**Re: Calithera Biosciences, Inc.
Draft Registration Statement on Form S-1
Submitted July 25, 2014
CIK No. 0001496671**

Dear Ms. Molineaux:

We have reviewed your draft registration statement and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter by providing the requested information and either submitting an amended draft registration statement or publicly filing your registration statement on EDGAR. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing the information you provide in response to these comments and your amended draft registration statement or filed registration statement, we may have additional comments.

General

1. If you intend to respond to these comments with an amended draft registration statement, please submit it and any associated correspondence in accordance with the guidance we provide in the Division's October 11, 2012 announcement on the SEC website at <http://www.sec.gov/divisions/corpfin/cfannouncements/drsfilingprocedures101512.htm>.
2. Please keep in mind that we may publicly post filing review correspondence in accordance with our December 1, 2011 policy (<http://www.sec.gov/divisions/corpfin/cfannouncements/edgarcorrespondence.htm>). If you intend to use Rule 83 (17 CFR 200.83) to request confidential treatment of information in the correspondence you submit on EDGAR, please properly mark that information in each of your confidential submissions to us so we do not repeat or refer to that information in our comment letters to you.

3. Please be advised that we may have additional comments when items that are currently blank are completed.
4. We note that you have omitted a price range and related information from your prospectus. Since the price range triggers a number of disclosure matters, we will need sufficient time to process the amendment when it is included. Please understand that its effect on disclosure throughout the document may cause us to raise issues on areas upon which we have not previously commented.
5. We note that you have yet to file a number of exhibits. Please file these exhibits as soon as possible in order to give the staff adequate time to review them. Note that we may have comments after we review these materials.
6. Prior to the effectiveness of the registration statement, please arrange to have the Financial Industry Regulatory Authority call us or provide us with a letter indicating that they have cleared the filing.
7. Please expand your disclosure to indicate whether you or a third party has filed investigational new drug (IND) applications for the following product candidates:
 - CB-839 for the treatment of Solid Tumors (including Triple-negative Breast Cancer);
 - CB-839 for the treatment of Multiple Myeloma Non-Hodgkin's Lymphoma;
 - CB-839 for the treatment of Acute Lymphocytic Leukemia;
 - CB-839 for the treatment of Acute Myeloid Leukemia;
 - CB-839 for the combination treatment of Triple-negative Breast Cancer; and
 - CB-839 for the combination treatment of Multiple Myeloma.

If INDs for these product candidates and corresponding indications have been filed, please additionally disclose the identity of the filers and the dates the applications were filed. Alternatively, where no IND has been filed, please explain why.

8. Page 6 indicates that a reverse stock split will occur prior to the closing of this offering. If the stock split will occur at or immediately before the effectiveness of your registration statement, we remind you that in accordance with SAB Topic 4C, you must revise your financial statements and your disclosures throughout the filing to give effect to the expected reverse stock split. If the reverse stock split will occur after effectiveness of your registration statement but prior to the consummation of this offering, please provide appropriate pro forma information throughout the filing.
