**Re: Suja Minerals, Corp.
Amendment No. 2 to Registration Statement on Form S-1
Filed March 11, 2011
File No. 333-171572**

Dear Mr. Reams:

We have reviewed your registration statement and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter by amending your registration statement and providing the requested information. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing any amendment to your registration statement and the information you provide in response to these comments, we may have additional comments.

General

1. We note your response to comment seven from our letter dated February 1, 2011; however, we continue to believe that your offering constitutes an indirect primary offering by the company through the selling shareholders. We note that the shares to be registered represent at minimum 50% of the shares held by non-affiliates. We further note that you are a development stage company with nominal assets and, as a result, are considered a shell company. In addition, your CEO has no experience in the proposed business of mineral exploration, is not located in the same country where the mineral claims are located, and is only devoting a minimal amount of time to the company. Moreover, your vice president has no pecuniary interest in the venture. Therefore, please identify all the selling shareholders as underwriters and fix the sales price to the public for the duration of the offering.

2. Revise the first sentence of this section to clarify that the Company “plans to conduct mineral exploration on mining claims in Canada.”

Risk Factors, page 6

3. We note your response to prior comment 14 from our letter dated February 1, 2011. We also note that Hemisphere West Co. Ltd. accepted late payment of the first milestone in its option agreement with the Company, but it is not clear whether Horst Klassen and Craig William Watters, who hold record ownership of the mining claim as Canadian registered free miners, consented to the modification of terms of the option agreement. Please clarify. Revise your filing throughout to make clear that Hemisphere does not hold the mining claim to the land. Add a risk factor which discusses all material risks with the arrangements described above.

Risks associated with Suja Minerals, Corp., page 6

4. Per prior comment 10 from our letter dated February 1, 2011 add a risk factor which addresses Messrs. Reams and Capito’s lack of experience in operating a public company.

General, page 13

5. Supplement the disclosure added in response to comment 12 from our letter dated February 1, 2011 to discuss the consideration suppliers of dolomite and limestone typically receive for marketable quantities of those minerals.

Crawford Creek Property, page 14

6. Further revise your filing in accordance with prior comment 17 from our letter dated February 1, 2011 to confirm that the Crawford Creek claim was renewed in 2010, who bore the financial burden of renewal and what party will be responsible for renewing the claim in the future. Present the aggregate cost for renewal on a year-to-year basis.
7. We note your response to comment 22 from our letter dated February 1, 2011. Revise the remaining Canadian dollar figures on pages 15 and 23 to present in U.S. dollars.

11. Correct the footnote added in response to comment 29 from our letter dated February 1, 2011 to denote that Mr. Reams was awarded 1,000,000 shares of stock, not "\$1,000,000 shares."

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes the information the Securities Act of 1933 and all applicable Securities Act rules require. Since the company and its management are in possession of all facts relating to a company's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.

Notwithstanding our comments, in the event you request acceleration of the effective date of the pending registration statement please provide a written statement from the company acknowledging that:

- should the Commission or the staff, acting pursuant to delegated authority, declare the filing effective, it does not foreclose the Commission from taking any action with respect to the filing;
- the action of the Commission or the staff, acting pursuant to delegated authority, in declaring the filing effective, does not relieve the company from its full responsibility for the adequacy and accuracy of the disclosure in the filing; and
