Our Business Strategy, page 1

2. We note your disclosure stating that you expect to sell properties that do not meet your investment criteria. In future Exchange Act periodic reports, please include disclosure describing your investment criteria and the factors that affect your decision to keep or sell a property, or explain to us why you do not believe this information is material to investors.

Item 7. Management's discussion and analysis of financial condition and results of operations

Metrics Affecting Our Consolidated Results, page 41

3. We note your disclosure throughout regarding the importance of your loan resolution efforts. In future Exchange Act periodic reports, please consider including a discussion of key metrics that measure your success at loan resolution.
4. We note your disclosure under "Revenues" regarding the various factors that impact your revenues, including the timeline to convert acquired loans into REO. We further note your disclosure on page 41 under "Overview" regarding the current status of each of your REO properties. In future Exchange Act periodic reports, please expand your disclosure to include discussion of the breakdown of the average timeline for your loans to be converted to leased properties in the following phases:
 - average number of days to convert acquired loans into REO;
 - average number of days to determine whether each property meets your rental profile;
 - average number of days between commencement of renovation and listing of the property for rent; and
 - average number of days from listing to leasing a property.

Please also disclose your average renovation expense per property. We note that you discussed some of these metrics in your Q4 2014 Earnings Call. If you believe this information is not material to investors, please tell us why.

5. We note your disclosure that the key variables that will affect your rental revenues over the long term will be average occupancy and rental rates. We also note your discussion of average rent rates on your Q4 2014 Earnings Call. In future Exchange Act periodic reports, please include disclosure regarding average occupancy and rental rates for your leased portfolio. Please also consider providing additional information on your rental properties to the extent material, including average square feet of your REO properties, rates of resident retention and/or turnover, qualitative and quantitative information regarding your current resident characteristics and disclosure regarding the weighted average original lease term and the weighted average remaining length of leases.

6. With respect to your repurchase agreements, we note your presentation of the balance at end of period, maximum month-end balance outstanding during the period and the weighted average quarterly balance for the three months ended December 31, 2014 and

2013, as well as your explanations for the significant variances among these amounts. In future annual filings, please expand your disclosure to present this information for any quarterly periods within the most recent three years for which you have any repurchase agreement activity.

7. We note your disclosure that your three repurchase agreements provide for the lenders to finance your portfolio at advance rates (or purchase prices) ranging from 40% to 80% of the “asset value” of the mortgage loans and REO properties and that if the carrying value of the collateral declines beyond certain limits, you would have to either provide additional collateral or repurchase certain assets under the agreement to maintain the applicable advance rate. In future Exchange Act periodic filings, please disclose who determines the market value used to arrive at “asset value,” the period end weighted average haircut for your repurchase agreements and discuss any material trends in haircuts or tell us why such disclosure is not material.
