Annual Meeting
of Stockholders*

EXPRESS

Columbus, Ohio
May 5, 2016

**LETTER TO OUR STOCKHOLDERS
FROM THE BOARD OF DIRECTORS**

2015 was notable due to a successful CEO transition, strong financial performance, and significant progress against the objectives set forth by the Company at the beginning of the year. As a Board we remain fully committed to effective oversight to support Express and its management team in the execution of its strategic plan, delivering excellent operating results, and creating attractive stockholder returns.

We are pleased to share with you a few financial highlights from the year, along with a summary of some of the significant executive compensation and governance changes we have made in response to stockholder feedback, and changes to our Board leadership structure. We encourage you to review our annual report and this proxy statement in full for additional information.

Financial Results. Total stockholder return was equal to 30% for 2015 and adjusted diluted earnings per share increased by 79% year over year to \$1.45 in 2015.

Capital Utilization. Strong cash flow allowed Express to continue investing in the business and to enhance the capital structure for the benefit of stockholders. In 2015, Express redeemed all \$200.9 million of its outstanding long-term debt and repurchased approximately 3.8 million shares of its common stock for \$68.6 million. Additionally, in the first quarter of 2016, Express used an additional \$41.5 million to repurchase approximately 2.5 million shares of common stock.

Stockholder Rights Plan. In response to stockholder feedback, the Board terminated the Stockholder Rights Plan, effective March 29, 2016.

Executive Compensation. The 2015 CEO compensation package for David Kornberg provided for target total direct compensation below the median of the Company's peer group and includes performance-based restricted stock unit awards with three-year performance targets.

Board Leadership. As part of the Company's succession plan and following the successful CEO transition, Michael Weiss will retire from the Board at the Company's Annual Meeting and will assume the honorary title of Chairman Emeritus in recognition of his extraordinary contributions to Express. I will assume the role of independent Chairman of the Board and Peter Swinburn will assume the role of Chair of the Compensation and Governance Committee. Michael Devine will continue to serve as Chair of the Audit Committee.

Board Composition. We know that having the right combination of director skills and experience is necessary for effective oversight. We are currently engaged in a formal search to add one additional director to the Board to complement the skills and experience our existing directors bring.

In closing, we want to express our deepest gratitude to Michael Weiss who is retiring from the Board after more than 30 years of service to Express. Michael's vision, leadership, and lasting contributions have established Express as one of the most iconic fashion brands in the world and we wish him all the very best in his well-deserved retirement.

On behalf of the entire Board of Directors, thank you for your continued support.

Mylle H. Mangum

2015 Compensation Highlights

CEO TARGET TOTAL DIRECT COMPENSATION

For 2015, CEO target total direct compensation was below the median of the Company's peer group. The short term incentives paid out at the 200% level for both the Spring and Fall 2015 seasons, reflecting the significant increase in operating income in 2015 compared to 2014. 50% of the long-term incentive value reflected above is attributable to the grant of performance-based restricted stock units with three-year performance targets. Time-based restricted stock units and stock options with four year vesting schedules account for the remaining value at 35% and 15%, respectively.

For more information on 2015 CEO compensation refer to "Executive Compensation—Compensation Discussion and Analysis—CEO Realizable Pay" on page 27 and the Summary Compensation Table on page 38. For more

information on our short-term incentive program refer to "Executive Compensation—Compensation Discussion and Analysis—What We Pay And Why—Performance-Based Incentives—Short-Term Incentives" beginning on page 31. For information on our long-term incentive program see "Executive Compensation—Compensation Discussion and Analysis—What We Pay And Why—Performance-Based Incentives—Long-Term Incentives" beginning on page 32.

Target total direct compensation is comprised of base salary, short-term incentives, and long-term incentives based on grant date fair value, and excludes non-qualified deferred compensation and all other compensation reported in the Summary Compensation Table on page 38.

Frequently Asked Questions about Voting and the Annual Meeting

Who is entitled to vote at the meeting?

Only stockholders of record at the close of business on April 11, 2016, the record date for the Annual Meeting (the "Record Date"), are entitled to receive notice of and to participate in the Annual Meeting. If you were a stockholder of record on that date, you will be entitled to vote all of the shares that you held on that date at the Annual Meeting or at any postponements or adjournments of the meeting.

A list of stockholders of record entitled to vote at the Annual Meeting will be available at the Annual Meeting and will also be available for ten business days prior to the Annual Meeting between the hours of 9:00 a.m. and 4:00 p.m., Eastern Daylight Time, at the Office of the Corporate Secretary located at 1 Express Drive, Columbus, OH 43230. A stockholder may examine the list for any germane purpose related to the Annual Meeting.

What are the voting rights of the holders of Express, Inc. common stock?

Holders of Express, Inc. common stock are entitled to one vote for each share held of record as of the Record Date on all matters submitted to a vote of the stockholders, including

the election of directors. Stockholders do not have cumulative voting rights.

How do I vote?

Beneficial Stockholders. If you hold your shares through a broker, bank, or other nominee, you are a beneficial stockholder. In order to vote your shares, please refer to the materials forwarded to you by your broker, bank, or other nominee, as applicable, for instructions on how to vote the shares you hold as a beneficial stockholder.

Registered Stockholders. If you hold your shares in your own name, you are a registered stockholder and may vote by proxy before the Annual Meeting via the Internet at

www.proxyvote.com, by calling (800) 690-6903 or by signing and returning the enclosed proxy card. Proxies submitted via the Internet, by telephone, or by mail must be received by 11:59 p.m., Eastern Daylight Time, on June 7, 2016. You may also vote at the Annual Meeting by delivering your completed proxy card in person. If you vote by telephone or via the Internet you do not need to return your proxy card.

What are "broker non-votes" and why is it so important that I submit my voting instructions for shares I hold as a beneficial stockholder?

If a broker or other financial institution holds your shares in its name and you do not provide voting instructions to it, New York Stock Exchange ("NYSE") rules allow that firm to vote your shares only on routine matters. Proposal No. 3, the ratification of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for 2016, is the

only routine matter for consideration at the Annual Meeting. For all matters other than Proposal No. 3, you must submit voting instructions to the firm that holds your shares if you want your vote to count on such matters. When a firm votes a client's shares on some but not all of the proposals, the missing votes are referred to as "broker non-votes."

What constitutes a quorum and how will votes be counted?

The presence at the Annual Meeting, in person or by proxy, of the holders of a majority of the outstanding shares of common stock entitled to vote will constitute a quorum for purposes of the Annual Meeting. A quorum is required in order for the Company to conduct its business at the Annual Meeting. As of the Record Date, 78,680,665 shares of common stock were outstanding.

Proxies received but marked as abstentions and broker non-votes will be included in the calculation of the number of shares considered to be present at the Annual Meeting for purposes of establishing a quorum.

What vote is required to approve each proposal?

Proposal	Vote Required	Board Voting Recommendation
Election of Class III director (Proposal No. 1)	Majority of the votes cast FOR the director nominee	FOR the nominee
Advisory vote to approve executive compensation (say-on-pay) (Proposal No. 2)	The affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting	FOR the executive compensation of our named executive officers
Ratification of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for 2016 (Proposal No. 3)	The affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting	FOR the ratification of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for 2016

What are my choices for casting my vote on each matter to be voted on?

Proposal	Voting Options	Effect of Abstentions	Broker Discretionary Voting Allowed?	Effect of Broker Non-Votes
Election of Class III director (Proposal No. 1)	FOR, AGAINST or ABSTAIN	No effect—not counted as a “vote cast”	No	No effect
Advisory vote to approve executive compensation (say-on-pay) (Proposal No. 2)	FOR, AGAINST or ABSTAIN	Treated as a vote AGAINST the proposal	No	No effect
Ratification of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for 2016 (Proposal No. 3)	FOR, AGAINST or ABSTAIN	Treated as a vote AGAINST the proposal	Yes	Not applicable

Unless you give other instructions when you vote, the persons named as proxies, David Kornberg and Lacey J. Bundy, will vote in accordance with the Board's recommendations. We do not expect any other business to properly come

before the Annual Meeting; however, if any other business should properly come before the Annual Meeting, the proxy holders will vote as recommended by the Board or, if no recommendation is given, in their own discretion.

What happens if a director nominee does not receive a majority of the votes cast for his or her re-election?

Pursuant to the Company's Corporate Governance Guidelines, the Board expects any director nominee who fails to receive a greater number of votes cast “for” than votes cast “against” his or her re-election to tender his or her resignation for consideration by the Compensation and Governance Committee. The Compensation and Governance Committee will act on an expedited basis to determine whether to accept the director's resignation and will submit

such recommendation for prompt consideration by the Board. The Board expects the director whose resignation is under consideration to abstain from participating in any decision regarding the resignation. The Compensation and Governance Committee and the Board may consider any factors they deem relevant in deciding whether to accept the director's resignation.

May I change my vote or revoke my proxy?

Beneficial Stockholders. Beneficial stockholders should contact their broker, bank, or other nominee for instructions on how to change their vote or revoke their proxy.

Registered Stockholders. Registered stockholders may change their vote or revoke a properly executed proxy at any time before its exercise by:

- delivering written notice of revocation to the Office of the Corporate Secretary, Express, Inc., 1 Express Drive, Columbus, OH 43230;

- submitting another proxy that is dated later than the original proxy (including a proxy submitted via telephone or Internet); or
- voting in person at the Annual Meeting.

Can I attend the Annual Meeting?

Subject to space availability, all stockholders as of the Record Date, or their duly appointed proxies, may attend the Annual Meeting. Since seating is limited, admission to the Annual Meeting will be on a first-come, first-served basis. Registration will begin at 8:00 a.m., Eastern Daylight Time. Election of Class III Director

(Proposal No. 1)

The Board currently consists of seven members and is divided into three classes of directors, with two Class I directors, three Class II directors, and two Class III directors. The current term of our Class III directors expires at the Annual Meeting, while the terms for Class I and Class II directors will expire at our 2017 and 2018 annual meetings of stockholders, respectively. Mr. Weiss and Mr. Killion currently serve as Class III directors. Mr. Weiss will retire at the end of his term at the Annual Meeting and the size of the Board will be reduced to six members, with two Class I directors, three Class II directors, and one Class III director.

Mr. Killion has served as a director since 2012 and was elected by stockholders to serve a three-year term at our 2013 annual meeting of stockholders. Upon recommendation by the Compensation and Governance Committee of the Board, the Board has nominated Mr. Killion for re-election as a Class III director, to serve a three-year term expiring at the 2019 annual meeting of stockholders.

Mr. Killion has consented to serve if elected. If re-elected, Mr. Killion will hold office until his or her respective successor has been duly elected and qualified or until his earlier resignation or removal. If Mr. Killion becomes unavailable to serve as a director, the Board may either designate a

substitute nominee or reduce the number of directors. If the Board designates a substitute nominee, the persons named as proxies will vote for the substitute nominee designated by the Board.

Information with respect to our Class III director nominee and our continuing Class I and Class II directors, including their recent employment or principal occupation, a summary of select qualifications, skills, and experience that led to the conclusion that they are qualified to serve as directors, the names of other public companies for which they currently serve as a director or have served as a director within the past five years, their period of service on the Board, and their ages as of the Record Date are provided in this section.

The Compensation and Governance Committee, on behalf of the Board, is currently engaged in a formal search for a new director. The new director, once determined, will be appointed as a Class III director in order to make each class of directors as equal in number as possible.

Corporate Governance

Corporate Governance Principles

The Board has adopted policies and procedures to ensure effective governance of Express. Our corporate governance materials, including our Corporate Governance Guidelines, the charters of the Audit Committee and Compensation and Governance Committee of the Board, and our Code of Conduct may be viewed in the investor relations section of our website at www.express.com/investor. We will also provide any of the foregoing information in print without

charge upon written request delivered to the Office of the Corporate Secretary at 1 Express Drive, Columbus, OH 43230.

The Compensation and Governance Committee reviews our Corporate Governance Guidelines from time to time as necessary, but no less than annually, and may propose modifications to the principles and other key governance practices from time to time for adoption by the Board.

Board Composition

The Board is responsible for overseeing the affairs of the Company. The Board is divided into three classes. Each director serves a three-year term, and one class is elected at each year's annual meeting of stockholders. Mr. Killion and Mr. Weiss are Class III directors with terms expiring at our 2016 Annual Meeting. Mr. Archbold and Mr. Swinburn are Class I directors with terms expiring at our 2017 annual meeting of stockholders. Mr. Devine, Mr. Kornberg, and Ms. Mangum are Class II directors with terms expiring at our 2018 annual meeting of stockholders. Mr. Weiss will retire at the end of his term at the Annual Meeting. Mr. Killion has been nominated to serve as a Class III director for another three-year term expiring at our 2019 annual meeting of stockholders.

Our Bylaws and Corporate Governance Guidelines provide for a majority voting standard in uncontested director elections. The standard states that in uncontested director elections, a director nominee must receive more votes cast for than against his or her election in order to be elected to the Board. The Board expects a director to tender his or her resignation if he or she fails to receive the required number of votes for election or re-election.

Our certificate of incorporation provides that, subject to any rights applicable to any then-outstanding preferred stock, the Board shall consist of such number of directors as is determined from time to time by resolution adopted by a majority of the total number of authorized directors, whether or not there are any vacancies in previously authorized directorships. Subject to any rights applicable to any

then-outstanding preferred stock, any vacancies resulting from an increase in the size of the Board or otherwise must be filled by the directors then in office unless otherwise required by law or by a resolution passed by the Board. The term of office for each director will be until his or her successor is elected at an annual meeting of stockholders or his or her death, resignation, or removal, whichever is earliest to occur. Any additional directorships resulting from an increase in the size of the Board will be distributed among the three classes so that, as nearly as possible, each class will consist of one-third of the total number of directors.

The Board currently consists of seven directors. Effective at the Annual Meeting, upon Mr. Weiss' retirement, the size of the Board will be reduced to six members, with two Class I directors, three Class II directors, and one Class III director.

The Compensation and Governance Committee, on behalf of the Board, is currently engaged in a formal search for a new director. Once the new director has been identified, the Board will increase the size of the Board to accommodate the appointment of the new director and will appoint him or her as a Class III director so that, as nearly as possible, each class of directors will consist of one-third of the total number of directors.

The Board and its Compensation and Governance Committee are committed to ensuring that the Board possesses the right diversity of backgrounds, skills, experiences, and perspectives to constitute an effective Board, and are working to identify a new director, together with a search firm, consistent with this commitment.

Board Leadership Structure

Our Corporate Governance Guidelines provide that the roles of Chairman of the Board (the "Chairman") and CEO may be separated or combined. The Board exercises its discretion in combining or separating these positions as it deems appropriate. The Board believes that the combination

or separation of these positions should be considered as part of the succession planning process. In the event that the Chairman is not independent, the Board believes that it is beneficial for the independent directors to appoint an independent Lead Director.

Mr. Weiss served as our Chairman and CEO until he retired as CEO on January 30, 2015, the last business day of our 2014 fiscal year. As part of the Company's succession plan, the roles of Chairman and CEO were separated. Since his retirement as our CEO, Mr. Weiss has continued to serve as our Chairman and Ms. Mangum has continued to serve as our independent Lead Director. This leadership structure has been beneficial as it has provided continuity of Board leadership during Mr. Kornberg's first year as CEO and allowed the Board to continue to benefit from Mr. Weiss's depth of knowledge of our business and the retail sector with Ms. Mangum's independent leadership during Mr. Kornberg's early tenure as CEO.

At our Annual Meeting, Mr. Weiss will retire from the Board and Mylle Mangum will assume the role of independent Chairman. The independent Chairman will assume all the

roles and responsibilities the independent Lead Director currently has, including: (1) establishing the Board agendas and schedules to confirm that appropriate topics are reviewed and sufficient time is allocated to each; (2) providing input to the CEO with respect to the information provided to the Board; (3) serving as a liaison between the independent directors and the CEO; (4) presiding at the executive sessions of independent directors; (5) facilitating communications and coordination of activities among the committees as appropriate; and (6) approving and coordinating the retention of advisors and consultants to the Board.

The independent directors are given an opportunity to meet in executive session at each Board meeting and do so routinely.

Board Meetings

The Board held a total of eight meetings, in person and by telephone, during 2015. Each director attended at least 75% of Board meetings held during the year, as well as at least 75% of meetings of the committees on which he or she served during 2015. Directors are expected to attend our annual meetings of stockholders. All of our directors attended our 2015 annual meeting of stockholders.

Board Evaluations

The Board conducts a comprehensive annual self-evaluation to determine whether it and its committees are functioning effectively and to identify potential areas of improvement. The evaluation process includes written questionnaires and one-on-one interviews with each director. The Lead Director shares a summary of the results with the full Board and action plans are created to address identified improvement opportunities.

Board Committees

The Board has two standing committees: an Audit Committee and a Compensation and Governance Committee. The composition, duties, and responsibilities of these committees are described below. In the future, the Board may establish other committees, as it deems appropriate, to assist it with its

responsibilities. The standing committees report to the Board as they deem appropriate, and as the Board may request. Each standing committee operates under a charter that has been approved by the Board and each is comprised solely of independent directors.

AUDIT COMMITTEE

The Audit Committee is responsible for, among other matters: (1) appointing, compensating, retaining, evaluating, terminating, and overseeing our independent registered public accounting firm; (2) discussing with our independent registered public accounting firm their independence from management; (3) reviewing with our independent registered public accounting firm the scope and results of their audit; (4) approving all audit and permissible non-audit services to be performed by the Company's independent registered public accounting firm; (5) overseeing the financial reporting process and discussing with management and the Company's independent registered public accounting firm the interim and annual financial statements that the Company files with the SEC; (6) reviewing and monitoring the Company's accounting principles, accounting policies, financial and accounting controls, and compliance with legal and regulatory requirements; (7) establishing procedures for the confidential anonymous submission of concerns regarding questionable accounting, internal controls, or auditing matters; (8) reviewing and approving known related person transactions; and (9) assisting the Board in its oversight of the Company's risk management program, including regularly reviewing the Company's risk portfolio and the steps management has taken to monitor and control such risks.

The Audit Committee generally has eight regularly scheduled meetings per year and has an opportunity at each meeting to speak with the lead audit partner from the Company's independent registered public accounting firm as well as the Company's director of internal audit without any other members of management present. In addition, the Audit Committee Chair has regularly scheduled teleconferences with each of the Company's Chief Financial Officer and the lead audit partner from the Company's independent registered public accounting firm.

At the end of each quarter, the Audit Committee reviews and discusses with management and the Company's independent registered public accounting firm the Company's financial

results, press releases concerning the Company's financial performance and earnings estimates, any significant control deficiencies identified and steps management has taken or plans to take to remediate the deficiencies, significant estimates and proposed audit adjustments, audit activities, reports to the Company's ethics hotline, and the results of the independent registered public accounting firm's review or audit of the Company's financial statements, among other things.

Each year the Audit Committee evaluates the performance of the Company's independent registered public accounting firm and considers whether it is in the best interests of the Company and its stockholders to engage the firm for another year. As part of its evaluation, the Audit Committee considers the qualifications of the persons who will be staffed on the Company's engagement, including the lead audit partner, quality of work, firm reputation, independence, fees, retail experience, and understanding of the Company's financial reporting processes, policies, and procedures. The Audit Committee solicits feedback from management as part of its evaluation process.

The Audit Committee also prepares the Audit Committee Report that SEC rules require to be included in our annual proxy statement. This report is on page 53 of this proxy statement.

The Board has affirmatively determined that (1) each of our Audit Committee members meets the definition of "independent director" for purposes of serving on the Audit Committee under both Rule 10A-3 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and the NYSE listing rules, and (2) each qualifies as an "audit committee financial expert," as such term is defined in Item 407(d)(5) of Regulation S-K.

The Audit Committee met eight times in 2015.

COMPENSATION AND GOVERNANCE COMMITTEE

The Compensation and Governance Committee is responsible for, among other matters: (1) reviewing and approving key employee compensation goals, policies, plans, and programs; (2) reviewing and approving corporate goals and objectives relevant to CEO compensation and evaluating the CEO's performance in light of these goals and objectives; (3) reviewing and approving, in consultation with or with the approval of the independent directors of the Board, compensation arrangements for the CEO; (4) overseeing the overall performance evaluation process for the CEO; (5) reviewing the performance of and approving compensation arrangements for executive officers other than the CEO; (6) reviewing and approving employment agreements and other similar arrangements between the Company and its executive officers; (7) reviewing and recommending to the

Board, in consultation with the Committee's independent compensation consultant, compensation arrangements for the independent directors; (8) overseeing management's administration of Company benefit plans and policies, including incentive compensation plans; (9) reviewing the Company's compensation program to ensure it is appropriate and does not incentivize unnecessary and excessive risk taking; (10) identifying individuals qualified to become members of the Board, consistent with criteria approved by the Board; (11) reviewing stockholder proposals and making recommendations to the Board regarding proposals; (12) overseeing the self-evaluation process for the Board and its committees; (13) overseeing the organization of the Board to discharge the Board's duties and responsibilities properly

and efficiently; and (14) developing and recommending to the Board a set of corporate governance guidelines and principles applicable to the Company.

The Compensation and Governance Committee also prepares the Compensation and Governance Committee Report that SEC rules require to be included in our annual proxy statement. This report is on page 37 of this proxy statement.

The Board has affirmatively determined that each of our Compensation and Governance Committee members meets the definition of “independent director” for purposes of serving on the Compensation and Governance Committee under the NYSE listing rules.

The Compensation and Governance Committee met six times in 2015.

Compensation Committee Interlocks and Insider Participation

During 2015, Ms. Mangum, Mr. Killion, and Mr. Swinburn served on the Compensation and Governance Committee. Ms. Chawla served on the Compensation and Governance Committee until she resigned from the Board in November 2015. None of the members of the Compensation

and Governance Committee has been an officer or employee of the Company. No interlocking relationships exist between the members of the Board or Compensation and Governance Committee and the board of directors or compensation committee of any other company.

Succession Planning

The Board is responsible for succession planning for the CEO position and for monitoring and advising on management’s succession planning for other executive officers and key contributors. The Board reviews and discusses succession plans for the CEO position and the Company’s other executive officers and key contributors at least once annually, usually as part of the annual talent review of the executive leadership and key contributors in the business. As part of the annual

talent review process, the CEO shares his evaluation of the executive leadership in the business and makes recommendations and evaluations of potential successors, along with a review of any development plans recommended for such individuals. Directors become familiar with potential successors for key management positions through various means, including annual talent reviews, presentations to the Board, and communications outside of meetings.

Stockholder Rights Plan

On June 12, 2014, we adopted a Stockholder Rights Plan after Sycamore Partners (“Sycamore”) notified us that it had acquired 9.9% of our outstanding common stock and of its intention to acquire the Company. We adopted the Stockholder Rights Plan in order to prevent Sycamore or any other third party from gaining control of the Company through takeover tactics that we deemed coercive or otherwise unfair, and so that we could maximize value for all stockholders. The

Stockholder Rights Plan, as amended effective June 12, 2015, was set to expire on June 10, 2016 unless ratified by the Company’s stockholders. Due in part to feedback we received from stockholders following our 2015 annual meeting in which our stockholders indicated a strong desire for the Stockholder Rights Plan to be terminated, the Board elected to terminate the Stockholder Rights Plan, effective March 29, 2016.

Identifying and Evaluating Director Candidates

The Compensation and Governance Committee is responsible for identifying, recruiting, and recommending candidates for the Board and is responsible for reviewing and evaluating any candidates recommended by stockholders. The Compensation and Governance Committee is responsible for developing the criteria for, and reviewing periodically with the Board, the requisite skills and characteristics of nominees, as well as the composition of the Board as a whole. These criteria include independence, diversity, age, skills, and experience in the context of the needs of the Board. The Compensation and Governance Committee considers a combination of factors for each nominee, including the nominee’s ability to represent all stockholders without a conflict of interest; the nominee’s ability to work in and promote a productive environment; whether the nominee has sufficient time and willingness to fulfill the substantial duties and responsibilities of a director; whether the nominee has demonstrated a high level of character and integrity; whether the nominee possesses the broad

professional and leadership experience and skills necessary to effectively respond to complex issues encountered by a publicly-traded company; and the nominee’s ability to apply sound and independent business judgment.

As a nationally recognized specialty retailer, the Board believes that experience, qualifications, or skills in the following areas are most important: (1) retail merchandising and operations; (2) apparel and consumer goods; (3) consumer brand marketing and advertising; (4) business development and strategic planning; (5) accounting, finance, and capital structure; (6) human resources and organizational design; (7) supply chain; (8) technology development and management experience; (9) leadership of complex organizations; (10) leadership development and succession planning; (11) corporate governance and board practices of other public companies; (12) e-commerce and omni-channel retailing; (13) risk management; (14) international and franchise

operations; and (15) data analytics. The Board believes that diversity of Board members is important and considers background, experience, skills, race, gender, and national origin when considering diversity.

Our Bylaws contain a procedure allowing for the nomination by stockholders of proposed directors. See “Additional Information — Stockholder Proposals for Inclusion in the 2017 Annual Meeting Proxy Statement” and “— Other Stockholder Proposals” on page 57 for information as to how a stockholder can nominate a director candidate. The Compensation and Governance Committee considers

all director candidates, including candidates proposed by stockholders in accordance with our Bylaws, based on the same criteria. The Compensation and Governance Committee may engage third-party search firms to identify potential director nominees.

The Board and its Compensation and Governance Committee are committed to ensuring that the Board possesses the right diversity of backgrounds, skills, experiences, and perspectives to constitute an effective Board, and is working to identify a new director, together with a search firm, consistent with this commitment.

Strategy Oversight

At least once per year, the Board and management engage in an in-depth discussion and align on the Company’s corporate strategy which is designed to create long-term stockholder value and serves as the foundation upon which goals are

established and decisions are made. Short and medium term objectives are developed to support achievement of the long-term strategy and the Board monitors management’s progress against such objectives.

Risk Oversight

The Board, with the assistance of the Audit Committee and the Compensation and Governance Committee, oversees our enterprise risk management (“ERM”) program. Our ERM program is designed to enable effective identification and management of critical enterprise risks and to facilitate the incorporation of risk considerations into decision making. Under the ERM program, management continuously identifies and monitors the Company’s enterprise risks, develops and reviews risk response plans, and takes steps to reduce risk where appropriate.

The Audit Committee oversees management’s implementation of the ERM program, including regularly evaluating our enterprise risk portfolio, management’s approach to identifying risks, and steps management

has taken to monitor and reduce enterprise risks. The Compensation and Governance Committee is responsible for risk oversight as it relates to our compensation policies and practices and governance structure and processes.

The Board is kept informed of the committees’ risk oversight and related activities primarily through reports of the committee chairs to the full Board. The Board also receives a comprehensive report from management on the ERM program at least annually. In addition, the Audit Committee escalates issues relating to risk oversight to the full Board as appropriate to ensure that the Board is appropriately informed of developments that could affect our risk profile or other aspects of our business. The Board also considers specific risk topics in connection with strategic planning and other matters.

Communications with the Board

Stockholders and other interested parties may contact an individual director, including the Chairman or Lead Director, the Board as a group, or a specified Board committee or group, including the independent directors as a group, at the following address: Office of the Corporate Secretary, Express, Inc., 1 Express Drive, Columbus, OH 43230 Attn: Board of Directors. Any correspondence should clearly indicate whether the correspondence is intended for an individual director, the Board as a group, or a specified committee or group of directors.

All such reports or correspondence will be forwarded to the appropriate director or group of directors as indicated on the correspondence unless the correspondence is of a trivial nature, irrelevant to the Board’s responsibilities, or already addressed by the Board. A report will be made to the Audit Committee of all communications to the Board, and all such correspondence is made available to all directors.

Director Independence

The Board has reviewed the relationships each director has with the Company and has determined that all of our directors except for Mr. Weiss and Mr. Kornberg are “independent directors” under the NYSE listing rules and have either no relationships with us (other than as a director and stockholder) or only immaterial relationships with us.

Mr. Weiss is not independent because of his prior service as CEO. Mr. Kornberg is not independent because of his current role as President and CEO. Upon Mr. Weiss’ retirement at our upcoming Annual Meeting, all of our directors, except for Mr. Kornberg, will be independent directors.

Code of Conduct

We expect our directors, officers, and employees to act ethically at all times and to adhere to the policies comprising our Code of Conduct. Stockholders may access a copy of our Code of Conduct in the investor relations section of our website at www.express.com/investor. We will promptly disclose any waivers of our Code of Conduct involving our

directors or executive officers. We intend to satisfy any disclosure requirements regarding any amendment or waiver of our Code of Conduct by posting the information on the “Corporate Governance” page of our website which can be found at www.express.com/investor.

Outside Board Memberships

Our Corporate Governance Guidelines provide that directors should not serve on more than four other public company boards. Directors are expected to advise the Chairman in advance of accepting an invitation to serve on another public

company board or for-profit private company board and before accepting an assignment to any other public company’s audit or compensation committee. No director may serve as a director, officer, or employee of a competitor of ours.

Director Compensation

OVERVIEW

Non-employee directors receive compensation for Board service, which is designed to fairly compensate them for their time and effort, be competitive with the market, and align their interests with the long-term interests of our stockholders. Employee directors receive no compensation for Board service. The Compensation and Governance Committee, together with its independent compensation consultant, periodically review the form and amount of director compensation and recommend changes to the Board, as appropriate. As part of its review, the Compensation and Governance Committee considers how the Company’s director compensation program

compares to the programs at the peer companies we refer to in the executive compensation setting process. See “Executive Compensation—Compensation Discussion and Analysis—How We Determine Executive Compensation—The Role of Peer Companies and Benchmarking” beginning on page 28 for more information about our peer companies. The Compensation and Governance Committee believes that director compensation should be competitive with the market and geared towards attracting and retaining highly-qualified independent professionals to oversee the Company and represent the interests of the Company’s stockholders.

NON-EMPLOYEE DIRECTOR COMPENSATION

The annual cash retainers for our non-employee directors in 2015 are shown in the following table.

Annual Retainer Type	2015 Annual Retainer Amount
Non-employee Director	\$75,000
Committee Service	\$10,000
Lead Director	\$25,000
Audit Committee Chair	\$20,000
Compensation and Governance Committee Chair	\$15,000

Eligible non-employee directors also receive equity grants on an annual basis. In 2015, eligible non-employee directors were granted restricted stock units that had a value of approximately \$125,000 on the date of grant and that vest on May 15, 2016, subject to continued service. All directors receive reimbursement for reasonable out-of-pocket expenses incurred in connection with Board and committee meetings.

CHAIRMAN COMPENSATION FOR MR. WEISS

In addition to being entitled to the Company's standard non-employee director cash and equity compensation arrangements, in order to compensate Mr. Weiss for his service as Chairman, he was entitled to receive an additional annual retainer of \$150,000, consisting of \$56,250 in

cash, and restricted stock units that had a fair value of approximately \$93,750 on the date of grant. The restricted stock units granted to him as compensation for his service as Chairman are scheduled to vest approximately one year after the date of grant.

DIRECTOR STOCK OWNERSHIP GUIDELINES

The Board has director stock ownership guidelines which call for non-employee directors to own an amount of our common stock equal to five times their annual cash retainer. Directors have five years to meet the guidelines. To avoid fluctuating ownership requirements, once a director has achieved the applicable stock ownership guideline, he or she is considered to have satisfied the guideline, provided that the shares used to meet the underlying requirement are retained. As of the

end of fiscal 2015, all non-employee directors have met or are on track to meet the stock ownership guidelines. For a discussion of the stock ownership guidelines applicable to Mr. Kornberg, refer to "Executive Compensation—Compensation Discussion and Analysis—Other Corporate Governance Considerations in Compensation—Stock Ownership Guidelines" on page 36.

EXECUTIVE SUMMARY

OVERVIEW OF FISCAL 2015 BUSINESS RESULTS

In fiscal 2015 we executed against the objectives we set forth at the beginning of the year. First, we significantly improved profitability by taking a balanced approach to growth. The increased profitability was driven by our strong product offerings, reduced promotional activity, and strict inventory and expense management. Other objectives for the year included elevating our customer experience, sharpening our brand position, upgrading systems and processes, and supporting and developing our people, all of which we made important progress against during 2015 and which contributed to our improved performance in 2015.

Other 2015 business highlights:

2015 COMPENSATION HIGHLIGHTS

CEO 2015 TARGET TOTAL DIRECT COMPENSATION

For 2015, CEO target total direct compensation was below the median of the Company's peer group. The short term incentives paid out at the 200% level for both the Spring and Fall 2015 seasons, reflecting the significant increase in operating income in 2015 compared to 2014. 50% of the long-term incentive value reflected above is attributable to the grant of performance-based restricted stock units with three-year performance targets. Time-based restricted stock units and stock options with four year vesting schedules account for the remaining value at 35% and 15%, respectively.

For more information on 2015 CEO compensation refer to CEO Realizable Pay on page 27 and the Summary Compensation Table on page 38. For more information on our short-term incentive program refer to "—What We Pay And Why—Performance-Based Incentives—Short-Term Incentives" beginning on page 31. For information on our long-term incentive program see "—What We Pay And Why—Performance-Based Incentives—Long-Term Incentives" beginning on page 32.

Target total direct compensation is comprised of base salary, short-term incentives, and long-term incentives based on grant date fair value, and excludes non-qualified deferred compensation and all other compensation reported in the Summary Compensation Table on page 38.

2015 NAMED EXECUTIVE OFFICERS

This Compensation Discussion and Analysis ("CD&A") focuses on the compensation of our named executive officers (our "NEOs") for 2015, who are listed below:

Name	Position
David Kornberg	President and Chief Executive Officer
Matthew Moellering	Executive Vice President and Chief Operating Officer
John J. ("Jack") Rafferty	Executive Vice President—Planning and Allocation
Jeanne St. Pierre	Executive Vice President—Stores
Periclis ("Perry") Pericleous	Senior Vice President, Chief Financial Officer and Treasurer ⁽¹⁾

EXECUTIVE COMPENSATION OBJECTIVES AND PRACTICES

The core objectives that serve as the foundation for our compensation program are:

Program Objective	Achievement of Objective
Pay for Performance	<ul style="list-style-type: none"> A significant portion of our executives' compensation opportunity is variable and is tied to the achievement of financial performance targets that incentivize the creation of stockholder value. Executives receive below-target pay when performance targets are not met and are rewarded with above-target pay when performance targets are exceeded. For information regarding the Company's 2015 performance targets, See "—Pay For Performance" on page 26.
Pay Competitively	<ul style="list-style-type: none"> Our executive compensation program is designed to allow us to compete effectively for, obtain, and retain, the executive talent necessary to successfully execute our strategic plans.
Pay Responsibly	<ul style="list-style-type: none"> Each of our executives is subject to substantial stock ownership requirements. The mix between short-term incentives and long-term incentives is intended to discourage executives and employees from maximizing short-term performance at the expense of long-term performance. Our short-term cash-incentive program has performance targets based on operating income and our performance-based restricted stock units have performance targets based on earnings per share, thereby discouraging participants from focusing on the achievement of one performance measure at the expense of another. Payouts are capped under our incentive cash and equity award programs. Our executives are subject to a clawback policy and policies prohibiting hedging and other speculative activity.

Below we highlight certain executive compensation practices, including practices we have implemented to align executive compensation with the Company's financial performance, and practices we have not implemented because we do not believe they would serve our stockholders' long-term interests.

What We DO:

- ☑ **Pay for Performance** - Our executive compensation program is designed to align executive pay with the Company's financial performance. A significant portion of our executives' compensation opportunity is variable and is tied to achievement of financial performance targets and changes in the Company's stock price.
- ☑ **Annual Advisory Vote on Executive Compensation (Say-on-Pay)** - We offer our stockholders the opportunity to vote annually on the Company's executive compensation program. Refer to page 55 for more information about the non-binding say-on-pay proposal.
- ☑ **Performance-Based Equity Awards** - We grant a mixture of long-term equity incentives, comprised of (i) stock options, (ii) time-based restricted stock units, and (iii) performance-based restricted stock units, with performance based on adjusted earnings per diluted share over a three-year period. In 2015, our NEOs were granted long-term equity incentives comprised of a mixture of approximately 50% performance-based restricted stock units, 35% time-based restricted stock units, and 15% stock options, each based on grant date fair value.
- ☑ **Challenging Performance Targets** - We establish challenging performance targets for our short-term cash incentive program and long-term equity incentive program in order to incentivize our executives to create stockholder value. Each financial performance measure is assigned a minimum level, a threshold level, a target level, and a maximum level, from zero to 200% of target for our short-term incentives and from zero to 125% of target for our long-term incentives, based upon the extent to which the performance target is met or exceeded.
- ☑ **Stock Ownership Guidelines** - We have stock ownership guidelines for all executive officers and Board members. We believe these requirements, combined with certain other elements of our overall compensation program, provide executive officers and directors with appropriate incentives to create long-term value for stockholders while taking thoughtful and prudent risks to grow the value of the Company.
- ☑ **Regular Review of Share Utilization** - We evaluate share utilization by reviewing ongoing grants, forfeitures, overhang levels (dilutive impact of equity compensation to our stockholders), and annual run rates (the aggregate shares awarded as a percentage of total outstanding shares).
- ☑ **Peer Group Comparison** - The Committee reviews our peer group annually and makes changes as appropriate. In 2015, the Committee reviewed the Company's peer group and decided to keep the Company's peer group the same. See page 28 "—How We Determine Executive Compensation—The Role of Peer Companies and Benchmarking."
- ☑ **Clawback Policy** - Consistent with our objective to pay responsibly, the Company maintains a clawback policy whereby incentive compensation paid to our NEOs and other key executives is subject to adjustment and recovery in the event of a material restatement of the Company's financial results. See "—Other Corporate Governance Considerations in Compensation—Compensation Clawback Policy" on page 36.

What We DO:

- ☑ **Independent Compensation Consulting Firm** - The Committee is advised by an independent compensation consulting firm that provides no other services to the Company.
- ☑ **Mitigate Undue Risk** - Our compensation program is designed to drive financial performance and create stockholder value without encouraging inappropriate or excessive risk taking. We take steps to mitigate undue risk associated with our compensation program through caps on potential payments, clawback provisions, stock ownership guidelines, a mix of short-term and long-term incentives with different performance measures, and robust Board and management processes to identify risk. We do not believe that the Company's executive compensation program creates risks that are reasonably likely to have a material adverse impact on the Company, which we validate through our risk assessment of incentive-based compensation programs each year. Refer to "—How We Determine Executive Compensation—Analysis of Risk in Our Compensation Program" for additional detail regarding risk considerations.
- ☑ **Review Tally Sheets** - The Committee reviews tally sheets for our NEOs prior to making annual executive compensation decisions. Tally sheets provide a comprehensive line item view of compensation where each component of compensation is tallied up.

What We DON'T DO:

- ☑ **No Special Tax Gross-Ups** - We do not provide special tax gross-ups to executives.
- ☑ **No Pension Plans or Other Post-Employment Defined Benefit Plans** - We do not provide any qualified or non-qualified post-employment defined benefit plans.
- ☑ **No Special Executive Perquisites** - We do not provide any executive with special perquisites.
- ☑ **No Repricing of Underwater Stock Options or Reloads of Stock Options** - The Company's 2010 Incentive Compensation Plan, as amended (the "Plan"), prohibits the repricing of stock options without the consent of stockholders and does not allow for reloads of stock options to the extent stock options are used to pay the exercise price or taxes with respect to stock option exercises.
- ☑ **No Hedging or Pledging Transactions** - We prohibit employees, including NEOs, and directors from hedging or pledging any securities of the Company held by them.
- ☑ **No Single Trigger Change-in-Control Payments** - Our NEOs are not currently entitled to any single-trigger special vesting, severance, or other benefits in a change-in-control.

OUTCOME OF 2015 SAY-ON-PAY VOTE AND STOCKHOLDER ENGAGEMENT

At our 2015 annual meeting of stockholders, our 2014 executive compensation program received the support of approximately 60% of the votes cast, with each of our five largest stockholders voting in favor of our executive compensation program and eight of our ten largest stockholders voting in favor of our executive compensation program. Although we received strong support from our largest stockholders, the level of support we received in 2015 was significantly less than the 95% support we received for our executive compensation program at our 2014 annual meeting, and the 94% support we received at our 2013 annual meeting, even though the overall objectives and design of our executive compensation

program remained the same. In an effort to understand the reduction in support, following our 2015 Annual Meeting, we reached out to 20 of our largest stockholders, representing over a majority of our then outstanding shares, to solicit feedback on our executive compensation program and other corporate governance matters. Our head of investor relations and corporate secretary held discussions with each stockholder who desired to engage with us and gathered valuable feedback that was shared with and discussed by our Board of Directors and the Committee. Key themes communicated to us with respect to our executive compensation program and our response to each is set forth in the following table:

Theme	What We Heard	Our Response
2015 CEO Compensation Package	All stockholders with whom we spoke provided positive feedback on Mr. Kornberg's compensation package for 2015. We received no specific requests to change anything about Mr. Kornberg's pay package.	Given the support for Mr. Kornberg's compensation package, the overall structure will remain the same for 2016.
2014 CEO Compensation Package	Stockholders who voted against our say-on-pay proposal in 2015 and provided us with feedback regarding their vote indicated that they did so due to our former CEO's compensation package and the acceleration of certain equity awards in connection with his retirement.	Based on the positive feedback received for the 2015 CEO compensation package, the Committee believes the issues raised by stockholders with respect to the 2014 CEO compensation package were addressed. The Committee does not intend to modify the vesting terms of outstanding equity awards for retiring executives in the future. For more information regarding the vesting of equity awards upon retirement, refer to the tables in "Payments upon Termination and Change-in-Control" beginning on page 46.
Performance Metrics for Incentive Compensation	We heard a wide range of views from our stockholders with respect to the appropriate use of performance metrics in our compensation program, with the majority indicating that they believe the Committee is best positioned to determine what performance targets are appropriate in order to accomplish the stated compensation objectives, including pay-for-performance.	The Committee believes that the current performance metrics continue to be effective in order to accomplish the compensation program's stated objectives and will continue to evaluate their effectiveness within that context and make changes if determined to be appropriate.
Long-term Incentive Award Performance Periods	We consistently heard from our stockholders that they preferred long-term incentive awards to have three-year performance periods.	Over the past three years, the Company has steadily increased the length of performance periods for its long-term incentive awards from one year to three years. Beginning in 2015, our performance-based restricted stock units have three-year performance targets.

The Board and its Committees regularly discuss and consider feedback from our stockholders. We attribute the support of Mr. Kornberg's 2015 compensation package, in part, to multiple discussions with stockholders in previous years in which we gathered valuable feedback about our executive compensation program. The Committee took

such feedback into account in developing Mr. Kornberg's compensation package. Our stockholders' views on corporate governance and executive compensation are important to us, and we value and utilize the feedback and insights that we receive.

PAY FOR PERFORMANCE

PERFORMANCE-BASED COMPENSATION

We tie a significant portion of executive compensation to the Company's financial results and stock price in order to achieve our objective to pay for performance. As shown in the charts below, for 2015, 85% of CEO compensation and 65% of other NEO compensation at target was variable.

(1) Target total direct compensation is comprised of base salary, short-term incentives, and long-term incentives. Variable compensation is comprised of short-term incentives and long-term incentives.

Short-Term Incentives and Performance. Our short-term incentives are paid in cash and are earned based on the achievement of operating income performance targets for each six-month operating season. For 2015, our NEOs received cash incentive payouts equal to 200% of target for each season for achieving operating income in excess of the maximum payout goals for each season. For more information about our short-term incentives, see “—What We Pay and Why: Elements of Compensation—Performance-Based Incentives—Short-Term Incentives” beginning on page 31.

2015 Performance-Based Restricted Stock Units

The performance-based restricted stock units granted in 2015 have performance targets based on adjusted earnings per share measured over a three-year performance period commencing on the first day of the Company's 2015 fiscal year and ending on the last day of the Company's 2017

2014 Performance-Based Restricted Stock Units

The performance-based restricted stock units granted in 2014 had performance targets based on adjusted earnings per share measured over a two-year performance period commencing on the first day of the Company's 2014 fiscal year and ending on the last day of the Company's 2015 fiscal year. These awards paid out slightly above the minimum performance threshold at approximately 76.7% of target as a result of the significant improvement in 2015 adjusted diluted EPS compared to 2014.

Long-Term Incentives and Performance. Our long-term incentives include a mix of stock options, time-based restricted stock units, and performance-based restricted stock units subject to time and performance-based vesting. For 2015, our NEOs were granted a mixture of approximately 50% performance-based restricted stock units with performance and time-based vesting criteria, 35% restricted stock units with time-based vesting, and 15% stock options with time-based vesting, each based on total grant date fair value (at target with respect to the performance-based restricted stock units).

fiscal year. The Company had adjusted EPS of \$1.45 in fiscal 2015, the first year of the three-year performance period. If the Company's adjusted EPS for the first year of the three-year period were attained in the second and third year, the payout would be above target.

For more information about our long-term incentives, see “—What We Pay and Why: Elements of Compensation—Performance-Based Incentives—Long-Term Incentives” beginning on page 32. Refer to Appendix A to this proxy statement for more information on adjusted earnings per diluted share, a non-GAAP measure, and a reconciliation of adjusted earnings per diluted share information included in this proxy statement, to reported earnings per diluted share, the most directly comparable GAAP measure.

Individual Performance. Executives are also compensated based on individual performance factors.

Individual performance is evaluated based upon several individualized leadership factors, including:

- attaining specific financial and operational objectives;
- building and developing individual skills and a strong leadership team;

- execution of the Company's business strategy; and
- individual performance relative to job requirements.

The Committee considers individual performance when determining (i) the annual merit-based pay increases for NEOs, (ii) the amount of the short-term cash incentive compensation opportunity for NEOs, and (iii) the amount of the long-term incentives awarded to NEOs.

CEO REALIZABLE PAY

The following chart shows realizable total direct compensation ("TDC") at target and actual for the Company's CEO for 2015. Realizable TDC is comprised of base salary, short-term incentives, and long-term incentives ("LTI"). Actual realizable TDC is intended to measure the actual amount of pay the CEO can expect to receive from his base salary and performance-based compensation awards. Actual realizable TDC consists

of base salary plus actual cash bonus payouts and the actual amount of pay delivered from equity awards including a current estimate of value for awards that have either not yet vested or have not yet been earned. Realizable TDC is supplemental information and should not be considered a substitute for information in the Summary Compensation Table on page 38.

(2) Reflects amounts disclosed in the Summary Compensation Table on page 38 for 2015.

(3) Reflects awards disclosed in the Outstanding Equity Awards at Fiscal Year-End table on page 41. The value for the PSUs is based on assumed payout at target (if the actual EPS for the first year of the three-year period were attained in the second and third year, payout would be above target; insofar as there are two remaining years in the performance period, it is, however, considered appropriate to show the unrealized value as equivalent to target). The values shown for options reflect the Black-Scholes value with share price, volatility, expected term, and risk free rate assumptions as of the Company's fiscal year end as follows:

- Stock price of \$16.96 as of January 29, 2016.
- Volatility of 47.9%, which represents the assumption used for fiscal year 2015 awards.
- Expected term of 5.7 years. This value was calculated by multiplying the ratio of the expected term at grant divided by the original term to the remaining term at January 30, 2016.
- Risk free rate of 1.33% for the 2013, 2014, and 2015 awards. These values reflect the yield as of January 29, 2016 of a U.S. Treasury with a term closest to the expected term of the option.

HOW WE DETERMINE EXECUTIVE COMPENSATION

DETERMINING COMPENSATION FOR THE CEO

The Committee works directly with Frederic W. Cook & Co. ("F.W. Cook") to obtain independent market data, analysis, and advice related to our CEO's total compensation package. The Committee, together with F.W. Cook, present a recommended pay package for our CEO to the independent directors of the Board for further review, discussion, and approval. Mr. Kornberg did not participate in any deliberations with regard to his own compensation. The Committee

takes multiple factors into consideration when determining the appropriate CEO compensation package, including the CEO's existing compensation, the Company's performance, the CEO's individual performance and qualifications, peer group CEO pay levels, competitor and industry performance, our compensation objectives, and our business and succession plans.

DETERMINING COMPENSATION FOR THE OTHER NEOs

Each year, the Committee approves a compensation package for each of our executive officers, other than the CEO, that is consistent with our compensation objectives. As part of the review and approval process, at the Committee's request, our CEO and Senior Vice President of Human Resources make recommendations for the upcoming year to the Committee regarding compensation for executive officers other than for the CEO. The recommendations are based on individual performance, compensation data compiled from independent third-party executive compensation surveys, publicly available data from our peer group companies, and feedback and

insights from management's compensation consultant (Hay Group), all of which is summarized by management and shared with the Committee. The Committee has an opportunity to review, analyze, and discuss the information and recommendations with its independent compensation consultant, F.W. Cook, and outside the presence of management. The Committee gives considerable weight to the CEO's evaluation of the other NEOs when approving other NEO compensation because of the CEO's direct knowledge of each executive officer's performance and contributions.

THE ROLE OF PEER COMPANIES AND BENCHMARKING

How The Peer Group is Determined. The Committee selects our peer group companies based on such factors as business focus, competition for executive talent, geographic proximity of corporate locations, size of business, and publicly available compensation data. The size of the group has been

established so as to provide sufficient market data across the range of senior positions at Express. The Committee annually evaluates whether companies should be added or removed from our peer group companies. No changes were made to the Company's peer group in 2015.

Our peer group is comprised of the following retail companies:

Abercrombie & Fitch
Aeropostale
American Eagle Outfitters
Ann Inc.
Ascena Retail Group
Buckle

Chico's FAS
Children's Place Retail Stores
DSW
The Finish Line
Genesco
Guess?

Kate Spade
Men's Wearhouse
New York & Company
Stage Stores
Urban Outfitters

The following chart compares the Company's revenue and market capitalization to the median revenue and market capitalization for its peer group.

In Billions	Express	Peer Group Median
Annual Revenue*	\$2.4	\$2.5
Market Capitalization*	\$1.4	\$1.5

* Revenue based on publicly available information for the trailing four quarters as of April 11, 2016. Market capitalization is as of January 29, 2016 (the last trading day of the Company's 2015 fiscal year). Revenue and market capitalization for Ascena Retail Group and Ann Inc. are as of July 31, 2015 prior to Ascena Retail Group's acquisition of Ann Inc. in August 2015.

How The Peer Group is Used. The Committee reviews both compensation and performance at peer companies to support its decision-making process so it can set total compensation levels that it believes are consistent with our compensation objectives to pay for performance and pay competitively. The Committee does not strictly set compensation at a given

level relative to its peers (e.g., median). The pay positioning of individual executives varies based on their competencies, skills, experience, and performance, as well as internal alignment and pay relationships. Actual total compensation earned may be more or less than target based on Company performance results during the performance period.

STOCKHOLDER FEEDBACK

The Board and its Committees regularly discuss and consider feedback from our stockholders. See "—Executive Compensation Objectives and Practices—Outcome of 2015 Say-On-Pay Vote and Stockholder Engagement" on page 25 for more information.

THE ROLE OF THE COMMITTEE'S COMPENSATION CONSULTANT

The Committee engages an independent executive compensation consultant to advise the Committee about our executive compensation program and practices. The Committee selected F.W. Cook as its independent consultant for 2015.

The Committee has determined that the work of F.W. Cook did not raise any conflicts of interest in 2015. In making this assessment, the Committee considered the independence

factors enumerated in Rule 10C-1(b) under the Exchange Act, including the fact that F.W. Cook does not provide any other services to the Company, the level of fees received from the Company as a percentage of F.W. Cook's total revenue, policies and procedures employed by F.W. Cook to prevent conflicts of interest, and whether the individual F.W. Cook advisers to the Committee own any of the Company's stock or have any business or personal relationships with members of the Committee or our executive officers.

ANALYSIS OF RISK IN OUR COMPENSATION PROGRAM

The Committee evaluates the risks of our compensation program as part of its responsibilities. The compensation program is intended to discourage excessive risk taking by executives and employees to obtain short-term benefits that may be harmful to the Company and our stockholders in the long-term. We believe that the following elements of our compensation program discourage excessive risk taking:

- **Short-Term/Long-Term Incentive Mix.** The mix between short-term cash incentives and long-term equity-based incentives discourages executives and employees from maximizing short-term performance at the expense of long-term performance.
- **Long-Term Incentive Mix.** We grant a mixture of long-term equity incentives, comprised in 2015 of (i) stock options, (ii) time-based restricted stock units, and (iii) performance-based restricted stock units, because stock options and performance-based restricted stock units alone may lead to increased risk taking and time-based restricted stock awards alone may discourage employees from taking appropriate risks. Our equity incentives have multi-year vesting requirements. Furthermore, in 2015, grants of performance-based restricted stock units were subject to performance-based vesting conditions measured over

a three-year period commencing on the first day of the Company's 2015 fiscal year and ending on the last day of the Company's 2017 fiscal year. Our long-term incentive awards are designed to incentivize the creation of long-term stockholder value and to encourage retention.

- **Short-Term and Long-Term Incentive Program Design.** In order to discourage excessive risk taking, both short-term incentive compensation awards and long-term performance-based restricted stock awards allow for a graduated payout instead of a win or lose payout structure. Each program has a minimum performance threshold below which no payout is earned and a maximum above which no additional payout is earned. In addition, a prorated payout may be earned based on the achievement between threshold and target or achievement between target and maximum.
- **Multiple Performance Measures.** Our short-term cash-incentive program has a performance target based on operating income and our performance-based restricted stock awards have performance targets based on adjusted earnings per share. The varied performance measures are designed to discourage participants from focusing on the achievement of one performance measure at the expense of another.

- *Stock Ownership Guidelines.* We use meaningful stock ownership guidelines to align our directors' and executive officers' interests with our stockholders' interests and focus our executives on attaining long-term stockholder returns.
- *Clawback and Anti-Hedging Policies.* Our clawback policy allows us to adjust and recover any incentive compensation paid in the event of a material restatement of the Company's financial results, which discourages inappropriate risk-taking behavior. Our anti-hedging policies further align our executives' and employees' interests with those of our stockholders.

WHAT WE PAY AND WHY: ELEMENTS OF COMPENSATION

As discussed throughout this CD&A, the compensation policies applicable to our NEOs are reflective of our objective to pay for performance, whereby a significant portion of both cash and equity-based compensation is contingent upon the achievement of measurable financial objectives and enhanced equity value, as opposed to base salary and perquisites not directly linked to objective financial performance. This compensation mix is intended to drive executive officers to enhance stockholder value over the long term.

The elements of our compensation program are:

- base salary;
- performance-based cash incentives;
- equity-based incentives; and
- certain additional executive benefits.

Base salary, performance-based cash incentives, and long-term equity-based incentives are the most significant elements of our executive compensation program and, on an aggregate basis, are intended to substantially satisfy our program's overall objectives.

The Committee strives to achieve an appropriate mix between the various elements of our compensation program to meet our compensation objectives; however, it does not apply any rigid allocation formula in setting our executive compensation, and the Committee may make adjustments to this approach for various positions on a case-by-case basis as appropriate.

In addition, we believe that retirement plan benefits and termination benefits are important components in a well-structured executive officer compensation package, and we seek to ensure that the overall compensation package is competitive at the time the package is negotiated with the executive officer.

BASE SALARY

We provide a base salary to our executive officers to compensate them for their services during the year and to provide them with a stable source of income. NEO base salaries reflect the Company's compensation objectives, with each salary determined by an annual assessment of a number

of factors, including the individual's current base salary, job responsibilities, peer group and other publicly available compensation data, and individual performance.

The annual base salaries in effect for each of our NEOs as of January 30, 2016 are shown in the following table:

Name	2014 Fiscal Year End	Changes to Base Salary During 2015	2015 Fiscal Year End
David Kornberg	\$900,000	No change in 2015.	\$900,000

John J. ("Jack") Rafferty	\$555,000	In April 2015, Mr. Rafferty received a merit and market-based salary increase from \$555,000 to \$569,000.	\$569,000
Jeanne St. Pierre	\$565,000	In April 2015, Ms. St. Pierre received a merit and market-based salary increase from \$565,000 to \$579,000.	\$579,000
Periclis ("Perry") Pericleous	\$275,250	In April 2015, Mr. Pericleous received a merit and market-based salary increase from \$275,250 to \$286,300. Effective July 6, 2015 Mr. Pericleous was promoted from Vice President of Finance to Senior Vice President, Chief Financial Officer and Treasurer and his base salary was increased from \$286,300 to \$420,000 in connection with his promotion.	\$420,000

Consistent with the executive compensation decision making process described in "—How We Determine Executive Compensation" beginning on page 28, in March 2016, the Committee approved annual base salary increases for Mr. Kornberg (from \$900,000 to \$1,000,000), Mr. Moellering (from \$769,000 to \$793,000), Mr. Rafferty (from \$569,000 to \$582,000), Ms. St. Pierre (from \$579,000 to \$595,000), and Mr. Pericleous (from \$420,000 to \$445,000).

PERFORMANCE-BASED INCENTIVES

Short-Term Incentives

Our short-term performance-based cash incentive program provides our NEOs with incentive payment opportunities for each six-month operating season. These incentive payment opportunities are based on the attainment of pre-established objective financial goals and are intended to motivate executives to work effectively to achieve financial performance objectives and reward them when objectives

are met. Using short-term incentives tied to the traditional retail selling seasons of Spring (February through July) and Fall (August through January) allows us to establish appropriately challenging performance targets that align business performance expectations with the seasonal nature of our business and prevailing market and economic conditions.

2015 Short-Term Incentive Cash Compensation

The financial performance goals under the short-term cash incentive program for 2015 were based on operating income, subject to adjustments for certain extraordinary items. Operating income is used because it is a performance measure over which executives can have significant impact, and is also directly linked to the Company's long-range growth plan which drives stockholder value. There were no adjustments made for non-core operating items in 2015 for purposes of determining whether the performance targets had been achieved.

The Committee sets the performance goals at the beginning of each six-month season based on an analysis of (i) historical performance, (ii) internal financial plans, and (iii) general economic conditions.

The performance goals are set at the same targets for all leadership in the business. We believe it is important to have all members of leadership working toward the same goals and that those goals are clear, understandable, and within their control.

The target cash incentive compensation opportunity for each eligible executive is set at a percentage of base salary. For 2015, the amount of performance-based cash incentive opportunity for participating executives ranged from zero to double their incentive target, based upon the extent to which the performance goals were achieved or exceeded. The threshold, target, and maximum short-term performance-based cash incentive payout opportunities for our NEOs for 2015 are set forth in the "Grants of Plan-Based Awards" table on page 40.

The short-term incentive cash compensation target as a percentage of base salary in effect for each of our NEOs for 2015 is shown below:

Annual Short-Term Incentive Payout Opportunity at Target (as a % of Base Salary)

David Kornberg	120%
Matthew Moellering	85%
John J. ("Jack") Rafferty	65%
Jeanne St. Pierre	65%

The following tables show (1) each NEO's performance-based cash incentive targets and actual payout as a percentage of base salary, and (2) the operating income goals used to determine the cash incentive payment for 2015.

2016 Short-Term Incentive Cash Compensation

In 2016, we expect to continue with our short-term incentive cash compensation program using operating income as the performance metric. The minimum, threshold, target, and maximum payouts as a percentage of base salary are planned to stay the same in 2016, except for Mr. Kornberg, whose target was increased by the Committee in March 2016 from 120% to 130%, and for Mr. Pericleous, whose target was increased by the Committee in March 2016 from 50% to 60%.

Long-Term Incentives

Our long-term equity incentive awards are generally intended to accomplish the following main objectives: (1) create a direct correlation between the Company's financial performance and stock price and compensation paid to our NEOs; (2) retention of our NEOs; (3) assist in building equity ownership of our NEOs to increase alignment with long-term stockholder interests; (4) attract and motivate key employees; (5) reward participants for performance in relation to the creation of stockholder value; and (6) deliver competitive levels of compensation consistent with our compensation objectives. Equity-based awards for our NEOs are determined on a position-by-position basis using survey data for corresponding positions in our peer group, the individual's job responsibilities, and individual performance.

We do not believe that disclosure of our 2016 performance goals is relevant to an understanding of compensation for 2015. Our 2016 short-term performance goals are intended to be realistic and reasonable, but challenging, in order to drive performance on an individual basis.

Executives are generally granted equity-based awards as part of our annual merit review process consistent with the executive compensation decision making process described in "—How We Determine Executive Compensation" beginning on page 28. During this process, the Committee determines the appropriate overall value and mixture of each equity-based grant for the NEOs based on the objectives and factors set forth in "—Pay for Performance—Long-Term Incentives and Performance" on page 26.

For 2015, the Committee and Board determined that our NEOs would receive a mix of long-term incentives comprised of approximately 50% performance-based restricted stock units with performance and time-based vesting criteria, 35% restricted stock units with time-based vesting, and 15% stock options with time-based vesting, based on total grant date fair value. The grants are shown in the following tables.

2015 Stock Options

In 2015, the Company granted our NEOs the following non-qualified stock options:

Name	Number of Non-Qualified Stock Options Granted
David Kornberg	77,022
Matthew Moellering	19,255
John J. ("Jack") Rafferty	10,109
Jeanne St. Pierre	10,109
Periclis ("Perry") Pericleous	8,527

One-fourth of the stock options are scheduled to vest on each of April 15, 2016, 2017, 2018, and 2019, subject to continued employment with the Company, except that one-fourth of the 8,527 stock options granted to Mr. Pericleous in July 2015 in connection with his promotion from Vice President of Finance to Senior Vice President, Chief Financial Officer, and Treasurer are scheduled to vest on each of July 15, 2016, 2017, 2018, and 2019, subject to continued employment with the Company.

The exercise price for stock options is set at the most recent closing trading price prior to the grant date. Options vest over multiple years and are exercisable for ten years after grant, which furthers stockholder alignment by encouraging a focus on long-term growth and stock performance.

2015 Time-Based Restricted Stock Units

In 2015, the Company granted our NEOs the following time-based restricted stock units:

Name	Number of Time-Based Restricted Stock Units
David Kornberg	85,995
Matthew Moellering	21,498
John J. ("Jack") Rafferty	11,287
Jeanne St. Pierre	11,287
Periclis ("Perry") Pericleous	15,245

One-fourth of the restricted stock units are scheduled to vest on each of April 15, 2016, 2017, 2018, and 2019, subject to continued employment with the Company, except that 9,103 restricted stock units granted to Mr. Pericleous in July 2015 in connection with his promotion from Vice President

of Finance to Senior Vice President, Chief Financial Officer, and Treasurer are scheduled to vest on each of July 15, 2016, 2017, 2018, and 2019, subject to continued employment with the Company.

2015 Performance-Based Restricted Stock Units

The following chart identifies the performance metric, performance levels, the performance levels as a percentage of the target goal, and corresponding payouts as a percentage of the target performance-based restricted stock unit grant for the Company's performance-based restricted stock unit awards for 2015.

Performance Metric:	Performance Level	Company Performance (as a % of target)	% of Performance Shares Earned
2015-2017 Adjusted Earnings Per Diluted Share	Below Threshold	Less than 75%	0% of target grant
	Threshold	75%	75% of target grant
	Target	100%	100% of target grant
	Maximum	125% or higher	125% of target grant

The following table shows the range of possible payouts for the performance-based restricted stock units granted to each NEO, in 2015. Mr. Pericleous was not granted any performance-based restricted stock units in 2015.

Name	Number of Shares Underlying Performance-Based Restricted Stock Units that are Eligible to Vest			
	Minimum	Threshold	Target	Maximum
David Kornberg	—	92,138	122,850	153,563
Matthew Moellering	—	27,181	36,241	45,301
John J. ("Jack") Rafferty	—	14,270	19,026	23,783
Jeanne St. Pierre	—	14,270	19,026	23,783
Periclis ("Perry") Pericleous	—	—	—	—

The number of performance-based restricted stock units that vest will be determined based on the Company's adjusted earnings per diluted share for the three-year period commencing on the first day of the Company's 2015 fiscal year and ending on the last day of the Company's 2017 fiscal year, compared to the performance goals established by the Committee. The number of performance-based restricted stock units that vest are interpolated between the threshold and target or target and maximum performance goals if the actual result is an amount between such goals.

Adjusted earnings per diluted share for the first year of the three-year performance period was \$1.45. If the actual adjusted earnings per diluted share for the first year of the three-year period were attained in the second and third year, payout would be above target.

All of the performance-based restricted stock units that are earned based on achievement of the performance goals are scheduled to vest on April 15, 2018 subject to continued employment with the Company.

For grant and vesting purposes, "adjusted earnings per diluted share" means the Company's earnings per diluted share calculated in accordance with GAAP, adjusted to exclude the impact of any non-core operating costs consistent with past practice for debt extinguishment and one-time transaction costs. Refer to Appendix A to this proxy statement for more information on adjusted earnings per diluted share, a non-GAAP measure, and a reconciliation of adjusted earnings per diluted share information for 2015 to reported earnings per diluted share, the most directly comparable GAAP measure.

2014 Performance-Based Restricted Stock Units Goals and Results

In March 2014, our NEOs, except for Mr. Pericleous, were granted performance-based restricted stock units that were subject to performance goals based on the Company's adjusted earnings per diluted share measured over the two-year period commencing on the first day of the Company's 2014 fiscal year and ending on the last day of the Company's 2015 fiscal year.

The number of performance-based restricted stock units that vest are interpolated between the threshold and target or target and maximum performance goals if the actual result is an amount between such goals. One-half of the performance-based restricted stock units that were earned based on achievement of the performance goals are scheduled to vest on each of April 15, 2016 and 2017, subject to continued employment with the Company.

For grant and vesting purposes, "adjusted earnings per diluted share" means the Company's earnings per diluted share calculated in accordance with GAAP, adjusted to exclude the impact of any non-core operating costs consistent with past practice for debt extinguishment and one-time transaction costs. Refer to Appendix A to this proxy statement for more information on adjusted earnings per diluted share, a non-GAAP measure, and a reconciliation of adjusted earnings per diluted share information included in this proxy statement, to reported earnings per diluted share, the most directly comparable GAAP measure.

The following table shows the range of possible payouts for the performance-based restricted stock units granted to each NEO in 2014 and the actual amount earned based upon achievement of the performance goals.

Name	Number of Shares Underlying Performance-Based Restricted Stock Units that are Eligible to Vest				
	Minimum	Threshold	Target	Maximum	Actual
David Kornberg	—	30,876	41,168	51,460	31,576
Matthew Moellering	—	27,629	36,839	46,048	28,255
John J. ("Jack") Rafferty	—	14,367	19,157	23,946	14,693
Jeanne St. Pierre	—	14,367	19,157	23,946	14,693
Periclis ("Perry") Pericleous	—	—	—	—	—
Performance Metric: 2014-2015 Adjusted Earnings Per Diluted Share	Less than \$2.21	\$2.21	\$2.95	\$3.69	2.26

2016 Long-Term Equity Incentive Compensation

In March 2016, our NEOs were granted the equity awards shown in the table below:

Name	Non-Qualified Stock Options	Time-Based Restricted Stock Units	Performance-Based Restricted Stock Units			
			Minimum	Threshold	Target	Maximum
David Kornberg	78,947	82,781	—	59,130	118,259	236,518
Matthew Moellering	20,526	21,523	—	15,374	30,747	61,494
John J. ("Jack") Rafferty	11,053	11,589	—	8,278	16,556	33,112
Jeanne St. Pierre	11,053	11,589	—	8,278	16,556	33,112
Periclis ("Perry") Pericleous	8,684	9,106	—	6,505	13,009	26,018

One-fourth of the stock options and one-fourth of the time-based restricted stock units are scheduled to vest on each of April 15, 2017, 2018, 2019, and 2020, subject to continued employment with the Company.

The number of performance-based restricted stock units that vest will be determined based on the Company's adjusted earnings per diluted share for the three-year period commencing on the first day of the Company's 2016 fiscal year and ending on the last day of the Company's 2018 fiscal year, compared to the performance goals established by the Committee. The performance-based restricted stock units that are earned based on achievement of the performance goals are scheduled to vest on April 15, 2019, subject to

continued employment with the Company. The range of possible payouts for the performance-based restricted stock units are set forth in the table above. The number of performance-based restricted stock units that vest will be determined using straight line interpolation if adjusted earnings per diluted share over the performance period is an amount between performance goals.

We do not believe that disclosure of our three-year adjusted earnings per share goals are relevant to an understanding of compensation for 2015. Our long-term performance goals for the 2016-2018 period are intended to be realistic and reasonable, but challenging, in order to drive performance on an individual basis.

ADDITIONAL EXECUTIVE BENEFITS

We provide our executive officers with executive benefits that the Committee believes are reasonable and in the best interests of the Company and its stockholders. Consistent with our compensation objectives, we provide benefits for our executive officers, including retirement plans, life insurance benefits, housing relocation benefits, and paid time off. The Committee, in its discretion, may revise, amend, or add to

an officer's executive benefits if it deems it advisable. We believe these benefits are generally equivalent to benefits provided by comparable companies. We do not provide any executive with special perquisites.

We have no current plans to materially change the levels of benefits we provide.

Retirement Plan Benefits

We do not sponsor a defined benefit retirement plan as we do not believe that such a plan best serves the needs of our employees or the Company at this time. We sponsor a tax-qualified defined contribution retirement plan and a non-qualified defined contribution retirement plan. Participation in the qualified plan is available to employees who meet

certain age and service requirements. Participation in the non-qualified plan is made available to employees who meet certain age, service, and job level requirements. Our executive officers participate in these plans based on these requirements.

Qualified Retirement Plan

The qualified plan is available to all eligible employees, including executive officers, and allows them to elect to make contributions up to the maximum limits allowable under Section 401(k) of the Internal Revenue Code (the "Code"). We match 100% of employee deferrals, limited to deferrals of up

to 4% of compensation not in excess of the IRS Qualified Plan Maximum Compensation Limit. Employees' contributions and Company matching contributions vest immediately. Please refer to footnote 6 to the Summary Compensation Table on page 38 for details of Company contributions.

Non-qualified Deferred Compensation Plan

The non-qualified deferred compensation plan is available to all director-level and above employees and is an unfunded plan which provides benefits beyond the Code limits for qualified defined contribution plans. The plan permits participating employees to elect contributions up to a maximum of 3% of compensation in excess of the IRS Qualified Plan Maximum Compensation Limit. We match 200% of employees' contributions. The plan also permits employees to defer additional compensation of up to 75% of base salary and up to 75% of short-term incentive cash compensation of which we do not match. Employees' accounts are credited with interest using a rate determined annually based on factors or indices, including the borrowing rates available to the Company. The

interest rate for the 2015 plan year was 5.2%. Employees' contributions and the related interest vest immediately. Company contributions and the related interest are subject to a vesting schedule where employees begin vesting after two years of service and are fully vested after six years of service. Employees generally may elect in-service distributions for the unmatched deferred compensation component only. The remaining vested portion of employees' accounts in the plan will be distributed upon termination of employment in either a lump sum or in equal annual installments over a specified period of up to ten years as elected by the participant. Please refer to footnote 6 to the Summary Compensation Table on page 38 for details of Company contributions.

Health and Welfare Benefits

Executive Life Insurance

We provide all executive officers with executive life insurance that offers a benefit equal to two times their annual base salary up to a maximum of \$2 million.

Executive Disability Insurance

We provide all executive officers with disability coverage that provides a benefit of 100% base salary continuation for up to 365 days and then 60% of the executive's base salary plus the annual average of the last three years of incentive cash compensation, up to a maximum benefit of \$25,000 per month.

OTHER CORPORATE GOVERNANCE CONSIDERATIONS IN COMPENSATION

COMPENSATION CLAWBACK POLICY

The Committee has approved a policy concerning the recovery of incentive compensation. This policy applies to performance-based awards paid to our NEOs as well as other key executives.

Under the policy, in the event of a material restatement of the Company's financial results, the Committee will review the circumstances that caused the restatement and consider accountability to determine whether a covered employee was negligent or engaged in misconduct. If so, and if the amount of a cash incentive award paid or to be paid, or the shares vested or to be vested of a performance-based long-term incentive award would have been less had the financial statements been correct, the Committee will recover compensation from the covered employee as it deems appropriate. This policy is in addition to any requirements which might be imposed pursuant to Section 304 under the Sarbanes-Oxley Act of 2002, and will be modified to the extent required by the Dodd-Frank Act of 2010.

STOCK OWNERSHIP GUIDELINES

We have stock ownership requirements for our executives to further build commonality of interest between management and stockholders and to encourage executives to think and act like owners. Our current stock ownership guidelines are as follows:

Chief Executive Officer	Lesser of 5x annual base salary or 200,000 shares
Chief Operating Officer	Lesser of 3x annual base salary or 75,000 shares
Other Executive Officers	Lesser of 2x annual base salary or 40,000 shares
Senior Vice Presidents	Lesser of 1x annual base salary or 16,000 shares
Board Members	5x annual retainer

The executive officers and Board members have five years to meet the guidelines. To avoid fluctuating ownership requirements, except upon a promotion, once an individual has achieved the ownership guidelines, they will be considered to have satisfied the requirements as long as the shares used to meet the underlying requirements are retained. The Committee annually reviews individual executive and director stock ownership levels. During the Committee's most recent review of ownership levels, it was confirmed that all NEOs currently meet or are on track to meet the applicable ownership guideline.

EMPLOYMENT AND SEVERANCE AGREEMENTS

Prior to our initial public offering ("IPO"), we entered into employment agreements with Messrs. Kornberg, Moellering, and Rafferty, and with Ms. St. Pierre. We entered into amended and restated employment agreements with Messrs. Kornberg, Moellering, and Rafferty, and with Ms. St. Pierre in 2013, and we entered into a second amended and restated employment agreement with Mr. Kornberg in connection with his promotion from President to President and CEO, effective January 30, 2015. We are also party to a severance agreement with Mr. Pericleous. Please refer to the "Employment Related Agreements" section beginning on page 44 for more detail.

SEVERANCE AND POST-EMPLOYMENT BENEFITS

Please refer to "—Potential Payments Upon Termination and Change-in-Control" beginning on page 46 for information regarding severance and post-employment benefits and to "—Employment Related Agreements" beginning on page 44 for more detail.

POLICY REGARDING TIMING OF STOCK-BASED AWARDS

The Committee recognizes the importance of adhering to specific practices and procedures in the granting of equity awards and has adopted a specific policy around this process.

The Committee generally grants equity awards to executive officers annually during the first quarter in a given fiscal year at the Board's first regularly scheduled in-person meeting for the year. For directors, the Committee generally grants equity awards annually on the date of the Company's annual meeting of stockholders. To the extent that equity awards are granted at other times throughout the year, such grants are generally made on the 15th calendar day of a month.

TRADING CONTROLS

Executive officers, including our NEOs, are required to receive pre-approval from the Company's General Counsel prior to entering into any transactions in Company securities. Generally, trading is permitted only during specified trading periods.

From time to time, certain of our executive officers may adopt non-discretionary, written trading plans that comply with Rule 10b5-1(c) under the Exchange Act ("10b5-1 plans"). 10b5-1 plans permit our executive officers to monetize their equity-based compensation in an automatic and non-discretionary manner over time and are generally adopted for financial planning purposes.

Our Insider Trading Policy requires that our General Counsel pre-approve any new 10b5-1 plan, or any modification or termination of such a plan, and provides that executive officers may enter into or modify a 10b5-1 plan only during an open trading window and while not in possession of material non-public information. Moreover, any 10b5-1 plan must include a waiting period between establishment or modification of the plan and any transaction pursuant to the plan. In addition, our executive officers are generally prohibited from entering into overlapping 10b5-1 plans, engaging in transactions in Company stock outside of any 10b5-1 plan then in effect, and amending or terminating plans absent unforeseen events such as a change in personal financial circumstances.

ACCOUNTING AND TAX CONSIDERATIONS

In determining which elements of compensation are to be paid, and how they are weighted, we also take into account whether a particular form of compensation will be deductible under Code Section 162(m) ("162(m)"). 162(m) generally limits the deductibility of compensation paid to our NEOs to \$1 million during any fiscal year unless such compensation is "performance-based" under 162(m).

Rights or awards granted under the plan, other than stock options, will not qualify as "performance-based compensation" for purposes of 162(m) unless such rights or awards are earned based on pre-established objective performance goals, the material terms of which are disclosed to and approved by our stockholders. In 2012 our stockholders approved the performance goals and annual grant limitations under the 2010 Plan.

We consider the impact of 162(m) when developing and implementing our executive compensation program. Cash incentive awards and performance-based equity awards, including stock options, generally are designed to meet the deductibility requirements. We believe that it is important to preserve flexibility in administering compensation programs in a manner designed to promote varying corporate goals. Accordingly, we have not adopted a policy that all compensation must qualify as deductible under 162(m). Amounts paid under any of our compensation programs, including salaries, cash incentive awards, performance stock awards, and other equity awards, may not qualify as performance-based compensation that is excluded from the limitation on deductibility.

Many other Code provisions, SEC regulations, and accounting rules affect the payment of executive compensation and are generally taken into consideration as programs are developed. Our goal is to create and maintain plans that are efficient, effective, and maintain flexibility in order to accomplish executive compensation program objectives.

Compensation and Governance Committee Report

The Committee has reviewed and discussed the Compensation Discussion and Analysis set forth above with management. Based on this review and discussion, the Committee recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement and incorporated into the Company's Annual Report on Form 10-K for the year ended January 30, 2016.

(1) For 2015, includes (i) a special bonus paid to Mr. Rafferty for his contributions in connection with the implementation of new systems, and (ii) a special retention bonus awarded to Mr. Pericleous in 2013 and paid out in 2015. For 2013, includes a special retention bonus awarded to Mr. Kornberg in 2011 and paid out in 2013.

(2) Reflects the aggregate grant date fair value of awards granted in the applicable year. For 2015, the amounts reflect the aggregate grant date fair value of time-based restricted stock units and, except for Mr. Pericleous, performance-based restricted stock units at target. The number of performance-based restricted stock units that vest will be determined based on the Company's adjusted earnings per diluted share for the three-year period commencing on the first day of the Company's 2015 fiscal year and ending on the last day of the Company's 2017 fiscal year, compared to the performance goals established by the Committee. The maximum grant date fair value related to the performance-based restricted stock units was as follows: David Kornberg—\$2,500,005; Matthew Moellering—\$737,500; John J. ("Jack") Rafferty—\$387,187; Jeanne L. St. Pierre—\$387,187; D. Paul Dascoli—\$331,867. See "—Compensation Discussion and Analysis—What We Pay and Why: Elements of Compensation—Performance-Based Incentives—Long-Term Incentives—2015 Performance-Based Restricted Stock Units" on page 33 for more detailed information regarding performance-based restricted stock units granted to our NEOs in 2015. For 2014, the amounts reflect the aggregate grant date fair value of time-based restricted stock units and performance-based restricted stock units at target even though the performance-based restricted stock units were earned at 76.7% of

target. The number of performance-based restricted stock units that were earned were determined based on the Company's adjusted earnings per diluted share for the two-year period commencing on the first day of the Company's 2014 fiscal year and ending on the last day of the Company's 2015 fiscal year, compared to the performance goals established by the Committee. See "—Compensation Discussion and Analysis—What We Pay and Why: Elements of Compensation—Performance-Based Incentives—Long-Term Incentives—2014 Performance-Based Restricted Stock Units Goals and Results" on page 34 for more detailed information regarding performance-based restricted stock units granted to our NEOs in 2014. For 2013, the amounts reflect the aggregate grant date fair value of performance-based restricted stock units at target, even though the performance-based restricted stock units were earned at 83.5% of target. These values have been determined based on the assumptions and methodologies set forth in Note 10 of the Company's financial statements included in its Annual Report for the year ended January 30, 2016.

- (3) These values have been determined based on the assumptions and methodologies set forth in Note 10 of the Company's financial statements included in its Annual Report for the year ended January 30, 2016.
- (4) For 2015, because maximum performance goals were met, our NEOs earned payouts at the 200% level under the short-term performance-based cash incentive program. For 2014 and 2013, because threshold performance goals were not met in either year, no payouts were made under the short-term performance-based cash incentive program in either of 2014 or 2013. See "—Compensation Discussion and Analysis—What We Pay and Why: Elements of Compensation—Performance-Based Incentives—Short-Term Incentives" on page 31 for more information about our short-term incentive compensation program.
- (5) We do not sponsor any tax-qualified or non-qualified defined benefit retirement plans. For 2015, the amounts shown represent the amount by which earnings of 5.2% on each NEO's non-qualified deferred compensation account balance exceeded 120% of the applicable federal long-term rate.
- (6) The following table details All Other Compensation paid to each NEO during 2015:

Employment Related Agreements

DAVID KORNBERG

Prior to our IPO, as part of our executive retention strategy, we entered into an employment agreement with Mr. Kornberg. In connection with Mr. Kornberg's promotion from President to President and CEO, we entered into a second amended and restated employment agreement with Mr. Kornberg, effective January 30, 2015. The amended and restated employment agreement may be terminated at any time by us or Mr. Kornberg.

The amended and restated employment agreement provides for an annual base salary that is subject to annual review for potential increase, as well as short-term, performance-based cash incentive payment opportunities for each six-month operating season based on a percentage of Mr. Kornberg's base salary. See, "Compensation Discussion and Analysis—What We Pay and Why: Elements of Compensation—Performance-Based Incentives—Short-Term Incentives" on page 31.

In addition, the amended and restated employment agreement provides that Mr. Kornberg is eligible for equity-based compensation awards that are commensurate with his performance and position. Mr. Kornberg is also entitled to participate in all employee benefit plans that we maintain and make available to our senior executives and is entitled to paid time off in accordance with our policies as in effect from time to time.

The amended and restated employment agreement includes customary restrictions with respect to the use of our confidential information and provides that all intellectual property developed or conceived by Mr. Kornberg while he is employed by us that relates to our business is Company property. During Mr. Kornberg's term of employment with us and during the 12-month period immediately thereafter, Mr. Kornberg has agreed not to (1) solicit any of our employees, (2) interfere with or harm any of our business relationships, or (3) participate (whether as an officer, director, employee, or otherwise) in any competitive business.

If Mr. Kornberg's employment with the Company is terminated by the Company other than for cause, or by Mr. Kornberg for good reason, and Mr. Kornberg signs a general release, then Mr. Kornberg will be entitled to receive

(1) his base salary and medical and dental benefits for 18 months following separation from the Company; (2) any unpaid bonus for any performance period ending prior to his separation from the Company, plus a pro rata amount of any actual bonus amount he would have been entitled to for the performance period in which a separation from the Company occurs had his employment continued, plus an amount equal to 1.5 times the target bonus he would have been entitled to had his employment continued for one year beyond his separation from the Company; and (3) accelerated vesting of any cash or equity awards that would have otherwise vested in the 18 months following separation from the Company.

In the event that Mr. Kornberg's employment with the Company is terminated by the Company other than for cause, or by Mr. Kornberg for good reason, and the termination occurs in connection with a change-in-control of the Company (as defined in the 2010 Plan), and Mr. Kornberg signs a general release, then Mr. Kornberg will be entitled to (1) a one-time payment equal to two times his annual base salary, plus any unpaid bonus for any performance period terminating prior to separation from the Company, plus a pro rata amount of any actual bonus amount he would have been entitled to for the performance period in which a separation from the Company occurs had his employment continued, plus an amount equal to 2 times the target bonus he would have been entitled to had his employment continued for one year beyond his separation from the Company; (2) medical and dental benefits for 18 months following separation from the Company; and (3) automatic vesting of any unvested outstanding equity awards (at target with respect to performance-based stock awards).

"Good reason" under the employment agreement includes (1) an adverse change in responsibilities, pay, or reporting relationship, (2) relocation more than 60 miles from Mr. Kornberg's principal residence, (3) failure by the Company to abide by the agreement, or (4) failure by any successor to assume the agreement. "Cause" under the employment agreement generally includes (1) failure by the executive to perform his or her material duties, (2) conviction of a felony, or (3) misconduct in bad faith which could reasonably be expected to result in material harm to the Company.

OTHER EMPLOYMENT AGREEMENTS ENTERED INTO PRIOR TO THE IPO

Prior to our IPO, as part of our executive retention strategy, we entered into employment agreements with Mr. Moellering, Mr. Rafferty, and Ms. St. Pierre. The employment agreements may be terminated at any time in the case of the applicable executive's resignation, death or disability, or termination by us or the executive.

Each such employment agreement provides for an annual base salary that is subject to annual review for potential increase, as well as short-term, performance-based cash incentive payment opportunities for each six-month operating season based on a percentage of the applicable executive's base salary. See "—Compensation Discussion and Analysis—

What We Pay and Why: Elements of Compensation—Performance-Based Incentives—Short-Term Incentives” on page 31.

In addition, each such employment agreement provides that the applicable executive is eligible for equity-based compensation awards that are commensurate with the executive’s performance and position. Each such executive is also entitled to participate in all employee benefit plans that we maintain and make available to our senior executives and is entitled to paid time off in accordance with our policies as in effect from time to time.

The employment agreements include customary restrictions with respect to the use of our confidential information and provide that all intellectual property developed or conceived by the executive while the executive is employed by us that relates to our business is Company property. During the executive’s term of employment with us and during the 12-month period immediately thereafter, each executive has agreed not to (1) solicit any of our employees, (2) interfere with or harm any of our business relationships, or (3) participate (whether as an officer, director, employee, or otherwise) in any competitive business.

In April 2013, as part of the Committee’s annual review of executive compensation arrangements, the Committee approved changes to the severance arrangements for Mr. Moellering, Mr. Rafferty, and Ms. St. Pierre in order to make them more competitive and to bring them in-line with the severance arrangements offered by the Company’s peer group.

Under the amended employment agreements, if the executive’s employment with the Company is terminated by the Company other than for cause, or by the executive for

good reason, and the executive signs a general release, then the executive will be entitled to receive his or her base salary and medical and dental benefits for 18 months following separation from the Company. In addition, the executive will also be entitled to receive the amount of cash incentive compensation that the executive would have otherwise received during the 12-month period following separation from the Company.

In the event that the executive’s employment with the Company is terminated by the Company other than for cause, or by the executive for good reason, and the termination occurs in connection with a change-in-control of the Company (as defined in the 2010 Plan), and the executive signs a general release, then the executive will be entitled to (1) a one-time payment equal to (a) two times the executive’s annual base salary, plus (b) 1.5 times the executive’s annual cash incentive compensation at target; (2) medical and dental benefits for 18 months following separation from the Company; and (3) automatic vesting of any unvested outstanding equity awards (at target with respect to performance-based stock awards).

“Good reason” under the employment agreements generally includes (1) an adverse change in responsibilities, pay, or reporting relationship, (2) relocation outside of the U.S., (3) failure by the Company to abide by the agreement, or (4) failure by any successor to assume the agreement.

“Cause” under the employment agreements generally includes (1) failure by the executive to perform his or her material duties, (2) conviction of a felony, or (3) misconduct in bad faith which could reasonably be expected to result in material harm to the Company.

SEVERANCE AGREEMENT

We entered into a severance agreement with Mr. Pericleous in July 2015 in connection with his promotion to Senior Vice President, Chief Financial Officer and Treasurer.

Under the severance agreement, if Mr. Pericleous’ employment with the Company is terminated by the Company other than for cause, or by Mr. Pericleous for good reason, and Mr. Pericleous signs a general release, then he will be entitled to receive his base salary and medical and dental benefits for 18 months following separation from the Company. In addition, Mr. Pericleous will also be entitled to receive the amount of cash incentive compensation that he would have otherwise received during the 12-month period following separation from the Company.

In the event that Mr. Pericleous’ employment with the Company is terminated by the Company other than for cause, or by Mr. Pericleous for good reason, and the termination occurs in connection with a change-in-control of the Company (as defined in the 2010 Plan), and Mr. Pericleous signs a general release, then Mr. Pericleous will be entitled to

(1) a one-time payment equal to (a) two times Mr. Pericleous’ annual base salary, plus (b) 1.5 times Mr. Pericleous’ annual cash incentive compensation at target; (2) medical and dental benefits for 18 months following separation from the Company; and (3) automatic vesting of any unvested outstanding equity awards (at target with respect to performance-based stock awards).

“Good reason” under the severance agreement generally includes (1) an adverse change in responsibilities, pay or reporting relationship, (2) relocation outside of the U.S., (3) the failure by the Company to abide by the agreement or, (4) failure by any successor to assume the agreement.

“Cause” under the severance agreement generally includes (1) failure to perform material duties, (2) conviction of a felony, or (3) misconduct in bad faith which could reasonably be expected to result in material harm to the Company.

The severance agreement includes customary restrictions with respect to the use of our confidential information and provides that all intellectual property developed or conceived

by Mr. Pericleous while he is employed by us which relates to our business is Company property. Mr. Pericleous has also agreed not to (1) solicit any of our employees, (2) interfere with or harm any of our business relationships,

or (3) participate (whether as an officer, director, employee, or otherwise) in any competitive business during the term of his employment and during the 12-month period immediately thereafter.

INDEMNIFICATION AGREEMENTS

We are party to indemnification agreements with each of our NEOs and directors. The indemnification agreements provide our NEOs and directors with contractual rights to indemnification, expense advancement, and reimbursement, to the fullest extent permitted under the General Corporation

Law of the State of Delaware. Our Bylaws also provide that we will indemnify our directors and officers to the fullest extent permitted by the General Corporation Law of the State of Delaware.

Potential Payments Upon Termination and Change-in-Control

The information below describes and quantifies certain compensation that would have become payable under employment and severance agreements with our NEOs if their employment with us had been terminated as of January 30, 2016. Due to the number of factors that affect the nature and amount of any benefits provided upon the events discussed below, any actual amounts paid or distributed upon

a termination or change-in-control may be different. Factors that could affect these amounts include the timing during the year of any such event. Further, the information below does not incorporate changes to base salary, cash incentive compensation, bonus opportunities, and equity awards granted after January 30, 2016.

Related Person Transactions

Under our current Related Person Transaction policy, a “Related Person Transaction” is any transaction, arrangement, or relationship between us or any of our subsidiaries and a Related Person where the amount involved exceeds \$120,000 and the Related Person has or will have a direct or indirect material interest. A “Related Person” is any of our executive officers, directors, director nominees, any stockholder beneficially owning in excess of 5% of our stock or securities exchangeable for our stock, any immediate family member of any of the foregoing persons, and any firm, corporation, or other entity in which any of the foregoing persons is an

MGF Sourcing Services Arrangements

During fiscal 2015, an affiliate of Sycamore Partners (“Sycamore”) held a 9.9% ownership interest in the Company. Sycamore also owns a controlling interest in MGF Sourcing (“MGF”), a company that serves as a contract manufacturer and buying agent for many apparel brands, including Express. We do not own or operate any manufacturing facilities and, as a result, contract with many third-party vendors, including MGF, for the production of our merchandise.

We incurred charges from MGF of \$517.5 million in 2015. These charges from MGF primarily consisted of payments in respect of the purchase price of sourced products, with an additional sourcing fee paid to MGF to compensate them for their services which included identifying suitable vendors and coordinating our purchasing requirements with vendors, placing orders for merchandise on our behalf, ensuring the timely delivery of goods to us, obtaining samples of

merchandise produced in factories, inspecting finished merchandise, and carrying out compliance monitoring and administrative communications on our behalf. Our outstanding liability to MGF included in accounts payable for merchandise sourcing as of January 30, 2016 was \$57.8 million. MGF and Express do not have a long-term production contract that obligates either party to continue doing business with the other. Express makes purchasing decisions on a product-by-product basis after evaluating the terms available from vendors. We source products from MGF using purchase orders and pay MGF on terms comparable to our other large unrelated sourcing vendors. Express and MGF have had a longstanding productive business relationship that extends back to when both companies were owned by Limited Brands (now known as L Brands). In 2016, Sycamore sold shares of Express and they ceased to be a Related Person.

Stock Ownership Information

The following table sets forth information regarding beneficial ownership of our common stock, as of April 11, 2016, for (1) each person who is known by us to own beneficially more than 5% of our common stock, (2) each director, director nominee, and named executive officer, and (3) all directors and executive officers as a group.

Beneficial ownership for purposes of the following table is determined in accordance with the rules and regulations of the SEC. These rules generally provide that a person is the beneficial owner of securities if such person has or shares the power to vote or direct the voting thereof, or to dispose or direct the disposition thereof, or has the right to acquire such powers within 60 days. Common stock issuable upon the exercise of options that are currently exercisable or exercisable within 60 days of April 11, 2016 and common stock issuable upon the vesting of restricted stock units within 60 days are deemed to be outstanding and beneficially owned by the person holding the options or restricted stock units, as applicable, for purposes of computing the percentage ownership of that person and any group of

which that person is a member. These shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other person. Percentage of beneficial ownership is based on 78,680,665 shares of common stock outstanding for stockholders other than our executive officers and directors. Percentage of beneficial ownership of our executive officers and directors is based on 78,680,665 shares of common stock outstanding plus options currently exercisable or exercisable within 60 days of April 11, 2016 and restricted stock units scheduled to vest within 60 days of April 11, 2016 held by any executive officer or director included in the group for which percentage ownership has been calculated. Except as disclosed in the footnotes to the following table and subject to applicable community property laws, we believe that each stockholder identified in the following table possesses sole voting and investment power over all shares of common stock shown as beneficially owned by the stockholder. Unless otherwise indicated in the following table or footnotes below, the address for each beneficial owner is c/o Express, Inc., 1 Express Drive, Columbus, Ohio 43230.

Based solely on a review of copies of reports filed by the reporting persons furnished to us, or written representations from reporting persons, we believe that the reporting persons complied with all Section 16(a) filing requirements on a timely basis during 2015.

Audit Committee

Audit Committee Report

The Audit Committee operates under a written charter adopted by the Board. The Audit Committee assists the Board in its oversight of the integrity of the Company's financial statements, the independent auditor's qualifications and independence, and the performance of the Company's internal audit function and independent auditors. The Audit Committee relies on the expertise and knowledge of management, the internal audit function, and the independent auditor in carrying out these oversight responsibilities. Management is responsible for the preparation, presentation, and integrity of the Company's consolidated financial statements, accounting and financial reporting principles, internal control over financial reporting, and disclosure controls and procedures designed to ensure compliance with accounting standards, applicable laws, and regulations. Management is also responsible for objectively reviewing and evaluating the adequacy, effectiveness, and quality of the Company's system of internal control. The Company's independent auditor, PricewaterhouseCoopers LLP, an independent registered public accounting firm, is responsible for performing an independent audit of the consolidated financial statements and expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States. PricewaterhouseCoopers LLP is also responsible for expressing an opinion on the effectiveness of the Company's internal control over financial reporting.

In this context, the Audit Committee hereby reports as follows:

1. The Audit Committee has reviewed and discussed the audited financial statements for fiscal 2015 with management.
2. The Audit Committee has discussed with the independent auditor the matters required to be discussed by the Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended, as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

3. The Audit Committee has received the written disclosures and the letter from the independent auditor required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent auditor's communications with the Audit Committee concerning independence, and has discussed with the independent auditor the independent auditor's independence.
4. Based on the review and discussion referred to in paragraphs (1) through (3) above, the Audit Committee recommended to the Board, and the Board has approved, that the audited financial statements be included in the Annual Report on Form 10-K for the year ended January 30, 2016 for filing with the SEC.

Each member of the Audit Committee meets the independence and financial literacy requirements of the SEC and the NYSE. The Board has determined that Mr. Archbold, Mr. Devine, and Ms. Mangum are audit committee financial experts under SEC rules and have accounting or related financial management expertise.

Independent Registered Public Accounting Firm Fees and Services

The following table sets forth the aggregate fees billed to us by PricewaterhouseCoopers LLP, our independent auditor, in 2015 and 2014:

Services Rendered	Fees	
	2015	2014
Audit Fees ⁽¹⁾	\$ 1,103,261	\$ 1,115,439
Audit-Related Fees ⁽²⁾	\$ 19,000	\$ 16,750
Tax Fees	\$ —	\$ —
All Other Fees ⁽³⁾	\$ 3,801	\$ 3,118
Total	\$ 1,126,062	\$ 1,135,307

- (1) Audit Fees for 2015 and 2014 represent fees for professional services rendered by PricewaterhouseCoopers LLP in connection with the audit of our annual consolidated financial statements.
- (2) Audit-Related Fees for 2015 represent fees for consultation concerning the internal control of financial reporting associated with new system implementations. Audit-Related Fees for 2014 represent fees for consultation concerning the internal control of financial reporting associated with new system implementations and services related to the review of work papers.
- (3) All other fees for 2015 and 2014 represent subscription fees for software to assist management with its financial reporting obligations.

We have a policy that requires the Audit Committee, or the Audit Committee Chair under a limited delegation of authority from the Audit Committee, to pre-approve all audit and non-audit services to be provided by our independent auditor and to consider whether the provision of non-audit services is compatible with maintaining the independence of our independent auditor in deciding whether to approve non-audit services. Any pre-approvals made by the Audit

Committee Chair under the limited delegation of authority are reported to the full Audit Committee at the next regularly scheduled meeting. All services performed by our independent auditor in 2015 and 2014 were pre-approved in accordance with the policy. As a general matter, it is the Audit Committee's preference that any non-audit services be provided by a firm other than our independent auditor absent special circumstances.

Advisory Vote to Approve Executive Compensation (Say-on-Pay) (Proposal No. 2)

We are seeking an advisory (non-binding) vote from our stockholders to approve the compensation of our named executive officers (our “NEOs”) for 2015 as disclosed in this proxy statement. At our 2015 annual meeting of stockholders, our 2014 executive compensation program received the support of approximately 60% of the votes cast, with each of our five largest stockholders voting in favor of our executive compensation program and eight of our ten largest stockholders voting in favor of our executive compensation program. Although we received strong support from our largest stockholders, the level of support we received in 2015 was significantly less than the 95% support we received for our executive compensation program at our 2014 annual meeting, and the 94% support we received at our 2013 annual meeting, even though the overall objectives and design of our executive compensation program remained the same.

In an effort to understand the reduction in support, following our 2015 Annual Meeting, we reached out to 20 of our largest stockholders, representing over a majority of our then outstanding shares, to solicit feedback on our executive compensation program and other corporate governance matters. Our head of investor relations and corporate secretary held discussions with each stockholder who desired to engage with us and gathered valuable feedback that was shared with and discussed by our Board of Directors and the Compensation and Governance Committee.

Stockholders who voted against our say-on-pay proposal in 2015 and provided us with feedback regarding their vote indicated that they voted against our executive compensation program due to our former CEO’s 2014 compensation package and the acceleration of certain equity awards in connection with his retirement at the end of 2014. Notably, these stockholders, along with all other stockholders we spoke to, provided positive feedback with respect to the structure of Mr. Kornberg’s compensation package for 2015 and did not request any changes to it.

Accordingly, we believe that the areas of concern raised by stockholders with respect to our CEO compensation arrangements in 2014 were addressed in 2015 with Mr. Kornberg’s new compensation package. See “Compensation Discussion and Analysis—Executive Compensation Objectives and Practices—Outcome of 2015 Say-On-Pay Vote and Stockholder Engagement” on page 25 for more information.

The core objectives that serve as the foundation for our executive compensation program are:

- *Pay for Performance.* A significant portion of our executives’ compensation is variable and is tied to achievement of financial performance targets and changes in the Company’s stock price.
- *Pay Competitively.* We are committed to providing an executive compensation program that allows us to compete effectively for, obtain, and retain, the executive talent necessary to successfully execute our strategic plans.
- *Pay Responsibly.* Our compensation program is designed to align the interests of our executive officers with our stockholders and to discourage excessive risk taking.

In deciding how to vote on this proposal, we urge our stockholders to read the “Compensation Discussion and Analysis” beginning on page [] of this proxy statement, which describes in more detail our compensation objectives and elements of our executive compensation program, as well as the Summary Compensation Table and other related compensation tables and narrative appearing on pages 38 through 43, which provide additional information on the compensation of our NEOs.

We are asking stockholders to approve, on an advisory basis, the compensation of our NEOs for 2015 as disclosed in the Compensation Discussion and Analysis, the Summary Compensation Table and related compensation tables, and the notes and narrative discussion following the compensation tables in this proxy statement. This vote is not intended to address any specific item of compensation, but rather the overall compensation program for our NEOs as described in this proxy statement.

Although this vote is non-binding, the Board and the Compensation and Governance Committee value the opinions of our stockholders and will consider the outcome of the vote when making future decisions concerning executive compensation. Furthermore, stockholders are welcome to bring any specific concerns regarding executive compensation to the attention of the Board or the Compensation and Governance Committee at any time throughout the year. Please refer to “Corporate Governance—Communications with the Board” on page 16 of this proxy statement for information about communicating with the Board.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THIS PROPOSAL.

*Ratification of PricewaterhouseCoopers LLP
as the Company's Independent Registered
Public Accounting Firm for 2016
(Proposal No. 3)*

The Audit Committee has appointed PricewaterhouseCoopers LLP, an independent registered public accounting firm, to serve as our independent auditor for 2016. PricewaterhouseCoopers LLP served in this capacity for us in 2014 and 2015. As a matter of good corporate governance, the Audit Committee submits its selection of our independent auditor to our stockholders for ratification. If the stockholders fail to ratify the selection, the Audit Committee will review its future selection of an independent registered public accounting firm in light of that result. Even if stockholders ratify the selection, the Audit Committee in its discretion may select a different independent registered public accounting firm at any time during fiscal 2016 if it determines that such a change would be in the best interests of the Company and our stockholders.

Additional information concerning the Audit Committee and services rendered by and fees paid to PricewaterhouseCoopers LLP is presented on pages 53 and 54. Representatives of PricewaterhouseCoopers LLP are expected to be present at the Annual Meeting. They will have the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions.

**THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE RATIFICATION OF PRICEWATERHOUSECOOPERS LLP
AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2016.**

Other Matters

The Board knows of no other matters to be brought before the Annual Meeting. However, if other matters should come before the meeting, each of the persons named as a proxy will vote as recommended by the Board or, if no recommendation is given, in his or her discretion on such matters.

Information About Non-GAAP Financial Measures

Adjusted earnings per diluted share is a supplemental measure of financial performance that is not required by, or presented in accordance with GAAP. Adjusted earnings per diluted share is used as a performance measure under our long-term equity incentive program for purposes of determining the number of performance-based restricted stock units that are ultimately earned. We believe that this non-GAAP measure provides meaningful information to assist stockholders in understanding our financial results and assessing our prospects for future performance. Management believes adjusted earnings per diluted share is an important indicator of our operations because it excludes items that may not be indicative of, or are unrelated to, our core operating results, and provides a better baseline for analyzing trends in our underlying business. Because non-GAAP financial measures are not standardized, it may not be possible to compare our measure of adjusted earnings per diluted share with other companies' non-GAAP financial measures having the same or similar names. Adjusted earnings per diluted share should not be considered in isolation or as a substitute for reported earnings per diluted share. Adjusted earnings per diluted share reflects an additional way of viewing our operations that, when viewed with our GAAP results and the below reconciliations to the corresponding GAAP financial measure, provides a more complete understanding of our business. We strongly encourage investors and stockholders to review our financial statements included in our Annual Report and not to rely on any single financial measure.

The following table presents adjusted net income and adjusted earnings per diluted share for 2014 and 2015. For 2015, adjusted net income and adjusted earnings per diluted share eliminate the non-core operating costs incurred in connection with the redemption of our Senior Notes in the first quarter of 2015.

	2015	2014*
	(in thousands)	
Adjusted Net Income	\$122,429	\$68,325
Adjusted Earnings Per Diluted Share	\$ 1.45	\$ 0.81

* No adjustments were made to net income or earnings per diluted share for 2014.

The table below reconciles the non-GAAP financial measures, adjusted net income and adjusted earnings per diluted share, with the most directly comparable GAAP financial measures, net income and earnings per diluted share. No adjustments were made to net income or earnings per diluted share for 2014, and therefore no tabular reconciliation has been included for 2014.

(in thousands, except per share amounts)	2015		
	Net Income	Earnings Per Diluted Share	Weighted Average Diluted Shares Outstanding
Reported GAAP Measure	\$ 116,513	\$ 1.38	84,591
Interest Expense ^(a) *	\$ 5,916	\$0.07	
Adjusted Non-GAAP Measure	\$122,429	\$ 1.45	

(a) Includes the redemption premium paid, the write-off of unamortized debt issuance costs, and the write-off of the unamortized debt discount related to the redemption of all \$200.9 million of our Senior Notes.

* Items were tax affected at our statutory rate of approximately 39% for 2015.
