The electronic delivery of our proxy materials will significantly reduce our printing and mailing costs and the environmental impact of the proxy materials.

The Proxy Process and Stockholder Voting

Questions and Answers About This Proxy Material and Voting

Who can vote at the Annual Meeting?

Only stockholders of record at the close of business on March 15, 2022 will be entitled to vote at the Annual Meeting. At the close of business on the Record Date, there were 108,612,618 shares of common stock issued and outstanding and entitled to vote.

Stockholder of Record: Shares Registered in Your Name

If, on March 15, 2022, your shares were registered directly in your name with the transfer agent for our common stock, Wells Fargo Shareowner Services, then you are a stockholder of record. As a stockholder of record, you may vote at the Annual Meeting or vote by proxy. Whether or not you plan to attend (via the Internet) the Annual Meeting, we urge you to fill out and return the enclosed proxy card or vote by proxy over the telephone or on the Internet as instructed below to ensure your vote is counted.

Beneficial Owner: Shares Registered in the Name of a Broker, Bank or Other Agent

If, on March 15, 2022, your shares were held in an account at a brokerage firm, bank, dealer or other similar organization, then you are the beneficial owner of shares held in “street name” and these proxy materials are being forwarded to you by that organization. The organization holding your account is considered the stockholder of record for purposes of voting at the Annual Meeting. As a beneficial owner, you have the right to direct your broker or other agent on how to vote the shares in your account. You are also invited to attend (via the Internet) the Annual Meeting. However, since you are not the stockholder of record, you may not vote your shares at the Annual Meeting unless you request and obtain a valid proxy card from your broker or other agent.

What am I being asked to vote on?

You are being asked to vote “FOR”:

- the election of the following two Class II directors to hold office until our 2025 annual meeting of stockholders: H. McIntyre Gardner and Myrna M. Soto;
- the ratification of the selection, by the Audit Committee of the Board, of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2022; and
- the approval, on a non-binding, advisory basis, of the compensation of our named executive officers.

In addition, you are entitled to vote on any other matters that are properly brought before the Annual Meeting.

How do I vote?

You may vote by mail or follow any alternative voting procedure described on the proxy card or the Notice of Internet Availability of Proxy Materials. To use an alternative voting procedure, follow the instructions on each proxy card that you receive or on the Notice of Internet Availability of Proxy Materials.

For the election of directors, you may either vote “FOR” each of the two nominees or you may withhold your vote for any nominee you specify. For the ratification of the selection of the Company’s independent auditors, and the non-binding, advisory vote to approve the compensation of our named executive officers, and you may vote “FOR” or “AGAINST” or abstain from voting.

The procedures for voting are as follows:

Stockholder of Record: Shares Registered in Your Name

If you are a stockholder of record, you may vote at the Annual Meeting. Alternatively, you may vote by proxy over the Internet or, if you properly request and receive a proxy card by mail or email, by signing, dating and returning the proxy card, over the Internet or by telephone. Whether or not you plan to attend (via the Internet) the Annual Meeting, we urge you to vote by proxy to ensure your vote is counted. Even if you have submitted a proxy before the Annual Meeting, you may still attend the Annual Meeting and vote via the Internet. In such case, your previously submitted proxy will be disregarded.

- To vote by proxy over the Internet, follow the instructions provided in the Notice of Internet Availability of Proxy Materials or on the proxy card.
- To vote by telephone, if you properly requested and received a proxy card by mail or email, you may vote by proxy by calling the toll-free number found on the proxy card.
- To vote by mail, if you properly requested and received a proxy card by mail or email, complete, sign and date the proxy card and return it promptly in the envelope provided. If you return your signed proxy card to us before the Annual Meeting, we will vote your shares as you direct.

Beneficial Owner: Shares Registered in the Name of Broker, Bank or Other Agent

If you are a beneficial owner of shares registered in the name of your broker, bank or other agent, you should have received a voting instruction card and voting instructions with these proxy materials from that organization rather than from us. Simply complete and mail the voting instruction card to ensure that your vote is counted. To vote (via the Internet) at the Annual Meeting, you must obtain a valid proxy from your broker, bank or other agent. Follow the instructions from your broker, bank or other agent included with these proxy materials, or contact your broker, bank or other agent to request a proxy form.

Who counts the votes?

Broadridge Financial Solutions, Inc. (“Broadridge”) has been engaged as our independent agent to tabulate stockholder votes. If you are a stockholder of record, and you choose to vote over the Internet or by telephone, Broadridge will access and tabulate your vote electronically. If you choose to sign and mail your proxy card, your executed proxy card is returned directly to Broadridge for tabulation. As noted above, if you hold your shares through a broker, your broker (or its agent for tabulating votes of shares held in street name, as applicable) returns one proxy card to Broadridge on behalf of all its clients.

How are votes counted?

With respect to Proposal No. 1, the election of directors, the two nominees receiving the highest number of votes will be elected. With respect to Proposal Nos. 2, and 3, the affirmative vote of the holders of a majority in voting power of the shares of common stock which are present in person or by proxy and entitled to vote on each proposal is required for approval.

Brokers who hold shares in street name for the accounts of their clients may vote such shares either as directed by their clients or, in the absence of such direction, in their own discretion if permitted by the stock exchange or other organization of which they are members. If your shares are held by a broker on your behalf, and you do not instruct the broker as to how to vote these shares on Proposal No. 2, the broker may exercise its discretion to vote for or against that proposal in the absence of your instruction. With respect to Proposal Nos. 1 and 3, the broker may not exercise discretion to vote on those proposals. This would be a “broker non-vote” and these shares will not be counted as having been voted on the applicable proposal. However, broker non-votes will be considered present and entitled to vote at the Annual Meeting and will be counted towards determining whether or not a quorum is present. **Please instruct your bank or broker so your vote can be counted.**

If stockholders abstain from voting, these shares will be considered present and entitled to vote at the Annual Meeting and will be counted towards determining whether or not a quorum is present. Abstentions will have no effect with regard to Proposal No. 1, and with regard to Proposal Nos. 2 and 3 will have the same effect as an “AGAINST” vote.

How many votes do I have?

On each matter to be voted upon, you have one vote for each share of common stock you own as of March 15, 2022.

How do I vote via Internet or telephone?

You may vote by proxy by following the instructions provided in the Notice of Internet Availability of Proxy Materials or on the proxy card. If you properly request and receive printed copies of the proxy materials by mail, you may vote by proxy by calling the toll-free number found on the proxy card. Please be aware that if you vote over the Internet or by telephone, you may incur costs such as telephone and Internet access charges, as applicable, for which

you will be responsible. The Internet and telephone voting facilities for eligible stockholders of record will close at 11:59 p.m. Eastern Time on May 9, 2022. The giving of such a telephonic or Internet proxy will not affect your right to vote should you decide to attend (via the Internet) the Annual Meeting.

The telephone and Internet voting procedures are designed to authenticate stockholders’ identities, to allow stockholders to give their voting instructions and to confirm that stockholders’ instructions have been recorded properly.

What if I return a proxy card but do not make specific choices?

If we receive a signed and dated proxy card and the proxy card does not specify how your shares are to be voted, your shares will be voted “FOR” the election of each of the two nominees for director, “FOR” the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm, and “FOR” the approval, on a non-binding, advisory basis, of the compensation of our named executive officers. If any other matter is properly presented at the Annual Meeting, your proxy (*i.e.*, one of the individuals named on your proxy card) will vote your shares using his or her best judgment.

Who is paying for this proxy solicitation?

We will pay for the entire cost of soliciting proxies. In addition to these mailed proxy materials, our directors, officers and employees may also solicit proxies in person, by telephone or by other means of communication. Directors, officers and employees will not be paid any additional compensation for soliciting proxies. We may also reimburse brokerage firms, banks and other agents for the cost of forwarding proxy materials to beneficial owners.

What does it mean if I receive more than one set of materials?

If you receive more than one set of materials, your shares are registered in more than one name or are registered in different accounts. In order to vote all the shares you own, you must follow the instructions for voting on each Notice of Internet Availability of Proxy Materials or the proxy card that you receive by mail or email pursuant to your request, which include instructions for voting over the Internet, by telephone or by signing, dating and returning any of such proxy cards.

Can I change my vote after submitting my proxy?

Yes. You can revoke your proxy at any time before the final vote at the Annual Meeting. If you are the record holder of your shares, you may revoke your proxy in any one of three ways:

- You may submit another properly completed proxy over the Internet, by telephone or by mail with a later date.
- You may send a written notice that you are revoking your proxy to our Secretary at 2800 Executive Way, Miramar, Florida 33025.

- You may attend (via the Internet) the Annual Meeting and vote online. Simply attending (via the Internet) the Annual Meeting will not, by itself, revoke your proxy.

If your shares are held by your broker, bank or other agent, you should follow the instructions provided by them.

When are stockholder proposals due for next year's Annual Meeting?

To be considered for inclusion in the proxy materials for next year's annual meeting, your proposal must be submitted in writing by November 30, 2022, to our Secretary at 2800 Executive Way, Miramar, Florida 33025; provided that if the date of that annual meeting is more than thirty (30) days from the first anniversary of the Annual Meeting, the deadline will be a reasonable time before we begin to print and send our proxy materials for next year's annual meeting. If you wish to submit a proposal that is not to be included in the proxy materials for next year's annual meeting pursuant to the SEC's shareholder proposal procedures or to nominate a director, you must do so between January 10, 2023 and February 9, 2023; provided that if the date of that annual meeting is earlier than April 23, 2023 or later than July 9, 2023 you must give notice not earlier than the 120th day prior to the annual meeting date and not later than the 90th day prior to the annual meeting date or, if later, the 10th day following the day on which public disclosure of the annual meeting date is first made. You are also advised to review our Amended and Restated Bylaws, which contain additional requirements about advance notice of stockholder proposals and director nominations.

What is the quorum requirement?

A quorum of stockholders is necessary to hold a valid meeting. A quorum will be present if the holders of a majority in voting power of the shares of common stock issued and outstanding and entitled to vote are present in person or represented by proxy at the Annual Meeting. On the Record Date, there were 108,612,618 shares outstanding and entitled to vote. Accordingly, not less than 54,306,310 shares must be represented by stockholders present at the Annual Meeting or by proxy to have a quorum.

Your shares will be counted towards the quorum only if you submit a valid proxy vote or vote at the Annual Meeting. Abstentions and broker non-votes will be counted towards the quorum requirement. If there is no quorum, either the chairperson of the Annual Meeting or a majority in voting power of the stockholders entitled to vote at the Annual Meeting, present via the Internet or represented by proxy, may adjourn the Annual Meeting to another time or place.

How can I find out the results of the voting at the Annual Meeting?

Voting results will be announced by the filing of a Current Report on Form 8-K within four business days after the Annual Meeting. If final voting results are unavailable at that time, we will file an amended Current Report on Form 8-K within four business days of the day the final results are available.

Proposal No. 1: Election of Directors

The Board is currently comprised of nine members. In accordance with our Amended and Restated Certificate of Incorporation, the Board is divided into three classes with staggered three-year terms. At each annual general meeting of stockholders, the successors to directors whose terms then expire will be elected to serve from the time of election and qualification until the third annual meeting following election.

Our directors are divided among the three classes as follows:

- **Class I directors:** Robert D. Johnson, Barclay G. Jones III and Dawn M. Zier, whose terms will expire at the annual meeting of the stockholders to be held in 2024;
- **Class II directors:** Carlton D. Donaway, H. McIntyre Gardner and Myrna M. Soto, whose terms will expire at the Annual Meeting; and
- **Class III directors:** Edward M. Christie III, Mark B. Dunkerley, and Christine P. Richards, whose terms will expire at the annual meeting of the stockholders to be held in 2023.

Any additional directorships resulting from an increase in the number of directors would be distributed among the three classes so that, as nearly as possible, each class would consist of one-third of the directors.

The division of the Board into three classes with staggered three-year terms may delay or prevent a change of our management or a change in control.

Carlton D. Donaway, a Class II director, has informed the Company that he does not intend to stand for re-election, and accordingly his term will end at the conclusion of the Annual Meeting. The Board has resolved to reduce the size of the Board from nine to eight members, effective as of the conclusion of the Annual Meeting. H. McIntyre Gardner and Myrna M. Soto have been nominated, and have consented to being named in this Proxy Statement and to serve as Class II directors upon their election at the Annual Meeting. Each director to be elected will hold office until the third subsequent annual meeting of stockholders or until his or her successor is elected and has been qualified, or until such director's earlier death, resignation or removal.

Shares represented by executed proxies will be voted, if authority to do so is not withheld, for the election of the two nominees named above. In the event that any nominee should be unavailable for election as a result of an unexpected occurrence, such shares will be voted for the election of such substitute nominee as the Board may propose. Each person nominated for election has agreed to serve if elected, and management has no reason to believe that any nominee will be unable to serve.

Directors are elected by a plurality of the votes cast at the meeting. Pursuant to the Company's corporate governance guidelines, any director nominee who receives a greater number of votes withheld from his or her election than votes for such election must submit his or her resignation for consideration by the Nominating and Corporate Governance Committee. The Board will then act after considering the Nominating and Corporate Governance Committee's recommendation.

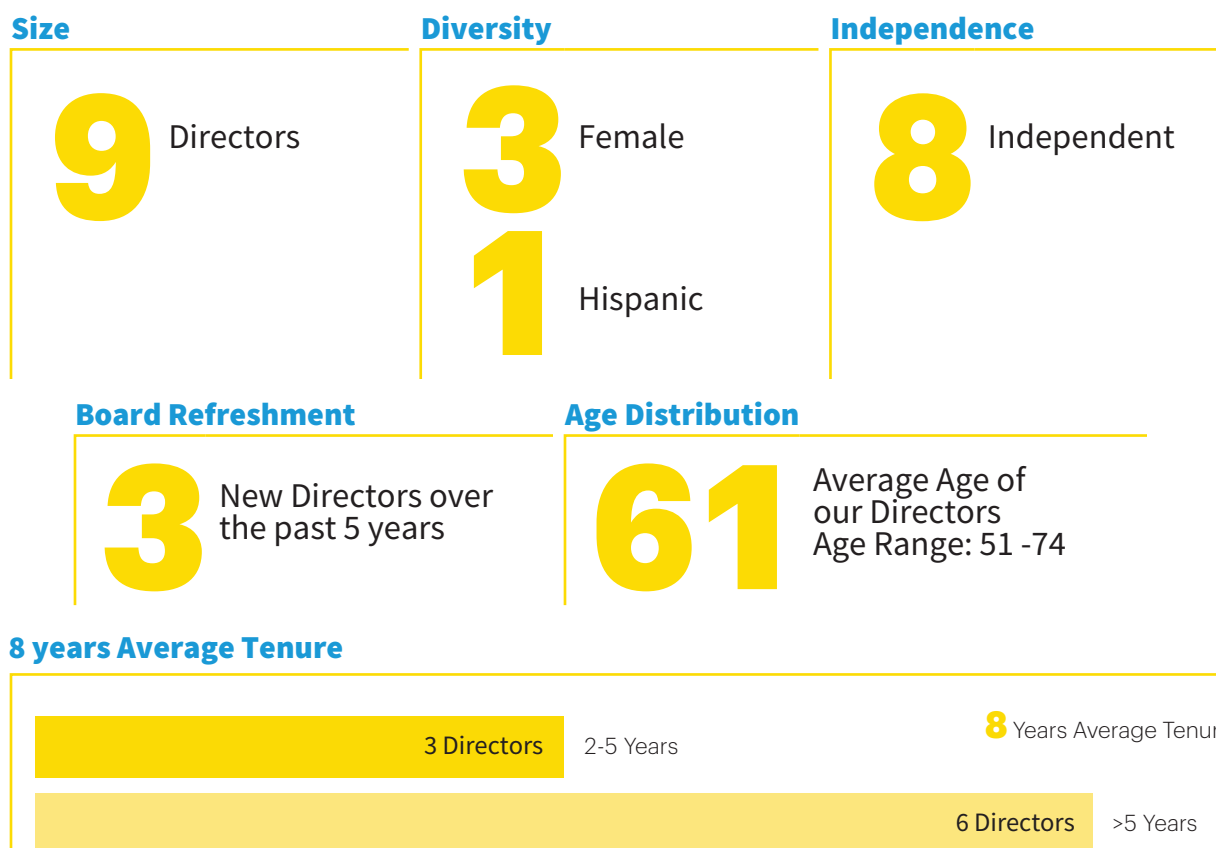

**THE BOARD OF DIRECTORS RECOMMENDS A VOTE

THE ELECTION OF EACH NAMED NOMINEE.**

Board of Directors, Committees and Corporate Governance

Independence of the Board of Directors

As required under the NYSE Listed Company Manual, a majority of the members of a listed company's board of directors must qualify as "independent," as affirmatively determined by the Board. The Board consults with the Company's counsel to ensure that the Board's determinations are consistent with all relevant securities and other laws and regulations regarding the definition of "independent," including those set forth in pertinent listing standards of the NYSE, as in effect from time to time.

Consistent with these considerations, after review of all relevant transactions or relationships between each director, or any of his or her family members, and the Company, its senior management and its independent registered public accounting firm, the Board has affirmatively determined that, with the exception of Mr. Christie, all the members of the Board are independent directors, in each case within the meaning of the applicable NYSE listing standards. Mr. Christie currently serves as the Company's CEO.

As required under the NYSE rules, our independent directors meet regularly in executive sessions at which only independent directors are present. Mr. Gardner, Chairman of the Board, presides at all of these executive sessions.

There are no family relationships among any of our directors or executive officers.

Board Responsibilities; Risk Oversight

Under our bylaws and corporate governance guidelines, the Board is responsible for, among other things, overseeing the conduct of our business; reviewing and, where appropriate, approving our major financial objectives, plans and actions; and reviewing the performance of our CEO and other members of management based on, among other things, reports from the Compensation Committee. Following the end of each year, the Nominating and Corporate Governance Committee oversees the Board's annual self-evaluation, which includes a review of any areas in which the Board or management believes the Board can make a better contribution to our corporate governance, as well as a review of Board composition, the structure and membership of Board committees, and an assessment of the Board's compliance with corporate governance principles. In fulfilling the Board's responsibilities, directors have full access to our management and independent advisors.

With respect to the Board's role in our risk oversight, our Audit Committee discusses with management our policies with respect to risk assessment and risk management and our significant financial risk exposures and the actions management has taken to limit, monitor or control such exposures, while our Safety, Security and Operations Committee reviews our activities, programs and procedures on safety, security and airline operations matters and routinely assesses related risk. Moreover, the Audit and Safety, Security, and Operations Committees receive regular updates from management regarding cybersecurity matters, including the description of risks, protections and procedures. Our Nominating and Corporate Governance Committee reviews the Company's environmental and social strategy and practices, in coordination with the Audit Committee's oversight of related risks. Our Audit, Nominating and Corporate Governance, and Safety, Security, and Operations Committees report to the full Board with respect to the foregoing matters, among others. Lastly, our Compensation Committee is responsible for overseeing the management of risks relating to the Company's executive compensation plans and periodically reports to the entire Board about such risks.

The Company's management is responsible for the day-to-day management of the risks facing the Company, including macroeconomic, financial, strategic, operational, public reporting, legal, regulatory, environmental, social, political, cybersecurity, compliance and reputational risks. Management carries out this risk management responsibility through a coordinated effort among the various risk management functions within the Company.

Leadership Structure

We have historically separated the roles of CEO and Chairman of the Board in recognition of the differences between the two roles. The CEO is responsible for setting our strategic direction and our day-to-day leadership and performance, while the Chairman of the Board provides general guidance to the CEO and sets the agenda for Board meetings and presides over meetings of the full Board. Mr. Gardner currently serves as our Chairman of the Board and Mr. Christie currently serves as our CEO. Our bylaws provide that the independent directors may appoint a lead director from among them to perform such duties as may be assigned by the Board. In his capacity as Chairman of the Board, Mr. Gardner generally performs the functions of a lead director.

The Board has the following standing committees: an Audit Committee, a Compensation Committee, a Nominating and Corporate Governance Committee and a Safety, Security and Operations Committee. The composition and responsibilities of each committee are described below. Members serve on these

All members of our Audit Committee meet the requirements for financial literacy under the applicable rules and regulations of the SEC and the NYSE. The Board has determined that all members of the Audit Committee are financial experts as defined under the applicable rules of the SEC and thereby have the accounting and financial management expertise required under the applicable rules and regulations of the NYSE. All three members of the Audit Committee are independent directors as defined under the applicable rules and regulations of the SEC and the NYSE.

Compensation Committee

Our Compensation Committee reviews and approves, and in some instances makes recommendations with respect to, the Company's policies, practices and plans relating to compensation and benefits of our officers and other management level employees. The Compensation Committee (i) reviews and approves performance goals and objectives relevant to compensation of our CEO and other executive officers; (ii) evaluates the performance of our CEO in light of those goals and objectives and other factors and determines and approves our CEO's compensation based on such evaluation; (iii) with input from our CEO, evaluates the performance of other officers, and sets their compensation based on such evaluations after taking into account the recommendations of our CEO; (iv) determines the base salaries of our officers, and also administers the issuance of restricted stock units, performance share units and other equity-based awards under our compensation plan documents as well as the awarding of annual cash bonus opportunities under our short-term incentive plans; (v) reviews and discusses pay equity on an annual basis; (vi) reviews, and makes recommendations to the Board with respect to, the form and amount of compensation of non-employee directors of the Company; (vii) reviews and evaluates, at least annually, the performance of the Compensation Committee and its members, including compliance of the Compensation Committee with its charter and corporate governance principles; (viii) approves the peer group companies used to benchmark Company performance and executive officer compensation; and (ix) periodically reviews, in consultation with its independent compensation consultant, the Company's executive compensation philosophy and target competitive positioning for reasonableness and appropriateness. The Compensation Committee monitors compliance with the Company's stock

ownership guidelines and also oversees risk assessment with respect to the Company's executive compensation policies and practices. It also periodically reviews, and when appropriate makes recommendations with respect to, the severance and change in control benefits afforded to our executive officers and other members of management. The Compensation Committee performs other functions as set forth in the Compensation Committee charter. A copy of the Compensation Committee charter is available on the Company's website at <http://ir.spirit.com>.

The Compensation Committee engaged Willis Towers Watson as the Compensation Committee's independent compensation advisor for the first quarter of 2021, and engaged and appointed Korn Ferry as the Compensation Committee's independent compensation advisor (each of such firms, for the relevant periods, the "Compensation Consultant") for the remainder of the year. The Committee also retained independent external legal counsel during 2021. Each year, the Compensation Committee evaluates the qualifications, performance and independence of its independent compensation consultant and legal counsel. In March 2022, the Compensation Committee reviewed information regarding the independence and potential conflicts of interest of the Compensation Consultant and external legal counsel during 2021. The Compensation Committee members took into account, among other things, the factors enumerated by the SEC and the NYSE for evaluating compensation advisor and legal counsel independence and concluded that its compensation consultant and legal counsel are both independent and that no conflict of interest exists with respect to the work performed by either firm. Representatives of Compensation Consultant and external legal counsel have direct access to Compensation Committee members without management involvement. The Compensation Committee has sole authority to replace its compensation consultant and/or legal counsel from time to time and to hire additional consultants and legal counsel at any time. Representatives of Compensation Consultant participated in all meetings of the Compensation Committee meetings in 2021.

The current members of our Compensation Committee are Mr. Jones and Mses. Richards, Soto and Zier, with Mr. Jones serving as the chair of the committee. The Board has affirmatively determined that each of Mr. Jones and Mses. Richards, Soto and Zier meets the definition of "independent director" for purposes of the NYSE listing rules.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee is responsible for making recommendations regarding candidates for directorships, the size and composition of the Board and committee memberships. In addition, the Nominating and Corporate Governance Committee is responsible for reviewing and making recommendations to the Board concerning our corporate governance guidelines and other corporate governance matters. The Committee is also responsible for reviewing environmental, social, and governance matters (ESG), and human capital management (HCM), including diversity review, employee engagement and succession planning with respect to our leadership team.

The Nominating and Corporate Governance Committee reviews candidates for directors in the context of the current composition, skills and expertise of the Board, the operating requirements of the Company and the interests of stockholders. It also takes into consideration applicable laws and regulations (including the NYSE listing standards), diversity, skills, experience, integrity, ability to make independent analytical inquiries, understanding of the Company's business and business environment, willingness and availability to devote adequate time and effort to Board responsibilities and other relevant factors. The Nominating and Corporate Governance Committee may also engage, if it deems appropriate, a professional search firm to identify candidates that possess the desired characteristics and skills. During each search, the Nominating and Corporate Governance Committee (i) assesses the Board's needs and functions; (ii) develops search specifications which are reported to, and concurred by, the full Board; (iii) convenes a search sub-committee (which generally includes all members of the Nominating and Corporate Governance Committee, the Chairman of the Board and the CEO) to conduct recruitment efforts and interviews with the director candidates; (iv) performs appropriate and necessary screenings and inquiries into the backgrounds and qualifications of possible director candidates; and lastly (v) may recommend a nominee(s) to the Board, which subsequently votes to elect the nominee(s).

The Nominating and Corporate Governance Committee will consider director candidates recommended by stockholders in accordance with, and pursuant to, the advance notice procedures for nominations of directors as set forth in the Company's amended and restated bylaws. The Board believes that the procedures set forth in the Company's amended and restated bylaws are currently sufficient and that the establishment of a formal policy is not necessary.

Stockholders who wish to recommend individuals for consideration by the Nominating and Corporate Governance Committee to become nominees for election to the Board may do so by delivering, along with any updates or supplements required by the Company's amended and restated bylaws, a written recommendation, c/o the Company's Secretary, to the following address: Spirit Airlines, Inc., 2800 Executive Way, Miramar, Florida 33025 not earlier than the 120th day prior to and not later than the 90th day prior to the first anniversary of the Company's annual meeting of stockholders for the preceding year; provided, however, that in the event that the date of the annual meeting is more than 30 days before or more than 60 days after such anniversary date, such recommendation shall be delivered not earlier than the 120th day prior to the Company's annual meeting and not later than the 90th day prior to such annual meeting, or, if later, the 10th day following the day on which public disclosure of the date of such annual meeting was first made. Submissions must include the required information and follow the specified procedures set forth in the Company's amended and restated bylaws. Any such submission must be accompanied by the written consent of the proposed nominee to be named as a nominee and to serve as a director if elected. The Nominating and Corporate Governance Committee will evaluate any director candidates that are properly recommended by stockholders in the same manner as it evaluates all other director candidates, as described above.

Other Corporate Governance Matters

Meetings of the Board of Directors, Board and Committee Member Attendance and Annual Meeting Attendance

Our Board has regularly scheduled meetings and an annual meeting of stockholders each year, in addition to special meetings scheduled as appropriate. The Board met seven times during 2021, a particularly challenging year due to the COVID-19 pandemic. Each of the five regularly scheduled Board meetings held during 2021 included an executive session, consisting of only independent directors. Mr. Gardner, Chairman of the Board, presided at all of these executive sessions. The Audit Committee of the Board met six times, the Compensation Committee of the Board met eight times, the Nominating and Corporate Governance Committee met four times, and the Safety, Security and Operations Committee of the Board met four times during 2021. Each Board member attended 75% or more of the aggregate of the meetings of the Board and of the committees on which they served, during 2021. Committee meetings are open to all members of the Board. Meetings of the Safety, Security and Operations Committee are regularly attended by all directors. We encourage all of our directors and nominees for director to attend our annual meeting of stockholders; however, attendance is not mandatory. All of our then-serving directors attended our annual meeting of stockholders in 2021.

Stockholder and Other Interested Parties Communications with the Board of Directors

Should stockholders or other interested parties wish to communicate with the Board or any specified independent directors, such correspondence should be sent to the attention of the Secretary, at 2800 Executive Way, Miramar, Florida 33025. The Secretary will forward the communication to the Board or to the individual director(s), as appropriate.

Compensation Committee Interlocks and Insider Participation

None of the current members of our Compensation Committee is or has at any time during the past year been an officer or employee of ours. None of our executive officers currently serves or in the past year has served as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on our Board or Compensation Committee.

Executive Pay-for-Performance

We seek to ensure a pay-for-performance culture with well-balanced and transparent compensation policies and practices that are designed to drive shareholder returns as well as attract, motivate and retain superior executives, as more fully described in the “Compensation Discussion and Analysis” section of this Proxy Statement.

Perquisites

Perquisites are not a significant part of our executive compensation program. As is common in the airline industry, senior executives and non-employee directors, and their respective immediate families, are entitled to certain travel privileges on our flights, which may be on a positive space basis. In addition, retired non-employee directors who meet certain criteria are eligible for lifetime post-retirement positive-space air travel on our airline, as more fully described in the “Non-Employee Director Compensation” section of this Proxy Statement.

Stock Ownership Guidelines for Non-employee Directors and Executives

We maintain stock ownership guidelines applicable to non-employee directors and executives, as more fully described in the “Non-Employee Director Compensation” and “Compensation Discussion and Analysis” sections of this Proxy Statement. Non-employee directors and executives are expected to meet their ownership guidelines within five years of becoming subject to the guidelines. All of our non-employee directors and executive officers who have served at least five years are currently in compliance with the guidelines.

Anti-Hedging/Pledging Policy

We do not allow our directors and executive officers to enter into put and call options and other hedging transactions in the Company’s stock, nor to pledge the Company’s stock as collateral to secure loans. We believe that these prohibitions further align directors’ interests with those of our stockholders.

Clawback Policy

In January 2014, the Company adopted a clawback policy (the “Prior Clawback Policy”) providing for the termination and forfeiture of outstanding incentive compensation awards to officers and for the recoupment of gains actually or constructively received by officers pursuant to incentive compensation awards, in each case where the Company is required to prepare a restated financial statement and where a lower incentive payment or award would have been made to or received by the officer had they been based on the restated financial results. In March 2019, with input from the Compensation Committee’s independent compensation consultant and independent legal counsel, the Compensation Committee approved, and the Board ratified, a new clawback policy (the “New Clawback Policy”), primarily expanding the scenarios under which forfeiture and recoupment of incentive compensation would be allowed and also expanding coverage to all executives. The New Clawback Policy applies to all incentive compensation approved, granted or awarded on or after March 19, 2019. The Prior Clawback Policy remains in effect with respect to all incentive compensation approved, granted or awarded prior to March 19, 2019. Under the New Clawback Policy, the Company is required to seek reimbursement of incentive compensation (cash

and equity-based) paid, and to terminate and cancel incentive compensation yet to be paid, to officers and other executives on the basis of reported financial results that were later the subject of a financial statement restatement, in each case to the extent that the incentive compensation actually received or earned exceeded the amount that would have been received or earned based on the restated financial results, as determined by the Compensation Committee. The New Clawback Policy also gives the Compensation Committee discretionary recoupment rights in scenarios not involving a financial restatement, including fraud, negligence or misconduct that cause reputational or financial harm to the Company and the payment of incentive compensation based on financial or operating performance results that were incorrectly calculated or reported.

In addition, the award agreements applicable to awards under the Company's long-term incentive plans and awards of annual cash bonus opportunities under the Company's short-term incentive plans contain clawback provisions providing for the termination and forfeiture of outstanding incentive compensation awards and for the recoupment of gains actually or constructively received pursuant to incentive compensation awards, in situations where the executive engages in any activity in competition with the Company or which is inimical, contrary, or harmful to the interests of the Company, in the determination of the Compensation Committee.

Taken together, all of the Company's clawback rights and remedies are believed to be consistent with best corporate governance practices.

Retirement and Pension Practices

We do not provide a defined benefit pension plan or any supplemental executive retirement plan or other form of non-qualified retirement plan for our executive officers.

Corporate Governance Guidelines

The Board has adopted corporate governance guidelines to assist it in the exercise of its responsibilities and to serve the interests of the Company and its stockholders. The guidelines address areas such as Board and committee size and composition, director qualification standards and interaction with institutional investors. A copy of our corporate governance guidelines is available to security holders on the Company's website at <http://ir.spirit.com>.

Code of Business Conduct and Ethics

The Board has adopted a Code of Business Conduct and Ethics that applies to all members of the Board, officers and employees, including our CEO, Chief Financial Officer and principal accounting officer. The Code of Business Conduct and Ethics addresses, among other things, issues relating to conflicts of interests, including internal reporting of violations and disclosures, and compliance with applicable laws, rules and regulations. The purpose of the Code of Business Conduct and Ethics is to deter wrongdoing, to promote honest and ethical conduct and to ensure to the greatest possible extent that our business is conducted in a legal and ethical manner. We intend to promptly disclose on our website

(1) the nature of any substantive amendment to our Code of Business Conduct and Ethics that applies to our directors, officers or other principal financial officers, (2) the nature of any waiver, including an implicit waiver, from a provision of our Code of Business Conduct and Ethics that is granted to one of these specified directors, officers or other principal financial officers, and (3) the name of each person who is granted such a waiver and the date of the waiver. A copy of the Code of Business Conduct and Ethics is available on the Company's website at <http://ir.spirit.com>.

Related Party Transactions

The Board monitors and reviews any transaction, arrangement or relationship, or any series of similar transactions, arrangements or relationships, in which the Company is to be a participant, the amount involved exceeds \$120,000 and a related party had or will have a direct or indirect material interest, including purchases of goods or services by or from the related party or entities in which the related party has a material interest, indebtedness, guarantees of indebtedness and employment by us of such related party. Furthermore, the Company's directors and executive officers complete an annual questionnaire that requires them to identify and describe, among other items, any transactions that they or their respective related parties may have with the Company.

Limitation of Liability and Indemnification Related Party Transactions

Our amended and restated certificate of incorporation contains provisions that limit the liability of our directors for monetary damages to the fullest extent permitted by Delaware law. Consequently, our directors will not be personally liable to us or our stockholders for monetary damages for any breach of fiduciary duties as directors, except liability for:

- any breach of the director's duty of loyalty to us or our stockholders;
- any act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;
- unlawful payments of dividends or unlawful stock repurchases or redemptions as provided in Section 174 of the Delaware General Corporation Law; or
- any transaction from which the director derived an improper personal benefit.

Our amended and restated certificate of incorporation provides that we may indemnify our directors and executive officers, in each case to the fullest extent permitted by Delaware law. Our amended and restated bylaws also provide that we are obligated to indemnify our directors and executive officers to the fullest extent permitted by Delaware law and advance expenses incurred by a director or officer in advance of the final disposition of any action or proceeding, and permit us to secure insurance on behalf of any officer, director, employee or other agent for any liability arising out of his or her actions in that capacity regardless of whether we would otherwise be permitted to indemnify him or her under the provisions of Delaware law. We have entered into agreements to indemnify our directors, executive officers and other employees as determined by the Board. For more information, see "Certain

Relationships and Related Transactions – Other Transactions” elsewhere in this Proxy Statement. With specified exceptions, these agreements provide for indemnification for related expenses including, among other things, attorneys’ fees, judgments, fines and settlement amounts incurred by any of these individuals in any action or proceeding. We believe these limitations of liability provisions and indemnification agreements are necessary to attract and retain qualified persons as directors and officers. We also maintain directors’ and officers’ liability insurance.

The limitation of liability and indemnification provisions in our amended and restated certificate of incorporation, amended and restated bylaws and indemnification agreements may discourage stockholders from bringing a lawsuit against our directors and officers for breach of their fiduciary duty. Our amended and restated certificate of incorporation provides that any such lawsuit must be brought in the Court of Chancery of the State of Delaware. The foregoing provisions may also reduce the likelihood of derivative litigation against our directors and officers, even though an action, if successful, might benefit us and other stockholders. Further, a stockholder’s investment may be adversely affected to the extent that we pay the costs of settlement and damage awards

against directors and officers as required by these indemnification provisions. Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended (the “Securities Act”), may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act, and is, therefore, unenforceable. At present, there is no pending litigation or proceeding involving any of our directors, officers or employees for which indemnification is sought, and we are not aware of any threatened litigation that is expected to result in claims for indemnification.

Limited Duration Stockholder Rights Agreement

On March 30, 2020, the Company announced that our Board had approved the adoption of a stockholder rights agreement (the “Rights Agreement”). The key features of the Rights Agreement are described in the Company’s Current Reports on Forms 8-K, filed with the SEC on March 30, 2020 and March 10, 2021. The Rights Agreement expired on March 29, 2021.

Environmental, Social and Governance (ESG) Matters

Commitment

As part of our overall Corporate Social Responsibility (CSR) efforts, we are committed to integrate ESG practices into our business, increasing the sustainability and resiliency of our business model and Company. We are environmentally conscious and seek to operate our business in a sustainable manner that will benefit our guests, employees, investors, and the communities we serve, and that will support our successful growth over the long term. We seek to build human rights awareness, and continuously strive to attract a diverse pipeline of talent for our Company. We adhere to strong corporate governance principles, while incorporating best practices to guide our corporate behavior and actions.

In early 2021 we engaged a leading sustainability consulting firm to assist us and provide expert advice on how to enhance our communication strategy with regard to ESG matters. We published the Company's first comprehensive sustainability report on October 15, 2021. We recognize the importance of operating a long-term sustainable business and we believe our sustainability report provides more transparency on our objectives, practices, and accomplishments.

Priorities and Goals

In addition to the information provided herein, for more information regarding our current ESG initiatives and practices, please refer to our Sustainability Report which you can find at <http://ir.spirit.com>.

Environmental

We care about the impact of our airline's operations on the environment, and we seek to pursue commercially viable options to improve the long-term sustainability of our business. We believe it is our responsibility and in our best interest to manage our environmental impact. In early 2020, the Company adopted an Environmental Policy to set out clear objectives and goals, and to cultivate environmental awareness among its team members and business partners. A copy of the policy can be found at <http://ir.spirit.com>.

We are proud of our approach to environmental responsibility, focused on operational and business efficiency. Our efficiency approach allows us to mitigate impacts while we pursue commercially viable options to improve the long-term sustainability of our business. With one of the youngest fleets of any U.S. airline, including newest-generation aircraft that provide substantially higher fuel efficiency and reduced carbon emissions, our unique model minimizes environmental impact. We were the first North American carrier to operate the "new engine option" ("neo") version of the Airbus A320 aircraft, powered by the most fuel-efficient engine ever made for this aircraft class. This revolutionary technology advance reduces the acoustic footprint by up to 50% and consumes 15-20% less fuel, reducing greenhouse gas emissions. In December 2019, we entered into a new fleet purchase agreement with Airbus, providing for the delivery of 100 A320neo family aircraft. Over the long term, our NEO aircraft will allow Spirit to continue leading the industry in reduced carbon emissions. By year-end 2021,

Board Oversight

Recognizing its fundamental importance, the Board and its committees provide guidance and oversight to management with respect to ESG matters. The Nominating and Corporate Governance Committee is responsible for the review of the Company's ESG strategy and practices, and periodically reports on these matters to the Board. The Audit Committee is responsible for the oversight of any related risks having a possible effect on the integrity of financial reporting which are also reported to the Board, as necessary. Moreover, any pertinent feedback that management receives from shareholders as part of the Company's shareholder engagement practices (described in detail under the "Compensation Discussion and Analysis" section of this Proxy Statement), is reported to the Board for its consideration.

Spirit operated 48 A320neo aircraft, and all new aircraft purchased beyond 2021 will be A320neo family aircraft.

Our high-density seat configuration results in a smaller carbon footprint per passenger and increased fuel efficiency. Our new fuel policy, adopted in 2019, aims to reduce any excess planned fuel to save weight and fuel burn on our flights, as well as optimizing landing approaches for reduced fuel consumption and aircraft noise. All of our aircraft are equipped with new-generation "thin and light" ergonomic seats which reduce weight on board, and our baggage policies incentivize our Guests to bring fewer and lighter bags when they fly with us (for example, charging for carry-on bags and having an overweight limit of 40 pounds, compared to 50 pounds on most airlines). We seek to improve upon the foregoing measures and policies over time, and we take great pride in our worldwide industry-leading position as a carrier with one of the lowest carbon footprints per passenger.

Social

We work to strengthen and support the communities we serve. We encourage and engage our employees to help assist people and communities in need, promote equality and basic rights, and support efforts to attract a more diverse pipeline of talent to join the aviation/aerospace industry. In late 2020, the Company adopted a Human Rights Policy Statement to express our commitment to promote human rights among our guests, team members and business partners. A copy of the policy can be found at <http://ir.spirit.com>.

We are an official airline partner of the Department of Homeland Security and DOT Blue Campaign, which provides transportation companies with resources and awareness training materials to identify and prevent human trafficking. We also have an ongoing partnership with the International Aviation Women's Association, or IAWA, an international organization for women who hold positions of impact in the aviation and aerospace industries.

As a responsible corporate citizen, we view diversity, equity, and inclusion as an integral part of our culture and have a diverse workforce. We view our team members as key human capital to deliver long-term value to our shareholders, and consistently support their professional development.

Since its inception in 2017, The Spirit Airlines Charitable Foundation's main goal has been to provide assistance to individuals and groups facing financial and other hardships and to fund social projects, with a focus on children and families, service members, and the environment. To date, the Foundation has supported, via volunteerism or monetary and in-kind donations, to over 6,000 charities and foundations, while raising over \$3,500,000.

Governance

We are committed to excellence in corporate governance and we seek to incorporate best practices to guide our corporate behavior. We believe that strong corporate governance principles benefit our stockholders, as well as our guests, employees and the communities we serve. Many of the components of our

governance profile are described in this Proxy Statement. A copy of our corporate governance guidelines and certain other policies related to corporate governance are available on the Company's website at <http://ir.spirit.com>.

We consider employee engagement and development a critical aspect of our overall human resources strategy. Our leadership is committed to recruiting, retaining and engaging a workforce that inspires people to succeed. By building a workplace that celebrates diversity and inclusion, we are able to generate an environment of mutual respect and acceptance. Among other initiatives, we have implemented a leadership training program for women leaders in the Company. The Nominating and Corporate Governance Committee is responsible for the oversight of the Company's human capital management, and provides related guidance and advice. The Company's main approach to human capital management is to promote effective recruitment, management, and development practices for our workforce.

The Nominating and Corporate Governance Committee is also responsible for reviewing with the Board, on an annual basis, the appropriate skills, experience and background required for the Board as a whole and its individual members. Diversity of personal and professional backgrounds is an important factor taken into account by the Nominating and Corporate Governance Committee. We currently have three female directors, one of whom is of Hispanic descent.

Diversity, Equity, Inclusion, and Belonging

Diversity, equity, inclusion, and belonging (DEI&B) falls under the social pillar of ESG. We believe that a diverse workforce brings expanded creativity and perspective, leading to enhanced engagement and problem-solving capabilities, which in turn ultimately enhance our performance. We seek diverse talent internally and externally in an effort to achieve broader diverse representation throughout our Company. Our leadership team works alongside our human resources department to cultivate and measure programs and practices to encourage a diverse talent pipeline and to provide career development opportunities for our Team Members. We believe that hiring and retaining top talent is fully consistent with building a leadership that is reflective of our Team Members and Guests. By building a workplace that celebrates and promotes DEI&B, we create an environment where we can continue to drive change. Spirit was recognized by Forbes as one of America's best companies for diversity, equity, and inclusion. Forbes' fourth annual list of America's Best Employers for Diversity ranks the 500 employers that boast the most diverse boards and executive ranks, as well as the most proactive diversity and inclusion initiatives.

In 2020, we launched DEI&B Council Groups as safe spaces where Team Members can be heard, seen, and feel a sense of belonging. Council Groups are led by Team Members, and each is supported by Executive Champions. Current Council Groups include:

- Women Council Group & Allies
- Black Council Group & Allies
- LatinX Council Group & Allies
- Asian Council Group & Allies
- LGBTQIA+ Council Group & Allies

Some of our efforts include:

- opportunities to revise policies and talent processes to reduce bias and cultivate inclusivity
- commitment to continue development opportunities
- The Spirit Airlines Charitable Foundation offers scholarships to individuals from underrepresented socio-economic backgrounds, including women and minorities with financial needs who are pursuing their dreams of a career in aviation. Our annual and endowed scholarships are provided through several aviation organizations, universities, and colleges throughout the U.S.

Proposal No. 2: Ratification of Selection of Independent Registered Public Accounting Firm

The Audit Committee of the Board has selected Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2022 and is seeking ratification of such selection by our stockholders at the Annual Meeting. Ernst & Young LLP has audited our financial statements since 1995.

Representatives of Ernst & Young LLP are expected to attend our Annual Meeting. They will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

Neither our amended and restated bylaws nor other governing documents or law require stockholder ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm. However, the Audit Committee is submitting the selection of Ernst & Young LLP to our stockholders for ratification as a matter of good corporate practice. If our stockholders fail to ratify the selection, the Audit Committee will reconsider whether or not to retain Ernst & Young LLP. Even if the selection is ratified, the Audit Committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if they determine that such a change would be in the best interests of the Company and our stockholders.

To be approved, the ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm must receive a “FOR” vote from the holders of a majority in voting power of the shares of common stock which are present in person or represented by proxy and entitled to vote on the proposal. Abstentions and broker non-votes will be counted towards a quorum. Abstentions will have the same effect as an “AGAINST” vote for purposes of determining whether this matter has been approved. Broker non-votes will have no effect on the outcome of this proposal.

Pre-Approval Policies and Procedures

The Audit Committee pre-approves all audit and non-audit services provided by its independent registered public accounting firm. This policy is set forth in the charter of the Audit Committee and is available on the Company’s website at <http://ir.spirit.com>.

Proposal No. 3: Advisory Vote to Approve Executive Compensation

Pursuant to Section 14A of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), the Company is soliciting stockholders for a non-binding, advisory vote on compensation programs for our named executive officers (sometimes referred to as “say on pay”). In 2018, our stockholders voted on a proposal relating to the frequency of the “say-on-pay” vote. At that time, we recommended, and our stockholders approved on an advisory, non-binding basis, an annual say-on-pay vote. We agree with our stockholders and have included this advisory (non-binding) vote on the compensation of our named executive officers for fiscal year 2021.

Our stockholders have the opportunity to vote for, against or abstain from voting on the following resolution:

“RESOLVED, that the stockholders approve, on a non-binding, advisory basis, the compensation of the Company’s named executive officers as disclosed in the Compensation Discussion and Analysis, the accompanying compensation tables and the related narrative disclosure in this Proxy Statement.”

To be approved, this proposal must receive a “FOR” vote from the holders of a majority in voting power of the shares of common stock which are present in person or represented by proxy and entitled to vote on the proposal. Abstentions and broker non-votes will be counted towards a quorum. Abstentions will have the same effect as an “AGAINST” vote for purposes of determining whether this matter has been approved. Broker non-votes will have no effect on the outcome of this proposal.

At our 2021 annual meeting of stockholders, approximately 98% of the shares voted were cast in favor of our management “say on pay” resolution. The Compensation Committee believes those voting results affirm our stockholders’ support of our approach to executive compensation. The Company recommends that stockholders again approve and support the decisions pertaining

to the compensation of our named executive officers and the Company’s executive compensation programs.

As described in detail under the “Compensation Discussion and Analysis” section of this Proxy Statement, our compensation programs are designed to motivate our executives to create a successful company. Our philosophy is to make a significant percentage of an executive officer’s compensation “at-risk” by linking it to the Company’s performance. We believe that our compensation program, with its balance of short-term incentives (including annual performance-based cash bonuses) and long-term incentives (including performance-based equity and cash awards), encourages and rewards sustained performance that is aligned with long-term stockholder interests. Our compensation programs are also designed to enable the Company to attract and retain superior executives in a highly competitive and challenging marketplace. Stockholders are encouraged to read the “Compensation Discussion and Analysis” section of this Proxy Statement, the accompanying compensation tables and the related narrative disclosure.

Among other programs applicable to executive officers, the Company (i) does not pay tax gross-ups to its executives with respect to retirement, severance or change-in-control payments; (ii) maintains stock ownership guidelines applicable to all officers (and directors); (iii) maintains a robust clawback policy applicable to all executives; and (iv) has an anti-hedging and anti-pledging policy applicable to executives (and directors).

This vote is non-binding. The Board and the Compensation Committee expect to take into account the outcome of the vote when considering future executive compensation decisions to the extent they can determine the cause or causes of any significant negative voting results. Unless the Board modifies its determination on the frequency of future “say on pay” advisory votes, the next “say on pay” advisory vote will be held at the 2023 annual meeting of stockholders.

**THE BOARD OF DIRECTORS RECOMMENDS A VOTE

THE APPROVAL, ON A NON-BINDING, ADVISORY BASIS, OF THE COMPENSATION OF
OUR NAMED EXECUTIVE OFFICERS AS DISCLOSED IN THE COMPENSATION DISCUSSION
AND ANALYSIS SECTION OF THIS PROXY STATEMENT, THE ACCOMPANYING

- each named executive officer as set forth in the summary compensation table below;
- each of our directors; and
- all current executive officers and directors as a group.

Beneficial ownership is determined according to the rules of the SEC and generally means that persons have beneficial ownership of a security if they possess sole or shared voting or investment power of that security, including options and warrants that are currently exercisable or exercisable within 60 days and restricted stock units that vest within 60 days. Except as indicated by the footnotes below, we believe, based on the information furnished to

us, that the persons named in the table below have sole voting and investment power with respect to all shares of common stock shown that they beneficially own, subject to community property laws where applicable.

Common stock subject to stock options and warrants currently exercisable or exercisable within 60 days of the Record Date and restricted stock units that vest within 60 days of the Record Date are deemed to be outstanding for computing the percentage ownership of the person holding these options, warrants and restricted stock units and the percentage ownership of any group of which the holder is a member but are not deemed outstanding for computing the percentage of any other person.

Beneficial ownership is based on there having been 108,612,618 shares of our voting common stock outstanding as of the Record Date. Unless otherwise indicated, the address of each of the individuals and entities named below is c/o Spirit Airlines, Inc., 2800 Executive Way, Miramar, Florida 33025.

Delinquent Section 16(a) Reports

Section 16(a) of the Exchange Act requires the Company's directors and executive officers, and persons who own more than 10% of a registered class of the Company's equity securities, to file with the SEC initial reports of ownership and reports of changes in ownership of common stock and other equity securities of the Company. Officers, directors and greater than 10% stockholders are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file.

To the Company's knowledge, based solely on a review of the copies of such reports furnished to the Company and written representations that no other reports were required, during the year ended December 31, 2021, all Section 16(a) filing requirements applicable to our officers, directors and greater than 10% beneficial owners were complied with, except that Mr. Wiggins filed a late Form 4 on March 5, 2021, to report a sale transaction effected on March 1, 2021.

Non-Employee Director Compensation

2021 Non-Employee Director Compensation

We compensate our non-employee directors for their service on the Board, but do not pay director compensation to any director who is also an employee. In October 2019, after two years without any compensation increase under or modification to our non-employee director compensation plan, the Compensation Committee requested an updated analysis of the terms and conditions of our non-employee director compensation policy from Willis Towers Watson, the Compensation Committee's independent compensation advisor. Willis Towers Watson undertook a comprehensive review of board compensation trends, including the form and amount of cash compensation and equity grants, chairperson retainers and stock ownership guidelines. Considering that the Company would be competing for director talent and experience from a variety of businesses, Willis Towers Watson benchmarked the Board's compensation against both an airline peer group as well as a general industry group of similar-size companies (based on revenues). This benchmarking analysis indicated that the Board's compensation was below market-competitive levels, and therefore, Willis Towers Watson recommended revisions to the non-employee director compensation program to set compensation thereunder at approximately the market median level. After careful review of Willis Towers Watson's analysis and recommendation, the Compensation Committee approved, and the Board ratified, the following changes to the non-employee director compensation program, effective January 1, 2020 (the "2020 Non-Employee Director Compensation Policy"): (i) an increase to the general annual cash retainer to \$70,000 (ii) an increase to the annual equity compensation value to \$120,000 and (iii) the elimination of any per-meeting fees, regardless of the number of meetings held annually by the Board or any committee. The 2020 Non-Employee Director Compensation Policy, which remains in effect, is set forth below:

2021 Non-Employee Director Compensation Policy

General annual cash retainer (1)	\$ 70,000
Supplemental annual retainer: (1)	
Chairman of the Board	\$100,000(2)
Chair of the Audit Committee (in cash)	\$ 17,500
Chair of the Compensation Committee (in cash)	\$ 15,000
Chair of other standing committees (in cash)	\$ 6,000
Audit Committee members (in cash) (3)	\$ 10,000
Compensation Committee members (in cash) (3)	\$ 7,500
Other standing committee members (in cash) (3)	\$ 5,000
Annual equity-based grant (4)	\$120,000
Initial equity-based grant for new directors (5)	\$ 20,000

(1) Paid in quarterly installments.

(2) 50% in cash and 50% in restricted stock units vesting 100% in one year from grant date.

(3) Including committee chairs.

(4) Grant of restricted stock units, vesting 100% one year from grant date. Any new non-employee director appointed after annual equity based grants have been made to incumbent directors in any year, is entitled to receive an annual equity grant of restricted stock units, prorated to reflect his or her start date, vesting 100% one year from the grant date of the annual equity based grants made to incumbent directors.

(5) Grant of restricted stock units, vesting 100% one year from grant date.

No meeting fees have been paid under the 2020 Non-Employee Director Compensation Policy. Moreover, under the 2020 Non-Employee Director Compensation Policy, the cash compensation paid and the equity awards granted to any non-employee director during any calendar year may not exceed \$400,000 (or \$500,000 in the case of the Chairman of the Board) in total value (including the value of any such equity awards based on the grant date fair value). Under limited and extraordinary circumstances, the Compensation Committee can make exceptions to the foregoing annual limit, provided that the non-employee director receiving the additional compensation may not participate in the decision to award such compensation. The Compensation Committee's discretion to waive the annual limit has not been exercised to date. The annual limit will not apply to

the calendar year 2023 or any subsequent calendar year unless the Board approves an extension of the limit to a specified date occurring after December 31, 2022. Our non-employee directors are reimbursed for travel and other expenses incurred for attending meetings. Furthermore, consistent with prevailing practice in the airline industry, our incumbent non-employee directors and their immediate family members are afforded free positive-space personal air travel benefits on our airline, in our case up to a maximum value of \$5,000 per year. In addition, our retired non-employee directors who had served on the Board for a period of at least five years ended on or after June 1, 2015, are eligible for lifetime post-retirement positive-space air travel on our airline for the former non-employee director and, until the death of the former non-employee director, for his or her spouse or designated

travel companion and dependent children, up to a maximum value of \$5,000 per year. Our non-employee directors are not eligible for retirement benefits nor do they receive perquisites such as life or medical insurance provided by the Company.

We maintain a deferral program under which each non-employee director may, at his or her election and prior to the grant date, defer settlement of 100% of his or her vested restricted stock units until the earliest of (a) 360, 720 or 1,080 days following the vesting of the restricted stock units (with the non-employee director affirmatively selecting the number of days); (b) a change of control; and (c) a termination of service.

Under the Company’s stock ownership guidelines, non-employee directors are required to meet a share ownership level with a minimum value equal to 5.0 times the base annual cash retainer payable to non-employee directors (one-third of which must be owned outright in the form of shares of our common stock). Non-employee directors are expected to meet their ownership levels within five years of becoming subject to the guidelines. All of our non-employee directors who have served at least five years are currently in compliance with the guidelines.

The following table sets forth information concerning the compensation earned by our non-employee directors during the year ended December 31, 2021.

The 2020 Non-Employee Director Compensation Policy is designed to ensure alignment with long-term stockholder interests. The policy is also designed to (i) ensure that the Company can attract and retain outstanding director candidates, (ii) recognize the substantial time commitment necessary to oversee the affairs of the Company and (iii) support the independence of thought and action expected of directors.

In 2021, general and supplemental annual cash retainers were paid to our non-employee directors per the terms of our program (as set forth above). Moreover, on January 13, 2021, each of our non-employee directors received a grant of 4,769 restricted stock units with 100% of such grants vesting on January 13, 2022. Also, on January 13, 2021, Mr. Gardner received an additional grant of 1,987 restricted stock units with 100% vesting on January 13, 2022, representing 50% in value of his annual retainer as Chairman of the Board. Prior to the 2021 restricted stock unit grants, Mr. Donaway and Ms. Soto, elected to defer settlement of their restricted stock units to the earliest to occur of 1,080 days following the vesting of such units, a change of control or a termination of service as a director.

2022 Non-Employee Director Compensation

It has been the practice of the Compensation Committee to review the competitiveness of our compensation program for non-employee directors every two years rather than annually. As such, the Compensation Committee did not make any changes to the 2020 Non-Employee Director Compensation Policy described above. Accordingly, on January 13, 2022, each of our non-employee directors received a grant of 5,046 restricted stock units with 100% of such grants vesting on January 13, 2023. Also on

January 13, 2022, Mr. Gardner received an additional grant of 1,987 restricted stock units with 100% vesting on January 13, 2023, representing 50% in value of his annual retainer as Chairman of the Board. Mr. Jones and Ms. Soto elected to defer settlement of their 2022 grant of restricted stock units to the earliest to occur of 1,080 days following the vesting of such units, a change of control or a termination of service as a director. For 2022, general and supplemental annual cash retainers are expected to be paid to our non-employee directors per the terms of our program, as set forth above.

Compensation Discussion and Analysis

The following discussion and analysis of compensation arrangements of our named executive officers, or NEOs, should be read together with the compensation tables and related disclosures in the “Executive Compensation” section of this Proxy Statement. This discussion contains forward-looking statements that are based on our current plans, considerations, expectations and determinations regarding future compensation programs.

Our Compensation Committee is appointed by the Board and is responsible for establishing, implementing, and monitoring adherence to our compensation philosophy. We seek to ensure that the total compensation paid to our executive officers is fair, reasonable and competitive.

The Compensation Committee engaged Willis Towers Watson as the Compensation Committee’s independent compensation advisor for the first quarter of 2021, and engaged and appointed Korn Ferry as the Compensation Committee’s independent compensation advisor (each of such firms, for the relevant periods, the “Compensation Consultant”) for the remainder of the year. The Committee also retained external legal counsel during 2021. Each year, the Compensation Committee evaluates the qualifications, performance and independence of its compensation consultant and reviews the performance of its legal counsel. During 2021, the Compensation Committee reviewed information regarding the independence and potential conflicts of interest of the Compensation Consultant and external legal counsel. The Compensation Committee members took into account, among other things, the factors enumerated by the SEC and the NYSE for evaluating compensation advisor independence and concluded that the Compensation Consultant is independent and that no conflict of interest currently exists with respect to the work

performed by the firm. Representatives of the Compensation Consultant and external legal counsel have direct access to Compensation Committee members (and vice versa) without management involvement. The Compensation Committee has sole authority to replace its compensation consultant and/or legal counsel from time to time and to hire additional consultants and legal counsel at any time. Representatives of Willis Towers Watson or Korn Ferry participated in all meetings of the Compensation Committee in 2021.

With respect to executive compensation approved for the year 2021, the Compensation Committee based its decisions in part on comparative compensation market data provided by the Compensation Consultant. The Compensation Committee also considered input provided by Mr. Christie, who served as our CEO during 2021, with respect to compensation of our other NEOs. However, Mr. Christie does not provide input for the Compensation Committee’s determination of his own compensation. Decisions of our Compensation Committee pertaining to the compensation of our NEOs and the Company’s executive compensation programs are regularly reported to, and in some instances presented for approval by, the full Board. We continue to be committed to shareholder engagement, communication and transparency, and in designing our compensation policies, we endeavor to ensure that management’s interests are aligned with those of our stockholders and that such policies support long-term value creation. Our long-standing compensation philosophy to pay our executive officers for performance, measured against Company goals, remained an integral part of our overall compensation program in 2021.

Our NEOs for 2021 were as follows:

- Edward M. Christie III, President and Chief Executive Officer
- Scott M. Haralson, Senior Vice President and Chief Financial Officer
- John Bendoraitis, Executive Vice President and Chief Operating Officer
- Matthew H. Klein, Executive Vice President and Chief Commercial Officer
- Thomas C. Canfield, Senior Vice President, General Counsel and Secretary

2021 Company Performance Highlights

As a result of the COVID-19 pandemic, we experienced sharp declines in passenger demand and bookings beginning in March 2020 that lasted throughout 2020, and 2021. Since its initial onset in early 2020, the impact of the COVID-19 pandemic, including any of its variants, has evolved and remains fluid. While air travel demand improved during 2021, as compared to the majority of 2020, we still experienced significantly weakened passenger demand and bookings as compared to pre-pandemic levels. Below are some highlights of our 2021 performance:

Key Financial and Operational Metrics

- Generated a net loss of \$472.6 million, compared to a net loss of \$428.7 million in 2020. On an adjusted like-for-like basis, the net loss was \$440.6 million, compared to a net loss of \$719.6 million in 2020.
- Generated operating revenues of \$3.2 billion, a 79% increase compared to 2020
- Ended the year with \$1.7 billion of liquidity comprised of unrestricted cash and cash equivalents, short-term investment securities and funds available under our revolving credit facility due in 2024
- Grew passenger traffic by 66.3%, as air travel demand partially rebounded
- Maintained adjusted cost per available seat mile ex-fuel among the lowest of any airline in the United States at 6.74 cents
- Increased capacity by 47.0%

Measures Taken to Preserve Cash and Enhance Liquidity

- On April 30, 2021, the Company improved its liquidity and financial position through the public offering of \$500.0 million in 1.00% convertible notes due 2026, the issuance of 10,594,073 shares of the Company's voting common stock for which it received net proceeds of \$370.8 million, the extinguishment of \$146.8 million in principal amount of the Company's 4.75% convertible notes due 2025 and the extinguishment of \$340.0 million in principal amount of the Company's 8.00% senior secured notes due 2025
- Additionally, the Company repaid all outstanding indebtedness under its Senior Secured Revolving Credit Facility (the "Revolver") due March 2024. As of December 31, 2021, the Company had no outstanding indebtedness under the Revolver, which has a total of \$240 million in available capacity

Fleet

- Grew the fleet from 157 to 173 aircraft between year-end 2020 and year-end 2021.
- As of year-end 2021, the aircraft fleet had an average age of 6.8 years, making it one of the youngest and most fuel-efficient fleets of any major U.S. airline

Network Expansion, Guest Experience & Loyalty

- Launched service to eight new destinations: Louisville, Kentucky; St. Louis, Missouri; Milwaukee, Wisconsin; Pensacola, Florida; Puerto Vallarta, Mexico; Manchester, New Hampshire; Miami, Florida; Tegucigalpa, Honduras
- Launched a new Free Spirit® loyalty program in 2021—which offers enhanced ability to earn rewards and status—alongside the new Spirit Saver\$ Club

Recognitions & Accomplishments

- For the fourth year in a row, achieved the FAA's highest award for Technical Training, the Diamond Award of Excellence. This award is achieved only if 100% of technicians receive the FAA's Aircraft Maintenance Technician ("AMT") Certificate of Training
- Recognized by Forbes as one of America's best companies for diversity, equity, and inclusion. Forbes' fourth annual list of America's Best Employers for Diversity ranks the 500 employers that boast the most diverse boards and executive ranks, as well as the most proactive diversity and inclusion initiatives

Covid-19 Related Compensation Restrictions

In April 2020, we entered into a Payroll Support Program ("PSP") with the United States Department of the Treasury ("Treasury") under the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"). In connection with our participation in the PSP, we are subject to restrictions on the amount of total compensation that we can provide to all of our NEOs. In January 2021 and April 2021, we entered into Payroll Support Programs ("PSP2") and ("PSP3") respectively, which effectively extended the same compensation restrictions until April 1, 2023. The restrictions include limiting annual compensation and benefits and limiting the amount of severance compensation payable upon certain terminations. We intend to comply with all CARES Act compensation restrictions.

Pay-For-Performance Alignment

As noted below, we have designed the compensation program for our executive officers to be responsive to the performance of our Company by making a high percentage of our NEOs' annual compensation "at risk" and tied to various performance metrics. In the case of awards approved in 2021, such metrics included (i) Company financial and operating metrics and strategic goals used to determine payouts under our annual short-term cash incentive plan; (ii) Company stock price performance and operating margin performance, which are used to determine the settlement amount of our Market Stock Unit ("MSU") and relative adjusted operating margin performance share unit ("Op-Margin PSU") awards; and (iii) Company financial performance used to determine the settlement amount of our cash-based Performance Long-Term Incentive awards. Consistent with the foregoing pay-for-performance philosophy, the variability of the following performance-driven payouts also demonstrates the alignment of our executives' interests with our stockholders' interests:

Short Term Incentive (STI) Payouts

2021

- Given the uncertainty and volatility in the market, the Company divided the STI into 4 quarterly performance periods. In April 2021 the Compensation Committee approved 1st quarter STI payout equal to 159.7% of target and in February 2022 the Compensation Committee approved 2nd, 3rd and 4th quarter STI payout equal to 135.2%, 68.6% and 110.8% respectively of target. Resulting in an annualized opportunity of 118.6% of target.

2020

- The Company did not meet the required minimum level of net income (50% of the net income forecast for 2020, before potential effects of the pandemic were known). This resulted in a zero payout to NEOs under the Company's short-term incentive plan for 2020.

PSU (based on TSR) Payouts

2021

- The performance share units based on relative total shareholder return granted in 2019 to our executive officers for the 2019-2021 performance cycle, settled in January 2022 with a zero payout, based on a result falling below threshold.

2020

- The performance share units based on relative total shareholder return granted in 2018 to our executive officers for the 2018-2020 performance cycle, settled in January 2021 with a zero payout, based on a result falling below threshold.

PSU (based on Op Margin) Payouts

2021

- The performance share units based on adjusted operating margin, granted in 2019 to our executive officers for the 2019-2021 performance cycle, settled in March 2022 with a 77.66% payout, based on operating margin performance ranking sixth out of a ten-member peer group.

2020

- The performance share units based on adjusted operating margin, granted in 2018 to our executive officers for the 2018-2020 performance cycle, settled in March 2021 with a 100% payout, based on operating margin performance ranking fifth out of a ten-member peer group.

With respect to long-term incentive awards, the Compensation Committee also monitors the actual amounts received, or realized, upon settlement by the Company's executive officers to assess the effectiveness of the pay-for-performance program and gauge the alignment of our executives' interests with those of our stockholders.

Executive Compensation Philosophy and Objectives

The market for experienced management talent is highly competitive inside and outside our industry. Airline industry consolidation, as well as new airline startups, have intensified that competitiveness. Our goal is to attract, motivate and retain executives with the talent and experience necessary for us to achieve our strategic business plan and to effectively manage each of our business functions. In doing so, we draw upon a pool of talent that is highly sought after within the airline industry and elsewhere in the travel, hospitality and general industries. Within this talent pool, we seek individuals who we believe will be able to contribute to our unique ultra low-cost operating model and our vision of future success, our culture and values, and who will enhance the cohesiveness and productivity of our leadership team. We regard as fundamental that executive officer compensation be structured to provide competitive base salaries and benefits to attract and retain superior executive officers, and to provide incentive compensation to motivate executive officers to attain, and to reward executive officers for attaining, established financial, operational and other goals that are consistent with increasing stockholder value.

Since our initial public offering in 2011, and with the input and assistance of our Compensation Consultants, our Compensation

Committee has adhered to a comprehensive executive compensation program designed to provide appropriately a balanced mix of (i) fixed versus at-risk variable compensation, (ii) annual versus long-term compensation and (iii) cash versus equity-based compensation. As further described below, our executive compensation program is structured around four primary components: fixed base salary, annual cash incentive compensation (bonuses) linked to performance targets, equity-based long-term incentive compensation consisting of a combination of restricted stock units ("RSUs"), performance share units ("PSUs") and market stock units ("MSUs"), and cash-based long-term incentive compensation linked to long-term financial performance. MSUs are a hybrid of stock options and RSUs that reward for absolute stock price appreciation. MSUs are settled at the end of 3rd year based absolute share price performance measured at the end of 1st, 2nd, and 3rd years.

Shareholder engagement, communication and transparency are important factors considered when we design our compensation policies. The Company communicates regularly with shareholders on various key matters, including executive compensation, and seeks to incorporate shareholder feedback into its executive compensation practices.

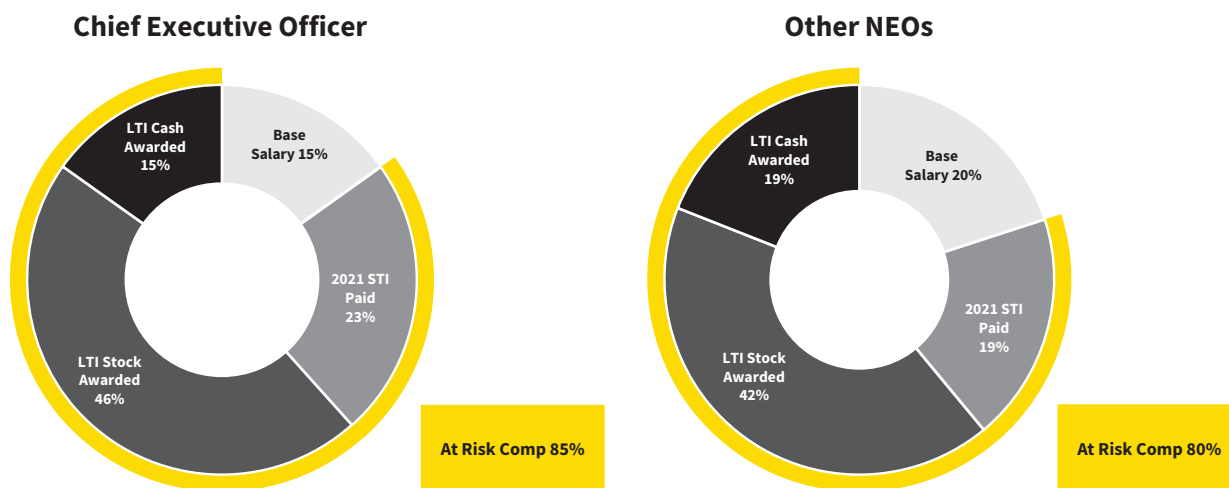

COMPENSATION DISCUSSION AND ANALYSIS (continued)

In determining the form and amount of compensation payable to our NEOs, we are guided by the following principles:

- **Compensation levels should be competitive to attract and retain key executives.** We aim to provide an executive compensation package that attracts, motivates and retains high performing talent and rewards our executives for achieving and maintaining a strong competitive position in our industry. Total compensation (*i.e.*, maximum achievable compensation) increases with position and responsibility.
- **Compensation should relate directly to performance, and “at risk” incentive compensation should constitute a significant portion of total compensation.** We aim to foster a pay-for-performance culture, with a significant portion of total compensation being “at risk.” Accordingly, a significant portion of total compensation (both short-term and long-term) is tied to, and varies directly with, with our financial, operational performance and our achievement of defined strategic goals, as well as individual performance. Executives with greater roles and the ability to directly impact our strategic goals and our financial and operational results should bear a greater proportion of the risk if these goals and results are not achieved. The amount of “at risk pay” is structured accordingly.
- **Incentive compensation should align executives’ interests with our stockholders’ interests.** Awards of short-term incentives, consisting of annual cash bonus opportunities, encourage executives to focus on achieving short-term performance objectives that drive creation of shareholder value. Awards of long-term incentives, comprised mainly of equity-based compensation, encourage executives to focus on achieving our long-term growth objectives and incentivize executives to manage the Company from the perspective of stockholders, as well as to focus on retention and on a long-term career orientation.

The graphics below illustrate the mix of compensation elements for our NEOs in 2021, reflecting our emphasis on performance-based compensation.

Note: the compensation data for the above pie charts was determined as follows: “Base Salary” represents the salary earned and paid in 2021; “Short Term Cash Incentive (STI)” represents a combined average payout factor of 118.6% of the target bonus opportunity based on the Company’s performance against the performance goals set for four distinct performance periods (described in more detail in the “Performance-Based Short-Term Incentives” subsection below); “LTI Cash Awarded” represents value of cash-based Performance Long-Term Incentive awards; and “Long Term Equity Incentive” represents the aggregate grant date fair value of the equity-based grants awarded in 2021 (described in more detail in the “Equity-based long-term incentives” subsection below).

What We Do and Do Not Do

WE DO	WE DO NOT
✓ Target each compensation component (salary, STI, LTI, etc.) for our NEOs generally at the market median (50th percentile)	✗ Allow hedging or pledging of Company securities
✓ Pay for performance and, accordingly, a significant portion of each NEO's total compensation opportunity is "at risk" and dependent upon achievement of specific corporate and individual performance goals	✗ Encourage unnecessary or excessive risk taking as a result of our compensation policies and practices
✓ Base our short-term incentive plan on multiple performance measurements, including financial and operational metrics and strategic goals	✗ Have employment agreements with any of our NEOs other than with our CEO
✓ Complement our annual compensation to each NEO with time-based and performance-based multi-year vesting schedules and performance cycles for equity incentive awards	✗ Provide a defined benefit pension plan or any supplemental executive retirement plan or other form of non-qualified retirement plan for our NEOs
✓ Base any annual base salary adjustments and annual long-term equity awards to our NEOs, partially, on prior-year individual performance	✗ Provide for any "gross ups" for any excise taxes imposed with respect to Section 280G (change-in-control payments) or Section 409A (nonqualified deferred compensation) of the U.S. Internal Revenue Code of 1986, as amended (which we refer to as the "Code")
✓ Select and use a peer group of similarly sized companies that reflect the marketplace for talent in which we compete to assess the compensation of our Chief Executive Officer, Chief Operating Officer and Chief Commercial Officer, review and consider peer group and general industry survey data to assess the compensation of our Chief Financial Officer and General Counsel, and select and use a peer group of publicly traded airline companies to compare and rank the Company's total shareholder return and adjusted operating margin	✗ Provide for single-trigger vesting acceleration of all time-based equity awards upon a change in control of the Company unless the acquirer does not assume or replace such awards
✓ Maintain a robust clawback policy pursuant to which the Company can seek reimbursement of either cash or equity based incentive compensation in the event of a financial restatement or other scenarios involving fraud, negligence or misconduct that cause reputational or financial harm	✗ Allow any repricing of stock options/stock appreciation rights without stockholder approval or unlimited transferability of awards
✓ Have stock ownership guidelines for our executives and non-employee directors	
✓ Engage an independent compensation consultant to advise the Compensation Committee, which is comprised solely of independent directors	
✓ Provide for minimum vesting of awards (<i>i.e.</i> , one year following the date of grant) and maximum award limits (<i>i.e.</i> , 1,000,000 shares for options and stock appreciation rights and 300,000 shares or \$10 million for other types of awards)	
✓ Conduct regular executive sessions of our Compensation Committee from which executives and other employees are excluded	
✓ Ensure that a significant portion of our non-employee director compensation consists of time-vested restricted stock units	
✓ Have an annual limit on the compensation (both cash and equity-based) that may be paid to any non-employee director during any calendar year	

Results of 2021 Advisory Vote on Executive Compensation and Stockholder Engagement

At our annual meeting of stockholders in May 2021, our stockholders once again expressed support for our compensation programs and the compensation of our NEOs, with an approval rate of approximately 98% for our management “say on pay” resolution. The Compensation Committee carefully evaluated the results of the 2021 “say on pay” vote, and consistent with recommendations from Compensation Consultant, made no significant changes to the overall design of our compensation program during 2021.

The Company communicates regularly with shareholders on various matters, including executive compensation, and seeks to incorporate shareholder input into its executive compensation practices. The Compensation Committee will continue to take into account stockholder feedback and evolving best practices in making compensation decisions in future years and will endeavor to ensure that management’s interests are aligned with those of our stockholders and support long-term value creation.

Determination of Compensation

The Compensation Committee meets periodically to specifically review and determine adjustments, if any, to the CEO’s compensation, including his base salary, annual bonus compensation and long-term equity awards, and to review and consider recommendations of the CEO with respect to the other NEOs’ base salaries, annual bonus compensation and long-term equity awards. For 2021, as more fully described below, the Compensation Committee determined each individual component of compensation for our NEOs. The Compensation Committee annually evaluates our company-wide performance against the approved operating plan for the prior fiscal year. The Compensation Committee also meets periodically to discuss compensation-related matters as they arise during the year. For each year, our CEO evaluates each other NEO’s individual performance and contributions to the Company’s success and reports to the Compensation Committee his recommendations regarding each element of the other NEOs’ compensation. The CEO does not participate in any formal discussion with the Compensation Committee regarding decisions on his own compensation, and on request of the Compensation Committee he recuses himself from meetings when his individual performance is evaluated, and his compensation is discussed and decided.

The Compensation Consultant has worked closely with the Compensation Committee to determine an appropriate executive compensation strategy that supports our core business objectives: maintaining low costs, profitable growth, safe and reliable operations, sound cash flow and long-term value creation. In considering approaches to executive compensation, the Compensation Committee continuously reviews ways to strengthen the alignment of management’s interests with the interests of shareholders, strengthen our ability to attract, motivate and retain key executive talent and design plans that account for the relatively high volatility and cyclicity of our industry.

In order to assist the Compensation Committee in setting appropriate compensation plans, performance metrics and target amounts, the

Compensation Consultant conducts annual assessments of our executive compensation program. Due to the compensation restrictions imposed by the CARES Act and the volatile market conditions, the Compensation Committee utilized the benchmarking data from the 2020 assessment as the basis for the year 2021 compensation decisions. The Compensation Committee also conducted benchmarking assessments for specific individual positions as deemed necessary. In December 2019, the Compensation Committee approved a group of publicly traded airline companies as the appropriate talent-competitor peer group for compensation market comparison purposes for 2020 (the “Compensation Peer Group”, listed in more detail below). The selection of companies for the Compensation Peer Group focused on a mix of passenger carriers as an appropriate population for assessing the amounts and percentile rankings of compensation elements for NEOs, including base salaries, short-term incentives (bonuses) and long-term equity-based incentives. Data for Allegiant Travel Company’s CEO (who is also a large shareholder of that company) was excluded due to particularities of that executive’s pay package.

After consideration, and recommendations from the Compensation Consultant, the Compensation Committee approved to maintain the Compensation Peer Group selected in December 2019, except that WestJet Airlines was subsequently removed after being acquired and going private. For the 2020 Compensation program assessment, Willis Towers Watson primarily used the Compensation Peer Group to assess the competitiveness of our Chief Executive Officer’s, Chief Operating Officer’s and Chief Commercial Officer’s compensation, as these positions would normally be recruited from other passenger airlines. In assessing the compensation of our Chief Financial Officer and General Counsel, Willis Towers Watson used a blended approach consisting of both Compensation Peer Group proxy data and general industry survey data, adjusted for revenue size, as these positions could also generally be recruited from companies in other industries. For its analysis prepared for 2020 compensation purposes, Willis Towers Watson used data taken from the following three executive pay surveys:

- Seabury Consulting 2019 *Airline Industry Management Compensation Survey (aviation industry)*;
- Willis Towers Watson 2019 *General Industry Executive Compensation Survey (general industry)*; and
- Mercer 2019 Mercer Airline and Transportation survey.

The data from the two general industry executive surveys reflected companies with revenues approximating the revenues of the Company. The Compensation Committee was not aware of the individual participating companies in the surveys and reviewed the data in a summarized fashion.

For purposes of measuring our performance on (i) adjusted operating margin for the performance share units awarded to our executive officers in 2021 and, (ii) metrics as part of the 2021 STI Plan (as described in more detail below), in December 2020 the Compensation Committee approved a broader group of publicly-traded airline companies as a relevant peer group (the “Short-Term Incentive Peer Group” and “Performance Share Op Margin Peer Group,” as applicable). For 2021, the Compensation Committee removed SkyWest from the Op-Margin peer-group compared to the one used in 2020, because, as a regional contract carrier that airline operates under a very different business model than that operated by the Company.

Below are the Company’s 2021 peer groups:

Airline

Alaska	X	X	X
Allegiant	X	X	X

(1) Frontier was added to the Short-Term Incentive peer group in 3rd quarter performance period.

Compensation Philosophy and Market Positioning

For 2021, the Compensation Committee opted to continue the past practice of setting the target-pay positioning at the median (50th percentile) for each element of pay. The Compensation Committee determined that this was necessary to attract and retain seasoned and industry-leading executive talent to support Spirit’s growth profile. The CARES Act compensation restrictions limit increases in the NEO’s compensation until the end of restriction period. With the CARES Act compensation restrictions, the scope for making compensation changes to NEOs were limited until the of the end of restriction period. Within this general framework and following the recommendation of Compensation Consultant, the Compensation Committee has approved the following compensation philosophy based on our objectives and unique business model:

- **Base Salary:** Determined based on scope of responsibility, experience, and performance. It is set at competitive level based on market median to attract and retain high-performing and experienced leaders.
- **Short-Term Incentive:** In order to appropriately reward achievement of our annual business and financial objectives, target short-term incentives are set at market median levels.

- **Long-Term Incentive:** To incentivize profitable longer-term growth, increase alignment with shareholder interests and provide for retention of key talent, target long-term incentives are set at market median levels.

Along with the above-described elements of compensation, the Committee seeks to align target total cash compensation (TCC, consisting of base salary and target short-term incentive) and Target total direct compensation (TDC consisting of TCC and Long-term Incentive) with market median levels.

We believe our executive compensation philosophy will enable us to maintain our competitive position for key executive talent by targeting market median for each element of compensation. The Compensation Committee reserves discretion to deviate from the above guidelines as necessary to account for changing industry characteristics, our particular business model, individual performance, economic factors outside our control, and other factors. An analysis prepared by Compensation Consultant in December 2019 indicated that our NEOs’ 2020 Compensation is aligned with the desired pay positioning, approximating the 50th percentile of the market.

Elements of Compensation

For 2021, our compensation program for our NEOs consisted of four components:

- base salary
- cash incentive program (bonus) with quarterly performance periods
- equity-based and cash-based long-term incentives
- benefits

We are continuing to build our executive compensation program around each of the above elements because each individual component is useful in achieving one or more of the objectives of the program and we believe that, collectively, they are effective in achieving our overall objectives.

1. **Base Salary.** We provide our NEOs and other employees with a base salary to compensate them for services rendered during the year and to provide them with a minimum level of guaranteed pay. The base salary payable to each NEO is intended to provide a fixed component of compensation reflecting the executive's skill set, experience, role and responsibilities. Base salary amounts are established based on consideration of, among other factors, the scope of the NEOs' responsibilities, ability to contribute to the Company's success, years of service and individual job performance and the Compensation Committee's general knowledge of the competitive market, based on, among other things, experience with other companies and our industry and market data provided by the Compensation Consultant.

The Compensation Committee did not increase annual base salaries of Messrs. Christie, Bendoraitis, Klein and Canfield in 2021. Effective July 1, 2021, the annual base salary of Mr. Haralson increased to \$400,000, representing an increase of 6.7%. The increase for Mr. Haralson was implemented to bring his salary closer to the 25th percentile of the market. The NEOs' 2021 base salaries are set forth under the "Summary Compensation Table" below and are prorated, when applicable, to reflect the changes made.

2. **Performance-Based Short-Term Incentives.** Cash bonuses are intended to provide incentives to meet or exceed company-wide financial and operating performance objectives. Generally, all of our NEOs and other executive officers are eligible for annual cash bonuses, which are determined annually based on achievement of a set of pre-established financial and operational performance metrics established for the year at or shortly after the time of the Board's approval of the annual operating plan. To improve employee motivation and the visibility of payouts during the challenging conditions of operating during a pandemic, the Compensation Committee decided to divide 2021 STI plan into four quarterly performance periods. The Compensation Committee maintains the ability to apply certain discretion to any cash bonus payouts, including making adjustments based on the Company's safety performance and any unanticipated unusual circumstances that may arise during the performance year.

Our short-term incentive bonus program is administered by the Compensation Committee. For each quarterly measurement period, the Compensation Committee approves (i) the performance metrics; (ii) the weighting of the performance metrics; (iii) the threshold, target and stretch (maximum) performance levels for each metric and the percentage payouts for the performance levels (usually zero for less than threshold performance, 100% of target value for target performance and 200% of target value for stretch or maximum performance); and (iv) the target bonus opportunity for officer positions, expressed as a percentage of base salary. After the performance results are available (following each quarter in 2021), the specific bonus payments are calculated using the formula embodied in the short-term incentive plan, and may include discretionary adjustments as the Compensation Committee may approve based on individual performance and other factors. Incentive bonuses for executives are awarded under, and subject to the terms and conditions of, our 2015 Incentive Award Plan described below. Moreover, as described below, we maintain a robust clawback policy covering incentive compensation (both cash and equity-based) paid to our executive officers to further align management with the interests of stockholders over the long term.

In December 2020, the Compensation Committee, after considering our Company objectives, the operating plan for the year 2021 and market conditions, decided to set quarterly goals and measurement periods as part of the 2021 short-term incentive plan for our executive officers. The quarterly measurement periods were intended to address uncertainty in the business environment, align STI plan to a more near-term business focus, improve management’s line of sight to incentive awards and provide flexibility to shift focus during the course of the year as appropriate. The payment for the 1st quarter was made in the 2nd quarter after completing the measurement, and the combined payment for the 2nd, 3rd and the 4th quarters were made after all the 3 quarters measurement were complete in 1st quarter 2022. STI payout was structured as described above to be compliant with CARES Act compensation restrictions. During 2021, the target bonus opportunity was maintained at: 125% of base salary for our President and CEO, Mr. Christie, at 90% of base salary for executive vice presidents Messrs. Bendoraitis and Klein, and at 70% of base salary for senior vice president, Mr. Canfield. To better align short-term incentives target of CFO to the market, the Compensation Committee increased Mr. Haralson’s target bonus opportunity from 70% to 80% of base salary effective July 1st, 2021.

The following table sets forth the performance metrics for each of the quarter and the weightings of the adjusted EBITDA margin, on-time performance, and strategic objectives:

Metric	First Quarter Weighting	Second Quarter Weighting	Third Quarter Weighting	Fourth Quarter Weighting
Relative Adjusted EBITDA Margin Ranking ⁽¹⁾	40%	40%	40%	40%
A:14 ⁽²⁾	35%	35%	35%	25%
Strategic Objectives ⁽³⁾	25%	25%	25%	35%

- (1) “Adjusted EBITDA Margin,” expressed as a percentage, equal to the quotient of: (A) the sum of (i) Revenue, less Adjusted Operating Expenses excluding special items and gains/losses on assets, plus (ii) Depreciation and Amortization Expenses, divided by (B) Revenue.
- (2) Percentage of flights that arrive at the destination gate within 14 minutes of scheduled arrival time is defined as A:14 performance percent achievement
- (3) Strategic Objectives were set based on Company business priorities for each quarter in 2021.

Payouts for each of the metrics would vary, on a linear or ordinal basis as follows:

Stretch Performance	200%
Target Performance	100%
Threshold Performance	50% for A:14; 0%-100% for all other metrics
Below Threshold	0%

In setting the foregoing goals and corresponding payout levels, the Compensation Committee carefully considered and scrutinized certain industry data, past performance, and approved criteria which, while considered difficult to achieve, incentivizes the Company’s executive officers to deliver strong performance against our financial and operational objectives. As in prior years, the Compensation Committee also reserved discretion to reduce payouts in light of safety events occurring during the year and also to adjust for other factors it deems relevant in assessing actual performance in 2021 as compared to our 2021 operating plan.

Following are the performance results for each of the metrics and the resulting payout percentages:

- For the 1st quarter Spirit’s relative EBITDA margin ranking was 2nd compared to target level performance level of 5th, A:14 performance was above target level with a payout percentage of 166%, and both strategic objectives performance was at maximum level, resulting in an overall payout percentage of 159.7%.
- For the 2nd quarter Spirit’s relative EBITDA margin ranking was 2nd compared to target level performance level of 5th, A:14 performance was above target level with a payout percentage of 105%, performance of the first strategic objective was above target but below the stretch level and performance of the second strategic objective was at stretch level, resulting in an overall payout percentage of 135.2%.
- For the 3rd quarter Spirit’s relative EBITDA margin ranking was 8th compared to target level performance level of 5th, A:14 performance was below threshold level with a payout percentage of 0%, and the performance of both strategic objectives at stretch level, resulting in an overall payout percentage of 68.6%.
- For the 4th quarter Spirit’s relative ranking was 7th compared to target level performance level of 5th, A:14 performance was above target level with a payout percentage of 112%, performance of the first strategic objective was at stretch level and performance of the second strategic objective was above target but below the stretch level, resulting in an overall payout percentage of 110.8%.

Over the four quarters, the “Strategic Goals” corresponded to key operational Company objectives. These included, but were not limited to, Operational goals, Fleet goals, Staffing goals, and Diversity goals. The Compensation Committee not only approved the categories of strategic goals, but also the performance that would yield Threshold, Target, and Maximum payouts in each category.

3. **Long-Term Incentives.** We believe that long-term performance is strengthened through rewards that encourage long-term decision making and performance by our executive officers. To enhance the motivation of our executive officers to drive a successful recovery from the COVID-19 pandemic, to address retention concerns under the extraordinary circumstances of the airline industry caused by the COVID-19 pandemic and to align the Company’s strategic priorities, the Compensation Committee decided to award a cash-based long-term performance incentive along with the equity-based LTI in 2021.

3 a. **Equity-based Long-Term Incentives.** The equity awards we make to our executive officers are designed to align our executives’ compensation with demonstrable long-term Company performance and to reward superior performance (measured both against internal goals and peer performance), to align their interest in building value with that of our shareholders by promoting equity ownership and to enhance retention of key senior management talent. After consultation with Compensation Consultant, to address the high volatility of airline shares prices and general uncertainty in the airline industry and to enhance the retention of the key leadership talent, the Compensation Committee decided to, (i) replace the PSUs based on relative total shareholder return (“TSR PSU”) with performance market stock units (MSUs). MSUs are a hybrid of stock options and RSUs that reward for absolute stock price appreciation (MSUs as further described below), and (ii) modify the mix of LTI vehicles to 50% RSUs, 25% Op-margin PSUs and 25% MSUs. The Compensation Committee considered that the grant of MSUs and the change in the equity mix would enhance the retention value of our equity-based grants while keeping the focus on the key metrics of share price appreciation and profitability as we seek to emerge from the pandemic.

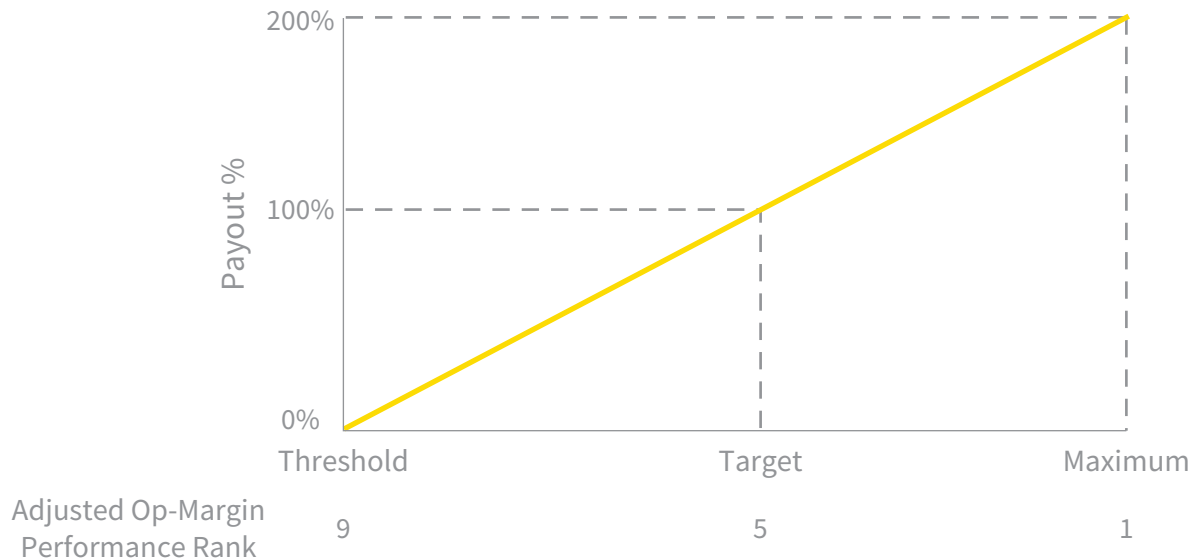

After consultation with the Compensation Consultant, the Compensation Committee determined that equity awards under the 2021 long-term incentive program would be split as follows:

Performance Based LTI	{	50%	RSUs, vesting in equal annual increments over three years
		25%	PSUs, with the number of shares settled based on relative adjusted operating margin measured over a three-year period
		25%	MSUs, with the number of shares settled at the end of 3 rd year, based absolute share price performance measured at the end of 1st, 2nd, and 3rd years

The pay-for-performance component of the Company’s 2021 long-term incentive program utilized a mix of share price performance and relative adjusted operating margin as performance metrics for both cash and equity-based incentive awards. Adjusted operating margin is an amount, expressed as a percentage, equal to (i) total operating revenue minus total operating expenses (excluding special items and gains or losses on disposal of assets) *divided* by (ii) total operating revenue.

The PSUs based on adjusted operating margin, granted in 2021, are to be settled in a number of shares of common stock ranging from 0% to 200% of the number of units awarded, based on the Company’s cumulative adjusted operating margin performance compared to that of companies included in a performance share peer group, over the three-year period commencing January 1, 2021 and ending December 31, 2023, with threshold, target and maximum settlement payouts set at 0%, 100% and 200%, respectively. For 2021, the Compensation Committee removed SkyWest from the Op-Margin peer-group compared to the one used in 2020, because, as a regional contract carrier that airline operates under a very different business model than that operated by the Company. The following table illustrates the ranking-based payout scale for the 2021 grants of performance share units based on the Company’s adjusted operating margin performance:

Performance vs. Payout Scale

- If the Company’s Adj Op-Margin percentage rank falls at the bottom (9th rank), there is no payout.
- If the Company’s Adj Op-Margin percentage rank is at 5th, payout will be at 100%.
- If the Company’s Adj Op-Margin percentage rank is at 1st, payout will be at 200%.
- If the Company’s Adj Op-Margin percentage rank falls between 9th and 5th, payout will be determined by linear interpolation of the actual Adj Op-Margin results between these points
- If the Company’s Adj Op-Margin percentage rank falls between 1st and 5th, payout will be determined by linear interpolation of the actual Adj Op-Margin results between these points

COMPENSATION DISCUSSION AND ANALYSIS (continued)

The MSUs granted in 2021 are to be settled in a number of shares of common stock, based on absolute stock price appreciation, with total payout value capped at 5-times the original award value. MSUs (i) target performance is set at 10% above grant date share price, (ii) have three-year cliff vesting, (iii) are based on share price performance over a three-year measurement period, with components of payout reflecting appreciation above grant date value at the end of the 1st, 2nd and 3rd years respectively, (iv) have zero annual component payout if the Company's share price share is below 75% of the grant date price at the end of any one of the performance measurement period, (v) earns 3% additional shares for every 1% share price performance above target growth, (vi) subtracts 1% shares for every 1% decrease in share price performance below target.

Cash-based Long-Term Incentives. The cash-based long-term incentive awards also were made to enhance the motivation of our officers to ensure a successful recovery from the COVID-19 pandemic, to address the retention concerns under the extraordinary circumstances caused by the COVID-19 pandemic and also to align companies' long-term performance. These cash-based long-term incentive awards settle in an amount based on adjusted operating margin, or profitability, which the Compensation Committee believed provides management with a better line of sight to drive Company performance in relation to industry peers and improves retention by reducing the volatility of a purely equity-based LTI plan. 50% of the award vests after 2nd year (settled after April 2023) based on 2-year relative cumulative Adjusted Op-Margin and the remaining 50% vests after 3rd year, based on the 3-year relative cumulative Adjusted Op-Margin. Maximum payout is capped at 125% of the grant date award amount.

Table below shows Cash-based and Equity-based Long-Term Incentives awarded in January 2021 by the Compensation Committee:

Named Executive Officers	Cash-based performance long-term incentive (\$)	Restricted Stock Units (#)	Performance Share Units* (Based on Adjusted Operating Margin) (#)	Market Stock Unit (MSUs) (#)
Edward M. Christie III (President)	700,000	47,694	8,506	23,847
Scott M. Haralson (SVP)	375,000	16,096	3,067	8,048
John Bendoraitis (EVP)	440,000	19,872	9,936	9,936
Matthew H. Klein (EVP)	400,000	19,872	9,936	9,936
Thomas C. Canfield (SVP)	375,000	14,705	2,933	7,352

* Due to CARES Act Compensation restrictions, the Company rescinded a number of Op-Margin based PSUs awarded in 2021 for Messrs. Christie, Canfield and Haralson. The original Performance Share Units Awards for Messrs. Christie, Canfield and Haralson were 23,847, 7,352 and 8,048, respectively.

The performance share units and market stock units are subject to a three-year performance cycle starting on January 1, 2021 and ending on December 31, 2023.

As a result of the foregoing decisions for 2021, more than 50% of the Company's 2021 long-term incentive compensation for NEOs was performance-based.

2021 Equity-Based Long-Term Incentive Payouts:

The PSUs based on relative total shareholder return granted in 2019 to our executive officers for the 2019-2021 performance cycle settled in January 2022 with a zero payout, based on a below threshold total shareholder return (ranking tenth out of a ten-member peer group). The PSUs based on adjusted operating margin also granted in 2019 for the 2019-2021 performance cycle settled in March 2022 with a 77.66% payout, due to below-target operating margin performance (ranking sixth out of a ten-member peer group). Below is the number of shares of the Company's common stock issued to each of our NEOs in settlement of their performance share units granted in 2019 based on total shareholder return and adjusted operating margin:

Named Executive Officer	Performance Share Units (Based on Total Shareholder Return) with Scheduled Vesting in 2021	Settlement Shares	Performance Share Units (Based on Adjusted Operating Margin) with scheduled vesting in 2021	Settlement Shares
Edward M. Christie III	12,025	—	6,013	4,669
Scott M. Haralson	3,092	—	1,546	1,200
John Bendoraitis	4,981	—	2,492	1,935
Matthew H. Klein	3,435	—	1,719	1,334
Thomas C. Canfield	3,435	—	1,719	1,334

Mr. Haralson's Compensation adjustments: The Compensation Consultant conducted a benchmarking assessment of the CFO position and the results of the study showed Mr. Haralson's current salary, STI target % and target LTI compensation were below the 25th percentile (compensation range) compared to Spirit's Peer group and General industry CFO market data. The Compensation Committee considered that Mr. Haralson played a key role in navigating company through extraordinary circumstances caused by the COVID-19 by improving company financial position through actions taken to preserve cash, improve liquidity and at the same time increasing the fleet size. To address retention concerns from where his compensation is placed relative to the market and bring him into an appropriate compensation range, the Compensation Committee, in consultation with the Compensation Consultant, decided to (i) increase his base salary from \$375,000 to \$400,000 effective July 1, 2021, (ii) increase his annual short-term incentive target, from 70% to 80% of base salary effective July 1, 2021, (iii) award him a time-based cash award, effective July 1, 2021, \$200,000, payable in April 2023, and (iv) award him a time-based cash award, effective January, 2022, \$400,000, payable in April 2023.

Modifications to Certain Long-Term Incentives in Connection with the Announced Merger:

On February 7, 2022, the Company and Frontier Group Holdings, Inc., a Delaware corporation ("Parent"), Top Gun Acquisition Corp., a Delaware corporation and a direct wholly owned Subsidiary of Parent ("Merger Sub"), announced that they had agreed to a strategic business combination whereby, on the terms and subject to the conditions set forth in the Agreement and Plan of Merger, Merger Sub will be merged with and into the Company, with the Company continuing as the Surviving Corporation (the "Merger").

Prior to February 2022, the applicable award agreements for the Company's cash-based long-term incentive awards and the PSUs granted in 2022 provided that, in the event of a change in control (as defined in the Company's 2015 Plan), such awards would vest and become payable on a pro-rated basis upon the consummation of a change in control. On February 5, 2022, to incentivize the holders of these awards, including our executive officers, to continue in the Company's employment through and following the closing of the Merger, our Compensation Committee approved modifications to the terms of such awards as set forth in the applicable award agreements to provide that such awards shall be assumed or substituted by a successor corporation upon the occurrence of a change in control, and remain subject to vesting based on a holder's continued service through the original applicable vesting dates (such awards as amended, the "Adjusted Awards"). To the extent that the Adjusted Awards are subject to performance conditions, any such assumption or substitution shall be made based on the amount of cash or number of shares that would be payable if performance were achieved at target, and the applicable performance conditions shall cease to apply following the change in control.

Moreover, if the employment of a holder of any Adjusted Award, including an executive officer, is terminated "without cause" or for "good reason" (in each case, as defined in the Company's 2017 Executive Severance Plan) following a change in control, then the applicable Adjusted Award shall vest at (i) the date of such termination, if occurring on or after April 2, 2023 or (ii) the end of the Non-Compete Period (as defined in the next sentence), if such termination occurs prior to April 2, 2023. The Non-Compete Period would commence on the date of such termination of employment and end on the later to occur of (i) April 2, 2023 and (ii) the ninetieth (90th) day following such termination of services. If a successor corporation fails to assume or substitute the Adjusted Awards, then the Adjusted Awards shall (i) vest in full, based on target performance (to the extent applicable), on the date of the change in control, if occurring on or after April 2, 2023, or (ii) be converted at the date of the change in control into a right to receive in cash the value thereof assuming target performance (x) on April 2, 2023, subject to the holder's continued employment through such date, or (y) if the employment of the holder is terminated after the change in control and prior to April 2, 2023 without "cause" or for "good reason" following a change in control, upon the end of (and subject to compliance with the obligations applicable during) the Non-Compete Period.

- life insurance, accidental death and dismemberment and business travel and accident insurance;
- employee assistance program;
- health and dependent care flexible spending accounts;
- short and long-term disability; and
- 401(k) plan.

In addition, we provide supplemental life insurance to our employees at the director level and above, including our executive officers.

2022 Executive Compensation Decisions

Given the significant continued negative impact of the COVID-19 pandemic on the Company's business and operations and continuing unpredictability of the near-term business outlook, the Company took a number of strategic actions to promote long-term success and sustainability of the business. The pandemic caused significantly greater disruption to our business and the airline industry as a whole than any other crisis in recent history and, in light of the dramatic reduction in incentive payouts to our NEOs in 2020, the Compensation Committee made a priority of retaining the recognized talent the Company had assembled in its senior leadership. The Compensation Committee was also mindful of the heightened rate of turnover and attrition occurring after other major industry shocks, for example in the aftermath of the 9/11 terrorist attack, and agreed that retention of key personnel would be an important factor in the Company's success in emerging from the pandemic. In this respect, with recommendations from the Compensation Consultant, the Compensation Committee approved the following modifications to the Company's executive compensation programs for fiscal year 2022:

Base Salary: No salary increases or other adjustments have been provided to Messrs. Christie, Bendoraitis, Klein, Canfield and Haralson for 2022.

Short-term incentives (STI): to address continued uncertainty in the business environment and tightened labor market conditions, align the STI plan with the Company's near-term business focus to solidify recovery gains and posture the Company toward a post-COVID transition by improving management's line of sight and to provide flexibility to shift focus during the course of the year as appropriate, the Compensation Committee decided to (i) divide 2022 STI plan into two semi-annual performance periods (1st half 2022 and 2nd half 2022), (ii) set performance targets, metrics and weights for each performance period prior to such performance period, and (iii) make a single annual payout after the 2nd measurement period once measurement is complete in 1st quarter of 2023 (subject to continued employment by participants through such payment date). For the 2022 1st semi-annual performance period, the Compensation Committee approved relative adjusted EBITDA margin, A:14 % performance achievement and three strategic goals as the performance metrics.

Long-term incentives (LTI): to enhance the motivation of our executive officers to drive a successful recovery from the COVID-19 pandemic, to address the retention concerns under the

extraordinary circumstances caused by the COVID-19 pandemic and to align the Company's strategic priorities, the Compensation Committee decided to (i) again grant a cash-based performance long-term incentive along with the equity-based LTI, (ii) modify the equity-based LTI plan to provide for PSUs based on a three-year cumulative earnings hurdle along with RSUs and with PSUs based on relative adjusted operating margin.

In accordance with the foregoing, our NEOs were granted a cash-based long-term performance incentive as described in the table below. 50% of the award vests after 2nd year based 2-year relative cumulative Adjusted Op-Margin and the remaining 50% vests after 3rd year, based on the 3-year relative cumulative Adjusted Op-Margin. Maximum payout is capped at 125% of the grant date value. The cash-based long-term performance incentive is based on adjusted operating margin, or profitability, provides better line of sight to management's ability to drive Company performance in relation to industry peers and improves retention by reducing the volatility of the overall LTI plan payout.

The grant of PSUs based on an earnings hurdle enhances the retention value of our equity-based grants while keeping the focus on the key metrics of share price appreciation and profitability as we seek to successfully emerge from the significant effects of the pandemic. The Compensation Committee also believes the goal is set at a reasonable, yet robust level, given the cumulative net losses due to impact of COVID-19. The PSUs based on an earnings hurdle: (i) set threshold, target and stretch performance payout levels based on 3-year cumulative adjusted EBITDA with threshold set at zero or negative 3-year cumulative adjusted EBITDA, (ii) have three-year cliff vesting, and (iii) have a positive payout multiplier of 125% of the number of units granted if the Company's share price appreciation is 25% or greater over the measurement period, a negative multiplier of 75% of the number of units granted if share price depreciation is greater than 25% over the measurement period and no multiplier applied if the share price performance over the measurement period falls between the above two points.

The timing and amounts of payouts under the cash-based and equity-based long-term incentives are subject to, and may be affected by, applicable compensation restrictions under the CARES Act.

Benefits: During 2021, the Compensation Committee decided to add executive physical examinations as part of benefits offered to officers and, in early 2022, to adopt a formal officer retiree travel benefits plan.

In January 2022, the Compensation Committee granted equity-based LTI awards under the 2015 Plan and cash-based LTI awards to our NEOs as follows:

Named Executive Officers	Cash-based performance long-term incentive (\$)	Restricted Stock Units (#)	Performance Share Units (Based on Adjusted Operating Margin) (#)	Performance Share Units (Earnings Hurdle) (#)
Edward M. Christie III (President)	1,706,000	26,913	13,456	13,456
Scott M. Haralson (SVP)	310,400	8,725	4,362	4,362
John Bendoraitis (EVP)	—	18,923	9,461	9,461
Matthew H. Klein (EVP)	165,000	15,454	7,727	7,727
Thomas C. Canfield (SVP)	262,300	8,389	4,194	4,194

Additional Compensation Information

1. **Severance and Change in Control-Based Compensation.** All of our NEOs are covered by the Company’s 2017 executive severance plan (the “2017 Executive Severance Plan”), which was adopted in March 2017 by the Board of Directors on the recommendation of the Compensation Committee. Pursuant to the 2017 Executive Severance Plan and subject to an exception applicable only to Mr. Christie as noted below, as of December 31, 2020, each executive who holds a senior vice president or higher position is entitled to receive:

- (a) in the event of an involuntary termination by the Company without cause unrelated to a change in control, (i) a cash severance amount equal to 100% of his or her annual base salary for the year of termination, payable in equal installments over twelve months, (ii) continuation of COBRA coverage for twelve months, (iii) a free family travel pass on our flights for twelve months and (iv) the use of a Company-owned mobile phone for up to thirty days; and
- (b) in the event of an involuntary termination by the Company without cause or a voluntary termination by the executive for good reason, in each case occurring within eighteen months following a change in control, (i) a cash severance amount equal to two times the sum of his or her annual base salary for the year of termination plus his or her target incentive bonus for the year of termination, payable in equal installments over twenty four months, (ii) his or her incentive bonus for the year of termination, prorated from the beginning of the year to the date of termination based on actual incentive plan performance as of the date of termination, (iii) outplacement services not to exceed \$10,000, (iv) a continuation of COBRA coverage for twelve months, (v) a free family travel pass on our flights for twelve months; and (vi) the use of a Company-owned mobile phone for up to thirty days.

As for severance and other benefits under the 2017 Executive Severance Plan that (i) constitute “parachute payments” within the meaning of Section 280G of the Code (“280G Payments”), and (ii) would otherwise be subject to the excise tax imposed by Section 4999 of the Code (the “Excise Tax”), then the 280G Payments will be either: (i) delivered in full, or (ii) delivered as to such lesser extent which would result in no portion of such benefits being subject to the Excise Tax, whichever of the foregoing amounts, taking into account the applicable federal, state and

local income taxes and the excise tax imposed by Section 4999 of the Code, results in the receipt by the executive officer on an after-tax basis, of the greatest amount of benefits, notwithstanding that all or some portion of such benefits may be taxable under Section 4999 of the Code. The Company is not required to provide “gross-ups” for any excise taxes.

The 2017 Executive Severance Plan provides, with respect to participants whose employment with the Company commenced on or after September 1, 2014, that (i) the Board is permitted to terminate an officer for poor performance without triggering severance benefits; and (ii) unpaid severance benefits would be offset by compensation earned by a former employee from a new employer during the applicable severance period.

The benefits provided under the 2017 Executive Severance Plan are in lieu of any other benefits provided under any other Company policy, plan or arrangement, including any benefits provided under any employment agreement. As a condition to receiving benefits under the 2017 Executive Severance Plan, participants must execute a general release.

Restricted stock units granted to executive officers under our 2015 Plan are subject to accelerated vesting in the event the executive officer dies or becomes permanently disabled while still employed by the Company or in the event of a termination of the executive officer by the Company without cause or a voluntary resignation by the executive officer for good reason, in either case after the Company has entered into a definitive change in control agreement. Performance share units granted to our executive officers prior to 2022 under our 2015 Plan will automatically terminate in the event the executive officer’s employment terminates for any reason prior to the end of the applicable performance period except that the Company would be subject to a prorated settlement obligation in the event of a change in control or the executive officer’s death or permanent disability during the applicable measurement period.

On February 5, 2022, the Compensation Committee approved modifications to the terms of the cash-based long-term incentive awards granted to executive officers, and the performance share units granted to executive officers in 2022, in each case, under our 2015 Plan to provide for accelerated vesting, subject to the conditions, and on the specified vesting dates, as set forth in the applicable awards agreements, in the event of (i) a termination of an executive officer by the Company without cause or a voluntary

resignation by an executive officer for good reason, in either case, following a change in control or (ii) a successor corporation failing to assume or substitute such long-term incentive awards following a change in control.

The Company and Mr. Christie entered into a letter agreement, dated March 15, 2018 (the “Christie Letter Agreement”) setting forth the terms and conditions under which he would serve as President and CFO and starting on January 1, 2019, as CEO and President. Under the Christie Letter Agreement, Mr. Christie is eligible for participation in the 2017 Executive Severance Plan; provided, however, that in the event of a non-change in control termination without cause, Mr. Christie shall be entitled to receive a cash severance amount equal to 150% of base salary rather than 100% of base salary and the other terms of the 2017 Executive Severance Plan shall continue to apply. In the event Mr. Christie ceases to be employed by the Company for any reason other than death or a termination by the Company for cause (as defined in the 2017 Executive Severance Plan), subject to his execution of a release of claims in favor of the Company and compliance with a certain non-competition restriction, the Company shall provide him (and his spouse and dependent children) a lifetime travel pass for the Company’s flights enabling them to travel for free in any class of service that is available at the time of reservation. The Christie Letter Agreement also includes restrictive covenants, including a 12-month post termination restriction on competition and solicitation.

2. **Limited Perquisites.** Perquisites are not a significant part of our executive compensation program. As is common in the airline industry, senior executives and their immediate families are entitled to certain travel privileges on our flights, which may be on a positive space basis. Similar travel benefits (which generally are

on a space available basis) are afforded to all of our director-level employees and above. The value of such flight benefits for the executives is reported as taxable income. We believe that providing these benefits is a relatively inexpensive way to enhance the competitiveness of the executive’s compensation package. We do not provide any other significant perquisites or personal benefits to our NEOs. In addition, in circumstances where the Company is recruiting an executive candidate who would have to relocate to accept our job offer, we provide such executive with relocation assistance, which includes travel, shipping household goods and temporary housing. Relocation benefits are an important tool for us to recruit and retain key management talent.

3. **Stock Ownership Guidelines for Executives.** We maintain stock ownership guidelines for our executive officers. Under the guidelines, our NEOs are required to meet a share ownership level (consisting of shares of common stock and restricted stock units but excluding performance share units) with a minimum value equal to 2 times base salary (5 times salary for the CEO) of which at least one-third must be owned outright in the form of shares of our common stock. Also under the guidelines, our other executive officers (non-NEOs) are required to meet a share ownership level (consisting of shares of common stock and restricted stock units but excluding performance share units) with a minimum level equal to 1.5 times base salary of which one-third must be owned outright in the form of shares of our common stock. The Company’s officers are expected to meet their ownership levels within five years of becoming subject to the guidelines. All of our executive officers, including our NEOs, who have served at least five years are currently in compliance with the guidelines. The following table sets forth, as of March 15, 2022 information regarding the equity ownership of our NEOs:

Named Executive Officers	Shares of Common Stock Owned Outright	Market Value of Shares of Common Stock Owned Outright (1)	Restricted Stock Units Unvested	Performance Share Units Unvested (2)	Market Stock Units (MSUs) Unvested
Edward M. Christie III (President)	158,855	\$3,348,663	69,462	58,659	23,847
Scott M. Haralson (SVP)	30,007	\$ 632,548	25,415	18,701	8,048
John Bendoraitis (EVP)	37,758	\$ 795,939	42,881	37,652	9,936
Matthew H. Klein (EVP)	28,071	\$ 591,737	39,026	34,184	9,936
Thomas C. Canfield (SVP)	54,701	\$1,153,097	21,459	18,545	7,352

- (1) The market value of shares of common stock owned outright is calculated based on the closing price of our common stock as of March 15, 2022 which was \$21.08.
- (2) Amounts shown in the “Performance Share Units Unvested” column represent the target number of shares issuable with respect to the awards of performance share units granted in 2020, 2021 and 2022.

4. **Clawback Policy.** In January 2014, the Company adopted a clawback policy (the “Prior Clawback Policy”) providing for the termination and forfeiture of outstanding incentive compensation awards to officers and for the recoupment of gains actually or constructively received by officers pursuant to incentive compensation awards, in each case where the Company is required to prepare a restated financial statement and where a lower incentive payment or award would have been made to or received by the officer had they been based on the restated financial results. In March 2019, with input from the Compensation Committee’s

independent compensation consultant and independent legal counsel, the Compensation Committee approved, and the Board ratified, a new clawback policy (the “New Clawback Policy”), primarily expanding the scenarios under which forfeiture and recoupment of incentive compensation would be allowed and also expanding coverage to all executives. The New Clawback Policy applies to all incentive compensation approved, granted or awarded on or after March 19, 2019. The Prior Clawback Policy remains in effect with respect to all incentive compensation approved, granted or awarded prior to March 19, 2019. Under the

New Clawback Policy, the Company is required to seek reimbursement of incentive compensation (cash and equity-based) paid, and to recoup and cancel incentive compensation yet to be paid, to officers and other executives on the basis of reported financial results that were later the subject of a financial statement restatement, in each case to the extent that the incentive compensation actually received or earned exceeded the amount that would have been received or earned based on the restated financial results, as determined by the Compensation Committee. The New Clawback Policy also gives the Compensation Committee discretionary recoupment rights in scenarios not involving a financial restatement, including fraud, negligence or misconduct that cause reputational or financial harm to the Company and the payment of incentive compensation based on financial or operating performance results that were incorrectly calculated or reported.

In addition, the award agreements applicable to awards under the Company's long-term incentive plans and awards of annual cash bonus opportunities under the Company's short-term incentive plans contain clawback provisions providing for the termination and forfeiture of outstanding incentive compensation awards and for the recoupment of gains actually or constructively received pursuant to incentive compensation awards, in each situation where the executive engages in any activity in competition with the Company or which is inimical, contrary or harmful to the interests of the Company, as determined by the Compensation Committee.

Taken together, all of the Company's clawback rights and remedies are believed to be consistent with best corporate governance practices.

5. **Tax and Accounting Considerations.** The Board and the Compensation Committee generally consider the financial accounting and tax implications of their executive compensation decisions. Under Section 162(m) of the Internal Revenue Code,

compensation paid to certain of our NEOs in excess of \$1.0 million per year was not deductible unless the compensation was "performance-based" as described in the regulations under Section 162(m). Our 2015 Plan was generally designed to comply with Section 162(m) (if applicable and practicable) in order to enable the Company to take company tax deductions in respect of certain performance-based compensation payable to our Section 162(m) executive officers without regard to the limitations of Section 162(m).

The exemption from Section 162(m)'s deduction limit for performance-based compensation was repealed in 2017, effective for taxable years beginning after December 31, 2017, subject to certain grandfathered provisions. Due to uncertainties as to the application and interpretation of Section 162(m) and the regulations issued thereunder, including the uncertain scope of certain transition relief under the legislation repealing Section 162(m)'s exemption from the deduction limit, no assurance can be given that compensation intended to satisfy the requirements for exemption from Section 162(m) in fact will be deductible. The Compensation Committee reserves the right to modify compensation that was initially intended to be exempt from Section 162(m) if it determines that such modifications are consistent with the Company's business needs.

Our Compensation Committee does not believe that compensation decisions should be determined solely by how much compensation is deductible for federal income tax purposes. As a result, our Compensation Committee has authorized non-deductible compensation and reserves its right to, and retains the discretion to, authorize payments that may not be deductible if it believes that such payments are in the best interests of the Company and its stockholders. Moreover, further changes in applicable tax laws and regulations as well as factors beyond the control of the Compensation Committee can adversely impact the deductibility of compensation paid to our executive officers.

Edward M. Christie III. On February 29, 2012, we entered into an offer letter with Edward M. Christie III, to join our Company as Senior Vice President and Chief Financial Officer. Under that letter agreement, Mr. Christie was entitled to receive an annual base salary from us initially set at \$300,000 and a target bonus initially set at 70% of base salary with a maximum payout capped at 200% of base salary. In addition, the agreement provided for a sign-on grant of 95,000 units of equity-based long-term incentive, under our 2011 Plan, which grant was comprised 50% of time-vested restricted stock units and 50% of performance share units, on the same terms as the 2012 grants for other senior officers. The letter agreement also provided a relocation allowance for Mr. Christie and his family of up to \$75,000 (subject to documentation of expenses actually incurred) and positive space travel on our airline for the executive and his immediate family. In January 2017, the Board promoted Mr. Christie to Executive Vice President and Chief Financial Officer. - (1) The market value of shares or units that have not vested is calculated based on the closing price of our common stock as of December 31, 2021 which was \$21.85.
- (2) The number of performance share units and market share units shown represents the number of units that may be earned based on actual performance through December 31, 2021.
- (3) The time-vested restricted stock units vest 33.33% on each of the three anniversary dates following January 13, 2021.
- (4) The performance share units are settled in shares of common stock, in an amount from 0% to 200% of the number of units awarded, based on the Company's adjusted operating margin compared to that of the Performance Share Op Margin Peer Group over the three-year period commencing on January 1, 2020 and ending on December 31, 2022 for the 2020 grants, and commencing on January 1, 2021 and ending on December 31, 2023 for the 2021 grants. Based on actual adjusted operating margin results through December 31, 2021, the Company's adjusted operating margin ranked sixth among its peer groups as to the 2020 and seventh among its peer group as to the 2021 grant of performance share units based on adjusted operating margin. For the 2020 grants of performance share units based on adjusted operating margin, the SEC rules dictate that the number of units payable at target level (100% of target grant) be disclosed, as the number of units that would have been earned based on actual results through 2021 (instead of through the end of the performance period on December 31, 2022) falls above threshold level of performance. For the 2021 grants of performance share units based on adjusted operating margin, the SEC rules dictate that the number of units payable at target level (100% of target grant) be disclosed, as the number of units that would have been earned based on actual results for 2021 (instead of through the end of the performance period on December 31, 2023) falls above threshold level of performance. Payouts may vary based on the linear interpolation calculation mentioned in the "Compensation Discussion and Analysis" above. Payouts at 100% of target grant for the 2020 and 2021 grants of performance share units based on adjusted operating margin results through December 31, 2021 would be the following: Mr. Christie: 23,998 shares (\$524,356); Mr. Haralson: 7,672 shares (\$167,633); Mr. Bendoraitis: 15,798 shares (\$345,186); Mr. Canfield: 7,748 shares (\$169,294); Mr. Klein: 15,798 shares (\$345,186).
- (5) The MSUs granted in 2021 are to be settled in a number of shares of common stock, based on absolute stock price appreciation, as disclosed more fully under the "Compensation Discussion and Analysis" section of this Proxy Statement. For MSUs, the SEC rules dictate that the number of units payable at target level (100% of target grant) be disclosed, as the number of units that would have been earned based on actual results for 2021 (instead of through the end of the performance period on December 31, 2023) falls above threshold level of performance. Payouts at 100% of target grant for the MSU grants through December 31, 2021 would be the following: Mr. Christie: 23,847 shares (\$521,057); Mr. Haralson: 8,048 shares (\$175,849); Mr. Bendoraitis: 9,936 shares (\$217,102); Mr. Canfield: 7,352 shares (\$160,641); Mr. Klein: 9,936 shares (\$217,102).
- (6) The remaining unvested restricted stock (66.66% of the original grant amount) vest 33.33% on January 14, 2022 and 33.33% on January 14, 2023.
- (7) The performance share units are settled in shares of common stock, in an amount from 0% to 200% of the number of units awarded, based on the Company's total shareholder return compared to that of the Performance Share TSR Peer Group over the three-year period commencing on January 1, 2020 and ending on December 31, 2022 for the 2020 grants. Based on actual total shareholder return results through December 31, 2021, the Company's total shareholder return ranked ninth among its peer group as to the 2020 grant of performance share units based on total shareholder return. For the 2020 grants of performance share units based on total shareholder return, the SEC rules dictate that the number of units payable at threshold level (25% of target grant) be disclosed, as the number of units that would have been earned based on actual results for 2020 (instead of through the end of the performance period on December 31, 2022) falls below threshold level of performance. Payouts at 25% of target grants for the 2020 grants of performance share units, respectively, based on total shareholder returns through December 31, 2021 would be the following: Mr. Christie: 1,937 shares (\$42,329); Mr. Haralson: 576 shares (\$12,591); Mr. Bendoraitis: 733 shares (\$16,016); Mr. Canfield: 602 shares (\$13,159); and Mr. Klein: 733 shares (\$16,016).
- (8) The remaining unvested restricted stock (50% of the original grant amount) vest equally on each of the two anniversary dates following January 11, 2021.
- (9) The remaining unvested restricted stock units (25% of the original grant amount) vest on January 16, 2022. For Mr. Christie, in addition to the regular annual equity-based grant, number shown also includes a one-time promotional equity-based grant of restricted stock units, the remaining unvested restricted stock units (25% of the original grant amount) vest on January 16, 2022.
- (10) In December 2019, to enhance retention of key executives, the Compensation Committee approved one-time equity-based grants to Messrs. Haralson, Bendoraitis, and Klein, of 5,227, 13,069, and 13,069 restricted stock units, respectively. The remaining unvested restricted stock units (50% of the original grant amount) vest 25% on December 16, 2022 and 25% on December 16, 2023.
- (11) The remaining unvested restricted stock units (25% of the original grant amount) vest on October 16, 2022.

- (1) Generally represents continuation of salary payments for twelve months (as further explained below—see footnotes 6 and 8), except for Mr. Christie. Per the terms of the Christie Letter Agreement with the Company, the amount shown under termination without cause represents a cash severance amount equal to 150% of his salary payable in equal installments over a twelve-month period.
- (2) Represents the aggregate value of the executive's unvested restricted stock units that would have vested on an accelerated basis, determined by multiplying the number of accelerating shares by the closing price of our common stock (\$21.85 as of December 31, 2021). Unvested restricted stock unit awards become fully vested in the event of a change in control, only to the extent not assumed by a successor. Also includes the value of 66% of the performance share units granted in 2020 which, in the event of a change of control, death or disability occurring prior to the end of the three-year measurement period, vest pro rata according to the time elapsed from January 1, 2020 to the date of the change of control, death or disability based on actual performance up to such date. Also includes the value of 33% of the performance share units granted in 2021 which, in the event of a change of control, death or disability occurring prior to the end of the three-year measurement period, vest pro rata according to the time elapsed from January 1, 2021 to the date of the change of control, death or disability based on actual performance up to such date. Pursuant to our 2017 executive severance plan, payment would be triggered by a termination without cause in connection with a change in control or within eighteen months following a change in control or a resignation for good reason within eighteen months following a change in control. Also includes the value of 71.4% of the performance market share units granted in 2021, which, in the event of a change of control, death or disability occurring prior to the end of the three-year measurement period, vest on actual performance through December 31, 2021.
- (3) Represents continued coverage under COBRA for twelve months under the 2017 executive severance plan based on the incremental cost of the Company's contribution as of December 31, 2021 to provide this coverage.
- (4) Our NEOs each receive life insurance proceeds of 1-times base salary up to \$500,000 upon death, which amounts have been included in the table. We pay the premiums for life insurance for all eligible employees providing coverage ranging between \$25,000 and \$500,000.
- (5) For NEOs other than Mr. Christie, represents the value of a free family travel pass for twelve months, outplacement services, and use of a Company-owned mobile phone for thirty days in order to allow the participant to transition to another device. The value of the flight benefits for twelve months was calculated using an incremental cost approach, assuming that executives and eligible family members would each take ten round trip flights during the period, each with an incremental cost that includes the estimated cost of incremental fuel, insurance, security, station cleaning, facility rent and station baggage rent, but excludes fees and taxes paid by the named executive officer for the air transportation. In the case of Mr. Christie, in the event of a termination other than due to death or a termination following a change in control, represents the value of a lifetime travel pass (including immediate family) on our flights, as provided under the Christie Letter Agreement. The present value of the lifetime flight benefit was calculated using a discount rate of 7.00% and mortality assumptions based on the United States Statistics Life Expectancy Tables. The value was calculated using an incremental cost approach, assuming that Mr. Christie and his eligible family members would each take ten round trip flights during each year, each with an incremental cost that includes the estimated cost of incremental fuel, insurance, security, station cleaning, facility rent and station baggage rent, but excludes fees and taxes paid by Mr. Christie for the air transportation.
- (6) Represents the benefits payable to Mr. Christie under the Christie Letter Agreement with the Company and the benefits payable to each other NEO under the 2017 executive severance plan. Severance benefits are triggered under our 2017 executive severance plan when the executive is terminated without cause, and include a cash severance amount equal to the NEO's annual base salary in effect on termination date payable in equal installments over twelve months.
- (7) Represents the benefits payable to the NEOs under the 2017 executive severance plan. In the event that a successor company in a change of control refuses to assume or substitute for an outstanding equity award, such award shall become fully vested and, if applicable, exercisable, and all forfeiture restrictions shall lapse, in each case, as of immediately prior to the consummation of the change in control.
- (8) Represents the benefits payable to each NEO under the 2017 executive severance plan in the event of a termination without cause in connection with a change in control or within eighteen months following a change in control or a termination for good reason within eighteen months following a change in control, and include (i) a cash severance amount equal to the sum of two times the executive's annual base salary in effect on the termination date, plus two times his target incentive bonus for the year of termination, payable in equal installments over twenty four months, and (ii) his incentive bonus for the year of termination, prorated from the beginning of the year to the date of termination based on actual incentive plan performance as of the date of termination.

Equity Compensation Plan Information

The table below provides information relating to our equity compensation plans under which our common stock is authorized for issuance as of December 31, 2021:

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (excluding securities reflected in first column)
Equity Compensation Plans Approved by Security Holders (1)	1,219,328(2)	—(3)	4,174,216
Equity Compensation Plans Not Approved by Security Holders	—	—	—
Total	1,219,328	\$0.00	4,174,216

(1) Includes the Spirit Airlines, Inc. 2015 Incentive Award Plan (the “2015 Plan”).

(2) Includes restricted stock units, performance share units and performance market stock units issuable, pursuant to outstanding award agreements under the 2015 Plan. With respect to performance share units and performance market stock units, assumes maximum settlement payout achievement. For the performance share units based on total shareholder return and adjusted operating margin, actual achievement may result in the issuance of shares of common stock ranging between 0% to 200% of target, based on the Company’s total shareholder return and adjusted operating margin, as applicable, compared to a peer group over the applicable three-year period. For the performance market share units, actual achievement may result in the issuance of shares of common stock ranging between 0% to 283% of target, based on the Company’s share price growth over the applicable three-year period.

(3) The weighted-average exercise price does not take into account shares issuable upon vesting of outstanding shares of restricted stock, restricted stock units, performance share units and performance market share units.

Compensation Risk Assessment

In March 2021, the Compensation Committee was presented with the results of management’s analysis on our compensation policies and practices for our employees to determine if these policies and practices give rise to risks that are reasonably likely to have a material adverse effect on us or encourage our employees to take excessive risks in order to receive larger awards.

This risk assessment process included a review by management of our compensation policies and practices and identification of risks and risk controls related to the programs. Although management reviewed all compensation programs, it focused on the programs with variability of payout, which means the participant is able to directly affect payout. Management assessed our compensation programs against potential compensation risks relating to pay mix, performance metrics, payment timing and adjustments, equity incentives, performance appraisals, and leadership and culture. The Compensation Committee agreed with management findings that our compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on us.

In reaching its conclusion that our compensation policies and practices do not give rise to risks that are reasonably likely to have a material adverse effect on us or encourage our employees to take excessive risks in order to receive larger awards, management considered the following:

- For most of our employees, cash compensation is fixed in the form of base salaries or hourly cash compensation. For our officers and director-level employees, the majority of cash compensation is also fixed in the form of base salaries. Fixed compensation in the form of base salaries or hourly compensation provide income regardless of our short-term

performance and do not create an incentive for employees to take unnecessary risks.

- In evaluating our performance for purposes of our cash incentive plans, the Compensation Committee reviews our performance under a mix of financial and operating measures to provide a balanced perspective.
- The Compensation Committee generally exercises broad discretion in determining compensation amounts, and qualitative factors beyond quantitative financial and operating metrics are a key consideration in the determination of individual cash bonuses and long-term equity awards.
- The financial opportunity in our long-term incentive program is best realized through long-term appreciation of our stock price, which mitigates excessive short-term risk-taking. Annual equity-based awards vest over multiple years, in the case of restricted stock units or restricted shares, or are settled in a single payment after three years, in the case of our performance share units, in each case subject to the holder’s continuing service with us. This promotes alignment of our employees’ interests with our long-term objectives and interests and with stockholders’ interests.
- The following risk mitigating controls: (i) stock ownership guidelines for non-employee directors and executive officers; (ii) code of business conduct and ethics and anti-hedging and anti-pledging policy applicable to NEOs and members of the Board; (iii) clawback policy on compensation to executive officers; (iv) basing our short term incentive plan on more than one performance measurement, including both financial and operational metrics; (v) periodic review of our compensation policies and programs by the Company’s internal audit group; (vi) using different performance metrics for our long-term

incentive performance share units; (vii) overlapping the performance periods for our long-term incentive performance share units; and (viii) using our internal audit group and our independent consultants to review calculations of short-term and long-term incentive payouts.

- We maintain caps on the maximum payouts under our short-term incentive plan and our long-term incentive performance share units.
- We utilize individual performance assessments in determining executive compensation. These assessments take into account whether or not the individual's behavior was consistent with our code of business conduct and ethics and with our ethics-based corporate culture.

This Proxy Statement, including the preceding paragraphs, contains forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events. Forward-looking statements contained in this Proxy Statement should be considered in light of the many uncertainties that affect our business and specifically those factors discussed from time to time in our public reports filed with the SEC, such as those discussed under the heading, "Risk Factors," in our most recent Annual Report on Form 10-K, and as may be updated in subsequent SEC filings.

CEO Pay Ratio Disclosure

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, we are hereby disclosing the ratio of the median of the annual total compensation of all employees to the annual total compensation of our CEO.

We determined the pay ratio under the requirements of Item 402(u) of Regulation S-K. Mr. Christie was our principal executive officer during all of 2021, and his annual total compensation is disclosed, in detail, in the “Summary Compensation Table” in this Proxy Statement.

We identified the median employee by examining the 2021 total compensation for all individuals, excluding Mr. Christie, who were employed by us on December 31, 2021, the last day of our payroll year. For the identified median employee, we did not make any assumptions, adjustments, or estimates to calculate the pay ratio, and only employees who were employed by us as of December 31, 2021 were included. After identifying the median employee, we calculated annual total compensation for such employee using the same methodology we use for our NEOs as outlined in the “Summary Compensation Table” in this Proxy Statement. The SEC rules allow for varying methodologies for companies to identify their median employee. Other companies may have different employment and compensation practices and may utilize different methodologies, estimates and assumptions in calculating their own pay ratios. Therefore, the pay ratios reported by other companies are unlikely to be relevant for purposes of comparison to our pay ratio.

The median of the annual total compensation of all employees in 2021 was \$53,603. The annual total compensation of Mr. Christie in 2021 was \$3,871,281. Accordingly, for 2021, the ratio of annual total compensation of our principal executive officer to the annual total compensation of our median employee was 72:1.

Other than the compensation arrangements with our directors and executive officers described elsewhere in this Proxy Statement, set forth below is the description of the indemnification agreements we have entered into with our directors and executive officers.

Indemnification

We enter into indemnification agreements with each of our current directors and executive officers. Under the indemnification agreements, indemnification will only be provided in situations where the indemnified parties acted in good faith and in a manner they reasonably believed to be in or not opposed to our best interest, and, with respect to any criminal action or proceeding, to situations where they had no reasonable cause to believe the conduct was unlawful. In the case of an action or proceeding by or in the right of the Company or any of our subsidiaries, no indemnification will be provided for any claim where a court determines that the indemnified party is prohibited from receiving indemnification.

The Board knows of no other matters that will be presented for consideration at the Annual Meeting. If any other matters are properly brought before the Annual Meeting, it is the intention of the persons named in the accompanying proxy card to vote on such matters in accordance with their best judgment.
