APTO PARTNERS, LLC
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022

1. ORGANIZATION AND NATURE OF BUSINESS

Apto Partners, LLC (the "Company") is a securities broker-dealer registered with the Securities and Exchange Commission ("SEC") and is a member of Financial Industry Regulatory Authority ("FINRA"). The Company conducts business as an introducing broker-dealer and clears all transactions through a clearing organization on a fully disclosed basis. The Company is a State of New Jersey Limited Liability Company.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Adoption of New Accounting Standards

On January 1, 2018, the Company adopted ASU 2014-19 Revenue from Contracts with Customers and all subsequent amendments to the ASU (collectively, "ASC 606"). The Company's services that fall within the scope of ASC 606 include investment banking income which includes securities transactions and underwriting fees. The implementation of this new accounting standard did not change the revenue recognition policy of the Company. See Revenue from Contracts with Customers for further discussion on the Company's accounting policies for revenue sources within the scope of ASC 606.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue from Contracts with Customers

Securities transactions and related revenues and expenses are recorded on a trade date basis. Underwriting fees are recorded at the time the underwriting is completed and the income is reasonably determinable.

Fixed Assets, Net

Fixed assets are recorded at historical cost, net of accumulated depreciation. Depreciation is calculated on a straight-line basis over their economic useful lives, generally from three to thirty-nine years.

Income Taxes

The Company is treated as a sole proprietorship for federal income tax purposes and does not incur income taxes. Instead its earnings and losses are passed through to its member and taxed depending on the personal tax situation. Accordingly, the financial statements do not reflect a provision from income taxes. Distributions were primarily used to meet member's income tax obligations.

At December 31, 2022, there were no significant income tax uncertainties that would require financial statement recognition. In addition, no interest or penalties were recorded.

Fair Value Measurements

The Company records the fair value of certain financial assets and liabilities on a recurring basis. The accounting standard for fair value provides a hierarchy to measure the quality and reliability of the information used to determine fair values. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in the markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

At December 31, 2022, all securities owned, which consists of corporate obligations and mutual funds, were valued using Level 1 inputs.

Receivables/Payables to Broker-Dealers

Payables to broker-dealers represents netted trading profit/loss, interest income/expense, clearing charges, margin securities, and deposits with the clearing organization. The Company is required to maintain certain deposit amounts with the clearing organization depending on its clearing activities and as pursuant to the clearing agreement. At December 31, 2022, the Company's required deposit was \$100,000.

Cash and Cash Equivalents

The Company considers cash and cash equivalents amounts in demand deposit accounts at various financial institutions, investments in money market funds, and highly liquid investments, with original maturities of less than ninety (90) days, which are not held for sale in the ordinary course of business.

Subsequent Events

The Company has evaluated events and transactions that occurred between January 1, 2023 and March 25, 2023, which is the date the financial statements were to be issued, for possible disclosure and recognition in the financial statements.

3. CONCENTRATIONS OF CREDIT RISK

The Company at times during operations has cash deposits that exceed \$250,000 in one account in individual banks. The Federal Deposit Insurance Corporation ("FDIC") insures only the first \$250,000 in member banks. At December 31, 2022, the Company had no uninsured cash balance.
