The Company commenced operations pursuant to its FINRA Membership Agreement on July 21, 2014.

Note 2—Significant Accounting Policies

Basis of Presentation:

The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The following is a summary of the significant accounting and reporting policies used in preparing the financial statements.

Management’s Use of Estimates:

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could materially differ from those estimates.

Revenue Recognition:

Revenue is comprised of fees from marketing and placement services (“Marketing and Placement Fees”) performed by the Company as outlined in the marketing agreement (“Marketing Agreement”) entered into with the Investment Advisor. Revenue is recognized when it is earned in accordance with the Marketing Agreement. Placement Fees of 0.06% are earned based on capital raised by the Company for the Investment Advisor’s private placement and mutual funds. To ensure that the Company is adequately compensated for providing direct marketing services to the Investment Advisor, the Company receives Marketing Fees equal to 2.5% over the total operating expenses incurred for the year, less Placement Fees recognized. In no event will Marketing Fees be less than zero.

Revenue from fees is disaggregated by marketing and placement services for the year ended December 31, 2022 as follows:

Marketing Services Fees.....	\$	4,377
Placement Services Fees.....		<u>495</u>
Total Revenue.....	\$	<u><u>4,872</u></u>

PZENA FINANCIAL SERVICES, LLC
(A DELAWARE Limited Liability Company)
Notes to Financial Statements (Continued)
December 31, 2022

Employee Costs – Commission:

Commissions to registered representatives for services performed during the year are recognized as accrued expenses on the statement of financial condition with a corresponding expense on the statement of operations.

Concentrations of Credit Risk:

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash.

Facilities:

Payments as outlined in the space-sharing agreement between the Company and the Investment Advisor are recognized as an expense in the statement of operations over the period of the agreement.

Income Taxes:

The Company is a limited liability company that is a disregarded entity for tax purposes and files consolidated returns with the Investment Advisor. The Investment Advisor is a limited liability company that has elected to be treated as a partnership for tax purposes. It does not make a provision for federal or state income taxes because it is the individual responsibility of the Investment Advisor's members to separately report their proportionate share of the Company's taxable income or loss. The Investment Advisor makes a provision for New York City Unincorporated Business Tax ("UBT"). Pursuant to the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, the Company has elected to recognize its income tax expense using the pro rata allocation methodology reflecting current and deferred income taxes based on the pro rata contribution to the consolidated tax expense or benefit. The Company has made a provision for New York City UBT.

The Company accounts for income taxes pursuant to the asset and liability method in accordance with the FASB ASC 740. Under the asset and liability method, deferred income taxes are recognized for the tax consequences of differences between amounts reported for financial reporting and income tax purposes by applying enacted statutory tax rates. Deferred taxes result primarily from future tax benefit or consequences attributable to temporary differences arising from the variance between the book and tax basis of certain assets. The Company records its deferred tax asset on the statement of financial condition.

Uncertainty in income tax positions is accounted for by recognizing in the financial statements the benefit of a tax position when it is more-likely-than-not that the tax position would be sustained upon examination by the tax authorities based on the technical merits of the position.

As of December 31, 2022, no tax benefit or liabilities were recognized for uncertainties related to current year income tax positions. The Company classifies any interest and penalties as a component of income tax expense if incurred. To date, there have been no interest or penalties charged or accrued in relation to unrecognized tax benefits.

The Investment Advisor is generally no longer subject to U.S. Federal or state and local income tax examinations by tax authorities for any year prior to 2019. All tax years subsequent to, and including, 2019 are considered open and subject to examination by tax authorities.

The *Income Taxes Topic* of the FASB ASC establishes the minimum threshold for recognizing, and a system for measuring, the benefits of tax return positions in financial statements.
