NOTES TO THE STATEMENT OF FINANCIAL CONDITION

1. Organisation and Nature of Business

Peel Hunt Inc. ("PH Inc." or "the Company") is a corporation formed in the State of Delaware on March 4, 2011. On March 12, 2012 the Financial Industry Regulatory Authority, Inc. ("FINRA") approved the registration of the Company. The Company is registered as a securities broker-dealer with the Securities and Exchange Commission ("SEC") and is a member of FINRA. The Company is 100% held by Peel Hunt Holdings Limited ("PHH Limited") which is a limited liability company registered in England and Wales. The Company was formed to act as a chaperoning broker dealer for its UK affiliate, Peel Hunt LLP ("PH LLP") which is a financial services firm, authorized and regulated by the Financial Conduct Authority in the UK. The principal business purpose of the Company is to act as an agent for PH LLP offering UK equities to US institutional clients. The Company will utilize PH LLP for all foreign security order execution, clearance and settlement.

The Company does not carry securities accounts for customers or perform custodial services and, accordingly, claims exemption from Rule 15c3-3 of the Securities Exchange Act of 1934.

2. Significant accounting policies

2.1. Basis of preparation

The Company's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

2.2. Cash and cash equivalents

The Company classifies as cash equivalents highly liquid instruments with original maturities of three months or less. The Company does not have any cash equivalents at March 31, 2019.

2.3. Income taxes

The Company is subject to US Federal taxes. The Company utilizes an asset and liability approach to accounting for income taxes such that the amount of current and deferred taxes payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates.

The Company is also tax resident in the United Kingdom as a result of the location of its directors. There is no additional tax charges expected for the current year.

The Company recognizes and measures its unrecognized tax benefits in accordance with U.S. GAAP. Under that guidance, the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change.

The Company's income tax returns are subject to examination for three years from the date filed or the due date, whichever is later. The returns for the prior fiscal years are open for examination as of the date of these financial statements.

The Company has chosen to recognize interest and penalties related to tax uncertainties as income tax expense, if any. No amounts have been accrued for interest and penalties as of March 31, 2019.

2.4. Use of estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

2.5. Fair value measurements

U.S. GAAP requires disclosing fair value to the extent practicable for financial instruments which are recognized or unrecognized in the Statement of Financial Condition. The fair values of the financial instruments are not necessarily representative of the amount that could be realized or settled, nor does the fair value amount consider the tax consequences of realization or settlement. For certain financial instruments, including cash, amounts due to/from related parties, accounts payable and accrued expenses, the fair values were determined based on the near term maturities of such obligations. The fair value of debt was determined based on current rates at which the Company could borrow or advance funds with similar remaining maturities, which amount approximates its carrying value.

NOTES TO THE STATEMENT OF FINANCIAL CONDITION

2.6. Property, plant and equipment

Items of property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. The estimated useful economic life for each item is considered to be as follows:

- Office equipment 3 to 5 years
- Fixtures and fittings 5 years
- Leasehold Improvements 5 years

2.7. Customer transactions

In the normal course of business, the Company effects transactions on behalf of customers on a delivery versus payment, receipt versus payment basis. If these transactions do not settle due to failure to perform by either the customer or the counterparty, the Company may be obligated to discharge the obligation of the nonperforming party and, as a result, may incur a loss if the market value of the securities is different from the contract amounts. The risk of loss to the Company is normally limited to differences in market values of the securities compared to their contract amounts. At March 31, 2019, fail to deliver and payable to customers were approximately \$25,000, and fail to receive and receivable from customers were approximately \$647,000.

Interest accrued under this loan agreement was at 4% per annum and was paid before the previous year end. The Company signed a new Subordinated Agreement with Peel Hunt Holdings Limited on March 12, 2015 and an updated agreement on 10 March 2016 on a 12 Month rolling basis. As at March 31, 2019 the amount of accrued interest totalled \$625. The new loan agreement was reviewed and approved by FINRA as a satisfactory subordinated agreement. The Subordinated borrowings are available in computing net capital under the SEC's Uniform Net Capital rule.

4. Net capital requirements

The Company is subject to the SEC Uniform Net Capital Rule ("SEC Rule 15c3-1"). The Company has elected to use the alternative method to compute net capital as permitted by the Rule. Under the alternate method, the Rule requires net capital to be not less than the greater of the minimum net capital requirement or 2% of aggregate debit items computed in accordance with the formula for reserve requirements pursuant to SEC Rule 15c3-3. At March 31, 2019, the Company's minimum net capital requirement was \$250,000. The Company expects to adopt the provisions of this guidance on April 1, 2019.
