MBS CAPITAL MARKETS, LLC

Notes to Financial Statements

December 31, 2021

(1) Nature of Business

MBS Capital Markets, LLC (Company) is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company was organized as a limited liability company in Florida in 2010 and is engaged to effect security transactions primarily in land secured municipal bonds.

(2) Summary of Significant Accounting Policies

(a) Revenue Recognition

The Company recognizes revenue in accordance with Accounting Standards Update (ASU) 2014-09, "Revenue from contracts with customers" (Topic 606). Revenue is recognized when a customer obtains control of promised goods or services. In addition, the standard requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The amount of revenue that is recorded reflects the consideration that the Company expects to receive in exchange for those goods or services. The Company applies the following five-step model in order to determine this amount:

- i. Identification of the promised goods in the contract;
- ii. Determination of whether the promised goods are performance obligations, including whether they are distinct in the context of the contract.
- iii. Measurement of the transaction price, including the constraint of variable consideration;
- iv. Allocation of the transaction price of the performance obligations; and
- v. Recognition of revenue when (or as) the Company satisfies each performance obligation.

The Company's main revenue stream is from placement and underwriting fees. The performance obligation associated with a typical underwriting agreement will be satisfied on the trade date, and the fees will be recognized as revenue at that time. The fees are recognized as income based on the percentage of bonds sold. There are no additional costs directly related to the contract.

The Company only applies the five-step model to contracts when it is probable the entity will collect the consideration it is entitled to in exchange for the goods and services it transfers to the customer. Once a contract is determined to be within the scope of Accounting Standards Codification (ASC) 606 at contract inception, the Company reviews the contract to determine which performance obligations the Company must deliver and which of these performance obligations are distinct. The Company recognizes as revenues the amount of the transaction price that is allocated to the respective performance obligations when the performance obligation is satisfied or as satisfied. Generally, the Company's performance obligations are transferred to a customer at a point in time typically upon delivery.

Notes to Financial Statements

(b) Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

(c) Income Taxes

As a limited liability company, the Company's taxable income or loss is allocated to its members in accordance with the operating agreement. Therefore, no provision or liability for income taxes has been included in the financial statements.

The Company accounts for income taxes in accordance with ASC Topic 740, "*Income Taxes*". This standard prescribes a recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The Company has no uncertain tax positions as of December 31, 2021. The Company's income tax returns are generally subject to taxing authority examinations up to three years after the returns are filed.

(d) Marketable Securities

Marketable securities that are available-for-sale are reported at values, other than quoted prices in active markets, that are observable either directly or indirectly and unobservable values in which there is little or no market data. All transactions entered into are for the account of and risk of the Company and are recorded on a trade date basis. Marketable securities that are held-to-maturity are reported at amortized cost.

(e) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect various reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

(f) Leases

The Company accounts for leases in accordance with ASU 2016-02, "Leases (Topic 842)." Under this guidance, lessees (including lessees under leases classified as finance leases, which are to be classified based on criteria similar to that applicable to capital leases under current guidance, and leases classified as operating leases) will recognize a right-to-use asset and a lease liability on the balance sheet, initially measured as the present value of lease payments under the lease. As most of the leases do not provide an implicit rate, the Company generally uses the incremental borrowing rate based on the estimated rate of interest for collateralized borrowing over a similar term of the lease payments at commencement date.

The Company has made an accounting policy election not to apply the recognition provisions of the new lease guidance to short term leases (leases with a lease term of 12 months or less that do not

MBS CAPITAL MARKETS, LLC

Notes to Financial Statements

December 31, 2021

include an option to purchase the underlying asset that the lessee is reasonably certain to exercise); instead, the Company will recognize the lease payments for short term leases on a straight-line basis over the lease term.

(3) **Concentrations of Credit Risk**

The Company maintains all of its cash and cash equivalents in a commercial depository account which is insured by the Federal Deposit Insurance Corporation (FDIC). At times, cash deposits may exceed federally insured limits.

The Company holds debt securities at year end that carry a credit risk associated with the municipalities ability to perform in accordance with the terms of the contract. The Company's exposure to credit risk associated with counterparty nonperformance is limited to the value of the debt securities.

(4) **Deposits with Clearing Agency**

The Company entered into a fully disclosed clearing agreement with Pershing, LLC ("Pershing"). Pershing carries the proprietary accounts of the Company and the accounts of the Company's customers introduced to Pershing by the Company.

As of December 31, 2021, the Company had a cash deposit of \$150,000 with Pershing, of which \$100,000 was held by Pershing for potential unresolved Company claims, losses, or expenses incurred by Pershing.

(5) **Fair Value of Financial Instruments**

The Company has adopted the provisions of ASC 820, *Fair Value Measurements and Disclosures* (ASC 820). ASC 820 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States of America, and expands disclosures about fair value measurements. ASC 820 establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value as follows:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The Company held \$164,249 of marketable securities which consisted of municipal bonds at December 31, 2021. The pricing services typically use spreads obtained from broker-dealers, trade prices and the new issue market. As the significant inputs used to price the municipal bonds are observable market inputs, municipal bonds are classified as Level 2.

MBS CAPITAL MARKETS, LLC

Notes to Financial Statements

December 31, 2021

The following schedule details the level of the Company's financial instruments measured on a recurring basis:

Assets:	Level 1	Level 2	Level 3	Total
Marketable Securities				
Municipal Bonds	\$ -	\$164,249	\$ -	\$164,249
	\$ -	\$164,249	\$ -	\$164,249

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(6) Commitments and Contingencies

The Company is a registered broker-dealer and, as such is subject to the continual scrutiny of those who regulate its industry, including FINRA, the United States SEC, and the various securities commissions of the states and jurisdictions in which it operates. As part of the regulatory process, the Company is subject to routine examinations, the purpose of which is to determine the Company's compliance with rules and regulations promulgated by the examining regulatory authority. It is not uncommon for the regulators to assert, upon completion of an examination, that the Company has violated certain of these rules and regulations. Where possible, the Company endeavors to correct such asserted violations. In certain circumstances and depending on the nature and extent of the violations, the Company may be subject to disciplinary action, including fines.

Pandemic Effects

The worldwide COVID-19 pandemic and related government-imposed and other measures intended to control the spread of the disease, including restrictions on travel and the conduct of business, such as stay-at-home orders, quarantines, travel bans, boarder closings, business closures and other similar measures, have had a significant impact on global economic conditions. Although certain economic conditions showed signs of improvement toward the end of fiscal 2021, certain of the impacts of the COVID-19 pandemic may continue to affect our results in the future.

(7) Lease Commitments

The Company is obligated under a non-cancelable lease agreement for its office facility in Nashville, Tennessee. The Company's office space was leased under a five-year term which expires on June 30, 2026. The monthly rent under the lease is \$4,200, \$4,326, \$4,455, \$4,589, and \$4,727, increasing annually for the years 2021 through 2026, respectfully. The Company recognized on July 1, 2021 a lease liability, as well as right-of-use asset of \$241,585, which represents the present value of the payments, discounted using the Company's incremental borrowing rate of 4%. Monthly rent expense is approximately \$4,460, excluding common area maintenance fees. Below is a schedule of future minimum rent payments under the operating lease.

(9) Indemnifications

In the normal course of business, the Company indemnifies and guarantees Pershing against specified potential losses in connection with their acting as an agent of, or providing services to, the Company. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

(10) Net Capital Requirements

The Company is subject to SEC Uniform Net Capital Rule 15c3-1, which requires the maintenance of minimum regulatory net capital and a specified ratio of aggregate indebtedness to regulatory net capital.
