REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Member of
Belmont Capital
535 Fifth Avenue, 4th floor
New York, NY 10017

Opinion on the Financial Statement

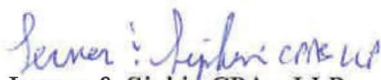

We have audited the accompanying statement of financial condition of Belmont Capital as of December 31, 2020, and the related notes (collectively referred to as the financial statement). In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of Belmont Capital as of December 31, 2020 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

The financial statement is the responsibility of Belmont Capital's management. Our responsibility is to express an opinion on Belmont Capital's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to Belmont Capital in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 8 to the financial statements, the Company has a deficit in partner's capital and excessive liabilities, which if not reduced raises substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Total liabilities and capital	<u><u>\$ 16,550</u></u>
-------------------------------	-------------------------

The accompanying notes are an integral part of this statement.

BELMONT CAPITAL
NOTES TO FINANCIAL STATEMENT
DECEMBER 31, 2020

Note 1 - Nature of Business

Cillian Holdings, LLC, dba Belmont Capital, a Limited Liability Company (“The Company”), is a New York company conducting business as a broker/dealer in securities. The Company is a sponsor of private investment funds that are registered as exempted companies with limited liability under the laws of the Cayman Islands. The Company is registered as a Commodity Pool Operator with the National Futures Association (“NFA”).

The Company amended its membership agreement with FINRA on October 2, 2020 and will not claim exemption from the provisions of Rule 15c3-3 of the SEC, in reliance on footnote 74 to SEC Release 34-70073.

Note 2 - Summary of Significant Accounting Policies

a) *Revenue Recognition*

The Company recognizes revenue due to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation. In determining the transaction price, an entity may include variable consideration only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized would not occur when the uncertainty associated with the variable consideration is resolved. The Company applied the modified retrospective method of adoption which resulted in no adjustment to retained earnings as of January 1, 2018. The new revenue recognition guidance does not apply to revenue associated with financial instruments, interest income and expense, leasing and insurance contracts.

The Company enters into arrangements with pooled investment vehicles (funds) to distribute shares to investors. The Company receives distribution fees paid by the fund over time. The Company believes that its performance obligation is the sale of securities to investors and as such this is fulfilled on the trade date. Any fixed amounts are recognized on the trade date and variable amounts are recognized to the extent it is probable that a significant revenue reversal will not occur once the uncertainty is resolved. For variable amounts, as the uncertainty is dependent on the value of the shares at future points in time as well as the length of time the investor remains in the fund, both of which are highly susceptible to factors outside the Company’s influence, the Company does not believe that it can overcome this constraint until the market value of the fund and the investor activities are known, which are usually monthly or quarterly.

BELMONT CAPITAL
NOTES TO FINANCIAL STATEMENT
DECEMBER 31, 2020

Note 2 - Summary of Significant Accounting Policies (continued)

a) *Revenue Recognition (continued)*

The Company earns commissions with the funds when the underlying fund manager generates commissions from its brokerage trading. The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer. The Company earns management fees paid by the funds. Revenue for management fees is generally recognized at the point in time that that performance under the arrangement is completed (the closing date of the transaction).

b) *Cash and Cash Equivalents*

For the purpose of the statement of cash flows, the Company considers demand deposited money market funds to be cash and cash equivalents. The Company maintains cash in bank accounts which, at times, may exceed federally insured limits or where no insurance is provided. The Company has not experienced any losses in such accounts and does not believe it is exposed to any significant credit risk on cash and cash equivalents.

c) *Depreciation*

Depreciation of equipment is computed on the straight-line method over the estimated useful lives of the assets of five years.

d) *Income Taxes*

Income taxes are not payable by, or provided for, the Company, since the Company is a Single Member Limited Liability Company. The accompanying financial statements have been adjusted to provide for unincorporated business tax based upon Company income, if applicable.

e) *Use of Estimates*

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, and the reported amounts of revenues and expenses.

Note 3 - Fair Value Measurements

The Company carries its investments at fair value. ASC 820, *Fair Value Measurements and Disclosure*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date. ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available.

The fair value hierarchy is categorized into three levels based on the inputs as follows:

BELMONT CAPITAL
NOTES TO FINANCIAL STATEMENT
DECEMBER 31, 2020

Note 3 - Fair Value Measurements (continued)

Level 1 - Fair values derived from unadjusted quoted prices of identical assets in active markets.

Level 2 - Fair values derived from quoted prices of similar assets in active markets, quoted prices for identical or similar assets in markets that are not active and model driven valuations in which all significant inputs are observable in active markets.

Level 3 - Fair values derived from inputs which are not observable in markets.

The following table represents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as at December 31, 2020:

Fair Value Measurements Using			
Total	Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Total	(Level 1)	(Level 2)	(Level 3)
\$-0-	\$-0-	\$-0-	\$-0-

Note 4 - Financial Instruments with Off-Balance Sheet Credit Risk

At December 31, 2020, the Company does not hold any financial instruments with off-balance-sheet risk. At certain times throughout the year, the Company may maintain bank account balances in excess of federally insured limits.

Note 5 - Commitments and Contingencies

The company leases its office space on a one-year term, ending December 31, 2020, at \$2,341 per month. Per the terms of the lease agreement, the lease automatically renewed for a one-year term, ending December 31, 2021. The lease automatically renews each year for one-year terms unless terminated by either party with a 90-day notice period.

Note 6 - Related Party Transactions

The Company is a sponsor of six investment funds and a Member of the Company is also a director of each of these funds. As a sponsor, the Company earned management and sponsor fees of \$654,175 during the fiscal year for the six funds. In addition, the Company also earned commission revenue \$29,443.

The Company received revenues of \$22,921 from an affiliated entity, through common ownership, Belmont CAC Limited, of which the entire amount is included in management fees in the statement of operations.

BELMONT CAPITAL
NOTES TO FINANCIAL STATEMENT
DECEMBER 31, 2020

Note 7 - Net Capital Requirement

The Company is subject to the Securities and Exchange Commission's Net Capital Rule 15c3-1, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 1500%. At December 31, 2020, the Company's net capital (Deficit) of \$(120,467) which was \$(128,508) less than its required net capital of \$8,041. The Company's capital ratio was (100.12%).

Note 8 - Going Concern Operations

The accompany statements have been prepared assuming the Company will continue as a going concern. The Company has a deficit in partner's capital and excessive liabilities, which if not reduced raises substantial doubt that the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The continued existence of the Company depends are a number of factors, including but not limited to, its ability to reduce liabilities either by adding revenues and/or reducing expenses or by the infusion of capital by the Member of the Company.

Note 9 - Regulatory event

The NFA found the Company to be in breach of Rule 2-45, 2-50, 2-13 and 2-9 on June 19, 2020. Based on these breaches, the NFA imposed sanctions, which included the repayment of prepaid management fees and related party loans. Also included as part of the sanctions was a fine of \$40,000, as shown on the statement of operation for the year ended December 2020.

Note 10 - Subsequent Events

Management has evaluated subsequent events that have occurred as of March 15, 2021, the date the financial statements were available to be issued.

Note 11 - Risks and Uncertainties

In March 2020, the World Health Organization (WHO) declared COVID-19 a global pandemic. This pandemic event has resulted in significant business disruptions and uncertainty in both global and U.S. markets. While management believes the Company is in an appropriate position to weather the potential short-term effects of these world-wide events, the direct and long-term impact to the Company and its financial statements is undetermined at this time.
