NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2018
(IN U.S. DOLLARS)

1. ORGANIZATION AND NATURE OF BUSINESS

JCRA Financial LLC (the “Company”) was organized as a Limited Liability Company on November 21, 2008 in the state of Delaware. The Company was granted membership in the Financial Industry Regulatory Authority (“FINRA”) on September 2, 2009 and began operations on September 4, 2009, the Central Registration Depository (“CRD”) membership effective date. It is a registered broker-dealer with the Securities and Exchange Commission (“SEC”), and is a member of the Securities Investor Protection Corporation (“SIPC”). The Company is a majority-owned subsidiary of JCRA Group Limited (the “Parent”) a company organized and based in the United Kingdom. JCRA Group Limited’s primary UK operating company, J.C. Rathbone Associates Limited, is regulated by the UK’s Financial Conduct Authority (“FCA”). On September 8, 2015, the Parent formed another subsidiary, JCRA Canada, Inc, in order to provide similar services in Canada. On August 25, 2017, the Company became a wholly owned subsidiary when it purchased the outstanding minority interests.

The Company provides strategic advisory services regarding business operations and investment banking transactional services, including structured finance advisory services and pricing execution. To date, the Company has not recognized any transaction-based compensation (i.e. commissions) or performed services relating to any principal trading activity.

Going concern

The Company incurred a net loss of \$554,602 for the year ended September 30, 2018 as well as losses in prior years. These conditions raise doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments to reflect the possible future effect of the recoverability and classification of assets or the amounts and classifications of liabilities that may result from the outcome of this uncertainty.

The Company's members had provided capital in prior years and have continued to provide additional working capital to the Company and are committed to continue advancing the required working capital to the Company in the future.

Recent Issued Accounting Pronouncements

The Company does not believe that the adoption of any recently issued, but not yet effective, accounting standards will have a material effect on its financial position and results of operations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in conformity with U.S generally accepted accounting principles (“GAAP”) and the rules and regulations of the United States Securities and Exchange Commission (the “Commission”). It is management's opinion, that all material adjustments (consisting of normal recurring adjustments) have been made which are necessary for a fair financial statement presentation.

Cash and cash equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash equivalents are carried at cost, which approximates market value.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes

The Company is a limited liability company, taxed as a partnership for federal income tax purposes, and, thus, no federal income tax expense has been recorded in the financial statements. Taxable income of the Company is passed through to the members and reported on their individual tax returns. However, the Company is subject to state and local taxes.

Pursuant to accounting guidance concerning provision for uncertain income tax provisions contained in Accounting Standards Codification ("ASC") 740-10, there are no uncertain income tax positions. The federal and state income tax returns of the Company are subject to examination by the IRS and state taxing authorities, generally for three years after they were filed.

Accounting basis

The Company uses the accrual basis of accounting for financial statements and income tax reporting. Accordingly revenues are recognized when services are rendered and expenses realized when the obligation is incurred.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets, and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

The Company provides strategic advisory services under time and material agreements with customers. Revenue under these agreements is recognized and billed as services are performed.

Accounts Receivable

Accounts receivable are stated at the amounts management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to trade accounts receivable. As of September 30, 2018, the Company has recorded an allowance of \$67,683 for any potential non-collection.

Concentrations of Credit Risk

The Company places its cash with a high credit quality financial institution. The Company's account at this institution is insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000. To reduce its risk associated with the failure of such financial institution, the Company evaluates at least annually the rating of the financial institution in which it holds deposits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair Values of Financial Instruments

Financial Accounting Standards Board Accounting Standards Codification ("ASC") 825, "Financial Instruments," requires the Company to disclose estimated fair values for its financial instruments. Fair value estimates, methods, and assumptions are set forth below for the Company's financial instruments: The carrying amount of cash, accounts receivable, prepaid and other current assets, accounts payable and accrued expenses, and accounts payable to related parties, approximate fair value because of the short maturity of those instruments.

Foreign Currency Transactions

The Company's functional currency and its reporting currency is the United States dollar. Transactions denominated in any currency other than the functional currency are converted into United States dollars using the exchange rate in effect at the date of the transaction or the average rate for the period in the case of revenue and expense transactions. Monetary assets and liabilities are revalued into the reporting currency at each balance sheet date using the exchange rate in effect at the balance sheet date, with any resulting exchange gains or losses being credited or charged to accumulated other comprehensive loss. Non-monetary assets and liabilities are recorded in the reporting currency using the historical exchange rate.

The Company does not engage in hedging activities to offset the risk of exchange rate fluctuations on financial transactions denominated in a foreign currency. The transactions are translated into U.S. dollars on the Company's financial statements. Any unrealized gain or loss due to spot rate fluctuations is included in Accumulated Other Comprehensive Loss.

Fixed Assets

Acquisitions of furniture and equipment are recorded at cost. Improvements and replacements of furniture and equipment are capitalized. Maintenance and repairs that do not improve or extend the lives of furniture and equipment are charged to expense as incurred. When assets are sold or retired, their cost and related accumulated depreciation are removed from the accounts and any gain or loss is reported in the statements of income and retained earnings. Depreciation is provided over the estimated useful life of each class of depreciable assets and is computed using the straight-line method over the following useful lives:

Computer and office equipment	3 years
Furniture and fixtures	7 years

Depreciation expense for the period ended September 30, 2018, was \$30,150 and loss on disposal of fixed assets was \$49,379.

3. NET CAPITAL

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital of \$5,000, and requires that the ratio of aggregate indebtedness to net capital, both as defined, not exceed 15 to 1. The rule also provides that equity capital may not be withdrawn, cash dividends paid or the Company's operations expanded, if the resulting net capital ratio would exceed 10 to 1. At September 30, 2018, the Company had net capital of \$247,013 which was \$207,142 in excess of the FINRA minimum net capital requirement of \$39,871.
