Dear Mr. Golan:

We have reviewed your draft registration statement and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter by providing the requested information and either submitting an amended draft registration statement or publicly filing your registration statement on EDGAR. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing the information you provide in response to these comments and your amended draft registration statement or filed registration statement, we may have additional comments.

General

1. If our comments are applicable to portions of the filings that we have not cited, please make the appropriate changes elsewhere in the filing in accordance with our comments.
2. Please submit all exhibits as soon as practicable. We may have further comments upon examination of these exhibits.
3. Please confirm that the graphics included in your registration statement are the only graphic, visual, or photographic information you will use in your prospectus. If those are not the only graphics, please provide any additional graphics prior to their use for our review.

4. Please supplementally provide us with copies of all written communications, as defined in Rule 405 under the Securities Act, that you, or anyone authorized to do so on your behalf, present to potential investors in reliance on Section 5(d) of the Securities Act, whether or not they retain copies of the communications. Similarly, please supplementally provide us with any research reports about you that are published or distributed in reliance upon Section 2(a)(3) of the Securities Act of 1933 added by Section 105(a) of the Jumpstart Our Business Startups Act by any broker or dealer that is participating or will participate in your offering.

#### Prospectus Summary

##### Our Solutions for Parkinson's Disease - Our Lead Product Candidates, page 4

5. We note your statement here and elsewhere in your registration statement that you expect to receive marketing approval in the United States and Europe for ND0612, ND0612HD, ND0680, and ND0701 by the end of 2017. Please revise your disclosure here and throughout your registration to explain that this is a preliminary estimate, that these product candidates are still in early stages of clinical trials, and that you have not yet filed any IND in the United States or similar filings in Europe with respect to these product candidates.

#### Risk Factors, page 7

6. Please expand your disclosure to add a bullet point regarding the risks associated with your ability to obtain and maintain protection for your intellectual property, including the fact that because your product candidates are reformulations of existing drugs, your ability to obtain patent protection for certain types of claims are limited.

#### Risk Factors

##### "We may need substantial additional capital in the future..." page 14

7. Please expand this risk factor to disclose how long you expect your available cash and the net proceeds from this offering will be sufficient to fund your current operations.

##### "We may not benefit from the regulatory data protection..." page 25

8. Please explain what you mean by "the standard '8+2(+1)' marketing and regulatory data exclusivity protection" the first time you reference this concept.

##### "We may be subject to claims that we infringe..." page 32

9. Please expand this risk factor to discuss any risks associated with the fact that your product candidates are reformulations of existing drugs and may be subject to claims that such reformulations or uses violate the intellectual property rights of others relating to the underlying drugs.

“We depend on our executive officers and skilled personnel...” page 33

10. Please expand this risk factor to identify the skilled personnel who are essential to your growth and development, other than your executive officers.

“As a foreign private issuer we will not be subject to U.S. proxy rules...” page 36

11. Assuming that, as a foreign private issuer, you are eligible to disclose the annual compensation of your executive officers and directors on an aggregate basis, disclose in this risk factor that, should you lose your foreign private issuer status, you would become subject to the more rigorous executive compensation disclosure requirements of domestic issuers, including the requirement that the annual compensation of your named officers and directors be disclosed on an individual basis.

“We may be classified as a Passive Foreign Investment Company...” page 38

12. Briefly define a passive foreign investment company (“PFIC”) in this risk factor. Further disclose that you do not intend to provide the information that would enable investors to take a qualified electing fund (“QEF”) election that could mitigate the adverse U.S. federal income tax consequences should you be classified as a PFIC (see p. 139).

“We will incur increased costs as a result of operating as a public company...” page 38

13. Please include in this risk factor an estimate of the annual costs you will incur as a result of your reporting requirements under the Exchange Act.”

Foreign currency exchange risk, page 64

17. We note your statement that an increase in the value of the NIS against the U.S. dollar would have caused a decrease in your operating loss in 2013; yet, elsewhere, such as on page 34, you state that an appreciation of the NIS would increase the dollar cost of your operations in Israel and thereby adversely affect your results of operations. Please revise or advise accordingly.

Also, please note that we are deferring a final evaluation of any stock compensation and other costs for future equity issuances including options, warrants, ordinary shares, and preference shares until the amendment containing the estimated offering price is filed.

In this regard, the standards you identify (IFRS 10, 11, 12 and IAS 19R) were required to be applied beginning January 1, 2013 and you should know whether their adoption materially impacted your financial position and/or results of operations.
