Dear Mr. Buono:

We have reviewed your draft registration statement and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter by providing the requested information and either submitting an amended draft registration statement or publicly filing your registration statement on EDGAR. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing the information you provide in response to these comments and your amended draft registration statement or filed registration statement, we may have additional comments.

Summary
Our Business
Overview, page 1

1. Please revise your prospectus summary to remove the discussion of the results of your Phase 3 trial of Lutathera including your reference to p-values and what they indicate about the statistical significance of results observed during the trial. Your discussion of such information should be limited to sections of the prospectus where additional detailed information on clinical results provides context for evaluating such information.
2. Please define the term "orphan drug designation" the first time this term is used.

3. Please revise your disclosure to explain what it means to perform a “partial lock-up” of your Phase 3 trials and how it compares to a “complete lock-up.”

Use of Proceeds, page 59

4. Please revise your fifth bullet point in this section to disclose how far in the development process the allocated proceeds will allow you to reach with respect to Annexin V-128 and Somakit.

Business
Strategy, page 94

5. In light of the inherent uncertainty with respect to the timing of obtaining regulatory approval, please remove your statement that you anticipate obtaining FDA and/or EMA approval by the end of 2016.

6. We note your disclosure that “the safety profile initially observed in the study was consistent with that observed in the Phase 1/2 Erasmus Study.” Please revise your disclosure to describe the initial safety profile observations made in the Phase 3 study including the extent and frequency with which patients experienced severe adverse events.

8. We note your disclosure concerning your entry into an exclusive distribution and license agreement for Lutathera in Japan with FUJIFILM RI Pharma Co., Ltd. in June 2015. Please revise your disclosure to further describe the material terms of this agreement including agreement including the rights and obligations of the parties, any material payment obligations, and term and termination provisions. Please also file the agreement as an exhibit or provide an analysis as to why it is not required to be filed.
