1. Nature of operations

Snowden Account Services LLC (the “Company”), a wholly owned subsidiary of Snowden Capital Partners, LLC (the “Parent”) is a limited liability company that was formed under the laws of the State of Delaware. The Company is a broker-dealer registered with the Securities and Exchange Commission (the “SEC”) and is a member of the Financial Industry Regulatory Authority, the Securities Investor Protection Corporation and the Municipal Securities Rulemaking Board.

The Company is engaged in business as a securities broker dealer, providing placement services in publicly traded securities, mutual funds, municipal bonds, and variable annuities for individual investors, primarily through referrals from an affiliated company, Snowden Capital Advisors, LLC (“SCA”), a registered investment advisor. Another affiliate, Snowden Insurance Services (“SIS”) is licensed to sell insurance products. SCA and SIS are also wholly owned subsidiaries of the Parent.

The Company does not handle cash or securities on behalf of customers. Accordingly, the Company is exempt from the requirement of Rule 15c3-3 under the Securities Exchange Act of 1934.

2. Summary of Significant Accounting Policies

Basis of presentation and use of estimates

This financial statement was prepared in conformity with accounting principles generally accepted in the United States of America which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement and the amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Accounts receivable and contract balances

Accounts receivable arise when the Company has an unconditional right to receive payment under a contract with a customer and are derecognized when the cash is received. As of January 1, 2023, the accounts receivable were \$49,761. At December 31, 2023, there were accounts receivable of \$120,337 reported in the statement of financial condition.

Contract assets arise when the revenue associated with the contract is recognized prior to the Company’s unconditional right to receive payment under a contract with a customer (i.e., unbilled receivable) and are derecognized when either it becomes a receivable or the cash is received. There were no contract assets as of January 1, 2023 and December 31, 2023.

Contract liabilities arise when customers remit contractual cash payments in advance of the Company satisfying its performance obligations under the contract and are derecognized when the revenue associated with the contract is recognized when the performance obligation is satisfied. There were no contract liabilities as of January 1, 2023 and December 31, 2023.

2. Summary of Significant Accounting Policies (continued)

Due from clearing broker

Pursuant to the clearing agreement, the Company introduces all of its securities transactions to its clearing broker on a fully disclosed basis. Customers' money balances and security positions are carried on the books of the clearing broker. In accordance with the clearing agreement, the Company has agreed to indemnify the clearing broker for losses, if any, which the clearing broker may sustain from carrying securities transactions introduced by the Company. In accordance with industry practice and regulatory requirements, the Company and the clearing brokers monitor collateral on the customers' accounts. As of December 31, 2023, the amount due from clearing broker of \$2,454,343, which includes a clearing deposit of \$1,031,975, was pursuant to these clearing agreement and is included in the statement of financial condition.

The allowance for credit losses

ASC Topic 326, Financial Instruments – Credit Losses (“ASC 326”) impacts the impairment model for certain financial assets by requiring a current expected credit loss (“CECL”) methodology to estimate expected credit losses over the entire life of the financial asset. Under ASC 326, the Company could determine there are no expected credit losses in certain circumstances (e.g., based on the credit quality of the client).

The allowance for credit losses is based on the Company's expectation of the collectability of financial instruments, including fees and other receivables utilizing the CECL framework. The Company considers factors such as historical experience, credit quality, age of balances and current and future economic conditions that may affect the Company's expectation of the collectability in determining the allowance for credit losses. Under the standard, the allowance for credit losses must be deducted from the amortized cost of the financial asset to present the net amount expected to be collected.

Income taxes

The Company is a single member limited liability company and is treated as a disregarded entity for federal income tax reporting purposes. The Internal Revenue Code provides that any income or loss is passed through to the ultimate beneficial individual members for federal, state and certain local income taxes. The Company has no tax sharing arrangement with the Parent and accordingly has no commitment to fund or receive amounts for any tax liabilities or benefits with earnings of the Company. Accordingly, the Company has not provided for federal, state and local income taxes.

At December 31, 2023, management has determined that the Company had no uncertain tax positions that would require financial statement recognition. This determination is subject to ongoing reevaluation as facts and circumstances may require.

During 2023, the Company collected fees on behalf of SCA in the amount of approximately \$27,945,312.

All transactions with related parties are settled in the normal course of business. The terms of any of these arrangements may not be the same as those that would otherwise exist or result from agreements and transactions among unrelated parties.

5. Regulatory requirements

The Company is subject to SEC Uniform Net Capital Rule 15c3-1 under the Securities Exchange Act of 1934, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1.
