Amendment No. 4 to Registration Statement on Form F-3

Our Company, page 5

1. We note your disclosure that you primarily mine Bitcoin and Ethereum cryptocurrencies and that you hold digital assets which primarily consist of Bitcoin, Ethereum and Dogecoin. Provide a detailed description of the process and framework that you will use to determine whether any digital assets that you may hold or acquire are securities as defined in Section 2(a)(1) of the Securities Act of 1933.

2. Please identify each specific digital asset that you mine or hold. To the extent you hold digital assets other than those that are mined please disclose how they were acquired and the purpose of holding them. In this regard, we note that you hold a significant amount of Dogecoin but it is not clear whether it was mined or otherwise acquired.

Risk Factors, page 11

3. Please describe your security and custody arrangements for the digital assets you hold including how you intend to validate existence, exclusive ownership and software functionality of private digital asset keys and other ownership records.
4. Add a risk factor addressing that a particular digital asset's status as a security in any relevant jurisdiction is subject to a high degree of uncertainty. Your disclosure should acknowledge that there is currently no certainty under the applicable legal test that such assets are not securities. Also, discuss the potential consequences, including legal or regulatory action, in the event a regulatory authority or court were to determine that any such asset is a security under the applicable legal framework.

Please contact Alexandra Barone, Staff Attorney, at (202) 551-8816 or Jeff Kauten, Staff Attorney, at (202) 551-3447 with any questions.
