REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Members
of G2 Trading LLC

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of G2 Trading LLC (the "Company") as of December 31, 2017, and the related notes and supplemental schedules (collectively referred to as the financial statement). In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of G2 Trading LLC as of December 31, 2017 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of G2 Trading LLC's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to G2 Trading LLC in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We have served as G2 Trading LLC's auditor since 2012.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

Supplemental Information

The Supplemental Schedules (the "supplemental information") have been subjected to audit procedures performed in conjunction with the audit of G2 Trading LLC's financial statement. The supplemental information is the responsibility of G2 Trading LLC's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statement or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with 17 C.F.R. §240.17a-5. In our opinion, the Supplemental Schedules are fairly stated, in all material respects, in relation to the financial statement as a whole.

G2 TRADING LLC

Notes to Statement of Financial Condition

December 31, 2017

1. Organization and Business

G2 Trading LLC (the "Company"), an Illinois limited liability company, was formed in March 2011. The Company is a broker-dealer registered with the Securities and Exchange Commission and is a member of the Chicago Stock Exchange. The Company primarily engages in the proprietary trading of exchange-traded equity securities and their derivatives.

2. Summary of Significant Accounting Policies

Revenue Recognition and Financial Instruments Valuation

In accordance with U. S. generally accepted accounting principles ("U.S. GAAP"), fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses various valuation approaches. A fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumption about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 Inputs – Valuation is based on quoted prices in active markets for identical assets or liabilities at the reporting date.

Level 2 Inputs – Valuation is based on other than quoted prices included in Level 1 that are observable for substantially the full term of the asset or liability, either directly or indirectly.

Level 3 Inputs – Valuation is based on unobservable inputs for the valuation of the asset or liability. Level 3 assets include investments for which there is little, if any, market activity. These inputs require significant management judgment or estimation.

The availability of valuation techniques and observable inputs can vary from investment to investment and is affected by a wide variety of factors, including, the type of investment, whether the investment is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the investments existed. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for investments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement.

G2 TRADING LLC

Notes to Statement of Financial Condition, Continued

December 31, 2017

2. Summary of Significant Accounting Policies, continued

Revenue Recognition and Financial Instruments Valuation, continued

The Company values its investments based on the following principles and method of valuation:

Investments in equities and equity options listed on an exchange, which are freely transferable, are valued at their last sale price on such exchange on the date of valuation. To the extent these securities are actively traded, and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy. Preferred and other equities traded on inactive markets or valued by a dealer quotations or alternative pricing source or model supported by observable inputs are classified within Level 2.

Investments in securities sold short, not yet purchased represent obligations to purchase such securities at a future date. The value of the open short position is recorded as a liability, and the Company records an unrealized appreciation or depreciation to the extent of the difference between the proceeds received and the value of the open short position. The Company records a realized gain or loss when the short position is closed out. By entering into short sales, the Company bears the market risk of increases in value of the security sold short in excess of the proceeds received.

Investments in exchange-traded derivatives, such as futures contracts and exchange-traded option contracts, are typically classified within Level 1 or Level 2 of the fair value hierarchy depending on whether or not they are deemed to be actively traded.

Gains and losses from investment in equities, equity options and derivative instruments are included in trading gains in the statement of operations.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
<u>Assets</u>				
Securities owned				
Stocks	\$ 9,935,754	\$ -	\$ -	\$ 9,935,754
Equity options	451,271	-	-	451,271
	<u>\$ 10,387,025</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 10,387,025</u>
<u>Liabilities</u>				
Securities sold, not yet purchased				
Stocks	\$ 372,413	\$ -	\$ -	\$ 372,413
Equity options	909,423	-	-	909,423
	<u>\$ 1,281,836</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,281,836</u>

At December 31, 2017, the Company held no Level 2 or Level 3 investments.

G2 TRADING LLC

Notes to Statement of Financial Condition, Continued

December 31, 2017

2. Summary of Significant Accounting Policies, continued

Financial Instruments

Accounting Standards Codification Topic 815, Derivatives and Hedging ("ASC 815"), requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit risk related contingent features in derivative agreements. The disclosure requirements of ASC 815 distinguish between derivatives, which are accounted for as "hedges," and those that do not qualify for such accounting. Although the Company may sometimes use derivatives, the Company reflects derivatives at fair value and recognizes changes in fair value through the statement of operations, and as such does not qualify for ASC 815 hedge accounting treatment.

In the normal course of business, the Company enters into transactions in derivative financial instruments that include equity and index options contracts, as part of the Company's overall trading strategy. All derivative instruments are held for trading purposes. All positions are reported in the accompanying statement of financial condition at fair value and gains and losses from derivative financial instruments are reflected in trading gains in the statement of operations.

Options contracts grant the purchaser, for the payment of a premium, the right to either purchase from or sell to the writer a specified financial instrument under agreed terms at a specified future date. As a writer of options contracts, the Company receives a premium in exchange for bearing the risk of unfavorable changes in the price of the financial instruments underlying the options.

Securities sold, not yet purchased and short options represent obligations of the Company to deliver the specified security and, thereby, create a liability to repurchase the security in the market at prevailing prices. Accordingly, these transactions result in risk as the Company's satisfaction of the obligations may exceed the amount recognized in the statement of financial condition.

Risk arises from the potential inability of counterparties to perform under the terms of the contracts (credit risk) and from changes in the values of the underlying financial instruments (market risk). The Company is subject to credit risk to the extent that any broker with whom it conducts business is unable to fulfill contractual obligations on its behalf. The Company attempts to minimize its exposure to credit risk by monitoring brokers with whom it conducts investment activities. In management's opinion, market risk is substantially diminished when all financial instruments are aggregated.

Income Taxes

No provision for Federal income taxes has been made in the accompanying financial statements, as each member is responsible for reporting income or loss based on his or her pro rata share of the profits or losses of the Company.

In accordance with U.S. GAAP, the Company is required to determine whether its tax positions are more likely than not to be sustained upon examination by the applicable taxing authority, based on the technical merits of the position. Generally, the Company is no longer subject to income tax examinations by major taxing authorities for the years before 2014. The tax benefit recognized is measured as the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement with the relevant taxing authorities. Based on its analysis, the Company has determined that it has not incurred any liability for unrecognized tax benefits as of December 31, 2017.

G2 TRADING LLC

Notes to Statement of Financial Condition, Continued

December 31, 2017

2. Summary of Significant Accounting Policies, continued

Use of Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Management determined that the estimates utilized in preparing its financial statements are reasonable and prudent. Actual results could differ from these estimates.

3. Clearing Agreement

The Company has a Joint Back Office ("JBO") clearing agreement with ABN AMRO Clearing Chicago LLC ("ABN"). The agreement allows JBO participants to receive favorable margin treatment as compared to the full customer margin requirements of Regulation T. As part of this agreement, the Company has invested \$10,000 in the preferred shares of ABN. The Company's investment in ABN is reflected in other assets in the statement of financial condition. Under the rules of the Financial Industry Regulatory Authority, the agreement requires that the Company maintain a minimum net liquidating equity of \$1 million with ABN, exclusive of its preferred stock investments.

4. Related Party Transactions

The Company has "rent, services, and expense sharing agreements" with R2G Services, LLC ("R2G"), which is related by common ownership.

Per the expense sharing agreement, R2G has agreed to pay insurance, salaries and benefits, market data, professional fees and other related expenses on behalf of the Company.

Per the rent and services agreements, R2G will provide office space and server and data hosting services to the Company. At December 31, 2017, \$32,617 is payable to R2G, which is reflected in payable to affiliate in the statement of financial condition.

5. Guarantees

Accounting Standards Codification Topic 460 ("ASC 460"), Guarantees, requires the Company to disclose information about its obligations under certain guarantee arrangements. ASC 460 defines guarantees as contracts and indemnification agreements that contingently require a guarantor to make payments to the guaranteed party based on changes in an underlying (such as an interest or foreign exchange rate, security or commodity price, an index or the occurrence or nonoccurrence of a specified event) related to an asset, liability or equity security of a guaranteed party. This guidance also defines guarantees as contracts that contingently require the guarantor to make payments to the guaranteed party based on another entity's failure to perform under an agreement, as well as indirect guarantees of the indebtedness of others.

Certain derivatives contracts that the Company has entered into meet the accounting definition of a guarantee under ASC 460. Derivatives that meet the ASC 460 definition of guarantees include futures contracts and written options. The maximum potential payout for these derivatives contracts cannot be estimated as increases in interest rates, foreign exchange rates, securities prices, commodities prices and indices in the future could possibly be unlimited.

The Company records all derivative contracts at fair value. For this reason, the Company does not monitor its risk exposure to derivatives contracts based on derivative notional amounts; rather the Company manages its risk exposure on a fair value basis. The Company believes that the notional amounts of the derivative contracts generally overstate its exposure. Aggregate market risk limits have been established, and market risk measures are routinely monitored against these limits. The Company believes that market risk is substantially diminished when all financial instruments are aggregated.

6. Credit Concentration

At December 31, 2017, a significant credit concentration consisted of approximately \$1.8 million, representing the fair value of the Company's accounts carried by its clearing broker, ABN AMRO Clearing Chicago LLC. Management does not consider any credit risk associated with this receivable to be significant.

7. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15(c)3-1). Under this rule, the Company is required to maintain "net capital" equal to the greater of \$100,000 or 6 $\frac{2}{3}$ % of "aggregate indebtedness", as defined.

At December 31, 2017, the Company had net capital and net capital requirements of \$1,496,640 and \$100,000, respectively.

8. Subsequent Events

The Company's management has evaluated events and transactions through March 2, 2018, the date the financial statements were issued, noting no material events requiring disclosure in the Company's financial statements except as noted below.

The aggregate indebtedness amount presented in the audit dated February 27, 2018, was overstated by \$241,683 which caused the ratio to net capital to be overstated by 16.15 percent. This had no impact on the Company's financial statements and the computations of net capital and basic capital requirement.

SUPPLEMENTAL SCHEDULES

G2 TRADING LLC**Computation of Net Capital for Broker and Dealers pursuant to Rule 15c3-1****December 31, 2017**

Computation of net capital

Total members' equity		\$	1,668,364
Deductions and/or charges:			
Nonallowable assets:			
Other asset	\$	<u>10,000</u>	<u>(10,000)</u>

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Members
of G2 Trading LLC

We have reviewed management's statements, included in the accompanying Exemption Report, in which (1) G2 Trading LLC (the "Company") identified the following provisions of 17 C.F.R. §15c3-3(k) under which the Company claimed an exemption from 17 C.F.R. §240.15c3-3: (k)(2)(ii) (the "exemption provisions") and (2) the Company stated that it met the identified exemption provisions throughout the most recent fiscal year ending December 31, 2017 without exception. The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, therefore, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.

The Exemption Report

We as members of management of G2 Trading LLC., (the Company) are responsible for complying with 17 C.F.R. §240.17a-5, "Reports to be made by certain brokers and dealers" and complying with 17 C.F.R. §240.15c3-3: ((k)(2)(ii)) (the "exemption provisions"). To the best of our knowledge and belief we state the following:

- (1) We identified the following provisions of 17 C.F.R. § 15c3-3(k) under which the Company claimed an exemption from 17 C.F.R. § 240.15c3-3: ((k)(2)(ii)) and (2) we met the identified exemption provisions throughout the most recent fiscal year ending December 31, 2017 without exception.
