2. Please revise throughout to remove any inference regarding regulatory approval or the safety, tolerability and efficacy of your product candidates or explain to us why these

statements are appropriate given the early stage of your product candidates. We note, by way of example, the statements that your product candidate, ACU193:

- has the potential for improved efficacy and for a favorable safety profile and tolerability allowing higher dosing on page 2 under the section Our Differentiated Approach to the Treatment of AD; and
- "has the potential to be an effective and safe therapy for the treatment of AD"; and
- is positioned "to be potentially best-in-class" on pages 3 and 100, and a similar statement on page 107.

Summary of Our Nonclinical Data, page 3

3. Please expand to disclose the nonclinical studies from which you base your statements related to ACU193.

Our Team, page 3

4. We note that you identify certain entities on page 4 as investors in your company, several of which do not appear to be among your principal stockholders as disclosed on page 160. If material, please expand your disclosure to describe the nature of each named entity's investment in you or explain to us why including this information is appropriate.

Use of Proceeds, page 78

5. Please disclose your intended use of the proceeds from the offering in your next amendment or public filing. Your disclosure should describe how far the proceeds are expected to enable you to progress in the clinical development of ACU193.

Sources of Liquidity, page 90

6. You state on page 90 that upon achievement of a certain milestone event for ACU193, or upon election of the Series B investors to waive the requirement for the milestone event to be achieved prior to its achievement, you are obligated to issue and sell a second tranche of Series B shares to the Series B purchasers for gross proceeds of \$30.0 million. On page 85 you refer to certain defined clinical milestones. Please clarify the nature of the clinical milestone and anticipated timing and if it is likely the purchasers will waive the requirement for the milestone event prior to the IPO.
