Notes to the Financial Statement	3-7

**Report of Independent Registered Public Accounting Firm**

---

To the Member of  
Avior Capital Markets US, LLC

**Opinion on the Financial Statement**

We have audited the accompanying statement of financial condition of Avior Capital Markets US, LLC (the "Company") as of April 30, 2022, and the related notes (collectively referred to as the "financial statement"). In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of Avior Capital Markets US, LLC as of April 30, 2022 in conformity with accounting principles generally accepted in the United States of America.

**Basis for Opinion**

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

*Ernst Winter & Associates LLP*

We have served as Avior Capital Markets US, LLC's auditor since 2021.

The accompanying notes are an integral part of these financial statements.

## **Note 1 - Organization and nature of business**

Avior Capital Markets US, LLC (the "Company") was incorporated in Delaware on February 1, 2019. The Company is a broker-dealer registered with the U.S Securities and Exchange Commission (the "SEC"). The Company became a member of the Financial Industry Regulatory Authority ("FINRA") effective March 19, 2020 and is a member of the Securities Investor Protection Corp ("SIPC"). The Company is a wholly owned subsidiary of Avior Capital Markets International, Ltd. (the "Parent"). The Company operates out of its sole office in New York City. The Company provides services to an affiliate and non-affiliated broker dealers in distributing research reports to qualified institutional buyers ("QIBs") in the United States of America ("U.S"). The Company earns chaperoning service fees in its capacity to effect securities transactions with these QIBs pursuant to the requirements set forth in SEC Rule 15a-6 "Exemption of Certain Foreign Brokers or Dealers".

There have been no material changes to the nature of the Company's business from the prior year.

## **Note 2 – Summary of Significant Accounting Policies**

The principal accounting policies applied in the preparation of these financial statements are set out below.

### **Basis of presentation**

The financial statements have been prepared in accordance with, and in compliance with, accounting principles generally accepted in the United States of America ("U.S GAAP").

### **Use of estimates**

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

### **Fair Value of Financial Instruments**

Unless otherwise indicated, the fair values of all reported assets and liabilities that represent financial instruments (none of which are held for trading purposes) approximate the carrying values of such amounts.

### **Cash and Cash Equivalents**

The Company considers all demand deposits held in banks and certain highly liquid investments with original maturities of three months or less, other than those held for sale in the ordinary course of business, to be cash equivalents. As of April 30, 2022, there were no cash equivalents held by the Company.

### **Accounts Receivable**

Accounts receivable represents amounts that have been billed to clients in accordance with the Company's chaperoning agreements with respective clients that have not yet been collected. The Company accounts for estimated credit losses on financial assets measured at an amortized cost basis in accordance with FASB ASC 326-20, Financial Instruments – Credit Losses. FASB ASC 326-20 requires the Company to estimate expected credit losses over the life of its financial assets as of the reporting date based on relevant information about past events, current conditions, and reasonable and supportable forecasts.

## **Note 2 – Summary of Significant Accounting Policies (continued)**

The Company records the estimate of expected credit losses as an allowance for credit losses. For financial assets measured at an amortized cost basis the allowance for credit losses is reported as a valuation account on the Statement of Financial Condition that is deducted from the asset's amortized cost basis. Changes in the allowance for credit losses are reported as credit loss expense on the Statement of Income. Per management's analysis, no allowance for credit losses was considered necessary as of April 30, 2022.

### **Income Taxes**

The Company follows an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

The determination of the Company's provision for income taxes requires significant judgment, the use of estimates, and the interpretation and application of complex tax laws. Significant judgment is required in assessing the timing and amounts of deductible and taxable items and the probability of sustaining uncertain tax positions. The benefits of uncertain tax positions are recorded in the Company's financial statements only after determining a more-likely-than-not probability that the uncertain tax positions will withstand challenge, if any, from tax authorities. When facts and circumstances change, the Company reassesses these probabilities and records any changes in the financial statements as appropriate. Accrued interest and penalties related to income tax matters are classified as a component of income tax expense.

In accordance with U.S. GAAP, the Company is required to determine whether a tax position of the Company is more-likely-than-not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position.

The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized could result in the Company recording a tax liability that would reduce member's equity. This policy also provides guidance on thresholds, measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition that is intended to provide better financial statement comparability among different entities. Management's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof.

The Company files its income tax returns in the U.S. federal and various state and local jurisdictions and has elected to be taxed as a corporation. Generally, the Company is subject to income tax examinations by major taxing authorities. Any potential examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with U.S. federal, state, local and foreign tax laws. The Company recognizes and measures unrecognized tax benefits in accordance with FASB ASC 740, "Income Taxes". Under the guidance the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon the examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change.

## **Note 2 – Summary of Significant Accounting Policies (continued)**

At April 30, 2022, management has determined that the Company had no uncertain tax positions that would require financial statement recognition.

### **Leases**

The Company has elected the package of practical expedients permitted in ASC Topic 842. Accordingly, the Company accounted for its existing operating lease as an operating lease under the guidance, without reassessing (a) whether the contract contains a lease under ASC Topic 842, (b) whether classification of the operating lease would be different in accordance with ASC Topic 842, or (c) whether the unamortized initial direct costs before transition adjustments (as of March 18, 2020) would have met the definition of initial direct costs in ASC Topic 842 at lease commencement. The Company defines a short-term lease as a lease that, at the commencement date, has a lease term of 12 months or less and does not contain an option to purchase the underlying asset that the lease is reasonably certain to exercise. The Company elected to recognize short-term lease payments as an expense on a straight-line basis over the lease term. Related variable lease payments are recognized in the period in which the obligation is incurred.

## **Note 3 – Revenue from Contracts with Customers**

In accordance with ASU No. 2014-09, “Revenue from Contracts with Customers” (“ASC Topic 606”) revenue is recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which the entity expects to be entitled in exchange for those goods or services. ASC Topic 606 requires an entity to follow a five-step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and recognize revenue when (or as) the entity satisfies a performance obligation. In determining the transaction price, an entity may include variable consideration only to the extent that is probable that a significant reversal in the amount of the cumulative revenue recognized would not occur when the uncertainty associated with the variable consideration is resolved. The revenue recognition guidance does not apply to revenue associated with financial instruments, interest income and expense, leasing and insurance contracts.

Significant judgement is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company’s progress under the contract; and whether constraints on variable consideration should be applied due to uncertain future events.

The Company earns fee revenue for providing chaperoning services to clients executing securities transactions with an affiliate and non-affiliated foreign broker dealers of the Company. The Company’s performance obligation is satisfied over time as it provides services to the client.

The Company earns service fee revenue from its Parent for providing monthly chaperoning services pursuant to Rule 15a-6 of the Securities Exchange Commission. The Company’s service fee is determined based upon specified monthly expenses incurred by the Company plus a mark-up of 5%. The Company satisfies its performance obligations over time, which is typically monthly by performing required services in accordance with Rule 15a-6 of the Securities Exchange Commission.

**Note 3 – Revenue from Contracts with Customers (continued)**

**Contract Balances**

Income is recognized upon completion of the related performance obligation and when an unconditional right to payment exists. The timing of revenue recognition may differ from the timing of customer payments. A receivable is recognized when a performance obligation is met prior to receiving payment by the customer. Receivables related to revenue from contracts with customers totalled \$12,250 and \$19,133 as of May 1, 2021 and April 30, 2022, respectively.

Alternatively, fees received prior to the completion of the performance obligation are recorded as deferred revenue on the Statement of Financial Condition until such time when the performance obligation is met.

**Note 4 - Related Party Transactions**

Effective April 1, 2020 the Company entered into a “Cost Plus Agreement” with its Parent and Avior Capital Markets Proprietary Limited, an affiliate. As explained in Note 1, the primary purpose of the Company is to enable distribution of research into the USA among QIBs and to enable trading and settlement activities between its Parent and U.S. QIBs. The Company charges 100% of all of its costs incurred plus a 5% mark up to its Parent for services provided. The Company had a receivable from parent on the Statement of Financial Condition at April 30, 2022 of \$78,371.

The Company has a \$100,000 loan from Parent subordinated to claims of general creditors. The loan was approved by FINRA on November 4, 2021 and has an expiration date of November 5, 2024. The loan has an 8% interest rate payable annually through the expiration of the loan.

**Note 5 – Net Capital Requirements**

The Company is subject to the SEC Uniform Net Capital Rule 15c3-1. This rule requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1, and that member’s equity may not be withdrawn if the resulting net capital ratio would exceed 10 to 1.

At April 30, 2022, the Company’s net capital was \$548,659 which was \$298,659 in excess of its minimum requirement of \$250,000 under SEC Rule 15c3-1. The Company’s net capital ratio was .77 to 1.

The Company qualifies under the exemptive provisions of Rule 15c3-3 under sub-paragraph k(2)(i) as the Company does not carry security accounts for customers or perform custodial functions related to customer securities.

**Note 6 - Commitments and Contingencies**

The Company is subject to various regulatory examinations that arise in the ordinary course of business. In the opinion of management, results of these examinations will not materially affect the Company's financial position or results of operations.

The Company leases office space at the rate of \$1,010 per month. The lease expired February 28, 2022. The Company continues its lease agreement on a month-to-month basis with the existing landlord.

### **Note 7 - Risk Concentrations**

Financial instruments that potentially subject the Company to significant concentration of credit risk consist principally of cash. For the year ended April 30, 2022, the Company maintains cash balances which, at times, may exceed federally insured limits. The Company has not experienced losses on its cash deposits.

At April 30, 2022, 100% of accounts receivable was due from four customers.

### **Note 8 - Covid-19**

The global pandemic caused by COVID-19 resulted in a high level of uncertainty and volatility that impacted businesses in all sectors.

At this stage, the impact to the Company's business and financial results has not been significant based on the type of business conducted. Based on management's experience to date, management expects this to remain the case. The Company has taken certain health and safety operational measures and continues to follow government policies and advice. While there has not been a material impact thus far, the timeframe and outcome of the pandemic are uncertain.

### **Note 9 - Subsequent Events**

Management has evaluated the Company's events and transactions that occurred subsequent to April 30, 2022, through July 20, 2022 the date of issuance of these financial statements. There were no events or transactions that occurred during this period that materially impacted the amounts or disclosures in the Company's financial statements.
