REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Member of
J. Wood Capital Advisors, LLC

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of J. Wood Capital Advisors, LLC as of December 31, 2018, and the related notes (collectively referred to as the “financial statement”). In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of J. Wood Capital Advisors, LLC as of December 31, 2018 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of J. Wood Capital Advisors, LLC’s management. Our responsibility is to express an opinion on J. Wood Capital Advisors, LLC’s financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to J. Wood Capital Advisors, LLC in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Total liabilities and member's equity	<u>\$ 16,012,047</u>

The accompanying notes are an integral part of this financial statement.

J. Wood Capital Advisors LLC
Notes to Financial Statement
December 31, 2018

1. Organization and Business

J. Wood Capital Advisors LLC (the “Company”) is a limited liability company formed under the laws of the State of California. The Company is a broker-dealer registered with the Securities and Exchange Commission (the “SEC”) and is a member of the Financial Industry Regulatory Authority (“FINRA”).

The Company renders corporate financial advisory services to selected clients. Such advisory services involve mergers and acquisitions, debt and equity financing, derivative strategies and leveraged buyouts. The Company also serves as an underwriter of securities or selling group participant and engages in private placements of securities.

2. Summary of Significant Accounting Policies

Basis of Presentation

This financial statement was prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”) which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement. Actual results could differ from these estimates.

Fixed Assets

Furniture and equipment is recorded at cost, net of accumulated depreciation, which is calculated on a straight-line basis over an estimated useful life of three to five years.

Income Taxes

The Company is a single member limited liability company and is treated as a disregarded entity for federal income tax reporting purposes. The Internal Revenue Code (“IRC”) provides that any income or loss is passed through to the ultimate beneficial individual member. Accordingly, the Company has not provided for federal and state income taxes.

At December 31, 2018, management has determined that the Company had no uncertain tax positions that would require financial statement recognition. This determination will always be subject to ongoing reevaluation as facts and circumstances may require.

3. Employee Benefit Plan

The Company participates in a 401(k) plan and a cash balance plan covering its employees. For the year ended December 31, 2018, the Company made a total of \$690,000 in contributions.

4. Investments

During 2018, the Company had investments in convertible notes. The net unrealized or realized profit on securities is reflected in the statement of operations.

Fair Value Measurement guidance establishes a hierarchy that prioritizes the inputs to valuation techniques giving the highest priority to readily available unadjusted quoted prices in active markets for identical assets (Level I measurements) and the lowest priority to unobservable inputs (Level III measurements) when market prices are not readily available or reliable. The three levels of hierarchy are described below:

Level I - Quoted prices are available in active markets for identical securities as of the reporting date. The types of investments which would generally be included in Level I include listed equities and listed derivatives. As required by GAAP, the Company does not adjust the quoted prices for these investments, even in a situation where the Company holds a large position and a purchase or sale could reasonably impact the quoted price.

Level II – Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. The types of investments which would generally be included in this category include less liquid and restricted debt or equity securities and certain over-the-counter derivatives.

Level III – Pricing inputs are unobservable for the investment and includes situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. The types of investments which would generally be included in this category include equity and/or debt securities issued by private entities.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

Securities are classified within Level III of the fair value hierarchy because they trade infrequently (or not at all) and therefore have little or no readily available pricing. Unobservable inputs are used to measure fair value to the extent that observable inputs are not available. Securities for which market prices are not readily available are valued at such value as management may reasonably determine in good faith to be its fair value, in consideration of either earnings, financial condition of the companies or recent equity transactions by a significant investor and other investment criteria.

The values assigned to investments and any unrealized gains or losses reported are based on available information and do not necessarily represent amounts that might be realized if a ready market existed and such difference could be material. Furthermore, the ultimate realization of such amounts depends on future events and circumstances and, therefore, valuation estimates may differ from the value realized upon disposition of individual positions.

J. Wood Capital Advisors LLC
Notes to Financial Statement
December 31, 2018

4. Investments (continued)

The following table presents the Company's fair value hierarchy for securities owned as of December 31, 2018:

	Level I	Level II	Level III	
Securities held at fair value:	Quoted prices in active markets for identical assets	Significant other observable inputs	Unobservable inputs	Balance as of 12/31/18
Fixed income securities	\$ -	\$ 14,433,162	\$ -	\$ 14,433,162
	<u>\$ -</u>	<u>\$ 14,433,162</u>	<u>\$ -</u>	<u>\$ 14,433,162</u>

5. Regulatory Requirements

The Company is subject to SEC Uniform Net Capital Rule 15c3-1 under the Securities Exchange Act of 1934, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2018, the Company had net capital of \$1,293,805 which exceeded the required net capital by \$1,193,805.

The Company does not handle cash or securities on behalf of customers. Accordingly, it is not affected by SEC Rule 15c3-3.

6. Fixed Assets

Fixed assets consist of the following at December 31, 2018:

Furniture and equipment	\$ 26,412
Automobiles	152,790
Less: accumulated depreciation	<u>(103,592)</u>
Total	<u>\$ 75,610</u>

7. Commitments

The Company leases office space from the Managing Member of the Company. The lease provides for monthly payments of \$2,000 and expires on February 1, 2019, one year after the commencement date. The Company has renewed its lease for one year with the same terms.

During 2018, the Company entered into a second lease for office space and parking for some of its support staff. This is a one-year lease with monthly payments of \$1,400 and expires on January 31, 2019.

8. Concentrations

The Company's cash accounts are held by one financial institution and therefore are subject to the credit risk at that financial institution. The Company does not consider itself to be at risk with respect to its cash balances.

Approximately 30% of the Company's revenues came from one customer.

Securities held at fair value are comprised of four securities.

9. New Accounting Pronouncements

Effective for the fiscal year beginning January 1, 2019, any operating leases will be subject to ASU 2016-02 which calls for the right to use lease assets and the present value of future lease payments to be reflected on the Company's Statement of Financial Condition. The Company does not expect that this change in generally accepted accounting principles will have any material effect on its overall financial condition, its operations or its regulatory compliance base on the short-term nature of its leasing arrangements.
