

2021 Market Launch and Expansion Summary

Introducing acQyr eXchange™

Lots of games. Lots of rewards. One eXchange.

Our Mission

Become market leading platform for personalized rewards

One platform and app for personalized offers, reward issuance, and flexible reward redemption across multiple games.

What is acQyr eXchange (QX)?

...a personalized offers and rewards platform for the mobile and video gaming industry. QX:

- **Increases gamer retention and grows revenue.**
- Works like classic retail loyalty programs to **increase revenues** by up to **2.5 times**.
- Provides an **end-to-end solution**, with **customizable** offers and rewards.

Acquire Rewards –
Exchange for cash

Mobile/video gaming industry has a growing problem!

Double digit growth...

...is creating challenges in acquiring and retaining gamers.

Decreasing ROI

Increasing Customer Acquisition Costs (CAC) and decreasing Life-Time Value (LTV) of gamers is adversely impacting game Returns on Investment (ROI). Only 20% of all games make a profit!

A proven alternative is needed to reduce CAC and increase LTV.

Our **solution** transfers the proven success of targeted offers and rewards from retail to gaming.

Reduces CAC

- ✓ 90% of retailers have a loyalty program (Accenture).
- ✓ Creates brand loyalty for 79% of consumers (Bond).

Increases LTV

- ✓ 68% of consumers define brand loyalty as making repeat purchases (Yotpo).
- ✓ 75% of customers return to make more purchases if they are rewarded (Wirecard).

Improves ROI

- ✓ 75% of companies that issue loyalty rewards generate a positive ROI (Experian).
- ✓ A 5% boost in customer retention translates to a 25% increase in profits (Bain & Company).

acQyr eXchange – targeted offers and rewards to reduce CAC and increase LTV

Bringing the profit-generating success of retail loyalty programs to the gaming industry.

“We view targeted offers and rewards as a strategic imperative for our Company.” Head of Corporate Development for Rovio – publisher of Angry Birds.

Phased market launch and expansion strategy

We are launching in the video/mobile gaming market. We plan to drive revenue growth through a focused B2B2C marketing plan.

Phased rollout of market and fintech functionality

B2B2C Marketing Plan

Member acquisition & retention through partnerships with game publishers and developers

MVP Launch – Phase 1

... track, exchange, and redeem digital assets issued in-game

- Announced and launched in 4Q20
 - \$500,000 506 (b) launch funding round closed in 2H20
 - Ported platform to Amazon AWS for long-term scaling
 - Added modern QX app for gamer's use and membership
- Services games that currently issue rewards and other valued assets in-game

QX Offers/Rewards Platform in 2021 Phase 2 and 3)

Become market leading platform for targeted offers and personalized rewards within the mobile and video gaming marketplace

Delivering a powerful offers/rewards platform (Phase 2/3)

QX enables game publishers and developers with targeted offers and loyalty rewards that reduce their customer acquisition costs and increase the life-time value of their gamers.

Business Outlook

We will work to drive financial growth through multiple revenue streams.

How do we make money with QX?

We work with market partners to drive member growth in the download and use of our QX app (B2B2C). Member and transaction growth drive our revenues, EBITDA, and profitability.

- ✓ **Transaction fees** whenever members earn or redeem their issued Rewards.
- ✓ **Marketing fees** from our value-added market partners.
- ✓ **Membership fees** for premium membership.
- ✓ **Service fees** from our fintech partners.
- ✓ **Interchange fees** from premium member purchases.

Our game publisher partners acquire and retain QX membership

Our go-to-market strategy is focused on driving QX membership through our game publisher partners

We access and capture the gamers who play frequently and spend often

acQyr eXchange Member goals *

* Less than 0.12% of worldwide gamer population from less than 1% of all game publishers.

Why Us?

We bring vetted IP, industry knowledge, partnerships, and seasoned entrepreneurial leadership with prior successful businesses and exits.
