2. In regard to the members' equity subject to a put request, please address the following:
 - Clarify if a put request will continue to exist after the reorganization;
 - Clarify how the accretion related to the units subject to a put request will be reflected in your pro forma earnings per share calculations; and
 - Provide a critical accounting policy that explains how you determined the fair value of the units subject to a put request during each period and, if applicable, reconcile the most recent fair value per unit relative to the estimated IPO price.
