## News Release

### Trilogy Metals Reports First Quarter Fiscal 2021 Financial Results

**April 7, 2021 - Vancouver, British Columbia – Trilogy Metals Inc.** (TSX / NYSE American: TMO) ("Trilogy Metals" or "the Company") announces its financial results for the first quarter ended February 28, 2021. Details of the Company's financial results are contained in the interim unaudited consolidated financial statements and Management's Discussion and Analysis which will be available on the Company's website at [www.trilogymetals.com](http://www.trilogymetals.com), on SEDAR at [www.sedar.com](http://www.sedar.com) and on EDGAR at [www.sec.gov](http://www.sec.gov). All amounts are in United States dollars unless otherwise stated.

#### First Quarter 2021 Results and Events Highlights

- Q1 2021 comprehensive loss for the quarter of \$4.5 million.
- Q1 2021 ending cash position of \$9.6 million, a decrease of \$1.5 million from the previous quarter.
- 2021 budget of \$27 million for the advancement of the Upper Kobuk Mineral Projects, funded entirely by Ambler Metals LLC, with approximately \$140 million dedicated to the advancement of the projects.
- Ambler Access Project granted 50-year right-of-way on federal lands.

#### Selected Results

The following selected financial information is prepared in accordance with U.S. GAAP.

<i>in thousands of dollars, except for per share amounts</i>		
<b>Three months ended</b>		
<b>Selected expenses</b>	<b>February 28, 2021</b>	<b>February 29, 2020</b>
	<b>\$</b>	<b>\$</b>
Mineral properties and feasibility study expenses	-	1,545
General and administrative	401	651
Investor relations	154	126
Professional fees	229	668
Salaries	439	224
Salaries – stock-based compensation	2,148	1,196
Gain on derecognition of assets contributed to joint venture	-	(175,770)
Share of loss on equity investment	1,120	178
Comprehensive earnings (loss) for the period	(4,516)	171,179
Basic earnings (loss) per common share	(0.03)	1.22
Diluted earnings (loss) per common share	(0.03)	1.16

For the three months ended February 28, 2021, the Company reported net loss of \$4.5 million (or \$0.03 basic and diluted loss per common share). For the comparable period in 2020, we reported net earnings of \$171 million (or \$1.22 basic and \$1.16 diluted earnings per common share). This first quarter difference is primarily due to the \$176 million gain on derecognition of mineral property assets contributed to Ambler Metals upon formation of the joint venture on February 11, 2020. This is offset by \$1.5 million of mineral property expenses incurred during the first quarter of 2020. Furthermore, our share of loss in equity in investment is \$0.94 million higher in the current quarter as the comparative does not include a full quarter of costs for the equity pick up; it reflects our pro rata 50% share of Ambler Metals' net loss from the formation of the joint venture on February 11, 2020 through to the end of the quarter on February 29, 2020.

Other variances noted for the comparable period were: i) a decrease in general and administrative expenses of \$0.3 million, primarily due to \$0.1 million in travel cost savings (due to COVID-19 travel restrictions), additional regulatory fees of \$0.1 million included in the comparative quarter as well as \$0.1 million recruiting fees incurred in the comparative period for which there is no current period cost; ii) a decrease of \$0.4 million in professional fees as the comparative period includes charges for the research and implementation of new accounting standards and legal and accounting fees in relation to the formation and valuation of the joint venture, all of which do not have a current period comparative; iii) an increase of \$0.2 million in salaries is due to the addition of management during the second half of the prior year, for which there is no prior year first quarter comparative; iv) an increase of \$1 million in stock-based compensation driven primarily by a 0.9 million increase in the number of stock options that were granted and vested during the first quarter of 2021 versus the comparative period.

### **Ambler Access Project ("AAP")**

During the quarter ended February 28, 2021, the Alaska Industrial Development and Export Authority ("AIDEA"), the United States Bureau of Land Management and the National Park Service signed Right-of-Way agreements giving AIDEA the ability to cross federally owned and managed lands along the route for the AAP (formerly, Ambler Mining District Industrial Access Project or AMDIAP). The authorizing documents with the two agencies are the final federal permits required for the AAP.

### **2021 Operating Budget for the Upper Kobuk Mineral Projects ("UKMP")**

During the quarter ended February 28, 2021, the Company announced the approval of the 2021 program and budget of approximately \$27 million for the advancement of the UKMP. The budget will be funded by Ambler Metals LLC ("Ambler Metals"), the Company's 50/50 joint venture with South32 Limited. Activities during the 2021 field season will include 7,600 meters of drilling at the Arctic project focused on extracting additional material for metallurgical work and for the conversion of mineral resources into the measured category, along with 7,000 meters of regional exploration drilling at drill-ready targets. During the 2021 field season, Ambler Metals will be adhering to strict COVID safety protocols and to Government of Alaska guidelines. Additional information on the summer field program will be provided when available.

## Liquidity and Capital Resources

At February 28, 2021, we had \$9.6 million in cash and cash equivalents and working capital of \$9.2 million, which is sufficient to fund our ongoing operations for at least the next 12 months. The projects are fully funded by Ambler Metals and we do not anticipate needing to fund our 50% share of future expenditures to advance the projects until Ambler Metals' \$145 million is spent.

## Qualified Persons

Richard Gosse, P.Geo., Vice President Exploration for Trilogy Metals Inc., is a Qualified Person as defined by National Instrument 43-101. Mr. Gosse has reviewed the technical information in this news release and approves the disclosure contained herein.

## About Trilogy Metals

Trilogy Metals Inc. is a metals exploration and development company which holds a 50 percent interest in Ambler Metals LLC which has a 100 percent interest in the UKMP in northwestern Alaska. The UKMP is located within the Ambler Mining District which is one of the richest and most-prospective known copper-dominant districts located in one of the safest geopolitical jurisdictions in the world. It hosts world-class polymetallic volcanogenic massive sulphide ("VMS") deposits that contain copper, zinc, lead, gold and silver, and carbonate replacement deposits which have been found to host high-grade copper and cobalt mineralization. Exploration efforts have been focused on two deposits in the Ambler mining district - the Arctic VMS deposit and the Bornite carbonate replacement deposit. Both deposits are located within land package that spans approximately 172,636 hectares. The Company has an agreement with NANA Regional Corporation, Inc., a Regional Alaska Native Corporation that provides a framework for the exploration and potential development of the Ambler mining district in cooperation with local communities. Our vision is to develop the Ambler mining district into a premier North American copper producer.
