NOTES TO FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and nature of operations

FMX Growth Allocation Fund, a mutual fund (the "Fund"), is a diversified series of the Starboard Investment Trust (the "Trust"), an open-ended management investment company. The Trust was established as a Delaware statutory trust under an Agreement and Declaration of Trust on May 13, 2009, and is registered under the Investment Company Act of 1940, as amended. The Fund has had no operations since that date other than those relating to organizational matters, including the issuance of 5,000 shares at \$10.00 per share. The Fund's investment advisor has paid all organizational costs.

Accounting method

The fund prepares its financial statements using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Cash and Cash equivalents

The Fund considers cash and all highly liquid investments with original maturities of three months or less when acquired to be cash and cash equivalents. As of August 11, 2009, the Fund's cash consists of cash deposits with Union Bank of California.

Income Taxes

The Fund's policy is to continue to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all its taxable income to its shareholders. The Fund also intends to distribute sufficient net investment income and net capital gains, if any, so that it will not be subject to excise tax on undistributed income and gains. Therefore, no federal income tax or excise provision is required.

NOTE 2 – FEES & EXPENSES

The Fund receives investment advisory services under an agreement with FolioMetrix (the "Advisor"), the Advisor receives a monthly fee based on the Fund's average daily net assets. No fees are assessed on average daily assets under \$11,000,000 and gradually increase to a maximum annual rate of 0.95% on average daily net assets of \$39 million or more.

The Trust has entered into a Fund Accounting and Administration Agreement with The Nottingham Company ("Administrator"), 116 South Franklin Street, Post Office Box 69, Rocky Mount, North Carolina 27802-0069. The Administrator assists the Trust in the performance of its administrative responsibilities to the Funds, coordinates and pays for the services of each vendor and the operating expense to the Funds, and provides the Funds with certain administrative, fund accounting, and compliance services. As part of its services and consolidated fee arrangement, the Administrator receives compensation based on the Fund's average daily net assets. For the FMX Growth Allocation Fund, the annual rate is 1.45% if the average daily net assets are under \$50 million and gradually decreases to an annual rate of 0.825% if the average daily net assets are greater than \$1 billion. The fee paid to the Administrator is calculated by multiplying the average daily net assets of the Fund by the applicable annual rate. The Administrator pays all expenses not assumed by the Advisor, including, without limitation: the fees and expenses of its independent accountants and of its legal counsel; the costs of printing and mailing to shareholders annual and semi-annual reports, proxy statements, prospectuses, statements of additional information and supplements thereto; the
