REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
of North Capital Private Securities Corporation

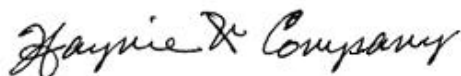

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of North Capital Private Securities Corporation as of March 31, 2024, and the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of North Capital Private Securities Corporation as of March 31, 2024 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of North Capital Private Securities Corporation's management. Our responsibility is to express an opinion on North Capital Private Securities Corporation's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to North Capital Private Securities Corporation in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Haynie & Company
Salt Lake City, Utah
May 30, 2024

We have served as North Capital Private Securities Corporation's auditor since 2019.

See accompanying notes

North Capital Private Securities Corporation

Notes to the Financial Statement

March 31, 2024

1. Organization

North Capital Private Securities Corporation (the "Company") was incorporated in Delaware on May 20, 2010 and registered as a broker-dealer with the Securities and Exchange Commission pursuant to Section 15c of the Securities Exchange Act of 1934 on January 27, 2011. The Company is currently located in Salt Lake City, Utah and its primary business is that of a securities broker-dealer that engages in the private placement of securities of private funds and private companies, as well as providing placement services for Reg A offerings, public funds, and public non-traded REITs, along with providing escrow services for the foregoing. The Company also offers services related to secondary trading of private securities and custody of private securities.

2. Significant Accounting Policies

Allowance for Credit Losses

In June 2016, the FASB issued guidance (FASB ASC 326) which significantly changed how entities will measure credit losses for most financial assets and certain other instruments that aren't measured at fair value through net income. The most significant change in this standard is a shift from the incurred loss model to the expected loss model. Under the standard, disclosures are required to provide users of the financial statements with useful information in analyzing an entity's exposure to credit risk and the measurement of credit losses. Financial assets held by the Company that are subject to the guidance in FASB ASC 326 were trade accounts.

We adopted the standard effective April 1, 2023. The impact of the adoption was not considered material to the financial statements and primarily resulted in new/enhanced disclosures only.

Cash and Cash Equivalents

The Company considers all demand deposits held in banks and certain highly liquid investments with original maturities of three months or less, other than those held for sale in the ordinary course of business, to be cash equivalents. Cash segregated under federal and other regulations is included in cash and cash equivalents at year end.

Accounts Receivable

Accounts receivable represents amounts earned per agreement that have not yet been collected. The Company considers accounts receivable to be fully collectible, and accordingly, no allowance for doubtful accounts has been provided. Management reviews accounts receivable weekly. When management believes a receivable is no longer collectible, the receivable is sent to collections and written-off as a bad debt expense.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and may have an impact on future periods.

Fair Value of Financial Instruments

Unless otherwise indicated, the fair values of all reported assets and liabilities that represent financial instruments (none of which are held for trading purposes) approximate the carrying values of such amounts.

Property and Equipment

Property and equipment are carried at cost and are depreciated over their useful lives of 3 to 7 years using the straight-line method.

North Capital Private Securities Corporation

Notes to the Financial Statement

March 31, 2024

2. Significant Accounting Policies (Continued)

Income Taxes

The Company's results are included in the consolidated federal income tax return and the combined franchise tax for the parent. The Company records income taxes as if the Company were to file a separate stand-alone tax return for federal and state income tax purposes.

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the bases of certain assets and liabilities for financial and tax reporting. The deferred taxes represent the future tax return consequences of those differences, which will either be deductible or taxable when the assets and liabilities are recovered or settled.

Intangible Assets

Identifiable intangible assets are amortized on a straight-line basis over their estimated useful life, which is generally 15 years from the date of acquisition and are assessed for impairment indicators. During the fiscal year ended March 31, 2023, the Company received intangible assets in exchange for the settlement of a note receivable balance due from a customer.

3. Revenue Recognition

The Company recognizes revenue in accordance with ASC 606 to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five-step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation. In determining the transaction price, an entity may include variable consideration only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized would not occur when the uncertainty associated with the variable consideration is resolved.

The Company acts as a placement agent and provides related banking services, as well as secondary trading of private securities. Revenue from placement agent fees and secondary trading fees is generally recognized at the point in time that performance under the arrangement is completed (the closing date of the transaction). For certain contracts, the Company must evaluate the likelihood of significant reversal of revenue due to matters outside company control and only recognize revenue up to the amount that a significant revenue reversal is not probable. Revenue for related service fees are recognized at a point in time or over time depending on the service provided. Performance obligations under the contract which are simultaneously provided by the Company and consumed by the customer are recognized over time. Service fees received from customers prior to recognizing revenue are reflected as contract liabilities. At March 31, 2024, contract liabilities were \$107,173. Disaggregation can be found on statement of operations for the year ended March 31, 2024.

4. Income Taxes

The Company's results are included in the consolidated tax return of its parent company and does not file a separate return. The Company accounts for income taxes in accordance with generally accepted accounting principles as if it filed a separate tax return. This requires recognition of deferred tax assets or liabilities for the expected future tax consequences of events that are included in the financial statements and tax returns in different periods.

North Capital Private Securities Corporation

Notes to the Financial Statement

March 31, 2024

4. Income Taxes (Continued)

The provision (benefit) for income taxes are as follows:

Current Federal	\$	19,150
Current State		12,137
Deferred Federal		47,419
Deferred State		20,899
Income tax provision	\$	99,605

Deferred tax assets and liabilities are primarily the result of the reporting basis of assets and liabilities between the cash method of accounting for tax purposes and the accrual method for financial statement purposes. A valuation allowance has been established for \$34,612 of deferred tax assets arising from capital loss carryovers because the Company cannot conclude that it is more likely than not that this amount will be realized. Significant components of the Company's deferred tax balances as of March 31, 2024 are as follows:

Deferred income tax assets and liabilities:

Accrued liabilities	\$	118,394
Deferred revenue		27,934
Accounts receivable and prepaid expenses		(120,417)
Net operating loss carryforwards		178,485
Capital loss carryforward		34,612
Total deferred income taxes		239,008
Valuation allowance		(34,612)
Net deferred income tax asset	\$	204,396

Income taxes payable at March 31, 2024 was \$34,286, which was reported as an intercompany payable to the parent company.

The Parent company is no longer subject to federal and state tax examinations for tax years ending before March 31, 2021.

5. Risk Concentrations

The Company engages with certain partner companies (the "Platform Partners") and their representatives to execute private placements. For the year ended March 31, 2024, one Platform Partner generated 18% of revenue.

At various times during the year, the Company's cash balance exceeded federal insurance limits.

6. Related Party Transactions

On August 30, 2011, the Company entered into an agreement with North Capital, Inc. ("North"), a company under common control, in which North provides office and administrative support in exchange for reimbursement of a specified percent of such overhead costs. On April 1, 2015 this agreement was amended to include North Capital Investment Technology ("NCIT"), the Company's sole stockholder. In February 2021, the agreement was amended to allocate expenses to related parties based on usage by entity. For the year ending March 31, 2024, the Company incurred expenses of \$2,442,885 related to this agreement, which includes employee compensation and benefits, IT services, rent, insurance, internet and other office expenses paid on the Company's behalf. At March 31, 2024, \$69,230 was owed to NCIT.

The Company's results of operations and financial position could differ significantly from those that would have been obtained if the entities were autonomous.

North Capital Private Securities Corporation

Notes to the Financial Statement

March 31, 2024

7. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission's uniform net capital rule (Rule 15c3-1) which requires the Company to maintain a minimum net capital equal to or greater than \$250,000 and a ratio of aggregate indebtedness to net capital not exceeding 15 to 1, both as defined. At March 31, 2024, the Company's net capital was \$894,693 which exceeded the requirement by \$644,693.

8. Fair Value Measurements

The Fair Value Measurements Topic of the FASB Accounting Standards Codification establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements).

The three components of the fair value hierarchy are as follows:

Level 1	Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.
Level 2	Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
Level 3	Unobservable inputs for the asset or liability.

Determination of Fair Value

Under the Fair Value Measurements Topic of the FASB Accounting Standards Codification, the Company bases its fair value on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. It is the Company's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy. Fair value measurements for assets and liabilities where there exists limited or no observable market data and, therefore, are based primarily upon managements own estimates, are often calculated based on current pricing policy, the economic and competitive environment, the characteristics of the asset or liability and other such factors. Therefore, the results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, that could significantly affect the results of current or future value.

Warrants and restricted stock

Determining the appropriate fair value and calculating the fair value of warrants requires the use of highly subjective and complex assumptions. The Company uses the Black-Scholes option pricing model to calculate the fair value of the warrants at the time of the transaction or valuation date. The method requires the use of judgement in estimating stock price volatility (17%), expected dividends (0%), expected life (6 years), and the risk free interest rate (2.2%). The Company's estimate of volatility was based on similar companies' benchmark, and the risk free interest rate is based on the U.S. Treasury 5-10 year yields to maturity that approximately corresponds to the maturity dates of the warrants. The Company's estimate of value of restricted stock was based upon fair value, considering the lack of marketability, restrictions on resale, minority interest, and the Company's reasonable estimate of cash compensation that was foregone by electing to receive stock from the issuer.

North Capital Private Securities Corporation

Notes to the Financial Statement

March 31, 2024

8. Fair Value Measurements (Continued)

Assets Measured and Recognized at Fair Value on a Recurring Basis:

	Level 1	Level 2	Level 3	Total
Assets at fair value:				
Warrants	-	-	-	-
Restricted stock	-	-	\$70,000	\$70,000
Total assets at fair value	-	-	\$70,000	\$70,000

Changes in instruments for the year ended March 31, 2024

The table below summarizes the activity for securities measured at fair value on a recurring basis. The Company did not hold level 1 or level 2 securities during the year.

	Level 3
Balance at 4/1/2023	\$70,000
Total realized / unrealized loss	-
Total assets at fair value	\$70,000

9. Cash segregated under Federal and other regulations

Cash of \$2,315,124 has been segregated in a special reserve bank account for the benefit of customers under rule 15c3-3 of the Securities and Exchange Act of 1934.

10. Cash and restricted cash

The following table provides a reconciliation of cash and restricted cash reported within the statement of financial condition with the total of the same such amounts presented in the statement of cash flows.

Cash and cash equivalents	\$ 706,040
Cash segregated under federal and other regulations	2,315,124
Total cash and restricted cash shown in the statement of cash flows	\$ 3,021,164

11. Payables to customers

The Company accounts for monies received from customers as a payable until the requested securities are purchased and transferred to the customer. As of March 31, 2024, \$1,621,954 was payable to customers.

12. Subsequent Events

The Company has evaluated subsequent events through May 30, 2024, the date which the financial statements were issued.
