**SIBANYE REPORTS POSITIVE INITIAL RESULTS FROM DMR MINING CHARTER  
AUDIT**

**Westonaria, 31 March 2015:** Sibanye Gold Limited (JSE: SGL & NYSE: SBGL) is pleased to report that it has completed the Department of Mineral Resources' (DMR) web-based Mining Charter template. After initial calibration and rounding off, all of Sibanye's operations have achieved top quartile scores for the three years up to and including 2014. Sibanye's operations therefore fall into the "Excellent Performance" category as per the DMR's electronic based scorecard.

With regard to the black economic empowerment (BEE) ownership component, Sibanye is confident that it exceeds the 26% requirement and has received legal opinion which supports its position.

"We welcome the collaborative approach adopted by the Department of Mineral Resources (DMR) and that it has agreed with the mining industry to approach the courts in order to achieve certainty on the principle of continuing consequences, via a declaratory order. We have made significant effort to ensure we are fully compliant with the letter and more importantly, the spirit of the Mining Charter, and I am pleased with what we have achieved and look forward to further direct engagement with the DMR," said Neal Froneman, CEO of Sibanye.

"Sibanye makes a meaningful contribution to the South African economy through its activities, and continues to be one of the largest employers in the country. We have embraced transformation and will continue to contribute to the development and upliftment of our communities and employees. Moreover, there has been meaningful and tangible value transferred to our BEE partners and employees through equity ownership and employee share ownership schemes. As a leading South African company we are committed to investing for a sustainable future in the country, for the future benefit of all of our stakeholders" concluded Froneman.
