Note 1. Organization and Summary of Significant Accounting Policies

Description of Business: Asante Capital Group Advisors LLC (the "Company"), a Delaware limited liability company, was formed in June 2010 and is an indirect wholly owned subsidiary of Asante Capital Group LLP. The Company became a broker-dealer in September 2011 and is registered with the Securities and Exchange Commission (the "SEC") and is a member of the Securities Investor Protection Corporation ("SIPC") and the Financial Industry Regulatory Authority ("FINRA"). The Company is engaged in a single line of business as a broker-dealer raising capital for private equity firms and investment managers and providing related specialized financial services. The Company does not conduct any retail securities business, offer or hold customer accounts, nor does it hold or receive client or investor funds or securities. The Company is not a party to agreements between an investor and its private fund clients, does not make a market in any security, nor does it trade for its own account or for the account of any client (or investor) in any security.

Significant accounting policies are:

Basis of Presentation: The financial statements are presented in accordance with accounting principles generally accepted in the United States of America ("GAAP")

Use of Estimates: The preparation of the financial statements in conformity with GAAP in the United States of America requires management to make estimates and assumptions in determining the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition: The Company follows the provisions of Accounting Standards Update ("ASU") 2014-09, Revenue from Contracts with Customers, which amends the existing accounting standards for revenue recognition. The amendments are based on the principle that revenue from the transfer of promised goods or services to customers should be recognized in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Under the new standard, the Company recognizes all revenues on services to clients upon client transaction fulfillment, rather than deferring recognition until receipt of final net fees as received. The Company recognizes revenues as follows: The Company charges a placement fee and a retainer fee for raising capital for private equity firms and investment managers. Private placement fees are recognized when services related to the underlying transactions are completed under the terms of the agreement. Retainer fees are recognized monthly as ongoing performance obligations are met.

Cash: Cash represents bank demand deposits, held at one financial institution, which at year end exceeds federally insured limits, however, the Company does not believe that this results in any significant credit risk.

Prepaid Expenses: The Company makes payments for certain expenses such as insurance in advance of the period in which it receives the benefit. These payments are classified as prepaid expenses and amortized over the respective period of benefit relating to the contractual arrangement.

Fixed Assets: Fixed assets are reported at cost, less accumulated depreciation and amortized under the straight line method. Fixed assets are depreciated over their useful lives.

Expenses and Liabilities: All costs and expenses are recorded on the accrual basis.

Note 1. Organization and Summary of Significant Accounting Policies (Continued)

Income Taxes: The Company is a single-member limited liability company and has elected to be treated as a "C Corp" for federal income tax purposes. The Company accounts for income taxes in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 740, *Accounting for Income Taxes*. FASB ASC 740 requires that deferred taxes be established based upon the temporary differences between financial statements and income tax bases of assets and liabilities using the enacted statutory rates.

The amount of current and deferred taxes payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates. Deferred tax expenses or benefits are recognized in the financial statements for the changes in deferred tax liabilities or assets between the years. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

FASB ASC 740 provides guidance for how uncertain tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more likely than not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions deemed to meet the more-likely-than-not threshold would be recorded as a tax liability in the current year. For the year ended March 31, 2022, management has determined that there are no material uncertain income tax positions.

Note 2. Related Party Transactions

The Company has agreements ("Agreement") with Asante Capital Group LLP and Asante Capital Group HK Limited. As at March 31, 2022 the Company had a net payable of \$469,311 due to Asante Capital Group HK Limited, which is shown under due to affiliate on the statement of financial condition.

There is a high level of integration of the Company's activities and operations with the ultimate parent and the accompanying financial statement is indicative of the Company's current financial condition as part of that group. As at March 31, 2022 the Company had a net receivable of \$2,742,472 due from Asante Capital Group LLP, which is shown under due from affiliate on the statement of financial condition.

Note 3. Employee Benefit Plans

The Company administers a 401(k) retirement and savings plan for eligible employees. The plan is a defined contribution plan that is funded through contributions by employees and the Company.

Note 4. Indemnifications

In the normal course of business, the Company enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. The Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.
