Park Sutton Securities, LLC
Notes to Financial Statements
December 31, 2020
(See Report of Independent Registered Public Accounting Firm)

NOTE 1 – ORGANIZATION AND NATURE OF BUSINESS

Park Sutton Securities, LLC (the “Company”) is a registered broker-dealer with the Securities and Exchange Commission (SEC) and a member of the Financial Industry Regulatory Authority, Inc. (FINRA). The Company is an independent New York based boutique investment bank which provides an array of financial services to the asset and wealth management industry. The Company received its FINRA approval for membership in 2010.

The Company’s sole member is Park Sutton Holdings, LLC (“PSH”). In addition to the Company, PSH is 100% owner of Park Sutton Advisors, LLC (“PSA”). PSA shares common management with the Company. PSA is currently inactive.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting - The Company maintains its books and records on the accrual basis of accounting for financial reporting purposes, which is in accordance with U.S. generally accepted accounting principles and is required by the SEC and FINRA. The financial statements include only the assets and liabilities of the Company and are not combined with the related companies. Regulatory requirements require that the broker-dealer of securities be reported separately.

Cash and equivalents – For the purposes of the statement of cash flows, the Company considers cash in banks and all highly liquid debt instruments with maturity of three months or less to be cash equivalents. The Company maintains its cash in bank deposit accounts, which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash. As of December 31, 2020, the Company does not hold any cash equivalents.

Revenue recognition – The Company recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five-step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation. In determining the transaction price, an entity may include variable consideration only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized would not occur when the uncertainty associated with the variable consideration is resolved.

Revenue from contracts with customers includes fees from investment banking and financial advisory services. The recognition and measurement of revenue is based on the assessment of individual contract terms. Significant judgement is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company’s progress under the contract; and whether constraints on variable consideration should be applied due to uncertain future events.

Revenue from investment banking success fees is generally recognized at the point in time that performance under the arrangement is completed (the closing date of the transaction). Revenue from financial advisory retainer fees is generally recognized over time in which the performance obligations are simultaneously provided by the Company and consumed by the customer.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES(CONTINUED)

Revenue recognition – Revenue from financial advisory valuation fees is generally recognized at the point in time that performance under the arrangement is completed. Retainers and other fees received from customers prior to recognizing revenue are reflected as contract liabilities. At December 31, 2020, contract liabilities were \$20,000, as shown on the Statement of Financial Condition. Disaggregation can be found on statement of operations for the year ended December 31, 2020.

Use of accounting estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to the estimated amounts are recognized in the year in which such adjustments are determined.

Accounts receivable - Accounts receivables are carried at cost or have been written down to net realizable value. No allowance for uncollectable accounts is required at December 31, 2020. Management evaluates each receivable on a case-by-case basis for collectability and they write the receivable down to net realizable value.

Property and equipment - Property and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Asset lives range from three to five years for office automation equipment and furniture and fixtures. Leaseholds are amortized over the shorter of the asset life or the life of the lease. The Company follows the policy of capitalizing all major additions, renewals and betterments. Minor replacements, maintenance, and repairs are expensed currently. Depreciation expense for the year ended December 31, 2020 was \$13,562.

Advertising – The Company policy is to expense advertising as incurred.

Income taxes – The Company is a limited liability company treated as a disregarded entity. Accordingly, in lieu of Federal and state income taxes, the member is taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for Federal or state taxes has been included in these financial statements. The entity is subject to the City of New York UBT tax.

The Company has adopted FASB Accounting Standards Codification 740 for accounting for uncertain tax positions. The standard prescribes how an entity should measure, recognize, present and disclose positions that it has taken or expects to take on its income tax returns. Park Sutton Holdings, LLC and the Company regularly reviews and evaluates its tax positions taken in previously filed information returns and as reflected in its financial statements and believes that in the event of an examination by taxing authorities, its positions would prevail based upon the technical merits of such positions. Therefore, the Company has concluded that no tax benefits or liabilities are required to be recognized. The Company's sole member's tax return remains subject to examination by the appropriate taxing jurisdiction for tax years ending after December 31, 2017.

NOTE 3 – RETIREMENT PLANS

Defined benefit pension plan – On December 29, 2016 the Company adopted a defined benefit pension plan (the Plan) with an effective date of January 1, 2016. The Plan covers all employees and members of the Company meeting certain eligibility requirements. As of December 31, 2020, the one member of the Company and five employees met the criteria for eligibility. The Company's funding policy is to contribute an amount equal to or greater than the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as determined under actuarial assumptions based upon percentage of payroll or self-employment income costs. The contributed amounts will not exceed the maximum tax-deductible limit.

For the year ended December 31, 2020, the Company contributed \$81,840 to the plan.

NOTE 10 – RISKJ AND UNCERTAINTIES

In March 2020, the World Health Organization (WHO) declared COVID-19 a global pandemic. This pandemic event has resulted in significant business disruptions and uncertainty in both global and U.S. markets. While management believes the Company is in an appropriate position to weather the potential short-term effects of these world-wide events, the direct and long-term impact to the Company and its financial statements is undetermined at this time.
