RSM US LLP

Report of Independent Registered Public Accounting Firm

To the Managers of Asante Capital Group Advisors LLC

Opinion on the Financial Statements

We have audited the accompanying statement of financial condition of Asante Capital Group Advisors LLC (the Company) as of March 31, 2018, and the related notes to the financial statement (collectively, the financial statement). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of March 31, 2018, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

RSM US LLP

We have served as the Company's auditor since 2012.

Asante Capital Group Advisors LLC

Notes to Statement of Financial Condition (amounts expressed in U.S. dollars)

Note 1. Organization and Summary of Significant Accounting Policies

Description of Business: Asante Capital Group Advisors LLC (the "Company"), a Delaware limited liability company, was formed in June 2010 and is an indirect wholly owned subsidiary of Asante Capital Group LLP. The Company became a broker-dealer in September 2011 and is registered with the Securities and Exchange Commission (the "SEC") and is a member of the Securities Investor Protection Corporation ("SIPC") and the Financial Industry Regulatory Authority ("FINRA"). The Company is engaged in a single line of business as a broker-dealer raising capital for private equity firms and investment managers and providing related specialized financial services. The Company does not conduct any retail securities business, offer or hold customer accounts, nor does it hold or receive client or investor funds or securities. The Company is not a party to agreements between an investor and its private fund clients, does not make a market in any security, nor does it trade for its own account or for the account of any client (or investor) in any security.

The Company is currently exempt from the provisions of Rule 15c3-3 of the SEC based on Paragraph (k)(2)(i) of the rule.

Significant accounting policies are:

Basis of Presentation: The financial statements are presented in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Foreign Currency: The financial statements are presented in U.S. dollars. Assets and liabilities denominated in foreign currencies are translated at year-end rates of exchange, while the accounts on the statement of operations are translated at average rates of exchange for the year.

Use of Estimates: The preparation of the financial statements in conformity with GAAP in the United States of America requires management to make estimates and assumptions in determining the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition: The Company earns revenue by charging a placement fee for raising capital for private equity firms and investment managers. Private placement fees are recorded at the time the revenue is earned.

Concentration: For the year ended March 31, 2018, approximately 50.00% of the Company's gross revenue came from transactions with one major customer.

Cash: Cash represents bank demand deposits, held at one financial institution, which may exceed federally insured limits during the year. However, the Company does not believe that this results in any significant credit risk.

Prepaid Expenses: The Company makes payments for certain expenses such as insurance in advance of the period in which it receives the benefit. These payments are classified as prepaid expenses and amortized over the respective period of benefit relating to the contractual arrangement.

Fixed Assets: Fixed assets are reported at cost, less accumulated depreciation and amortized under the straight line method. Fixed assets are depreciated over their useful lives.

Expenses and Liabilities: All costs and expenses are recorded on the accrual basis.

Income Taxes: The Company is a single-member limited liability company and had elected to be taxed as a "C Corp" for federal income tax purposes. The Company accounts for income taxes in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 740, *Accounting*

Asante Capital Group Advisors LLC

Notes to Statement of Financial Condition (amounts expressed in U.S. dollars)

Note 1. Organization and Summary of Significant Accounting Policies (Continued)

for Income Taxes. FASB ASC 740 requires that deferred taxes be established based upon the temporary differences between financial statements and income tax bases of assets and liabilities using the enacted statutory rates.

The amount of current and deferred taxes payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates. Deferred tax expenses or benefits are recognized in the financial statements for the changes in deferred tax liabilities or assets between the years. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

FASB ASC 740 provides guidance for how uncertain tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more likely than not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions deemed to meet the more-likely-than-not threshold would be recorded as a tax liability in the current year. For the year ended March 31, 2018, management has determined that there are no uncertain tax positions. The last three financial years are open to tax examinations by U.S. federal, state and local tax authorities.

Note 2. Related Party Transactions

The Company entered into an expense allocation agreement ("Agreement") with Asante Capital Group LLP. There is a high level of integration of the Company's activities and operations with the ultimate parent and the accompanying financial statements are indicative of the Company's current financial conditions and results of operations as part of that group. As at March 31, 2018 the Company had a net payable of \$664,093 due to Asante Capital Group LLP, which is shown under due to affiliate on the statement of financial condition.

Note 3. Employee Benefit Plans

The Company administers a 401(k) retirement and savings plan for eligible employees. The Plan is a defined contribution plan that is funded through contributions by employees and the Company.

Note 4. Indemnifications

In the normal course of business, the Company enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. The Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

Note 5. Income Taxes

As described in Note 1, the Company has elected to be taxed as a "C Corp" for federal income tax purposes. As a result, the Company's tax provision comprised of a marginal tax rate of 34% for federal taxes and an effective tax rate of 27%.

Asante Capital Group Advisors LLC

Notes to Statement of Financial Condition (amounts expressed in U.S. dollars)

Note 5. Income Taxes (Continued)

Deferred taxes consists of the following components as of March 31, 2018 and is included under accrued expenses and other liabilities on the statement of financial condition:

Liability	
Depreciation	\$23,010

Note 6. Recent Accounting Pronouncements

In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers (Topic 606), requiring an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The updated standard will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective and permits the use of either a full retrospective or retrospective with cumulative effect transition method. The updated standard will be effective for annual reporting periods beginning after December 15, 2017. We intend to adopt Topic 606 as of April 1, 2018, using the modified retrospective transition method applied to those contracts which were not completed as of that date. Upon adoption, we will recognize the cumulative effect of adopting this guidance as an adjustment to our opening balance of member's equity. Prior periods will not be retrospectively adjusted. We expect the adoption of Topic 606 will not have a material impact to our financial statements, including the presentation of revenues in our statement of operations.

Note 7. Commitments

Leases: On October 2017, the Company executed an operating lease for office space in New York, New York on a month-to-month basis and until either party notifies the other party of its intent to terminate the agreement. Such notification must be in writing and must be delivered at least thirty (30) days before the date that the terminating party wishes to end the agreement. For the year ended March 31, 2018, the total rent expense was approximately \$228,033, which is included under occupancy on the statement of operations.

Note 8. Fixed Assets

Fixed assets, at cost consist of the following:

<u>Asset Class</u>	<u>Cost</u>	<u>Estimated useful life</u>
Computers and office equipment	\$59,278	3 years
Furniture	<u>\$81,162</u>	3 years
	\$140,440	
Less accumulated depreciation	<u>\$30,865</u>	
Total Fixed Assets, net	<u>\$109,575</u>	

Asante Capital Group Advisors LLC

Notes to Statement of Financial Condition
(amounts expressed in U.S. dollars)

Note 9. Net Capital Requirements

As a registered broker-dealer, the Company is subject to the net capital requirements of Rule 15c3-1 under the Securities Exchange Act of 1934 (the "Act"). SEC Rule 15c3-1 requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the "applicable" exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1). At March 31, 2018, the Company had net capital of \$405,284, which was \$283,359 in excess of its required net capital of \$121,925. The Company's ratio of aggregate indebtedness to net capital was 4.51 to 1.

Note 10. Subsequent Events

The Company has evaluated subsequent events for potential recognition and/or disclosure through to the date these financial statements were available to be issued.
