Form S-1, filed March 29, 2012

General

1. Since you appear to qualify as an “emerging growth company,” as defined in the Jumpstart Our Business Startups Act (“the Act”), please disclose on your prospectus cover page that you are an emerging growth company, and revise your prospectus to provide the following additional disclosures:
 - Describe how and when a company may lose emerging growth company status;
 - A brief description of the various exemptions that are available to you, such as exemptions from Section 404(b) of the Sarbanes-Oxley Act of 2002 and Section 14A(a) and (b) of the Securities Exchange Act of 1934; and
 - Your election under Section 107(b) of the Act:

- If you have elected to opt out of the extended transition period for complying with new or revised accounting standards pursuant to Section 107(b) of the Act, include a statement that the election is irrevocable; or
- If you have elected to use the extended transition period for complying with new or revised accounting standards under Section 102(b)(2)(B) of the Act, provide a risk factor explaining that this election allows you to delay the adoption of new or revised accounting standards that have different effective dates for public and private companies until those standards apply to private companies. Please state in your risk factor that, as a result of this election, your financial statements may not be comparable to companies that comply with public company effective dates. Include a similar statement in your critical accounting policy disclosures in MD&A.

Outside Back Cover Page

2. Please revise to provide the information required by Item 502(b) of Regulation S-K or advise us why you believe the information is not required.

Risk Factors, page 6

3. Please revise to present the risk factors in the order of materiality. In this regard revise to present the risk factors “We may need to obtain additional financing”, “We lack operating revenue which may cause our business to fail”, “We are still a development stage company ...”, “Our officer has limited experience in our industry ...”, and “Going Concern Considerations” more prominently in the risk factor section.
4. Please substantially revise your risk factor subheadings to concisely state the specific material risk each risk factor presents to your company or investors in the offering. Your subheadings should be revised so that they adequately describe the specific risk addressed.
5. We note your statement in the risk factor “We are dependent upon our sole officer ...” that “[w]e are also dependent on certain key consultants in connection with our business activities.” Please revise to clarify whether the company is currently using consultants in its business operations, if so indicate the type of consultants currently being used by the business.
6. In your risk factor “we may be subject to government laws and regulations ...” please expand to address in more detail the laws and regulations regarding the development of your mineral properties.
7. Please add a risk factor addressing the risks to investors arising from Mr. Baessato owning 3,500,000 shares, approximately 71% of the company’s voting stock.

8. Please add a risk factor discussing the risks involved with becoming a reporting company with the Securities and Exchange Commission.

Selling Shareholders, page 12

9. We note your statement that “no selling shareholder has any affiliation with Valmie Resources, Inc. or our officers, directors, promoters or principal shareholders except as noted.” (emphasis added) The selling shareholders table does not indicate any affiliation. Please revise to delete the noted emphasized statement or revise to indicate any affiliation.

Plan of Distribution, page 13

10. We note your statement that the “Selling Shareholders are free to offer and sell their common shares at such times, in such manner and at such prices as they may determine.” Please revise to state, as noted on your cover page, that until a market develops the selling shareholders will sell their shares at \$0.10 per share.

Description of Securities to be Registered, page 13

11. The statement that “all outstanding shares of [y]our common stock offered hereby will be duly authorized, validly issued, fully paid and non-assessable” is a legal conclusion you are not qualified to make. Either attribute this statement to counsel and file counsel’s consent or remove the statement.

Description of Business, page 15

12. We note your statement that you are a development stage company in this section. The terms development and production have very specific meanings within Industry Guide 7 (see www.sec.gov/about/forms/industryguides.pdf). These words/terms reference the development stage when companies are engaged in preparing reserves for production, and the production stage when companies are engaged in commercial-scale, profit-oriented extraction of minerals. Since you do not disclose any reserves as defined by Guide 7, please remove the terms develop, development or production throughout your document, and replace this terminology, as needed, with the terms such as explore or exploration. This includes the use of the terms in the Financial Statement head notes and footnotes, please see Instruction 1 to paragraph (a) of Industry Guide 7.
13. Please clarify what is meant by “unpatented claims” as used on page 20.

14. We note that the company entered into an Option Agreement with Promithian Mining. Revise to disclose the material terms of the agreement and attach the agreement as an exhibit in accordance with Item 601(b)(10) of Regulation S-K.

History, page 27

15. We note your Iowa Canyon Property (ICP) disclosure of a resource tonnage and grade. The provisions in Industry Guide 7 preclude the use of any terms other than proven or probable reserves for disclosure in SEC documents. Please remove this resource terminology from your filing.

Mineralization, page 32

16. We note your disclosure of Parts per Billion (ppb) in this section. When reporting the results of sampling and chemical analyses, please revise your disclosure to address each of the following regarding mineralization of existing or potential economic significance on your property:
- Disclose only weighted-average sample analyses associated with a measured length or a substantial volume.
 - Eliminate all analyses from “grab” or “dump” samples, unless the sample is of a substantial and disclosed weight.
 - Eliminate all disclosure of the highest or best values/grades of sample sets. Present a balanced disclosure of the drill and sampling results
 - Eliminate grades disclosed as “up to” or “as high as” or “ranging from.”
 - Eliminate statements containing grade and/or sample-width ranges.
 - Aggregated sample values from related locations should be aggregated based on a weighted average of lengths of the samples.
 - Generally, use tables to improve readability of sample and drilling data.
 - Soil samples may be disclosed as a weighted average value over an area.
 - Refrain from reporting single soil sample values.
 - Convert all ppb quantities to ppm quantities for disclosure.
 - Avoid optimistic descriptive adjectives such as high-grade or ore-grade.

Please revise your disclosures to comply with this guidance. Please note the TSX Venture Exchange Corporate Finance Manual – Appendix 3F also addresses many of these items.

Please discuss in your business section your relationship with these consultants in greater detail. For instance, please address how many consultants you have, what role each has and whether you have written or oral agreements with any or all consultants. We may have further comment.
