Research from IRI® and SPINS®, a leading provider of wellness-focused data technology and market analytics, released in June 2020, reveals that consumers are purchasing more natural products in 2020, both pre-COVID-19 and during the pandemic.

Steve Ramsey, executive vice president and general manager, Strategic Accounts, IRI. Stated that "Given that natural products represent more than 8% of total store sales year-to-date and are outpacing sales of conventional products, there are significant opportunities for manufacturers and retailers alike to show support for consumers."

Consumer panel research has consistently found that natural and organic product consumers tend to increase their purchases year over year. Consequently, those organizations that gain understanding of these trends have a greater chance of becoming brand leaders in emerging categories.

It is in this business sector that HPP will launch its marketing strategy for its current and new product lines. Within the next four years, HPP plans on extending its natural product offerings under the HPP umbrella through internal product development and acquisitions.

HPP can be characterized as a healthy living, consumer products company providing environmentally safe consumable solutions to the ever-increasing “eco” or “green market” segment.

Distribution Channels

Green Star's marketing strategy includes selling our products through several channels, utilizing exclusive distributor relationships, authorized resellers, affiliate programs, and direct to the consumer, via Internet and home-based business. Initial sales will be achieved through a direct-to-consumer sales channel, as well as through internet and through word of mouth advertising.

The determining factors in choosing these channels are (1) our greatest access to the largest number of potential customers while (2) having the ability to maintain the highest possible quality and deliver the strongest margin. We will utilize direct-to-consumer email, social media platforms and other direct involvement at distributor meetings and conventions.

We believe that our mix of distribution channels will give us distinct advantages over our competition, including faster response to market shifts and access to markets they do not reach through a retail presence.

Online Distribution Channels

According to Grandview Research, online distribution channel is the fastest-growing segment with a CAGR of 11.6% from 2018 to 2025 owing to convenience and ease of shopping. Moreover, online platforms such as social media and Google Ads have played an important role in influencing consumer preferences for purchasing snacks through e-commerce platforms, such as Walmart, Amazon, Auchan, Grofers, Temu and Rakuten. Furthermore, increasing penetration of high-speed internet and smartphone users is expected to continue to fuel the expansion of the online market over the forecast period.

Supermarket Distribution Channels

The supermarkets/hypermarkets segment was the largest distribution channel in 2018, accounting for 62.5% of the global revenue, according to Grandview Research. Unorganized retail is one of the key distribution channels in developing countries such as India, Thailand, Indonesia, and Bangladesh. Very few producers sell their products direct to the consumers. Amway is one of the largest direct sellers of household care and personal care products, including cleaning products.

Go-To-Market Strategy

Home-Based // Gym-Based Businesses

- Develop home-based case selling business
- Allow existing customers to buy in bulk at a lower price and then re-sell for profit
- Simplify the MLM model

Green Star’s marketing strategy includes selling our products through several channels, utilizing exclusive distributor relationships, authorized resellers, affiliate programs, and direct to the consumers via Internet and home-based / gym-based businesses.

The determining factors in choosing these channels are (1) our greatest access to the greatest number of potential customers while (2) having the ability to maintain the highest possible margin. We will utilize direct-to-consumer email blasts and other direct involvement.

Our mix of distribution channels will give us distinct advantages over our competition, including faster response to market shifts and access to markets they do not reach through retail presence.

Direct to consumer marketing

- Partner with players in niche offline segments: kiosk operators at malls. Home shows, seasonal fairs and other high-traffic venues.
- Test sales of HPP and Primo Chalk products at Walmart locations.

Advertising & Promotion

Our advertising and promotional strategy is to position HPP and Primo Chalk as the leading brands. We will utilize the following media and methods to drive our message home to the customer.

For the next six months, advertising and promotion will require a minimum media budget of \$30,000 per month or approximately \$360,000 annually. We arrived at this figure based on the launch plans for 2024.

On an ongoing basis we will budget our advertising investment at 10% of total sales. By consistently tracking the results of our advertising, we will be able to determine the effectiveness of our campaigns. This will allow us to adjust the budget allocation appropriately to ensure the highest possible return on our investment in advertising and promotions.

Market

Fitness Chalk

According to Verified Market Reports, the fitness chalk market size is expected to develop revenue and exponential market growth at a remarkable CAGR during the forecast period from 2023–2030. The growth of the market can be attributed to the increasing demand for fitness chalk owing to weightlifting, rock climbing, cross-fit, and other applications across the global level.

Eco-Friendly Household Cleaners

According to Grandview Research, the global natural household cleaners market size to be valued at USD 7.8 billion by 2025 and is expected to grow at a compound annual growth rate (CAGR) of 11.1% during the forecast period. Rising awareness regarding health and hygiene, coupled with environmental effects associated with the harmful chemicals present in cleaning products, is anticipated to be a key factor for the market growth over the forecast period.

In addition, these products are manufactured from natural ingredients including vinegar, natural salt, essential oils, and baking soda, which limit the mixing of toxic products in the open environment. Moreover, these products are considered to be skin-friendly in nature, which, in turn, has increased their application in numerous areas.

Over the past few years, extensive usage of conventional household cleaning products including floor, fabric, and glass cleaners, has resulted in increasing the occurrences of various chronic diseases. Harmful chemicals present in the cleaners are absorbed into the skin and sometimes inhaled, which may cause chronic diseases including asthma and skin irritation. According to a report published by the American Thoracic Society's American Journal of Respiratory and Critical Care Medicine, in 2018, the chemicals present in the cleaning products are very hazardous to human health. It may impact human lungs as badly as smoking 20 cigarettes on a daily basis. These side effects have forced consumers to prefer natural cleaning products.

Increasing concerns over germs, viruses, and bacteria in living spaces, coupled with rising awareness regarding health and hygiene, led to a rise in demand for natural products with

antimicrobial and disinfectant properties. In addition, governments across the globe are taking initiatives to remove or reduce the content of harmful chemicals from household cleaning products.

Natural cleaning ingredients last longer and help extend the life of household items. The chances for accidental damage to the items is reduced with natural cleaners compared to cleaners that provide harmful chemical reactions to the skin as well as the items in contact. Most natural cleaners employ plant-based vinegar, oils, and surfactants instead of toxic chemicals making them low in allergens. Such ingredients get easily decomposed when exposed to the environment. These are causing a shift in consumer preference towards natural cleaners and are expected to drive the industry's growth during the forecast period.

Government enforcement and tightening of regulations on the use of toxic chemicals in household cleaning products around the world is another vital factor that is expected to drive growth in target markets during the forecast period. Government agencies have banned various household cleaners containing toxic chemicals in different countries. Therefore, the development of eco-friendly alternative household cleaning products is increasing all over the globe, thus creating new growth prospects for the market.

Competition

We will compete with many third parties engaged in the eco-friendly household cleaners and fitness chalk industries, household names cleaning product companies, environmentally focused cleaning companies, gym accessory and fitness accessory companies and other entities. There are also other companies with branding objectives similar to ours and others may be organized in the future. Some of these competitors have substantially greater marketing and financial resources than we will have and generally may be able to accept or manage more risk than we can prudently manage. In addition, these same entities may seek financing through the same channels that we do. Therefore, we will compete for investors and funding in a market where funds for eco-friendly household cleaning products and fitness chalk product investment may decrease or grow less than the underlying demand.

Fitness Chalk Competition

Like the craft beers and microbreweries that are so popular these days, climbing chalk is in the midst of a craft craze. Metolius was the first brand to formulate chalk custom made for rock climbing with its venerable line of Super Chalk, which first hit the scene in the early nineties and has remained relatively unchanged since. In recent years Friction Labs has burst onto the scene as the only company that specializes exclusively in chalk, and newcomers like Patxi Usobiaga's PUC Chalk are showing up overseas.

While most brands market their chalk as being unique or purer than others, few actually have a proprietary process that they apply to their chalk to differentiate it from the rest. Super Chalk is well known for its 'drying agent,' which is a totally inert substance that is also used by

McDonalds to thicken milkshakes. It is safe to eat, though you would not want to inhale any and is applied to their bulk chalk at a company-owned facility in China. The details of that process and the drying agent itself are trade secrets, as are the methods Friction Labs uses to concentrate the magnesium carbonate and refine the texture of the chalk they buy from the same overseas distributors.

Eco-Friendly Household Cleaner Competition

Environmentally friendly firms will compete with us. Our primary competitor is Seventh Generation, Mrs. Meyer's, and Dr. Bonner's, which offers natural products in eCommerce and also on retail shelves. They are retail focused with natural products.

The Honest Company, is an American consumer goods company, founded by actress Jessica Alba, that emphasizes household products to supply the marketplace for ethical consumerism. It was founded in 2011, and the company had \$319 million in 2021 sales and was valued at \$550 million as of February 2022. It sells all-purpose cleaners, hand soaps, laundry detergent, skin care, and sunscreen products.

Method is not an all-natural company but Method's ingredients are comprehensively assessed for safety and environmental health. and the packaging design and materials are evaluated for safety, environmental factors and recyclability. Method sells a complete line of cleaning and laundry products, including all-purpose cleaners, hand soaps, and laundry detergent.

Many other companies that sell natural and environmentally friendly products that may compete with our products may do not do so exclusively.

Major players in the household cleaning products market are Church & Dwight Co. Inc., Colgate-Palmolive, Godrej Consumer Products Limited, Henkel AG & Co. KGaA, Kao Group, The Procter & Gamble Company, Reckitt Benckiser Group plc, S. C. Johnson & Son Inc., Unilever PLC., Bombril S/A, CareClean, and For Life Products.

Furthermore, key manufacturers are adopting market strategies including new product launches, celebrity endorsements, advancements in technology, expanding distribution channels, and mergers & acquisitions, in order to gain the maximum customer base.

Employees

As of March 21, 2024, we have 1 full time employee and 2 part time employees, including our officers and directors. We believe that we have been successful in attracting experienced and capable personnel. We believe that relations with our employees are excellent.

Regulation

Some of our operations are subject to regulation by various U.S. federal agencies and similar state and international agencies, including, but not limited to, the Federal Trade Commission (FTC), the Department of Commerce, the Department of Transportation and the Department of Agriculture. These regulators govern a wide variety of production activities, from design and development to labeling, manufacturing, handling, selling and distributing of products. From time to time, federal, state and international legislation is enacted that may materially increase our cost of doing business or may limit or expand our permissible activities. We cannot predict whether or when potential legislation or regulations will be enacted, and, if enacted, the effect of such legislation, regulation, implementation, or any implemented regulations or supervisory policies would have on our financial condition or results of operations. In addition, the outcome of any litigation, investigations or enforcement actions initiated by state or federal authorities could result in required changes to our operations and increased compliance costs.

Intellectual Property

The Company does not have any intellectual property assets.

Litigation

Green Star is not involved in any litigation, and its management is not aware of any pending or threatened legal actions relating to its conduct of its business activities or otherwise.

THE COMPANY'S PROPERTY

We do not own or lease any property. The Company has a business address of 7735 Sand Street, Fort Worth, TX 76118.

RISK FACTORS

The SEC requires the company to identify risks that are specific to its business and its financial condition. The company is still subject to all the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently more risky than more developed companies. You should consider general risks as well as specific risks when deciding whether to invest.

These are the risks that relate to the company:

Risks Related to our Business

We are an early stage company that has generated no revenue.

The Company has a limited history upon which an evaluation of its performance and future prospects can be made. Our current and proposed operations are subject to all the business risks associated with new enterprises. These include likely fluctuations in operating results as the Company reacts to developments in its market, managing its growth and the entry of competitors into the market. We will only be able to pay dividends on any shares once our directors determine that we are financially able to do so. The Company has incurred a net loss and has had no revenues generated since inception. There is no assurance that we will be profitable in the near future or generate sufficient revenues to pay dividends to the holders of the shares.

Our financials were prepared on a “going concern” basis.

Our financial statements were prepared on a “going concern” basis. Certain matters, as described below and in Note 1 to the accompanying financial statements indicate there may be substantial doubt about the Company's ability to continue as a going concern. We have not generated profits since inception, and we have had a history of losses.

We have not attained any revenues or profitable operations and are dependent upon obtaining financing to pursue any extensive business activities. For these reasons, we have included in our unaudited financial statements that there is substantial doubt that we will be able to continue as a going concern without further financing.

The Company has not yet established an ongoing source of revenues to cover its operating costs for the next fiscal year and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. For the year ended December 31, 2023, the Company has a net gain of \$968,098, which was due to the Company writing off old obligations to its former directors and officers, as such, if the Company is unable to obtain adequate capital, it could be forced to cease operations.

Our ability to continue operations is dependent upon our ability to generate sufficient cash flows from operations to meet our obligations, which the Company has not been able to accomplish to date, and/or to obtain additional capital financing.

Because our directors and officers currently and for the foreseeable future will continue to control the Company, it is not likely that you will be able to elect directors or have any say in the policies of the Company.

Our shareholders are not entitled to cumulative voting rights. Consequently, the election of directors and all other matters requiring shareholder approval will be decided by majority vote. Our management controls our common stock voting rights. Due to such significant ownership position held by our insiders, new investors may not be able to affect a change in our business or management, and therefore, shareholders would have no recourse as a result of decisions made by management.

In addition, sales of significant amounts of shares held by our directors, officers or affiliates, or the prospect of these sales, could adversely affect the market price of our common stock. Management's stock ownership may discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us, which in turn could reduce our stock price or prevent our stockholders from realizing a premium over our stock price.

Any valuation at this stage is difficult to assess.

Our Board of Directors used its business judgment in setting the value of this Offering to the Company as consideration for the notes to be issued under the Offering. The sales price of the notes and conversion price per share bears no relationship to our book value or any other measure of our current value or worth.

As we currently purchase all of our product supply requirements from outside sources, any business complications arising with either our suppliers or with our supplier's relationship could create adverse consequences with our product supply chain.

We currently purchase all of our product supplies from outside sources for our product needs. We then take those supplies and complete the product manufacturing capability at our own facilities; therefore, we are exposed to potential product supply disruptions caused by adverse business circumstances with our suppliers (for example, raw material shortages, plant breakdowns and other adverse circumstances affecting the supply of our potential products from suppliers). There can be no assurances that, in the event of a supply disruption, we would be able to quickly contract with another manufacturer for the continued supply of our potential products. We, therefore, could be without an adequate supply to manufacture our potential products and could lose sales for an extended period of time as a result.

Products developed by our competitors could severely impact our product commercialization and customer acceptance efforts, thereby reducing the sales of our potential products and severely impacting our ability to meet our sales goals or to continue operations.

We face competition from companies who are developing and marketing products similar to those we are developing and marketing. The fitness chalk and eco-friendly household cleaning products industries have spawned a large number of efforts to create technologies that result in products that can compete with our proposed products. These companies have significantly greater marketing, financial and managerial resources than us. We cannot provide any assurance that our competitors will not succeed in developing and distributing products that will render our potential products obsolete or non-competitive. Such competition could potentially force us out of business.

The market in which we are attempting to sell our eco-friendly household cleaning and fitness chalk products is highly competitive and may attract significant additional research and development in coming years.

The market for our eco-friendly and fitness chalk products may become highly competitive on a global basis, with a number of competitors gaining significantly greater resources and greater market share than us. Because of greater resources and more widely accepted brand names, many of our competitors may be able to adapt more quickly to changes in the markets we have targeted or devote greater resources to the development and sale of new products. Our ability to compete is dependent on our emerging products that may take some time to develop market acceptance. To improve our competitive position, we may need to make significant ongoing investments in service and support, marketing, sales, research and development and intellectual property protection. We may not have sufficient resources to continue to make such investments or to secure a competitive position within the market we target.

We face intense competition, and many of our competitors have substantially greater resources than we do.

We operate in a highly competitive environment. In addition, the competition in the market for products such as ours may intensify in the future. There are numerous well-established companies and smaller entrepreneurial companies based in the United States with significant resources who are developing and marketing products and services that will compete with our potential products. In addition, many of our current and potential competitors have greater financial, operational and marketing resources. These resources may make it difficult for us to compete with them in the development and marketing of our potential products, which could harm our business.

If we are unable to protect our potential products and intellectual property from use by competitors, there is a risk that we will sustain losses, or that our business could fail.

Our success will depend, in part, on our ability to obtain and enforce intellectual property protection for our potential products in both the United States and other countries. We may take steps to protect our intellectual property through patent applications in the United States Patent and Trademark Office and its international counterparts under the Patent Cooperation Treaty. We cannot provide any assurance that patents will be issued as a result of these applications or that, with respect to any patents, issued or pending, the claims allowed are, or will be, sufficiently broad enough to protect the key aspects of our potential products, or that the patent laws will provide effective legal or injunctive remedies to stop any infringement of our patents. In addition, we cannot provide assurance that any patent rights owned by us will not be challenged, invalidated or circumvented, or that our competitors will not independently develop or patent technologies that are substantially equivalent or superior to our potential products. If we are forced to defend our patents in court, well-funded adversaries could use such actions as part of a strategy for depleting the resources of a small company such as ours. We cannot provide assurance that we will have sufficient resources to successfully prosecute our interests in any litigation that may be brought.

The eco-friendly household cleaning and fitness chalk industries are highly competitive, and if we are unable to compete effectively our results will suffer.

We face vigorous competition from companies throughout the world, including large multinational consumer products companies that have many eco-friendly household cleaning and fitness chalk brands under ownership and standalone cleaning brands, including those that may target the latest trends or specific distribution channels. Competition in the eco-friendly cleaning and fitness accessory industries are based on the introduction of new products, pricing of products, quality of products and packaging, brand awareness, perceived value and quality, innovation, in-store presence and visibility, promotional activities, advertising, editorials, e-commerce and mobile-commerce initiatives and other activities. We must compete with a high volume of new product introductions and existing products by diverse companies across several different distribution channels.

Many multinational consumer companies have greater financial, technical or marketing resources, longer operating histories, greater brand recognition or larger customer bases than we do and may be able to respond more effectively to changing business and economic conditions than it can. Our competitors may attempt to gain market share by offering products at prices at or below the prices at which its products are typically offered, including through the use of large percentage discounts. Competitive pricing may require us to reduce our prices, which would decrease its profitability or result in lost sales. Our competitors, many of whom have greater resources than we do, may be better able to withstand these price reductions and lost sales.

It is difficult for us to predict the timing and scale of its competitors' activities in these areas or whether new competitors will emerge in the eco-friendly household cleaning or fitness chalk industries. In recent years, numerous online, and influencer-backed companies have emerged and garnered significant followings. In addition, further technological breakthroughs, including new and enhanced technologies that increase competition in the online retail market, new product offerings by competitors and the strength and success of our competitors' marketing programs may impede our growth and the implementation of our business strategy.

Our ability to compete also depends on the continued strength of our brand and products, the success of our marketing, innovation and execution strategies, the continued diversity of our product offerings, the successful management of new product introductions and innovations, strong operational execution, including in order fulfillment, and our success in entering new markets and expanding our business in existing geographies. If we are unable to continue to compete effectively, it could have a material adverse effect on our business, financial condition and results of operations.

Any damage to our reputation or brand may materially and adversely affect our business, financial condition and results of operations.

We believe that developing and maintaining our brand is critical and that our financial success is directly dependent on consumer perception of our brand. Furthermore, the importance of brand recognition may become even greater as competitors offer more products similar to our

potential products.

We have relatively low brand awareness among consumers when compared to other eco-friendly household cleaning and fitness chalk products and maintaining and enhancing the recognition and reputation of our brand is critical to our business and future growth. Many factors, some of which are beyond our control, are important to maintaining our reputation and brand. These factors include our ability to comply with ethical, social, product, labor and environmental standards. Any actual or perceived failure in compliance with such standards could damage our reputation and brand.

We depend on key personnel and face challenges recruiting needed personnel.

Our success is in part dependent upon the retention of our management and other personnel. If our management becomes unable or unwilling to participate in our business, our future business and financial performance could be materially and adversely affected. The loss of services of any of the management staff would have a material adverse effect on the Company's operations. The Company has not purchased key person insurance policies on the lives of its management.

Any new product introductions may not be as successful as we anticipate.

The eco-friendly household cleaning and fitness chalk industries are driven in part by consumer and fitness trends, which may shift quickly. Our continued success depends on our ability to anticipate, gauge and react in a timely and cost-effective manner to changes in consumer preferences for eco-friendly cleaning and fitness related products, consumer attitudes toward our industry and brand and where and how consumers shop for and use these products. We must continually work to develop, produce and market new products, maintain and enhance the recognition of our brand, maintain a favorable mix of products and develop our approach as to how and where we market and sell our potential products.

We will establish a process for the development, evaluation and validation of our new product concepts. Nonetheless, each new product launch involves risks, as well as the possibility of unexpected consequences. For example, the acceptance of new product launches and sales to its providers may not be as high as it anticipates, due to lack of acceptance of the products themselves or their price, or limited effectiveness of our marketing strategies. In addition, our ability to launch new products may be limited by delays or difficulties affecting the ability of its suppliers or manufacturers to timely manufacture, distribute and ship new products. We may also experience a decrease in sales of certain existing products as a result of newly launched products. Any of these occurrences could delay or impede our ability to achieve our sales objectives, which could have a material adverse effect on our business, financial condition and results of operations.

We are subject to risks associated with payments to us from our customers and other third parties, including risks associated with fraud.

Nearly all of our customers' payments will be made by credit card or debit card. We rely on third party vendors to provide payment processing services, including the processing of payments from credit cards and debit cards, and our business would be disrupted if vendors were to become unwilling or unable to provide these services to us and we are unable to find a suitable replacement on a timely basis. We will also be subject to payment brand operating rules, payment card industry data security standards and certification requirements, which could change or be reinterpreted to make it more difficult or impossible for us to comply. If we fail to comply with these rules or requirements, we may be subject to fines and higher transaction fees and lose our ability to accept credit and debit card payments from customers, which would make our services less convenient and attractive to our customers and likely result in a substantial reduction in revenue. We may also incur losses as a result of claims that the customer did not authorize given purchases, fraud, erroneous transmissions and customers who have closed bank accounts or have insufficient funds in their accounts to satisfy payments owed to us. We will be subject to, or have to voluntarily comply with, a number of other laws and regulations relating to the payments we accept from our customers and third parties, including with respect to money laundering, money transfers, privacy, and information security, and electronic fund transfers. These laws and regulations could change or be reinterpreted to make it difficult or impossible for us to comply. If we were found to be in violation of any of these applicable laws or regulations, we could be subject to civil or criminal penalties and higher transaction fees or lose our ability to accept credit and debit card payments from our customers, process electronic funds transfers or facilitate other types of online payments, which may make our services less convenient and less attractive to our customers and diminish the customer experience.

We are dependent on general economic conditions.

Our business model is at least partially dependent on consumers purchasing our fitness chalk and eco-friendly cleaning products presented on our websites and in retail stores. These types of purchases could be considered disposable income. Our business model is thus dependent on national and international economic conditions. Although we believe the current economic downturn resulting from COVID-19 has created growth in the fitness and eco-friendly household cleaning products industries, continued adverse national and international economic conditions may reduce the future availability of investment dollars, which would negatively impact our revenues and possibly our ability to continue operations. It is not possible to accurately predict the potential adverse impacts on the Company, if any, of current economic conditions on its financial condition, operating results and cash flow.

Our success depends, in part, on the quality, efficacy and safety of its products.

Any loss of confidence on the part of consumers in the ingredients used in our potential products, whether related to product contamination or product safety or quality failures, actual or perceived, or inclusion of prohibited ingredients, could tarnish the image of our brand and could cause consumers to choose other products. Allegations of contamination or other adverse effects on product safety or suitability for use by a particular consumer, even if untrue,

may require us to expend significant time and resources responding to such allegations and could, from time to time, result in a recall of a product from any or all of the markets in which the affected product was distributed. Any such issues or recalls could negatively affect our profitability and brand image.

If our potential products are found to be, or perceived to be, defective or unsafe, or if they otherwise fail to meet its consumers' expectations, our relationships with consumers could suffer, the appeal of our brand could be diminished, we may need to recall some of our potential products and/or become subject to regulatory action, and it could lose sales or market share or become subject to boycotts or liability claims. In addition, third parties may sell counterfeit versions of some of our potential products. These counterfeit products may pose safety risks, may fail to meet consumers' expectations, and may have a negative impact on our business. Any of these outcomes could result in a material adverse effect on our business, financial condition and results of operations.

Our revenues and profits will be subject to fluctuations.

It is difficult to accurately forecast our revenues and operating results, and these could fluctuate in the future due to a number of factors. These factors may include adverse changes in number of investors and amount of investors' dollars available for purchasing selling inventory, general economic conditions, our ability to market our products to retailers and consumers, headcount and other operating costs, and general industry and regulatory conditions and requirements. The Company's operating results may fluctuate from year to year due to the factors listed above and others not listed. At times, these fluctuations may be significant and could impact our ability to operate our business.

If the company cannot raise sufficient funds it will not succeed.

Green Star is offering Convertible Promissory Notes in the amount of up to \$500,000 in this Offering and may close on any investments that are made. Even if the maximum amount is raised, the Company is likely to need additional funds in the future in order to grow, and if it cannot raise those funds for whatever reason, including reasons relating to the company itself or to the broader economy, it may not survive. If the Company manages to raise only the minimum amount of funds sought, it will have to find other sources of funding for some of the plans outlined in "Use of Proceeds."

Risks Related to the Securities

There can be no guarantee of return on investment.

There is no assurance that a purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each purchaser should read the Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

Holders of our Convertible Promissory Notes will not have any protections against dilution of their investment.

Unlike many notes used in crowdfunding, the Company has a set conversion price in its Convertible Promissory Notes and those notes do not contain anti-dilution protections. It is the Company's intention to convert the Convertible Promissory Notes into shares of our Common Stock as soon as possible after this Offering. Until then, there are no anti-dilution protections, such as protections for structural changes and price protection (that is for sales in a down round). The Company currently does not intend to engage in any activities that would intentionally result in diluting the value of the Common Stock underlying the Convertible Promissory Notes, such as stock splits, a down round in fundraising, payment of dividends prior to conversion or a merger or other reorganizations; however, the Company is currently also actively pursuing a Regulation A Offering to further raise \$2,000,000 through the sale of equity at \$0.0025 per share.

Further, once the shares convert, the shares will be subject to standard dilution that could occur for shares of equity. That is, the Company may offer additional shares of its Common Stock and/or other classes of equity or debt that convert into shares of Common Stock, any of which offerings would dilute the ownership percentage of investors in this offering once their Convertible Promissory Notes have been converted. See "Dilution."

The Convertible Promissory Notes will be effectively subordinate to any of our debt that is secured.

We are not restricted from incurring additional debt or other liabilities. If we incur additional debt or liabilities, your Convertible Promissory Notes may be subordinate to the payment of principal or interest on such other future debt. We expect that we will from time to time incur additional debt and other liabilities. In addition, we are not restricted from paying dividends or issuing or repurchasing our equity interests.

The provisions of the Convertible Promissory Note relating to a default will not necessarily protect you.

The Convertible Promissory Notes being offered will be subordinated to the Company's other debt. If an event of default has occurred with respect to any Senior Indebtedness, permitting the holder thereof to accelerate the maturity thereof, then unless and until such event of default shall have been cured or waived or shall have ceased to exist, or all Senior Indebtedness shall have been paid in full, no payment shall be made in respect of the principal of or interest on this Note. Nothing contained in Sections 2 or 5 of the Convertible Promissory Note shall impair, as between the Company and Investor, the obligation of the Company to pay to Investor the principal and accrued interest as and when the same shall become due and payable, or shall prevent Investor, upon default hereunder, from exercising all rights, powers and remedies otherwise provided herein or by applicable law, all subject to the rights, if any, of the holders of

Senior Indebtedness under Section 5 to receive cash or other properties otherwise payable or deliverable to Investor pursuant to this Note. See also, "Securities Being Offered and Rights of the Securities of the Company – Right of Investor upon Default."

Our management has discretion as to use of proceeds.

The net proceeds from this Offering will be used for the purposes described under "Use of Proceeds." The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated which it deems to be in the best interests of the Company and its investors in order to address changed circumstances or opportunities. As a result of the foregoing, the success of the Company will be substantially dependent upon the discretion and judgment of management with respect to application and allocation of the net proceeds of this offering. Investors for the Convertible Promissory Notes hereby will be entrusting their funds to the Company's management, upon whose judgment and discretion the investors must depend.

Future fundraising may affect the rights of investors.

In order to expand, the Company is likely to raise funds again in the future, either by offerings of securities or through borrowing from banks or other sources. The terms of future capital raising, such as loan agreements, may include covenants that give creditors greater rights over the financial resources of the Company.

There is no current market for our Convertible Promissory Notes, so you may not be able to sell your Convertible Promissory Notes.

There is no formal marketplace for the resale of the Company's Convertible Promissory Notes and the Company currently has no plans to list any of its Convertible Promissory Notes on any over-the-counter (OTC), or similar, exchange. While the Company's securities are quoted on the OTC Markets under the symbol "GSPI," these securities are illiquid and there will only be a minimal market for them. Investors should assume that they may not be able to liquidate their investment for some time. Since the Company has not established a trading forum for the Convertible Promissory Notes, there will be no easy way to know what the Convertible Promissory Notes are "worth" at any time.

The Purchase Agreement has a forum selection provision that requires disputes to be resolved in state or federal courts in the State of Utah, regardless of convenience or cost to you, the investor.

In order to invest in this Offering, investors agree to resolve disputes arising under the Purchase Agreement in state or federal courts located in the State of Utah, for the purpose of any suit, action or other proceeding arising out of or based upon the Agreement. Section 22 of the Securities Act creates concurrent jurisdiction for federal and state courts over all suits brought to enforce any duty or liability created by the Securities Act or the rules and regulations

thereunder. We believe that the exclusive forum provision applies to claims arising under the Securities Act, but there is uncertainty as to whether a court would enforce such a provision in this context. You will not be deemed to have waived the Company's compliance with the federal securities laws and the rules and regulations thereunder. This forum selection provision may limit your ability to obtain a favorable judicial forum for disputes with us. Alternatively, if a court were to find the provision inapplicable to, or unenforceable in an action, we may incur additional costs associated with resolving such matters in other jurisdictions, which could adversely affect our business, financial condition or results of operations.

By investing in this Offering of Convertible Promissory Notes, you are bound by the jury trial waiver provisions contained in the Company's purchase agreement, which requires you to waive your right to trial by a jury for those matters and controversies that may arise under the Company's purchase agreement, including with respect to securities laws claims.

By investing in this Offering, investors agree to be bound by the jury waiver provisions contained in our purchase agreement. Such jury waiver provisions apply to claims under the U.S. federal securities laws and to all claims that are related to the Company, including with respect to this Offering, our Convertible Promissory Notes, our ongoing operations and the management of the Company, among other matters, and means that you are waiving your rights to a trial by jury with respect to such claims.

We believe that the jury waiver provisions are enforceable under federal law, the laws of the State of Utah, or under any other applicable laws or regulations. However, the issue of enforceability is not free from doubt and to the extent that one or more of the provisions in our purchase agreement with respect to the jury trial waiver provisions were to be found by a court to be unenforceable, we would abide by such decision.

BY AGREEING TO BE SUBJECT TO THE JURY TRIAL WAIVER PROVISIONS, INVESTORS WILL NOT BE DEEMED TO WAIVE THE COMPANY'S COMPLIANCE WITH THE FEDERAL SECURITIES LAWS AND THE RULES AND REGULATIONS PROMULGATED THEREUNDER.

Liquidity and Capital Resources

The ability of the Company to continue as a going concern is dependent on the Company's ability to raise additional capital and implement its business plan. Since its inception, the Company has been funded by related and third parties through capital investment and borrowing of funds.

At December 31, 2022 and 2023, the Company had total current assets of \$116 and \$0.

Going Concern

We have not attained any revenues or profitable operations and are dependent upon obtaining financing to pursue any extensive business activities. For these reasons, we have included in our unaudited financial statements that there is substantial doubt that we will be able to continue as a going concern without further financing.

The Company has not yet established an ongoing source of revenues to cover its operating costs for the next fiscal year and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. For the year ended December 31, 2023, the Company has a net gain of \$968,098, which was due to the Company writing off old obligations to its former directors and officers, as such, if the Company is unable to obtain adequate capital, it could be forced to cease operations.

Future Financings

In order to complete the acquisitions and expand inventory of the future Green Star products, the Company will need to raise substantial capital in the near future. The Company intends to raise a maximum of \$124,000 in this Regulation CF Offering, the proceeds of which will be used as described in detail in Plan of Operations and Milestones," immediately below. See also "Use of Proceeds." At this time, the Company does not have any credit facility or other loan arrangement but may seek to raise additional funds through equity or debt financings or other sources that may be dilutive to existing stockholders. In such event, management has discretion as to how to use those proceeds including, but not limited to marketing, research and development, investment in infrastructure, and the uses identified in "Use of Proceeds."

Plan of Operations and Milestones

We have established the following milestones in our plan of operations:

- If we raise the minimum amount of \$124,00, we will use such the funds to advance our acquisition of Healthy Products, LLC in order to expand the operations of Green Star, and on begin operations.
- Within three months of the completion of our Reg CF raise, we could expand our inventory to accelerate the potential fulfillment of orders, as well as begin marketing our products more extensively as well as invest in paid marketing efforts to expand our

consumer base.

- Assuming we raise the maximum amount of \$124,000 in this Offering, less expenses related to this Offering, we anticipate spending 50% on the acquisition of both Healthy Products, LLC and Primo Products LLC, 30% on the marketing and advertising to expand the exposure of our brands, and 20% on general and administrative expenses.

INDEBTEDNESS

The Company had total current liabilities of \$570,522 as of December 31, 2023, \$137,903 of this was attributable to accounts payable and \$286,463 was attributable to payroll taxes. In December 2023, the Company sold convertible notes for an aggregate consideration of \$390,000. The Company entered into a Convertible Note in the principal amount of \$390,000 ("Note B") with JUDD Holding Corp. Note B has an annual rate of interest of 5%, which begins accruing after December 15, 2024. Note B has a maturity date of June 1, 2027. Note B contains a conversion right, which allows the holder of the note to convert any unpaid installment amount plus the 10% late payment penalty into shares of common stock of the Company. The conversion price is fixed at \$0.001 per share. For more details, see "Related-Party Transactions" and "Recent Offerings of Securities."

RELATED-PARTY TRANSACTIONS

- Historical notes to financial statements indicate this balance is comprised of amounts due the Company from former CEO Joseph LaStella and his past compensation agreements from 2011 that were to be re-negotiated in the future.
- Due to Joseph LaStella's death, the Company has written off the balance of \$620,864 as bad debt as it cannot be collected. This was recorded as an expense under G&A in the 6/30/23 period.
- Historical notes to financial statements indicate this balance is related party debt that originated in 2009 or earlier and comprised of twelve parties who had collaborated with the Company over the years. Under their respective agreements, there is neither a maturity date nor an interest rate on the debt.

Given the four year statute of limitations on open ended debt in the state of Utah, the Company is treating this historical debt as canceled and has recorded a credit to other income in the 6/30/23 period.

For more details regarding these transactions see Notes 3 and 8 to the accompanying financial statements.

DILUTION

Investors should understand the potential for dilution. The investor's stake in a company could be diluted due to the company issuing additional shares. In other words, when the company issues more shares, the percentage of the company that you own will go down, even though the value of the company may go up. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, our in progress Regulation A Offering, another crowdfunding round, a venture capital round, angel investment), employees exercising stock options, or by conversion of certain instruments (e.g., convertible bonds, preferred shares or warrants) into stock.

If the company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early stage companies are unlikely to offer dividends, preferring to invest any earnings into the company).

The type of dilution that hurts early-stage investors most occurs when the company sells more shares in a "down round," meaning at a lower valuation than in earlier offerings. An example of how this might occur is as follows (numbers are for illustrative purposes only):

- In June 2023 Sarah invests \$20,000 for shares that represent 2% of a company valued at \$1 million.
- In December, the company is doing very well and sells \$5 million in shares to venture capitalists on a valuation (before the new investment) of \$10 million. Sarah now owns only 1.3% of the company but her stake is worth \$200,000.
- In June 2024, the company has run into serious problems and in order to stay afloat it raises \$1 million at a valuation of only \$2 million (the "down round"). Sarah now owns only 0.89% of the company and her stake is worth only \$26,660.

This type of dilution might also happen upon conversion of convertible notes into shares. Typically, the terms of convertible notes issued by early-stage companies provide that in the event of another round of financing, the holders of the convertible notes get to convert their notes into equity at a "discount" to the price paid by the new investors, i.e., they get more shares than the new investors would for the same price. Additionally, convertible notes may have a "price cap" on the conversion price, which effectively acts as a share price ceiling. Either way, the holders of the convertible notes get more shares for their money than new investors. In the event that the financing is a "down round" the holders of the convertible notes will dilute existing equity holders, and even more than the new investors do, because they get more shares for their money. Investors should pay careful attention to the aggregate total amount of convertible notes that the company has issued (and may issue in the future, and the terms of those notes).

If you are making an investment expecting to own a certain percentage of the company or

expecting each share to hold a certain amount of value, it's important to realize how the value of those shares can decrease by actions taken by the company. Dilution can make drastic changes to the value of each share, ownership percentage, voting control, and earnings per share.

VALUATION

The company is not establishing a specific valuation for this offering. Instead, as described under "Securities Being Offered and Rights of the Securities of the Company," the company will be selling Convertible Promissory Notes.

As discussed in "Dilution" above, the valuation will determine the amount by which the investor's stake is diluted in the future. An early-stage company typically sells its shares (or grants options over its shares) to its founders and early employees at a very low cash cost because they are, in effect, putting their "sweat equity" into the company. When the company seeks cash investments from outside investors, like you, the new investors typically pay a much larger sum for their shares than the founders or earlier investors, which means that the cash value of your stake is immediately diluted because each share of the same type is worth the same amount, and you paid more for your shares (or the notes convertible into shares) than earlier investors did for theirs.

There are several ways to value a company, and none of them is perfect and all of them involve a certain amount of guesswork. The same method can produce a different valuation if used by a different person.

Liquidation Value — The amount for which the assets of the company can be sold, minus the liabilities owed, e.g., the assets of a bakery include the cake mixers, ingredients, baking tins, etc. The liabilities of a bakery include the cost of rent or mortgage on the bakery. However, this value does not reflect the potential value of a business, e.g., the value of the secret recipe. The value for most startups lies in their potential, as many early stage companies do not have many assets.

Book Value — This is based on analysis of the company's financial statements, usually looking at the company's balance sheet as prepared by its accountants. However, the balance sheet only looks at costs (i.e., what was paid for the asset), and does not consider whether the asset has increased in value over time. In addition, some intangible assets, such as patents, trademarks or trade names, are very valuable but are not usually represented at their market value on the balance sheet.

Earnings Approach — This is based on what the investor will pay (the present value) for what the investor expects to obtain in the future (the future return), taking into account inflation, the lost opportunity to participate in other investments, the risk of not receiving the return. However, predictions of the future are uncertain and valuation of future returns is a best guess.

Different methods of valuation produce a different answer as to what your investment is worth. Typically, liquidation value and book value will produce a lower valuation than the earnings approach. However, the earnings approach is also most likely to be risky as it is based

on many assumptions about the future, while the liquidation value and book value are much more conservative.

Future investors (including people seeking to acquire the company) may value the company differently. They may use a different valuation method, or different assumptions about the company's business and its market. Different valuations may mean that the value assigned to your investment changes. It frequently happens that when a large institutional investor such as a venture capitalist makes an investment in a company, it values the company at a lower price than the initial investors did. If this happens, the value of the investment will go down.

From 1992 to 1998, the Company focused on electrical vehicle research & technology. From 1998 through 2016, the Company engineered, manufactured, distributed, or had licensing agreements for various products including biodiesel reactors, algae production, anti-friction metal treatment products, coatings, and provided engineering services. On July 27th, 2022, Kristy Hunt resigned as Sole Officer & Director and appointed Marjorie Schaefer as Sole Officer & Director. The Company remained dormant and without operations under Ms. Schaefer.

The Preferred stock had been previously designated by Marjorie Schaefer but never issued. On April 20th, the shares were issued by the Transfer Agent, ClearTrust LLC to JUDD Holding Corp.

On April 28th, 2023 and as a condition to close the transaction, Marjorie Schaefer resigned from all Officer & Director positions of the Corporation and appointed David Duarte as President & CEO, Secretary, Treasurer and Director. Subsequent to the closing, Mr. Duarte appointed additional Directors in accordance with Utah law and the Corporation's Bylaws.

On May 24th, 2023 the new Board held a Special Meeting of Directors to clean up the Company and properly direct it's business. There were four items on the agenda:

NOTE 2 – BASIS OF PRESENTATION AND GOING CONCERN

Basis of Presentation

The financial statements for the quarter ended 6/30/22 account for the last period of operating activity for the Company due to the felony DUI conviction of former CEO Kristy Hunt. We assume no material actions were taken by Kristy Hunt on behalf of the Company from 6/30/22 until her resignation on 7/27/22 and have found no evidence to the contrary.

Under CEO Marjorie Schaefer, the Company remained non-operating, thus the financial reports for the periods ending 9/30/22, 12/31/22, and 3/31/23 are prepared to reflect the dormant nature of the Company during that time with respect to the historical financials of the Company.

The financial statements for the period ending 6/30/23 were prepared with adjustments to the historical balance sheet due to the death of former CEO Joseph LaStella on 2/21/22. Most notably that agreements for past & future compensation between the Company and Joseph LaStella as well as liability for shares to be issued to him for options exercised in the past should have no bearing on the Company's financial position moving forward. Additionally, we are considering the dormant historical debt owed to related parties that was originated by LaStella in 2009 or earlier as canceled as it would be time barred and should have no bearing on the Company's financial position moving forward.

For the period ending 12/31/23, the Company remained non-operating.

Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. The Company currently has no operations with an accumulated deficit of \$16,351,040 as of Sept 30th, 2023. The Company is assessing new business opportunities and plans and cannot be certain that it will be successful in these strategies. These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 3 – LOANS RECEIVABLE FROM RELATED PARTY

Historical notes to financial statements indicate this balance is comprised of amounts due the Company from former CEO Joseph LaStella and his past compensation agreements from 2011 that were to be re-negotiated in the future.

Due to Joseph LaStella's death, the Company has written off the balance of \$620,864 as bad debt as it cannot be collected. This was recorded as an expense under G&A in the 6/30/23 period.

NOTE 4 – ACCOUNTS PAYABLE AND DEFERRED COMPENSATION

Historical notes to financial statements indicate this balance is comprised of Accounts Payable for \$137,103 and Deferred Compensation for \$750,000 related to a compensation agreement between the Company and former CEO Joseph LaStella.

Due to Joseph LaStella's death, the Company has canceled \$750,000 from the balance which was recorded as a credit to other income in the 6/30/23 period.

NOTE 5 – PAYROLL TAXES PAYABLE

Historical notes to financial statements indicate Payroll Taxes Payable consists of withheld payroll taxes from 1994 (which were not assumed by B.A.T. California, Inc.). The Company attempted to negotiate a settlement with the Internal Revenue Service but had not received any correspondence for what would now be at least fifteen years. To the extent such a settlement cannot be reached, the president of the corporation may become personally liable for a portion of such taxes.

The Company is further researching the validity of historical liability as it is likely to have been written off.

NOTE 6 – INCOME TAXES PAYABLE

There are no historical notes to financial statements on this balance and the Company is researching it further.

NOTE 7 - SALARIES PAYABLE

Salaries Payable consists of an unpaid balance due to former CEO Kristy Hunt for an employment or consulting contract purportedly entered between her and the Company.

As Ms. Hunt did not disclose her past legal history (from incidents previous to her 2022 conviction) in the Company's disclosures during her tenure as CEO, the Company has determined there are no grounds on which this purported balance would be due. The \$21,500 balance of Salaries payable has been cancelled and recorded as a credit to other income in the 6/30/23 period.

NOTE 8 – LIABILITY DUE TO RELATED PARTY

Historical notes to financial statements indicate this balance is related party debt that was originated in 2009 or earlier and comprised of twelve parties who had collaborated with the Company over the years. Under their respective agreements, there is neither a maturity date nor an interest rate on the debt.

Given the four year statute of limitations on open ended debt in the state of Utah, the Company is treating this historical debt as canceled and has recorded a credit to other income in the 6/30/23 period.

NOTE 9 – COMMON STOCK TO ISSUE LIABILITY

Historical notes to financial statements indicate this balance represents the cost basis of unissued shares of common stock of \$63,600 in stock options exercised in 2011, 2012 and 2013 by Joseph LaStella and \$23,756 for services rendered in 2011 by a consultant.

Due to Joseph LaStella's death, the Company has reduced the balance by \$63,600 and has recorded it as a credit to other income in the 6/30/23 period.

NOTE 10 – NOTES & LOANS PAYABLE

Historical notes to financial statements indicate this balance consists of three loans with an outstanding principal balance of \$36,400 that were due at the end of 2021. However, there are no records indicating to whom or for what the loans are due, and the Company is researching this balance further.

NOTE 11 – SUBSEQUENT EVENTS

On January 2, 2024 the Company entered into a letter of intent to purchase Primo Chalk and on January 15, 2024 the Company entered into a letter of intent to purchase Healthy Planet Products.

OCTOBER ASSOCIATES, INC.

ARTICLE I - OFFICES

The principal office of the corporation in the State of Utah shall be located in the City of Salt Lake, County of Salt Lake. The Corporation may have such other offices, either within or without the State of Incorporation, as the Board of Directors may designate or as the business of the corporation may from time to time require.

ARTICLE II - STOCKHOLDERS

1. ANNUAL MEETING

The annual meeting of the stockholders shall be held one year from the date of incorporation, beginning with the year 1985, at the hour of one o'clock p.m., and annually on that date thereafter, for the purpose of electing directors and for the transaction of such other business as may come before the meeting. If the day fixed for the annual meeting shall be a legal holiday, such meeting shall be held on the next succeeding business day.

2. SPECIAL MEETINGS. UCS § 16-10-26

Special meetings of the stockholders for any purpose or purposes, unless otherwise prescribed by statute, may be called by the president or by the directors, and shall be called by the president at the request of the holders of not less than ten percent of all the outstanding shares of the corporation entitled to vote at the meeting.

3. PLACE OF MEETING.

The directors may designate any place, either within or without the State unless otherwise prescribed by statute, as the place of meeting for any annual meeting or for any special meeting called by the directors. A waiver of notice signed by all stockholders entitled to vote at a meeting may designate any place, either within or without the State unless otherwise prescribed by statute, the place for holding such meeting. If no designation is made, or if a special meeting be otherwise called, the place of meeting shall be the principal office of the corporation.

4. NOTICE OF MEETING. UCA § 16-10-27

Written or printed notice stating the place, day and hour of the meeting and, in case of a special meeting, the purpose or purposes for which the meeting is called, shall be delivered not less than ten nor more than fifty days before the date of the meeting, either personally or by mail, by or at the direction of the president, or the secretary, or the officer or persons calling the meeting, to each stockholder of record entitled to vote at such meeting. If mailed, such notice shall be deemed to be delivered when deposited in the United States mail, addressed to the stockholder at his address as it appears on the stock transfer books of the corporation, with postage thereon prepaid.

5. CLOSING OF TRANSFER BOOKS OF FIXING OF RECORD DATE. UCA §16-20-28

For the purpose of determining stockholders entitled to notice of or to vote at any meeting of stockholders or any adjournment thereof, or stockholders entitled to receive payment or any dividend, or in order to make a determination of stockholders for any other proper purpose, the directors of the corporation may provide that the stock transfer books shall be closed for a stated period but not to exceed, in case, fifty days. If the stock transfer books shall be closed for the purpose of determining stockholders entitled to notice of or to vote at a meeting at a meeting of stockholders, such books shall be closed for at least ten days immediately preceding such meeting. In lieu of closing the stock transfer books, the directors may fix in advance a date as the record date for any such determination of stockholders. When a determination of stockholders entitled to vote at any meeting of stockholders has been made as provided in this section, such determination shall apply to any adjournment thereof.

6. VOTING LISTS. UCA § 16-10-29

The officer or agent having charge of the stock transfer books for shares of the corporation shall make, at least ten days before each meeting of stockholders, a complete list of the stockholders entitled to vote at such meeting, or any adjournment thereof, arranged in alphabetical order, with the address of and the number of shares held by each, which list, for a period of ten days prior to such meeting, shall be kept on file at the principal office of the corporation and shall be subject to inspection by any stockholder at any time during usual business hours. Such list shall also be produced and kept open at the time and place of the meeting and shall be subject to the inspection of any stockholder during the whole time of the meeting. The original stock transfer book shall be prima facie evidence as to who are the stockholders entitled to examine such list of transfer books or to vote at the meeting of stockholders.

7. QUORUM. § 16-10-30

At any meeting of stockholders a majority of the outstanding shares of the corporation entitled to vote, represented in person or by proxy, shall constitute a quorum at a meeting of stockholders. If less than said number of the outstanding shares are represented at a meeting, a majority of the shares so represented may adjourn the meeting from time to time without further notice. At such adjourned meeting at which a quorum shall be present or represented, any business may be transacted which might have been transacted at the meeting as originally notified. The stockholders present at a duly organized meeting may continue to transact business until adjournment, notwithstanding the withdrawal of enough stockholders to leave less than a quorum.

8. PROXIES. UCA § 16-10-30

At all meetings of stockholders, a stockholder may vote by proxy executed in writing by the stockholder or by his duly authorized attorney-in-fact. Such proxy shall be filed with the secretary of the corporation before or at the time of the meeting.

9. VOTING. UCA § 16-10-30

Each stockholder entitled to vote in accordance with the terms and provisions of the Certificate of Incorporation and these By-laws shall be entitled to one vote, in person or by proxy, for each share of stock entitled to vote held by such stockholders. Upon the demand of any stockholder, the vote for directors and upon any question before the meeting shall be by ballot. All elections for directors shall be decided by majority vote except as otherwise provided by the Certificate of Incorporation or the laws of this State.

10. ORDER OF BUSINESS.

The order of business at all meetings of the stockholders shall be as follows:

1. Roll Call.
2. Proof of notice of meeting or waiver of notice.
3. Reading of minutes of preceding meeting.
4. Reports of Officers.
5. Reports of Committees.
6. Election of Directors.
7. Unfinished Business.
8. New Business.

11. INFORMAL ACTION BY STOCKHOLDERS. UCA § 16-138

Unless otherwise provided by law, any action required to be taken at a meeting of the shareholders, or any other action which may be taken at a meeting of the shareholders, may be taken without a meeting if a consent in writing, setting forth the action so taken, shall be signed by all of the shareholders entitled to vote with respect to the subject matter thereof.

ARTICLE III - BOARD OF DIRECTORS

1. GENERAL POWERS. UCA § 16-10-33

The business and affairs of the corporation shall be managed by its Board of Directors. The directors shall in all cases act as a board, and they may adopt such rules and regulations for the conduct of their meetings and the management of the corporation, as they may deem proper, not inconsistent with these By-laws and the laws of this State.

2. NUMBER, TENURE AND QUALIFICATIONS.

The number of directors of the corporation shall be not more than nine (9) or less than three (3). Each director shall hold office until the next annual meeting of stockholders and until his successor shall have been elected and qualified.

3. REGULAR MEETINGS. UCA § 16-10-40

A regular meeting of the directors shall be held without other notice than this By-law immediately after, and at the same place as, the annual meeting of stockholders. The directors may provide, by resolution, the time and place for the holding of additional regular meetings without other notice than such resolution.

4. SPECIAL MEETINGS.

Special meetings of the directors may be called by or at the request of the president or any two directors. The person or persons authorized to call special meetings of the directors may fix the place for holding any special meeting of the directors called by them.

5. NOTICE. UCA § 16-10-40

Notice of any special meeting shall be given at least two days previously thereto by written notice delivered personally, or by telegram or mailed to each director at his business address. If mailed, such notice shall be deemed to be delivered when deposited in the United States mail so addressed, with postage thereon prepaid. If notice be given by telegram, such notice shall be deemed to be delivered when the telegram is delivered to the telegraph company. The attendance of a director at a meeting shall constitute

a wife of notice of such meeting, except where a director attends a meeting for the express purpose of objecting to the transaction of any business because the meeting is not lawfully called or convened.

6. QUORUM. UCA § 16-10-38

At any meeting of the directors a majority shall constitute a quorum for the transaction of business, but if less than said number is present at a meeting, a majority of the directors present may adjourn the meeting from time to time without further notice.

7. MANNER OF ACTING.

The act of the majority of the directors present at a meeting at which a quorum is present shall be the act of the directors.

8. NEWLY CREATED DIRECTORSHIPS AND VACANCIES.

Newly created directorships resulting from an increase in the number of directors and vacancies occurring in the board for any reason except the removal of directors without cause may be filled by a vote of a majority of the directors then in office, although less than a quorum exists. Vacancies occurring by reason of the removal of directors without cause shall be filled by vote of the stockholders. A director elected to fill a vacancy caused by resignation, death or removal shall be elected to hold office for the unexpired term of his predecessor.

9. REMOVAL OF DIRECTORS.

Any or all of the directors may be removed for cause by vote of the stockholders or by action of the board. Directors may be removed without cause only by vote of the stockholders.

10. RESIGNATION.

A director may resign at any time by giving written notice to the board, the president or the secretary of the corporation. Unless otherwise specified in the notice, the resignation shall take effect upon receipt thereof by the board or such officer, and the acceptance of the resignation shall not be necessary to make it effective.

11. COMPENSATION.

No compensation shall be paid to directors, as such, for their services, but by resolution of the board a fixed sum and expenses for actual attendance at each regular or special meeting of the board may be authorized. Nothing herein contained shall be construed to preclude any director from serving the corporation in any other capacity and receiving compensation therefor.

12. PRESUMPTION OF ASSENT.

A director of the corporation who is present at a meeting of the directors at which action on any corporation matter is taken shall be presumed to have assented to the action taken unless his dissent shall be entered in the minutes of the meeting or unless he shall file his written dissent to such action with the person acting as the secretary of the meeting before the adjournment thereof or shall forward such dissent by registered mail to the secretary of the corporation immediately after the adjournment of the meeting. Such right to dissent shall not apply to a director who voted in favor of such action.

13. EXECUTIVE AND OTHER COMMITTEES.

The board, by resolution, may designate from among its members an executive committee and other committees, each consisting of three or more directors. Each such committee shall serve at the pleasure of the board.

14. ACTION WITHOUT A MEETING. UCA § 16-10-40

Any action that may be taken by the Board of Directors at a meeting may be taken without a meeting if a consent in writing, setting forth the action so to be taken, shall be signed before such action by all of the directors.

ARTICLE IV - OFFICERS

1. NUMBER.

The officers of the corporation shall be a president, two vice-presidents, a secretary and a treasurer, each of whom shall be elected by the directors. Such other officers and assistant officers as may be deemed necessary may be elected or appointed by the directors.

2. ELECTION AND TERM OF OFFICE.

The officers of the corporation to be elected by the directors shall be elected annually at the first meeting of the directors held after each annual meeting of the stockholders. Each officer shall hold office until his successor shall have been duly elected and shall have qualified or until his death or until he shall resign or shall have been removed in the manner hereinafter provided.

3. REMOVAL.

Any officer or agent elected or appointed by the directors may be removed by the directors whenever in their judgment the best interests of the corporation would be served thereby, but such removal shall be without prejudice to the contract rights, if any, of the person so removed.

4. VACANCIES.

A vacancy in any office because of death, resignation, removal, disqualification or otherwise, may be filled by the directors for the unexpired portion of the term.

5. PRESIDENT.

The president shall be the principal executive officer of the corporation and, subject to the control of the directors, shall in general supervise and control all of the business and affairs of the corporation. He shall, when present, preside at all meetings of the stockholders and of the directors. He may sign, with the secretary or any other proper officer of the corporation thereunto authorized by the directors, certificates for shares of the corporation, any deeds, mortgages, bonds, contracts, or other instruments which the directors have authorized to be executed, except in cases where the signing and execution thereof shall be expressly delegated by the directors or by these By-laws to some other officer or agent of the corporation, or shall be required by law to be otherwise signed or executed; and in general shall preform all duties incident to the office of president and such other duties as may be prescribed by the directors from time to time.

6. VICE-PRESIDENT.

The vice-president shall perform such other duties as from time to time may be assigned to him by the president or by the directors.

7. SECRETARY.

The secretary shall keep the minutes of the stockholders' and of the directors' meetings in one or more books provided for that purpose, so that all notices are duly given in accordance with the provisions of these By-laws or as required, be custodian of the corporate records and of the seal of the corporation and keep a register of the post office address of each stockholder which shall be furnished to the secretary by such stockholders, have general charge of the stock transfer books of the corporation and in general perform all duties incident to the office of secretary and such other duties as from time to time may be assigned to him by the president or by the directors.

8. TREASURER.

If required by the directors, the treasurer shall give a bond for the faithful discharge of his duties in such sum and with such surety or sureties as the directors shall determine. He shall have charge and custody of and be responsible for all funds and securities of the corporation; receive and give receipts for monies

due and payable to the corporation; receive and give receipts for monies due and payable to the corporation from any source whatsoever, and deposit all such monies in the name of the corporation in such banks, trust companies or other depositories as shall be selected in accordance with these By-laws and in general perform all of the duties incident to the office of treasurer and such other duties as from time to time may be assigned to him by the president or by the directors.

9. SALARIES.

The salaries of the officers shall be fixed from time to time by the directors and no officer shall be prevented from receiving such salary by reason of the fact that he is also a director of the corporation.

ARTICLE V - CONTRACTS, LOANS, CHECKS AND DEPOSITS

1. CONTRACTS.

The directors may authorize any officer or officers, agent or agents, to enter into any contract or execute and deliver any instrument in the name of and on behalf of the corporation, and such authority may be general or confined to specific instances.

2. LOANS.

No loans shall be contracted on behalf of the corporation and no evidences of indebtedness shall be issued in its name unless authorized by a resolution of the directors. Such authority may be general or confined to specific instances.

3. CHECKS, DRAFTS, ETC.

All checks, drafts or other orders for the payment of money, notes or other evidences of indebtedness issued in the name of the corporation, shall be signed by such officer or officers, agent or agents of the corporation and in such manner as shall from time to time be determined by resolution of the directors.

4. DEPOSITS.

All funds of the corporation not otherwise employed shall be deposited from time to time to the credit of the corporation in such banks, trust companies or other depositories as the directors may select.

ARTICLE VI - CERTIFICATES FOR SHARES AND THEIR TRANSFER

1. CERTIFICATES FOR SHARES.

Certificates representing shares of the corporation shall be in such form as shall be determined by the directors. Such certificates shall be signed by the president and by the secretary or by such other officers authorized by law and by the directors. All certificates for shares shall be consecutively numbered or otherwise identified. The name and address of the stockholders, the number of shares and date of issue, shall be entered on the stock transfer books of the corporation. .02 Special Meeting.

Special meetings of the shareholders of this Corporation may be called at any time by the holders of ten percent (10%) of the voting shares of the Corporation, or by the President, or by the Board of Directors or a majority thereof. No business shall be transacted at any special meeting of shareholders except as is specified in the notice calling for said meeting. The Board of Directors may designate any place, either within or without the State of Utah, as the place of any special meeting called by the president or the Board of Directors, and special meetings called at the request of shareholders shall be held at such place in the State of Utah, as may be determined by the Board of Directors and placed in the notice of such meeting.

.03 Notice of Meeting.

Written notice of annual or special meetings of shareholders stating the place, day, and hour of the meeting and, in the case of a special meeting, the purpose or purposes for which the meeting is called shall be given by the secretary or persons authorized to call the meeting to each shareholder of record entitled to vote at the meeting. Such notice shall be given not less than ten (10) nor more than fifty (50) days prior to the date of the meeting, and such notice shall be deemed to be delivered when deposited in the United States mail addressed to the shareholder at his/her address as it appears on the stock transfer books of the Corporation.

.04 Waiver of Notice.

GSPI Bylaws, May 24th, 2023

Notice of the time, place, and purpose of any meeting may be waived in writing and will be waived by any shareholder by his/her attendance thereat in person or by proxy. Any shareholder so waiving shall be bound by the proceedings of any such meeting in all respects as if due notice thereof had been given.

.05 Quorum and Adjourned Meetings.

A majority of the outstanding shares of the Corporation entitled to vote, represented in person or by proxy, shall constitute a quorum at a meeting of shareholders. A majority of the shares represented at a meeting, even if less than a quorum, may adjourn the meeting from time to time without further notice. At such adjourned meeting at which a quorum shall be present or represented, any business may be transacted which might have been transacted at the meeting as originally notified. The shareholders present at a duly organized meeting may continue to transact business until adjournment, notwithstanding the withdrawal of enough shareholders to leave less than a quorum.

.06 Proxies.

At all meetings of shareholders, a shareholder may vote by proxy executed in writing by the shareholder or by his/her duly authorized attorney in fact. Such proxy shall be filed with the secretary of the Corporation before or at the time of the meeting. No proxy shall be valid after eleven (11) months from the date of its execution, unless otherwise provided in the proxy.

Each Director shall hold office until the next annual meeting of shareholders and until his/her successor shall have been elected and qualified. Directors need not be residents of the State of Utah or shareholders of the Corporation.

.03 Election.

The Directors shall be elected by the shareholders at their annual meeting each year; and if, for any cause the Directors shall not have been elected at an annual meeting, they may be elected at a special meeting of shareholders called for that purpose in the manner provided by these Bylaws.

.04 Vacancies.

In case of any vacancy in the Board of Directors, the remaining Directors, whether constituting a quorum or not, may elect a successor to hold office for the unexpired portion of the terms of the Directors whose place shall be vacant, and until his/her successor shall have been duly elected and qualified. Further, the remaining Directors may fill any empty seats on the Board of Directors even if the empty seats have never been occupied.

.05 Resignation.

Any Director may resign at any time by delivering written notice to the secretary of the Corporation.

.06 Meetings.

At any annual, special, or regular meeting of the Board of Directors, any business may be transacted, and the Board may exercise all of its powers. Any such annual, special or regular meeting of the Board of Directors of the Corporation may be held outside of the State of Utah, and any member or members of the Board of Directors of the Corporation may participate in any such meeting by means of a conference telephone or similar communications equipment by means of which all persons participating in the meeting can hear each other at the same time; the participation by such means shall constitute presence in person at such meeting.

A. Annual Meeting of Directors.

Annual meetings of the Board of Directors shall be held immediately after the annual shareholders' meeting or at such time and place as may be determined by the Directors. No notice of the annual meeting of the Board of Directors shall be necessary.

B. Special Meetings.

Special meetings of the Directors shall be called at any time and place upon the call of the president or any Director. C. Regular Meetings of Directors.

Regular meetings of the Board of Directors shall be held at such place and on such day and hour as shall from time to time be fixed by resolution of the Board of Directors. No notice of regular meetings of the Board of Directors shall be necessary.

.07 Quorum and Voting.

A majority of the Directors presently in office shall constitute a quorum for all purposes, but a lesser number may adjourn any meeting, and the meeting may be held as adjourned without further notice. At each meeting of the Board at which a quorum is present, the act of a majority of the Directors present at the meeting shall be the act of the Board of Directors. The Directors present at a duly organized meeting may continue to transact business until adjournment, notwithstanding the withdrawal of enough Directors to leave less than a quorum.

.08 Compensation.

By resolution of the Board of Directors, the Directors may be paid their expenses, if any, of attendance at each meeting of the Board of Directors and may be paid a fixed sum for attendance at each meeting of the Board of Directors or a stated salary as Director. No such payment shall preclude any Director from serving the Corporation in any other capacity and receiving compensation therefore.

.09 Presumption of Assent.

Such right to dissent shall not apply to a Director who voted in favor of such action.

.10 Executive and Other Committees.

The Board of Directors, by resolution adopted by a majority of the full Board of Directors, may designate from among its members an executive committee and one or more other committees, each of which, to the extent provided in such resolution, shall have and may exercise all the authority of the Board of Directors, but no such committee shall have the authority of the Board of Directors, in reference to amending the Articles of Incorporation, adoption of a plan of merger or consolidation, recommending to the shareholders the sale, lease, exchange, or other disposition of all or substantially all the property and assets of the dissolution of the Corporation or a revocation thereof, designation of any such committee and the delegation thereto of authority shall not operate to relieve any member of the Board of Directors of any responsibility imposed by law.

.11 Chairman of Board of Directors.

The Board of Directors may, in its discretion, elect a chairman of the Board of Directors from its members; and, if a chairman has been elected, he/she shall, when present, preside at all meetings of the Board of Directors and the shareholders and shall have such other powers as the Board may prescribe.

.12 Removal.

Directors may be removed from office with or without cause by a vote of shareholders holding a majority of the shares entitled to vote at an election of Directors.

III. ACTIONS BY WRITTEN CONSENT.
