- The Company does not intend to list its shares on any securities exchange for 8 years after completion of this offering, and the Company does not expect a secondary market in the shares to develop.
- The Company has a share repurchase program, but it does not expect to repurchase more than 5% of the shares that were outstanding in the prior year on average. In addition, any such repurchases will be at a 10% discount to the current offering price in effect on the date of repurchase (for 2 years after the close of the offering, increasing thereafter).
- Distributions are not guaranteed, and the Company is permitted to return a limited amount of its capital, or borrow, to fund distributions (though the Company intends to do neither).
- You should consider that you may not have access to the money you invest for an indefinite period of time.

•An investment in the Company's shares is not suitable for you if you need access to the money you invest. See the "Share Repurchase Program" and "Suitability of Stockholders" sections in the Prospectus of the Company.

• Because you will be unable to sell your shares, you will be unable to reduce your exposure on any market downturn unless and until the Company lists the shares.
