In your response, please provide reference to the authoritative literature that supports your accounting treatment.

Mining exploration, page 197

3. Please expand your accounting policy in future filings to explicitly state whether you have capitalized mining exploration expenditure under the IFRS 6 provisions. If yes, please disclose the amounts capitalized at each of the reporting date. In your response, please provide us with draft disclosure to be included in future filings.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes the information the Securities Exchange Act of 1934 and all applicable Exchange Act rules require. Since the company and its management are in possession of all facts relating to a company's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.

In responding to our comments, please provide a written statement from the company acknowledging that:

- the company is responsible for the adequacy and accuracy of the disclosure in the filing;
- staff comments or changes to disclosure in response to staff comments do not foreclose the Commission from taking any action with respect to the filing; and
- the company may not assert staff comments as a defense in any proceeding initiated by the Commission or any person under the federal securities laws of the United States.

You may contact Suying Li at (202) 551-3335 or Angela Lumley at (202) 551-3398 with any questions.
