4. We note your response to comment 17 in our letter dated October 3, 2014. Please include a note to your financial statements specifically disclosing, if true, the retroactive treatment as well as the change made and the effective date of the change. Please refer to ASC 505-10-S99.

2. Stockholders' Equity, page 43

5. We note your response to comment 19 in our letter dated October 3, 2014 and your revised disclosure to describe the terms under which the promissory notes were converted. Please address that portion of our comment requesting disclosure of how you determined the amount of loss recognized. Please ensure your disclosure is consistent throughout your filing. For example you describe here that the loss was recognized because the conversion terms of the notes were not adjusted as provided for in the event of a share recapitalization and in Note 5 you disclose a loss was recognized because the conversion price was at a discount from the market prices of the shares on the dates of the original issuances. Also, please help us understand your loss recognition on the conversion of the notes by responding to that portion of our comment requesting you advise us of the specific literature applied to your fact pattern. Your reference to the disclosure in Note 5 provides the guidance used to determine a BCF existed because the conversion price was less than the quoted market price at the time of issuance.

6. We note your response to comment 14 in our letter dated October 3, 2014 in which you have added disclosure regarding management's plan to address your going-concern status and deleted other duplicative disclosure. However, certain disclosure explaining the meaning of your auditor's going-concern opinion and the rationale for which it was issued appears to have been removed as well. Please revise to include such disclosure in order to provide investors with context for management's plan to address the going-concern opinion.
