Dear Mr. Mazur:

We have reviewed your registration statement and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter by amending your registration statement and providing the requested information. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing any amendment to your registration statement and the information you provide in response to these comments, we may have additional comments.

General

1. We note you received a letter from the FDA on June 9, 2014 regarding the omission of risk information and unsubstantiated efficacy claims related to Suprenza. Please disclose your plan for addressing the violations listed in the letter and the risks associated with such violations. Alternatively, please tell us why you believe such disclosure is not necessary.

To the extent that they have not, please provide your analysis as to why you believe it is appropriate to register the resale of shares of common stock that underlie the Placement Agent warrants, which underlie Placement Agent Unit Warrants that remained outstanding at the time the registration statement was filed.

Please disclose the conditions that must be met before you receive any revenues or payments under these agreements.
5. We note your statement on page 37 that “We have been unable to obtain sufficient funding to conduct additional development activities on Suprenza. Because of our limited resources we have decided to focus on the development of the hemorrhoid product first.” Please disclose this information in the Overview section, as well as in the risk factor on page 7 where you state that “we may not be able to commercialize the next generation of Suprenza products.”
