Sibanye-Stillwater concludes streaming agreement with Wheaton International

Johannesburg, 25 July 2018: Sibanye-Stillwater (Tickers JSE: SGL and NYSE: SBGL) is pleased to announce that all outstanding conditions required to complete the gold and palladium stream agreement with Wheaton Precious Metals International Ltd (Wheaton International) have been fulfilled.

In terms of the agreement, Sibanye-Stillwater has received US\$500 million from Wheaton International in exchange for an amount of gold and palladium equal to a percentage of gold and palladium produced from its United States (US) Platinum Group Metals (PGM) operations (comprised of its East Boulder and Stillwater mining operations) (the Transaction). The Transaction is effective from 1 July 2018.

The US\$500 million arising from the Transaction is competitively priced relative to existing Group debt and alternative financing available in international capital markets. The Transaction immediately reduces Sibanye-Stillwater's leverage, decreasing Net Debt:Adjusted EBITDA¹ by between 0.6x and 0.7x. This ensures a Group leverage ratio which is well below current and future covenant levels and facilitating a reduction in Group financing costs.

For more details on the Streaming transaction, please refer to the announcement and presentation at <https://www.sibanyestillwater.com/investors/events/streaming-transaction>.

Footnote:

1. For the purposes of calculating the Net Debt: Adjusted EBITDA ratio, Adjusted EBITDA is calculated over the immediately preceding 12 months. Net Debt excludes Burnstone cash and debt due to the non-recourse nature of the financing as explained in the 2017 Annual Financial Statements. Adjusted EBITDA as reported is an accounting calculation based on financial results from the date of acquisition and consolidation
