Amendment No. 1 to Form S-1

Prospectus Summary

Recent Developments, page 9

1. We note your statement that your “additional items that would require adjustments to be made to the preliminary estimated financial information presented...may be identified, and those changes could be material.” If you choose to disclose preliminary results, you should be able to assert that the actual results are not expected to differ materially from that reflected in the preliminary results. Accordingly, please remove this statement, as it implies that investors should not rely on the information presented.

The Offering, page 14

2. On page 16, you disclose that the number of shares of Class A common stock that will be outstanding after this offering excludes the shares of Class A common stock issuable upon conversion of the convertible notes from the SAFE financing. Please include these Class A shares in the number of shares of Class A common stock outstanding after the offering.

Principal Stockholders, page 130

3. You disclose in the introductory paragraph to the beneficial ownership table that, for purposes of computing percentage ownership after the offering, you assume that the automatic conversion of the convertible notes from the SAFE financing into Class A common stock has not occurred. Please revise the beneficial ownership table to include these Class A shares.
4. Please revise the beneficial ownership table to provide beneficial ownership for both the Class A common stock and the Class B common stock that will be outstanding after the offering. Refer to Regulation S-K Item 403(a), which requires disclosure of beneficial ownership by persons who beneficially own more than five percent of any class of a registrant's voting securities, and Item 403(b), which requires disclosure of beneficial ownership as to each class of equity securities of a registrant beneficially owned by directors and named executive officers.
