PMF TEI Fund, L.P., File No. 811-22942

Dear Mr. Zornada:

On February 20, 2014, you filed registration statements on Form N-2 on behalf of The Endowment PMF Master Fund, L.P. (the "Master Fund"), PMF Fund, L.P. (the "PMF Fund"), and PMF TEI Fund, L.P. (the "TEI Fund" and, with the Master Fund and the PMF Fund, the "Funds") in connection with the registration of the Funds, pursuant to the Investment Company Act of 1940 (the "Investment Company Act"). We have reviewed the registration statements, and have provided our comments below. For convenience, we generally organized our comments using headings, defined terms, and page numbers from the registration statements. Where a comment is made in one location of a registration statement, it is applicable to all similar disclosure appearing elsewhere in the registration statements.

The Endowment PMF Master Fund, L.P.

PROSPECTUS

Item 3 — Fee Table (Page 1)

1. Please delete the caption "Total Annual Fund Operating Expenses" from the Fee Table. See Item 3.1 of Form N-2. Also, since the Fee Table expenses are not reduced by a contractual waiver/reimbursement agreement, please delete any reference to the agreement in the Fee Table and the accompanying notes.

Item 8 — General Description of the Registrant (Page 2)

2. The third paragraph of this section states that the Master Fund's investment objective involves the management of a portfolio of underlying investment funds ("Investment Funds"). Please describe in this section the specific types of Investment Funds that are included in the Master Fund (e.g., hedge funds), and provide examples of the types of investments held by these Investment Funds.

General Risks — Ability to Borrow (Page 4)

3. Please disclose the expenses related to borrowing in a line item captioned "Interest Payments on Borrowed Funds" in the Fee Table. See Item 3.1 of Form N-2.

Special Risks of the Fund of Funds Structure — Indemnification of Investment Funds and Investment Managers (Page 9)

4. This section states that the Master Fund may agree to indemnify the Investment Funds and the investment managers of the Investment Funds and their officers, directors, and affiliates from any liability, damage, cost, or expense arising out of acts or omissions relating to the offer or sale of limited partnership interests ("Interests"). Please explain to us why it is appropriate for the Master Fund to indemnify all such parties.

Investment Related Risks — High Yield Debt; Distressed Debt (Page 11)

5. This section describes the risks associated with junk bond investments. Please include the term "speculative" in describing the investment characteristics of these securities.

Item 9.1(a) — "Management of the Master Fund - The Board of Directors" (Page 26)

6. The second paragraph of this section states that "Partners holding at least 20% of the Master Fund's Interests may nominate a Director to fill a vacancy." However, disclosure in the *Nominating Committee* section on page 35 of the prospectus states that the Nominating Committee, which comprises all Independent Directors, "recommends nominations for membership on the Board" and "is solely responsible for the selection and nomination of potential candidates to serve on the Board," and also states that "[o]nly Independent Directors may nominate other Independent Directors." Please revise the disclosures in this section and on page 35 of the prospectus to provide clear and consistent disclosures of the Nominating Committee's responsibility regarding the nomination of directors, and the ability of partners to nominate directors.

Additional Investment Policies — Fundamental Policies (Page 31)

7. The second fundamental policy described in this section provides that the Master Fund may invest in Investment Funds that concentrate in one or more industries, but that it will not

invest 25% or more of the value of its assets in Investment Funds that focus on investing in any single industry or group of related industries. Please add disclosure indicating that the Fund will consider the concentration of Investment Funds when determining compliance with its concentration policy. In our view, although the Master Fund may invest in Investment Funds which concentrate, the Master Fund may not ignore the concentration of Investment Funds when determining whether the Master Fund is in compliance with its own concentration policy. For example, it would be a violation of the Master Fund's concentration policy for the Master Fund to invest all its assets in Investment Funds that the Fund knows concentrate in a particular industry or group of related industries.

PMF Fund, L.P. and PMF TEI Fund, L.P.

We are continuing to discuss this matter with the Division of Corporation Finance, and may have further comments based on these ongoing discussions.
