About Merco Sud Agro-Financial Equities Corporation.

Merco Sud Agro-Financial Equities Corporation is an emerging provider of end-to-end modular and integrated solutions in agro-business including finance, industrial, commodities (agriculture, cattle, poultry) and asset management. The firm was originally incorporated in 1997 in Delaware. It became a public entity in November 1998.

Merco Sud is the French language translation (in two separate words) of Mercosur (Mercosul), a Regional Trade Agreement (RTA) among Argentina, Brazil, Paraguay and Uruguay. Mercosur has achieved international recognition as the third largest trading block in the world after the European Union and NAFTA. The balance of the new corporate name indicates the nature of the new business.

Cesar Martin Contla, VP Finance, stated that with the increasing worldwide demand for food, the rising of food prices, the shortage of good arable lands, the agriculture business, especially in the Company's initial target markets, is most timely.

Safe Harbor Statement

Except for any historic information contained herein, the matters discussed in this press release contain forward-looking statements that involve risks and uncertainties, which are subject to section 27A of the Securities Act of 1933 and section 21E of the Exchange Act of 1934, and are subject to safe harbor created by these sections. Any statements that express or involve discussions with respect to predictions, beliefs, plans, projections, objectives, goals, assumptions of future events or performances are not statements of historical fact and may be "forward looking statements". Forward looking statements in this release may be identified through the use of such words as "expects", "anticipates", "estimates", "believes", or statements indicating certain actions "may", "could", or "might" occur. Actual results, performance or achievements could differ materially from those anticipated in such forward-looking statements, which involve numerous risks and uncertainties, including the Company's ability to market its products and services in a competitive environment as well as other factors.
