimation required in determining the fair value of *Ocean Rig Olympia*. In particular, the fair value estimate of *Ocean Rig Olympia* was sensitive to significant assumptions such as the discount rate, rig utilization, revenue efficiency and dayrates.

How We Addressed the Matter in Our Audit

We obtained an understanding, evaluated the design and tested the operating effectiveness of controls over the Company's process to determine the fair value of the rig and related loss on disposal of assets calculation, including controls over management's review of the significant assumptions described above as well as over the underlying data used in the fair value and related loss determination.

To test the estimated fair value of *Ocean Rig Olympia* we performed audit procedures that included, among others, (i) assessing the valuation methodologies utilized by management; (ii) testing the significant assumptions discussed above; (iii) testing the completeness and accuracy of the underlying data used by the Company in its analysis; and (iv) testing the mathematical accuracy of the fair value and related loss on disposal of assets calculations. We involved a valuation specialist to assist in our evaluation of the Company's model, valuation methodology and significant assumptions. We reviewed for contrary evidence related to the determination of the fair value of the rig and related loss on disposal of assets, including reviewing relevant market data and internal Company forecasts.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements, the stand-alone financial statements, the compensation report and our auditor's reports thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

Board of Directors' responsibilities for the consolidated financial statements

The Board of Directors is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with US GAAP and the provisions of Swiss law, and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law, SA-CH and PCAOB standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Swiss law, SA-CH and PCAOB standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.
- ▶ Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ▶ Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Company's audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors and the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors and the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters arising from the audit of the consolidated financial statements that were communicated or required to be communicated to the Board of Directors and the Audit Committee, we determine those matters that related to accounts or disclosures that are material to the consolidated financial statements and involved especially challenging, subjective, or complex auditor judgment in the current period and are therefore critical audit matters.

Report on other legal and regulatory requirements

In accordance with Art. 728a para. 1 item 3 CO and PS-CH 890, we confirm that an internal control system exists, which has been designed for the preparation of the consolidated financial statements according to the instructions of the Board of Directors.

We recommend that the consolidated financial statements submitted to you be approved.

We have served as the Group's auditor since 2008.

TRANSOCEAN LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1—BUSINESS

Transocean Ltd. (together with its subsidiaries and predecessors, unless the context requires otherwise, “Transocean,” “we,” “us” or “our”) is a leading international provider of offshore contract drilling services for oil and gas wells. As of December 31, 2023, we owned or had partial ownership interests in and operated a fleet of 37 mobile offshore drilling units, consisting of 28 ultra-deepwater floaters and nine harsh environment floaters. As of December 31, 2023, we were constructing one ultra-deepwater drillship.

We provide, as our primary business, contract drilling services in a single operating segment, which involves contracting our mobile offshore drilling rigs, related equipment and work crews to drill oil and gas wells. We specialize in technically demanding regions of the global offshore drilling business with a particular focus on ultra-deepwater and harsh environment drilling services. Our drilling fleet is one of the most versatile fleets in the world, consisting of drillships and semisubmersible floaters used in support of offshore drilling activities and offshore support services on a worldwide basis.

We perform contract drilling services by deploying our high-specification fleet in a single, global market that is geographically dispersed in oil and gas exploration and development areas throughout the world. The location of our rigs and the allocation of our resources to build or upgrade rigs are determined by the activities and needs of our customers.

NOTE 2—SIGNIFICANT ACCOUNTING POLICIES

Accounting estimates—To prepare financial statements in accordance with accounting principles generally accepted in the United States (“U.S.”), we must make judgments by applying estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates and assumptions, including those related to our income taxes, property and equipment, equity investments, contingencies, allowance for excess materials and supplies, assets held for sale, intangibles, postemployment benefit plans and share-based compensation. We base our estimates and assumptions on historical experience and other factors that we believe are reasonable. Actual results could differ from such estimates.

Fair value measurements—We estimate fair value at an exchange price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. Our valuation techniques require inputs that we categorize using a three-level hierarchy, from highest to lowest level of observable inputs, as follows: (1) significant observable inputs, including unadjusted quoted prices for identical assets or liabilities in active markets (“Level 1”), (2) significant other observable inputs, including direct or indirect market data for similar assets or liabilities in active markets or identical assets or liabilities in less active markets (“Level 2”) and (3) significant unobservable inputs, including those that require considerable judgment for which there is little or no market data (“Level 3”). When a valuation requires multiple input levels, we categorize the entire fair value measurement according to the lowest level of input that is significant to the measurement even though we may have also utilized significant inputs that are more readily observable.

Consolidation—We consolidate entities in which we have a majority voting interest and entities that meet the criteria for variable interest entities for which we are deemed to be the primary beneficiary for accounting purposes. We eliminate intercompany transactions and accounts in consolidation. We apply the equity method of accounting for an equity investment in an unconsolidated entity if we have the ability to exercise significant influence over the entity that (a) does not meet the variable interest entity criteria or (b) meets the variable interest entity criteria, but for which we are not deemed to be the primary beneficiary. We measure other equity investments at fair value if the investment has a fair value that is readily determinable; otherwise, we measure the investment at cost, less any impairment. We separately present within equity on our consolidated balance sheets the ownership interests attributable to parties with noncontrolling interests in our consolidated subsidiaries, and we separately present net income attributable to such parties on our consolidated statements of operations. See Note 4—Unconsolidated Affiliates and Note 14—Equity.

Functional currency—We consider the U.S. dollar to be the functional currency for all of our operations since the majority of our revenues and expenditures are denominated in U.S. dollars, which limits our exposure to currency exchange rate fluctuations. We recognize currency exchange rate gains and losses in other, net. In the years ended December 31, 2023, 2022 and 2021, we recognized a net gain of \$10 million, a net loss of \$8 million and a net loss of \$1 million, respectively, related to currency exchange rates.

Revenues and related pre-operating costs—We recognize revenues earned under our drilling contracts based on variable dayrates, which range from a full operating dayrate to lower rates or zero rates for periods when drilling operations are interrupted or restricted, based on the specific activities we perform during the contract on an hourly, or more frequent, basis. Such dayrate consideration is attributed to the distinct time period to which it relates within the contract term, and therefore, is recognized as we perform the services. When the operating dayrate declines over the contract term, we recognize revenues on a straight-line basis over the estimated contract period. We recognize reimbursement revenues and the corresponding costs as we provide the customer-requested goods and services, when such reimbursable costs are incurred while performing drilling operations. Prior to performing drilling operations, we may receive pre-operating revenues, on either a fixed lump-sum or variable dayrate basis, for mobilization, contract preparation, customer-requested goods and services or capital upgrades, for which we record a contract liability and recognize as revenues on a straight-line basis over the estimated contract period. We recognize losses for loss contracts as such losses are incurred. We recognize revenues for demobilization

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

over the contract period unless otherwise constrained. We recognize revenues from contract terminations as we fulfill our obligations and all contingencies have been resolved. We apply the optional exemption that permits us to exclude disclosure of the estimated transaction price related to the variable portion of unsatisfied performance obligations at the end of the reporting period, as our transaction price is typically based on a single performance obligation consisting of a series of distinct hourly, or more frequent, periods, the variability of which will be resolved at the time of the future services.

To obtain contracts with our customers, we incur pre-operating costs to prepare a rig for contract and mobilize a rig to the drilling location. We defer such pre-operating contract preparation and mobilization costs for recognition in operating and maintenance costs over the estimated contract period on a straight-line basis, consistent with the general pace of activity. See Note 5—Revenues.

Income taxes—We provide for income taxes based on expected taxable income, statutory rates and tax laws in the jurisdictions in which we operate or have a taxable presence. We recognize the effect of changes in tax laws as of the date of enactment. We recognize potential global intangible low-taxed income inclusions as a period cost.

We maintain liabilities for estimated tax exposures in our jurisdictions of operation, and we recognize the provisions and benefits resulting from changes to those liabilities in our income tax expense or benefit along with related interest and penalties. Income tax exposure items include potential challenges to permanent establishment positions, intercompany pricing, disposition transactions, and withholding tax rates and their applicability. These tax exposures are resolved primarily through the settlement of audits within these tax jurisdictions or by judicial means, but can also be affected by changes in applicable tax law or other factors, which could cause us to revise past estimates.

We measure deferred tax assets and liabilities using enacted tax rates that will apply in the years in which the deferred tax assets and liabilities are expected to be recovered or paid. In evaluating our ability to realize deferred tax assets, we consider all available positive and negative evidence, including projected future taxable income and the existence of cumulative losses in recent years. We record a valuation allowance for deferred tax assets when it is more likely than not that some or all of the benefit from the deferred tax asset will not be realized. For example, we may record a valuation allowance for deferred tax assets resulting from net operating losses incurred during the year in certain jurisdictions for which the benefit of the losses will not be realized or for foreign tax credit carryforwards that may expire prior to their utilization. See Note 11—Income Taxes.

Cash and cash equivalents—We consider cash equivalents to include highly liquid debt instruments with original maturities of three months or less, such as time deposits with commercial banks that have high credit ratings, U.S. Treasury and government securities, Eurodollar time deposits, certificates of deposit and commercial paper. We may also invest excess funds in no-load, open-ended, management investment trusts. Such management trusts invest exclusively in high-quality money market instruments.

Restricted cash and cash equivalents—We maintain restricted cash and cash equivalents that are either pledged for debt service under certain bond indentures, as required under certain bank credit arrangements, or held in accounts that are subject to restrictions due to legislation, regulation or court order. We classify such restricted cash and cash equivalents in current assets if the restriction is expected to expire or otherwise be resolved within one year or if such funds are considered to offset liabilities that are properly classified as current liabilities. See Note 9—Debt.

Materials and supplies—We record materials and supplies at their average cost less an allowance for excess items. We estimate the allowance for excess items based on historical experience and expectations for future use of the materials and supplies. At December 31, 2023 and 2022, our allowance for excess items was \$198 million and \$199 million, respectively.

Property and equipment—We apply judgment to account for our property and equipment, consisting primarily of offshore drilling rigs and related equipment, related to estimates and assumptions for cost capitalization, useful lives and salvage values. We base our estimates and assumptions on historical experience and expectations regarding future industry conditions and operations. At December 31, 2023, the aggregate carrying amount of our property and equipment represented approximately 84 percent of our total assets.

We capitalize expenditures for newbuilds, renewals, replacements and improvements, including capitalized interest, if applicable, and we recognize the expense for maintenance and repair costs as incurred. For newbuild construction projects, we also capitalize the initial preparation, mobilization and commissioning costs incurred until the drilling unit is placed into service. Upon sale or other disposition of an asset, we recognize a net gain or loss on disposal of the asset, which is measured as the difference between the net carrying amount of the asset and the net proceeds received. We compute depreciation using the straight-line method after allowing for salvage values.

The estimated original useful life of our drilling units is 35 years, our buildings and improvements range from three to 30 years and our machinery and equipment range from four to 20 years. We reevaluate the remaining useful lives and salvage values of our rigs when certain events occur that directly impact the useful lives and salvage values of the rigs, including changes in operating condition, functional capability and market and economic factors. When evaluating the remaining useful lives of rigs, we also consider major capital upgrades required to perform certain contracts and the long-term impact of those upgrades on future marketability.

Long-lived asset impairment—We review the carrying amounts of long-lived assets, including property and equipment and right-of-use assets, for potential impairment when events occur or circumstances change that indicate that the carrying amount of such assets may not be recoverable. For assets classified as held and used, we determine recoverability by evaluating the estimated undiscounted future net cash flows based on projected dayrates and utilization of the asset group under review. We consider our asset groups to be

TRANSOCEAN LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

ultra-deepwater floaters and harsh environment floaters. When an impairment of one or more of our asset groups is indicated, we measure an impairment as the amount by which the carrying amount of the asset group exceeds its estimated fair value. We measure the fair values of our asset groups by applying a variety of valuation methods, incorporating a combination of income, market and cost approaches, using projected discounted cash flows and estimates of the exchange price that would be received for the assets in the principal or most advantageous market for the assets in an orderly transaction between market participants as of the measurement date. For an asset classified as held for sale, we consider the asset to be impaired to the extent its carrying amount exceeds its estimated fair value less cost to sell. See Note 7—Long-Lived Assets.

Equity investments and impairment—We review our equity-method investments, and other equity investments for which a readily determinable fair value is not available, for potential impairment when events or changes in circumstances indicate that the carrying amount of the investment might not be recoverable in the near term. If we determine that an impairment that is other than temporary exists, we recognize an impairment loss, measured as the amount by which the carrying amount of the investment exceeds its estimated fair value. To estimate the fair value of the investment, we apply valuation methods that rely primarily on the income and market approaches. In the years ended December 31, 2023 and 2021, we recognized a loss of \$5 million and \$37 million, respectively, associated with the other-than-temporary impairment of the carrying amount of our equity investments. We amortize the basis difference caused by such impairments using the straight-line method over the estimated life of the asset. See Note 4—Unconsolidated Affiliates.

Pension and other postemployment benefit plans—We use a measurement date of January 1 for determining net periodic benefit costs and December 31 for determining plan benefit obligations and the fair values of plan assets. We determine our net periodic benefit costs based on a market-related value of assets that reduces year-to-year volatility by including investment gains or losses subject to amortization over a five-year period from the year in which they occur. We calculate investment gains or losses for this purpose as the difference between the expected return calculated using the market-related value of assets and the actual return based on the market-related value of assets. If gains or losses exceed 10 percent of the greater of plan assets or plan liabilities, we amortize such gains or losses over the average expected future service period of the employee participants.

We measure the actuarially determined obligations and related costs for our defined benefit pension and other postemployment benefit plans, retiree life insurance and medical benefits, by applying assumptions, the most significant of which include long-term rate of return on plan assets, discount rates and mortality rates. For the long-term rate of return, we develop our assumptions regarding the expected rate of return on plan assets based on historical experience and projected long-term investment returns, and we weight the assumptions based on each plan's asset allocation. For the discount rate, we base our assumptions on a yield curve approach using Aa-rated corporate bonds and the expected timing of future benefit payments. At December 31, 2023 and 2022, the funded status of our pension and other postemployment benefit plans represented an aggregate liability of \$125 million and \$174 million, respectively, and an aggregate asset of \$31 million and \$44 million, respectively. See Note 10—Postemployment Benefit Plans.

Share-based compensation—To measure the fair values of granted or modified service-based restricted share units, we use the market price of our shares on the grant date or modification date. To measure the fair values of granted or modified performance-based restricted share units subject to market factors, we use an average price at the performance start date and project performance based on a Monte Carlo simulation model under a risk-neutral approach and apply assumptions for the expected life, risk-free interest rate, expected volatility and dividend yield. To measure the fair values of granted or modified performance-based restricted share units that are subject to performance targets, we use the market price of our shares on the grant date or modification date and adjust the value for the projected performance rate expected to be achieved at the end of the measurement period. We recognize share-based compensation expense in the same financial statement line item as cash compensation paid to the respective employees or non-employee directors. We recognize such compensation expense on a straight-line basis over the service period through the date the employee or non-employee director is no longer required to provide service to earn the award. See Note 15—Share-Based Compensation.

Contingencies—We assess our contingencies on an ongoing basis to evaluate the appropriateness of our liabilities and disclosures for such contingencies. We establish liabilities for estimated loss contingencies when we believe a loss is probable and the amount of the probable loss can be reasonably estimated. Once established, we adjust the carrying amount of a contingent liability upon the occurrence of a recognizable event when facts and circumstances change, altering our previous assumptions with respect to the likelihood or amount of loss. We recognize corresponding assets for those loss contingencies that we believe are probable of being recovered through insurance. We recognize expense for legal costs as they are incurred, and we recognize a corresponding asset for such legal costs only if we expect such legal costs to be recovered through insurance.

NOTE 3—ACCOUNTING STANDARDS UPDATE

Recently issued accounting standards updates not yet adopted

Segment reporting—Effective no later than January 1, 2024, we will adopt the accounting standards update that requires incremental disclosures about a public entity's reportable segments but does not change the definition or guidance for determining reportable segments. The update, which explicitly applies to entities such as us with a single reportable segment, requires disclosure of the significant expense categories and amounts that are regularly provided to the chief operating decision-maker and included in the reported measure of segment profit or loss. Additionally, the update requires disclosures about the individual or the group or committee identified as the chief

TRANSOCEAN LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

operating decision-maker. The update, which permits early adoption, is effective for annual periods beginning after December 15, 2023 and must be applied retrospectively to all periods presented, unless impracticable. We continue to evaluate the requirements and do not expect our adoption to have a material effect on our consolidated statements of financial position, operations or cash flows or on the disclosures contained in our notes to consolidated financial statements.

Income taxes—Effective no later than January 1, 2025, we will adopt the accounting standards update that requires significant additional disclosures intended to enhance the transparency and decision-usefulness of income tax disclosures, particularly in the rate reconciliation table and disclosures about income taxes paid. The new guidance will be applied prospectively and permits, but does not require, retrospective application. The update, which permits early adoption, is effective for annual periods beginning after December 15, 2024. We continue to evaluate the requirements. Although we expect our adoption will require us to augment certain disclosures in our notes to consolidated financial statements, we do not expect our adoption to have a material effect on our consolidated statements of financial position, operations or cash flows.

NOTE 4—UNCONSOLIDATED AFFILIATES

Equity investments

Overview—At December 31, 2023, we hold equity investments in certain unconsolidated companies, including (a) our 16 percent ownership interest in Global Sea Mineral Resources NV (together with its subsidiaries, “GSR”), a Belgian company and leading developer of nodule collection technology, which is engaged in the development and exploration of deep-sea polymetallic nodules that contain metals critical to the growing renewable energy market, (b) our 33 percent ownership interest in Orion Holdings (Cayman) Limited (together with its subsidiary, “Orion”), a Cayman Islands company that owns the harsh environment floater *Transocean Norge*, (c) our 19 percent ownership interest in Ocean Minerals LLC (together with its subsidiaries, “Ocean Minerals”), the parent company of Moana Minerals Ltd., a Cook Islands subsea resource development company that intends to explore and collect polymetallic nodules, (d) our 22 percent ownership interest in Nauticus Robotics, Inc., a publicly traded company that develops highly sophisticated, ultra-sustainable marine robots and intelligent software to power them, and (e) our ownership interests in other companies involved in researching and developing technology to improve efficiency, reliability, sustainability and safety for drilling and other activities.

In the years ended December 31, 2023, 2022 and 2021, we recognized a net loss of \$14 million, \$24 million and \$10 million, respectively, recorded in other income and expense, associated with equity in losses of our equity investments. At December 31, 2023 and 2022, the aggregate carrying amount of our equity investments was \$216 million and \$113 million, respectively, recorded in other assets.

Contributions—In February 2023, we made a cash contribution of \$10 million and a non-cash contribution of the ultra-deepwater floater *Ocean Rig Olympia*, which had been cold stacked, and related assets, with an estimated fair value of \$85 million (see Note 7—Long-Lived Assets), in exchange for an equity ownership interest in GSR. We estimated the fair value of the rig using projected discounted cash flows, and our estimate required us to use significant unobservable inputs, representative of Level 3 fair value measurements, including assumptions related to the future performance of the rig, projected demand for its services, rig availability and dayrates. In the year ended December 31, 2022, we made an aggregate cash contribution of \$42 million for partial equity ownerships in various companies, including among others, our initial investments in Liquila Ventures Ltd. (together with its subsidiaries, “Liquila”) and Ocean Minerals.

Impairments—In the years ended December 31, 2023 and 2021, we recognized a loss of \$5 million and \$37 million, respectively, which had no tax effect, recorded in other, net, associated with the impairment of certain equity investments upon determination that the carrying amount exceeded the estimated fair value and that the impairment was other than temporary. For the impairment in the year ended December 31, 2021, we estimated the fair value of our investment by applying the income method using significant unobservable inputs, representative of Level 3 fair value measurements, including an assumed discount rate of 12 percent and assumptions about the future performance of the investment, such as future demand and supply for harsh environment floaters, rig utilization, revenue efficiency and dayrates.

Related party transactions

Operating activities—We engage in certain related party transactions with our unconsolidated affiliates. Our most significant transactions with our unconsolidated affiliates are under agreements with Orion as follows: (a) we operate, stack and maintain *Transocean Norge* under a management services agreement, (b) we market *Transocean Norge* under a marketing services agreement and (c) during operations, we lease *Transocean Norge* under a bareboat charter agreement. Additionally, we procure and provide services and equipment from and to other unconsolidated affiliates for technological innovation and subsea minerals exploration.

In the years ended December 31, 2023, 2022 and 2021, we incurred costs of approximately \$55 million, \$54 million and \$24 million, respectively, for *Transocean Norge*, primarily for contract preparation and upgrade shipyard costs, which are reimbursable from Orion, the owner of the rig. In the years ended December 31, 2023, 2022 and 2021, we received an aggregate cash payment of \$49 million, \$40 million and \$16 million, respectively, for services and equipment provided to Orion. Additionally, in the year ended December 31, 2023, we and Orion agreed to the non-cash net settlement of a balance of \$25 million of accounts receivable and payable. In the years ended December 31, 2023, 2022 and 2021, we recognized rent expense of \$26 million, \$11 million and \$12 million, respectively, recorded in

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

operating and maintenance costs, and made an aggregate cash payment of \$27 million, \$10 million and \$15 million, respectively, to charter the rig and rent other equipment from Orion.

In the years ended December 31, 2023, 2022 and 2021, we made an aggregate cash payment of \$12 million, \$7 million and \$6 million, respectively, to other unconsolidated affiliates for research and development and for equipment to reduce emissions and improve reliability. At December 31, 2023 and 2022, our accounts receivable from affiliates was \$14 million and \$32 million, respectively, recorded in other current assets, and our accounts payable to affiliates was \$4 million and \$2 million, respectively, recorded in accounts payable.

Acquisition—In November 2022, we and Perestroika AS (together with its subsidiaries, “Perestroika”), an entity affiliated with one of our directors that beneficially owns approximately 11 percent of our shares, each made a cash contribution of \$15 million and \$10 million, respectively, to Liquila, a previously unconsolidated variable interest entity, that is constructing the ultra-deepwater floater *Deepwater Aquila*. Together with a contribution from the holder of the remaining 67 percent ownership interest, these contributions were used to make the initial payment to the shipyard to acquire the newbuild drillship for a purchase price of approximately \$200 million. At December 31, 2022, the aggregate carrying amount of our investment in Liquila was \$15 million, recorded in other assets. On September 15, 2023, we issued 11.9 million Transocean Ltd. shares with an aggregate value of \$99 million, which included 2.0 million Transocean Ltd. shares with an aggregate value of \$16.4 million issued to Perestroika, to acquire the outstanding ownership interests in Liquila, and as a result, Liquila became our wholly owned subsidiary. See Note 7—Long Lived Assets and Note 14—Equity.

Debt investments—We occasionally invest in debt instruments of our unconsolidated affiliates. In June 2021, we made a cash investment of \$33 million in a \$100 million financing arrangement for Orion to refinance its shipyard loans. Borrowings under the financing arrangement were secured by *Transocean Norge*, and outstanding borrowings incurred interest at the London Interbank Offered Rate plus a margin of 6.50 percent per annum. At December 31, 2022, the aggregate carrying amount of our investment in the financing arrangement was \$37 million, recorded in other assets. In September 2023, we agreed to exchange the borrowings under the financing arrangement for an additional equity investment in Orion, and Orion subsequently entered into a new credit facility with another lender. At December 31, 2023 and 2022, the aggregate principal amount due to us under the various financing arrangements with our unconsolidated affiliates was \$6 million and \$41 million, respectively, recorded in other assets.

NOTE 5—REVENUES

Overview—We earn revenues primarily by performing the following activities: (i) providing our drilling rig, work crews, related equipment and services necessary to operate the rig (ii) delivering the drilling rig by mobilizing to and demobilizing from the drill location, and (iii) performing certain pre-operating activities, including rig preparation activities or equipment modifications required for the contract. These services represent a single performance obligation under most of our drilling contracts with customers that is satisfied over time, the duration of which varies by contract. At December 31, 2023, the drilling contract with the longest expected remaining duration, excluding unexercised options, extends through July 2029.

Disaggregation—Our contract drilling revenues, disaggregated by asset group and by country in which they were earned, were as follows (in millions):

	Year ended December 31, 2023			Year ended December 31, 2022			Year ended December 31, 2021		
	Ultra-deepwater floaters	Harsh environment floaters	Total	Ultra-deepwater floaters	Harsh environment floaters	Total	Ultra-deepwater floaters	Harsh environment floaters	Total
U.S.	\$ 1,433	\$ —	\$ 1,433	\$ 1,135	\$ —	\$ 1,135	\$ 1,096	\$ 2	\$ 1,098
Norway	—	603	603	—	835	835	—	790	790
Brazil	298	—	298	240	—	240	237	—	237
Other countries (a)	341	157	498	333	32	365	387	44	431
Total contract drilling revenues	\$ 2,072	\$ 760	\$ 2,832	\$ 1,708	\$ 867	\$ 2,575	\$ 1,720	\$ 836	\$ 2,556

(a) The aggregate contract drilling revenues earned in other countries that individually represented less than 10 percent of total contract drilling revenues.

Major customers—For the year ended December 31, 2023, Shell plc (together with its affiliates, “Shell”), Equinor ASA (together with its affiliates, “Equinor”), TotalEnergies SE and Petróleo Brasileiro S.A. (together with its affiliates, “Petrobras”) represented approximately 27 percent, 16 percent, 12 percent and 11 percent, respectively, of our consolidated operating revenues. For the year ended December 31, 2022, Shell, Equinor and Petrobras represented approximately 33 percent, 25 percent and 11 percent, respectively, of our consolidated operating revenues. For the year ended December 31, 2021, Shell and Equinor represented approximately 31 percent and 30 percent, respectively, of our consolidated operating revenues.

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

Contract liabilities—Contract liabilities for our contracts with customers were as follows (in millions):

	December 31, 2023	December 31, 2022
Deferred contract revenues, recorded in other current liabilities	\$ 165	\$ 124
Deferred contract revenues, recorded in other long-term liabilities	233	204
Total contract liabilities	<u>\$ 398</u>	<u>\$ 328</u>

Significant changes in contract liabilities were as follows (in millions):

	Years ended December 31,	
	2023	2022
Total contract liabilities, beginning of period	\$ 328	\$ 348
Decrease due to recognition of revenues for goods and services	(189)	(119)
Increase due to goods and services transferred over time	259	99
Total contract liabilities, end of period	<u>\$ 398</u>	<u>\$ 328</u>

Pre-operating costs—In the years ended December 31, 2023, 2022 and 2021, we recognized pre-operating costs of \$69 million, \$47 million and \$48 million, respectively, recorded in operating and maintenance costs. At December 31, 2023 and 2022, the unrecognized pre-operating costs to obtain contracts was \$221 million and \$26 million, respectively, recorded in other assets, significantly increased as a result of six rigs mobilizing or preparing for contracts that commenced in the three months ended December 31, 2023, or expected to commence in the three months ending March 31, 2024.

NOTE 6—CONTRACT INTANGIBLE ASSETS

The gross carrying amount and accumulated amortization of our drilling contract intangible assets were as follows (in millions):

	Year ended December 31, 2023			Year ended December 31, 2022		
	Gross carrying amount	Accumulated amortization	Net carrying amount	Gross carrying amount	Accumulated amortization	Net carrying amount
Drilling contract intangible assets						
Balance, beginning of period	\$ 907	\$ (851)	\$ 56	\$ 907	\$ (734)	\$ 173
Amortization	—	(52)	(52)	—	(117)	(117)
Balance, end of period	<u>\$ 907</u>	<u>\$ (903)</u>	<u>\$ 4</u>	<u>\$ 907</u>	<u>\$ (851)</u>	<u>\$ 56</u>

We expect to recognize the remaining \$4 million balance in contract drilling revenues in the three months ending March 31, 2024.

NOTE 7—LONG-LIVED ASSETS

Disaggregation—The aggregate carrying amount of our long-lived assets, including our property and equipment and our right-of-use assets, disaggregated by country in which they were located, was as follows (in millions):

	December 31,	
	2023	2022
Long-lived assets		
U.S.	\$ 7,472	\$ 6,514
Greece	2,652	3,022
Norway	2,103	3,255
Other countries (a)	5,200	5,171
Total long-lived assets	<u>\$ 17,427</u>	<u>\$ 17,962</u>

(a) The aggregate carrying amount of long-lived assets located in other countries that individually represented less than 10 percent of total long-lived assets.

Because the majority of our assets are mobile, the geographic locations of such assets at the end of the periods are not necessarily indicative of the geographic distribution of the operating revenues generated by such assets during the periods presented. Our international operations are subject to certain political and other uncertainties, including risks of war and civil disturbances or other market disrupting events, expropriation of equipment, repatriation of income or capital, taxation policies, and the general hazards associated with certain areas in which we operate. Although we are organized under the laws of Switzerland, we have minimal assets located in Switzerland, and we do not conduct any operations or earn operating revenues in Switzerland.

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

Construction work in progress—The changes in our construction work in progress were as follows (in millions):

	Years ended December 31,		
	2023	2022	2021
Construction work in progress, beginning of period	\$ 1,195	\$ 1,017	\$ 828
Capital expenditures			
Newbuild construction program	331	669	174
Other equipment and construction projects	96	48	34
Total capital expenditures	427	717	208
Non-cash capital additions acquired in exchange for issuance of shares	126	—	—
Non-cash capital additions financed under Shipyard Loans	—	382	—
Changes in accrued capital additions	5	3	13
Property and equipment placed into service			
Newbuild construction program	(1,157)	(882)	—
Other equipment and construction projects	(74)	(42)	(32)
Construction work in progress, end of period	\$ 522	\$ 1,195	\$ 1,017

In the years ended December 31, 2023, 2022 and 2021, we capitalized interest costs of \$39 million, \$73 million and \$50 million, respectively, for our construction work in progress.

Acquisition—In September 2023, we acquired \$126 million of property and equipment associated with *Deepwater Aquila*, an ultra-deepwater drillship under construction for Liquila, together with \$7 million of cash and cash equivalents, and we assumed \$19 million of accounts payable. See Note 4—Unconsolidated Affiliates and Note 14—Equity.

Disposals—During the year ended December 31, 2023, in connection with our investment in a partial ownership interest in GSR, we made a non-cash contribution of the cold-stacked ultra-deepwater floater *Ocean Rig Olympia* and related assets. In the year ended December 31, 2023, we recognized a loss of \$169 million (\$0.22 per diluted share), which had no tax effect, associated with the disposal of the rig and related assets (see Note 4—Unconsolidated Affiliates). During the year ended December 31, 2021, in connection with our efforts to dispose of non-strategic assets, we completed the sale of the harsh environment floater *Leiv Eiriksson* and related assets. In the year ended December 31, 2021, we received net cash proceeds of \$4 million, and recognized an aggregate net loss of \$57 million (\$0.09 per diluted share), which had no tax effect, associated with the disposal of the rig and related assets. In the years ended December 31, 2023, 2022 and 2021, we received aggregate net cash proceeds of \$4 million, \$7 million and \$5 million, respectively and recognized an aggregate net loss of \$14 million, \$10 million and \$5 million, respectively, associated with the disposal of assets unrelated to rig sales.

Impairment—In June 2023, we committed to the sale of the harsh environment floaters *Paul B. Loyd, Jr.* and *Transocean Leader* and related assets for expected aggregate net cash proceeds of \$49 million. In the year ended December 31, 2023, we recognized an aggregate loss of \$57 million (\$0.07 per diluted share), which had no tax effect, associated with the impairment of the rigs and related assets, which we determined were impaired at the time that we classified the assets as held for sale. We measured the impairment of the rigs and related assets as the amount by which the carrying amount exceeded the estimated fair value less costs to sell. We estimated the fair value of the assets using significant other observable inputs, representative of Level 2 fair value measurements, including a binding contract for the sale of the rigs and related assets.

Assets held for sale—At December 31, 2023, the aggregate carrying amount of our assets held for sale, including *Paul B. Loyd, Jr.* and *Transocean Leader* and related assets, was \$49 million, recorded in other current assets.

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

NOTE 8—LEASES

Overview—Our operating leases are principally for office space, storage facilities, operating equipment and land. At December 31, 2023, our operating leases had a weighted-average discount rate of 6.7 percent and a weighted-average remaining lease term of 10.7 years.

Our finance lease for the ultra-deepwater drillship *Petrobras 10000* has an implicit interest rate of 7.8 percent and requires scheduled monthly installments through the lease expiration in August 2029, after which we are obligated to acquire the drillship from the lessor for one dollar. We recognize expense for the amortization of the right-of-use asset in depreciation and amortization.

Lease costs—The components of our lease costs were as follows (in millions):

Lease costs	Years ended December 31,		
	2023	2022	2021
Short-term lease costs	\$ 4	\$ 14	\$ 17
Operating lease costs	14	12	12
Finance lease costs, amortization of right-of-use asset	20	20	20
Finance lease costs, interest on lease liability	27	30	33
Total lease costs	<u>\$ 65</u>	<u>\$ 76</u>	<u>\$ 82</u>

Lease payments—Supplemental cash flow information for our leases was as follows (in millions):

	Years ended December 31,		
	2023	2022	2021
Cash paid for amounts included in the measurement of lease liabilities:			
Operating cash flows from operating leases	\$ 17	\$ 14	\$ 13
Operating cash flows from finance lease	—	8	37
Financing cash flows from finance lease	—	3	33

At December 31, 2023, the aggregate future minimum lease payments were as follows (in millions):

Years ending December 31,	Operating leases	Finance lease
2024	\$ 19	\$ 65
2025	19	70
2026	18	71
2027	15	70

- (a) Transocean Inc., a wholly owned direct subsidiary of Transocean Ltd., is the issuer of the notes and debentures (the “Legacy Guaranteed Notes”). The Legacy Guaranteed Notes are fully and unconditionally, jointly and severally, guaranteed by Transocean Ltd.
- (b) Each subsidiary issuer of the respective unregistered notes is a wholly owned indirect subsidiary of Transocean Inc. The senior secured notes are fully and unconditionally, jointly and severally, guaranteed by Transocean Ltd., Transocean Inc. and, in each case, the owner of the respective collateral rig or rigs.
- (c) Transocean Inc. is the issuer of the unregistered notes (collectively, the “Priority Guaranteed Notes”). The guaranteed senior unsecured notes are fully and unconditionally, jointly and severally, guaranteed by Transocean Ltd. and certain wholly owned indirect subsidiaries of Transocean Inc. and rank equal in right of payment of all our existing and future unsecured unsubordinated obligations. Such notes are structurally senior to the Legacy Guaranteed Notes, the 4.50% shipyard loans due September 2027 (each, a “Shipyard Loan”, and together, the “Shipyard Loans”) and the 7.00% notes due June 2028 and structurally subordinate to the Senior Priority Guaranteed Notes, as defined below, to the extent of the value of the assets of the subsidiaries guaranteeing the notes.
- (d) Transocean Inc. is the issuer of the unregistered notes (together, the “Senior Priority Guaranteed Notes”). The priority guaranteed senior unsecured notes are fully and unconditionally, jointly and severally, guaranteed by Transocean Ltd. and certain wholly owned indirect subsidiaries of Transocean Inc. and rank equal in right of payment of all of our existing and future unsecured unsubordinated obligations. Such notes are structurally senior to the Priority Guaranteed Notes to the extent of the value of the assets of the subsidiaries guaranteeing the notes.
- (e) The subsidiary borrowers under the Shipyard Loans and the subsidiary issuer of the registered notes are wholly owned indirect subsidiaries of Transocean Inc. The loans and notes are fully and unconditionally guaranteed by Transocean Inc.

TRANSOCEAN LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

(f) Transocean Inc. is the issuer of the unregistered notes. The senior secured notes are fully and unconditionally guaranteed on an unsecured basis by Transocean Ltd. and on a limited senior secured basis by each of the wholly owned subsidiary owners of the collateral rigs.

Transocean Ltd. and Transocean Inc. are not subject to any significant restrictions on their ability to obtain funds from their consolidated subsidiaries by dividends, loans or capital distributions.

Indentures—The indentures that govern our debt generally contain covenants that, among other things, limit our ability to incur certain liens on our drilling units without equally and ratably securing the notes, to engage in certain sale and lease back transactions covering any of our drilling units, to allow our subsidiaries to incur certain additional debt, or to engage in certain merger, consolidation or reorganization transactions or to enter into a scheme of arrangement qualifying as an amalgamation.

The indentures that govern the 4.00% senior guaranteed exchangeable bonds due December 2025 (the “4.00% Senior Guaranteed Exchangeable Bonds”) and the 4.625% senior guaranteed exchangeable bonds due September 2029 (the “4.625% Senior Guaranteed Exchangeable Bonds”) require such bonds to be repurchased upon the occurrence of certain fundamental changes and events, at specified prices depending on the particular fundamental change or event, which include changes and events related to certain (i) change of control events applicable to Transocean Ltd. or Transocean Inc., (ii) the failure of our shares to be listed or quoted on a national securities exchange and (iii) specified tax matters.

The indentures that govern the 6.875% senior secured notes due February 2027, the 8.375% senior secured notes due February 2028 (the “8.375% Senior Secured Notes”) and the 8.75% senior secured notes due February 2030 (the “8.75% Senior Secured Notes”) contain covenants that limit the ability of our subsidiaries that own or operate the collateral rigs to declare or pay dividends to their affiliates.

The indentures that govern our senior secured notes contain certain lien requirements. At December 31, 2023, we had restricted cash and cash equivalents of \$198 million deposited in restricted accounts to satisfy debt service and reserve requirements for the senior secured notes. At December 31, 2023, the rigs encumbered for the senior secured notes and our Shipyard Loans, including *Deepwater Aquila*, which is under construction, *Deepwater Atlas*, *Deepwater Pontus*, *Deepwater Poseidon*, *Deepwater Proteus*, *Deepwater Thalassa*, *Deepwater Titan*, *Transocean Enabler* and *Transocean Encourage*, had an aggregate carrying amount of \$6.13 billion. We will be required to redeem the senior secured notes at a price equal to 100 percent of the aggregate principal amount without a make-whole premium, upon the occurrence of certain events related to the respective collateral rigs and related drilling contracts.

Interest rate adjustments—At December 31, 2023, the interest rate in effect for the 7.35% senior notes due December 2041 was 9.35 percent, which is subject to adjustment from time to time upon a change to the credit rating of our non-credit enhanced senior unsecured long-term debt.

Scheduled maturities—At December 31, 2023, the scheduled maturities of our debt, including other installments of contractual interest payments for previously restructured debt, were as follows (in millions):

	<u>Principal installments</u>	<u>Other installments</u>	<u>Total installments</u>
Years ending December 31,			
2024	\$ 320	\$ 71	\$ 391
2025	1,068	72	1,140
2026	1,110	72	1,182
2027	1,900	36	1,936
2028	664	—	664
Thereafter	1,970	—	1,970
Total installments	<u>\$ 7,032</u>	<u>\$ 251</u>	<u>7,283</u>
Total unamortized debt-related balances, net			(220)
Bifurcated compound exchange feature, at estimated fair value			350
Total carrying amount of debt			<u>\$ 7,413</u>

Credit agreements

Secured Credit Facility—As of December 31, 2023, we have a secured revolving credit facility established under a bank credit agreement (as amended from time to time, the “Secured Credit Facility”), which provides us with a borrowing capacity of \$600 million through its scheduled maturity on June 22, 2025. We may borrow under the Secured Credit Facility at a forward looking term rate based on the secured overnight financing rate (“Term SOFR”) plus a margin (the “Secured Credit Facility Margin”) and a Term SOFR spread adjustment of 0.10 percent. The Secured Credit Facility is subject to permitted extensions and certain early maturity triggers, including if on any date the aggregate amount of scheduled principal repayments of indebtedness, with certain exceptions, due within 91 days thereof is equal to or in excess of \$200 million and available cash is less than \$250 million. The Secured Credit Facility permits us to increase the aggregate amount of commitments by up to \$250 million. The Secured Credit Facility is guaranteed by Transocean Ltd. and certain wholly owned subsidiaries. The Secured Credit Facility is secured by, among other things, a lien on the ultra-deepwater floaters *Deepwater Asgard*, *Deepwater Corcovado*, *Deepwater Invictus*, *Deepwater Mykonos*, *Deepwater Orion*, *Deepwater Skyros*, *Development Driller III*,

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

Dhirubhai Deepwater KG2 and *Discoverer Inspiration* and the harsh environment floaters *Transocean Barents* and *Transocean Spitsbergen*, and at December 31, 2023, the aggregate carrying amount of which was \$4.71 billion.

The Secured Credit Facility contains covenants that, among other things, include maintenance of a minimum guarantee coverage ratio of 3.0 to 1.0, a minimum collateral coverage ratio of 2.1 to 1.0, a maximum debt to capitalization ratio of 0.60 to 1.00 and minimum liquidity of \$500 million. The Secured Credit Facility also restricts the ability of Transocean Ltd. and certain of our subsidiaries to, among other things, merge, consolidate or otherwise make changes to the corporate structure, incur liens, incur additional indebtedness, enter into transactions with affiliates and pay dividends and other distributions. In order to utilize the Secured Credit Facility, we must, at the time of the borrowing request, be in full compliance with the terms and conditions of the Secured Credit Facility and make certain representations and warranties, including with respect to compliance with laws and solvency, to the lenders. Repayment of borrowings under the Secured Credit Facility are subject to acceleration upon the occurrence of an event of default. Under the agreements governing certain of our debt and finance lease, we are also subject to various covenants, including restrictions on creating liens, engaging in sale/leaseback transactions and engaging in certain merger, consolidation or reorganization transactions. A default under our public debt indentures, the agreements governing our senior secured notes, our finance lease contract or any other debt owed to unaffiliated entities that exceeds \$125 million could trigger a default under the Secured Credit Facility and, if not waived by the lenders, could cause us to lose access to the Secured Credit Facility. At December 31, 2023, based on the credit rating of the Secured Credit Facility on that date, the Secured Credit Facility Margin was 2.875 percent and the facility fee was 0.625 percent. At December 31, 2023, we had no borrowings outstanding, \$13 million of letters of credit issued, and we had \$587 million of available borrowing capacity under the Secured Credit Facility.

Shipyard financing arrangement—We have credit agreements that established the Shipyard Loans to finance all or a portion of the final payments owed to the shipyard upon delivery of the ultra-deepwater floaters *Deepwater Atlas* and *Deepwater Titan*. Borrowings under the Shipyard Loan for *Deepwater Atlas* are secured by, among other security, a lien on the rig, and borrowings under the Shipyard Loan for *Deepwater Titan* are unsecured. We have the right to prepay outstanding borrowings, in full or in part, without penalty. The Shipyard Loans contain covenants that, among other things, limit the ability of the subsidiary owners of the drilling rigs to incur certain types of additional indebtedness or make certain additional commitments or investments. In June 2022, we borrowed \$349 million under the Shipyard Loan for *Deepwater Atlas* and made a cash payment of \$46 million to satisfy the final milestone payment due upon delivery of the rig. In December 2022, we borrowed \$90 million under the Shipyard Loan for *Deepwater Titan* and made a cash payment of \$325 million to satisfy the final milestone payment due upon delivery of the rig. We recorded each Shipyard Loan, net of imputed interest, with an initial carrying amount of \$300 million and \$82 million, respectively, and corresponding non-cash capital additions, recorded in property and equipment. The carrying amount of each Shipyard Loan at inception represented its estimated fair value using significant other observable inputs, representative of Level 2 fair value measurements, including the terms and credit spreads of our debt, by applying an estimated discount rate of 9.4 percent and 7.6 percent, respectively.

Exchangeable bonds

Exchange terms—At December 31, 2023, the (a) current exchange rates, expressed as the number of Transocean Ltd. shares per \$1,000 note, (b) implied exchange prices per Transocean Ltd. share and (c) aggregate shares, expressed in millions, issuable upon exchange of our exchangeable bonds were as follows:

	Exchange rate	Implied exchange price	Shares issuable
4.00% Senior Guaranteed Exchangeable Bonds due December 2025	190.4762	\$ 5.25	44.5
4.625% Senior Guaranteed Exchangeable Bonds due September 2029	290.6618	\$ 3.44	75.3

The exchange rates, identified above, are subject to adjustment upon the occurrence of certain events. The 4.00% Senior Guaranteed Exchangeable Bonds may be exchanged by holders at any time prior to the close of business on the second business day immediately preceding the maturity date and, at our election, such exchange may be settled by delivering cash, Transocean Ltd. shares or a combination of cash and shares. The 4.625% Senior Guaranteed Exchangeable Bonds may be exchanged by holders at any time prior to the close of business on the second business day immediately preceding the maturity date or redemption date and, at our election, such exchange may be settled by delivering cash, Transocean Ltd. shares or a combination of cash and shares.

Effective interest rates and fair values—At December 31, 2023, the effective interest rates and estimated fair values of our exchangeable bonds were as follows (in millions, except effective interest rates):

	Effective interest rate	Fair value
4.00% Senior Guaranteed Exchangeable Bonds due December 2025	6.9%	\$ 341
4.625% Senior Guaranteed Exchangeable Bonds due September 2029	18.3%	\$ 567

We estimated the fair values of the exchangeable debt instruments, including the exchange features, by employing a binomial lattice model using significant other observable inputs, representative of Level 2 fair value measurements, including the terms and credit spreads of our debt and the expected volatility of the market price for our shares.

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

Interest expense—We recognized interest expense for our exchangeable bonds as follows (in millions):

	Years ended December 31,		
	2023	2022	2021
Contractual interest	\$ 24	\$ 16	\$ 11
Amortization	19	9	5
Bifurcated compound exchange feature	127	157	—
Total	\$ 170	\$ 182	\$ 16

The 4.625% Senior Guaranteed Exchangeable Bonds contain a compound exchange feature that, in addition to the exchange terms outlined above, requires us to pay holders a make whole premium of future interest through March 30, 2028, for exchanges exercised during a redemption notice period. Such compound exchange feature must be bifurcated from the host debt instrument since it is not considered indexed to our stock. Accordingly, we recognize changes to the liability for the estimated fair value of the bifurcated compound exchange feature with a corresponding adjustment to interest expense. At December 31, 2023 and 2022, the carrying amount of the bifurcated compound exchange feature, recorded as a component of the carrying amount of debt, was \$350 million and \$295 million, respectively.

Exchanges—In April 2023, Perestroika exchanged \$213 million aggregate principal amount of the 2.50% senior guaranteed exchangeable bonds due January 2027 (the “2.50% Senior Guaranteed Exchangeable Bonds”) under the terms of the governing indenture at the applicable exchange rate of 162.1626 Transocean Ltd. shares per \$1,000 note. As part of the transaction governing the exchange, we delivered 34.6 million Transocean Ltd. shares and additional immaterial cash consideration to such exchanging holder. The director’s beneficial ownership of our shares resulting from these transactions did not change.

In July 2023, the holders of the remaining outstanding \$25 million aggregate principal amount of 2.50% Senior Guaranteed Exchangeable Bonds exchanged such bonds under the terms of the governing indenture at the applicable exchange rate of 162.1626 Transocean Ltd. shares per \$1,000 note. As part of the transaction, we delivered 4.0 million Transocean Ltd. shares.

In October 2023, holders of \$60 million and \$41 million aggregate principal amount of the 4.00% Senior Guaranteed Exchangeable Bonds and the 4.625% Senior Guaranteed Exchangeable Bonds, respectively, exchanged such bonds under the terms of the governing indenture at the applicable exchange rate of 190.4762 and 290.6618 Transocean Ltd. shares, respectively, per \$1,000 note. As part of the transactions, we delivered an aggregate 26.5 million Transocean Ltd. shares, including an aggregate 3.1 million additional shares to such holders.

Debt issuance

Senior secured notes—In January 2023, we issued \$525 million aggregate principal amount of 8.375% Senior Secured Notes, and we received \$516 million aggregate cash proceeds, net of issue costs. The 8.375% Senior Secured Notes are secured by the assets and earnings associated with the ultra-deepwater floater *Deepwater Titan* and the equity of the wholly owned subsidiary that owns or operates the collateral rig. Additionally, we are required to maintain certain balances in a restricted cash account to satisfy debt service requirements. We may redeem all or a portion of the 8.375% Senior Secured Notes on or prior to February 1, 2025 at a price equal to 100 percent of the aggregate principal amount plus a make-whole premium, and subsequently, at specified redemption prices.

In January 2023, we issued \$1.175 billion aggregate principal amount of 8.75% Senior Secured Notes, and we received \$1.148 billion aggregate cash proceeds, net of issue costs. The 8.75% Senior Secured Notes are secured by a lien on the ultra-deepwater floaters *Deepwater Pontus*, *Deepwater Proteus* and *Deepwater Thalassa* and the harsh environment floaters *Transocean Enabler* and *Transocean Encourage*, together with certain related assets. Additionally, we are required to maintain certain balances in a restricted cash account to satisfy debt service requirements. We may redeem all or a portion of the 8.75% Senior Secured Notes on or prior to February 15, 2026 at a price equal to 100 percent of the aggregate principal amount plus a make-whole premium, and subsequently, at specified redemption prices.

In October 2023, we issued \$325 million aggregate principal amount of 8.00% senior secured notes due September 2028 (the “8.00% Senior Secured Notes”), and we received \$319 million aggregate cash proceeds, net of issue costs. The 8.00% Senior Secured Notes are secured by the assets and certain earnings associated with the ultra-deepwater floater *Deepwater Aquila* as well as the equity of certain of the wholly owned subsidiaries that own or operate the collateral rig. Additionally, we are required to maintain certain balances in a restricted cash account to satisfy debt service requirements. We may redeem all or a portion of the 8.00% Senior Secured Notes on or prior to September 30, 2025 at a price equal to 100 percent of the aggregate principal amount plus a make-whole premium, and subsequently, at specified redemption prices.

Senior guaranteed exchangeable bonds—In September 2022, we issued \$300 million aggregate principal amount of 4.625% Senior Guaranteed Exchangeable Bonds in connection with exchange and purchase agreements. Pursuant to the exchange and purchase agreements, we exchanged (the “2022 Private Exchange”) (a) \$73 million aggregate principal amount of the 0.50% exchangeable senior bonds due January 2023 (the “0.50% Exchangeable Senior Bonds”) for (i) \$73 million aggregate principal amount of 4.625% Senior Guaranteed Exchangeable Bonds and (ii) 6.7 million warrants to purchase Transocean Ltd. shares, and (b) \$43 million aggregate principal amount of the 7.25% senior notes due November 2025 for \$39 million aggregate principal amount of the 4.625% Senior Guaranteed

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

Exchangeable Bonds. In the year ended December 31, 2022, as a result of the 2022 Private Exchange, we recognized a gain of \$6 million (\$0.01 per diluted share), with no tax effect, associated with the retirement of debt. Additionally, we sold \$188 million aggregate principal amount of the 4.625% Senior Guaranteed Exchangeable Bonds and issued 15.5 million warrants to purchase Transocean Ltd. shares for aggregate net cash proceeds of \$188 million. On or after March 30, 2026, we may redeem for cash all or a portion of the 4.625% Senior Guaranteed Exchangeable Bonds at a price equivalent to the aggregate principal amount to be redeemed if the closing price of our shares has been greater than 115 percent of the exchange price for a period of at least 20 trading days. The initial carrying amount of the 4.625% Senior Guaranteed Exchangeable Bonds, measured at the estimated fair value on the date of issuance, was \$281 million. We estimated the fair value of the exchangeable debt instrument, including the exchange feature, by employing a binomial lattice model and by using significant other observable inputs, representative of Level 2 fair value measurements, including the terms and credit spreads of our debt and expected volatility of the market price for our shares. See Note 14—Equity.

In February 2021, we issued \$294 million aggregate principal amount of the 4.00% Senior Guaranteed Exchangeable Bonds and made an aggregate cash payment of \$11 million in private exchanges (the “2021 Private Exchange”) for \$323 million aggregate principal amount of the 0.50% Exchangeable Senior Bonds. In the year ended December 31, 2021, as a result of the 2021 Private Exchange, we recognized a gain of \$51 million (\$0.08 per diluted share), with no tax effect, associated with the retirement of debt. The initial carrying amount of the 4.00% Senior Guaranteed Exchangeable Bonds, measured at the estimated fair value on the date of issuance, was \$260 million. We estimated the fair value of the exchangeable debt instrument, including the exchange feature, by employing a binomial lattice model using significant other observable inputs, representative of Level 2 fair value measurements, including the terms and credit spreads of our debt and expected volatility of the market price for our shares.

Debt repayment, redemption, and retirement

Early retirement—During the three years ended December 31, 2023, we retired certain notes as a result of redemptions or private exchanges. The aggregate principal amounts, cash payments and recognized gain or loss for such transactions were as follows (in millions):

	Years ended December 31,						
	2023	2022			2021		
	Redeemed	Redeemed	Exchanged	Total	Redeemed	Exchanged	Total
5.52% Senior Secured Notes due May 2022	\$ —	\$ 18	\$ —	\$ 18	\$ —	\$ —	\$ —
3.80% Senior Notes due October 2022	—	27	—	27	—	—	—
0.50% Exchangeable Senior Bonds due January 2023	—	18	73	91	—	323	323
5.375% Senior Secured Notes due May 2023	243	—	—	—	11	—	11
5.875% Senior Secured Notes due January 2024	311	—	—	—	68	—	68
7.75% Senior Secured Notes due October 2024	240	—	—	—	—	—	—
6.25% Senior Secured Notes due December 2024	250	—	—	—	—	—	—
6.125% Senior Secured Notes due August 2025	336	—	—	—	—	—	—
7.25% Senior Notes due November 2025	—	14	43	57	—	—	—
Aggregate principal amount of debt retired	\$ 1,380	\$ 77	\$ 116	\$ 193	\$ 79	\$ 323	\$ 402
Aggregate cash payment	\$ 1,402	\$ 75	\$ —	\$ 75	\$ 79	\$ 11	\$ 90
Aggregate principal amount of debt issued in exchanges	\$ —	\$ —	\$ 112	\$ 112	\$ —	\$ 294	\$ 294
Aggregate fair value of warrants issued in exchanges	\$ —	\$ —	\$ 5	\$ 5	\$ —	\$ —	\$ —
Aggregate net gain (loss)	\$ (32)	\$ 2	\$ 6	\$ 8	\$ —	\$ 51	\$ 51

Additionally, in the year ended December 31, 2023, we recognized a net gain of \$1 million associated with the retirement of \$41 million aggregate principal amount of the 4.625% Senior Guaranteed Exchangeable Bonds exchanged by holders in October 2023.

Scheduled maturities and installments—On the scheduled maturity date of January 30, 2023, we made a cash payment of \$49 million to repay an equivalent aggregate principal amount of the outstanding 0.50% Exchangeable Senior Bonds. On the scheduled maturity date of December 15, 2021, we made a cash payment of \$38 million to repay an equivalent aggregate principal amount of the outstanding 6.375% senior notes due December 2021. In the years ended December 31, 2023, 2022 and 2021, we made an aggregate cash payment of \$262 million, \$479 million and \$478 million, respectively, to repay other indebtedness in scheduled installments.

NOTE 10—POSTEMPLOYMENT BENEFIT PLANS

Defined contribution plans

We sponsor defined contribution plans for our employees in most markets in which we operate worldwide, the most significant of which were as follows: (1) a qualified savings plan covering certain eligible employees working in the U.S., (2) various savings plans covering eligible employees working in Norway, (3) a non-qualified savings plan covering certain eligible employees working outside the U.S., the United Kingdom (“U.K.”) and Norway and (4) a qualified savings plan covering certain eligible employees working in the U.K. In the years ended December 31, 2023, 2022 and 2021, we recognized expense of \$58 million, \$61 million and \$52 million, respectively, recorded in the same financial statement line item as cash compensation paid to the respective employees, related to our defined contribution plans.

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

Defined benefit pension and other postemployment benefit plans

Overview—As of December 31, 2023, we had defined benefit plans in the U.S., including three funded and three unfunded defined benefit plans (the “U.S. Plans”), and in the U.K., we had one funded defined benefit plan (the “U.K. Plan”). During the year ended December 31, 2021, as required by local authorities, we terminated our remaining plans in Norway (together with the U.K. Plan, the “Non-U.S. Plans”). We also maintain certain unfunded other postemployment benefit plans (collectively, the “OPEB Plans”), under which benefits to eligible participants diminish during a phase-out period ending December 31, 2025. We maintain the benefit obligations under our defined benefit plans until they are fully satisfied.

Net periodic benefit costs—We estimated our net periodic benefit costs using the following weighted average assumptions:

	Year ended December 31, 2023			Year ended December 31, 2022			Year ended December 31, 2021		
	U.S. Plans	U.K. Plan	OPEB Plans	U.S. Plans	U.K. Plan	OPEB Plans	U.S. Plans	Non-U.S. Plans	OPEB Plans
Discount rate	5.06 %	4.80 %	4.92 %	2.92 %	1.90 %	1.83 %	2.60 %	1.50 %	1.21 %
Expected rate of return	6.41 %	5.00 %	na	4.81 %	2.00 %	na	5.51 %	3.20 %	na

“na” means not applicable.

The components of net periodic benefit costs, recognized in other income and expense, were as follows (in millions):

	Year ended December 31, 2023				Year ended December 31, 2022				Year ended December 31, 2021			
	U.S. Plans	U.K. Plan	OPEB Plans	Total	U.S. Plans	U.K. Plan	OPEB Plans	Total	U.S. Plans	Non-U.S. Plans	OPEB Plans	Total
Net periodic benefit costs												
Interest cost	\$ 65	\$ 9	\$ —	\$ 74	\$ 50	\$ 6	\$ —	\$ 56	\$ 47	\$ 6	\$ —	\$ 53

Accumulated other comprehensive loss (income), before taxes	\$ 144	\$ 90	\$ (6)	\$ 228	\$ 166	\$ 76	\$ (8)	\$ 234

Plan assets—The weighted-average target and actual allocations of assets for the funded defined benefit plans were as follows:

	December 31, 2023				December 31, 2022			
	Target allocation		Actual allocation		Target allocation		Actual allocation	
	U.S. Plans	U.K. Plan	U.S. Plans	U.K. Plan	U.S. Plans	U.K. Plan	U.S. Plans	U.K. Plan
Equity securities	38 %	20 %	37 %	21 %	38 %	20 %	38 %	24 %
Fixed income securities	62 %	73 %	62 %	72 %	62 %	80 %	61 %	74 %
Other investments	— %	7 %	1 %	7 %	— %	— %	1 %	2 %
Total	100 %	100 %	100 %	100 %	100 %	100 %	100 %	100 %

We periodically review our investment policies, plan assets and asset allocation strategies to evaluate performance relative to specified objectives. In determining our asset allocation strategies for the U.S. Plans, we review the results of regression models to assess the most appropriate target allocation for each plan, given the plan's status, demographics and duration. For the U.K. Plan, the plan trustees establish the asset allocation strategies consistent with the regulations of the U.K. pension regulators and in consultation with financial advisors and company representatives. Investment managers for the U.S. Plans and the U.K. Plan are given established ranges within which the investments may deviate from the target allocations.

The investments for the funded defined benefit plans were categorized as follows (in millions):

	December 31, 2023

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

We estimated the fair values of the plan assets by applying the market approach, as categorized above, using either (i) significant observable inputs, representative of Level 1 fair value measurements, including market prices of actively traded funds, or (ii) significant other observable inputs, representative of Level 2 fair value measurements, including market prices of the underlying securities in the trust funds. The U.S. Plans and the U.K. Plan invest in passively and actively managed funds that are referenced to or benchmarked against market indices. The plan investment managers have discretion to select securities within each asset category. Given this discretion, the plans may occasionally hold either long or short positions in our debt or equity securities. Since plan investment managers are required to maintain well diversified portfolios, the actual investment in our securities would be immaterial relative to asset categories and the overall plan assets.

Funding contributions and benefit payments—In the years ended December 31, 2023, 2022 and 2021, we made an aggregate contribution of \$8 million, \$3 million and \$10 million, respectively, to the defined benefit pension plans and the OPEB Plans using our cash flows from operations. In the year ending December 31, 2024, we expect to make an aggregate contribution of \$4 million, including \$1 million and \$3 million to the defined benefit pension plans and the OPEB Plans, respectively.

The projected benefits payments were as follows (in millions):

	U.S. Plans	U.K. Plan	OPEB Plans	Total
Years ending December 31,				
2024	\$ 84	\$ 6	\$ 3	\$ 93
2025	84	7	3	94
2026	84	8	1	93
2027	85	8	—	93
2028	85	9	—	94
2029 - 2033	427	58	1	486

NOTE 11—INCOME TAXES

Overview—Transocean Ltd., a holding company and Swiss resident, is subject to Swiss federal, cantonal and communal income tax. For Swiss income taxes, however, qualifying net dividend income and net capital gains on the sale of qualifying investments in subsidiaries are exempt from taxation. Consequently, there is not a direct relationship between our Swiss earnings before income taxes and our Swiss income tax expense.

Tax provision and rate—The components of our income tax provision (benefit) were as follows (in millions):

	Years ended December 31,		
	2023	2022	2021
Current tax expense (benefit)	\$ (5)	\$ 13	\$ (7)
Deferred tax expense	18	46	128
Income tax expense	<u>\$ 13</u>	<u>\$ 59</u>	<u>\$ 121</u>

In the years ended December 31, 2023, 2022 and 2021, our effective tax rate was (1.4) percent, (10.4) percent and (25.7) percent, respectively, based on loss before income tax expense. The relationship between our provision for or benefit from income taxes and our income or loss before income taxes can vary significantly from period to period considering, among other factors, (a) the overall level of income before income taxes, (b) changes in the blend of income that is taxed based on gross revenues rather than income before taxes, (c) rig movements between taxing jurisdictions and (d) our rig operating structures.

A reconciliation of the income tax benefit computed at the Swiss holding company federal statutory rate of 7.83% and our reported consolidated income tax expense was as follows (in millions):

	Years ended December 31,		
	2023	2022	2021
Income tax benefit at Swiss federal statutory rate	\$ (74)	\$ (44)	\$ (36)
Earnings subject to rates different than the Swiss federal statutory rate	129	52	78

Changes in valuation allowance	(23)	79	1,167
Changes in unrecognized tax benefits, net	(37)	2	(43)
Swiss Federal Act on Tax Reform and AHV Financing	—	96	(1,095)
Audit settlement	—	12	—
Changes due to organizational restructuring	—	(162)	16
Losses on impairment	—	—	5
Other, net	2	2	2
Income tax expense	<u>\$ 13</u>	<u>\$ 59</u>	<u>\$ 121</u>

In January 2020, Switzerland made effective the Federal Act on Tax Reform and AHV Financing (“TRAF”). In March 2020, we entered into discussions with the Swiss tax authorities regarding the manner by which the TRAF applies to certain Swiss subsidiaries, which

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

allows us to access historic depreciation and costs related to financing assets not previously deducted on Swiss tax returns, which can be apportioned to offset taxable income based on the remaining useful lives of the rigs and financing assets. In the three months ended December 31, 2021, we reached an agreement with the Swiss Tax authorities regarding the TRAF treatment. At December 31, 2023 and 2022, we had a deferred tax liability of \$264 million and \$226 million, respectively, and a deferred tax asset of \$1.21 billion and \$1.23 billion, respectively, offset with a valuation allowance of \$1.10 billion, associated with TRAF.

Deferred taxes—The significant components of our deferred tax assets and liabilities were as follows (in millions):

	<u>December 31,</u>	
	<u>2023</u>	<u>2022</u>
Deferred tax assets		
Swiss historic depreciation and financing asset costs	\$ 1,210	\$ 1,226
Net operating loss carryforwards	1,264	1,115
Interest expense limitation	87	77
United Kingdom charter limitation	53	53
Accrued expenses	47	36
Tax credits	4	11
Deferred income	—	7
Accrued payroll costs not currently deductible	16	18
Loss contingencies	4	4
Other	54	43
Valuation allowance	(1,884)	(1,910)
Total deferred tax assets, net of allowance	<u>855</u>	<u>680</u>
Deferred tax liabilities		
Depreciation	(1,342)	(1,150)
Other	(9)	(10)
Total deferred tax liabilities	<u>(1,351)</u>	<u>(1,160)</u>
Deferred tax assets (liabilities), net	<u>\$ (496)</u>	<u>\$ (480)</u>

We include taxes related to the earnings of all of our subsidiaries since we do not consider the earnings of any of our subsidiaries to be indefinitely reinvested.

At December 31, 2023 and 2022, our deferred tax assets included U.S. tax credits of \$4 million and \$11 million, respectively, which will expire between 2024 and 2026. Deferred tax assets related to our net operating losses were generated in various worldwide tax jurisdictions. At December 31, 2023, our net deferred tax assets related to our net operating loss carryforwards included \$585 million, which do not expire, and \$855 million, which will expire between 2024 and 2041.

As of December 31, 2023, our consolidated cumulative loss incurred over the recent three-year period represented significant objective negative evidence for the evaluation of the realizability of our deferred tax assets. Because such evidence has limited our ability to consider other subjective evidence, we evaluate each jurisdiction separately. We consider objective evidence, such as contract backlog activity, in jurisdictions in which we have profitable contracts, and the ability to carryback losses or utilize losses against potential exposures. If estimated future taxable income changes during the carryforward periods or if the cumulative loss is no longer present, we may adjust the amount of deferred tax assets that we expect to realize. At December 31, 2023 and 2022, due to uncertainty of realization, we had a valuation allowance of \$1.88 billion and \$1.91 billion, respectively, on net operating losses and other deferred tax assets due to the uncertainty of realization.

Unrecognized tax benefits—The changes to unrecognized tax benefits, excluding interest and penalties that we recognize as a component of income tax expense, were as follows (in millions):

	<u>Years ended December 31,</u>		
	<u>2023</u>	<u>2022</u>	<u>2021</u>
Balance, beginning of period	\$ 444	\$ 402	\$ 378
Additions for current year tax positions	45	28	28
Additions for prior year tax positions	5	62	46
Reductions related to statute of limitation expirations and changes in law	(14)	(13)	(19)
Reductions due to settlements	(5)	(5)	(31)
Reductions for prior year tax positions	(26)	(30)	—
Balance, end of period	<u>\$ 449</u>	<u>\$ 444</u>	<u>\$ 402</u>

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

Our unrecognized tax benefits, including related interest and penalties that we recognize as a component of income tax expense, were as follows (in millions):

	December 31,	
	2023	2022
Unrecognized tax benefits, excluding interest and penalties	\$ 449	\$ 444
Interest and penalties	9	27
Unrecognized tax benefits, including interest and penalties	<u>\$ 458</u>	<u>\$ 471</u>

In the years ended December 31, 2023, 2022 and 2021, we recognized, as a component of our income tax provision, benefit of \$18 million, expense of \$6 million and expense of \$8 million, respectively, related to interest and penalties associated with our unrecognized tax benefits. As of December 31, 2023, we have unrecognized benefits of \$458 million, including interest and penalties, against which we have recorded net operating loss deferred tax assets of \$411 million, resulting in net unrecognized tax benefits of \$47 million, including interest and penalties, that upon reversal would favorably impact our effective tax rate. During the year ending December 31, 2024, it is reasonably possible that our existing liabilities for unrecognized tax benefits may increase or decrease, primarily due to the progression of open audits and the expiration of statutes of limitation. However, we cannot reasonably estimate a range of potential changes in our existing liabilities for unrecognized tax benefits due to various uncertainties, such as the unresolved nature of various audits.

Tax positions and returns—We conduct operations through our various subsidiaries in countries throughout the world. Each country has its own tax regimes with varying nominal rates, deductions and tax attributes that are subject to changes resulting from new legislation, interpretation or guidance. From time to time, as a result of these changes, we may revise previously evaluated tax positions, which could cause us to adjust our recorded tax assets and liabilities. Tax authorities in certain jurisdictions are examining our tax returns and, in some cases, have issued assessments. We intend to defend our tax positions vigorously. Although we can provide no assurance as to the outcome of the aforementioned changes, examinations or assessments, we do not expect the ultimate liability to have a material adverse effect on our consolidated statement of financial position or results of operations; however, it could have a material adverse effect on our consolidated statement of cash flows.

Brazil tax investigations—In December 2005, the Brazilian tax authorities began issuing tax assessments with respect to our tax returns for the years 2000 through 2004. In May 2014, the Brazilian tax authorities issued an additional tax assessment for the years 2009 and 2010. We filed protests with the Brazilian tax authorities for the assessments and are engaged in the appeals process, and a portion of two cases were favorably closed. As of December 31, 2023, the remaining aggregate tax assessment, including interest and penalties, was for corporate income tax of BRL 698 million, equivalent to approximately \$144 million, and indirect tax of BRL 90 million, equivalent to \$19 million. We believe our returns are materially correct as filed, and we are vigorously contesting these assessments. An unfavorable outcome on these proposed assessments could have a material adverse effect on our consolidated statement of financial position, results of operations or cash flows.

NOTE 12—LOSS PER SHARE

The computation of basic and diluted loss per share was as follows (in millions, except per share data):

	Years ended December 31,		
	2023	2022	2021
Numerator for loss per share, basic and diluted			
Net loss attributable to controlling interest	\$ (954)	\$ (621)	\$ (592)
Denominator for loss per share, basic and diluted			
Weighted-average shares for per share calculation	768	699	637
Loss per share, basic and diluted	<u>\$ (1.24)</u>	<u>\$ (0.89)</u>	<u>\$ (0.93)</u>

We excluded from the computations certain shares issuable as follows because the effect would have been antidilutive (in millions):

	Years ended December 31,		
	2023	2022	2021
Exchangeable bonds	150.8	128.1	104.4
Share-based awards	18.6	15.5	12.6
Warrants	10.2	—	—

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

NOTE 13—COMMITMENTS AND CONTINGENCIES

Purchase and service agreement obligations

We have purchase obligations with shipyards and other contractors primarily related to our newbuild construction program for *Deepwater Aquila*. We also have long-term service agreements with original equipment manufacturers to provide services and parts, primarily related to our pressure control systems and drilling systems. The commitments for our service agreements were estimated based on projected operating activity, and actual operating activity could differ from such estimates. At December 31, 2023, the aggregate future payments required under our purchase obligations and our service agreement obligations were as follows (in millions):

	Purchase obligations	Service agreement obligations
Years ending December 31,		
2024	\$ 19	\$ 131
2025	2	145
2026	—	149
2027	—	121
2028	—	73
Thereafter	—	109
Total	\$ 21	\$ 728

Letters of credit and surety bonds

At December 31, 2023 and 2022, we had outstanding letters of credit totaling \$16 million and \$8 million, respectively, issued under various committed and uncommitted credit lines provided by banks to guarantee various contract bidding, performance activities and customs obligations. At December 31, 2023 and 2022, we also had outstanding surety bonds totaling \$198 million and \$161 million, respectively, to secure customs obligations related to the importation of our rigs and certain performance and other obligations. At December 31, 2023 and 2022, the aggregate cash collateral held by institutions to secure our letters of credit and surety bonds was \$7 million.

Legal proceedings

Asbestos litigation—In 2014, several of our subsidiaries were named, along with numerous other unaffiliated defendants, in complaints filed in Louisiana. The plaintiffs, former employees of some of the defendants, generally allege that the defendants used or manufactured asbestos-containing drilling mud additives for use in connection with drilling operations, claiming negligence, products liability, strict liability and claims allowed under the Jones Act and general maritime law. One of our subsidiaries has been named in similar complaints filed in Illinois, Missouri and California. At December 31, 2023, seven plaintiffs have claims pending in Louisiana and 15 plaintiffs in the aggregate have claims pending in either Illinois, Missouri, or California, in which we have or may have an interest. We intend to defend these lawsuits vigorously, although we can provide no assurance as to the outcome. We historically have maintained broad liability insurance, although we can provide no assurance as to whether insurance will cover the liabilities, if any, arising out of these claims. Based on our evaluation of the exposure to date, we do not expect the liability, if any, resulting from these claims to have a material adverse effect on our consolidated statement of financial position, results of operations or cash flows.

One of our subsidiaries was named as a defendant, along with numerous other companies, in lawsuits arising out of the subsidiary's manufacture and sale of heat exchangers, and involvement in the construction and refurbishment of major industrial complexes alleging bodily injury or personal injury as a result of exposure to asbestos. As of December 31, 2023, the subsidiary was a defendant in approximately 257 lawsuits with a corresponding number of plaintiffs. For many of these lawsuits, we have not been provided sufficient information from the plaintiffs to determine whether all or some of the plaintiffs have claims against the subsidiary, the basis of any such claims, or the nature of their alleged injuries. The operating assets of the subsidiary were sold in 1989. In December 2021, the subsidiary and certain insurers agreed to a settlement of outstanding disputes that provide the subsidiary with cash. An earlier settlement, achieved in September 2018, provided the subsidiary with cash and an annuity that begins making payments in 2024. Together with a coverage-in-place agreement with certain insurers and additional coverage issued by other insurers, we believe the subsidiary has sufficient resources to respond to both the current lawsuits as well as future lawsuits of a similar nature. While we cannot predict or provide assurance as to the outcome of these matters, we do not expect the ultimate liability, if any, resulting from these claims to have a material adverse effect on our consolidated statement of financial position, results of operations or cash flows.

Other matters—We are involved in various regulatory matters and a number of claims and lawsuits, asserted and unasserted, all of which have arisen in the ordinary course of our business. We do not expect the liability, if any, resulting from these other matters to have a material adverse effect on our consolidated statement of financial position, results of operations or cash flows. We cannot predict with certainty the outcome or effect of any of the litigation matters specifically described above or of any such other pending, threatened, or possible litigation or liability. We can provide no assurance that our beliefs or expectations as to the outcome or effect of any tax, regulatory, lawsuit or other litigation matter will prove correct and the eventual outcome of these matters could materially differ from management's current estimates.

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

Environmental matters

We have certain potential liabilities under the Comprehensive Environmental Response, Compensation, and Liability Act (“CERCLA”) and similar state acts regulating cleanup of hazardous substances at various waste disposal sites, including those described below. CERCLA is intended to expedite the remediation of hazardous substances without regard to fault. Potentially responsible parties (“PRPs”) for each site include present and former owners and operators of, transporters to and generators of the substances at the site. It is difficult to quantify the potential cost of environmental matters and remediation obligations. Liability is strict and can be joint and several.

One of our subsidiaries was named as a PRP in connection with a site located in Santa Fe Springs, California, known as the Waste Disposal, Inc. site. We and other PRPs agreed, under a participation agreement with the U.S. Environmental Protection Agency (the “EPA”) and the U.S. Department of Justice, to settle our potential liabilities by remediating the site. The remedial action for the site was completed in 2006. Our share of the ongoing operating and maintenance costs has been insignificant, and we do not expect any additional potential liabilities to be material. Resolutions of other claims by the EPA, the involved state agency or PRPs are at various stages of investigation. Nevertheless, based on available information with respect to all environmental matters, including all related pending legal proceedings, asserted legal claims and known potential legal claims that are likely to be asserted, we do not expect the ultimate liability, if any, resulting from such matters, to have a material adverse effect on our consolidated statement of financial position, results of operations or cash flows.

NOTE 14—EQUITY

Share issuance—In September 2023, we issued 11.9 million Transocean Ltd. shares with an aggregate value of \$99 million to acquire the outstanding ownership interests of Liquila (see Note 4—Unconsolidated Affiliates and Note 7—Long-Lived Assets). In the year ended December 31, 2023, we issued 65.1 million shares to certain holders that elected to exchange exchangeable bonds under terms of the governing indentures (see Note 9—Debt).

We maintain an at-the-market equity offering program (the “ATM Program”). We intend to use the net proceeds from our ongoing ATM Program for general corporate purposes, which may include, among other things, the repayment or refinancing of indebtedness and the funding of working capital, capital expenditures, investments and additional balance sheet liquidity. In June 2021, we entered into an equity distribution agreement with a sales agent for the offer and sale of our shares, with a maximum aggregate net offering price of up to \$400 million, under the ATM Program. In August 2022, we entered into an equity distribution agreement with a sales agent for the offer and sale of our shares, with a maximum aggregate net offering price of up to \$435 million, under the ATM Program. In the year ended December 31, 2023, we did not issue any shares under the ATM Program. In the years ended December 31, 2022 and 2021, we received aggregate cash proceeds of \$263 million and \$158 million, respectively, net of issue costs, for the aggregate sale of 61.0 million shares and 36.1 million shares, respectively, under the ATM Program.

Warrants—In September 2022, we issued 22.2 million warrants to purchase Transocean Ltd. shares. The warrants may be exercised by holders at any time prior to the close of business on March 13, 2026 at an exercise price equal to \$3.71 per share, subject to certain anti-dilutive adjustments, and at our election, such exercise may be settled by delivering cash, Transocean Ltd. shares or a combination of cash and shares. If at any time prior to expiration, the closing price of Transocean Ltd. shares equals or exceeds \$10.00 per share, subject to adjustment upon the occurrence of certain events, for a period of five consecutive trading days, we will have the right to effect an exercise of all, but not less than all, of the warrants upon notice to holders. The initial carrying amount of the warrants, recorded in additional paid-in capital and measured at the estimated fair value on the date of issuance, was \$16 million, net of issue costs. We estimated the fair value of the warrants by employing a binomial lattice model and by using significant other observable inputs, representative of Level 2 fair value measurements, including the expected volatility of the market price for our shares.

Shares held by subsidiaries—One of our subsidiaries holds our shares for future use to deliver shares in connection with sales under the ATM Program and in connection with awards granted under our incentive plans or other rights to acquire our shares. At December 31, 2023 and 2022, our subsidiary held 34.7 million and 75.4 million shares, respectively.

NOTE 15—SHARE-BASED COMPENSATION

Overview

We have a long-term incentive plan (the “Long-Term Incentive Plan”) for executives, key employees and non-employee directors under which awards can be granted in the form of restricted share units, restricted shares, stock options, stock appreciation rights and cash performance awards. Awards may be granted as service awards that are earned over a defined service period or as performance awards that are earned based on the achievement of certain market factors or performance targets or a combination of market factors and performance targets. The compensation committee of our board of directors determines the terms and conditions of the awards granted under the Long-Term Incentive Plan. At December 31, 2023, we had 115.7 million shares authorized and 31.2 million shares available to be granted under the Long-Term Incentive Plan. At December 31, 2023, the total unrecognized compensation cost related to our unvested share-based awards was \$42 million, which we expect to recognize over a weighted-average period of 1.72 years.

Service awards typically vest either in three equal annual installments beginning on the first anniversary date of the grant or in an aggregate installment at the end of the stated vesting period. Service-based stock options, once fully vested, are typically exercisable during

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

a seven-year period. Performance awards are typically subject to a three-year measurement period and typically vest in one aggregate installment following the ultimate determination date.

Service awards

Restricted share units—A restricted share unit subject to service requirements is a notional unit that is equal to one share but has no voting rights until the underlying share is issued. The following table summarizes unvested activity during the year ended December 31, 2023 for service-based units granted under our incentive plan:

	Number of units	Weighted-average grant-date fair value per unit
Unvested at January 1, 2023	12,047,500	\$ 3.25
Granted	3,744,049	7.23
Vested	(6,200,155)	2.94
Forfeited	(31,386)	3.56
Unvested at December 31, 2023	<u>9,560,008</u>	<u>\$ 5.01</u>

In the year ended December 31, 2023, the service-based units that vested had an aggregate grant-date fair value of \$18 million. In the years ended December 31, 2022 and 2021, we granted 6,768,943 and 6,148,361 service-based units, respectively, with a per unit weighted-average grant-date fair value of \$3.60 and \$3.56, respectively. In the years ended December 31, 2022 and 2021, we had 5,075,374 and 4,368,749 service-based units, respectively, that vested with an aggregate grant-date fair value of \$18 million and \$16 million, respectively.

Stock options—The following table summarizes activity during the year ended December 31, 2023 for vested and unvested service-based stock options outstanding under our incentive plan:

	Number of shares under option	Weighted-average exercise price per share	Weighted-average remaining contractual term (years)	Aggregate intrinsic value (in millions)
Outstanding at January 1, 2023	4,175,520	\$ 10.63	4.82	\$ —
Forfeited	(25,017)	59.30		
Expired	(66,574)	59.30		
Outstanding at December 31, 2023	<u>4,083,929</u>	<u>\$ 9.54</u>	<u>3.92</u>	<u>\$ —</u>
Vested and exercisable at December 31, 2023	4,083,929	\$ 9.54	3.92	\$ —

In the years ended December 31, 2022 and 2021, the stock options that vested had an aggregate grant-date fair value of \$4 million and \$9 million, respectively. At December 31, 2023 and 2022, there were no outstanding unvested stock options to purchase our shares.

Performance awards

Restricted share units—A restricted share unit subject to performance requirements is a notional unit for which the awarded number of shares to be issued per unit remains uncertain until quantified as of the ultimate determination date following completion of the performance period. The following table summarizes unvested activity during the year ended December 31, 2023 for performance-based units under our incentive plan:

	Number of units	Weighted-average grant-date fair value per unit
Unvested at January 1, 2023	6,545,369	\$ 3.81
Granted	1,912,292	6.74
Vested	(3,025,512)	3.70
Unvested at December 31, 2023	<u>5,432,149</u>	<u>\$ 4.91</u>

In the years ended December 31, 2023, 2022 and 2021, the performance-based units that vested had an aggregate grant-date fair value of \$11 million, \$5 million and \$11 million, respectively. In the years ended December 31, 2022 and 2021, we granted 3,519,857 and 3,025,512 performance-based units, respectively, with a per unit weighted-average grant-date fair value of \$3.91 and \$3.70, respectively.

Long-term loans receivable from unconsolidated affiliates	6	6	41	43
Total debt	7,413	7,308	7,347	6,412

Cash and cash equivalents—Our cash and cash equivalents are primarily invested in demand deposits, short-term time deposits and money market funds. The carrying amount of our cash and cash equivalents represents the historical cost, plus accrued interest, which approximates fair value because of the short maturities of the instruments.

Restricted cash and cash equivalents—Our restricted cash and cash equivalents, which are subject to restrictions due to collateral requirements, legislation, regulation or court order, are primarily invested in demand deposits and money market funds. The carrying amount of our restricted cash and cash equivalents represents the historical cost, plus accrued interest, which approximates fair value because of the short maturities of the instruments.

Long-term loans receivable from unconsolidated affiliates—The carrying amount of our long-term loans receivable from unconsolidated affiliates, recorded in other assets, represents the principal amount of the cash investment. We estimated the fair value of our long-term loans receivable from unconsolidated affiliates using significant unobservable inputs, representative of Level 3 fair value measurements, including the terms and credit spreads for the instruments.

TRANSOCEAN LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—continued

Total debt—The carrying amount of our total debt represents the principal amount, contractual interest payments of previously restructured debt and unamortized discounts, premiums and issue costs. The carrying amount and fair value of our total debt includes amounts related to certain exchangeable debt instruments (see Note 9—Debt). We estimated the fair value of our total debt using significant other observable inputs, representative of Level 2 fair value measurements, including the terms and credit spreads for the instruments and, with respect to the exchangeable debt instruments, the expected volatility of the market price for our shares.

NOTE 19—RISK CONCENTRATION

Interest rate risk—We are exposed to the interest rate risk related to our fixed-rate debt when we refinance maturing debt with new debt or when we early retire debt in open market repurchases, exchanges or other market transactions. We are also exposed to interest rate risk related to our restricted and unrestricted cash equivalents, as the interest income earned on these investments is based on variable or short-term interest rates, which change with market interest rates.

Equity price risk—We are exposed to equity price risk primarily related to the bifurcated compound exchange feature contained within the 4.625% Senior Guaranteed Exchangeable Bonds. The market price of our shares is the primary driver of the fair value of the exchange feature. An increase to the market price of our shares yields an increase to the carrying amount of the exchange feature, recorded as a component of our debt, and a corresponding increase to interest expense.

Currency exchange rate risk—We are exposed to currency exchange rate risk primarily related to contract drilling revenues, employee compensation costs and purchasing costs that are denominated in currencies other than our functional currency, the U.S. dollar. We use a variety of techniques to minimize the exposure to currency exchange rate risk, including the structuring of customer contract payment terms and occasional use of forward exchange contracts. Our primary tool to manage currency exchange rate risk involves structuring customer contracts to provide for payment in both U.S. dollars and local currency. The payment portion denominated in local currency is based on anticipated local currency requirements over the contract term. Due to various factors, including customer acceptance, local banking laws, national content requirements, other statutory requirements, local currency convertibility, local inflation and revenue efficiency, actual local currency needs may vary from those realized in the customer contracts, resulting in partial exposure to currency exchange rate risk. The currency exchange effect resulting from our international operations generally has not had a material impact on our operating results.

Credit risk—We are exposed to concentrations of credit risk primarily related to our restricted and unrestricted cash and cash equivalents and customer receivables, both current and long-term. We generally maintain our restricted and unrestricted cash and cash equivalents in time deposits at commercial banks with high credit ratings or mutual funds, which invest exclusively in high-quality money market instruments, and because we limit the amount of exposure to any one institution, we do not believe we are exposed to any significant credit risk. Our customer receivables, which are dispersed in various countries, are due from integrated energy companies, government-owned or government-controlled energy companies and other independent energy companies. For such receivables, we establish an allowance for credit losses by applying an expected loss rate based on current and forecasted future and historical experience. Although we have encountered only isolated credit concerns related to independent energy companies, we occasionally require collateral or other security to support customer receivables. In certain infrequent instances, when we determine that collection is not reasonably assured, we may offer extended payment terms and recognize revenues associated with the contract on a cash basis.

Labor agreements—At December 31, 2023, we had a global workforce of approximately 5,800 individuals, including approximately 370 contractors. Approximately 42 percent of our total workforce, working primarily in Norway and Brazil, are represented by, and some of our contracted labor work is subject to, collective bargaining agreements, substantially all of which are subject to annual salary negotiation. Negotiations over annual salary or other labor matters could result in higher personnel or other costs or increased operational restrictions or disruptions. The outcome of any such negotiation generally affects the market for all offshore employees, not only union members. A failure to reach an agreement on certain key issues could result in strikes, lockouts or other work stoppages.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

We have not had a change in or disagreement with our accountants within 24 months prior to the date of our most recent financial statements or in any period subsequent to such date.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure controls and procedures—Our disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Exchange Act is (1) accumulated and communicated to our management, including our Chief Executive Officer, who is our principal executive officer, and our Chief Financial Officer, who is our principal financial officer, to allow timely decisions regarding required disclosure and (2) recorded, processed, summarized and reported within the time periods specified in the U.S. Securities and Exchange Commission's rules and forms. Under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, we performed an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of December 31, 2023.

Internal control over financial reporting—There were no changes to our internal control over financial reporting during the quarter ended December 31, 2023 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting. See "Management's Report on Internal Control Over Financial Reporting" and "Report of Independent Registered Public Accounting Firm," included in Item 8 of this annual report.

ITEM 9B. OTHER INFORMATION

On December 19, 2023, Keelan Adamson, President and Chief Operating Officer of the Company, adopted a Rule 10b5-1 trading arrangement (as such term is defined under Item 408(a) of Regulation S-K) that is intended to satisfy the affirmative defense of Rule 10b5-1(c) for the sale of up to 211,308 shares of Transocean Ltd. (the "Plan"). Sales may not commence under the Plan until March 26, 2024 at the earliest and, for certain of the shares, only at specified market prices. Unless earlier terminated in accordance with the terms and conditions of the Plan, the Plan expires on December 19, 2024.

As part of Transocean's continued focus on a succession planning strategy to support the Company's long-term growth, on February 20, 2024, Transocean announced a transition of the role of Chief Financial Officer from Mr. Mark Mey to Mr. Thad Vayda. Mr. Mey will continue to serve as Chief Financial Officer of Transocean until the effective date of Mr. Vayda's appointment, which will be determined at a later date and is expected to occur during the second quarter of 2024.

Mr. Vayda, age 61, has served as Senior Vice President of Corporate Finance and Treasurer of Transocean since February 2023. Prior to this role, he served as Vice President, Corporate Finance and Treasurer from August 2015 until February 2023, as Vice President, Investor Relations and Treasurer from July 2014 to August 2015, as Vice President, Investor Relations and Communications from March 2012 to June 2014 and as Vice President, Investor Relations from July 2011 to February 2012. Mr. Vayda initially joined Transocean in August 1995, working with the company until April 2000 in positions that included Director of Corporate Planning and Operational Division Engineer.

Between May 2000 and June 2011, Mr. Vayda worked primarily in energy-related equity capital markets roles, including at RBC Capital Markets and as Managing Director, Equity Research at Stifel, Nicolaus & Company where, as an equity analyst, he published strategic and financial assessments and opinions on energy and oilfield services and equipment companies. Earlier in his career, Mr. Vayda held various leadership positions at Northwest Airlines where he was responsible for managing financial yield in certain markets served by the airline and, separately, determining the company's fleet asset strategy. Mr. Vayda started his professional career with Booz Allen Hamilton, Management Consultants.

Mr. Vayda earned a Masters in Business Administration from The Fuqua School of Business at Duke University, Durham, North Carolina in May 1992, and a Bachelor of Science degree in Engineering from The Catholic University of America at Washington, D.C. in May 1985.

The future appointment of Mr. Vayda is not pursuant to any agreement between him and any other person. There is no family relationship between Mr. Vayda and any director or executive officer of Transocean, and there are no transactions between Mr. Vayda and Transocean that are required to be reported under Item 404(a) of Regulation S-K. At this time, there are no changes to Mr. Vayda's compensation arrangements with Transocean, and if any such changes are made in connection with his future appointment to the position of Chief Financial Officer, Transocean will describe such changes in a future current or periodic report, as applicable.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

ITEM 11. EXECUTIVE COMPENSATION

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS

ITEM 13. CERTAIN RELATIONSHIPS, RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information required by Items 10, 11, 12, 13 and 14 is incorporated herein by reference to our definitive proxy statement for our 2024 annual general meeting of shareholders, which will be filed with the U.S. Securities and Exchange Commission pursuant to Regulation 14A under the Securities Exchange Act of 1934 within 120 days of December 31, 2023. Certain information with respect to our executive officers is set forth at the end of Part I of this annual report under the caption “Information About our Executive Officers.”

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(A) INDEX TO FINANCIAL STATEMENTS, FINANCIAL STATEMENT SCHEDULES AND EXHIBITS

(1) Index to Financial Statements

Included in Part II of this report:	Page
Management’s Report on Internal Control Over Financial Reporting	AR-39
Reports of Independent Registered Public Accounting Firm (PCAOB ID 00042)	AR-40
Report of the Statutory Auditor	AR-43
Consolidated Statements of Operations	AR-46
Consolidated Statements of Comprehensive Loss	AR-47
Consolidated Balance Sheets	AR-48
Consolidated Statements of Equity	AR-49
Consolidated Statements of Cash Flows	AR-50
Notes to Consolidated Financial Statements	AR-51

Financial statements of unconsolidated subsidiaries are not presented herein because such subsidiaries do not meet the significance test.

(2) Financial Statement Schedules

TRANSOCEAN LTD. AND SUBSIDIARIES

Exhibits listed above as previously having been filed with the U.S. Securities and Exchange Commission are incorporated herein by reference pursuant to Rule 12b-32 under the Securities Exchange Act of 1934 and made a part hereof with the same effect as if filed herewith.

Certain instruments relating to our long-term debt and our subsidiaries have not been filed as exhibits since the total amount of securities authorized under any such instrument does not exceed 10 percent of our total assets and our subsidiaries on a consolidated basis. We agree to furnish a copy of each such instrument to the SEC upon request.

Certain agreements filed as exhibits to this Report may contain representations and warranties by the parties to such agreements. These representations and warranties have been made solely for the benefit of the parties to such agreements and (1) may be intended not as statements of fact, but rather as a way of allocating the risk to one of the parties if those statements prove to be inaccurate, (2) may have been qualified by certain disclosures that were made to other parties in connection with the negotiation of such agreements, which disclosures are not reflected in such agreements, and (3) may apply standards of materiality in a way that is different from what may be viewed as material to investors.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned; thereunto duly authorized, on February 20, 2024.

STATUTORY FINANCIAL STATEMENTS

For the years ended December 31, 2023 and 2022

THIS PAGE INTENTIONALLY LEFT BLANK

To the General Meeting of
Transocean Ltd., Steinhausen

Zurich, February 20, 2024

Report of the statutory auditor

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Transocean Ltd. (the Company), which comprise the balance sheet as at December 31, 2023, the statement of operations for the year then ended and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements comply with Swiss law and the Company's articles of incorporation.

Basis for opinion

We conducted our audit in accordance with Swiss law and Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the Company in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For the matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the "Auditor's responsibilities for the audit of the financial statements" section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying financial statements.

Impairment assessment of investments in subsidiaries

Risk

Transocean Ltd. evaluates its investments in subsidiaries for impairment annually and records an impairment loss when the carrying amount of such assets exceeds the recoverable amount. The assessment of the existence of any indicators of impairment of the carrying amount of investments in subsidiaries is judgmental. In the event that indicators of impairment are identified, the assessment of the recoverable amounts is also judgmental and requires estimation and the use of subjective assumptions.

Transocean Ltd. measures the recoverable amount of its investments in subsidiaries by applying a variety of valuation methods, incorporating a combination of income and market approaches and using projected discounted cash flows.

The primary risks are identifying impairment indicators, inaccurate models being used for the impairment assessment, and that the assumptions to support the value of the investments are inappropriate. The principal consideration for our determination that the impairment assessment of investments in subsidiaries is a key audit matter is the subjectivity in the assessment of the recoverable amounts which requires estimation and the use of subjective assumptions.

See Note 3 to these financial statements for Transocean Ltd.'s disclosures related to investment in subsidiaries.

Our audit response

Our audit procedures related to the key audit matter of the impairment assessment of investments in subsidiaries included the following procedures:

We performed inquiries of management about the current market conditions supporting the evaluation of potential impairment indicators, tested the key assumptions used, and performed procedures on Transocean Ltd.'s prospective financial information.

We involved valuation specialists to assist in the evaluation of management's valuation models and impairment analyses, specifically in testing key assumptions and prospective financial information.

We performed procedures to assess the valuation models for evidence of management bias considering contrary evidence from third party analyst reports and press releases.

Our audit procedures did not lead to any reservations regarding the impairment assessment of investments in subsidiaries.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements, the stand-alone financial statements, the compensation report and our auditor's reports thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we perform, we conclude that there is a material misstatement of this other information, we are required to report that fact.

Board of Directors' responsibilities for the financial statements

The Board of Directors is responsible for the preparation of the financial statements in accordance with the provisions of Swiss law and the Company's articles of incorporation, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law and SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on EXPERTsuisse's website at: <https://www.expertsuisse.ch/en/audit-report>. This description forms an integral part of our report.

Report on other legal and regulatory requirements

In accordance with Art. 728a para. 1 item 3 CO and PS-CH 890, we confirm that an internal control system exists, which has been designed for the preparation of the financial statements according to the instructions of the Board of Directors.

Furthermore, we confirm that the proposed appropriation of accumulated losses brought forward complies with Swiss law and the Company's articles of incorporation.

We recommend that the financial statements submitted to you be approved.

TRANSOCEAN LTD.

NOTES TO STATUTORY FINANCIAL STATEMENTS

NOTE 1—GENERAL

Transocean Ltd. (the “Company”, “we”, “us”, or “our”) is the parent company of Transocean Financing GmbH (“TFIN”), Transocean Inc., Transocean Management Services GmbH, Transocean Quantum Holdings Limited (“TQHL”), and Triton Quantum I GmbH (“TQ1G”), our direct wholly owned subsidiaries. Transocean Ltd. is registered with the commercial register in the canton of Zug, and its shares are listed on the New York Stock Exchange. At December 31, 2023 and 2022, we had fewer than 10 full-time employees.

NOTE 2—SIGNIFICANT ACCOUNTING POLICIES

Presentation—We have prepared our unconsolidated statutory financial statements in accordance with the accounting principles as set out in Art. 957 to Art. 963b, of the Swiss Code of Obligations (the “CO”). Since we have prepared our consolidated financial statements in accordance with U.S. generally accepted accounting standards, a recognized accounting standard, we have, in accordance with the CO, elected to forego presenting the statement of cash flows, the additional disclosures and the management report otherwise required by the CO. Our financial statements may be influenced by the creation and release of excess reserves.

Currency—We maintain our accounting records in U.S. dollars and translate them into Swiss francs for statutory reporting purposes. We translate into Swiss francs our assets and liabilities that are denominated in non-Swiss currencies using the year-end currency exchange rates, except prior-year transactions for our investments in subsidiaries and our shareholders’ equity, which are translated at historical exchange rates. We translate into Swiss francs our income statement transactions that are denominated in non-Swiss currencies using the average currency exchange rates for the year.

Our principal exchange rates were as follows:

	Average exchange rates for the years ended December 31,		Exchange rates at December 31,	
	2023	2022	2023	2022
CHF / USD	0.90	0.95	0.84	0.92
CHF / GBP	1.12	1.19	1.07	1.12
CHF / NOK	0.09	0.10	0.08	0.09

We recognize realized currency exchange and translation gains and losses arising from business transactions and net unrealized currency exchange and translation losses in current period earnings. We defer net unrealized currency exchange and translation gains.

Cash—We hold cash balances, denominated in Swiss francs and U.S. dollars, which include cash deposited in demand bank accounts, money market investment accounts and other liquid investments and interest earned on such cash balances.

Current assets and liabilities—We record current assets at historical cost less adjustments for impairment of value and current liabilities at historical cost.

Investments in subsidiaries—We record our investments in subsidiaries at acquisition cost less adjustments for impairment of value. We evaluate our investments in subsidiaries for impairment annually and record an impairment loss when the carrying amount of such assets exceeds the fair value. We estimate fair value of our investments using a variety of valuation methods, including the income and market approaches. Our estimates of fair value represent a price that would be received to sell the asset in an orderly transaction between market participants in the principal market for the asset.

Own shares—We recognize own shares at acquisition cost, which we present as a deduction from shareholders’ equity at the time of acquisition. For own shares held by subsidiaries, we build a reserve for shares in equity at the respective acquisition costs.

Related parties—In the meaning of the CO, we consider related parties to be only shareholders, direct and indirect subsidiaries, and the board of directors.

NOTE 3—INVESTMENT IN SUBSIDIARIES

Direct Investments—Our direct investments in subsidiaries were as follows (in thousands, except percentages):

Company name	Purpose	Domicile	Ownership and voting interest	Share capital	Carrying amount as of December 31,

TRANSOCEAN LTD.
NOTES TO STATUTORY FINANCIAL STATEMENTS—continued

In September 2023, we acquired Liquila Ventures Ltd. (“LVL” and together with its subsidiaries, “Liquila”) and contributed our acquired ownership interests to TQHL, which increased our investment in TQHL by CHF 88 million (see Note 4—Shareholders’ Equity). In October 2023, we contributed CHF 20,000 to TQ1G, formed to own and hold investments in certain subsidiaries. In November 2023, we received from Transocean Inc. a distribution of two ultra-deepwater drillships, and we contributed the drillships to TQ1G, which increased our investment in TQ1G by CHF 710 million (see Note 8—Related Party Transactions). In December 2023, we received from Transocean Inc. a distribution of ownership interests in TFIN, and as a result, TFIN became our direct wholly owned subsidiary.

Impairment evaluation—In the years ended December 31, 2023 and 2022, as a result of our annual impairment test, we determined that the carrying amount of our investments in subsidiaries was not impaired.

Principal indirect investments—Our principal indirect investments in subsidiaries were as follows:

In the year ended December 31, 2023, we formed the following principal indirect subsidiaries: (a) Transocean Aquila Limited, formed to issue senior secured notes that will be secured by *Deepwater Aquila*, a newbuild ultra-deepwater drillship under construction, and (b) Triton Quantum Rig Holdings GmbH (“TQRHL”), formed to own two ultra deepwater drillships. In the year ended December 31, 2023, we removed from the schedule of principal indirect investments certain entities that were issuers of secured debt securities that were early retired during the year.

In the year ended December 31, 2022, we formed the following principal indirect subsidiaries: (a) Triton Atlas GmbH (“TAG”), formed to own the ultra-deepwater drillship *Deepwater Atlas*, which is held as security for borrowings under a shipyard loan, and (b) Transocean Titan Financing Limited to issue senior secured notes that are secured by the ultra-deepwater drillship *Deepwater Titan*.

Net income for the year	—	—	—	—	—		—	602,331	602,331
Balance at December 31, 2023	843,716	CHF 84,371	CHF 14,296,975	CHF 27,982	CHF 79,977		CHF —	CHF (10,858,207)	CHF 3,631,098

- a) As of December 31, 2023, the statutory capital reserves from capital contribution were CHF 13,648,046, approved as of December 31, 2021 by Swiss Federal Tax Administration ("SFTA") for distribution without any Swiss withholding tax consequences, and CHF 12,803 were pending approval. As of December 31, 2023 and 2022, an increase of CHF 447,324 and CHF 268,819, respectively, to the statutory capital reserves from capital contribution was pending approval by SFTA.
- b) The statutory capital reserve from capital contribution for shares held by subsidiaries represents the aggregate cost of own shares held indirectly through Transocean Inc. See Note 5—Own Shares.

In September 2023, we issued 11.9 million shares with an aggregate value of USD 99 million, equivalent to CHF 88 million, to acquire the outstanding equity ownership interests of LVL, an entity in which we previously held a noncontrolling ownership interest, and as a result, Liquila became our wholly owned subsidiary. In November 2023, we contributed the acquired LVL shares to TQHL, which TQHL subsequently contributed to TQRHL, a company partially owned and controlled by a wholly owned subsidiary of Transocean Inc.

Authorized share capital and general capital authorization (*Kapitalband*)—During the year ended December 31, 2023, our board of directors approved out of authorized share capital the issuance of 34.6 million of our shares, par value CHF 0.10 each, for an aggregate value of USD 4 million, equivalent to CHF 4 million, which corresponds to the number of shares used in connection with the conversion of USD 213 million principal amount of Transocean Inc.'s 2.5% senior guaranteed exchangeable bonds due 2027. During the year ended December 31, 2022, our board of directors approved out of authorized share capital the issuance of 69.1 million, par value CHF 0.10 each, for an aggregate value of USD 7 million, equivalent to CHF 7 million, earmarked for certain equity offerings, including an at-the-market equity offering (the "ATM Program").

At our annual general meeting of shareholders on May 11, 2023, shareholders approved a general capital authorization to issue up to 159.4 million shares, thereby replacing our authorization to issue shares using authorized share capital that was previously approved by shareholders at the Company's 2022 annual general meeting. The general capital authorization may be used for purposes in accordance with the provisions of Article 5 of the Company's articles of association. Our board of directors has an authority to increase the share capital, within general capital authorization, solely for the purpose of granting shares under our incentive plans, by issuing up to a maximum of 30.0 million of our shares. Our board of directors approved the issuance of 11.9 million of our shares, par value CHF 0.10 each, for an aggregate value of USD 1 million, equivalent to CHF 1 million, to Transocean Inc., using the general capital authorization. At December 31, 2023, based on shareholder approval dated May 11, 2023, the remaining authority of our board of directors to issue shares out of general capital authorization, including the authority for granting shares under our incentive plans, is limited to a maximum of 177.6 million shares.

Conditional share capital—Our articles of association provide for a conditional share capital that permits us to issue up to 142.4 million additional shares, under either of the following circumstances, without obtaining additional shareholder approval:

- (1) through the exercise of conversion, exchange, option, warrant or similar rights for the subscription of shares granted in connection with bonds, options, warrants or other securities newly or already issued in national or international capital markets or new or already existing

TRANSOCEAN LTD.
NOTES TO STATUTORY FINANCIAL STATEMENTS—continued

contractual obligations convertible into or exercisable or exchangeable for our shares or the shares of one of our group companies or any of their respective predecessors; or

- (2) in connection with the issuance of shares, options or other share-based awards to directors, employees, contractors, consultants or other persons providing services to us.

In connection with the issuance of bonds, notes, warrants or other financial instruments or contractual obligations that are convertible into, exercisable for or exchangeable for our registered shares, our board of directors is authorized to withdraw or limit the advance subscription rights of shareholders under certain circumstances. In connection with the issuance of shares, options or other share-based awards to directors, employees, contractors, consultants or other persons providing services to us, the preemptive rights and the advance subscription rights of shareholders are excluded. In the years ended December 31, 2023 and 2022, we issued 582 shares and 681 shares, respectively, out of conditional share capital to holders that exercised their options to exchange the 0.5% exchangeable senior bonds due 2023 into our shares. In March 2019, we and Transocean Inc. entered into an option agreement, pursuant to which we granted Transocean Inc. the right to acquire 12.0 million shares from us to satisfy obligations under our share-based compensation plans. In March 2019, we issued to 1.4 million shares out of conditional share capital to Transocean Inc. upon partial exercise of its right to acquire our shares under the option agreement in exchange for USD 12 million, equivalent to CHF 12 million. At December 31, 2023 and 2022, our board of directors were authorized to issue up to a maximum of 142.4 million shares out of conditional share capital.

Share issuance—We intend to use the net proceeds of our ongoing ATM Program for general corporate purposes, which may include, among other things, the repayment or refinancing of indebtedness and the funding of working capital, capital expenditures, investments, and additional balance sheet liquidity. In August 2022, we entered into an equity distribution agreement with a sales agent for the offer and sale of our shares with a maximum aggregate net offering price of up to USD 435 million, equivalent to CHF 418 million under the ATM Program. In the year ended December 31, 2023, we did not issue any shares under the ATM Program. In the year ended December 31, 2022, we received aggregate cash proceeds of USD 270 million, equivalent to CHF 259 million, for the aggregate sale of 61.0 million shares, under the ATM Program.

Reallocation of reserves—At our annual general meeting of shareholders on May 11, 2023, shareholders approved reallocation of CHF 9.50 billion of free capital reserves from capital contribution to statutory capital reserves from capital contribution.

NOTE 5—OWN SHARES

Overview—The following is a summary of changes in the registered shares held by Transocean Inc. to satisfy obligations under our share-based compensation plans (in thousands, except percentages):

	Own shares	Total shares issued	Percentage of shares issued
Balance at December 31, 2021	72,671	728,176	9.98%
Transfers under share-based compensation plans	(5,374)		
Shares issued to Transocean Inc.	69,068		
Shares issued under at-the-market equity offering	(61,008)		
Balance at December 31, 2022	75,357	797,245	9.45%
Transfers under share-based compensation plans	(10,197)		
Shares issued to Transocean Inc.	34,600		
Debt conversion activity	(65,075)		
Balance at December 31, 2023	34,685	843,716	4.11%

Shares held by subsidiaries—Transocean Inc. holds our shares to satisfy our obligations to deliver shares in connection with awards granted under our incentive plans or other rights to acquire our shares through equity offerings. In the years ended December 31, 2023 and 2022, we transferred 10.2 million and 5.4 million shares, respectively, at historical cost, from the own shares held by Transocean Inc. to satisfy obligations under our share-based compensation plans. At December 31, 2023 and 2022, Transocean Inc. held 4.6 million and 14.9 million of our shares, respectively, to satisfy obligations under our share-based compensation plans.

In the years ended December 31, 2023 and 2022, we transferred 34.6 million and 69.1 million shares, respectively, at par value, to Transocean Inc. In the year ended December 31, 2023, Transocean Inc. transferred 38.6 million, 13.3 million and 13.1 million, respectively, shares to us, for shares issued for conversion of 2.5% note, 4.0% note and 4.625% note, at par value, together with a fee of 5 percent on the par value of the transferred shares. At commencement of ATM Program, Transocean Inc. transferred shares to us, equal to shares issued under ATM Program, at par value, together with a fee of 5 percent on the par value of the transferred shares. At December 31, 2023 and 2022, Transocean Inc. held 30.1 million and 60.5 million of our shares, respectively, for issuance to satisfy note conversions or issuance under the ATM program.

Share repurchase program—In May 2009, at our annual general meeting, our shareholders approved and authorized our board of directors, at its discretion, to repurchase an amount of our shares for cancellation with an aggregate purchase price of up to CHF 3.50 billion. At December 31, 2023, the authorization remaining under the share repurchase program was for the repurchase of our

TRANSOCEAN LTD.
NOTES TO STATUTORY FINANCIAL STATEMENTS—continued

outstanding shares for an aggregate cost of up to CHF 3.24 billion. The share repurchase program may be suspended or discontinued by our board of directors or company management, as applicable, at any time.

NOTE 6—SHARE OWNERSHIP

Significant shareholders—Certain significant shareholders have reported to us that they held, directly or through their affiliates, the following beneficial interests in excess of 5 percent of our issued share capital (in thousands, except percentages):

December 31, 2023			December 31, 2022		
Name	Number of shares	Percentage of issued share capital	Name	Number of shares	Percentage of issued share capital
Frederik W. Mohn / Perestroika (Cyprus) Ltd.	84,882	10.49%	The Vanguard Group	63,405	8.78%

NOTE 7—GUARANTEES, CONTINGENCIES AND COMMITMENTS

Transocean Inc. and certain indirect subsidiaries' debt obligations—Transocean Inc., Transocean Poseidon Limited, Transocean Aquila Limited and Transocean Titan Financing Limited have each issued certain debt securities or entered into other credit arrangements, including notes, bank credit agreements, debentures, surety bonds and letters of credit. We agreed to guarantee certain of these debt securities or other credit arrangements in exchange for a guarantee fee from our subsidiaries. With certain exceptions under the indentures of the debt securities issued by our subsidiaries, we are not subject to significant restrictions on our ability to obtain funds from our consolidated subsidiaries by dividends, loans or return of capital distributions. At December 31, 2023 and 2022, the aggregate carrying amount of debt that we have guaranteed was USD 6.77 billion and USD 7.08 billion, respectively, equivalent to CHF 5.69 billion and CHF 6.55 billion, respectively. In the years ended December 31, 2023 and 2022, we recognized guarantee fee income of CHF 1 million.

Surety bond performance obligations—On August 18, 2020, we provided a guarantee in favor of our subsidiaries issuing or reinsuring or procuring the issue or reinsurance of surety bonds in Brazil. At December 31, 2023 and 2022, our guarantee was in support of USD 65 million and USD 61 million, equivalent to CHF 55 million and CHF 51 million, respectively, of outstanding surety bonds.

Swiss group value added tax obligations—We are one of a group of Swiss entities that are jointly and severally liable for the entire Swiss value added tax amount due to the Swiss tax authorities by this group.

NOTE 8—RELATED PARTY TRANSACTIONS

Credit agreements—On June 1, 2011, we and Transocean Inc., as the borrower and lender, respectively, entered into a credit agreement establishing a USD 2.00 billion revolving credit facility. Under the terms of the agreement, as amended, interest is incurred on outstanding borrowings at a variable rate based on the Swiss Safe Harbor Rate and payable at maturity. At December 31, 2023 and 2022, we had no borrowings outstanding under the revolving credit facility.

On November 30, 2018, we and Transocean Inc., as the borrower and lender, respectively, entered into a credit agreement establishing a USD 1.20 billion revolving credit facility, which is scheduled to expire on December 5, 2024. Under the terms of the agreement, as amended, interest is incurred on outstanding borrowings at a variable rate based on the Swiss Safe Harbor Rate and payable at maturity. At December 31, 2023 and 2022, we had borrowings of USD 830 million and USD 734 million, equivalent to CHF 698 million and CHF 678 million, respectively, outstanding under the credit facility at an interest rate of 3.75 percent and 2.0 percent, respectively.

Exchangeable notes—On September 30, 2022, we issued to Transocean Inc. USD 300 million aggregate principal amount of an exchangeable loan note (the “4.625% note”) with interest payable semiannually at a rate of 4.625 percent per annum in a non-cash exchange for USD 73 million aggregate principal amount of the 0.5 percent loan note and USD 227 million aggregate principal amount of the USD 1.2 billion revolving credit facility. The 4.625% note may be converted at any time prior to the maturity date at an exchange rate of 290.6618 shares per USD 1,000 note, which implies a conversion price of USD 3.44 per share, subject to adjustment upon the occurrence of certain events. Transocean Inc. may require us to repurchase all or a portion of the 4.625% note upon the occurrence of certain events. In October 2023, a holder of USD 41 million, equivalent to CHF 37 million, aggregate principal amount of the 4.625% note exchanged such note for our shares at the applicable exchange rate. As part of the transaction, we delivered an aggregate 13.1 million of our shares, including

TRANSOCEAN LTD.
NOTES TO STATUTORY FINANCIAL STATEMENTS—continued

1.2 million additional shares. At December 31, 2023 and 2022, the outstanding principal amount of the 4.625% note was USD 259 million and USD 300 million, equivalent to CHF 218 million and CHF 277 million, respectively.

On February 26, 2021, we issued to Transocean Inc. USD 294 million aggregate principal amount of an exchangeable loan note (the “4.0% note”) with interest payable semiannually at a rate of 4.0 percent per annum in a non-cash exchange for USD 323 million aggregate principal amount of the 0.5 percent loan note. The 4.0% note may be converted at any time prior to the maturity date at an exchange rate of 190.4762 shares per USD 1,000 note, which implies a conversion price of USD 5.25 per share, subject to adjustment upon the occurrence of certain events. Transocean Inc. may require us to repurchase all or a portion of the 4.0% note upon the occurrence of certain events. In October 2023, holder of USD 60 million, equivalent to CHF 54 million, aggregate principal amount of the 4.0% note exchanged such note at the applicable exchange rate in our shares. As part of the transaction, we delivered an aggregate 13.3 million of our shares, including an aggregate 1.9 million additional shares. At December 31, 2023 and 2022, the outstanding principal amount of the 4.0% note was USD 234 million and USD 294 million, equivalent to CHF 197 million and CHF 272 million, respectively.

On August 14, 2020, we issued to Transocean Inc. USD 238 million aggregate principal amount of an exchangeable loan note (the “2.5% note”) with interest payable semiannually at a rate of 2.5 percent per annum in a non-cash exchange for USD 397 million aggregate principal amount of the 0.5 percent loan note. The 2.5% note may be exchanged at any time prior to the maturity date at an exchange rate of 162.1626 shares per USD 1,000 note, which implies a conversion price of USD 6.17 per share, subject to adjustment upon the occurrence of certain events. Transocean Inc. may require us to repurchase all or a portion of the 2.5% note upon the occurrence of certain events. The 2.5% note was fully converted in 38.6 million shares in 2023 and there was no balance outstanding at the year end. At December 31, 2022, the outstanding principal amount of the 2.5% note was USD 238 million, equivalent to CHF 220 million.

In the year ended December 31, 2018, we issued to Transocean Inc. USD 863 million aggregate principal amount of an exchangeable loan note, as amended (the “0.5% note”), with interest payable at maturity at a rate of 0.50 percent per annum. The 0.5% note could be exchanged at any time prior to the maturity date at an exchange rate of 97.29756 shares per USD 1,000 note, which implied a conversion price of USD 10.28 per share, subject to adjustment upon the occurrence of certain events. Transocean Inc. could require us to repurchase all or a portion of the 0.5% note upon the occurrence of certain events. At December 31, 2022, the outstanding principal amount of the 0.5% note was USD 49 million, and in the year ended December 31, 2023, we redeemed the outstanding principal in full.

Distributions—In the year ended December 31, 2023, Transocean Inc. distributed to us TFIN, its wholly owned subsidiary, and two ultra-deepwater drillships with an aggregate value of USD 8 million and USD 812 million, respectively, equivalent to CHF 6 million and CHF 710 million, respectively. In the year ended December 31, 2022, Transocean Inc. made a distribution of USD 18 million, equivalent to CHF 17 million, in satisfaction of amounts due under the 0.5% note.

Warrants—In September 2022, we and Transocean Inc. entered into a warrant agreement, under which we issued to Transocean Inc. 22.2 million warrants to purchase our shares. The initial carrying amount of the warrants, measured at the estimated fair value on the date of issuance, was USD 17 million, equivalent to CHF 14 million, recorded in other long-term liabilities with a corresponding entry to receivable from subsidiaries for proceeds due from Transocean Inc. upon exercise of its warrants. The warrants are expected to be used in connection with Transocean Inc.’s obligation to deliver our shares as a result of the exercise of 22.2 million warrants, issued by Transocean Inc., to purchase our shares. Transocean Inc. may exercise, in whole or in part, its right to acquire the warrant shares issuable upon exercise of such warrants by delivering to us an amount equal to the aggregate exercise price for the net share amount. In the year ended December 31, 2023, we recognized an unrealized loss of USD 57 million, equivalent to CHF 51 million, recorded in financial expense, with a corresponding adjustment to the liability to reflect the estimated aggregate fair value of the warrants. At December 31, 2023 and 2022, we had outstanding 22.2 million warrants to purchase our shares.

General and administrative services—Our subsidiaries perform on our behalf certain general and administrative services, including executive administration, procurement and payables, treasury and cash management, personnel and payroll, accounting and other administrative functions. During the year ended December 31, 2022, we terminated the agreement with subsidiaries for general and administrative services.

We perform administrative services for our Swiss subsidiaries, for which we earn income based on the cost of such services, together with a markup of 7 percent.

TRANSOCEAN LTD.
PROPOSED APPROPRIATION OF THE ACCUMULATED LOSSES

NYSE Annual CEO Certification and Sarbanes-Oxley Section 302 Certifications

We submitted the annual chief executive officer certification to the NYSE as
required under the corporate governance rules. We also filed the chief executive
officer certifications required under section 302 of the Sarbanes-Oxley Act of
2002 as an exhibit to our 2023 Annual Report on Form 10-K.

Performance Graph¹

The graph below compares the cumulative total shareholder return of our shares, the
Philadelphia Oil Service Sector Index ("OSX"), and the Russell 1000 Index over our last five
fiscal years. The graph assumes that \$100 was invested in our shares, the OSX, and the
Russell 1000 Index on December 31, 2018, and that all dividends were reinvested on the
date of payment.

Indexed Cumulative Total Shareholder Return

December 31, 2018 – December 31, 2023

DATE	DEC-18	DEC-19	DEC-20	DEC-21	DEC-22	DEC-23
Russell 100 Index	\$100.00	\$131.42	\$158.95	\$200.97	\$162.50	\$205.57
OSX Index	\$100.00	\$99.45	\$57.60	\$69.55	\$112.31	\$114.47
RIG	\$100.00	\$99.14	\$33.29	\$39.77	\$65.71	\$91.50

¹The above Performance Graph and related information shall not be deemed "soliciting material" or to be "filed" with the SEC, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933 or Securities Exchange Act of 1934, each as amended, except to the extent that we specifically incorporate it by reference into such filing.
