WOMBAT CAPITAL MARKETS LLC
STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2023

Note 1 – Operation and Structure

Wombat Capital Markets LLC (the “Company”), is a limited liability company organized under the laws of the State of New York, and is a wholly owned subsidiary of Wombat Worldwide Group LLC (the “member”). The Company is a broker-dealer registered with the Securities and Exchange Commission (“SEC”) under the Securities Exchange Act of 1934 and operates under a membership agreement with the Financial Industry Regulatory Authority (“FINRA”). The Company is required to maintain a minimum net capital pursuant to SEC rule 15c3-1.

Note 2 - Summary of significant accounting policies

Basis of accounting and use of estimates

These financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”) which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Accounts receivable

Accounts receivable are comprised of receivables for fees and at times expense reimbursements. The Company evaluates collectability of its accounts receivable and determines if an allowance for uncollectible accounts is necessary based on historical payment information or known customer financial concerns. There was no allowance for uncollectible accounts at December 31, 2023.

The Company had \$0 in outstanding receivables at January 1, 2023 and \$801 at December 31, 2023.

The Company had \$0 in contract assets and liabilities at January 1, 2023 and \$0 at December 31, 2023.

The allowance for credit losses

ASC Topic 326, Financial Instruments – Credit Losses (“ASC 326”) impacts the impairment model for certain financial assets by requiring a current expected credit loss (“CECL”) methodology to estimate expected credit losses over the entire life of the financial asset. Under ASC 326, the Company could determine there are no expected credit losses in certain circumstances (e.g., based on the credit quality of the client).

The allowance for credit losses is based on the Company's expectation of the collectability of financial instruments, including fees and other receivables utilizing the CECL framework. The Company considers factors such as historical experience, credit quality, age of balances and current and future economic conditions that may affect the Company's expectation of the collectability in determining the allowance for credit losses. Under the standard, the allowance for credit losses must be deducted from the amortized cost of the financial asset to present the net amount expected to be collected.

The statement of operations would reflect the measurement of credit losses for newly recognized financial assets as well as the expected increases or decreases of expected credit losses that might have taken place during the period. The Company has not provided an allowance for credit losses at December 31, 2023.
