NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

Creo Capital Securities, LLC (the "Company") is a "mergers and acquisitions type" FINRA broker/dealer that provides strategic and financial advisory services, in all industries throughout North America. The Company has no subsidiaries. The Company does no underwriting, carries no customer accounts, and has no inventory of marketable securities. The Company obtained its broker/dealer license on April 18, 2012.

The Company has only one member with all rights and privileges of voting, contribution and distribution. The member has limited liability, to the extent of his agreed capital contributions.

Accounts Receivable

Accounts receivable are customer obligations due under normal trade terms. The Company performs continuing credit evaluations of its customers' financial condition. Management reviews accounts receivable on a regular basis, based on contracted terms and how recently payments have been received, to determine if any such amounts will potentially be uncollected. The Company includes any balances that are determined to be uncollectible in its allowance for doubtful accounts. After all attempts to collect a receivable have failed, the receivable is written off. Based on the information available, management believes the Company's accounts receivable are all collectible.

Income Taxes

The Company is organized as a limited liability company. The Company is not liable for federal income tax, but is annually liable for a minimum state franchise tax of \$800 plus an annual fee based upon gross revenue. The member is personally liable for income taxes on their respective shares of the Company's income. All the years for which the Company has filed income tax returns are subject to examination as of December 31, 2015, and it is the Company's policy to include penalties and interest in its taxes and licenses expense. The Company has not incurred any interest or penalties related to its tax filings.

Revenue Recognition

In general, revenue is recognized when the service is performed. Some advisory fees are contingent upon the success of a contemplated transaction. Such fees are recognized when the contingency is met.

Cash Flows

For the purpose of the statement of cash flows, the Company considers cash equivalents to include cash and short-term money market mutual funds.

Estimates

Generally accepted accounting principles require that the financial statements include estimates by management in the valuation of certain assets and liabilities. Management estimates the allowance for doubtful accounts. Management uses its historical records and knowledge of its business in making these estimates. Actual results could differ from those estimates applied in the preparation of the financial statements.
