NOTES TO FINANCIAL STATEMENT
YEAR ENDED JUNE 30, 2021

NOTE 1 – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Organization – Kelson Capital, LLC (the “Company”), a limited liability company, was organized in the state of New Jersey on November 18, 2008. The duration of the Company is perpetual. The Company is registered as a broker/dealer with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority (FINRA). The Company acts as a placement agent for institutional investment money managers. The Company markets the specialized investment management strategies for institutional investors.

Concentrations of Credit Risk - The Company is engaged in various brokerage activities in which the counterparties primarily include broker/dealers, banks, other financial institutions and the Company’s own customers. In the event the counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company’s policy to review, as necessary, the credit standing of each counterparty.

In addition, the Company’s cash is on deposit at one financial institution and the balance at times may exceed the federally insured limit. The Company believes it is not exposed to any significant credit risk to cash.

Cash Equivalents - For purposes of the Statement of Cash Flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months that are not held for sale in the ordinary course of business.

Accounts Receivable – Accounts receivable are stated at the amount management expects to collect from outstanding balances. An allowance for doubtful accounts is provided for those accounts receivable considered to be uncollectible based upon management’s assessment of the collectability of accounts receivable, which considers historical write-off experience and any specific risks identified in customer collection matters. Bad debts are written off against the allowance when identified. As of June 30, 2021, management believes no allowance for uncollectible accounts receivable is necessary.
