**Re: LJM Energy Corp.
Registration Statement on Form S-1
Filed August 23, 2010
File No. 333-169014**

Dear Mr. Joel Felix:

We have reviewed your registration statement and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter by amending your registration statement and providing the requested information. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing any amendment to your registration statement and the information you provide in response to these comments, we may have additional comments.

General

1. We note that you disclose throughout the filing that you are only registering the issuance of shares in the State of Colorado. Please state this fact on the cover page of the prospectus. Please clarify the reason the company has selected to only register in the State of Colorado given its incorporation in Nevada and working interest in Oklahoma. In the alternative, revise the registration statement to indicate where the securities will be offered.
2. Rule 419 of Regulation C, concerning offerings by blank check companies, defines a blank check company in section (a)(2) as a company issuing penny stock that is "a development stage company that has no specific business plan or purpose or has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies, or other entity." See Release No. 33-6932 (April 28, 1992). Please provide us with an analysis as to why you are not a blank check company and subject to the requirements of Rule 419. In your response, please disclose your

specific business plan. While you state that your business plan is “to acquire working interests in oil and gas properties for exploration, appraisal and development,” disclose the specific properties you are seeking. Tell us your specific plans, including:

- the experience of your sole officer and directors in executing your business plan of acquiring working interests in oil and gas properties for exploration, appraisal and development,
- how your sole officer and director became involved with the Magnolia Prospect and whether your sole officer and director has visited the Magnolia Prospect, or expects to visit the Magnolia Prospect in the near future,
- the amount of resources currently on hand, and after this offering,
- the amount of resources you expect to spend in the next 12 months to further your business plan,
- substantive steps taken in furtherance of a business plan, and
- the specific timelines for completing the plan, and the specific circumstances that would cause you to delay.

Alternatively, please revise your disclosure throughout your registration statement to comply with Rule 419.

3. Finally, disclose whether you have any plans now or in the future to engage in mergers or acquisitions with other companies or entities.
4. We note your statement throughout the filing that, “the operator of the well and the Magnolia Prospect, believes that there are at least three infield drillable locations that can produce in paying quantities from three or more different formations in each well with potentially a life of more than thirty years.” Please provide the basis for this statement.
5. We note the statement in reference to your undivided interest in the Magnolia Prospect to include interests in the oil and gas leases currently held by Mid-OK Energy Partners “in an area of mutual interest.” Please revise to clarify what is meant by “in an area of mutual interest” to clearly establish the scope of your interest in the property.

Prospectus Summary, page 4

6. Please expand your discussion to clearly explain what is meant by a “three percent undivided working interest” in the Magnolia prospect. Disclose your obligations under your agreement, as well as what interests you have, such as an interest in the revenue stream or royalties or some other interest. Provide an estimate of your share of the total cost to drill the test well and to complete the test well. Disclose how you expect to earn money from this project and when you might expect production from this project. Disclose the other party or parties who have interests in the Magnolia prospect, and briefly discuss their financial resources available to develop this project. Finally, please file as exhibits all agreements relating to this prospect.

7. We note that in this section, you state that your anticipated funds for working capital will be used for the acquisition of additional working interests in oil and gas leases. In contrast, we note that your Use of Proceeds section indicates that working capital will be used to pay general administrative expenses, legal expenses and accounting expenses for the next twelve months without mentioning the use of working capital funds for the acquisition of other working interests in oil and gas. Please reconcile your disclosure to clearly indicate throughout the filing, the use of proceeds. In particular, specifically disclose the anticipated use of the proceeds allocated as working capital.
8. To the extent your anticipated use of proceeds does not include the acquisition of additional working interests in oil and gas leases, please revise your disclosure to clarify that this is not an activity anticipated by the company or indicate the source of funds that will be available outside this offering that will be used for this purpose.

Risk Factors, page 5

9. Include risk factor disclosure regarding your sole officer, director and employee's lack of experience in the oil and gas field. In your revision, disclose Mr. Felix's business background, which we note to be in the internet and real estate fields only.
