Engineering Lead at Offline Media, Inc.
Raleigh, North Carolina, United States

Summary

Strong programmer with the creative mind for collaborating,
designing, and developing software.

———

Experience

Offline Media Inc.
Lead Developer
May 2013 - Present (10 years 11 months)
Raleigh, North Carolina

(2020 - Present) Meet your local concierge. We help thousands of paying
members try something new in their city every single month, while helping our
curated network of local business partners acquire passionate new customers.

(2014 - 2019) Offline was the fastest growing media company for millennials in
Raleigh-Durham, Charlotte and Nashville, reaching over 1 million people each
month, and driving over 9 million in local spending each year.

Anventure, LLC
Consultant
April 2011 - October 2011 (7 months)
Winston-Salem, North Carolina

I worked for the GoCertify network of Anventure. There, I tested and fixed
administrative database functionallity by adding error checking and handling.
There was an emphasis on being thorough and complete so as not to damage
data currently stored in the database.
