**Re: Enterprise Fleet Financing, LLC
Series 2016-1 Asset Backed Notes (the "Notes")
Sample Lease Agreed-Upon Procedures**

We have performed the procedures enumerated in Attachment A, which were agreed to by the addressees of this report (the "Specified Parties"), solely to assist Enterprise Fleet Financing, LLC (the "Issuer") in evaluating the accuracy of certain information with respect to a pool of leases and the vehicles subject to those leases (the "Leases" and "Vehicles," respectively) that will secure the Enterprise Fleet Financing, LLC Series 2016-1 Asset Backed Notes securitization transaction. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of the procedures is solely the responsibility of the Specified Parties. Consequently, we make no representation regarding the sufficiency of the procedures described in Attachment A, either for the purpose for which this report has been requested or for any other purpose.

The procedures performed and our associated findings are included in Attachment A.

For the purpose of the procedures described in this report, Enterprise Fleet Management, Inc. (the “Sponsor”), on behalf of the Issuer, provided us with:

- a. Electronic data files:
 - i. Labeled “DATA_TAPE_ MTN_2016_1_Dec_EOM.mdb” and the corresponding record layout and decode information (the “Preliminary Data File”) that the Sponsor, on behalf of the Issuer, indicated contains information as of 31 December 2015 (the “Cutoff Date”) on certain leases and the vehicles subject to those leases and
 - ii. Labeled “DATA_TAPE_ MTN_2016_1_Dec_EOM.mdb” and the corresponding record layout and decode information (the “Data File”) that the Sponsor, on behalf of the Issuer, indicated contains information as of the Cutoff Date on certain leases and the vehicles subject to those leases,
 - b. Imaged copies of:
 - i. The master equity lease agreement, amended and restated master equity lease agreement, master walkaway lease agreement, amended and restated master walkaway lease agreement and any corresponding addendums, if applicable (except for the self-insurance addendum) (collectively, the “Master Lease Agreement”),
 - ii. Certain screen shots from the Sponsor’s servicing system (the “System Screen Shots”),
 - iii. The credit review file (the “Credit Review File”),
 - iv. The certificate of title, renew motor vehicle registration receipt, title inquiry report, Texas department of motor vehicles vehicle titles and registration division form, validated registration card or title information screen shot from the Sponsor’s servicing system (which the Sponsor, on behalf of the Issuer, indicated contains information regarding the ownership of a vehicle that is provided by a state while the certificate of title is being processed) (collectively, the “Title”) and
 - v. The certificate of liability insurance, evidence of property insurance and/or the self-insurance addendum to the Master Lease Agreement, if applicable, (collectively, the “Insurance Source Documents,” and together with the Master Lease Agreement, System Screen Shots, Credit Review File and Title, the “Source Documents”)relating to each of the Sample Leases (as defined in Attachment A),
 - c. The list of relevant characteristics on the Data File (the “Sample Characteristics”), which are listed on Exhibit 2 to Attachment A and
 - d. Instructions, assumptions and methodologies, which are described in Attachment A.
-

The procedures included in Attachment A were limited to comparing, recalculating or observing certain information that is further described in Attachment A. The Issuer is responsible for the Preliminary Data File, Data File, Source Documents, Sample Characteristics and the determination of the instructions, assumptions and methodologies that are described herein. We were not requested to perform and we have not performed any procedures other than the listed in Attachment A with respect to the preparation or verification of any of the information set forth on the Preliminary Data File or Data File. We have not verified, and we make no representation as to, the accuracy, completeness or reasonableness of the Source Documents or any other information provided to us by the Sponsor, behalf of the Issuer, upon which we relied in forming our findings. Accordingly, we make no representation and express no opinion as to (a) the existence of the Leases or Vehicles, (b) questions of legal or tax interpretation and the accuracy, completeness or reasonableness of any instructions, assumptions and methodologies provided to us the Sponsor, on behalf of the Issuer, that are described in this report. We undertake no responsibility to update this report for events and circumstances occurring after the date hereof.

We were not engaged to, and did not, conduct an examination to express an opinion or a review to express a conclusion in accordance with attestation standards established by the American Institute of Certified Public Accountants on any of the items referred to herein. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

The agreed-upon procedures described in this report were not performed for the purpose of:

- a. Satisfying any criteria for due diligence published by a nationally recognized statistical rating organization (a "rating agency") or
- b. Making any findings with respect to:
 - i. Whether the origination of the Leases conformed to, or deviated from, stated underwriting or credit extension guidelines, standards, criteria, or other requirements,
 - ii. The value of the collateral securing the Leases,
 - iii. Whether the originator of the Leases complied with federal, state or local laws or regulations or
 - iv. Any other factor or characteristic of the Leases that would be material to the likelihood that the issuer of the Notes will pay interest and principal in accordance with applicable terms and conditions.

This report is intended solely for the use of the Specified Parties and is not intended to be and should not be used by anyone other than the Specified Parties. It is not intended to be and should not be used by any other person or entity, including investors and rating agencies, who are not identified in the report as Specified Parties but who may have access to this report as required by law or regulation.

Procedures performed and our associated findings

1. The Sponsor, on behalf of the Issuer, indicated that the leases and the vehicles subject to those leases on the Preliminary Data File with a financial issuance description containing the word “Base,” as shown on the Preliminary Data File (the “Preliminary Leases” and “Preliminary Vehicles,” respectively), are representative of the Leases and Vehicles, respectively.

As instructed by the Sponsor, on behalf of the Issuer, we randomly selected a sample of 150 Preliminary Leases from the Preliminary Data File (the “Sample Leases”). The Sample Leases are listed on Exhibit 1 to Attachment A. For the purpose of this procedure, the Sponsor, on behalf of the Issuer, did not inform us as to the basis for how they determined the number of Sample Leases they instructed us to select from the Preliminary Data File.

2. For each lease on the Preliminary Data File and Data File, we compared the unit number, as shown on the Preliminary Data File, to the corresponding unit number on the Data File and noted that:
 - a. All of the leases included on the Data File were included on the Preliminary Data File,
 - b. Five of the leases included on the Preliminary Data File were not included on the Data File (the “Removed Leases”) and
 - c. None of the Removed Leases were Sample Leases.

The Sponsor, on behalf of the Issuer, indicated that the leases and the vehicles subject to those leases on the Data File with a financial issuance description containing the word “Base,” as shown on the Data File, are the Leases and Vehicles, respectively.

3. For each Sample Lease, we performed the following procedures:
 - a. We compared the Sample Characteristics listed on Exhibit 2 to Attachment A, as shown on the Data File, to the corresponding information located on, or to the corresponding information we recalculated using information located on, the System Screen Shots, subject to the instructions, assumptions and methodologies provided by the Sponsor, on behalf of the Issuer, that are stated in the notes to Exhibit 2 to Attachment A. All such compared information was in agreement.
 - b. We observed that the corresponding Master Lease Agreement contained a signature in the lessee signature section of the Master Lease Agreement. We performed no procedures to determine the validity of the signature contained on the Master Lease Agreement.
-

3. (continued)

- c. We observed on the Credit Review File that such Credit Review File contained either a line of credit authorization form or an addendum to the line of credit authorization form that had an (i) approval and (ii) electronic signature. We performed no procedures to determine the validity of the approval or electronic signature contained on the Credit Review File.
 - d. We compared the completed date on the Credit Review File to the Cutoff Date, and except for the Sample Leases listed on Exhibit 3 to Attachment A, we observed that the corresponding completed date on the Credit Review File was less than 12 months prior to the Cutoff Date.
 - e. We observed the owner name on the Title. As instructed by the Sponsor, on behalf of the Issuer, we listed the owner name that we observed on the Title for each Sample Lease on Exhibit 4 to Attachment A. We performed no procedures to determine the validity of the owner names contained on the Title.
 - f. We observed the loss payee name for physical damage insurance and the additional insured name for liability insurance on the Insurance Source Documents (if applicable and available) and/or System Screen Shots (if applicable). As instructed by the Sponsor, on behalf of the Issuer, we listed the loss payee name and additional insured name that we observed on the Insurance Source Documents or System Screen Shots for each Sample Lease on Exhibit 5 to Attachment A. We also observed on the Insurance Source Documents or System Screen Shots (as applicable), subject to the instructions provided by the Sponsor, on behalf of the Issuer, that are included in the notes to Exhibit 5 to Attachment A, that:
 - i. 114 of the Sample Leases have Insurance Source Documents which show evidence of physical damage and liability insurance and identify Enterprise FM Trust as both the loss payee and additional insured,
 - ii. 14 of the Sample Leases have System Screen Shots which show “Enterprise Enrollment Coverage” as the insurance carrier and detail the amount of physical damage and liability insurance that is billed each month,
 - iii. Four of the Sample Leases have System Screen Shots which show “Enterprise Enrollment Coverage” as the insurance carrier and detail the amount of physical damage insurance that is billed each month and have Insurance Source Documents which show evidence of liability insurance and identify Enterprise FM Trust as the additional insured,
 - iv. 13 of the Sample Leases have Insurance Source Documents which (a) show evidence that the lessee is self-insured for physical damage and (b) show evidence of liability insurance and identify Enterprise FM Trust as the additional insured and
 - v. Five of the Sample Leases have Insurance Source Documents which show evidence of the lessee being self-insured for both physical damage and liability insurance.
-

3. (continued)

f. (continued)

We performed no procedures to determine the accuracy, completeness or reasonableness of the information described in this Item 3.f. that is contained on the Insurance Source Documents and/or System Screen Shots.

The Sponsor, on behalf of the Issuer, indicated that certain lessee names have changed subsequent to the Sponsor's preparation of the information on the Data File and the Sponsor's preparation of the corresponding System Screen Shots. The Sponsor, on behalf of the Issuer, provided a decode table (the "Lessee Name Change Table") for four leases containing the original and updated lessee names corresponding to such leases, and instructed us to use this information for the purpose of performing the procedures described in Items 3.b. through 3.d. above. We performed no procedures to determine the accuracy, completeness or reasonableness of the information in the Lessee Name Change Table.

Notes:

- i. The Sponsor, on behalf of the Issuer, indicated that for certain Sample Leases (the "Affiliate Sample Leases"), the lessee is identified on the System Screen Shots as a sub-customer of a master customer (the "Master Customer"). For the purpose of comparing the client number Sample Characteristic for each Affiliate Sample Lease, the Sponsor, on behalf of the Issuer, instructed us to use the client number corresponding to the Master Customer, as shown on the System Screen Shots.
 - ii. For the purpose of comparing the legal name of the lessee Sample Characteristic for each Affiliate Sample Lease, the Sponsor, on behalf of the Issuer, instructed us to use the legal name of the Master Customer, as shown on the System Screen Shots.
-

Notes: (continued)

- iii. For the purpose of comparing the contract type Sample Characteristic for each Sample Lease, the Sponsor, on behalf of the Issuer, indicated that:
 - a. A contract type of “type N” on the System Screen Shots corresponds to a closed term lease, as shown on the Data File and
 - b. A contract type of “type E” on the System Screen Shots corresponds to an open term lease, as shown on the Data File.

- iv. For the purpose of comparing the vehicle residual value Sample Characteristic for each Sample Lease, the Sponsor, on behalf of the Issuer, instructed us to recalculate the vehicle residual value by subtracting:
 - a. The product of:
 - i. The monthly depreciation value and
 - ii. The difference between the lease term and the months in servicefrom
 - b. The sum of the vehicle capitalized cost and accumulated depreciation, all as shown on the System Screen Shots.

For the avoidance of any doubt with respect to the recalculation described above, the accumulated depreciation, as shown on the System Screen Shots, is a negative value, and the recalculation described in iv.b. above reduces the vehicle capitalized cost by such accumulated depreciation amount.

- v. For the purpose of comparing the client industry Sample Characteristic for each Affiliate Sample Lease, the Sponsor, on behalf of the Issuer, instructed us to use the client industry corresponding to the Master Customer, as shown on the System Screen Shots.

Note:

The Sponsor, on behalf of the Issuer, indicated that their credit and collection policy allows them to utilize a combination of objective measurements, subjective considerations and controls to determine when or if a credit review is necessary. The Sponsor, on behalf of the Issuer, indicated that while most clients are assigned a credit review date that is intended to result in an annual credit review, such date is not a defined date for performing a credit review. Additionally, the Sponsor, on behalf of the Issuer, indicated that credit personnel can use judgment to determine if a review is necessary or if it can be deferred and that common items they might consider include (but are not limited to):

- a. Whether or not the client plans to place additional orders over the next year and/or whether the expected timing of those additional orders allows for the credit review to be deferred,
- b. The level of risk inherent with the client's fleet,
- c. How long they have been a client,
- d. Whether the latest financial information may be reviewed without performing a complete credit review (if the credit file is for a public company) and
- e. Whether the client has been placed on credit hold or order hold.

We performed no procedures to determine the accuracy, completeness or reasonableness of the information provided by the Sponsor, on behalf of the Issuer, that is described above.
